Expected to be produced by March 31, 2016.
Our Board has implemented market-leading governance practices in direct response to our shareholders feedback, **including proxy access with 3%/3 year threshold**
Board **proactively adopted proxy access** right at a 3% / 3 year ownership threshold with market-leading aggregation terms

At time of adoption, Bank of America was **one of only 10 US companies** to establish proxy access at 3%/3 year threshold

Demonstrates Bank of America's commitment to constructive engagement with investors and the evolving landscape of shareholder rights

Proxy Access

Enhanced business and sustainability reporting, including:

Highly Engaged, Independent Board with Deep Expertise

Our 13 member Board includes 11 independent directors, 8 of whom have been elected since 2009, including 7 in the last 3 years

4

We maintain strong board evaluation and succession planning practices to ensure we have the right skills and experiences on the Board to oversee our business and strategy

Commitment to Strong, Independent Board Leadership

Bank of America has evolved significantly since 2009, when separate Chairman and CEO roles were established. We have made changes to our Board composition and Executive Management Team, and our shareholder base has evolved considerably

Decision to appoint Mr. Moynihan as Chairman reflected his demonstrated leadership, management capability, knowledge of our industry, and the long-term, strategic perspective he has demonstrated as CEO over the last 5 years

Under Mr. Moynihan's leadership, we have rebuilt capital, streamlined operations, stabilized performance, increased capital returns to shareholders, and made key governance changes to enhance disclosure and shareholder engagement

Creation of a Lead Independent Director role with robust and transparent duties comparable to that of an Independent Chair was a key component of the Board's decision to change the independent leadership structure

Shareholder feedback from prior engagement and investor voting policies was also an important factor in our decision

5

Key Elements of 2014 Board Leadership Review
Key Considerations in Board Leadership Decision

When **Mr. Holliday**

advised the Board of

his intention to step

out of Independent

Chairman role,

formal succession

review commenced

Board conducted

external review

of

board leadership

structures including

investor voting

policies and past

feedback, benchmark

data, and peer data

Duties of the Lead Independent Director Establish Strong Independent Leadership in the Boardroom

Board Leadership

Presides at all meetings when Chairman is not present

Calls meetings of independent directors

Provides leadership if CEO / Chairman's role may be in conflict

Board Culture

Serves as a liaison between CEO and independent directors

Establishes relationship with CEO, providing support, advice and feedback

Board Focus

Helps ensure Board focuses on key issues facing Bank of America

Assists in promoting corporate governance best practices

Board Meetings

Advises CEO of Board information needs, and approves information sent to Board

Develops discussion topics for Board executive sessions

Board Performance & Development

Helps ensure efficient and effective Board performance and functioning

Consults with Governance Committee on annual Board self assessment

Provides guidance on ongoing director development

Consults in identification and evaluation of director candidates, committee

members and committee chairs

Shareholders & Other Stakeholders

Available for consultation and direct communication, to the extent requested by major shareholders

Board's oversight of management and company

Regularly communicates with primary bank regulators to discuss appropriateness of

Effective, Independent Corporate Governance Committee

7

Committee takes a proactive, disciplined approach to Board refreshment and director self-assessments as well as CEO evaluation and succession planning

Track record of promoting market-leading corporate governance best practices, including proxy access adoption and enhanced reporting disclosure

Our Corporate Governance Committee is made up of experienced, skilled Board members who contribute crucial strategic perspectives and drive independent oversight of management

Thomas May, Committee Chair

Sharon Allen, Committee Member

Other Committees: Enterprise Risk

Frank Bramble, Sr., Committee Member

Other Committees: Enterprise Risk (Chair)

Brings broad-ranging financial services experience and historical insight from leadership positions at two

Experience on a wide range of issues including risk management, credit cycles, consumer sales and marketing, and audit and financial reporting

Other Committees: Audit (Chair)

Prior positions give broad management experience of large, complex businesses and an international perspective on risk management and strategic planning

Public company board service gives further perspective into large, complex, regulated organizations and financial reporting and accounting

Strong accounting and financial skills from experience as a Certified Public Accountant, as well as a professional perspective on financial reporting and enterprise and operational risk management

Other Committees: Audit

Experience with regulated businesses, operations, risk management, business development, strategic planning and corporate governance matters as Chairman and CEO of Northeast Utilities dba Eversource Energy

Lionel Nowell, III, Committee Member

Audit committee financial expert

Extensive experience in risk management and strategic planning as well as strong financial skills as former Treasurer of PepsiCo, Inc.

Audit committee financial expert

Extensive audit, financial reporting and corporate governance experience from audit and consulting services responsibilities as former Chairman at Deloitte financial services companies acquired by BAC

Best-in-Class Corporate Governance Practices

Substantial majority of independent directors; 11 of 13 members are independent

Annual election of directors with a majority vote standard

Robust Lead Independent Director role with clearly defined leadership responsibilities

Proxy access right at a 3% / 3 year ownership threshold

Special meeting right at a 10% ownership threshold

No supermajority provisions

Strong board oversight of risk management

Detailed business and sustainability reporting

Robust, proactive management succession planning

Annual Board and Committee self-evaluations

Executive Compensation Program Strongly Aligns Pay and Performance

9

Our Board believes equity-based awards are the most direct way to align employee and investor interests

We are requesting authorization for 125 million additional shares this year, for a total pool of 450 million shares

-

We expect this pool to last three to four years, assuming we settle awards in stock

We carefully manage potential dilution and with the additional shares, our overhang will total 5.1%

Our plan has features that protect investor interests, including double-trigger vesting, prohibition of re-pricing and no liberal share recycling

,

Robust Sustainability Initiatives and Reporting

Our Board believes management is best suited to address potential climate change impacts by supporting key environmental initiatives, developing innovative solutions, and regularly communicating progress to our shareholders

1.

