PROXY STATEMENT

FOR THE ANNUAL MEETING OF STOCKHOLDERS

TO BE HELD MAY 29, 2014

VOTING

Voting Rights

Only stockholders of record of DexCom, Inc. (DexCom or the Company) common stock on April 4, 2014, the record date, will be entitled to vote at the annual meeting. Each holder of record will be entitled to one vote on each matter for each share of common stock held on the record date. On the record date, there were 74,811,158 shares of common stock outstanding.

The holders of a majority of the outstanding shares of common stock entitled to vote at the annual meeting must be present or represented by proxy at the annual meeting in order to have a quorum. Abstentions and broker non-votes will be treated as shares present for the purpose of determining the presence of a quorum for the transaction of business at the annual meeting. A broker non-vote occurs when a bank, broker or other holder of record holding shares for a beneficial owner submits a proxy for the annual meeting but does not vote on a particular proposal, except for Proposal No. 2, because that holder does not have discretionary voting power with respect to that proposal and has not received instructions from the beneficial owner. If the persons present or represented by proxy at the annual meeting constitute the holders of less than a majority of the outstanding shares of common stock entitled to vote at the annual meeting, the annual meeting may be adjourned by the chairperson of the annual meeting to a subsequent date for the purpose of obtaining a quorum.

In an election of directors, our Bylaws and our Corporate Governance Principles require that directors must be elected by a majority of the votes cast in uncontested elections. This means that the number of votes cast For a director nominee must exceed the number of votes cast Against that nominee. Abstentions and, if applicable, broker non-votes are not counted as votes For or Against a director nominee and have no effect on the election of directors. Each current director and any director nominee must, promptly following such person's election or re-election submit to the Board an irrevocable resignation effective upon such person's failure to receive the required vote at the next annual meeting at which they face re-election. Following an uncontested election in which any nominee who does not receive a majority of votes cast For his or her election, the Board is required to decide whether to accept such resignation, and it will disclose its decision-making process. In contested elections, the required vote would be a plurality of votes cast. Full details of this policy are set forth in our Corporate Governance Principles, which is available at <http://investor.shareholder.com/dexcom/governance.cfm>.

The other proposals require the approval of a majority of shares present and entitled to vote on the matter either in person or by proxy. Abstentions and broker non-votes will not be counted for any purpose in determining whether these proposals have been approved.

On each matter to be voted upon, stockholders of record have one vote for each share of common stock owned by them as of the close of business on April 4, 2014, the record date for the annual meeting. Stockholders may not cumulate votes in the election of directors.

Admission to Meeting

You are entitled to attend the annual meeting if you were a stockholder of record or a beneficial owner of our common stock as of April 4, 2014, the record date, or you hold a valid legal proxy for the annual meeting. If you are a stockholder of record, you may be asked to present valid picture identification, such as a driver's license or passport, for admission to the annual meeting.

If you are a beneficial owner of shares registered in the name of your broker, bank or other agent, you should have received a voting instruction card and voting instructions with these proxy materials from that organization rather than from us. Simply complete and mail the voting instruction card to ensure that your vote is counted. To vote in person at the annual meeting, you must obtain a valid proxy from your broker, bank or other agent. Follow the instructions from your broker, bank or other agent included with these proxy materials, or contact your broker, bank or other agent to request a proxy form.

Recommendations of the Board of Directors

DexCom's Board of Directors recommends that you vote:

FOR each of the nominees of the Board of Directors (Proposal No. 1);

FOR the ratification of the appointment of Ernst & Young LLP as DexCom's independent registered public accounting firm for the fiscal year ending December 31, 2014 (Proposal No. 2); and

FOR the non-binding advisory resolution to approve executive compensation (Proposal No. 3).

Voting via the Internet, by Telephone or by Mail

Holders of shares of DexCom common stock whose shares are registered in their own name with DexCom's transfer agent, American Stock Transfer & Trust Company, are record holders. As an alternative to voting in person at the annual meeting, record holders may vote via the Internet, by telephone or, for those stockholders who receive a paper proxy card in the mail, by mailing a completed proxy card.

For those record holders who receive a paper proxy card, instructions for voting via the Internet, telephone or by mail are set forth on the proxy card. If you are a stockholder who elects to vote by mail, you should sign and mail the proxy card in the addressed, postage paid envelope that was enclosed with the proxy materials, and your shares will be voted at the annual meeting in the manner you direct. In the event that you return a signed proxy card on which no directions are specified, your shares will be voted **FOR** each of the nominees of the Board of Directors (Proposal No. 1), **FOR** the ratification of the appointment of Ernst & Young LLP as DexCom's independent registered public accounting firm for the fiscal year ending December 31, 2014 (Proposal No. 2) and **FOR** the non-binding advisory resolution to approve executive compensation (Proposal No. 3), and in the discretion of the proxy holders as to any other matters that may properly come before the annual meeting or any postponement or adjournment of the annual meeting.

DexCom stockholders whose shares are not registered in their own name with American Stock Transfer & Trust, are beneficial holders of shares held in street name. Such shares may be held in an account at a bank or at a brokerage firm (your record holder). As the beneficial holder, you have the right to direct your record holder on how to vote your shares, and you will receive instructions from your record holder that must be followed in order for your record holder to vote your shares per your instructions. Many banks and brokerage firms have a process for their beneficial holders to provide instructions via the Internet or by telephone. If Internet or telephone voting is unavailable from your record holder, simply complete and mail the voting instruction card provided to you by your record holder to ensure that your vote is counted. If your shares are held beneficially in street name and you have not given your record holder voting instructions, your record holder will not be able to vote your shares with respect to any matter other than ratification of the appointment of DexCom's independent registered public accounting firm. Shares held beneficially in street name may be voted by you in person at the annual meeting only if you obtain a legal proxy from your record holder giving you the right to vote such shares in person at the annual meeting.

For those stockholders who receive a Notice (described under "Internet Availability of Proxy Materials" below), the Notice provides information on how to access your proxy on the Internet, which contains instructions on how to vote via the Internet or by telephone. If you received a Notice, you can request a printed copy of your proxy materials by following the instructions contained in the notice.

Revocation of Proxies

You may revoke or change a previously delivered proxy at any time before the annual meeting by delivering another proxy with a later date, by voting again via the Internet or by telephone, or by delivering written notice of revocation of your proxy to DexCom's Secretary at DexCom's principal executive offices before the beginning of the annual meeting. You may also revoke your proxy by attending the annual meeting and voting in person, although attendance at the annual meeting will not, in and of itself, revoke a valid proxy that was previously delivered. If you hold shares through a bank or brokerage firm, you must contact that bank or brokerage firm to revoke any prior voting instructions. You also may revoke any prior voting instructions by voting in person at the annual meeting if you obtain a legal proxy as described under Admission to Meeting above.

Results of Annual Meeting

Preliminary voting results will be announced at the annual meeting. Final voting results will be published in a current report on Form 8-K no later than four business days after the date the annual meeting ends.

INTERNET AVAILABILITY OF PROXY MATERIALS

In accordance with the rules of the Securities and Exchange Commission (SEC), we are using the Internet as our primary means of furnishing proxy materials to stockholders. Consequently, most stockholders will not receive paper copies of our proxy materials. We will instead send these stockholders a Notice of Internet Availability of Proxy Materials with instructions for accessing the proxy materials, including our proxy statement and annual report, and voting via the Internet. The Notice also provides information on how stockholders may obtain paper copies of our proxy materials if they so choose. This makes the proxy distribution process more efficient and less costly, and helps conserve natural resources.

PROPOSAL 1

ELECTION OF DIRECTORS

As of the date of mailing of this proxy statement, our Board of Directors (the Board of Directors or Board) consists of eight members and is divided into three classes, each of which has a three-year term. Class I currently consists of Terrance H. Gregg, Kevin Sayer and Nicholas Augustinos, Class II currently consists of Jay S. Skyler, Barbara E. Kahn and Steven R. Altman, and Class III currently consists of Jonathan T. Lord and Eric J. Topol. Two Class III directors are to be elected at this annual meeting to serve until our 2017 Annual Meeting of Stockholders and until their successors are duly elected and qualified, or until their death, resignation or removal. The terms of the directors in Classes I and II expire at our 2015 and 2016 Annual Meetings of Stockholders, respectively.

