CAREER EDUCATION CORPORATION AND SUBSIDIARIES

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. DESCRIPTION OF THE COMPANY

Career Education's academic institutions offer a high-quality education to a diverse student population in a variety of disciplines through online, on-ground and hybrid learning programs. Our two universities American InterContinental University (AIU) and Colorado Technical University (CTU) provide degree programs through the master's or doctoral level as well as associate and bachelor's levels. Both universities predominantly serve students online with career-focused degree programs that meet the educational demands of today's busy adults. AIU and CTU continue to show innovation in higher education, advancing new personalized learning technologies like their intellipath adaptive learning platform that allow students to more efficiently move toward earning a degree by receiving course credit for knowledge they can already demonstrate. Career Education is committed to providing high-quality education that closes the gap between learners who seek to advance their careers and employers needing a qualified workforce.

A detailed listing of individual campus locations and web links to Career Education's colleges, institutions and universities can be found at www.careered.com.

As used in this Quarterly Report on Form 10-Q, the terms we, us, our, the Company and CEC refer to Career Education Corporation and our wholly-owned subsidiaries. The terms college, institution, and university refer to an individual, branded, proprietary educational institution, owned by us and includes its campus locations. The term campus refers to an individual main or branch campus operated by one of our colleges, institutions or universities.

2. BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States (GAAP) for interim financial information and the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, the financial statements do not include all of the information and notes required by GAAP for complete financial statements. In the opinion of management, all adjustments, including normal recurring accruals, considered necessary for a fair presentation have been included. Operating results for the quarter ended March 31, 2015 are not necessarily indicative of the results that may be expected for the year ending December 31, 2015.

The unaudited condensed consolidated financial statements presented herein include the accounts of CEC and our wholly-owned subsidiaries (collectively, CEC). All intercompany transactions and balances have been eliminated.

As of March 31, 2015, we organized our business across four reporting segments: CTU, AIU (comprises University Group); Career Colleges and Transitional Group. Campuses included in our Transitional Group segment are currently being taught out and no longer enroll new students. These campuses employ a gradual teach-out process, enabling them to continue to operate while current students complete their course of study. On March 31, 2015, the Company announced the teach-out of one additional Career College campus, Harrington College of Design. This campus is reported within our Career Colleges segment as of March 31, 2015 in accordance with ASC Topic 280 *Segment Reporting*.

Effective January 1, 2015, ASC Topic 360 *Property, Plant and Equipment*, limits discontinued operations reporting and thus as campuses cease teach-out operations going forward, the results of operations for these campuses will remain within the results of continuing operations. Historically, campuses met the criteria for discontinued operations

upon completion of the teach-out. During the first quarter of 2015, the Company

Table of Contents

completed the teach-out of one Transitional Group campus, Sanford-Brown White Plains, which continues to be reported under the Transitional Group as of March 31, 2015. As a result of this change, no prior period recast was made in our reporting and our results of operations for this campus are recorded within continuing operations for all periods presented.

During the first quarter of 2015, the Company made the decision to sell one of its campuses reported within the Career Colleges segment. As a result of this decision, the assets and liabilities of this campus are classified as held for sale within continuing operations as of March 31, 2015.

3. RECENT ACCOUNTING PRONOUNCEMENTS

In January 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-01, *Income Statement – Extraordinary and Unusual Items (Subtopic 225-20): Simplifying Income Statement Presentation by Eliminating the Concept of Extraordinary Items*. This ASU eliminates from GAAP the concept of extraordinary items. Subtopic 225-20 previously required that an entity separately classify, present, and disclose extraordinary events and transactions from the results of ordinary operations and show the items separately. The amendments in this ASU are effective for annual periods and interim periods within those annual periods, beginning after December 15, 2015; early adoption is permitted, for both public and all other entities. We are currently evaluating this guidance and do not believe the adoption will significantly impact the presentation of our financial condition, results of operations and disclosures.

In August 2014, the FASB issued ASU No. 2014-15, *Presentation of Financial Statements – Going Concern (Subtopic 205-40): Disclosure of Uncertainties about an Entity’s Ability to Continue as a Going Concern*. This ASU provides guidance to an organization’s management, intended to define management’s responsibility to evaluate whether there is a substantial doubt about an organization’s ability to continue as a going concern and to provide guidance regarding related footnote disclosure. In connection with preparing financial statements for each annual and interim reporting period, an entity’s management should evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the entity’s ability to continue as a going concern within one year after the date that the financial statements are issued. Management’s evaluation should be based on relevant conditions and events that are known and reasonably knowable at the date that the financial statements are issued. For all entities, ASU 2014-15 is effective for annual periods and interim periods within those annual periods beginning after December 15, 2016; early adoption is permitted. We are currently evaluating the impact that the adoption of ASU 2014-15 will have on our financial condition, results of operations and disclosures.

In June 2014, the FASB issued ASU No. 2014-12, *Compensation – Stock Compensation (Topic 718): Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could Be Achieved after the Requisite Service Period*. This ASU standardizes the reporting for these awards by requiring that entities treat these performance targets as a performance condition. As such, the performance target should not be reflected in estimating the grant-date fair value of the award. Compensation cost should be recognized in the period in which it becomes probable that the performance target will be achieved and should represent the compensation cost attributable to the period(s) for which the requisite service has already been rendered. For all entities, ASU 2014-12 is effective for annual periods and interim periods within those annual periods beginning after December 15, 2015; early adoption is permitted. We are currently evaluating the impact that the adoption of ASU 2014-11 will have on our financial condition, results of operations and disclosures.

