Manager Commentary

December 31, 2014 (Unaudited)

To Our Shareholders:

As we look back on 2014, it is striking how the year was filled with contradictions of consensus thought and unanticipated outcomes. From the high vantage-point of December 31, 2013, already caught in the grips of an icy winter that would weaken US GDP, the market expected interest rates to rise, European and Japanese economies to recover, and the price of energy to follow its then upward trajectory. Instead, the 10-year benchmark US Treasury, which was yielding over 3% on New Year's Eve 2013 and expected to go higher, traded to a twelve-month low of 2.06% on December 16, 2014 and closed the year yielding 2.17%. The 10-year was a top performer in 2014, returning 10.72%.

Market consensus had the energy story wrong as well. With geopolitical risks rising for most of the year in oil producing regions from Nigeria across the Maghreb, Mesopotamia through the Gulf States, nearly no one imagined any significant down-leg in oil; but it happened! Oil, which started 2014 at just over \$90/bbl for WTI and \$110/bbl for Brent tumbled almost 50% by year-end 2014, closing at \$53.70/bbl on WTI and \$57.33/bbl on Brent. Driven by the slow-down in Europe, emerging markets, the North American fracking revolution, and OPEC battling for control of market share, oil markets are now nearly 2 million barrels per day over-supplied and it will take either time or a market event to bring back equilibrium.

Finally, the US dollar, which on New Year's Eve of 2013 closed \$1.37 to the Euro, is once again King as it regained the throne at \$1.14 to the Euro by year-end 2014 and continues to strengthen, with a total gain of 14% over 2014. Much of the forgoing has benefited US equities as the US has decoupled from other developed economies, as the S&P 500 index returned 13.97% during the year. For leverage finance, however, all of this did not translate well into performance as both loans and high yield bonds did not return their respective average coupons for 2014.

The decline in rates contributed to the about-face seen in the bank loan mutual fund flows during 2014; after taking in \$62.8 billion of inflows during 2013, bank loan mutual funds saw \$23.8 billion of net outflows during 2014. Coincidentally, high yield mutual funds saw the same amount of 2014 net outflows (\$23.8 billion), though the majority of high yield outflows occurred during 3Q while loan outflows increased each quarter-over-quarter. Continued CLO demand did help offset retail outflows as 234 US CLOs totaling \$131.9 billion came to market, surpassing the previous record of \$94.1 billion set in 2006.¹ However, strong demand from the CLO market wasn't enough to support bank loan pricing. Average loan prices dropped almost 2.5% throughout 2014, falling from 98.29 on December 31, 2013 to 95.92 on December 31, 2014.² High yield prices fell even further over the same period, dropping 4.42 points.²

Total YTD Returns as of December 31, 2014

US Senior Loans (S&P/LSTA Leveraged Loan Index)	1.60%
US High Yield Bonds (Barclays High Yield Index)	2.45%
3-month Treasury Bills (BofA Merrill Lynch US 3-Month Treasury Bill Index)	0.04%
10-Year Treasuries (BofA Merrill Lynch 10-Year US Treasury Index)	10.72%
US Aggregate Bonds (Barclays US Aggregate Bond Index)	5.97%

Edgar Filing: Blackstone / GSO Senior Floating Rate Term Fund - Form N-CSR

US Investment Grade Bonds (Barclays US Corporate Investment Grade Index)	7.46%
Emerging Markets (Barclays EM USD Aggregate Index)	4.76%
US Large Cap Equities (S&P 500® Index)	13.66%

Sources: Barclays, Bloomberg, S&P/LCD

Past performance is no guarantee of future results. Index performance is shown for illustrative purposes only. You cannot invest directly in an index.

The market was correct in its expectation of a strengthening US economic recovery, although not about the magnitude of the improvement or about the low level of defaults for 2014. A total of 28 companies representing \$70.2 billion in high yield bonds and leveraged loans defaulted during the year, which marked the second highest year on record. We feel it is important to note that 77% of this amount is composed of just two borrowers. Excluding these issuers, total 2014 defaults were \$16.0 billion, the lowest total volume since 2007. Loan and high yield bond default rates, excluding TXU's April default, ended 2014 at 1.70% and 1.63%, respectively, compared to year-end 2013 default rates of 1.67% and 0.63%, and respectively.

So what might be in store for loans and bonds next year? With the recent revision of US Q3 GDP to 5%, as well as the increase in US real GDP based on the advance estimate, and the likelihood that lower energy costs will lead to further gains in consumer spending and corporate profits (at least outside of the energy sector), the Federal Reserve's resolve to begin raising interest rates by mid-year would seem to be strengthened. Further, it appears as though the US economy has further decoupled from the rest of the world, as many economists have pointed out. While many concerns regarding the US economy remain, particularly around structural employment issues and wage growth, there are many signs that further improvements are coming. We look forward to continuing improvements broadly in the US and some recovery of energy prices, which would indicate to us that the recent sell-off, particularly in high yield, was overdone. Over the course of the year as market participants begin to focus in on the nearer-term reality of Fed action on rates, we would expect returns on loans to make their move, driven by positive flows back to the asset class and away from core fixed income that had an unexpectedly strong 2014.

At GSO / Blackstone, we value your continued investment and confidence in us and in our family of funds. Additional information about our funds is available on our website at www.blackstone-gso.com.

Sincerely,

GSO / Blackstone Debt Funds Management LLC

Blackstone / GSO Senior Floating Rate Term Fund

Fund Summary

December 31, 2014
(Unaudited)**Fund Overview**

Blackstone / GSO Senior Floating Rate Term Fund (BSL or herein, the Fund) is a closed-end fund that trades on the New York Stock Exchange under the symbol BSL . BSL 's primary investment objective is to seek high current income, with a secondary objective to seek preservation of capital, consistent with its primary goal of high current income. Under normal market conditions, the fund invests at least 80% of its total assets in senior, secured floating rate loans (Senior Loans). BSL may also invest in second-lien loans and high yield bonds and employs financial leverage, which may increase risk to the fund.

Portfolio Management Commentary*Fund Performance*

BSL outperformed its key benchmark, the S&P LLI, on a Net Asset Value (NAV) per share basis for the periods of three years and the life of the Fund since inception, though it underperformed for the periods of three months, six months, and one year. The share price of BSL also underperformed its benchmark over all of those periods due to market value fluctuations. The shares of the Fund traded at an average discount to NAV of -5.23% for the last twelve months ending December 31.

NAV Performance Factors¹

The Fund 's over-allocation to both Commercial Services (15.0% versus the benchmark of 8.6%) and Technology Hardware & Equipment (11.1% versus the benchmark of 7.5%) and under-allocation to Electric Utilities (4.2% versus the benchmark of 5.2%) were the top contributors to performance throughout 2014. Conversely, the Fund 's over-allocation to both Retailing (9.0% versus the benchmark of 8.5%) and Energy (5.6% versus the benchmark of 4.1%) and under-allocation to Financials (0.5% versus the benchmark of 4.0%) weakened investment performance for the full year. Energy, which comprised 5.6% of the portfolio versus a benchmark weighting of 4.1%, was lackluster when compared to other sectors as oil prices declined by over 50% during the second-half of 2014. Notable contributors to performance, by issuer, included the Fund 's 0% weighting in TXU, Seadrill, and Education Management Holdings, as well as an overweight to RBS and Vertafore. Key detractors to investment performance were concentrated in three Energy-related names, including Sheridan Production Partners, Swift Energy, and Templar Energy.

In October, BSL refinanced its existing leverage through a repayment of its Senior Secured Notes (the Notes) and Preferred Shares (the Preferred Shares) with borrowings under a new 364-day revolving credit facility. This refinancing plan modestly reduced the Fund 's leverage but significantly reduced the Fund 's cost of borrowing. The accelerated amortization of the deferred financing cost (a non-cash expense) associated with the original issuance of the Notes and Preferred Shares resulted in an \$0.08 per share reduction of the Fund 's NAV in October. However, the cost savings associated with the reduced cost of borrowing are expected to offset this one-time expense.

Portfolio Activity and Positioning

Over the past year, BSL reduced its exposure to Healthcare and Pharmaceuticals and Telecommunications, and increased its exposure to Retail and Energy, Oil and Gas companies. The Fund maintained a lower cash balance throughout the year and shifted some of its Senior Loan allocation into high yield bonds. BSL also increased its second lien loan allocation. BSL increased its overall exposure to credits rated B1, though the Fund did selectively increase its Caa-rated assets. BSL was successful in recovering some of the portfolio loan spread lost during 2014, increasing the average loan spread 31 basis points since June 30.

As of December 31, 2014, the Fund held just over 92% of its Managed Assets in bank loans, just under 6% in high yield bonds, and the balance held in cash and other assets. BSL's investments represented the obligations of 178 companies diversified across 28 distinct industries, with an average position size representing 0.49% of Managed Assets and the top five industry groups representing 45% of total holdings of the Fund. High Tech Industries and Healthcare and Business Services represent the Fund's top industry weightings.

Blackstone / GSO Long-Short Credit Income Fund

Fund Summary

December 31, 2014
(Unaudited)**Fund Overview**

Blackstone / GSO Long Short Credit Income Fund (BGX or herein, the Fund) is a closed-end fund that trades on the New York Stock Exchange under the symbol BGX . BGX 's primary investment objective is to provide current income, with a secondary objective of capital appreciation. BGX will take long positions in investments which we believe offer the potential for attractive returns under various economic and interest rate environments. BGX may also take short positions in investments which we believe will under-perform due to a greater sensitivity to earnings growth of the issuer, default risk or the general level and direction of interest rates. BGX must hold no less than 70% of its Managed Assets in first-and second-lien secured floating rate loans (Secured Loans), but may also invest in unsecured loans and high yield bonds. BGX may use financial leverage and derivatives in employing its long strategy for up to a total of 150% of net assets.

Portfolio Management Commentary*Fund Performance*

BGX outperformed a composite weighting of the S&P LLI and the Barclays HYI (70% loans, 30% high yield bonds) on a NAV per share basis for the periods of three years and the life of the Fund since inception, though it underperformed for the periods of three months, six months, and one year. The share price of BGX also underperformed its benchmark over all of those periods due to market value fluctuations. The shares of the Fund traded at an average discount to NAV of -8.43% for the last twelve months ending December 31.

NAV Performance Factors¹

The Fund 's under-allocation in Materials (5.6% versus the benchmark of 9.2%) and over-allocation to both Retailing (10.9% versus the benchmark of 7.1%) and Technology Hardware and Equipment (8.9% versus the benchmark of 7.2%) were the top contributors to performance throughout 2014. Conversely, the Fund 's over-allocation to Energy (11.8% versus the benchmark of 6.8%) and under-allocation to both Media (5.5% versus the benchmark of 9.6%) and Financials (0.0% versus the benchmark of 1.0%) weakened investment performance for the full year. Energy, which comprised 11.8% of the portfolio versus a benchmark weighting of 6.8%, was lackluster when compared to other sectors as oil prices declined by over 50% during the second-half of 2014. Notable contributors to performance, by issuer, included the Fund 's 0% weighting in TXU as well as an overweight to RBS, Palace Entertainment, and Fibertech Networks. Key detractors to investment performance were, again, concentrated in a few Energy-related names, including Resolute Energy, Comstock Resources, and EXPRO.

At the end of July, BGX entered into a 364-day revolving credit facility, replacing its existing leverage of securities lending arrangements and swap arrangements. In preparation for this transition, the Fund 's leverage decreased significantly to 11.9% of Managed Assets in June before increasing to 24.4% of Managed Assets through borrowings under the credit facility.

Portfolio Activity and Positioning

Over the past year, BGX reduced its exposure to Healthcare and Pharmaceuticals, Business Services, and Telecommunications, and increased its exposure to Retail and Energy, Oil and Gas companies. The Fund's cash balance fluctuated throughout the year depending on current market views, and BGX selectively allocated more of its portfolio to high yield bonds through a reduction of its holdings of Secured Loans. Similar to BSL, BGX increased its overall exposure to credits rated B1, though the Fund did selectively increase its Caa-rated assets. The portfolio was able to increase its spread 17 basis points from the end of 2013. In December, BGX amended its investment guidelines to allow the Fund to invest up to 150% of net assets in long positions, which as a result allows for additional leverage to be taken. This change became effective in January 2015.