The nominees for Class III directors are Jonathan T. Lord and Eric J. Topol. Dr. Lord and Dr. Topol are current directors. Dr. Lord was appointed by the Board in May 2008 and Dr. Topol was appointed by the Board in July 2009. Each of Dr. Lord and Dr. Topol has agreed to continue to serve as directors if elected, and we have no reason to believe that the nominees will be unable to serve.

Directors are elected by a majority of votes cast in an uncontested election. A majority of the votes cast means that the number of votes cast For a director nominee must exceed the number of votes cast Against that nominee. In contested elections (an election in which the number of nominees for election as director is greater than the number of directors to be elected) the vote standard would be a plurality of the votes cast.

In accordance with our Corporate Governance Principles (available on our website at www.dexcom.com), the Board will nominate for election only candidates who agree, if elected, to tender, promptly following such person's election or re-election, an irrevocable resignation that will be effective upon (i) such person's failure to receive the required vote at the next annual meeting at which they face re-election, and (ii) the Board's acceptance of such resignation, at which point, any unvested portion of annual equity grants to a director whose resignation becomes effective shall become fully vested. In addition, the Board will fill director vacancies and new directorships only with candidates who agree to tender the same form of resignation promptly following their appointment to the Board. Each of Dr. Lord and Dr. Topol has provided an irrevocable resignation.

If an incumbent director fails to receive the required vote for election, then, within 90 days following certification of the stockholder vote, the Board will disclose its decision-making process and decision regarding whether to accept the director's resignation offer (or the reason(s) for rejecting the resignation offer, if applicable) in a Form 8-K furnished to the SEC. Any director who tenders his or her resignation pursuant to this provision of our Corporate Governance Principles may not participate in the Board action regarding whether to accept the resignation offer.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR THE ELECTION OF THE NOMINEES NAMED ABOVE.

The following is biographical information as of April 4, 2014 for the nominees for Class III directors and each person whose term of office as a Class I or II director will continue after the annual meeting.

CORPORATE GOVERNANCE

Independence of the Board of Directors and its Committees

Under NASDAQ listing standards, a majority of the members of a listed company's board of directors must qualify as independent, as affirmatively determined by the board. Our Board of Directors consults with our counsel to ensure that the Board's determinations are consistent with all relevant securities and other laws and regulations regarding the definition of independent, including those set forth in applicable NASDAQ listing standards, as in effect from time to time.

Consistent with these considerations, after review of all relevant transactions and relationships between each director, or any of his or her family members, and us, our senior management and our independent registered public accounting firm, our Board of Directors has affirmatively determined that all of our directors are independent directors within the meaning of the applicable NASDAQ listing standards, except for Mr. Gregg, our Chief Executive Officer, and Mr. Sayer, our President and Chief Operating Officer. In making its independence determinations, the Board reviewed transactions and relationships with the director, or any member of his or her immediate family, us or one of our subsidiaries or affiliates, and our independent registered public accounting firm based on information provided by the director, our records and publicly available information. Specifically, the Board considered the following types of relationships and transactions: (i) principal employment of and other public company directorships held by each non-employee director; (ii) contracts or arrangements that are ongoing or which existed during any of the past three fiscal years between us and/or our subsidiaries or affiliates and any entity for which the non-employee director, or his or her immediate family member, is an executive officer or greater-than-10% stockholder; and (iii) contracts or arrangements that are ongoing or which existed during any of the past three fiscal years between us and/or our subsidiaries or affiliates and any other public company for which the non-employee director serves as a director.

As required under applicable NASDAQ listing standards, our independent directors meet in regularly scheduled executive sessions at which only independent directors are present. All of the committees of our Board of Directors are comprised entirely of directors determined by the Board to be independent within the meaning of applicable NASDAQ listing standards.

Our Board of Directors is led by an independent Chairman, Dr. Jonathan Lord, who assumed the role of Chairman on May 19, 2010. Our Chief Executive Officer, Mr. Gregg, and our President and Chief Operating Officer, Mr. Sayer, are the only members of the Board who are not independent directors. In accordance with applicable NASDAQ listing standards and as required by SEC rules and regulations, all committees of our Board of Directors are made up entirely of independent directors. We believe that this leadership structure facilitates the accountability of our Chief Executive Officer to the Board of Directors, strengthens the Board's independence from management and ensures that the independent directors maintain proper oversight of management. In addition, separation of the office of Chairman allows Mr. Gregg to focus on his duties as Chief Executive Officer. We do not have a formal policy requiring separation of the Chief Executive Officer and Chairman roles, and we may reconsider our leadership structure from time to time based on considerations at that time.

Board of Directors Role in Risk Oversight

Management continually monitors the material risks we face, including financial risk, strategic risk, operational risk, and legal and compliance risk. The Board of Directors is responsible for exercising oversight of management's identification and management of, and planning for, those risks. In fulfilling this oversight role, our Board of Directors focuses on understanding the nature of our enterprise risks, including our operations and strategic direction, as well as the adequacy of our risk management process and overall risk management system. Our Board of Directors performs these functions in a number of ways, including the following:

at its regularly scheduled meetings, the Board of Directors receives management updates on our business operations, financial results, compliance committee activities, and strategy and discusses risks related to the business;

the audit committee assists the Board of Directors in its oversight of risk management by discussing with management our guidelines and policies regarding financial and enterprise risk management, including major risk exposures, and the steps management has taken to monitor and mitigate such exposures; and

through management updates and committee reports, the Board monitors our risk management activities, including the enterprise risk management process, risks relating to our compensation programs, and financial and operational risks.

- (1) Mr. Altman joined the Board of Directors in November 2013 and was appointed to the compensation committee and nominating and governance committee in December 2013.

* Committee Chairperson
Audit Committee

The audit committee operates pursuant to a written charter that is available at <http://investor.shareholder.com/dexcom/governance.cfm>. The audit committee reviews and evaluates our financial statements, accounting practices and our internal accounting procedures, selects and engages our independent registered public accounting firm and reviews the results and scope of the audit and other services provided by our independent registered public accounting firm.

Audit Committee Financial Experts. Our Board of Directors has determined that Dr. Lord qualifies as an audit committee financial expert, as defined in applicable Securities and Exchange Commission (SEC), rules. In addition, each member of our audit committee possesses the financial qualifications required of audit committee members set forth in the rules and regulations of the NASDAQ Global Select Market. The Board made a qualitative assessment of the committee members level of knowledge and experience based on a number of factors, including formal education and experience.

Compensation Committee

The compensation committee operates pursuant to a written charter that is available at <http://investor.shareholder.com/dexcom/governance.cfm>. The compensation committee reviews and determines the compensation and benefits of our executive officers, reviews and recommends to our Board the compensation

for our non-employee directors, reviews annually and recommends to our Board cash-based and equity-based incentive compensation under our equity compensation and employee benefits plans and reviews our general policies relating to compensation and benefits. See *Executive Compensation Compensation Discussion and Analysis* later in this proxy statement for information concerning the committee's role, processes and activities in overseeing executive compensation.

Each member of this committee is a non-employee director, as defined in Rule 16b-3 promulgated under the Securities Exchange Act of 1934, as amended (the *Exchange Act*), and an outside director, as defined pursuant to Section 162(m) of the Internal Revenue Code of 1986, as amended (the *Code*). No member of the compensation committee has accepted directly or indirectly any consulting, advisory or other compensatory fee from the Company or any subsidiary thereof.

Compensation Committee Policies and Procedures. The compensation committee reviews management's recommendations for compensation and benefits for executive officers. The compensation committee reviews and determines the amount and composition of executive compensation to be paid to the executive officers, including the CEO.

The compensation committee annually reviews and evaluates base salary and bonuses for all executive officers, and in conducting such reviews, places primary consideration upon the recommendations by the CEO, along with the rationale for such recommendations, with the exception of the compensation review of the CEO himself. The CEO does not participate in the compensation committee's review or decision as to his compensation package. In establishing individual compensation levels, the compensation committee considers our overall strategic objectives and performance, our stock performance, peer group comparisons and individual performance. No formula is used to determine an executive's salary. Our overall performance and the achievement of financial and business objectives are considered.

Management's Role in the Compensation-Setting Process. Management, including our named executive officers, plays some role in the compensation-setting process. The most significant aspects of management's role are evaluating employee performance, assisting in establishing performance targets and objectives, and recommending salary levels and equity awards. The CEO works with the compensation committee in establishing the agenda for compensation committee meetings. Management also prepares meeting information for each compensation committee meeting.