In May 2014, the FASB issued ASU No. 2014-09, *Revenue from Contracts with Customers (Topic 606)*. ASU 2014-09 is principles based guidance that can be applied to all contracts with customers, enhancing comparability of revenue recognition practices across entities, industries, jurisdictions and capital markets. The core principle of the

guidance is that entities should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods and services. The guidance details the steps entities should apply to achieve the core

Table of Contents

principle. For public entities, ASU 2014-09 is effective for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period; early adoption is not permitted. In April 2015, the FASB proposed a one-year deferral of the effective date for its new revenue standard for public and nonpublic entities reporting under US GAAP. Under the proposal, the standard would be effective for public entities for annual reporting periods beginning after December 15, 2017 and interim periods therein. Nonpublic entities would be required to adopt the new standard for annual reporting periods beginning after December 15, 2018, and interim periods within annual reporting periods beginning after December 15, 2019. We are currently evaluating the impact that the adoption of ASU 2014-09 will have on our financial condition, results of operations and disclosures.

In April 2014, the FASB issued ASU No. 2014-08, *Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity*. This ASU limits discontinued operations reporting to disposals of components of an entity that represent strategic shifts upon disposal that have (or will have) a major effect on an entity's operations and financial results. In addition, the amendments in this ASU require expanded disclosures for discontinued operations as well as for disposals that do not qualify as discontinued operations. This ASU is effective for us as of January 1, 2015. We have evaluated the impact that the adoption of ASU 2014-08 will have on our financial condition, results of operation and disclosures and believe the impact to be material. Previously, campuses within our Transitional Group would be reclassified as discontinued operations upon the teach-out date. Under the new guidance, campuses that complete their teach-out will not meet the definition of discontinued operations, with the exception of those that meet the definition of a strategic shift upon disposal. Therefore, revenues and any respective operating losses associated with these campuses that do not meet the definition of a strategic shift upon disposal will remain within continuing operations for all periods presented. Additionally, we have provided increased disclosures surrounding discontinued operations as well as increased disclosures surrounding our campuses that will cease operations but not meet the requirements to be classified as discontinued operations.

4. DISCONTINUED OPERATIONS

As of March 31, 2015, the results of operations for campuses that have ceased operations prior to 2015, our LCB campuses that are held for sale and campuses that were sold and meet the criteria to be considered discontinued operations FASB ASC Topic 360, are presented within discontinued operations. Prior to January 1, 2015, our Transitional Group campuses met the criteria for discontinued operations upon completion of their teach-out. Prospectively, in accordance with updated guidance under ASC Topic 360, only campuses that meet the criteria of a strategic shift upon disposal will be classified within discontinued operations, among other criteria. During the first quarter of 2015, we did not have any campuses that met the criteria to be considered as a discontinued operation under the new guidance effective January 1, 2015. Prior periods are not required to be recast for this change in guidance.

Table of Contents**Results of Discontinued Operations**

The summary of unaudited results of operations for our discontinued operations for the quarters ended March 31, 2015 and 2014 were as follows (dollars in thousands):

	For the Quarter Ended March 31, ⁽¹⁾	
	2015	2014
Revenue	\$ 44,744	\$ 45,225
Operating Expenses:		
Educational services and facilities	19,873	32,647
General and administrative	25,060	43,901
Depreciation and amortization	(73)	5,486
Total operating expenses	44,860	82,034
Loss before income tax	\$ (102)	\$ (36,481)
Income tax expense ⁽²⁾		
Loss from discontinued operations, net of tax	\$ (102)	\$ (36,481)
Net loss per diluted share	\$ (0.00)	\$ (0.55)
Capital expenditures	\$ 239	\$ 185

(1) Includes the results of operations for our LCB campuses that are held for sale, which met the criteria to be considered discontinued operations under ASC Topic 360.

(2) Due to the valuation allowance against our net deferred taxes, there is no income tax benefit reported for the quarters ended March 31, 2015 and 2014.

Assets and Liabilities of Discontinued Operations

Assets and liabilities of discontinued operations on our condensed consolidated balance sheets for campuses that have ceased operations or were sold as of March 31, 2015 and December 31, 2014 include the following (dollars in thousands):

	March 31, 2015	December 31, 2014
Assets:		
Current assets:		
Receivables, net	\$ 255	\$ 473

Total current assets	255	473
Non-current assets:		
Other assets, net	914	975
Total assets of discontinued operations ⁽¹⁾	\$ 1,169	\$ 1,448
Liabilities:		
Current liabilities:		
Accounts payable and accrued expenses	\$ 295	\$ 579
Remaining lease obligations	12,778	14,927
Total current liabilities	13,073	15,506
Non-current liabilities:		
Remaining lease obligations	18,827	22,689
Other	164	170
Total liabilities of discontinued operations ⁽¹⁾	\$ 32,064	\$ 38,365

Table of Contents

- (1) Excludes assets and liabilities for our LCB campuses which are presented within assets and liabilities held for sale on our condensed consolidated balance sheets as of March 31, 2015 and December 31, 2014.

Remaining Lease Obligations

A number of the campuses that ceased operations prior to January 1, 2015 or vacated real estate properties for our LCB campuses held for sale, have remaining lease obligations that expire over time with the latest expiration in 2020. A liability is recorded representing the fair value of the remaining lease obligation at the time the space is no longer being utilized. Changes in our future remaining lease obligations, which are reflected within current and non-current liabilities of discontinued operations and within liabilities held for sale on our unaudited condensed consolidated balance sheets, for the quarters ended March 31, 2015 and 2014 were as follows (dollars in thousands):

	Balance, Beginning of Period	Charges Incurred ⁽¹⁾	Net Cash Payments	Other ⁽²⁾	Balance, End of Period
For the quarter ended March 31, 2015	\$ 39,869	\$ (486)	\$ (5,942)	\$	\$ 33,441
For the quarter ended March 31, 2014	\$ 46,755	\$ 7,319	\$ (6,764)	\$ 3,435	\$ 50,745

- (1) Includes charges for newly vacated spaces and subsequent adjustments for accretion, revised estimates and variances between estimated and actual charges, net of any reversals for terminated lease obligations.
- (2) Includes existing prepaid rent and deferred rent liability balances for newly vacated spaces that are netted with the losses incurred in the period recorded.

