XLCA - XL Capital Assurance, Inc.

At June 30, 2014, the concentration of the Fund s investments in the various states, determined as a percentage of total investments, is as follows:

New York12.2%Texas11.9%Others, representing less than 10% individually75.9%

The Fund invests primarily in debt securities issued by municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at June 30, 2014, 53.8% of total investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution or financial guaranty assurance agency ranged from 1.0% to 21.1% of total investments.

- (1) Security represents the municipal bond held by a trust that issues residual interest bonds.
- (2) Defaulted security. Issuer has defaulted on the payment of interest or has filed for bankruptcy.
- (3) Security is in default and making only partial interest payments.
- (4) Amount is less than 0.05%.
- (5) For fair value measurement disclosure purposes, security is categorized as Level 3.
- (6) Represents a payment-in-kind security which may pay interest in additional principal at the issuer s discretion. A summary of open financial instruments at June 30, 2014 is as follows:

Futures Contracts

Contracts Position Aggregate Cost Value

Expiration Month/Yea								Unrealized epreciation
9/14	344 U.S. Long Treasury Bond	Short	\$	(46,842,495)	\$	(47,192,500)	\$	(350,005)
At June 30, 2014, the Fund had sufficient cash and/or securities to cover commitments under these contracts.								

The Fund is subject to interest rate risk in the normal course of pursuing its investment objective. Because the Fund holds fixed-rate bonds, the value of these bonds may decrease if interest rates rise. The Fund purchases and sells U.S. Treasury futures contracts to hedge against changes in interest rates.

At June 30, 2014, the aggregate fair value of open derivative instruments (not considered to be hedging instruments for accounting disclosure purposes) in a liability position and whose primary underlying risk exposure is interest rate risk was \$350,005.

The cost and unrealized appreciation (depreciation) of investments of the Fund at June 30, 2014, as determined on a federal income tax basis, were as follows:

Aggregate cost\$ 789,035,492Gross unrealized appreciation\$ 127,341,649Gross unrealized depreciation(17,154,282)	Net unrealized appreciation	\$ 110,187,367
Gross unrealized appreciation \$ 127,341,649	Gross unrealized depreciation	(17,154,282)
Aggregate cost \$ 789,035,492	* 1	\$
Aggregate cost \$ 789,035,492		
	Aggregate cost	\$ 789,035,492

Under generally accepted accounting principles for fair value measurements, a three-tier hierarchy to prioritize the assumptions, referred to as inputs, is used in valuation techniques to measure fair value. The three-tier hierarchy of inputs is summarized in the three broad levels listed below.

Level 1 quoted prices in active markets for identical investments

Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including a fund s own assumptions in determining the fair value of investments)

In cases where the inputs used to measure fair value fall in different levels of the fair value hierarchy, the level disclosed is determined based on the lowest level input that is significant to the fair value measurement in its entirety. The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

At June 30, 2014, the hierarchy of inputs used in valuing the Fund s investments and open derivative instruments, which are carried at value, were as follows:

Asset Description	Level 1	Level 2	I	evel 3*	Total
Tax-Exempt Municipal Securities	\$	\$ 1,502,155,024	\$		\$ 1,502,155,024
Corporate Bonds & Notes				97,835	97,835
Total Investments	\$	\$ 1,502,155,024	\$	97,835	\$ 1,502,252,859
Liability Description					
Futures Contracts	\$ (350,005)	\$	\$		\$ (350,005)
Total	\$ (350,005)	\$	\$		\$ (350,005)

^{*} None of the unobservable inputs for Level 3 assets, individually or collectively, had a material impact on the Fund. Level 3 investments at the beginning and/or end of the period in relation to net assets were not significant and accordingly, a reconciliation of Level 3 assets for the fiscal year to date ended June 30, 2014 is not presented.

At June 30, 2014, there were no investments transferred between Level 1 and Level 2 during the fiscal year to date then ended.

For information on the Fund s policy regarding the valuation of investments and other significant accounting policies, please refer to the Fund s most recent financial statements included in its semiannual or annual report to shareholders.

Item 2. Controls and Procedures

(a) It is the conclusion of the registrant s principal executive officer and principal financial officer that

the effectiveness of the registrant s current disclosure controls and procedures (such disclosure controls and procedures having been evaluated within 90 days of the date of this filing) provide reasonable assurance that the information required to be disclosed by the registrant on this Form N-Q has been recorded, processed, summarized and reported within the time period specified in the Commission s rules and forms and that the information required to be disclosed by the registrant on this Form N-Q has been accumulated and communicated to the registrant s principal executive officer and principal financial officer in order to allow timely decisions regarding required disclosure.

(b) There have been no changes in the registrant s internal controls over financial reporting during the fiscal quarter for which the report is being filed that have materially affected, or are reasonably likely to materially affect the registrant s internal control over financial reporting.

Signatures

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