Bank of America Has Robust Disclosure Currently in Place

We are an industry leader in publicly disclosing the greenhouse gas emissions related to operations and business activities

We report publicly on 10 of 11 categories of Scope 3 emissions relevant to our business, and provide detailed disclosure relative to our emissions profile of the U.S. electric power utilities to which we extend credit

In 2014, the Carbon Disclosure Project gave our Company a perfect disclosure score, and ranked us in Performance Band A (the highest possible)

2.

We Continue to Develop Innovative Environmental Solutions

In 2012, we exceeded our original 10-year, \$20B environmental business initiative to address climate change through lending, investments, capital markets activity, philanthropy and our Company's own operations

We renewed our commitment by embarking on a new 10-year, \$50B initiative, bringing our goal to \$70 billion, and have delivered more than \$39B under the combined goals to date

Proposal 5 is a shareholder proposal requesting a report on greenhouse gas emissions; the report is unnecessary given our current strong practices in environmental projects and disclosure

11

The

Board

encourages

a

vote

AGAINST

Proposal

5

The requested additional report would focus on greenhouse gas emissions of our customers and climate change risk exposure in lending, investing and financing activities, and would require considerable resources without conveying useful information

In 2014, we announced a Catalytic Finance Initiative designed to stimulate at least \$10B of new investment into high-impact, clean energy projects

Robust Disclosure of Political Activities, and No Company Grassroots

Lobbying

12

Proposal 6 is a shareholder proposal that requests a report on lobbying; the report is unnecessary due to Company's current disclosure on political activities and contributions, and on trade associations

The

Board

encourages

a

vote

AGAINST

Proposal

6

Our company does not engage in grassroots lobbying communications, or advocate with respect to specific legislation with the general public

When we engage with policymakers or monitor legislative activities, we comply with all federal and state laws and reporting requirements, and our feedback is readily available to the public

2.

No Grassroots Lobbying

Our Company currently discloses policies and procedures on political activities and contributions on our website

Our Board Corporate Governance Committee has oversight of political activities, and Public Policy Executive reports at least annually to the Committee on significant policies and practices

Further, we currently disclose our trade association memberships on our website, and restrict organizations from using any payments (including membership fees and dues) for any election-related activity

1.

Robust Disclosure Currently in Place

1.
Shareholders Have Multiple Avenues for Voicing Concerns

Annually elected board, with a majority voting standard

Holders of 3% of shares continuously for 3 years can nominate up to 20% of the board, on the company's proxy card, through market-leading proxy access rights

No supermajority voting provisions

No shareholder rights plan

2.
Matters Requiring Vote Should be Presented to and Voted on by All Shareholders

13

Proposal 7 is a shareholder proposal that requests written consent rights; the proposal is unnecessary in light of existing strong shareholder rights

The Board encourages a vote AGAINST

Proposal 7

Written Consent Rights are Unnecessary In Light of Strong Special Meeting and Proxy Access Provisions

Our shareholders can call a special meeting at a 10% ownership threshold

Shareholder meeting process provides procedural safeguards and advantages over action taken by a limited number of shareholders by written consent

Our Integrated Business Approach Benefits our Customers and Shareholders

Divestment of operations along the lines the proposal appears to contemplate (i.e., divestiture of businesses conducted outside of Bank of America, N.A.) would not enhance shareholder value and would negatively impact our shareholders

1. Customers Benefit from Our Integrated Approach

2. We Already Have Narrowed the Company's Focus and Streamlined Operations

3. Our Board is Actively Involved in Oversight of Initiatives

Proposal 8 is a shareholder proposal requesting a Board committee to develop a plan to divest what the proposal refers to

as
non-core
banking
operations ;
the
proposal
is
not
in
the
best
interest
of
shareholders

14
The Board encourages a vote AGAINST Proposal 8

We serve our customers (individuals, companies and institutional investors) on an integrated basis, which we believe is a competitive advantage. Many customers are served by entities in addition to Bank of America, N.A.

Implementing the proposal would disrupt the flow of credit and services

We see continued improvement in our customer scores, market rankings, and penetration of products per customer as a result of our approach

At the core of our integrated strategy are the combined competencies of Bank of America and Merrill Lynch

Since 2010, we have reduced our size, scope of activity and risk, trimming hundreds of billions of dollars in assets from our balance sheet and eliminating dozens of non-core businesses, while increasing our capital and liquidity

Our entire Board, as part of its regular process, is engaged in development and implementation of our strategic plan, which considers dispositions and other initiatives, including streamlining our operations, and has active oversight of strategic initiatives