5. ASSETS HELD FOR SALE

During the first quarter of 2015, we made the decision to sell one of our Career Colleges. Accordingly the assets and liabilities for this campus are included within assets and liabilities held for sale on our unaudited condensed consolidated balance sheet as of March 31, 2015. As this campus does not meet the criteria for discontinued operations under ASC Topic 360, the results of operations for this campus are reported within continuing operations for all periods presented. Additionally, during the fourth quarter of 2014, we made the decision to sell our Le Cordon Bleu Culinary Arts institutions. The assets and liabilities for the LCB institutions are included within assets and liabilities held for sale on our condensed consolidated balance sheets as of March 31, 2015 and December 31, 2014. The sale of the LCB institutions met the criteria to be treated as discontinued operations under ASC Topic 360. Accordingly, the results of operations are reported within discontinued operations in the unaudited condensed consolidated statements of loss and comprehensive loss. As we anticipate the sale of these assets to be completed within one year of the decision to sell, we have recorded the assets and liabilities related to these institutions within current assets and liabilities held for sale as of March 31, 2015.

Table of Contents**Results of Operations**

The summary of unaudited results of operations for our assets held for sale for the quarters ended March 31, 2015 and 2014 were as follows (dollars in thousands):

Reported within loss from continuing operations

	For the Quarter Ended March 31,	
	2015	2014
Revenue	\$ 2,818	\$ 3,497
Operating Expenses:		
Educational services and facilities	1,703	1,896

Our long-term investment in a municipal bond is comprised of debt obligations issued by states, cities, counties, and other governmental entities, which earn federally tax-exempt interest. Our investment in ARS has a stated term to maturity of greater than one year, and as such, we classify our investment in ARS as non-current on our condensed consolidated balance sheets within other assets. Auctions can fail when the number of sellers of the security exceeds the buyers for that particular auction period. In the event that an auction fails, the interest rate resets at a rate based on a formula determined by the individual security. The ARS for which auctions have failed continues to accrue interest and is auctioned on a set interval until the auction succeeds, the issuer calls the security, or it matures. As of

March 31, 2015, we have determined this investment is at risk for impairment due to the nature of the liquidity of the market over the past several years. Cumulative unrealized losses as of March 31, 2015 amount to \$0.5 million and are reflected within accumulated other comprehensive loss as a component of stockholders' equity. We believe this impairment is temporary, as we do not intend to sell the investment and it is unlikely we will be required to sell the investment before recovery of its amortized cost basis.

Our non-governmental debt securities primarily consist of corporate bonds and commercial paper. Our treasury and federal agencies primarily consist of U.S. Treasury bills and federal home loan debt securities. We do not intend to sell our investments in these securities and it is not likely that we will be required to sell these investments before recovery of the amortized cost basis.

Table of Contents**Fair Value Measurements**

FASB ASC Topic 820 *Fair Value Measurements* establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include: Level 1, defined as observable inputs such as quoted prices in active markets; Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions.

As of March 31, 2015, we held investments that are required to be measured at fair value on a recurring basis. These investments (available-for-sale) consist of non-governmental debt securities, treasury and federal agencies and municipal bonds that are publicly traded and for which market prices are readily available, and our investment in an ARS. Available for sale securities included in Level 2 are estimated based on observable inputs other than quoted prices in active markets for identical assets and liabilities, quoted prices for identical or similar assets or liabilities in inactive markets, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities. Our investment in an ARS is categorized as Level 3 and fair value is estimated utilizing a discounted cash flow analysis as of March 31, 2015 which considers, among other items, the collateralization underlying the security investment, the credit worthiness of the counterparty, the time of expected future cash flows, and the expectation of the next time the security is expected to have a successful auction. The auction event for our ARS investment has failed for multiple years. The security was also compared, when possible, to other observable market data with similar characteristics.

Investments measured at fair value on a recurring basis subject to the disclosure requirements of FASB ASC Topic 820 *Fair Value Measurements* at March 31, 2015 and December 31, 2014 were as follows (dollars in thousands):

	As of March 31, 2015			
			Level	
	Level 1	Level 2	3	Total
Municipal bonds	\$	\$ 5,897	\$ 7,374	\$ 13,271
Non-governmental debt securities		94,319		94,319
Treasury and federal agencies		22,967		22,967
Totals	\$	\$ 123,183	\$ 7,374	\$ 130,557

	As of December 31, 2014			
			Level	
	Level 1	Level 2	3	Total
Municipal bonds	\$	\$ 6,825	\$ 7,374	\$ 14,199
Non-governmental debt securities		98,130		98,130
Treasury and federal agencies		17,903		17,903
Totals	\$	\$ 122,858	\$ 7,374	\$ 130,232

The following table presents a rollforward of our assets measured at fair value on a recurring basis using significant unobservable inputs (Level 3) as defined in FASB ASC Topic 820 for the quarter ended March 31, 2015 (dollars in

thousands):

Balance at December 31, 2014	\$ 7,374
Unrealized gain (loss)	
Balance at March 31, 2015	\$ 7,374

Equity Method Investment

Our investment in an equity affiliate, which is recorded within other noncurrent assets on our condensed consolidated balance sheet, represents an international investment in a private company. As of March 31, 2015,

Table of Contents

our investment in an equity affiliate equated to a 30.7%, or \$4.2 million, non-controlling interest in CCKF, a Dublin-based educational technology company providing intelligent adaptive systems to power the delivery of individualized and personalized learning. During the quarter ended March 31, 2015, we recorded less than \$0.1 million of loss related to our proportionate investment in CCKF. In the prior year quarter, this investment was recorded as a cost method investment.