Use of Compensation Consultants. The compensation committee has in the past engaged compensation consultants to conduct a review and analysis of how our compensation practices compare with our peer group of companies, including during 2011, 2012 and 2013.

Nominating and Governance Committee

The nominating and governance committee operates pursuant to a written charter that is available at <http://investor.shareholder.com/dexcom/governance.cfm>. The nominating and governance committee makes recommendations to our Board of Directors concerning candidates for election to our Board of Directors and oversees our compliance activities and other corporate governance matters.

The nominating and governance committee considers director nominees recommended by sitting directors, officers, employees, stockholders and others using the same criteria to evaluate all candidates. The nominating and governance committee reviews each candidate's qualifications, including whether a candidate possesses any of the specific qualities and skills desirable in certain members of the Board. Evaluations of candidates generally involve a review of background materials, internal discussions and interviews with selected candidates as appropriate. Upon selection of a qualified candidate, the nominating and governance committee recommends the candidate for consideration by the full Board. The nominating and governance committee may engage consultants or third-party search firms to assist in identifying and evaluating potential nominees, but has not done so to date.

Nominees for the Board should be committed to enhancing long-term stockholder value and must possess a high level of personal and professional ethics, sound business judgment and integrity. The Board's policy is to encourage selection of directors who will contribute to our overall corporate goals: responsibility to our stockholders, technology leadership in diabetes care, effective execution, high customer satisfaction and superior employee working environment. The nominating and governance committee may from time to time review the appropriate skills and characteristics required of Board members, including such factors as personal skills, diversity and professional experience in diabetes care, medical technology, finance, marketing, international business, financial reporting and other areas that are expected to contribute to an effective board of directors. In evaluating potential candidates for the Board, the nominating and governance committee considers these factors in the light of the specific needs of the Board at that time. While we do not have a formal policy with regard to the consideration of diversity in identifying director nominees, the nominating and governance committee strives to nominate directors with a variety of complementary skills so that, as a group, the Board will possess the appropriate talent, skills, and expertise to oversee our business effectively. Board members are expected to prepare for, attend and participate in meetings of the Board and committees on which they serve, and are strongly encouraged to attend our annual meetings of stockholders.

The nominating and governance committee will consider director candidates recommended by stockholders. The nominating and governance committee does not intend to alter the manner in which it evaluates candidates, including the minimum criteria set forth above, based on whether or not the candidate was recommended by a stockholder. Stockholders who wish to recommend individuals for consideration by the nominating and governance committee to become nominees for election to the Board at an annual meeting of stockholders must do so in accordance with the procedures set forth in *Stockholder Proposals for Annual Meeting* on page 37 of this proxy statement. Each submission must set forth: the name and address of the stockholder on whose behalf the submission is made; the number of our shares that are owned beneficially by such stockholder as of the date of the submission; the full name of the proposed candidate; a description of the proposed candidate's business experience for at least the previous five years; complete biographical information for the proposed candidate; and a description of the proposed candidate's qualifications as a director. To date, the nominating and governance committee has not received a director nominee from a stockholder or stockholders holding more than five percent of our voting stock.

Meetings of the Board of Directors and Board and Committee Member Attendance

Our Board of Directors met (including actions by unanimous written consent) seven times during the last fiscal year. Each Board member attended 75% or more of the aggregate of the meetings of the Board and of the committees on which he or she served, held during the period for which he or she was a director or committee member, respectively. We encourage all of our directors and nominees for director to attend our annual meeting of stockholders. All the members of our Board of Directors attended our annual meeting of stockholders in 2013, except for Mr. Altman, who was not appointed to the Board of Directors until November 2013.

Compensation Committee Interlocks and Insider Participation

None of the members of our compensation committee has at any time been one of our officers or employees. None of our executive officers serves or in the past has served as a member of the board of directors or compensation committee of any entity that has one or more of its executive officers serving on our Board of Directors or our compensation committee.

Code of Business Conduct and Ethics

We have adopted a Code of Conduct and Ethics for Employees and Directors that applies to all of our officers, directors and employees. We have also adopted an additional written code of ethics, the Code of Conduct and Ethics for Chief Executive Officer and Senior Finance Department Personnel, which applies to our principal executive officer, principal financial officer, chief operating officer, principal accounting officer,

controller and other employees of the finance department designated by our Chief Financial Officer (CFO). These codes are available at <http://investor.shareholder.com/dexcom/governance.cfm>. If we make any substantive amendments to the codes or grant any waiver from a provision of the codes to any executive officer or director, we will promptly disclose the nature of the amendment or waiver on our website, as well as via any other means then required by NASDAQ listing standards or applicable law.

In addition, the key practices and procedures of the Board are outlined in the Corporate Governance Principles available on our website at <http://investor.shareholder.com/dexcom/governance.cfm>.

Stockholder Communications with the Board of Directors

Should stockholders wish to communicate with the Board, such correspondences should be sent to the attention of the Secretary, at 6340 Sequence Drive, San Diego, California 92121. Our Secretary will forward the communication to the Board. We do not have a formal process by which stockholders may communicate directly with members of our Board of Directors. We believe that an informal process, in which any communication sent to the Board of Directors in care of the Secretary is generally to be forwarded to the Board of Directors, serves the needs of the Board and our stockholders.

DIRECTOR COMPENSATION

Annual Retainers Paid to Directors. During 2013, each of our non-employee directors was entitled to receive an annual retainer with a value equal to \$37,500. The Chairman of the Board, the Chairman of the audit committee, the Chairman of the compensation committee and the Chairman of the nominating and governance committee also received additional annual retainers with values equal to \$12,500, \$25,000, \$18,750 and \$12,500, respectively. Consistent with our philosophy to conserve our cash resources, directors were paid annual retainers and applicable chairmanship retainers through grants of restricted stock units with values correlating to the amounts set forth above during 2013. All of our directors, including our non-employee directors, are reimbursed for their reasonable expenses in attending Board of Directors and committee meetings.

Equity Awards Granted to Directors. Under our 2005 Equity Incentive Plan, our Board has discretion to determine the value and number of equity awards granted to non-employee directors from time to time. For 2013, other than the Chairman of the Board, each of our non-employee directors received an annual grant of restricted stock units with a fair value equivalent to \$156,250 based on the 60-day average fair market value prior to the date of grant. The Chairman of the Board received an annual restricted stock unit grant with a fair value equivalent to \$187,500 based on the 60-day average fair market value prior to the date of grant. Each restricted stock unit grant to our directors vests in one annual installment twelve months after the date of grant. Annual grants to our non-employee directors are made on the date of the annual meeting of stockholders. Incoming non-employee directors receive a one-time equity grant with a fair value of \$300,000 based on the 60-day average fair market value prior to the date of grant, which grant vests over a thirty-six month period in three equal annual installments. Vesting of outstanding equity awards held by directors is accelerated in full upon a change of control of our Company.

Director Compensation Table

The following table provides information for 2013 regarding all compensation awarded to, earned by or paid to each person who served as a non-employee director for some portion or all of 2013. for attending Board and committee meetings, reimbursed any expenses of our directors, made any equity or non-equity awards to directors, or paid any other compensation to directors.

PROPOSAL 2**RATIFICATION OF SELECTION OF INDEPENDENT****REGISTERED PUBLIC ACCOUNTING FIRM**

The audit committee of our Board of Directors has engaged Ernst & Young LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2014 and is seeking ratification of such selection by our stockholders at the annual meeting. Ernst & Young LLP has audited our financial statements since 1999. Representatives of Ernst & Young LLP are expected to be present at the annual meeting. They will have an opportunity to make a statement if they so desire and will be available to respond to appropriate questions.

Neither our bylaws nor other governing documents or law require stockholder ratification of the selection of Ernst & Young LLP as our independent registered public accounting firm. However, the audit committee is submitting the selection of Ernst & Young LLP to our stockholders for ratification as a matter of good corporate practice. If our stockholders fail to ratify the selection, the audit committee will reconsider whether or not to retain Ernst & Young LLP. Even if the selection is ratified, the audit committee in its discretion may direct the appointment of a different independent registered public accounting firm at any time during the year if they determine that such a change would be in our best interests and the best interests of our stockholders.