As of December 31, 2014, over 78% of BGX's assets were invested in Secured Loans, 19% were invested in high yield bonds, and the balance held in cash and other assets. The Fund held a small position of 0.35% in the Ba3 rated tranche of a collateralized loan obligation. There were two short positions in the Fund as of December 31, both US Treasury futures. In the aggregate, BGX's positions represent the direct obligations of 181 companies diversified across 29 distinct industries, with an average position representing 0.47% of Managed Assets. The top five industry groups represented 45% of total holdings of the Fund.

Blackstone / GSO Strategic Credit Fund

Fund Summary

December 31, 2014
(Unaudited)**Fund Overview**

Blackstone / GSO Strategic Credit Fund (*BGB* or herein, the *Fund*) is a closed-end fund that trades on the New York Stock Exchange under the symbol *BGB* . *BGB* 's primary investment objective is to seek high current income, with a secondary objective to seek preservation of capital, consistent with its primary goal of high current income. *BGB* invests primarily in a diversified portfolios or loans and other fixed income instruments of predominantly US Corporate issuers, including first-and second-lien loans (*Senior Secured Loans*) and high yield corporate bonds of varying maturities. *BGB* must hold no less than 80% of its Managed Assets in credit investments comprised of corporate fixed income instruments and other investments (including derivatives) with similar economic characteristics.

Portfolio Management Commentary*Fund Performance*

BGB outperformed a composite weighting of the S&P LLI and the Barclays HYI (75% loans, 25% high yield bonds) on a NAV per share basis for the life of the *Fund* since inception though it underperformed for the periods of three months, six months, and one year. On a share price basis, the *Fund* also outperformed its benchmark over the past three months, though it underperformed over the periods of six months, one year, and the life of the fund since inception due to market value fluctuations. The shares of the *Fund* traded at an average discount to NAV of -8.71% for the last twelve months ending December 31.

NAV Performance Factors¹

The *Fund* 's over-allocation to both Technology Hardware and Equipment (11.6% versus the benchmark of 7.1%) and Insurance (3.3% versus the benchmark of 1.7%) and under-allocation to Materials (6.4% versus the benchmark of 9.3%) were the top contributors to performance throughout 2014. Conversely, the *Fund* 's over-allocation to Energy (10.0% versus the benchmark of 7.3%) and under-allocation to both Media (6.7% versus the benchmark of 9.6%) and Banks (0.0% versus the benchmark of 1.2%) weakened investment performance for the full year. Energy, which comprised 10.0% of the portfolio versus a benchmark weighting of 7.3%, was lackluster when compared to other sectors as oil prices declined by over 50% during the second-half of 2014. Notable contributors to performance, by issuer, included the *Fund* 's 0% weighting in TXU, Education Management, and Seadrill Holdings, as well as an overweight to Sorenson Holdings and Vertafore. Consistent with the other funds, key detractors to investment performance were concentrated in a handful of Energy-related names, including Templar Energy, Resolute Energy, and Energy XXI.

Portfolio Activity and Positioning

Over the past six months, *BGB* continued to decrease its exposure to Business Services and Telecommunications and increased its exposure to Retail and Banking/Finance companies. The *Fund* maintained a lower cash balance throughout the year. *BGB* increased its exposure to B1-rated credits, and transitioned some of its B2/B3-rated assets to

Caa credits, which we believe present attractive relative value on a risk-adjusted basis. The portfolio increased its average loan spread by 9 bps and its average high yield bond coupon 39 bps from the end of 2013.

As of December 31, 2014, approximately 70% of BGB's assets were invested in Senior Secured Loans, 26% were invested in high yield bonds, and the remainder was held in cash and other assets. In the aggregate, BGB's investments represent the direct obligations of 310 companies diversified across 31 distinct industries, with an average position representing 0.28% of Managed Assets. The top five industry groups represented 43% of total holdings of the Fund.

Amounts above are shown as a percentage of net assets as of December 31, 2014.

(a) The interest rate shown represents the rate at period end.

(b) All or a portion of this position has not settled as of December 31, 2014. The interest rate shown represents the stated spread over the London Interbank Offered Rate (LIBOR or L) or the applicable LIBOR floor; the Fund will not accrue interest until the settlement date, at which point LIBOR will be established.

(c) Security exempt from registration under Rule 144A of the Securities Act of 1933. Total market value of Rule 144A securities amounts to \$193,143,433, which represents approximately 24.05% of net assets as of December 31, 2014.

(d) Option to convert to pay-in-kind security.

Blackstone / GSO Funds

Notes to Financial Statements

December 31, 2014

NOTE 1. ORGANIZATION

Blackstone / GSO Senior Floating Rate Term Fund (BSL), is a diversified, closed-end management investment company. BSL was organized as a Delaware statutory trust on March 4, 2010. BSL was registered under the Investment Company Act of 1940, as amended (the 1940 Act), on March 5, 2010. BSL commenced operations on May 26, 2010. Prior to that date, BSL had no operations other than matters relating to its organization and the sale and issuance of 5,236 common shares of beneficial interest in BSL to GSO / Blackstone Debt Funds Management LLC (the Adviser) at a price of \$19.10 per share. The Adviser serves as BSL s investment adviser. BSL s common shares are listed on the New York Stock Exchange (the Exchange) and trade under the ticker symbol BSL.

Absent shareholder approval to extend the term of BSL, BSL will dissolve on or about May 31, 2020. Upon dissolution, BSL will distribute substantially all of its net assets to shareholders, after making appropriate provision for any liabilities. Pursuant to BSL s Amended and Restated Agreement and Declaration of Trust (the Declaration of Trust), prior to the date of dissolution a majority of the Board of Trustees, with the approval of a majority of the shareholders entitled to vote (as defined in the 1940 Act) may extend the life of BSL. If approved, the dissolution date of BSL may be extended by a period of two years or such shorter time as may be determined. However, the dissolution date of BSL may be extended an unlimited number of times.

Blackstone / GSO Long-Short Credit Income Fund (BGX) is a diversified closed-end management investment company. BGX was organized as a Delaware statutory trust on October 22, 2010. BGX was registered under the 1940 Act on October 26, 2010. BGX commenced operations on January 27, 2011. Prior to that, BGX had no operations other than matters relating to its organization and the sale and issuance of 5,236 common shares of beneficial interest in BGX to the Adviser at a price of \$19.10 per share. The Adviser serves as the investment adviser for BGX. BGX s common shares are listed on the Exchange and trade under the ticker symbol BGX.

BGX and BSL were previously classified as non-diversified investment companies for purposes of the 1940 Act. As a result of ongoing operations, BGX and BSL are now classified as diversified companies as of April 1, 2014. This means that with respect to 75% of those funds total assets, no more than 5% of those funds total assets may be invested in any one issuer, except for cash and cash items, U.S. government securities and securities of other investment companies. BGX and BSL may not resume operating in a non-diversified manner without first obtaining shareholder approval in accordance with the 1940 Act.

Blackstone / GSO Strategic Credit Fund (BGB and collectively with BSL and BGX, the Funds) is a non-diversified closed-end management investment company. BGB was organized as a Delaware statutory trust on March 28, 2012. BGB was registered under the 1940 Act on April 6, 2012. BGB commenced operations on September 26, 2012. Prior to that, BGB had no operations other than matters relating to its organization and the sale and issuance of 5,236 common shares of beneficial interest in BGB to the Adviser at a price of \$19.10 per share. The Adviser serves as the investment adviser for BGB. BGB s common shares are listed on the Exchange and trade under the ticker symbol BGB.

BGB will dissolve on or about September 15, 2027, absent shareholder approval to extend such term. Upon dissolution, BGB will distribute substantially all of its net assets to shareholders, after making appropriate provision for any liabilities of the Fund. Pursuant to BGB's Agreement and Declaration of Trust, prior to the date of dissolution a majority of the Board of Trustees, with the approval of a majority of the outstanding voting securities entitled to vote (as defined in the 1940 Act), may extend the life of BGB. If approved, the dissolution date of the Fund may be extended by a period of two years or such shorter time as may be determined. However, the dissolution date of the Fund may be extended an unlimited number of times.

BSL's primary investment objective is to seek high current income, with a secondary objective to seek preservation of capital, consistent with its primary goal of high current income. Under normal market conditions, at least 80% of BSL's assets will be invested in senior secured, floating rate loans (Senior Loans).

BGX's primary investment objective is to provide current income, with a secondary objective of capital appreciation. BGX seeks to achieve its investment objectives by employing a dynamic long-short strategy in a diversified portfolio of loans and fixed-income instruments of predominantly U.S. corporate issuers, including first-and second-lien secured loans (Secured Loans) and high-yield corporate debt securities of varying maturities. BGX's long positions in loans and fixed-income instruments will typically be rated below investment grade at the time of purchase. BGX's long positions, either directly or through the use of derivatives, may total up to 130% of BGX's net assets. BGX's short positions, either directly or through the use of derivatives, may total up to 30% of BGX's net assets.

On December 19, 2014 the Board of Trustees approved a change to BGX's investment guidelines that took effect in January 2015. Under the new investment guidelines, BGX's long positions, either directly or through the use of derivatives, may total up to 150% of BGX's net assets. The Fund's short positions, either directly or through the use of derivatives, may total up to 30% of the Fund's net assets. Subject to the preceding restrictions, the Fund's total long and short positions, either directly or through the use of derivatives, may total up to 160% of the Fund's net assets.

Blackstone / GSO Funds

Notes to Financial Statements

December 31, 2014

BGB's primary investment objective is to seek high current income, with a secondary objective to seek preservation of capital, consistent with its primary goal of high current income. The Fund will seek to achieve its investment objectives by investing primarily in a diversified portfolio of loans and other fixed income instruments of predominantly U.S. corporate issuers, including first- and second-lien secured loans ("Senior Secured Loans") and high yield corporate bonds of varying maturities. Under normal market conditions, at least 80% of BGB's assets will be invested in credit investments comprised of corporate fixed income instruments and other investments (including derivatives) with similar economic characteristics.

Senior Loans, Secured Loans and Senior Secured Loans are referred to collectively as "Loans" throughout the Notes to Financial Statements.

BGB is classified as "non-diversified" under the 1940 Act. As a result, BGB can invest a greater portion of its assets in obligations of a single issuer than a "diversified" fund. BGB may therefore be more susceptible than a diversified fund to being adversely affected by any single corporate, economic, political, or regulatory occurrence.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements. The preparation of their financial statements is in accordance with accounting principles generally accepted in the United States of America ("GAAP"), which requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates and these differences could be material. Each Fund is considered an investment company for financial reporting purposes under GAAP.

Portfolio Valuation: Each Fund's net asset value ("NAV") is determined daily on each day that the Exchange is open for business, as of the close of the regular trading session on the Exchange. Each Fund calculates NAV per share by subtracting liabilities (including accrued expenses or dividends) from the total assets of such Fund (the value of the securities plus cash or other assets, including interest accrued but not yet received) and dividing the result by the total number of outstanding common shares of such Fund.

Loans are primarily valued by using a composite loan price from a nationally recognized loan pricing service. The methodology used by the Funds' nationally recognized loan pricing provider for composite loan prices is to value loans at the mean of the bid and ask prices from one or more brokers or dealers. Collateralized Loan Obligations ("CLOs") are valued at the price provided by a nationally recognized pricing service. The prices provided by the nationally recognized pricing service are typically based on the evaluated mid-price of each of the CLOs. Corporate, other than short-term investments, are valued at the price provided by a nationally recognized pricing service. The prices provided by the nationally recognized pricing service are typically based on the mean of bid and ask prices for each corporate bond security. In determining the value of a particular investment, pricing services may use certain information with respect to transactions in such investments, quotations from dealers, pricing matrices, market transactions in comparable investments, various relationships observed in the market between investments and

calculated yield measures based on valuation technology commonly employed in the market for such investments. Short-term debt investments, if any, having a remaining maturity of 60 days or less when purchased would be valued at cost adjusted for amortization of premiums and accretion of discounts. Futures that are listed or traded on a national securities exchange, commodities exchange, contract market or comparable over-the-counter market and that are freely transferable are valued at their closing settlement price on the exchange on which they are primarily traded or based upon the current settlement price for a like instrument acquired on the day on which the instrument is being valued. Total return swaps are marked to market daily using prices of the underlying floating rate loans, which are then applied to the corresponding swap. Prices for the underlying floating rate loans are provided by the same nationally recognized loan pricing service. Any investments and other assets for which such current market quotations are not readily available are valued at fair value (Fair Valued Assets) as determined in good faith by a committee of the Adviser under procedures established by, and under the general supervision and responsibility of, the Funds Boards of Trustees.