Credit Agreement

During the fourth quarter of 2014, the Company; its wholly-owned subsidiary, CEC Educational Services, LLC (CEC-ES); and the subsidiary guarantors thereunder entered into a First Amendment (the First Amendment) to its Amended and Restated Credit Agreement dated as of December 30, 2013 (as amended, the Credit Agreement) with BMO Harris Bank N.A. (BMO Harris), in its capacities as the initial lender and letter of credit issuer thereunder and the administrative agent for the lenders which from time to time may be parties to the Credit Agreement, to among other things, increase the revolving credit facility to \$120.0 million. The revolving credit facility under the Credit Agreement is scheduled to mature on June 30, 2016. The loans and letter of credit obligations under the Credit Agreement are required to be secured by 100% cash collateral. As of March 31, 2015, there were no outstanding borrowings under the revolving credit facility.

7. STUDENT RECEIVABLES

Student receivables represent funds owed to us in exchange for the educational services provided to a student. Student receivables are reflected net of an allowance for doubtful accounts and net of deferred tuition revenue. Student receivables, net are reflected on our condensed consolidated balance sheets as components of both current and non-current assets. We do not accrue interest on past due student receivables; interest is recorded only upon collection.

Generally, a student receivable balance is written off once it reaches greater than 90 days past due. Although we analyze past due receivables, it is not practical to provide an aging of our non-current student receivable balances as a result of the methodology utilized in determining our earned student receivable balances. Student receivables are recognized on our condensed consolidated balance sheets as they are deemed earned over the course of a student's program and/or term, and therefore cash collections are not applied against specifically dated transactions.

Our standard student receivable allowance estimation methodology considers a number of factors that, based on our collection experience, we believe have an impact on our repayment risk and ability to collect student receivables. Changes in the trends in any of these factors may impact our estimate of the allowance for doubtful accounts. These factors include, but are not limited to: internal repayment history, repayment practices of previous extended payment programs and information provided by a third-party institution who previously offered similar extended payment programs, changes in the current economic, legislative or regulatory environments and credit worthiness of our students. These factors are monitored and assessed on a regular basis. Overall, our allowance estimation process for student receivables is validated by trending analysis and comparing estimated and actual performance.

Student Receivables Under Extended Payment Plans and Recourse Loan Agreements

To assist students in completing their educational programs, we had previously provided extended payment plans to certain students and also had loan agreements with Sallie Mae and Stillwater National Bank and Trust Company (Stillwater) which required us to repurchase loans originated by them to our students after a certain period of time. We discontinued providing extended payment plans to students during the first quarter of 2011 and the recourse loan agreements with Sallie Mae and Stillwater ended in March 2008 and April 2007, respectively.

Table of Contents

As of March 31, 2015 and December 31, 2014, the amount of non-current student receivables under these programs, net of allowance for doubtful accounts and net of deferred tuition revenue, was \$3.0 million and \$2.9 million, respectively.

Student Receivables Valuation Allowance

Changes in our current and non-current receivables allowance for the quarters ended March 31, 2015 and 2014 were as follows (dollars in thousands):

	Balance, Beginning of Period	Charges to Expense (1)	Amounts Written-off	Balance, End of Period (2)
For the quarter ended March 31, 2015	\$ 14,517	\$ 4,022	\$ (4,399)	\$ 14,140
For the quarter ended March 31, 2014	\$ 17,570	\$ 5,056	\$ (5,639)	\$ 16,987

(1) Charges to expense include an offset for recoveries of amounts previously written off of \$1.1 million and \$1.6 million for the quarters ended March 31, 2015 and 2014, respectively.

(2) Includes amounts for allowances related to receivables reported within our assets held for sale within continuing operations.

Fair Value Measurements

The carrying amount reported in our condensed consolidated balance sheets for the current portion of student receivables approximates fair value because of the nature of these financial instruments as they generally have short maturity periods. It is not practicable to estimate the fair value of the non-current portion of student receivables, since observable market data is not readily available, and no reasonable estimation methodology exists.

8. RESTRUCTURING CHARGES

During the past several years, we have carried out reductions in force related to the continued reorganization of our corporate and campus functions to better align with current total enrollments and made decisions to teach out a number of campuses, meaning gradually close the campuses through an orderly process. Most notably, we have recorded charges within our Career Colleges and Transitional Group segments and our corporate functions as we continue to align our overall management structure.

The following table details the changes in our accrual for severance and related costs associated with these restructuring events for our continuing operations during the quarters ended March 31, 2015 and 2014 (dollars in thousands):

Balance, Beginning of	Severance &	Payments	Non-cash Adjustments (2)	Balance, End of
----------------------------------	----------------------------	-----------------	-------------------------------------	----------------------------

	Period	Related Charges ⁽¹⁾			Period
For the quarter ended March 31, 2015	\$ 2,701	\$ 744	\$ (771)	\$ (218)	\$ 2,456
For the quarter ended March 31, 2014	\$ 3,243	\$	\$ (386)	\$ (200)	\$ 2,657

(1) Includes charges related to COBRA and outplacement services which are assumed to be completed by the third month following an employee's departure.

(2) Includes cancellations due to employee departures prior to agreed upon end dates, employee transfers to open positions within the organization and subsequent adjustments to severance and related costs.

The current portion of the accrual for severance and related charges was \$1.5 million and \$1.3 million as of March 31, 2015 and March 31, 2014, respectively, which is recorded within current accrued expenses payroll

Table of Contents

and related benefits; the long-term portion of \$1.0 million and \$1.4 million, respectively, is recorded within other non-current liabilities. In addition, as of March 31, 2015, we have accrued approximately \$0.4 million related to retention bonuses that have been offered to certain employees. These amounts will be recorded ratably over the period the employees are retained; \$0.2 million was recorded during the quarter ended March 31, 2015.

