**Item 2.03. Creation of a Direct Financial Obligation or an Obligation under an Off-Balance Sheet Arrangement of a Registrant.**

On August 27, 2014, Whiting Petroleum Corporation (the Company) and its subsidiary Whiting Oil and Gas Corporation (Whiting Oil and Gas) entered into a Sixth Amended and Restated Credit Agreement with the lenders party thereto, JPMorgan Chase Bank, N.A., as Administrative Agent, and the various other agents party thereto (the Credit Agreement). The Credit Agreement will replace Whiting Oil and Gas existing credit agreement effective on the closing date (the Closing Date) of the Company's previously announced proposed acquisition (the Acquisition) of all of the issued and outstanding common shares of Kodiak Oil & Gas Corp. (Kodiak). Whiting Oil and Gas intends to use the credit facilities to provide working capital, to refinance certain existing debt of Kodiak, to pay fees and expenses in connection with the Acquisition and for general corporate purposes.

On and after the Closing Date, the Credit Agreement will provide for a revolving credit facility in an amount up to \$2.5 billion and a term loan facility in an amount up to \$1.0 billion, in each case subject to an initial borrowing base of \$4.5 billion. A portion of the revolving credit facility, in an aggregate amount not to exceed \$100 million, may be used to issue letters of credit for the account of Whiting Oil and Gas and other designated subsidiaries of the Company. The revolving credit facility will mature on the fifth anniversary of the Closing Date and the term loan facility will mature on December 31, 2015.

Interest will accrue on revolving loans at Whiting Oil and Gas option at either (i) a base rate for a base rate loan, plus a specified margin, where the base rate is defined as the greatest of the prime rate, the federal funds rate plus 0.50% per annum or an adjusted LIBO rate plus 1.00% per annum, or (ii) an adjusted LIBO rate for a Eurodollar loan plus a specified margin. Initially the margin applicable to revolving base rate loans and revolving Eurodollar loans will be determined based on the ratio of outstanding borrowings to the borrowing base. Interest will accrue on term loan borrowings, if any, at Whiting Oil and Gas option at either (i) a base rate (as defined above) for a base rate loan plus (A) 1.00% per annum from the Closing Date until the ninetieth day after such date and (B) 1.50% per annum from the ninety-first day after the Closing Date until the term loans are paid in full, or (ii) an adjusted LIBO rate for a Eurodollar loan plus (A) 2.00% per annum from the Closing Date until the ninetieth day after such date and (B) 2.50% per annum from the ninety-first day after the Closing Date until the term loans are paid in full.

Under the Credit Agreement, Whiting Oil and Gas will also incur a commitment fee with respect to the revolving facility on the unused portion of the lesser of the aggregate revolving commitments of the revolving lenders or the borrowing base, which commitment fee initially will be either 0.375% or 0.50% per annum based on the ratio of outstanding borrowings to the borrowing base. In addition, Whiting Oil and Gas will pay a commitment fee at the rate of 0.25% on the average daily unused amount of the term loan facility.

The Credit Agreement contains various restrictive covenants applicable to the Company, Whiting Oil and Gas and certain other subsidiaries of the Company. The Credit Agreement initially requires the Company, as of the last day of any quarter, (i) to maintain a ratio of total debt to EBITDAX (as defined in the Credit Agreement) during the last four quarters not to exceed 4.0 to 1.0 and (ii) to maintain a ratio of consolidated current assets to consolidated current liabilities (in each case as defined in the Credit Agreement) of not less than 1.0 to 1.0.

The obligations of Whiting Oil and Gas under the Credit Agreement will continue to be secured by a first lien on substantially all of Whiting Oil and Gas properties included in the borrowing base for the Credit Agreement. The Company will continue to guarantee the obligations of Whiting Oil and Gas under the Credit Agreement and pledge the stock of Whiting Oil and Gas and certain other of the Company's subsidiaries as security for its guarantee.

At any time during which the Company has an investment grade debt rating from Moody's Investors Service, Inc. or Standard & Poor's Ratings Group and the Company has elected, in its discretion, to effect an investment grade rating period, certain security requirements, including the borrowing base requirement, and restrictive covenants will cease to apply, certain other restrictive covenants will become less restrictive, an additional financial covenant will be imposed and the interest rate margin applicable to all revolving borrowings as well as the commitment fee with respect to the revolving facility will be based upon the Company's debt rating rather than the ratio of outstanding borrowings to the borrowing base.

The Credit Agreement also contains customary events of default. The lenders may declare any outstanding obligations under the Credit Agreement immediately due and payable upon the occurrence of an event of default. In addition, the amount of any outstanding obligations under the Credit Agreement will be immediately due and payable in the event that the Company or any of its subsidiaries that are obligors or guarantors under the Credit Agreement becomes the subject of voluntary or involuntary proceedings under any bankruptcy, insolvency or similar law or becomes unable to pay its debts generally as they become due.

The foregoing description of the Credit Agreement does not purport to be complete and is qualified in its entirety by reference to the full text of the Credit Agreement, a copy of which is filed herewith as Exhibit 4.1 and is incorporated herein by reference.