Various inputs are used to determine the value of the Funds' investments. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The three-tier hierarchy of inputs is summarized in the three broad Levels listed below.

Level 1 Unadjusted quoted prices in active markets for identical investments at the measurement date.

Level 2 Significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.).

Level 3 Significant unobservable inputs (including the Funds' own assumptions in determining the fair value of investments).

The valuation techniques used by the Funds to measure fair value during the year ended December 31, 2014 maximized the use of observable inputs and minimized the use of unobservable inputs. The categorization of a value determined for investments and other financial instruments is based on the pricing transparency of the investment and other financial instrument and does not necessarily correspond to the Funds' perceived risk of investing in those securities.

Blackstone / GSO Funds

Notes to Financial Statements

December 31, 2014

The Funds evaluate transfers into or out of Level 1, 2 and 3 as of the end of the reporting period. There were no transfers between Level 1 and 2 during the period. Transfers from Level 2 to Level 3 occurred primarily due to the lack of observable market data due to decreased market activity or information for these securities. Transfers from Level 3 to Level 2 occurred primarily due to the increased availability of observable market data due to increased market activity or information. As shown above, transfers in and out of Level 3 represent the values as of the beginning of the reporting period.

Securities Transactions and Investment Income: Securities transactions are recorded on trade date for financial reporting purposes and amounts payable or receivable for trades not settled at the time of period end are reflected as liabilities and assets, respectively. Interest income, including accretion of discount and amortization of premium, is recorded on the accrual basis. Realized gains and losses from securities transactions and foreign currency transactions, if any, are recorded on the basis of identified cost and stated separately in the Statement of Operations.

When the Funds sell a floating rate loan interest they may pay an agency fee. The Funds earn facility and other fees on floating rate loan interests, and facility fees are typically amortized to income over the term of the loan. Consent and amendment fees are also recorded to income as earned. All of these fees are shown on the Statement of Operations under Facility and other fees.

Federal Income Taxes: It is the policy of the Funds to continue to qualify as regulated investment companies by complying with the requirements of Subchapter M of the Internal Revenue Code of 1986, as amended, applicable to regulated investment companies, and to distribute substantially all of their earnings to their shareholders.

Income distributions and capital gain distributions are determined in accordance with income tax regulations, which may differ from GAAP. These differences are primarily due to differing treatments of income and gains on various investment securities held by the Funds, timing differences and differing characterization of distributions made by the Funds as a whole.

As of and during the year ended December 31, 2014, the Funds did not have a liability for any unrecognized tax benefits. The Funds file U.S. federal, state, and local tax returns as required. The Funds' tax returns are subject to examination by the relevant tax authorities until expiration of the applicable statute of limitations which is generally three years after the filing of the tax return for federal purposes and four years for most state returns. Tax returns for open years have incorporated no uncertain tax positions that require a provision for income taxes.

Distributions to Shareholders: The Funds make monthly cash distributions of all or a portion of their net investment income to common shareholders. The Funds will distribute to common shareholders at least annually all or substantially all of their net investment income after the payment of dividends and interest, if any, owed with respect to outstanding preferred shares and/or borrowings, if applicable. The Funds intend to pay any capital gains distributions at least annually.

NOTE 3. MANAGEMENT FEES, ADMINISTRATION FEES, AND OTHER AGREEMENTS

The Adviser, a wholly-owned subsidiary of GSO Capital Partners LP (collectively with its affiliates, GSO), is a registered investment adviser and is responsible for the day-to-day management of, and providing administrative and compliance oversight services to, the Funds. GSO is an affiliate of The Blackstone Group L.P.

For BSL, the Adviser receives a monthly fee at the annual rate of 1.00% of the average daily value of BSL's total assets (including any assets attributable to any leverage used) minus the sum of the BSL's accrued liabilities (other than Fund liabilities incurred for any leverage) (Managed Assets). For BGX, the Adviser receives a monthly fee at the annual rate of 1.20% of the average daily value of BGX's net assets (total assets of BGX minus liabilities, including accrued expenses or dividends). For BGB, the Adviser receives a monthly fee at the annual rate of 1.00% of the average daily value of BGB's Managed Assets.

Each Fund pays every Trustee who is not a director, officer, employee, or affiliate of GSO or ALPS (as defined below), a fee of \$16,667 per annum, plus \$2,500 per regular in-person joint meeting of the Board of Trustees. If such in-person regular board meeting is not held jointly, the respective Fund will pay each Trustee \$3,000 for each such meeting attended. For each in-person special meeting of the Board of Trustees, each Fund will pay each Trustee \$2,000 if held jointly, and \$2,500 per applicable Fund if not held jointly. If a meeting is held telephonically the Funds will pay each Trustee \$750 if held jointly, and \$1,000 per applicable Fund if not held jointly. The Chairman of the Audit Committee and the Chairman of the Nominating and Governance Committee also each receive \$2,500 per annum from each fund. The Lead Independent Trustee receives \$2,667 from each Fund. In addition, for each joint meeting of a committee of the Board of Trustees that does not occur on a regular meeting or special meeting of the Funds, the Funds will each pay every committee member \$750 for each such committee meeting attended. If such committee meeting is not held jointly, the respective Fund will pay each committee member \$1,000 for each such meeting attended. The Funds will also reimburse independent Trustees for travel and out-of-pocket expenses incurred in connection with such meetings.

ALPS Fund Services, Inc. (ALPS) serves as administrator to the Funds. Under the administration agreement, ALPS is responsible for calculating the net asset value of the common shares and generally managing the administrative affairs of the Funds. For each of BSL and BGB, ALPS receives a monthly fee at the annual rate of 0.15% of the average daily value of such Funds' respective Managed Assets, subject to, in each case, a minimum

Table of Contents

Blackstone / GSO Funds

Notes to Financial Statements

December 31, 2014

annual fee of \$350,000, plus out-of-pocket expenses. For BGX, ALPS receives a monthly fee at the annual rate of 0.18% of the average daily value of BGX's net assets, also subject to a minimum annual fee of \$350,000, plus out-of-pocket expenses. ALPS is not an affiliate of the Funds.

The Bank of New York Mellon serves as BSL's and BGB's custodian. JP Morgan Chase Bank, National Association (JP Morgan Chase) served as BGX's custodian until the transition to Bank of New York Mellon on July 29, 2014. Computershare Shareowner Services, LLC, serves as the Funds' transfer agent. The Bank of New York Mellon, Computershare Shareowner Services, LLC, and JP Morgan Chase are not affiliates of the Funds.

NOTE 4. SECURITIES TRANSACTIONS

Investment transactions for the year ended December 31, 2014, excluding temporary short-term investments, were as follows:

Fund	Cost of Investments Purchased	Proceeds from Investments Sold
Blackstone / GSO Senior Floating Rate Term Fund	\$ 279,609,286	\$ 280,447,787
Blackstone / GSO Long-Short Credit Income Fund	226,885,309	189,378,700

NOTE 6. SENIOR AND SECURED FLOATING RATE LOANS

BSL defines Senior Loans as first lien senior secured, floating rate loans that are made to U.S. and, to a limited extent, non-U.S. corporations, partnerships and other business entities (Borrowers), which operate in various industries and geographical regions. BGX includes first and second lien secured, floating rate loans in its definition of Secured Loans. Under normal market conditions, at least 80% of BSL's Managed Assets will be invested in Senior Loans and 70% of BGX's managed assets will be invested in Secured Loans. Under normal market conditions, at least 80% of BGB's Managed Assets will be invested in credit investments comprised of corporate fixed income instruments and other investments (including derivatives and Senior Secured Loans) with similar economic characteristics. At December 31, 2014, 82.12% of BSL's Managed Assets were held in Senior Loans, 78.35% of BGX's Managed Assets were held in Secured Loans, and 96.88% of BGB's Managed Assets were held in corporate fixed income instruments including Loans.

Loans hold a senior position in the capital structure of a business entity, are secured with specific collateral and have a claim on the assets and/or stock of the Borrower that is senior to that held by unsecured creditors, subordinated debt holders and stockholders of the Borrower.

Loans often require prepayments from Borrowers' excess cash flows or permit the Borrowers to repay at their election. The degree to which Borrowers repay, whether as a contractual requirement or at their election, cannot be predicted with accuracy. As a result, the actual remaining maturity may be substantially less than the stated maturities shown. However, floating rate loans typically have an expected average life of two to

Table of Contents

Blackstone / GSO Funds

Notes to Financial Statements

December 31, 2014

four years. Floating rate loans typically have rates of interest which are re-determined periodically, either daily, monthly, quarterly or semi-annually by reference to a floating base lending rate, primarily the London Interbank Offered Rate (LIBOR), plus a premium or credit spread.

Loans are subject to the risk of payment defaults of scheduled interest or principal. Such non-payment could result in a reduction of income, a reduction in the value of the investment and a potential decrease in the net asset value of any of the Funds. Risk of loss of income is generally higher for subordinated unsecured loans or debt, which are not backed by a security interest in any specific collateral. There can be no assurance that the liquidation of any collateral securing a Loan would satisfy the Borrower's obligation to the applicable Fund in the event of non-payment of scheduled interest or principal payments, or that such collateral could be readily liquidated.

Second lien loans generally are subject to similar risks as those associated with investments in first lien loans except that such loans are subordinated in payment and/or lower in lien priority to first lien holders. In the event of default on a second lien loan, the first priority lien holder has first claim to the underlying collateral of the loan. Second lien loans are subject to the additional risk that the cash flow of the Borrower and property securing the loan or debt, if any, may be insufficient to meet scheduled payments after giving effect to the senior obligations of the Borrower. At December 31, 2014, BSL, BGX and BGB had invested \$39,001,748, \$30,845,607 and \$116,542,887, respectively, in second lien secured loans. Second lien secured loans are considered Secured Loans for BGX and Senior Secured Loans for BGB, but are not considered Senior Loans for BSL.

Loans can be rated below investment grade or may also be unrated. As a result, the risks associated with Loans may be similar to the risks of other below investment grade securities, although they are senior and secured in contrast to other below investment grade securities, which are often subordinated or unsecured. BSL, BGX and BGB typically invest in Loans rated below investment grade, which are considered speculative because of the credit risk of the Borrowers. Such companies are more likely than investment grade issuers to default on their payments of interest and principal owed to BSL, BGX and BGB, and such defaults could reduce net asset value and income distributions. The amount of public information available with respect to below investment grade loans will generally be less extensive than that available for registered or exchange-listed securities. In evaluating the creditworthiness of Borrowers, the Adviser will consider, and may rely in part on, analyses performed by others. The Adviser's established best execution procedures and guidelines require trades to be placed for execution only with broker-dealer counterparties approved by the Counterparty and Liquidity Sub-Committee of the Adviser. The factors considered by the Counterparty and Liquidity Sub-Committee when selecting and approving brokers and dealers include, but are not limited to: (i) quality, accuracy, and timeliness of execution, (ii) review of the reputation, financial strength and stability of the financial institution, (iii) willingness and ability of the counterparty to commit capital, (iv) ongoing reliability and (v) access to underwritten offerings and secondary markets. The Counterparty and Liquidity Sub-Committee regularly reviews each broker-dealer counterparty based on the foregoing factors.

BSL, BGX and BGB may acquire Loans through assignments or participations. BSL, BGX and BGB typically acquire these Loans through assignment, and if a Fund acquires a Loan through participation, it will seek to elevate a participation interest into an assignment as soon as practicably possible. The purchaser of an assignment typically succeeds to all the rights and obligations of the assigning institution and becomes a lender under the credit agreement with respect to the debt obligation; however, the purchaser's rights can be more restricted than those of the assigning

institution, and BSL, BGX or BGB may not be able to unilaterally enforce all rights and remedies under the Loan and with regard to any associated collateral. A participation typically results in a contractual relationship only with the institution participating out the interest, not with the Borrower. Sellers of participations typically include banks, broker-dealers, other financial institutions and lending institutions. The Adviser has adopted best execution procedures and guidelines to mitigate credit and counterparty risk in the atypical situation when BSL, BGX or BGB must acquire a Loan through a participation. None of the Funds had outstanding participations as of December 31, 2014.