To be approved, the ratification of the selection of Ernst & Young LLP as our independent registered public accounting firm must receive a For vote from the majority of shares present and entitled to vote either in person or by proxy. Abstentions and broker non-votes will be counted towards a quorum, but will not be counted for any purpose in determining whether this matter has been approved.

Principal Accountant Fees and Services

The following table provides information regarding the fees billed to us by Ernst & Young LLP, our independent registered public accounting firm, for the fiscal years ended December 31, 2013 and 2012. All fees described below were approved by the audit committee.

Pre-Approval Policies and Procedures

Edgar Filing: DEXCOM INC - Form DEF 14A

The audit committee pre-approves all audit and non-audit services provided by the independent registered public accounting firm. This policy is set forth in the charter of the audit committee that is available at <http://investor.shareholder.com/dexcom/governance.cfm>.

The audit committee considered whether the non-audit services rendered by Ernst & Young LLP were compatible with maintaining Ernst & Young LLP's independence as the independent registered public accounting firm for auditing our consolidated financial statements and concluded they were.

Recommendation of the Board

THE BOARD RECOMMENDS A VOTE *FOR* THE RATIFICATION OF THE SELECTION OF ERNST & YOUNG LLP AS OUR INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FOR THE FISCAL YEAR ENDING DECEMBER 31, 2014.

REPORT OF THE AUDIT COMMITTEE OF THE BOARD OF DIRECTORS

The material in this report is not soliciting material, is not deemed filed with the Securities and Exchange Commission, and is not to be incorporated by reference into any filing of DexCom under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended.

The primary purpose of the audit committee is to oversee DexCom's financial reporting processes on behalf of the Board of Directors. The audit committee's functions are more fully described in the audit committee charter, which is available at <http://investor.shareholder.com/dexcom/governance.cfm>. Management has the primary responsibility for DexCom's financial statements and reporting processes, including its systems of internal controls. In fulfilling its oversight responsibilities, the audit committee reviewed and discussed with management DexCom's audited financial statements as of and for the fiscal year ended December 31, 2013.

The audit committee reviewed with Ernst & Young LLP such matters as are required to be discussed with the audit committee under generally accepted auditing standards, including the matters required to be discussed by Public Company Accounting Oversight Board (PCAOB) Auditing Standard No. 16, Communications with Audit Committees. In addition, the audit committee discussed with Ernst & Young LLP their independence, and received from Ernst & Young LLP the written disclosures and the letter required by Ethics and Independence Rule 3526 of the PCAOB. Finally, the audit committee discussed with Ernst & Young LLP, with and without management present, the scope and results of Ernst & Young LLP's audit of DexCom's consolidated financial statements, their evaluation of DexCom's internal controls, and the overall quality of DexCom's financial reporting.

Based on these reviews and discussions, the audit committee has recommended to the Board of Directors that such audited consolidated financial statements be included in DexCom's annual report on Form 10-K for the year ended December 31, 2013 for filing with the Securities and Exchange Commission. The audit committee also has engaged Ernst & Young LLP as DexCom's independent registered public accounting firm for the fiscal year ending December 31, 2014 and is seeking ratification of such selection by the stockholders.

PROPOSAL NO. 3

Advisory Vote on Executive Compensation

This matter is being submitted to enable stockholders to express views on the design and effectiveness of our executive compensation program. Our goal for our executive compensation program is to support our key strategic and financial goals, and to attract, motivate and retain a talented, entrepreneurial and creative team of executives who will provide leadership for our success. Our executive compensation program seeks to accomplish these goals in a way that rewards performance and is aligned with our stockholders' long-term interests. We believe that our executive compensation program, which minimizes base salary cash compensation relative to our peer group of companies as we work towards profitability, and emphasizes long-term equity awards as well as achievement of various financial and operational goals, satisfies this objective and is strongly aligned with the long-term interests of our stockholders. We believe the compensation program for our named executive officers was instrumental in helping us achieve strong performance in 2013, including generating a record full fiscal year product revenue of \$157.1 million, an increase of 69% on a year-over-year basis, and generating cash-based (non-GAAP) net income of \$5.2 million, the first time that we were cash-flow positive during a full fiscal year.

The Compensation Discussion and Analysis, beginning on page 22 of this proxy statement, describes our executive compensation program and the decisions made by the compensation committee in 2013 in more detail. Highlights of the program include the following:

froze 2013 base annual salary for both our CEO as well as our President and COO, and increased the annual base salary for our other named executive officers by an aggregate of approximately 2% as part of our goal to conserve cash;

maintained a meaningful proportion of potential cash compensation in our annual cash incentive award program, which awards are paid only upon achievement of various corporate financial and operational goals; and

maintained our cash compensation at approximately 50th percentile of our peer group and equity compensation at above the 75th percentile of our peer group to be consistent with the philosophy to favor equity compensation and conserve cash.

We are requesting that stockholders cast a non-binding advisory vote on the following resolution:

RESOLVED, that the compensation of our named executive officers, as disclosed pursuant to the SEC's compensation disclosure rules (which disclosure includes the Compensation Discussion and Analysis, the compensation tables and the narrative disclosures that accompany the compensation tables) is hereby APPROVED.

As an advisory vote, this proposal is not binding upon us. However, the compensation committee, which is responsible for designing and administering our executive compensation program, values the opinions expressed by stockholders in their vote on this proposal and will consider the outcome of the vote when making future compensation decisions for our named executive officers.

Recommendation of the Board

THE BOARD RECOMMENDS A VOTE FOR PROPOSAL NO. 3.

SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The following table presents information as to the beneficial ownership of our common stock as of April 4, 2014:

each stockholder known by us to be the beneficial owner of more than 5% of our common stock;

each of our directors;

each named executive officer as set forth in the summary compensation table below; and

all executive officers and directors as a group.

The percentage of shares beneficially owned is based on 74,811,158 shares of common stock outstanding as of April 4, 2014. Beneficial ownership is determined under the rules of the Securities and Exchange Commission and generally includes any shares over which a person exercises sole or shared voting or investment power. Unless indicated above, the persons and entities named below have sole voting and sole investment power with respect to all shares beneficially owned, subject to community property laws where applicable. Shares of common stock subject to options that are currently exercisable or exercisable and restricted stock units that will vest within 60 days of April 4, 2014 are deemed to be outstanding and to be beneficially owned by the person holding the options or restricted stock units for the purpose of computing the percentage ownership of that person but are not treated as outstanding for the purpose of computing the percentage ownership of any other person. Unless otherwise indicated, the address for each listed stockholder is c/o DexCom, Inc., 6340 Sequence Drive, San Diego, California 92121.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

The compensation committee of the Board of Directors has principal responsibility for establishing, implementing and continually monitoring adherence to our compensation philosophy and objectives. The committee's duties include evaluating the performance and advising the Board on the compensation of our Chief Executive Officer, and setting the compensation of our other executive officers and directors, as well as performing oversight of our compensation arrangements, plans, policies and programs for employees generally.

Executive Summary

We are a medical device company focused on the design, development and commercialization of continuous glucose monitoring systems for ambulatory use by people with diabetes. Although the volatility in the healthcare and economic environments during the past several years has presented many challenges, we achieved important milestones during 2013, including:

generated a record full fiscal year product revenue of \$157.1 million, an increase of 69% on a year-over-year basis, and

generated cash-based (non-GAAP) net income of \$5.2 million, the first time that we were cash-flow positive during a full fiscal year.

General Objectives and Philosophy

We have designed our compensation program to support our near-term objectives and promote the long-term growth of our company. Our compensation philosophy for all employees, including our executive officers, is to ensure that our compensation program:

supports our key strategic and financial goals;

relates directly to our corporate performance;

appropriately manages compensation related risk within the context of our business strategies; and

provides a total compensation package that is competitive and enables us to attract, motivate, reward and retain executive officers and employees.