In addition to the charges detailed above, a number of these campuses will have remaining lease obligations following the eventual campus closure, with the longest lease term being through 2021. The total estimated charge related to the remaining lease obligation for these leases, once the campus completes the close process, and adjusted for possible lease buyouts and sublease assumptions is approximately \$9.0 million. The amount related to each campus will be recorded at each campus closure date based on current estimates and assumptions related to the amount and timing of sublease income.

9. ASSET IMPAIRMENTS

Intangible Assets

During the first quarter of 2015, in conjunction with the quarterly review process, we concluded that certain indicators were present which suggested that the Sanford-Brown trade name was at risk of its carrying value exceeding its respective fair value as of March 31, 2015. These indicators included, but were not limited to, a decline in cash flows, a decline in actual revenue and earnings as compared to prior projected results and a more-likely-than-not expectation of selling or disposing of the campuses utilizing the Sanford-Brown trade name. As a result of the more-likely-than-not expectation of selling or disposing of the asset coupled with declining cash flows, management concluded that the full value of \$1.7 million for this trade name was impaired as of March 31, 2015, primarily due to the decrease in royalty rate to 0%. The \$1.7 million impairment was recorded within loss from continuing operations within the Career Colleges segment.

Property and Equipment

During the first quarter of 2015, we identified indicators of impairment due to the undiscounted cash flows of certain schools not exceeding the carrying value of the related asset group and a more-likely-than-not expectation of selling or disposing of the campuses. As a result, property and equipment was affected by asset impairment charges of approximately \$4.3 million for the quarter ended March 31, 2015. The fair value for these assets was determined based upon management's assumptions regarding an estimated percentage of replacement value for similar assets and estimated salvage values. Because the determination of the estimated fair value of these assets requires significant estimation and assumptions, these fair value measurements are categorized as Level 3 per ASC Topic 820.

10. CONTINGENCIES

An accrual for estimated legal fees and settlements of \$3.1 million and \$2.3 million at March 31, 2015 and December 31, 2014, respectively, is presented within other current liabilities on our condensed consolidated balance sheets.

We record a liability when we believe that it is both probable that a loss will be incurred and the amount of loss can be reasonably estimated. We evaluate, at least quarterly, developments in our legal matters that could affect the amount of liability that was previously accrued, and make adjustments as appropriate. Significant judgment is required to determine both probability and the estimated amount. We may be unable to estimate a possible loss or range of possible loss due to various reasons, including, among others: (1) if the damages sought are indeterminate; (2) if the proceedings are in early stages; (3) if there is uncertainty as to the outcome of pending appeals, motions, or

settlements; (4) if there are significant factual issues to be determined or resolved; and (5) if there are novel or unsettled legal theories presented. In such instances, there is considerable uncertainty regarding the ultimate resolution of such matters, including a possible eventual loss, if any.

Table of Contents

Litigation

We are, or were, a party to the following legal proceedings that we consider to be outside the scope of ordinary routine litigation incidental to our business. Due to the inherent uncertainties of litigation, we cannot predict the ultimate outcome of these matters. An unfavorable outcome of any one or more of these matters could have a material adverse impact on our business, results of operations, cash flows and financial position.

Student Litigation

Enea, et al. v. Career Education Corporation, California Culinary Academy, Inc., SLM Corporation, and Sallie Mae, Inc. Plaintiffs filed this putative class action in the Superior Court State of California, County of San Francisco, on or about June 27, 2013. Plaintiffs allege that CCA materially misrepresented the placement rates of its graduates, falsely stated that admission to the culinary school was competitive and that the school had an excellent reputation among restaurants and other food service providers, represented that the culinary schools were well-regarded institutions producing skilled graduates who employers eagerly hired, and lied by telling students that the school provided graduates with career placement services for life. The class purports to consist of persons who executed Parent Plus loans or co-signed loans for students who attended CCA at any time between January 1, 2003 and December 31, 2008. Plaintiffs seek restitution, damages, civil penalties and attorneys' fees.

Defendants filed a motion to dismiss and to strike class action allegations on October 31, 2013. A hearing on the motions was conducted on March 14, 2014. Thereafter, the Court issued two separate orders granting the motion to strike the class allegations and the motion to dismiss without leave to amend. Plaintiffs filed a motion seeking leave to file a third amended complaint and/or for reconsideration of the Court's orders. On May 9, 2014, the Court denied plaintiffs' motion to reconsider its order striking the class allegations and granted plaintiffs leave to file a third amended complaint as to some, but not all, of plaintiffs' claims. On May 15, 2014, plaintiffs appealed the Court's ruling with respect to the motion to strike the class allegations. The Court has stayed the case pending a ruling on the appeal.

Because of the many questions of fact and law that may arise in the future, the outcome of this legal proceeding is uncertain at this point. Based on information available to us at present, we cannot reasonably estimate a range of potential loss, if any, for this action because, among other things, our potential liability depends on whether a class is certified and, if so, the composition and size of any such class, as well as on an assessment of the appropriate measure of damages if we were to be found liable. Accordingly, we have not recognized any liability associated with this action.