NOTE 7. DERIVATIVE INSTRUMENTS

BGX entered into total return swaps, credit default swaps, and futures contracts during the year ended December 31, 2014.

In a total return swap, BGX pays another party a fixed or floating short-term fee and receives in exchange the total return of underlying loans or debt securities. If the other party to a total return swap defaults, BGX's risk of loss consists of the net amount of total return payments that BGX is contractually entitled to receive. BGX bears the risk of default on the underlying loans or debt securities, based on the notional amount of the swap. BGX is required to post collateral to cover this potential obligation. BGX used total return swaps for financing, hedging or investment purposes until July 29, 2014 (see further information in Note 10 – Leverage). For the purposes of Managed Assets, BGX will treat the value of a total return swap as the notional amount of the swap.

BGX may also use credit default swaps to express a negative or positive credit view on a loan or other investment. If BGX purchases protection under a credit default swap and no credit event occurs on the reference obligation, BGX will have made a series of periodic payments and recover nothing of monetary value. However, if a credit event occurs on the reference obligation, BGX (if the buyer of protection) will receive the full notional value of the reference obligation through a cash payment in exchange for the reference obligation or alternatively, a cash payment representing the difference between the expected recovery rate and the full notional value.

Table of Contents

Blackstone / GSO Funds

Notes to Financial Statements

December 31, 2014

The periodic swap payments received or made by BGX are recorded in the Statements of Operations as realized gains or losses, respectively. Any upfront fees paid are recorded as assets and any upfront fees received are recorded as liabilities and amortized over the term of the swap. Swaps are marked-to-market daily and changes in value, including the accrual of periodic amounts of interest, are recorded as unrealized appreciation (depreciation) and shown on BGX's Statement of Operations. When the swap is terminated, BGX will record a realized gain or loss equal to the difference between the proceeds from (or cost of) the closing transaction and BGX's basis in the contract, if any. Generally, the basis of the contracts is the unamortized premium received or paid.

International Swaps and Derivatives Association, Inc. Master Agreements (ISDA Master Agreements) govern OTC financial derivative transactions entered into by a Fund and those counterparties. The ISDA Master Agreements maintain provisions for general obligations, representations, agreements, collateral and events of default or termination. Events of termination include conditions that may entitle counterparties to elect to terminate early and cause settlement of all outstanding transactions under the applicable ISDA Master Agreement. Any election to terminate early could be material to the financial statements.

Swap transactions involve, to varying degrees, elements of interest rate, credit and market risk in excess of the amounts recognized in the Statements of Assets and Liabilities. Such risks involve the possibility that there will be no liquid market for these agreements, that the counterparty to the agreements may default on its obligation to perform or disagree as to the meaning of the contractual terms in the agreements, and that there may be unfavorable changes in interest rates and/or market values associated with these transactions. The Adviser selects only those counterparties that it believes are credit-worthy. BGX segregates sufficient assets as collateral to satisfy the current obligations with respect to total return and credit default swaps, and this is reflected as Deposit held with broker for swap contracts on BGX's Statement of Assets and Liabilities.

BGX also entered into futures contracts on securities. A futures contract is an agreement to buy or sell a security or currency (or to deliver a final cash settlement price in the case of a contract relating to an index or otherwise not calling for physical delivery at the end of trading in the contract) for a set price at a future date. If BGX buys a security futures contract, BGX enters into a contract to purchase the underlying security and is said to be long under the contract. If BGX sells a security futures contract, BGX enters into a contract to sell the underlying security and is said to be short under the contract. The price at which the contract trades (the contract price) is determined by relative buying and selling interest on a regulated exchange. Futures contracts are marked to market daily and an appropriate payable or receivable for the change in value (variation margin) is recorded by BGX.

Futures contract transactions may result in losses substantially in excess of the variation margin disclosed on the Statement of Assets and Liabilities. There can be no guarantee that there will be a correlation between price movements in the hedging vehicle and in the portfolio securities being hedged. An incorrect correlation could result in a loss on both the hedged securities in a Fund and the hedging vehicle so that the portfolio return might have been greater had hedging not been attempted. There can be no assurance that a liquid market will exist at a time when BGX seeks to close out a futures contract. Lack of a liquid market for any reason may prevent BGX from liquidating an unfavorable position, and BGX would remain obligated to meet margin requirements until the position is closed. In addition, BGX could be exposed to risk if the counterparties to the contracts are unable to meet the terms of their contracts. With exchange-traded futures contracts, there is minimal counterparty credit risk to the Funds since futures

contracts are exchange-traded and the exchange's clearinghouse, as counterparty to all exchange-traded futures contracts, guarantees the futures contracts against default.

Notes to Financial Statements

December 31, 2014

The effect of derivative instruments on the Statements of Operations as of December 31, 2014 is as follows:

Risk Exposure	Statement of Operations Location	Net Realized Gain/(Loss)	Net Change in Unrealized Appreciation/(Depreciation)
Blackstone / GSO Long-Short Credit Income Fund			
Credit Contracts (Total Return Swap Contracts)	Net realized gain/(loss) on total return swap contracts/Net change in unrealized appreciation/(depreciation) on total return swap contracts	\$ 242,600	\$ (16,462)
Credit Contracts (Credit Default Swap Contracts)	Net realized gain/(loss) on credit default swap contracts/Net change in unrealized appreciation/(depreciation) on credit default swap contracts	90,119	
Interest Rate Contracts (Futures Contracts)	Net realized gain/(loss) on futures contracts/Net change in unrealized appreciation/(depreciation) on futures contracts	51,211	(19,577)
Total		\$ 383,930	\$ (36,039)

The average notional amount for Total Return Swaps held by BGX during the period January 1, 2014 through May 31, 2014 was \$14,736,194. The average number of futures contracts held by BGX during the period October 1, 2014 through December 31, 2014 was 130.

NOTE 8. COLLATERALIZED LOAN OBLIGATIONS

BGX has invested in Collateralized Loan Obligations (CLOs). A CLO is a financing company (generally called a Special Purpose Vehicle (SPV)), created to reappportion the risk and return characteristics of a pool of assets. While the assets underlying CLOs are typically Secured Loans, the assets may also include (i) unsecured loans, (ii) debt securities that are rated below investment grade, and (iii) equity securities incidental to investments in Secured Loans. When investing in CLOs, BGX will not invest in equity tranches, which are the lowest tranche. However, BGX may invest in lower tranches of CLOs, which typically experience a lower recovery, greater risk of loss or deferral or non-payment of interest than more senior tranches of the CLO. In addition, BGX intends to invest in CLOs consisting primarily of individual Secured Loans of Borrowers and not repackaged CLO obligations from other high risk pools. The underlying Secured Loans purchased by CLOs are generally performing at the time of purchase but may become non-performing, distressed or defaulted. CLOs with underlying assets of non-performing, distressed or defaulted loans are not contemplated to comprise a significant portion of the BGX 's investments in CLOs. The key feature of the CLO

structure is the prioritization of the cash flows from a pool of debt securities among the several classes of the CLO. The SPV is a company founded solely for the purpose of securitizing payment claims arising out of this diversified asset pool. On this basis, marketable securities are issued by the SPV which, due to the diversification of the underlying risk, generally represent a lower level of risk than the original assets. The redemption of the securities issued by the SPV typically takes place at maturity out of the cash flow generated by the collected claims.

NOTE 9. SECURITIES LENDING

Through July 29, 2014 BGX made secured loans of its marginable securities to brokers, dealers and other financial institutions amounting to no more than 30% of its net assets. The risks in lending portfolio securities, as with other extensions of credit, consisted of possible delay in recovery of the securities or possible loss of rights in the collateral should the borrower fail financially. However, such loans were made only to broker-dealers and other financial institutions that were believed by the Adviser to be of relatively high credit standing.

Loans of securities were made to broker-dealers pursuant to agreements requiring that loans be continuously secured by collateral consisting of U.S. Government securities, cash or cash equivalents (negotiable certificates of deposit, bankers' acceptances or letters of credit) maintained on a daily mark-to-market basis in an amount at least equal at all times to the market value of the securities lent. The borrower paid to BGX, as the lender, an amount equal to any dividends or interest received on the securities lent. The collateral must have had a market value at least equal to 100% of the market value of the loaned securities at all times during the duration of the loan.

BGX invested the cash collateral received in accordance with its investment objectives, subject to BGX's agreement with the borrower of the securities. In the case of cash collateral, BGX typically paid a rebate to the borrower. The reinvestment of cash collateral resulted in a form of effective leverage for BGX.

Although voting rights or rights to consent with respect to the loaned securities passed to the borrower, BGX, as the lender, retained the right to call the loans and obtain the return of the securities loaned at any time on reasonable notice, and did so in order that the securities may be voted by BGX if the holders of such securities were asked to vote upon or consent to matters materially affecting the investment. BGX could have also

Table of Contents

Blackstone / GSO Funds

Notes to Financial Statements

December 31, 2014

called such loans in order to sell the securities involved. When engaged in securities lending, BGX's performance reflected changes in the value of the securities loaned and also reflected the receipt of interest through investment of cash collateral by BGX in permissible investments.

Due to the change in the leverage program noted below there were no securities on loan at December 31, 2014.

NOTE 10. LEVERAGE

On August 13, 2010, BSL issued \$96 million in aggregate principal amount of senior secured notes and 48,000 term preferred shares with an aggregate liquidation preference of \$48 million, both rated AAA by Fitch Ratings. On October 8, 2014, BSL redeemed 100% of the senior secured notes and term preferred shares at 100% of their principal amount or liquidation preference, as applicable, and paid amounts representing the final accumulated interest or dividend amounts owed through the redemption date. BSL financed the prepayment of its senior secured notes and term preferred shares with borrowings under a new 364-day revolving credit facility described below.

Until their redemption, the senior secured notes and term preferred shares in combination represented total leverage of approximately 33% of BSL's Managed Assets. BSL used the proceeds of the offerings to purchase additional assets for BSL's portfolio. The final maturity date of the senior secured notes and the final redemption date of the term preferred shares was May 31, 2020, which coincided with the scheduled dissolution date of BSL.

Both the senior secured notes and the term preferred shares were able to be prepaid or redeemed without penalty at the option of BSL commencing on the fourth anniversary of issuance.

In connection with BSL's issuance of senior secured notes and term preferred shares, certain offering costs were incurred by BSL and were recorded as a deferred asset. These costs were being amortized over the period beginning August 13, 2010 (day of issuance) through May 31, 2017, the date on which mandatory prepayments would commence. The redemption of the senior secured notes and term preferred shares resulted in BSL accelerating the realization of approximately \$1.2 million of the amortized expenses incurred in connection with the issuance of the senior secured notes and term preferred shares. The amount of expense amortized during the year ended December 31, 2014 is shown on BSL's Statement of Operations under Amortization of deferred financing costs.

The weighted average interest rate of the \$144 million aggregate amount of senior secured notes and term preferred shares for the period of January 1, 2014 through the redemption date of October 8, 2014 was 1.78% over 3 month LIBOR. On a quarterly basis, BSL paid a floating rate interest of 1.55% over 3 month LIBOR on the senior secured notes and a floating rate dividend of 2.25% over 3 month LIBOR on the term preferred shares.

According to the governing documents for the senior secured notes and term preferred shares, BSL was required to adhere to certain limitations and restrictions while the leverage was outstanding. These compliance tests were performed by BSL's custodian, The Bank of New York Mellon. These tests were in addition to any requirements outlined in BSL's registration statement and the 1940 Act. Until the redemption date of October 8, 2014, BSL was in

compliance with all required limitations and restrictions related to its leverage.

The holders of the term preferred shares were entitled to one vote per share and voted with holders of common stock as a single class, except that the term preferred shares voted separately as a class on certain matters, as required by law or BSL's Declaration of Trust. The holders of term preferred shares, voting as a separate class, were entitled at all times to elect two Trustees of BSL.