Different compensation elements are geared to reward short and longer-term performance with a common goal of increasing value for our key constituencies – patients, healthcare providers, stockholders and our employees. We believe that the compensation of our executive officers and employees should reflect our performance as an organization, and their performance as individuals, in attaining key financial and operating objectives established by our Board of Directors. In addition, we strive to promote an ownership mentality among our executive officers and employees, which we believe is best achieved through our equity incentive programs. As a company operating in an emerging segment, we have not yet become profitable. Accordingly, as an essential part of our efforts to achieve profitability, we endeavor to conserve our cash resources. To that end, one important aspect of our overall compensation philosophy is to minimize base salary compensation relative to our peer group of companies in favor of incentive and equity compensation, which we believe best aligns the interests of our employees with our stockholders. We intend to ensure that our compensation program is perceived as fundamentally fair to all key constituencies. To that end, we do not offer substantially different benefits or perquisites to our executives as compared to those benefits and perquisites offered to all other employees, nor do we gross up any severance or change-in-control payments made to our executives.

Fiscal 2013 Compensation Overview

Given the climbing costs of healthcare in the United States, and the growing share of those costs borne by patients, we anticipated that it would be challenging to maintain a rapid rate of growth during fiscal 2013; nevertheless, we expected our business to achieve:

substantial increases in product revenue;

a decrease to our overall operating loss; and

various operating goals to maintain and advance our technology advantage and commercial development.

When designing our fiscal 2013 executive officer compensation program, the compensation committee considered our fiscal 2013 budget, as well as the program objectives set forth above. Our overall objective was to compensate our named executive officers in a manner that attracts and retains the caliber of individuals needed to manage and staff a high-growth business operation in an innovative and competitive industry. As a result, with respect to our program of annual and long-term compensation, the compensation committee:

froze 2013 base annual salary for our CEO as well as for our President and COO, and increased the base annual salary for our other named executive officers by an aggregate of approximately 2% as part of our goal to conserve cash;

maintained a meaningful proportion of potential cash compensation in our annual cash incentive award program, which awards are paid only upon achievement of various financial and operational goals; and

maintained our cash compensation at approximately 50th percentile of our peer group and equity compensation at above the 75th percentile of our peer group to be consistent with the philosophy to favor equity compensation and conserve cash.

We believe the compensation program for our named executive officers was instrumental in helping us achieve strong performance in 2013. Our product revenue grew to approximately \$157.1 million in 2013 from \$93.0 million in 2012, representing an increase of \$64.1 million, or 69%, over the prior year. Over a two-year period, product revenue grew from \$65.9 million in 2011 to \$157.1 million in 2013, representing a two-year increase of approximately \$91.2 million, or 138%.

Role of Management

Management provides data, analyses, input and recommendations to the compensation committee through our CEO. Our CEO, with the support of management representatives from finance, legal and human resources, provides input on various values for the compensation committee to consider when determining each element of

compensation. The compensation committee gives significant weight to our CEO's and President and COO's evaluation of each named executive officer's performance and recommendations of appropriate compensation (other than their own). The compensation committee reviews such assessments and recommendations; however, the compensation committee's decisions are made by the compensation committee in its sole discretion, and outside of the presence of any impacted executive officers.

Stockholder Advisory Vote on Executive Compensation

At our 2013 annual general meeting, our stockholders expressed strong support for our executive compensation program, with approximately 98% of the votes cast (excluding abstentions and broker non-votes) voting in favor of the advisory vote proposal. When designing our 2014 executive compensation program, the compensation committee considered, among other things, the vote results from our 2013 annual meeting. After careful consideration, the compensation committee determined not to make any significant changes to the design of our executive compensation program for 2014 given the support of the compensation program in the 2013 advisory vote.

Compensation Consultant Engagement

The compensation committee has engaged Compensia as an independent compensation consultant since 2006. During 2013 we engaged Compensia to complete a competitive assessment of our executive compensation. Compensia has analyzed both publicly available peer data and compensation survey data and obtained historical data and insight into our previous compensation practices. Based in part on policies and procedures implemented by Compensia to ensure the objectivity of its executive compensation consultants and the Compensation Committee's assessment of Compensia's independence pursuant to the SEC rules, the compensation committee concluded that the consulting advice it receives from Compensia is objective and that no conflict of interest exists that will prevent Compensia from being independent consultants to our compensation committee. In preparing its analysis, Compensia utilized a peer group of publicly traded companies consisting of firms directly comparable in size and industry to ours, and who are generally direct competitors to us for valued employees in the medical technology business. The companies in this peer group are generally in similar stages of their business lifecycle within the medical technology sector, and have similar annual revenue performance, market capitalizations, or headcounts. During 2013, we worked with Compensia to update our peer group, which, for 2013 compensation planning purposes, included the following companies:

Abaxis, Inc.	Meridian Biosciences, Inc.
Abiomed, Inc.	NuVasive, Inc.
Conceptus, Inc.	NxStage Medical, Inc.
Cyberonics, Inc.	Palomar Medical Technologies, Inc.
Cynosure, Inc.	Quidel Corporation
Heartware International, Inc.	Thoratec Corporation
Insulet Corporation	Vocera Communications, Inc.
MAKO Surgical Corp.	Volcano Corporation

Peer Group Data. The compensation committee targets each officer's total direct annual compensation to within the median range for comparable positions in our peer group. The compensation committee structures our officer compensation program so that outstanding performance measured against our compensation plans' metrics and associated goals generates total direct annual compensation above the median range. On the other hand, achievement below compensation plan goals generates total direct annual compensation below the median range, which reflects the compensation committee's pay-for-performance philosophy. The compensation committee also considers peer group data when determining compensation practices.

The compensation committee may adjust a component of a named executive officer's pay or total direct annual compensation above or below the median range to acknowledge the value and experience he or she brings to the role, demonstrated success in meeting key objectives and sustained high-level performance. The differences in compensation levels among our named executive officers are primarily attributable to the differences in the median range of compensation for similar positions in our peer group.

Named Executive Officers for Fiscal 2013

For fiscal 2013, our named executive officers were:

Terrance Gregg, Chief Executive Officer;

Kevin Sayer, President and Chief Operating Officer;

Jess Roper, Vice President and Chief Financial Officer;

Steven Pacelli, Executive Vice President of Strategy and Corporate Development; and

Jorge Valdes, Chief Technical Officer.

Details and Elements of our 2013 Compensation

Since our primary business goals to achieve profitability and maintain and advance our technology advantage within our field did not change from 2012 to 2013, the structure and elements of our officer compensation program remained largely consistent during these years. The compensation committee designed the program to focus our officers on leading our entire organization toward achieving both short-term and long-term strategic and operational goals, and increasing stockholder value, without encouraging excessive risk taking. Fiscal 2013 base salary cash compensation actually paid to our named executive officers was at target levels, and incentive cash compensation actually paid to our named executive officers was above target levels, which reflected our strong fiscal 2013 commercial performance and the compensation committee's pay-for-performance philosophy. The compensation committee reviews competitive market information with our CEO for each executive officer. The compensation committee provides a recommendation to the Board on the CEO's compensation. In addition, at the beginning of each fiscal year, the compensation committee reviews executive officers' performance for the last year and objectives for the next year, together with an executive officer's responsibilities and experience level. The compensation committee also considers our overall fiscal performance compared to our fiscal objectives and performance targets. The relative weight given to these factors varies with each individual at the discretion of the compensation committee.

Elements of compensation for our employees, including our executive officers, include:

base salary that is designed primarily to be competitive with base salary levels in effect at comparable medical technology companies with which we compete for personnel;

cash incentive awards that are contingent upon the achievement of annual financial and operational performance goals established by the Board of Directors; and

long-term equity incentives, including restricted stock unit grants, targeted at above the 75th percentile of equity compensation levels in effect at the peer group in order to:

Edgar Filing: DEXCOM INC - Form DEF 14A

conserve our cash resources to support our goal of achieving profitability;

increase alignment of management's interests with the long-term interests of our stockholders; and

encourage employees to behave like owners and reward them as long-term stockholder value is created.

Consistent with the principles of our executive officer compensation outlined above, an executive officer's total direct compensation is based upon our overall performance and the performance of that individual executive

officer. We do not have a pre-established policy or target for allocating between fixed and variable compensation or among the different types of variable compensation, although the allocation is influenced by the compensation committee's assessment of the compensation practices of the companies in the peer group and our short-term and long-term strategic objectives. Variable compensation generally consists of annual cash incentive compensation and long-term equity incentives, and represents the primary portion of the total direct compensation opportunity for each executive officer. The compensation committee believes that the executive officers' consistent and sustained performance can have a direct and significant impact on long-term stockholder value.