Surrett, et al. v. Western Culinary Institute, Ltd. and Career Education Corporation. On March 5, 2008, a complaint was filed in Portland, Oregon in the Circuit Court of the State of Oregon in and for Multnomah County naming Western Culinary Institute, Ltd. (WCI) and the Company as defendants. Plaintiffs filed the complaint individually and as a putative class action and alleged two claims for equitable relief: violation of Oregon's Unlawful Trade Practices Act (UTPA) and unjust enrichment. Plaintiffs filed an amended complaint on April 10, 2008, which added two claims for money damages: fraud and breach of contract. Plaintiffs allege WCI made a variety of misrepresentations to them, relating generally to WCI's placement statistics, students' employment prospects upon graduation from WCI, the value and quality of an education at WCI, and the amount of tuition students could expect to pay as compared to salaries they could expect to earn after graduation. WCI subsequently moved to dismiss certain of plaintiffs' claims under Oregon's UTPA; that motion was granted on September 12, 2008. On February 5, 2010, the Court entered a formal Order granting class certification on part of plaintiff's UTPA and fraud claims purportedly based on omissions, denying certification of the rest of those claims and denying certification of the breach of contract and unjust enrichment claims. The class consists of students who enrolled at WCI between March 5, 2006 and March 1, 2010, excluding those who dropped out or were dismissed from the school for academic reasons.

Table of Contents

Plaintiffs filed a fifth amended complaint on December 7, 2010, which included individual and class allegations by Nathan Surrett. Class notice was sent on April 22, 2011, and the opt-out period expired on June 20, 2011. The class consisted of approximately 2,600 members. They are seeking tuition refunds, interest and certain fees paid in connection with their enrollment at WCI.

On May 23, 2012, WCI filed a motion to compel arbitration of claims by 1,062 individual class members who signed enrollment agreements containing express class action waivers. The Court issued an Order denying the motion on July 27, 2012. On August 6, 2012, WCI filed an appeal from the Court's Order and on August 30, 2012, the Court of Appeals issued an Order granting WCI's motion to compel the trial court to cease exercising jurisdiction in the case. The oral argument on the appeal was heard on May 9, 2014 and we are awaiting the Court's decision. All proceedings with the trial court have been stayed pending the outcome of the appeal.

Because of the many questions of fact and law that have already arisen and that may arise in the future, the outcome of this legal proceeding is uncertain at this point. Based on information available to us at present, we cannot reasonably estimate a range of potential loss, if any, for this action because of the inherent difficulty in assessing the appropriate measure of damages and the number of class members who might be entitled to recover damages, if we were to be found liable. Accordingly, we have not recognized any liability associated with this action.

False Claims Act

United States of America, ex rel. Melissa Simms Powell, et al. v. American InterContinental University, Inc., a Georgia Corporation, Career Education Corp., a Delaware Corporation and John Doe Nos. 1-100. On July 28, 2009, we were served with a complaint filed in the U.S. District Court for the Northern District of Georgia, Atlanta Division. The complaint was originally filed under seal on July 14, 2008 by four former employees of the Dunwoody campus of our American InterContinental University on behalf of themselves and the federal government. On July 27, 2009, the Court ordered the complaint unsealed and we were notified that the U.S. Department of Justice declined to intervene in the action. When the federal government declines to intervene in a False Claims Act action, as it has done in this case, the private plaintiffs (or relators) may elect to pursue the litigation on behalf of the federal government and, if they are successful, receive a portion of the federal government's recovery. The action alleges violations of the False Claims Act and promissory fraud, including allegedly providing false certifications to the federal government regarding compliance with certain provisions of the Higher Education Act and accreditation standards. Relators claim that defendants' conduct caused the government to pay federal funds to defendants and to make payments to third-party lenders, which the government would not have made if not for defendants' alleged violation of the law. Relators seek treble damages plus civil penalties and attorneys' fees. On July 12, 2012, the Court granted our motion to dismiss for a lack of jurisdiction, the claims related to incentive compensation and proof of graduation. Thus, the only claim that remained pending against defendants was based on relators' contention that defendants misled the school's accreditor, Southern Association of Colleges and Schools, during the accreditation process. On December 16, 2013, we filed a motion for summary judgment on a variety of substantive grounds. On September 29, 2014, the Court granted our motion for summary judgment and entered judgment in our favor. On October 2, 2014, relators filed a notice of appeal. The appeal is currently stayed pending the United States Supreme Court's decision in *Kellogg Brown & Root Servs., Inc. v. U.S. ex rel. Carter*, No. 12-1497, which may resolve some of the issues on appeal in this matter.

Because of the many questions of fact and law that may arise on appeal, the outcome of this legal proceeding is uncertain at this point. Based on information available to us at present, we cannot reasonably estimate a range of potential loss, if any, for this action because the complaint does not seek a specified amount of damages and it is unclear how damages would be calculated, if we were to be found liable. Moreover, the case presents novel legal issues. Accordingly, we have not recognized any liability associated with this action.

United States of America, ex rel. Brent M. Nelson v. Career Education Corporation, Sanford-Brown, Ltd., and Ultrasound Technical Services, Inc. On April 18, 2013, defendants were served with an amended complaint

Table of Contents

filed in the U.S. District Court for the Eastern District of Wisconsin. The original complaint was filed under seal on July 30, 2012 by a former employee of Sanford-Brown College Milwaukee on behalf of himself and the federal government. On February 27, 2013, the Court ordered the complaint unsealed and we were notified that the U.S. Department of Justice declined to intervene in the action. After the federal government declined to intervene in this case, the relator elected to pursue the litigation on behalf of the federal government. If he is successful he would receive a portion of the federal government's recovery. An amended complaint was filed by the relator on April 12, 2013 and alleges violations of the False Claims Act, including allegedly providing false certifications to the federal government regarding compliance with certain provisions of the Higher Education Act and accreditation standards. Relator claims that defendants' conduct caused the government to pay federal funds to defendants, and to make payments to third-party lenders, which the government would not have made if not for defendants' alleged violation of the law. Relator seeks treble damages plus civil penalties and attorneys' fees. On June 11, 2013, defendants filed a motion to dismiss the case on a variety of grounds. The Court ruled on that motion, dismissing CEC from the case and dismissing several of the relator's factual claims. On November 27, 2013, Sanford Brown, LTD., and Ultrasound Technical Services, Inc., the remaining Company defendants, filed a motion to dismiss the case for lack of subject matter jurisdiction due to prior public disclosures of the relator's alleged claims. On March 17, 2014, the Court granted this motion in part, limiting the timeframe and geographical scope of the relator's claims. On June 13, 2014, the Court granted the remaining Company defendants' motion for summary judgment and entered judgment in their favor. On July 9, 2014, relator filed a notice of appeal. The oral argument on the appeal was heard on January 8, 2015, and we are awaiting the Court's decision.