Through July 29, 2014, BGX employed leverage through securities lending arrangements (see Note 7 Securities Lending) and swap arrangements (see Note 4 Total Return Swaps). All costs and expenses related to any form of leverage used by BGX are borne entirely by holders of common shares. BGX's leverage consisted of (i) the amount of securities lending cash collateral held less proforma cash (which includes the net difference between receivables and payables for investments sold/purchased), (ii) the fair market value of the reference securities of total return swaps less cash pledged and (iii) the fair market value of securities sold short less any segregated cash or offsetting securities. BGX's use of these forms of effective leverage did not exceed 30% of its net assets.

Each Fund has entered into a separate Credit Agreement (the Agreement) with a bank to borrow money pursuant to a 364-day revolving line of credit (Leverage Facility). BSL entered into an agreement dated October 8, 2014, to borrow up to a limit of \$142 million. BGX entered into an agreement dated July 29, 2014, to borrow up to a limit of \$73 million. BGB entered into an agreement dated December 21, 2012, as amended at December 20, 2013 and December 19, 2014, to borrow up to a limit of \$425 million. Borrowings under each Agreement are secured by the assets of each Fund. Interest is charged at a rate of 0.70% above LIBOR in BSL and BGX and 0.75% above LIBOR in BGB, the period commencing on the date of the making of such LIBOR Loan (or the last date upon which any other Loan was converted to, or continued as, such LIBOR Loan) and ending on the numerically corresponding day in the calendar month that is one (1) week or one (1), two (2), three (3), six (6) or nine (9) months thereafter, as each Fund may elect, or such other period as the lender may agree in its sole and absolute discretion. Under the terms of the Agreement, each fund must pay a commitment fee on any undrawn amounts. The commitment fee payable in BSL and BGX is 0.20% on the undrawn amounts and in BGB is 0.15% on the undrawn amounts when drawn amounts exceed 50% of the borrowing limit and 0.25% on the undrawn amounts at any other

Table of Contents

Blackstone / GSO Funds

Notes to Financial Statements

December 31, 2014

time. Interest and fees are payable quarterly. Each Fund may elect to extend the Agreement for a further 364-day period with the consent of the lending bank. At December 31, 2014, BSL, BGX, and BGB had borrowings outstanding under its respective Leverage Facility of \$133 million, \$73 million, and \$389.5 million, at an interest rate of 0.86%, 0.86%, and 0.91%, respectively. Due to the short term nature of each Agreement, face value approximates fair value at December 31, 2014. This fair value is based on Level 2 inputs under the three-tier fair valuation hierarchy (see Note 2). For the period of October 8, 2014 through December 31, 2014, the average borrowings under BSL's Leverage Facility and the average interest rate were \$137,411,765 and 0.86%, respectively. For the period of July 29, 2014 through December 31, 2014, the average borrowings under BGX's Leverage Facility and the average interest rate were \$66,826,923 and 0.85%, respectively. The average borrowings and interest rate for the year ended December 31, 2014 for the Leverage Facility in BGB were \$403,727,397 and 0.99%, respectively.

Under each Agreement, each Fund has agreed to certain covenants and additional investment limitations while the leverage is outstanding. Each Fund agreed to maintain asset coverage of three times over borrowings. Compliance with the investment restrictions and calculations are performed by the Funds' custodian, The Bank of New York Mellon. As of December 31, 2014, each Fund was in compliance with all required investment limitations and asset coverage requirements related to their leverage.

The use of borrowings to leverage the common shares of the Funds can create risks. Changes in the value of the Funds' portfolios, including securities bought with the proceeds of leverage, are borne entirely by the holders of common shares of the Funds. All costs and expenses related to any form of leverage used by the Funds are borne entirely by common shareholders. If there is a net decrease or increase in the value of the Funds' investment portfolios, the leverage may decrease or increase, as the case may be, the net asset value per common share to a greater extent than if the Funds did not utilize leverage. During periods when BSL and BGB are using leverage, the fees paid to the Adviser for advisory services and to ALPS for administrative services are higher than if BSL and BGB did not use leverage because the fees paid are calculated on the basis of BSL and BGB's Managed Assets, which include the assets purchased through leverage. As of December 31, 2014, BSL's, BGX's, and BGB's leverage represented 32.59%, 24.39% and 32.67% of each Fund's Managed Assets, respectively.

NOTE 11. TAX BASIS DISTRIBUTIONS

Ordinary income (inclusive of short-term capital gains) and long-term capital gains are allocated to common stockholders after payment of the available amounts on any outstanding term preferred shares. To the extent that the amount distributed to common stockholders exceeds the amount of available ordinary income and long-term capital gains after allocation to any outstanding term preferred shares, these distributions are treated as a tax return of capital. Additionally, to the extent that the amount distributed on any outstanding term preferred shares exceeds the amount of available ordinary income and long-term capital gains, these distributions are treated as a tax return of capital.

As determined on December 31, 2014, certain permanent differences between financial and tax accounting were reclassified. These differences were primarily due to the differing tax treatment of certain investments. The amounts reclassified did not affect net assets. The reclassifications were as follows:

Fund	Decrease Paid-in capital	Increase/(Decrease) Accumulated net investment income/(loss)	Increase/(Decrease) Accumulated net realized gain/(loss) on investments
Blackstone / GSO Senior Floating Rate Term Fund	\$ (56,182)	\$ (95,895)	\$ 152,077
Blackstone / GSO Long-Short Credit Income Fund	\$	\$ 321,028	\$ (321,028)
Blackstone / GSO Strategic Credit Fund	\$	\$ 9,560	\$ (9,560)

The tax character of distributions paid by the Funds during the fiscal years ended December 31, 2014 and December 31, 2013 were as follows:

2014	Blackstone / GSO Senior Floating Rate Term Fund	Blackstone / GSO Long-Short Credit Income Fund	Blackstone / GSO Strategic Credit Fund
Distributions Paid From:			
Ordinary Income	\$ 14,627,457	\$ 12,778,678	\$ 52,804,338
Long-Term Capital Gain	594,237	183,372	
Return of Capital	4,117,920	2,229,733	4,544,728
Total	\$ 19,339,614	\$ 15,191,783	\$ 57,349,066

Table of Contents

Blackstone / GSO Funds

Notes to Financial Statements

December 31, 2014

2013	Blackstone / GSO Senior		
	Floating Rate Term Fund	Blackstone / GSO Long-Short Credit Income Fund	Blackstone / GSO Strategic Credit Fund
Distributions Paid From:			
Ordinary Income	\$ 19,405,572	\$ 16,461,268	\$ 60,018,885
Long-Term Capital Gain	223,817	635,108	181,309
Return of Capital			2,486,188
Total	\$ 19,629,389	\$ 17,096,376	\$ 62,686,382

At December 31, 2014, the Funds had available for federal tax purposes unused capital loss carryforwards, which are available to offset future realized gains. To the extent that these carryforwards are used to offset future gains, it is probable that the amount offset will not be distributed to shareholders. The carryforward losses are as follows:

Fund	Short Term	Long Term
Blackstone / GSO Senior Floating Rate Term Fund	\$	\$ 2,427,547
Blackstone / GSO Long-Short Credit Income Fund	\$ 68,674	\$ 760,765
Blackstone / GSO Strategic Credit Fund	\$	\$

The Funds elects to defer to the period ending December 31, 2015 capital losses recognized during the period November 1, 2014 to December 31, 2014 in the amount of:

Fund	Capital Losses
Blackstone / GSO Senior Floating Rate Term Fund	\$ 234,988
Blackstone / GSO Long-Short Credit Income Fund	\$ 124,018
Blackstone / GSO Strategic Credit Fund	\$ 251,491

The Funds elects to defer to the period ending December 31, 2015 late year ordinary losses in the amount of:

Fund	Ordinary Losses
Blackstone / GSO Senior Floating Rate Term Fund	\$
Blackstone / GSO Long-Short Credit Income Fund	\$
Blackstone / GSO Strategic Credit Fund	\$ 55,896

At December 31, 2014, the components of distributable earnings on a tax basis for the Funds were as follows:

	Blackstone / GSO Senior Floating Rate Term Fund	Blackstone / GSO Long-Short Credit Income Fund	Blackstone / GSO Strategic Credit Fund
Undistributed ordinary income	\$	\$	\$
Accumulated capital gains/losses	(2,662,535)	(953,457)	(251,491)
Unrealized appreciation	(8,299,338)	(9,790,461)	(37,081,691)
Other Cumulative effect of timing differences		19,577	(55,896)
Total	\$ (10,961,873)	\$ (10,724,341)	\$ (37,389,078)

The amount of net unrealized appreciation/(depreciation) and the cost of investment securities for tax purposes, including short-term securities at December 31, 2014, were as follows:

	Blackstone / GSO Senior Floating Rate Term Fund	Blackstone / GSO Long-Short Credit Income Fund	Blackstone / GSO Strategic Credit Fund
Cost of investments for income tax purposes	\$ 407,435,417	\$ 302,469,870	\$ 1,195,084,791
Gross appreciation (excess of value over tax cost)	\$ 1,292,892	\$ 1,016,082	\$ 6,709,390
Gross depreciation (excess of tax cost over value)	(9,592,230)	(10,786,966)	(43,790,674)
Net depreciation of foreign currency and derivatives		(19,577)	(407)
Net unrealized depreciation	\$ (8,299,338)	\$ (9,790,461)	\$ (37,081,691)

Notes to Financial Statements

December 31, 2014

NOTE 12. RELATED PARTY TRANSACTIONS

BGB engaged in cross trades with its affiliate during the year ended December 31, 2014 pursuant to Rule 17a-7 under the 1940 Act. Generally, cross trading is the buying or selling of portfolio securities between funds to which the Adviser serves as the investment adviser. The Board of Trustees previously adopted procedures that apply to transactions between the Funds and its affiliates pursuant to Rule 17a-7. At its regularly scheduled meetings, the Board of Trustees reviews such transactions as of the most current calendar quarter for compliance with the requirements set forth by Rule 17a-7 and the Funds' procedures. The procedures require that the transactions be a purchase or sale for no consideration other than cash payment against prompt delivery of a security for which market quotations are readily available, and be consistent with the investment policies of each Fund. BGB purchased securities from other funds for which the Adviser is the investment adviser in the amount of \$4,137,302 and sold a security in the amount of \$3,033,963 with a realized loss of \$49,040.

NOTE 13. SUBSEQUENT EVENTS

Shareholder Distributions for BSL: On January 30, 2015 and February 27, 2015, BSL paid regularly scheduled distributions in the amount of \$0.09 per share to shareholders of record as of January 23, 2015 and February 20, 2015, respectively.

Shareholder Distributions for BGX: On January 30, 2015 and February 27, 2015, BGX paid regularly scheduled distributions in the amount of \$0.098 per share to shareholders of record as of July January 23, 2015 and February 20, 2015, respectively.

Shareholder Distributions for BGB: On January 30, 2015 and February 27, 2015, BGB paid regularly scheduled distributions in the amount of \$0.105 per share to shareholders of record as of January 23, 2015 and February 20, 2015, respectively.

BGX Leverage: On January 26, 2015, BGX's line of credit agreement dated July 29, 2014, was amended to increase the maximum borrowing capacity up to \$117,000,000.

Table of Contents

Report of Independent Registered

Blackstone / GSO Funds

Public Accounting Firm

To the Shareholders and Board of Trustees of Blackstone / GSO Senior Floating Rate Term Fund, Blackstone / GSO Long-Short Credit Income Fund, and Blackstone / GSO Strategic Credit Fund:

We have audited the accompanying statements of assets and liabilities, including the portfolios of investments, of Blackstone / GSO Senior Floating Rate Term Fund, Blackstone / GSO Long-Short Credit Income Fund, and Blackstone / GSO Strategic Credit Fund (the Funds) as of December 31, 2014, the related statements of operations and cash flows for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the periods presented. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. The Funds are not required to have, nor were we engaged to perform, an audit of their internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Funds internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of December 31, 2014, by correspondence with the custodian, brokers and agent banks; where replies were not received from brokers or agent banks, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Blackstone / GSO Senior Floating Rate Term Fund, Blackstone / GSO Long-Short Credit Income Fund, and Blackstone /GSO Strategic Credit Fund as of December 31, 2014, the results of their operations and their cash flows for the year then ended, the changes in their net assets for each of the two years in the period then ended, and the financial highlights for each of the periods presented, in conformity with accounting principles generally accepted in the United States of America.