Base Salary

We provide our executive officers and other employees with a base salary to compensate them for services rendered during the fiscal year. We determine base salaries for our executive officers based in part on our review of prevailing compensation practices in our peer group and the following factors: the scope of responsibilities, experience, past performance and objectives for the year. Consistent with our philosophy to pay for performance, as well as to conserve our cash resources as we work towards profitability, the compensation committee targeted base salaries at or below the 50th percentile of our peer group for each named executive officer.

On February 6, 2013, the Board approved 2013 base salaries for our named executive officers. In an effort to conserve our cash, for 2013 there was no increase in the base salary for our CEO, nor for our President and COO, and only nominal base salary increases for our CTO, CFO and E.V.P. of Strategy and Corporate Development. In fact, Mr. Gregg's base salary has remained unchanged at \$420,000 since 2008, and places his base salary at below the 25th percentile compared to our peer group. The annual base salaries in fiscal 2013 for our named executive officers were as follows: Terrance Gregg, \$420,000 (unchanged from 2012); Kevin Sayer, \$325,000 (unchanged from 2012); Jess Roper, \$237,000 (increased from \$230,000 in 2012); Steven Pacelli, \$284,885 (increased from \$279,450 in 2012); and Jorge Valdes, \$284,885 (increased from \$279,450 in 2012).

Bonus Plans

As noted above, the compensation committee believes that a meaningful portion of the annual cash compensation for each executive officer should be in the form of variable incentive bonuses, which motivate our executive officers towards achievement of annual financial and performance targets set by the compensation committee. In particular, our cash bonus plans are designed to reward our executives for the achievement of shorter-term goals, principally relating to the achievement of revenue targets, operating income (loss) targets, (exclusive of non-cash, share-based compensation and other accounting adjustments) and operational performance goals. Target goals are generally developed through our annual financial planning process, whereby we assess our future operating environment and build projections on anticipated results, which target goals are then reviewed and approved by the compensation committee and set forth in objective terms in a bonus plan at the beginning of each year. For fiscal 2013, the compensation committee identified product revenue as a primary element of the 2013 Bonus Plan (the 2013 Plan) since it is a key measure of our progress towards profitability as well as our growth in terms of customers and their utilization of our products. In addition, as our business matures, and we continue to work towards profitability, the compensation committee included an operating loss target as a separate element of the 2013 Plan to incent actions to decrease our operating loss and to further our drive to achieve profitability. As the last element of our 2013 Plan, a portion of the bonus payable under the 2013 Plan to our named executive officers and other eligible employees was based on achieving certain performance milestones, as detailed below, since continued development of our technology and commercialization will also add to our overall value.

On January 29, 2013, our compensation committee approved the 2013 Plan. Consistent with the compensation committee's philosophy of pay for performance, the bonus amounts were contingent upon achievement of the goals set forth below. In light of the decision to freeze the base salaries of our CEO and President and COO, and the nominal base salary increases to our other named executive officers, the target bonus amounts under the 2013 Plan for our named executive officers and employees were increased slightly as compared to target amounts under the bonus plan for the prior year (which targets are described below).

Named Executive Officers Bonus

For our named executive officers, the amount of any bonus awarded under the 2013 Plan was predicated on achieving targeted product and service revenue goals, targeted operating loss goals, and performance milestones. Under the 2013 Plan, the target bonus amounts for our named executive officers were as follows: Chief Executive Officer, 125% of base salary (as compared to 100% for the prior year); President and Chief Operating Officer, 100% of base salary (as compared to 90% for the prior year); Chief Technical Officer, 75% of base salary (which remained unchanged from the prior year); EVP of Strategy and Corporate Development, 75% of base salary (which remained unchanged from the prior year); and Chief Financial Officer, 40% of base salary (as compared to 35% for the prior year). Generally speaking, 60% of any bonus paid under the 2013 Plan to named executive officers was based on achieving certain annual revenue goals (the Revenue Component), 20% was based on achieving targeted operating loss goals (the Operating Results Component) and 20% was based on achieving certain performance milestones (the Performance Component).

Under the 2013 Plan, no portion of the Revenue Component was to be paid unless we met a specified minimum revenue target for fiscal 2013 of \$120 million. Upon achievement of this minimum revenue target, each eligible participant was to receive a bonus award of 100% of their targeted Revenue Component. If we exceeded our fiscal 2013 revenue target, each of the named executive officers was to receive bonuses at various stepped up amounts up to a maximum of 175% of their targeted Revenue Component. The revenue target of \$120 million was established at a level that required at least approximately 30% growth over the product revenue for 2012. We believed the 2013 revenue target to be achievable, but would have required excellent performance by each of our named executive officers. During 2013, we generated revenue of approximately \$157.1 million. Accordingly, the named executive officers and other eligible employees received a bonus of 175% of the targeted Revenue Component.

Under the 2013 Plan, no portion of the Operating Results Component was to be paid unless we met an operating loss target for fiscal 2013 of \$(36.7) million, as adjusted. Upon achievement of this operating loss target, each eligible participant would receive a bonus award of 100% of their targeted Operating Results Component. If we achieved operating loss results that were more favorable in fiscal 2013 than our operating loss target, the named executive officers would receive bonuses at various stepped up amounts up to a maximum of 175% of their targeted Operating Results Component. The operating loss target of \$(36.7) million was established at a level that we believed to be achievable, but would have required excellent performance by each of our named executive officers. During 2013, we achieved our operating loss target, and accordingly, the named executive officers and other eligible employees received a bonus of 175% of the targeted Operating Results Component.

Under the Performance Component, bonus amounts were to be paid to the named executive officers for achieving specified corporate milestones. Eligible participants received 25% of their targeted Performance Component for achievement of each of four corporate milestones by us during fiscal 2013. We achieved the first performance milestone by selling at least 1.26 million sensors during 2013. We achieved our second performance milestone by selling at least 46,500 systems during 2013. We achieved our third performance milestone by filing an application with the U.S. Food and Drug Administration (the FDA) for the VIBE integrated insulin pump. We did not achieve our fourth performance milestone, which was to obtain approval from the FDA for a pediatric indication on our G4 Platinum system. Accordingly, eligible participants received 75% of their Performance Target. These performance milestones were designed to require improvement upon past levels of performance, and as such we considered them significantly challenging to achieve.

Finally, to provide further incentive to the named executive officers concerning our objective to achieve cash-based (non-GAAP) operating profit during 2013 (which excludes non-cash charges such as depreciation and share-based compensation), the Board included a final performance objective in the 2013 Plan. If we achieved cash-based (non-GAAP) operating profit during 2013, then any bonus otherwise payable under the 2013 Plan would be increased by 25%. During 2013, we achieved a cash-based (non-GAAP) net income of \$5.2 million. Accordingly, the bonus amounts paid out under the 2013 Plan were increased by 25%.

The following table presents information relating to the various components, targets and achievement under the 2013 Plan.

Bonus Component:	Revenue Component		Operating Results Component		Performance Component	
	2013		2013		2013	
	Target	Payout	Target	Payout	Target	Payout
Terrance Gregg	\$ 315,000	\$ 689,062	\$ 105,000	\$ 229,688	\$ 105,000	\$ 98,438
Kevin Sayer	195,000	426,562	65,000	142,188	65,000	60,938
Steven Pacelli	128,250	280,547	42,750	93,516	42,750	40,078
Jess Roper	56,880	124,425	18,960	41,475	18,960	17,775
Jorge Valdes	128,250	280,547	42,750	93,516	42,750	40,078

We believe the 2013 Plan for the named executive officers was an instrumental element in driving our strong performance in 2013, during which our product revenue grew by 69% from 2012 to approximately \$157.1 million.

Equity Incentive Programs

Because of the direct relationship between the value of our equity and the fair market value of our common stock, we believe that granting stock options or restricted stock units is the best method of motivating our executive officers and employees in a manner that is consistent with the interests of our Company and our stockholders. In 2013, we issued restricted stock units to our named executive officers in lieu of stock options to reduce to some extent the dilution to our common stock, and to conserve shares in our incentive equity pool during another year in which we added significantly to our headcount, requiring a substantial number of initial equity awards. The compensation committee plans to continue to utilize restricted stock units as a means to recruit, retain, reward and motivate our executive officers and key employees in fiscal 2014, which would provide an incentive to an employee to spend an extended portion of time with us and to build value over time.