Because of the many questions of fact and law that may arise on appeal, the outcome of this legal proceeding is uncertain at this point. Based on information available to us at present, we cannot reasonably estimate a range of potential loss, if any, for this action because the complaint does not seek a specified amount of damages and it is unclear how damages would be calculated, if we were to be found liable. Accordingly, we have not recognized any liability associated with this action.

United States of America, ex rel. Ann Marie Rega v. Career Education Corporation, et al. On May 16, 2014, Relator Ann Marie Rega, a former employee of Sanford-Brown Iselin, filed an action in the U.S. District Court for the District of New Jersey against the Company and almost all of the Company's individual schools on behalf of herself and the federal government. She alleges claims under the False Claims Act, including allegedly providing false certifications to the federal government regarding compliance with certain provisions of the Higher Education Act and accreditation standards. Relator claims that defendants' conduct caused the government to pay federal funds to defendants, and to make payments to third-party lenders, which the government would not have made if not for defendants' alleged violation of the law. Relator seeks treble damages plus civil penalties and attorneys' fees. Relator failed to comply with the statutory requirement that all False Claims Act cases be filed under seal. On June 16, 2014, defendants filed a motion to dismiss the complaint with prejudice as to relator for failure to file her complaint under seal in accordance with the requirements of the False Claims Act. The motion is fully briefed and the parties are awaiting a ruling from the Court.

Because the matter is in its early stages and because of the many questions of fact and law that may arise, the outcome of this legal proceeding is uncertain at this point. Based on information available to us at present, we cannot reasonably estimate a range of potential loss, if any, for this action because the complaint does not seek a specified amount of damages and it is unclear how damages would be calculated, if we were to be found liable. Moreover, the case presents novel legal issues. Accordingly, we have not recognized any liability associated with this action.

Employment Litigation

Wilson, et al. v. Career Education Corporation. On August 11, 2011, Riley Wilson, a former admissions representative based in Minnesota, filed a complaint in the U.S. District Court for the Northern District of Illinois. The two-count complaint asserts claims of breach of contract and unjust enrichment arising from our

Table of Contents

decision to terminate our Admissions Representative Supplemental Compensation (ARSC) Plan. In addition to his individual claims, Wilson also seeks to represent a nationwide class of similarly situated admissions representatives who also were affected by termination of the plan. On October 6, 2011, we filed a motion to dismiss the complaint. On April 13, 2012, the Court granted our motion to dismiss in its entirety and dismissed plaintiff s complaint for failure to state a claim. The Court dismissed this action with prejudice on May 14, 2012. On June 11, 2012, plaintiff filed a notice of appeal with the U.S. Court of Appeals for the Seventh Circuit appealing the final judgment of the trial court. Briefing was completed on October 30, 2012, and oral argument was held on December 3, 2012. On August 30, 2013, the Seventh Circuit affirmed the district court s ruling on plaintiff s unjust enrichment claim but reversed and remanded for further proceedings on plaintiff s breach of contract claim. On September 13, 2013, we filed a petition for rehearing to seek review of the panel s decision on the breach of contract claim and for certification of question to the Illinois Supreme Court, but the petition was denied.

The case now is on remand to the district court for further proceedings on the sole question of whether CEC s termination of the ARSC Plan violated the implied covenant of good faith and fair dealing. The parties have completed fact discovery as to the issue of liability. On March 24, 2015, we filed a motion for summary judgment.

Because of the many questions of fact and law that may arise, the outcome of this legal proceeding is uncertain at this point. Based on information available to us at present, we cannot reasonably estimate a range of potential loss, if any, for this action. Accordingly, we have not recognized any liability associated with this action.

Other Litigation

In addition to the legal proceedings and other matters described above, we are also subject to a variety of other claims, lawsuits and investigations that arise from time to time out of the conduct of our business, including, but not limited to, claims involving prospective students, students or graduates and routine employment matters. While we currently believe that such claims, individually or in aggregate, will not have a material adverse impact on our financial position, cash flows or results of operations, these other matters are subject to inherent uncertainties, and management s view of these matters may change in the future. Were an unfavorable final outcome to occur in any one or more of these matters, there exists the possibility of a material adverse impact on our business, reputation, financial position, cash flows, and the results of operations for the period in which the effect becomes probable and reasonably estimable.

State Investigations

The Attorney General of Connecticut is serving as the point of contact for inquiries received from the attorneys general of the following 17 states: Arkansas, Arizona, Connecticut, Idaho, Iowa, Kentucky, Missouri, Nebraska, North Carolina, Oregon, Pennsylvania, Washington (January 24, 2014); Illinois (December 9, 2011); Tennessee (February 7, 2014), Hawaii (May 28, 2014), New Mexico (May 2014), and Maryland (March 16, 2015) (these 17 attorneys general are collectively referred to as the Multi-State AGs). In addition, the Company has received inquiries from the attorneys general of Florida (November 5, 2010), Massachusetts (September 27, 2012), Colorado (August 27, 2013) and Minnesota (September 18, 2014). The inquiries are civil investigative demands or subpoenas which relate to the investigation by the attorneys general of whether the Company and its schools have complied with certain state consumer protection laws, and generally focus on the Company s practices relating to the recruitment of students, graduate placement statistics, graduate certification and licensing results and student lending activities, among other matters. Depending on the state, the documents and information sought by the attorneys general in connection with their investigations cover time periods as early as 2006 to the present. The Company intends to cooperate with the states involved with a view towards resolving these inquiries as promptly as possible. In this regard, over the past several months the Company has participated in several meetings with representatives of the Multi-State AGs about

the Company's business and to engage in a dialogue towards a resolution of these inquiries.