Summary of Dividend Reinvestment Plan

December 31, 2014 (Unaudited)

Pursuant to the Funds' Dividend Reinvestment Plan (the "DRIP"), shareholders whose shares are registered in their own name may opt-in to the plan and elect to reinvest all or a portion of their distributions in common shares by providing the required enrollment notice to Computershare, the DRIP administrator. Shareholders whose shares are held in the name of a broker or other nominee may have distributions reinvested only if such a service is provided by the broker or the nominee or if the broker or the nominee permits participation in the DRIP. Shareholders whose shares are held in the name of a broker or other nominee should contact the broker or nominee for details. A shareholder may terminate participation in the DRIP at any time by notifying the DRIP administrator before the record date of the next distribution through the Internet, by telephone or in writing. All distributions to shareholders who do not participate in the DRIP, or have elected to terminate their participation in the DRIP, will be paid by check mailed directly to the record holder by or under the direction of the DRIP administrator when the Funds' Board of Trustees declares a distribution.

When the Funds declare a distribution, shareholders who are participants in the applicable DRIP receive the equivalent of the amount of the distribution in common shares. If you participate in the DRIP, the number of common shares of the Funds that you will receive will be determined as follows:

(1) If the market price of the common shares plus any brokerage commissions on the payable date (or, if the payable date is not a New York Stock Exchange trading day, the immediately preceding trading day) for determining shareholders eligible to receive the relevant distribution (the "determination date") is equal to or exceeds 98% of the net asset value per common share, the Fund will issue new common shares at a price equal to the greater of:

(a) 98% of the net asset value per share at the close of trading on the New York Stock Exchange on the determination date or

(b) 95% of the market price per common share on the determination date.

(2) If 98% of the net asset value per common share exceeds the market price of the common shares plus any brokerage commissions on the determination date, the DRIP administrator will receive the distribution in cash and will buy common shares in the open market, on the New York Stock Exchange or elsewhere, for your account as soon as practicable commencing on the trading day following the determination date and terminating no later than the earlier of (a) 30 days after the distribution payment date, or (b) the record date for the next succeeding distribution to be made to the shareholders; except when necessary to comply with applicable provisions of the federal securities laws. If during this period: (i) the market price plus any brokerage commissions rises so that it equals or exceeds 98% of the net asset value per common share at the close of trading on the New York Stock Exchange on the determination date before the DRIP administrator has completed the open market purchases or (ii) the DRIP administrator is unable to invest the full amount eligible to be reinvested in open market purchases, the DRIP administrator will cease purchasing common shares in the open market and the Fund will issue the remaining common shares at a price per share equal to the greater of (a) 98% of the net asset value per share at the close of trading on the New York Stock Exchange on the determination date or (b) 95% of the then current market price per share.

The DRIP administrator maintains all shareholder accounts in the dividend reinvestment plan and furnishes written confirmations of all transactions in the account, including information needed by shareholders for personal and tax

records. Common shares in the account of each DRIP participant are held by the DRIP administrator in non-certificated form in the name of the participant, and each shareholder's proxy includes shares purchased pursuant to the DRIP.

There is no charge to participants for reinvesting regular distributions and capital gains distributions. The fees of the DRIP administrator for handling the reinvestment of regular distributions and capital gains distributions are included in the fee to be paid by us to our transfer agent. There are no brokerage charges with respect to shares issued directly by us as a result of regular distributions or capital gains distributions payable either in shares or in cash. However, each participant bears a pro rata share of brokerage commissions incurred with respect to the DRIP administrator's open market purchases in connection with the reinvestment of such distributions. Shareholders that opt-in to the DRIP will add to their investment through dollar cost averaging. Because all dividends and distributions paid to such shareholder will be automatically reinvested in additional common shares, the average cost of such shareholder's common shares will decrease over time. Dollar cost averaging is a technique for lowering the average cost per share over time if the Fund's net asset value declines. While dollar cost averaging has definite advantages, it cannot assure profit or protect against loss in declining markets.

The automatic reinvestment of such dividends or distributions does not relieve participants of any income tax that may be payable on such dividends or distributions.

You may obtain additional information by contacting the DRIP administrator at the following address: Computershare, Attn: Sales Dept., P.O. Box 358035, Pittsburgh, PA 15252.

Additional Information

December 31, 2014 (Unaudited)

Portfolio Information. The Funds file their complete schedules of portfolio holdings with the Securities and Exchange Commission (the SEC) for the first and third quarters of each fiscal year on Form N-Q. The Funds' Forms N-Q will be available (1) on the Funds' website located at <http://www.blackstone-gso.com>; (2) on the SEC's website at <http://www.sec.gov>; or (3) for review and copying at the SEC's Public Reference Room (the PRR) in Washington, DC. Information regarding the operation of the PRR may be obtained by calling 1-800-SEC-0330.

Proxy Information. The policies and procedures used to determine how to vote proxies relating to securities held by the Funds are available (1) without charge, upon request, by calling 1-877-876-1121, or (2) on the Funds' website located at <http://www.blackstone-gso.com>, and (3) on the SEC's website at <http://www.sec.gov>. Information regarding how the Funds voted proxies relating to portfolio securities during the most recent twelve-month period ended June 30 is available on Form N-PX by August 31 of each year (1) without charge, upon request, by calling 1-877-876-1121, or (2) on the Funds' website located at <http://www.blackstone-gso.com>, and (3) on the SEC's website at <http://www.sec.gov>.

Senior Officer Code of Ethics. The Funds file a copy of their code of ethics that applies to the Funds' principal executive officer, principal financial officer or controller, or persons performing similar functions, with the SEC as an exhibit to each annual report on Form N-CSR. This will be available on the SEC's website at <http://www.sec.gov>.

Privacy Procedures. Privacy is very important to the Funds. To ensure our shareholders' privacy the Funds have developed policies that are designed to protect confidentiality while allowing their shareholders' needs to be served. In the course of providing their shareholders with products and services, the Funds may obtain non-public personal information, such as address, social security number, assets and/or income information: (i) in the subscription document and related support documents; (ii) in correspondence and conversations with the Funds or their representatives; and (iii) through transactions in and relating to the investment with the Funds.

The Funds do not disclose any of this personal information about shareholders to anyone other than to their affiliates, except as required for everyday purposes or as permitted by law, such as to their attorneys, auditors, brokers, bankers, regulators, administrators and certain service providers, in each such case, only as necessary to facilitate the acceptance of the shareholder's investment or the management of the Funds. The Funds will also release information about a shareholder if such shareholder directs the Funds to do so, if compelled to do so by law, or in connection with any government or self-regulatory organization request or investigation.

The Funds seek to carefully safeguard private information and, to that end, restrict access to non-public personal information about the shareholders to those employees and other persons who need to know the information to enable the Funds to provide services to the shareholders. The Funds maintain physical, electronic and procedural safeguards to protect each shareholder's non-public personal information.

Tax Information. Of the ordinary income (including short-term capital gains) distributions made by BSL during the fiscal period ended December 31, 2014, 0% qualifies for the dividend received deduction available to stockholders. The amount of long-term capital gains paid for the fiscal period ended December 31, 2014 was \$594,237. For the fiscal period ended December 31, 2014, 0% of the taxable investment income qualifies for the 15% dividend tax rate.

Of the ordinary income (including short-term capital gain) distributions made by BGX during the fiscal period ended December 31, 2014, 0% qualifies for the dividend received deduction available to stockholders. The amount of long-term capital gains paid for the fiscal period ended December 31, 2014 was \$183,372. For the fiscal period ended December 31, 2014, 0% of the taxable investment income qualifies for the 15% dividend tax rate.

Of the ordinary income (including short-term capital gain) distributions made by BGB during the fiscal period ended December 31, 2014, 0% qualifies for the dividend received deduction available to stockholders. The amount of long-term capital gains paid for the fiscal period ended December 31, 2014 was \$0. For the fiscal period ended December 31, 2014, 0% of the taxable investment income qualifies for the 15% dividend tax rate.

Trustees & Officers

December 31, 2014 (Unaudited)

The oversight of the business and affairs of the Funds is vested in the Board of Trustees. The Board of Trustees is classified into three classes Class I, Class II and Class III as nearly equal in number as reasonably possible, with the Trustees in each class to hold office until their successors are elected and qualified. At each annual meeting of shareholders, the successors to the class of Trustees whose terms expire at that meeting shall be elected to hold office for terms expiring at the later of the annual meeting of shareholders held in the third year following the year of their election or the election and qualification of their successors. The Funds' executive officers were appointed by the Board of Trustees to hold office until removed or replaced by the Board of Trustees or until their respective successors are duly elected and qualified.

Below is a list of the Trustees and officers of the Funds and their present positions and principal occupations during the past five years. The business address of the Funds, the Trustees, the Funds' officers, and the Adviser is 345 Park Avenue, 31st Floor, New York, NY 10154, unless specified otherwise below.

Table of Contents

Item 2. Code of Ethics.

- (a) The registrant, as of the end of the period covered by the report, has adopted a code of ethics that applies to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller or any persons performing similar functions on behalf of the registrant.
- (b) Not applicable.
- (c) During the period covered, by this report, no amendments were made to the provisions of the code of ethics adopted in 2 (a) above.
- (d) During the period covered by this report, no implicit or explicit waivers to the provision of the code of ethics adopted in 2 (a) above were granted.
- (e) Not applicable.
- (f) The registrant's Code of Ethics is attached as Exhibit 12.A.1 hereto.

Item 3. Audit Committee Financial Expert.

The registrant's Board of Trustees has determined that the registrant has at least one audit committee financial expert serving on its audit committee. The Board of Trustees has designated Thomas W. Jasper as the registrant's audit committee financial expert. Mr. Jasper is independent as defined in paragraph (a)(2) of Item 3 to Form N-CSR.

Item 4. Principal Accounting Fees and Services.

- (a) **Audit Fees:** The aggregate fees billed for professional services rendered by the principal accountant for the audit of the registrant's annual financial statements or services that are normally provided by the accountant in connection with statutory and regulatory filings or engagements for the fiscal years ended December 31, 2014 and December 31, 2013 were \$80,700 and \$78,750, respectively.
- (b) **Audit-Related Fees:** The aggregate fees billed for the fiscal years ended December 31, 2014 and December 31, 2013 for assurance and related services by the principal accountant that are reasonably related to the performance of the audit of the registrant's financial statements and are not reported under paragraph (a) of this Item were \$0 and \$0, respectively.

Table of Contents

- (c) Tax Fees: The aggregate fees billed for the fiscal year ended December 31, 2014 and December 31, 2013 for professional services rendered by the principal accountant for tax compliance, tax advice, and tax planning were \$6,483 and \$31,425, respectively.
- (d) All Other Fees: The aggregate fees billed for the fiscal years ended December 31, 2014 and December 31, 2013 for products and services provided by the principal accountant, other than the services reported in paragraphs (a) through (c) of this Item were \$0 and \$34,000, respectively. These fees pertain to agreed-upon procedures performed by the principal accountant for the registrant's senior secured notes and term preferred shares.
- (e)(1) Audit Committee Pre-Approval Policies and Procedures: All services to be performed by the Registrant's principal auditors must be pre-approved by the registrant's audit committee.
- (e)(2) The services described in paragraph (c) and (d) were approved pursuant to paragraph (c)(7)(i)(C) of Rule 2-01 of Regulation S-X. There were no services of the kind described in paragraph (b) provided.
- (f) Not applicable.
- (g) The aggregate non-audit fees billed by the registrant's accountant for services rendered to the registrant, and rendered to the registrant's investment adviser, and any entity controlling, controlled by, or under common control with the adviser that provides ongoing services to the registrant for the fiscal years ended December 31, 2014 and December 31, 2013 were \$6,483 and \$65,425, respectively.
- (h) Not applicable.

Item 5. Audit Committee of Listed Registrant.

The registrant has a separately designated standing audit committee established in accordance with Section 3(a)(58)(A) of the Exchange Act and is comprised of the following members:

Thomas W. Jasper, Chairman

Edward H. D Alelio

Michael Holland

Gary S. Schpero

Item 6. Schedule of Investments.