We grant equity awards to our executive officers and key employees based upon prior performance, the importance of retaining their services and with the goal of providing each executive officer with an incentive to manage from the perspective of an owner with an equity stake in the business to help us attain our long-term goals. We intend our equity award program to be the primary vehicle for offering long-term incentives and rewarding our executive officers and other key employees. We also regard our equity award program as a key retention tool. The retentive aspect of our equity award program is a very important factor in our determination of the type of award to grant and the number of shares underlying the equity award that are granted. We also evaluate the number of vested equity awards currently held by our executive officers in determining additional grants. We may utilize various forms of equity awards as and when we deem appropriate, particularly in response to changes in tax and accounting treatment of awards.

Grants to newly hired executive officers are approved by the compensation committee and are effective on the grant dates consistent with our equity award policy. We typically grant restricted stock units to certain of our executive officers annually in conjunction with the release of our fiscal year-end earnings results. With respect to executive officers, initial restricted stock unit grants typically vest over a four-year period in four equal annual installments. Subsequent restricted stock unit grants to executive officers typically vest over a 36-month period from the date of grant as follows: 33% shall vest 12 months from the grant date, with the remaining balance vesting in four equal installments over the following 24 months. In 2013, we made the following restricted stock grants to our named executive officers: (a) 182,813 restricted stock units to Mr. Gregg, vesting monthly over 36 months; (b) 150,000 restricted stock units to Mr. Sayer, which vest over a 36-month period as follows: 33% shall vest 12 months from the grant date, with the remaining balance vesting in four equal installments over the following 24 months; (c) 71,621 to each of Mr. Pacelli and Mr. Valdes, each of which vest over a 36-month period as follows: 33% shall vest 12 months from the grant date, with the remaining units vesting in four equal installments over the following 24 months; and (d) 30,000 restricted stock units to Mr. Roper, which vest over a

36-month period from the date of grant as follows: 33% shall vest 12 months from the grant date, with the remaining balance vesting in four equal installments over the following 24 months.

Perquisites and Certain Other Benefits

We limit the perquisites that we make available to our executive officers in an effort to conserve our financial resources. Except for certain severance and change of control agreements described below, our executives are not entitled to any benefits that are not otherwise available to all of our employees. In addition, it should be noted that we do not provide pension arrangements, or maintain non-qualified defined benefit plans or other deferred compensation plans, post-retirement health coverage (aside from COBRA benefits), or similar benefits for our executives or employees. Our health and insurance plans are the same for all employees.

Termination and Change of Control

Our severance and change of control agreements are designed to facilitate our ability to attract and retain executives as we compete for talent in a marketplace where such protections are commonly offered. The severance benefits described below are designed to ease an employee's transition due to an unexpected employment termination by us due to ongoing changes in our employment needs. The material terms of our change of control agreements were determined through benchmarking the change of control arrangements with other similar companies. Our change of control agreements encourage executives to remain focused on our business in the event of rumored or actual fundamental corporate changes.

In June 2007, we entered into an Executive Change of Control and Severance Agreement with our CEO, Mr. Gregg, and in December 2008, the compensation committee also approved a form of Amended and Restated Executive Change of Control and Severance Agreement (collectively, the Change of Control Agreements) that was entered into by each of our CFO, our other named executive officers and our other executive officers ranking vice president and above. Please see the section titled Employment, Severance and Change of Control Agreements below for additional detail on the terms of our Change of Control Agreements. We entered into the Change of Control Agreements as part of our ongoing, periodic review of our compensation and benefits programs, in recognition of the importance to us and to our stockholders of avoiding the loss and distraction of key management personnel that may occur if such key personnel are concerned about their job security in connection with actual or rumored corporate changes, and to help us attract and retain qualified executives who could have other job alternatives that may appear to them to be less risky without these arrangements.

We believe the structure of this change of control arrangement protects stockholder value by allowing us the opportunity to deliver an intact and motivated management team to any potential acquirer. If we did not offer any benefits in connection with a change of control, our executives could be less motivated to pursue a potential acquisition or continue working for us during a transition after an acquisition, even if such a transaction would benefit our stockholders, because of the possibility that they would lose the potential value of their unvested equity compensation or future cash compensation upon an acquisition. As a result, we believe that these benefits further incentivize our executive officers to continue to create value for us and our stockholders.

The amounts payable upon a covered officer's termination of employment or upon a change of control are calculated on a hypothetical basis and set forth in the section entitled Employment, Severance and Change of Control Arrangements below.

Stock Ownership Guidelines

We grant stock options and restricted stock units with the intent of aligning the interests of our employees, including our named executive officers, with our stockholders. Accordingly, we adopted stock ownership guidelines that require our executive officers to retain ownership of a material portion of our common stock. The stock ownership guidelines were adopted in 2010, and are to be satisfied by the end of fiscal 2013, or within

three years of becoming an executive officer for those who become executive officers after 2010. Under these guidelines, our officers are required to own shares of our stock with an aggregate market value equal to three times his or her current base salary. Ownership levels are determined by including stock acquired through open market or Employee Stock Purchase Plan purchases, shares vested pursuant to restricted stock unit grants, as well as the in-the-money value of vested stock options. Executive officers who have met the guidelines are expected, absent unusual circumstances, to maintain compliance with their target ownership levels. We also have an Insider Trading Policy, available upon request to our principal executive office which address is above, which among other things, establishes periods of time during which employees, including our executive officers, may and may not trade shares of the Company's stock. It also prohibits employees from engaging in hedging transactions involving the Company's stock.

Accounting and Section 162(m) Tax Considerations

Since January 1, 2006, we have accounted for share-based payments in accordance with the requirements of FASB ASC Topic 718. Section 162(m) of the Code limits our deduction for federal income tax purposes of no more than \$1 million of compensation paid to certain executive officers in a taxable year. Compensation above \$1 million may be deducted if it is performance-based compensation within the meaning of the Code. It is possible that a portion of the compensation that is paid to our executive officers may exceed \$1 million in a future year and may not be deductible in full by us.

Employment, Severance and Change of Control Arrangements

In June 2007, we entered into an Employment Agreement with our Chief Executive Officer, Terrance Gregg, as amended in December 2008 (the Gregg Employment Agreement). Under the Gregg Employment Agreement, in the event we terminate Mr. Gregg's employment without cause or he is constructively terminated, he will receive 12 months' salary as severance and 12 months of vesting acceleration of all of the shares subject to all options and restricted stock units held by Mr. Gregg and any other stock awards that the Board of Directors determines should be subject to the provisions of the Gregg Employment Agreement. In addition, all stock options and restricted stock units granted to Mr. Gregg, whether currently outstanding or granted in the future, will immediately vest upon a change of control.

The following table summarizes the potential payments and benefits payable to Mr. Gregg upon termination of employment or a change of our control under each situation listed below, modeling, in each situation, the potential payments and benefits if Mr. Gregg had been terminated on December 31, 2013. The Gregg Employment Agreement requires that the severance payment be in a lump sum.

Executive Benefits and

	Involuntary Termination Not For Cause	Constructive Termination	Following a Change of Control
Payments Upon Termination:			
<i>Base salary</i>	\$ 420,000	\$ 420,000	\$ 420,000
<i>Value of accelerated equity awards</i> (1)	\$ 4,854,928	\$ 4,854,928	\$ 8,091,594

- (1) Represents the value of accelerated vesting of Mr. Gregg's restricted stock units. The closing price of our common stock on December 31, 2013 was \$35.41.

We have also entered into change of control arrangements with Mr. Sayer, Mr. Roper, Mr. Pacelli and Mr. Valdes. The Change of Control Agreements provide that in the event of a change of control while the executive is employed by us, or in the event that the executive is involuntarily terminated without cause during the period that begins (1) 90 days prior to the earlier of (i) the execution of a letter of intent relating to a change of control transaction, or (ii) the execution of a definitive agreement with respect to a change of control transaction, in either case provided that the change of control with the party to the letter of intent or definitive agreement is consummated within two years following such execution, and ends (2) on the date such change of control becomes effective, the vesting of all of the shares subject to all options and restricted stock units held by the executive and any other stock awards that the Board of Directors determines should be subject to the Change of Control Agreements will be accelerated in full. The Change of Control Agreements also provide that, in the

event we terminate the executive without cause or the executive resigns due to a constructive termination, the executive will receive a lump sum payment equal to twelve months salary as severance and twelve months of vesting acceleration of all of the shares subject to all options held by the executive and any other stock awards that the Board of Directors determines should be subject to the Change of Control Agreement. In each case, our obligation to make any severance payments or provide vesting acceleration is expressly conditioned upon the executive's execution and delivery of a general release and waiver of all claims. The Change of Control Agreements represent the complete and exclusive statement of agreement between the executives and us with respect to vesting acceleration or severance and supersedes any other agreements or promises made to the executives with respect to vesting acceleration or severance.

The following table summarizes the potential payments and benefits payable to each of Mr. Sayer, Mr. Roper, Mr. Pacelli and Mr. Valdes upon termination of employment or a change in our control under each situation listed below, modeling, in each situation, the potential payments and benefits if Mr. Sayer, Mr. Roper, Mr. Pacelli and Mr. Valdes had been terminated on December 31, 2013.

(1) Represents the value of accelerated vesting of the named executive officer's stock options and restricted stock units, as applicable. The closing price of our common stock on December 31, 2013 was \$35.41.

Equity Compensation Plan Information

The following table provides certain information as of December 31, 2013, with respect to all of our equity compensation plans in effect on that date.

Plan category	Number of securities to be issued upon exercise of outstanding options, warrants and rights (in thousands)(a)	Weighted-average exercise price of outstanding options, warrants and rights (b)	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column(a)) (in thousands) (c)
Equity compensation plans approved by stockholders(1)(2)	5,833	\$ 7.94	3,140
Equity compensation plans not approved by stockholders(3)			
Total	5,833	\$ 7.94	3,140

(1) Includes the 1999 Stock Option Plan, the 2005 Equity Incentive Plan (the 2005 Plan) and the 2005 Employee Stock Purchase Plan. 536,669 shares under column (c) are attributable to our 2005 Plan and 2,602,871 are attributable to our 2005 Employee Stock Purchase Plan. Each of the 2005 Plan and 2005 Employee Stock Purchase Plan contain provisions that provide for automatic increases to the authorized number of shares of up to 3% and 1%, respectively, to occur on January 1 of each year or a lesser number of shares as approved by our compensation committee. However, this number does not include increase of 2,175,140 shares to number of authorized shares under the 2005 Plan that occurred on January 1, 2014

pursuant to the 2005 Plan's automatic increase in authorized shares. In fiscal 2014, our Compensation Committee determined that there should be no annual increase of authorized shares under the 2005 Employee Stock Purchase Plan.

(2) Shares reserved for future issuance under the 2005 Plan may be granted as restricted stock, restricted stock units or options.

(3) As of December 31, 2013, we did not have any equity compensation plans that were not approved by our stockholders.

Risks from Compensation Policies and Practices

The compensation committee reviews our compensation policies and practices to determine areas of resulting risk and the actions that we have taken, or should take, to mitigate any such identified risk. Based on the compensation committee's review of our compensation policies and practices, we do not believe that any risks relating from our compensation policies and practices for our employees are reasonably likely to have a material adverse effect on our business.

CERTAIN TRANSACTIONS WITH RELATED PERSONS

During 2013, we employed Mr. Gregg's son-in-law, Jake Leach as our Vice President of Research and Development. During 2013, Mr. Leach was paid \$399,133 in base salary and bonus, and was granted 35,000 restricted stock units. In addition, we employed Mr. Gregg's daughter-in-law, Leah Baccitich, as our Corporate and Compliance Counsel. During 2013, Ms. Baccitich was paid \$107,673 in base salary and bonus, and was granted 2,750 restricted stock units.

Other than the employment of Mr. Leach and Ms. Baccitich, since January 1, 2013, there has not been, nor is there currently proposed, any transaction or series of transactions to which we were or will be a party in which the amount involved exceeds \$120,000 and in which any director, nominee for director, executive officer, holder of more than 5% of our common stock, or any member of their immediate family had or will have a direct or indirect material interest.

Our audit committee reviews the fairness and determines approval of any proposed transaction between us and management or other related parties (other than transactions that are subject to review by the compensation committee) that are brought to the attention of the audit committee. In addition, our Code of Conduct and Ethics sets forth factors that should be considered in determining whether there may be a direct or indirect material interest, such as the size and nature of the person's interest; the nature of our relationship with the other individual or entity; and whether the person has access to confidential company information.

STOCKHOLDER PROPOSALS FOR ANNUAL MEETING

Requirements for Stockholder Proposals to Be Considered for Inclusion in DexCom's Proxy Materials. Stockholders of DexCom may submit proposals on matters appropriate for stockholder action at meetings of DexCom's stockholders in accordance with Rule 14a-8 promulgated under the Exchange Act. For such proposals to be included in DexCom's proxy materials relating to its 2015 Annual Meeting of Stockholders, all applicable requirements of Rule 14a-8 must be satisfied and such proposals must be received by DexCom no later than December 17, 2014. Such proposals should be delivered to DexCom, Inc., Attn: Secretary, 6340 Sequence Drive, San Diego, CA 92121.

Requirements for Stockholder Proposals to be Brought Before the Annual Meeting. DexCom's bylaws provide that, except in the case of proposals made in accordance with Rule 14a-8, for stockholder nominations to the Board of Directors or other proposals to be considered at an annual meeting of stockholders, the stockholder must have given timely notice thereof in writing to the Secretary of DexCom not less than seventy-five calendar days nor more than one hundred and five calendar days day prior to the first anniversary of the preceding year's annual meeting. To be timely for the 2015 Annual Meeting of Stockholders, a stockholder's notice must be delivered or mailed to and received by DexCom's Secretary at the principal executive offices of DexCom between February 13, 2015 and March 15, 2015. However, in the event that the annual meeting is called for a date that more than thirty (30) days before or more than sixty (60) days after such anniversary date, to be timely notice by the stockholder must be delivered not earlier than the close of business on the one hundred and fifth day prior to such annual meeting and not later than the close of business on the later of the seventy-fifth day prior to such annual meeting or the close of business on the tenth day following the day on which public announcement of the date of such meeting is first made by DexCom. A stockholder's notice to DexCom's Secretary must set forth the information required by DexCom's bylaws with respect to each matter the stockholder proposes to bring before the annual meeting.

HOUSEHOLDING OF PROXY MATERIALS

The SEC has adopted rules that permit companies and intermediaries (such as brokers, banks or other agents) to satisfy the delivery requirements for proxy statements and annual reports with respect to two or more

stockholders sharing the same address by delivering a single proxy statement addressed to those stockholders. This process, which is commonly referred to as householding, potentially means extra convenience for stockholders and cost savings for companies.

This year, a number of broker, banks or other agents with account holders who are stockholders of DexCom will be householding our proxy materials. A single proxy statement will be delivered to multiple stockholders sharing an address unless contrary instructions have been received from the affected stockholders. Once you have received notice from your broker, bank or other agent that it will be householding communications to your address, householding will continue until you are notified otherwise or until you revoke your consent. If, at any time, you no longer wish to participate in householding and would prefer to receive a separate proxy statement and annual report, please notify your broker, bank or other agent, and direct a written request for the separate proxy statement and annual report to American Stock Transfer and Trust Company at 59 Maiden Lane, Plaza Level, New York, New York, 10038. Stockholders whose shares are held by their broker, bank or other agent as nominee and who currently receive multiple copies of the proxy statement at their address that would like to request householding of their communications should contact their broker, bank or other agent.

OTHER MATTERS

Our Board of Directors knows of no other matters that will be presented for consideration at the annual meeting. If any other matters are properly brought before the meeting, it is the intention of the persons named in the accompanying proxy to vote on such matters in accordance with their best judgment.

ANNUAL REPORTS

A copy of our annual report to stockholders, which includes financial statements, is being mailed with this proxy statement.

We have filed our annual report on Form 10-K for the fiscal year ended December 31, 2013 with the SEC on February 20, 2014. It is available free of charge at the SEC's web site at www.sec.gov. Upon written request by a DexCom stockholder, we will mail without charge a copy of our Form 10-K, including the financial statements and financial statement schedules, but excluding exhibits to the Form 10-K. Exhibits to the Form 10-K are available upon payment of a reasonable fee, which is limited to our expenses in furnishing the requested exhibit.

Requests for copies of our annual report to stockholders or our annual report on Form 10-K should be directed to Investor Relations, DexCom, Inc., 6340 Sequence Drive, San Diego, California 92121.