- (a)

Schedule of Investments in securities of unaffiliated issuers as of the close of the reporting period is included as part of the Report to Stockholders filed under Item 1 of this Form N-CSR.

(b) Not applicable.

Table of Contents**Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies.**

Attached, as Exhibit Item 7, is a copy of the registrant's policies and procedures.

Item 8. Portfolio Managers of Closed-End Management Investment Companies.**(a)(1) As of: December 31, 2014**

The lead portfolio manager for the registrant (also referred to as the Fund) is Lee Shaiman, who is primarily responsible for the day-to-day management of the Fund. The U.S. Credit Investment Committee (the Investment Committee) of GSO / Blackstone Debt Funds Management LLC (the Adviser) is also included below. The Investment Committee approves investments made by the Fund, but is not primarily responsible for the Fund's day-to-day management.

Portfolio Managers	Title	Length of Service	Business Experience During Past 5 Years
Daniel H. Smith, Jr.	Investment Committee Member, President and Chief Executive Officer	Since Inception	Mr. Smith is a Senior Managing Director and Head of the Adviser. Mr. Smith joined the Adviser from Royal Bank of Canada (RBC) in July 2005 where he was a Managing Partner and Co-head of RBC Capital Markets Alternative Investments Unit. Mr. Smith has over 25 years of experience in investment management, including high yield bank loans and bonds, investment grade debt, mezzanine and private debt, public and private equities and limited partnership investments. Mr. Smith received a Masters in Management from the J.L. Kellogg Graduate School of Management at Northwestern University and a B.S. in Petroleum Engineering from the University of Southern California.
Lee M. Shaiman	Portfolio Manager, Investment Committee Member,	Since Inception	Mr. Shaiman is a Managing Director of the Adviser. Mr. Shaiman joined the Adviser from RBC in July 2005 where

Table of Contents

	Executive Vice President and Assistant Secretary		he was a Managing Partner and Head of Portfolio Management and Credit Research in the Debt Investments group. He is a Certified Public Accountant, licensed in the State of New Jersey. Mr. Shaiman has over 30 years of experience in leveraged finance, including structuring and placement of senior bank loans and bridge financing, private placements, high yield bonds and equity co-investments. Mr. Shaiman received a Masters of Science in Accounting and Taxation from the Wharton School of the University of Pennsylvania and a B.S. in Economics, cum laude, Phi Beta Kappa, from Rutgers College.
Brad Marshall	Investment Committee Member	Since Inception	Mr. Marshall is a Senior Managing Director of the Adviser. Before joining the Adviser in 2005, Mr. Marshall worked in various roles at RBC, including fixed income research and business development within RBC's private equity funds effort. Prior to RBC, Mr. Marshall helped develop a private equity funds business for TAL Global, a Canadian asset management division of CIBC, and prior to that, he co-founded a microchip verification software company where he served as chief financial officer. Mr. Marshall received an M.B.A. from McGill University in Montreal where he was an Academic All-Canadian and a B.A. (Honors) in Economics from Queen's University in Kingston, Canada.
Daniel T. McMullen	Investment Committee Member	Since Inception	Mr. McMullen is a Managing Director of the Adviser and leader of the group's capital markets effort. Before joining

⁽¹⁾ Potential Conflicts of Interest

The portfolio managers and the Investment Committee members (together, "portfolio managers") have interests which may conflict with the interests of the Fund. There is no guarantee that the policies and procedures adopted by the Adviser and the Fund will be able to identify or mitigate these conflicts of interest. Some examples of material conflicts of interest include:

Broad and Wide-Ranging Activities. The portfolio managers, the Adviser, The Blackstone Group L.P. (together with its affiliates, "Blackstone") and their affiliates engage in a broad spectrum of activities. In the ordinary course of their business activities, the portfolio managers, the Adviser, Blackstone and their affiliates may engage in activities where the interests of certain divisions of the Adviser, Blackstone and their affiliates or the interests of their clients may conflict with the interests of the shareholders of the Fund. Other present and future activities of the Adviser, Blackstone and their affiliates may give rise to additional conflicts of interest. In the event that a conflict of interest arises, the Adviser will attempt to resolve such conflicts in a fair and equitable manner, subject to the limitations of the Investment Company Act of 1940, as amended (the "Investment Company Act"). The Adviser will have the power to resolve, or consent to the resolution of, conflicts of interest on behalf of, and such resolution will be binding on, the Fund, subject to the limitations of the Investment Company Act. Shareholders of the Fund should be aware that conflicts will not necessarily be resolved in favor of the Fund's interests.

Table of Contents

The Adviser's and Blackstone's Policies and Procedures. Specified policies and procedures implemented by the Adviser, Blackstone and their affiliates to mitigate potential conflicts of interest and address certain regulatory requirements and contractual restrictions may reduce the synergies across the Adviser's, Blackstone's and their affiliates' various businesses that the Fund expects to draw on for purposes of pursuing attractive investment opportunities. Because the Adviser, Blackstone and their affiliates have many different asset management and advisory businesses, they are subject to a number of actual and potential conflicts of interest, greater regulatory oversight and more legal and contractual restrictions than that to which they would otherwise be subject if they each had just one line of business. In addressing these conflicts and regulatory, legal and contractual requirements across their various businesses, the Adviser, Blackstone and their affiliates have implemented certain policies and procedures (e.g., information walls) that may reduce the positive synergies that the Fund expects to utilize for purposes of managing its investments. For example, the Adviser, Blackstone and their affiliates may come into possession of material non-public information with respect to companies in which the Fund may be considering making an investment or companies that are the Adviser's, Blackstone's and their affiliates' advisory clients. In certain situations, the Fund's activities could be restricted even if such information, which could be of benefit to the Fund, was not made available to the Fund or the Adviser. Additionally, the terms of confidentiality or other agreements with, or related to, companies of any client of the Adviser, Blackstone and their affiliates may restrict or otherwise limit the ability of the Fund and/or its portfolio entities to engage in businesses or activities competitive with such companies. Finally, the Adviser, Blackstone and their affiliates may enter into one or more strategic relationships in certain regions or with respect to certain types of investments that, although may be intended to provide greater opportunities for the Fund, may require the Fund to share such opportunities or otherwise limit the amount of an opportunity the Fund can otherwise take.

Allocation of Investment Opportunities. Certain inherent conflicts of interest arise from the fact that the portfolio managers, the Adviser, Blackstone and their affiliates provide investment management services both to the Fund and other clients, including, other funds, as well as client accounts, proprietary accounts and any other investment vehicles that the Adviser and its affiliates may establish from time to time managed by the Adviser and its affiliates in which the Fund will not have an interest (such other clients, funds and accounts, collectively the Other Adviser Accounts). In addition, Blackstone and its affiliates provide investment management services to other clients, including other funds, and any other investment vehicles that Blackstone or any of its affiliates may establish from time to time, client accounts, and proprietary accounts in which the Fund will not have an interest (such other clients, funds and accounts, collectively the Other Blackstone Accounts and together with the Other Adviser Accounts, the Other Accounts). The respective investment programs of the Fund and the Other Accounts may or may not be substantially similar. The portfolio managers, the Adviser, Blackstone and their affiliates may give advice and recommend securities to Other Accounts which may differ from advice given to, or securities and instruments recommended or bought for, the Fund, even though their investment objectives may be the same or similar to those of the Fund.

While the Adviser will seek to manage potential conflicts of interest in good faith, the portfolio strategies employed by the portfolio managers, the Adviser, Blackstone and

Table of Contents

their affiliates in managing its respective Other Accounts could conflict with the transactions and strategies employed by the portfolio managers in managing the Fund and may affect the prices and availability of the securities and instruments in which the Fund invests. Conversely, participation in specific investment opportunities may be appropriate, at times, for both the Fund and Other Accounts. It is the policy of the Adviser to generally share appropriate investment opportunities (including purchase and sale opportunities) with the Other Accounts. In general and except as provided below, this means that such opportunities will be allocated *pro rata* among the Fund and the Other Accounts based on targeted acquisition size (generally based on available capacity) or targeted sale size (or, in some sales cases, the aggregate positions), taking into account available cash and the relative capital of the respective entities. Nevertheless, investment opportunities may be allocated other than on a pro rata basis, if the Adviser deems in good faith that the Fund and the Other Accounts receive fair and equitable treatment and determines that a different allocation among the Fund and the Other Accounts is appropriate, taking into account, among other considerations, (a) the risk-return profile of the proposed investment relative to the Fund's or the Other Accounts' current risk profiles; (b) the Fund's or the Other Accounts' investment guidelines, restrictions and objectives, including whether such objectives are considered solely in light of the specific investment under consideration or in the context of the respective portfolio's overall holdings; (c) the need to re-size risk in the Fund's or Other Accounts' portfolios, including the potential for the proposed investment to create an industry, sector or issuer imbalance among the Fund's and the Other Accounts' portfolios; (d) liquidity considerations of the Fund and Other Accounts, including during a ramp-up or wind-down of the Fund or Other Account, proximity to the end of the Fund's or Other Accounts' specified term, any redemption/withdrawal requests, anticipated future contributions and available cash; (e) tax consequences; (f) regulatory restrictions or consequences; (g) when a pro rata allocation could result in *de minimis* or odd lot allocations; (h) degree of leverage availability and any requirements or other terms of any existing leverage facilities; (i) the Fund's or an Other Account's investment focus on a classification attributable to an investment or issuer of an investment, including, without limitation, geography, industry or business sector; (j) the nature and extent of involvement in the transaction on the part of the respective teams of investment professionals dedicated to the Fund or an Other Account; and (k) any other considerations deemed relevant by the Adviser or the applicable investment adviser to an Other Account. Because of these and other factors, certain Other Accounts may effectively have priority in investment allocations over the Fund, notwithstanding the Adviser's policy of *pro rata* distribution.

The Adviser will generally execute the Fund's and Other Accounts' transactions on an aggregated basis when the Adviser believes that to do so will allow the Adviser to obtain best execution and to negotiate more favorable commission rates or other transaction costs that might have otherwise been paid had such orders been placed independently. When aggregating orders, the Fund and Other Accounts will be treated in a fair and equitable manner. As used herein, *aggregated order* shall mean when the Adviser places an order on behalf of the Fund and Other Clients and does not specify to the counterparty prior to execution the allocation between such entities. Generally, any partial fills will be allocated pro rata between the Fund and Other Accounts in accordance with the specified allocation. The Fund and Other Accounts that participate in the allocation of an aggregated order will participate at the average price for all of the participating transactions in that instrument or security on a given business day, with aggregated transaction costs shared *pro rata* based on the Fund's and such Other Accounts' participation in the transaction.

Table of Contents

Allocation of Personnel. Although the professional staff of the Adviser will devote as much time to the management of the Fund as the Adviser deems appropriate to perform its duties in accordance with the investment advisory agreement and in accordance with reasonable commercial standards, the professional staff of the Adviser may have conflicts in allocating its time and services among the Fund and the Adviser's other investment vehicles and accounts. The Adviser and its affiliates are not restricted from forming additional investment funds, from entering into other investment advisory relationships or from engaging in other business activities, even though such activities may be in competition with the Fund and/or may involve substantial time and resources of the Adviser and its professional staff. These activities could be viewed as creating a conflict of interest in that the time and effort of the members of the Adviser and its officers, managers and employees will not be devoted exclusively to the business of the Fund but will be allocated between the business of the Fund and the management of the monies of other clients of the Adviser.

Pursuit of Differing Strategies. At times, the portfolio managers may determine that an investment opportunity may be appropriate for only some of the accounts, clients, entities, funds and/or investment companies for which they exercise investment responsibility, or may decide that certain of the accounts, clients, entities, funds and/or investment companies should take differing positions with respect to a particular security or instrument. In these cases, a portfolio manager may place separate transactions for one or more accounts, clients, entities, funds and/or investment companies which may affect the market price of the security or instrument or the execution of the transaction, or both, to the detriment or benefit of one or more other accounts, clients, entities, funds and/or investment companies. For example, a portfolio manager may determine that it would be in the interest of another account to sell a security or instrument that the Fund holds long, potentially resulting in a decrease in the market value of the security held by the Fund. In addition, from time to time, the Fund and Other Accounts may make investments at different levels of an issuer's capital structure or otherwise in different classes of an issuer's securities, subject to the limitations of the Investment Company Act. Such investments may inherently give rise to conflicts of interest or perceived conflicts of interest between or among the various classes of securities that may be held by such entities.

Investment Banking, Advisory and Other Relationships. As part of its regular business, Blackstone provides a broad range of investment banking, advisory, underwriting, placement agent and other services. In addition, Blackstone may provide services in the future beyond those currently provided. The Fund will not receive a benefit from such fees. In the regular course of its investment banking and advisory businesses, Blackstone represents potential purchasers, sellers and other parties, including corporations, financial buyers, management, shareholders and institutions, with respect to transactions that could give rise to investments that are suitable for the Fund. In such a case, a Blackstone advisory client would typically require Blackstone to act exclusively on its behalf, thereby precluding the Fund from participating in such transactions. Blackstone will be under no obligation to decline any such engagements in order to make an investment opportunity available to the Fund. In connection with its investment banking, advisory and other businesses, Blackstone may come into possession of information that

Table of Contents

limits its and its affiliates' ability to engage in potential transactions. The Fund's activities may be constrained as a result of the inability of Blackstone personnel to use such information. For example, employees of Blackstone may be prohibited by law or contract from sharing information with members of the Fund's investment team. Additionally, there may be circumstances in which one or more of certain individuals associated with Blackstone will be precluded from providing services related to the Fund's activities because of certain confidential information available to those individuals or to other parts of Blackstone. In certain sell-side and fundraising assignments, the seller may permit the Fund to act as a participant in such transaction, which would raise certain conflicts of interest inherent in such a situation (including as to the negotiation of the purchase price) and also be subject to the limitations of the Investment Company Act.

Blackstone has long-term relationships with a significant number of corporations and their senior management. In determining whether to invest in a particular transaction on behalf of the Fund, the Adviser and the portfolio managers will consider those relationships, which may result in certain transactions that the Adviser and the portfolio managers will not undertake on behalf of the Fund in view of such relationships.

Representing Creditors and Debtors. Blackstone may represent creditors or debtors in proceedings under Chapter 11 of the Bankruptcy Code or prior to such filings. From time to time Blackstone may serve as advisor to creditor or equity committees. This involvement, for which Blackstone may be compensated, may limit or preclude the flexibility that the Fund may otherwise have to participate in restructurings or the Fund may be required to liquidate any existing positions of the applicable issuer to avoid a subsequent conflict of interest. The inability to transact in any security, derivative or loan held by the Fund could result in significant losses to the Fund.

Service Providers. The Fund's service providers (including lenders, brokers, attorneys and investment banking firms) may be sources of investment opportunities and counterparties therein. This may influence the Adviser or its affiliates in deciding whether to select such a service provider or have other relationships with Blackstone. Notwithstanding the foregoing, investment transactions for the Fund that require the use of a service provider will generally be allocated to service providers on the basis of best execution (and possibly to a lesser extent in consideration of such service provider's provision of certain investment-related services that the Adviser believes to be of benefit to the Fund).

Variation in Financial and Other Benefits. A conflict of interest arises where the financial or other benefits available to portfolio managers differ among the accounts, clients, entities, funds and/or investment companies that they manage. If the amount or structure of the management fee and/or a portfolio manager's compensation differs among accounts, clients, entities, funds and/or investment companies (such as where certain funds or accounts pay higher management fees or performance-based management fees), a portfolio manager might be motivated to help certain accounts, clients, entities, funds and/or investment companies over others. Similarly, the desire to maintain assets under management or to enhance a portfolio manager's performance record or to derive other rewards, financial or otherwise, could influence such portfolio manager in affording preferential treatment to those accounts, clients, entities, funds and/or investment companies that could most significantly benefit such portfolio manager. A portfolio manager may, for example, have an incentive to allocate favorable

Table of Contents

or limited opportunity investments or structure the timing of investments to favor such accounts, clients, entities, funds and/or investment companies. Also, the desire of a portfolio manager or the Adviser to increase assets under management could influence a portfolio manager to keep a fund open for new investors without regard to potential benefits of closing such fund to new investors. Additionally, a portfolio manager might be motivated to favor accounts, clients, entities, funds and/or investment companies in which he or she has an ownership interest or in which the investment manager and/or its affiliates have ownership interests. Conversely, if a portfolio manager does not personally hold an investment in the Fund, the portfolio manager's conflicts of interest with respect to the Fund may be more acute. The Adviser may also have a conflict of interest in allocating investment opportunities between the Fund and Other Accounts in cases where Other Accounts offer more attractive incentive fees to the Adviser or its affiliates.

Material, Non-Public Information. The Adviser or certain of its affiliates may come into possession of material non-public information with respect to an issuer. Should this occur, the Adviser would be restricted from buying or selling securities, derivatives or loans of the issuer on behalf of the Fund until such time as the information became public or was no longer deemed material to preclude the Fund from participating in an investment opportunity. Disclosure of such information to the personnel responsible for the affairs of the Fund will be on a need-to-know basis only, and the Fund may not be free to act upon any such information. Therefore, the Fund may not have access to material non-public information in the possession of the Adviser or certain of its affiliates which might be relevant to an investment decision to be made by the Fund, and the Fund may initiate a purchase or sale transaction which, if such information had been known to it, may not have been undertaken. Due to these restrictions, the Fund may not be able to initiate a purchase or sale transaction that it otherwise might have initiated.

Trading by Firm Personnel. The officers, directors, members, managers, and employees of the Adviser may trade in securities for their own accounts, subject to restrictions and reporting requirements as may be required by law and the policies of the Adviser and its affiliates, or otherwise determined from time to time by the Adviser.

Possible Future Activities. Blackstone, the Adviser and their affiliates may expand the range of services that they provide over time. Except as provided herein, Blackstone, the Adviser and their affiliates will not be restricted in the scope of their businesses or in the performance of any such services (whether now offered or undertaken in the future) even if such activities could give rise to conflicts of interest, and whether or not such conflicts are described herein. Blackstone, the Adviser and their affiliates have, and will continue to develop, relationships with a significant number of companies, financial sponsors and their senior managers, including relationships with clients who may hold or may have held investments similar to those intended to be made by the Fund. These clients may themselves represent appropriate investment opportunities for the Fund or may compete with the Fund for investment opportunities.

Transactions with Other Funds. From time to time, the Fund may enter into purchase and sale transactions with other funds managed by the Adviser or its affiliates. Such transactions will be conducted in accordance with, and subject to, the Adviser's fiduciary obligations to the Fund and the Investment Company Act.

Table of Contents

Other Affiliate Transactions. The Fund may acquire a senior loan from an issuer in which a separate equity or junior debt investment has been made by other Adviser or Blackstone affiliates. When making such investments, the Fund and other Adviser or Blackstone affiliates may have conflicting interests. For example, conflicts could arise where the Fund becomes a lender to a company when an affiliate of the Adviser owns equity securities of such a company. In this circumstance, for example, if such company goes into bankruptcy, becomes insolvent or is otherwise unable to meet its payment obligations or comply with its debt covenants, conflicts of interest could arise between the holders of different types of securities as to what actions the company should take. There can be no assurance that the return on the Fund's investment will be equivalent to or better than the returns obtained by the other affiliates.

Further conflicts could arise once the Fund and other affiliates have made their respective investments. For example, if a company goes into bankruptcy or reorganization, becomes insolvent or otherwise experiences financial distress or is unable to meet its payment obligations or comply with covenants relating to securities held by the Fund or by the other affiliates, such other affiliates may have an interest that conflicts with the interests of the Fund. If additional financing is necessary as a result of financial or other difficulties, it may not be in the best interests of the Fund to provide such additional financing. If the other affiliates were to lose their respective investments as a result of such difficulties, the ability of the Adviser to recommend actions in the best interests of the Fund might be impaired.

Investment Company Act Restrictions. The Investment Company Act limits the Fund's ability to enter into certain transactions with certain of its affiliates. As a result of these restrictions, the Fund may be prohibited from buying or selling any security directly from or to any portfolio company of a fund managed by Blackstone, the Adviser or their affiliates. However, the Fund may under certain circumstances purchase any such portfolio company's loans or securities in the secondary market, which could create a conflict for the Adviser between its interests in the Fund and the portfolio company, in that the ability of the Adviser to recommend actions in the best interest of the Fund might be impaired. Even despite compliance with the Investment Company Act, potential conflicts of interest may arise in such transactions. The Investment Company Act also prohibits certain joint transactions with certain of the Adviser's and Blackstone's affiliates, which could include investments in the same portfolio company (whether at the same or different times). These limitations may limit the scope of investment opportunities that would otherwise be available to the Fund.

Restrictions Arising under the Securities Laws. The activities of Blackstone and the Adviser and their affiliates (including, without limitation, the holding of securities positions or having one of its employees on the board of directors of a company) could result in securities law restrictions on transactions in securities held by the Fund, affect the prices of such securities or the ability of such entities to purchase, retain or dispose of such investments, or otherwise create conflicts of interest, any of which could have an adverse impact on the performance of the Fund and thus the return to the shareholders.

Additional Potential Conflicts. The Adviser and the portfolio managers may also face other potential conflicts of interest in managing the Fund, and the descriptions above are not a complete description of every conflict of interest that could be deemed to exist in managing both a Fund and the Other Accounts listed above.

Table of Contents**(a)(3) Portfolio Manager Compensation as of December 31, 2014.**

The Adviser's financial arrangements with its portfolio managers, its competitive compensation and its career path emphasis at all levels reflect the value senior management places on key resources. Compensation may include a variety of components and may vary from year to year based on a number of factors. The principal components of compensation include a base salary and a discretionary bonus.

Base Compensation. Generally, portfolio managers receive base compensation and employee benefits based on their individual seniority and/or their position with the firm.

Discretionary Compensation. In addition to base compensation, portfolio managers may receive discretionary compensation. Discretionary compensation is based on individual seniority, contributions to the Adviser and performance of the client assets that the portfolio manager has primary responsibility for. These compensation guidelines are structured to closely align the interests of employees with those of the Adviser and its clients.

(a)(4) Dollar Range of Securities Owned as of December 31, 2014.

	<u>Dollar Range of the Registrant's Securities</u>
<u>Portfolio Managers</u>	<u>Owned by the Portfolio Managers</u>
Daniel H. Smith, Jr.	\$100,001-\$500,000
Lee M. Shaiman	\$1-\$10,000
Robert Zable	\$0
Daniel T. McMullen	\$0
Brad Marshall	\$0

Item 9. Purchases of Equity Securities by Closed-End Management Investment Companies and Affiliated Purchasers.

None

Item 10. Submission of Matters to Vote of Security Holders.

There have been no material changes to the procedures by which shareholders may recommend nominees to the Registrant's Board of Trustees, where those changes were implemented after the Registrant last provided disclosure in response to the requirements of Item 407(c)(2) of Regulation S-K, or this Item.

Item 11. Controls and Procedures.

- (a) The registrant's principal executive officer and principal financial officer have concluded that the Registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended) are effective based on their evaluation of these controls and procedures as of a date within 90 days of the filing date of this document.

Table of Contents

- (b) There was no change in the Registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act of 1940, as amended) during the second fiscal quarter of the period covered by this report that has materially affected, or is reasonably likely to materially affect, the Registrant's internal control over financial reporting.

Item 12. Exhibits.

(a)(1) The Code of Ethics that applies to the registrant's principal executive officer and principal financial officer is attached hereto as Exhibit 12.A.1.

(a)(2) The certifications required by Rule 30a-2(a) of the Investment Company Act of 1940, as amended, and Section 302 of the Sarbanes-Oxley Act of 2002 are attached hereto as Ex-99.Cert.

(a)(3) Not applicable.

(b) A certification for the Registrant's Principal Executive Officer and Principal Financial Officer, as required by Rule 30a-2(b) of the Investment Company Act of 1940, as amended, and Section 906 of the Sarbanes-Oxley Act of 2002 are attached hereto as Ex-99.906Cert.

(c) The Proxy Voting Policies and Procedures are attached hereto as Ex99. Item 7.

(d) Pursuant to the Securities and Exchange Commission's Order granting relief from Section 19(b) of the Investment Company Act of 1940, as amended, the form of Section 19(a) Notices to Beneficial Owners are attached hereto as Exhibit 12(d).