Table of Contents

We cannot predict the scope, duration or outcome of these attorney general investigations. At the conclusion of any of these matters, the Company or certain of its schools may be subject to claims of failure to comply with state laws or regulations and may be required to pay significant financial penalties and/or curtail or modify their operations. Other state attorneys general may also initiate inquiries into the Company or its schools. If any of the foregoing occurs, our business, reputation, financial position, cash flows and results of operations could be materially adversely affected. Based on information available to us at present, we cannot reasonably estimate a range of potential monetary or non-monetary impact these investigations might have on the Company because it is uncertain what remedies, if any, these regulators might ultimately seek in connection with these investigations.

In addition to the aforementioned inquiries, from time to time, we receive informal requests from state Attorneys General and other government agencies relating to specific complaints they have received from students or former students which seek information about the student, our programs, and other matters relating to our activities in the relevant state. These requests can be broad and time consuming to respond to, and there is a risk that they could expand and/or lead to a formal inquiry or investigation into our practices in a particular state.

Regulatory Matters

ED Inquiry and HCM1 Status

In December 2011, the U.S. Department of Education (ED) advised the Company that it is conducting an inquiry concerning possible violations of ED misrepresentation regulations related to placement rates reported by certain of the Company s institutions to accrediting bodies, students and potential students. This inquiry stems from the Company s self-reporting to ED of its internal investigation into student placement determination practices at the Company s previous Health Education segment campuses and review of placement determination practices at all of the Company s other domestic campuses in 2011. The Company has been cooperating with ED in connection with this inquiry. If ED determines that the Company or any of its institutions violated ED misrepresentation regulations with regard to the publication or reporting of placement rates or other disclosures to students or prospective students or finds any other basis in the materials we are providing, ED may revoke, limit, suspend, delay or deny the institution s or all of the Company s institutions Title IV eligibility, or impose fines. In addition, a majority of the Company s institutions are currently in the process of seeking recertification from ED to participate in Title IV Programs. We cannot predict whether, or to what extent, ED s inquiry might impact this recertification process.

In December 2011, ED also moved all of the Company s institutions from the advance method of payment of Title IV Program funds to cash monitoring status (referred to as Heightened Cash Monitoring 1, or HCM1, status). Although the Company s prior practices substantially conformed to the requirements of this more restrictive method of drawing down students Title IV Program funds, if ED finds violations of the HEA or related regulations, ED may impose monetary or program level sanctions, impose some period of delay in the Company s receipt of Title IV funds or transfer the Company s schools to the reimbursement or Heightened Cash Monitoring 2 (HCM2) methods of payment of Title IV Program funds. While on HCM2 status, an institution must disburse its own funds to students, document the students eligibility for Title IV Program funds and comply with certain waiting period requirements before receiving such funds from ED, which results in a significant delay in receiving those funds. The process of re-establishing a regular schedule of cash receipts for the Title IV Program funds if ED places our schools on reimbursement or HCM2 payment status could take several months, and would require us to fund ongoing operations substantially out of existing cash balances. If our existing cash balances are insufficient to sustain us through this transition period, we would need to pursue other sources of liquidity, which may not be available or may be costly.

OIG Audit

Our schools and universities are also subject to periodic audits by various regulatory bodies, including the U.S. Department of Education's Office of Inspector General (OIG). The OIG audit services division

Table of Contents

commenced a compliance audit of CTU in June 2010, covering the period July 5, 2009 to May 16, 2010, to determine whether CTU had policies and procedures to ensure that CTU administered Title IV Program and other federal program funds in accordance with applicable federal law and regulation. On January 13, 2012, the OIG issued a draft report identifying three findings, including one regarding the documentation of attendance of students enrolled in online programs and one regarding the calculation of returns of Title IV Program funds arising from student withdrawals without official notice to the institution. CTU submitted a written response to the OIG, contesting these findings, on March 2, 2012. CTU disagreed with the OIG's proposed determination of what constitutes appropriate documentation or verification of online academic activity during the time period covered by the audit. CTU's response asserted that this finding was based on the retroactive application of standards adopted as part of the program integrity regulations that first went into effect on July 1, 2011. The OIG final report, along with CTU's response to the draft report, was forwarded to ED's Office of Federal Student Aid on September 21, 2012. On October 24, 2012, CTU provided a further response challenging the findings of the report directly to ED's Office of Federal Student Aid. As a result of ED's review of these materials, on January 31, 2013, CTU received a request from ED that it perform two file reviews to determine potential liability on two discrete issues associated with one of the above findings. The first file review relates to any potential aid awarded to students who engaged in virtual classroom attendance activities prior to the official start date of a course and for which no further attendance was registered during the official class term. The second file review relates to students that were awarded and paid Pell funds for enrollment in two concurrent courses, while only registering attendance in one of the two courses. The Company completed these file reviews and provided supporting documentation to ED on April 10, 2013. As of March 31, 2015, the Company has a \$0.8 million reserve recorded related to this matter.

11. INCOME TAXES

The determination of the annual effective tax is based upon a number of significant estimates and judgments, including the estimated annual pretax income in each tax jurisdiction in which we operate and the ongoing development of tax planning strategies during the year. In addition, our provision for income taxes can be impacted by changes in tax rates or laws, the finalization of tax audits and reviews, as well as other factors that cannot be predicted with certainty. As such, there can be significant volatility in interim tax provisions.

The following is a summary of our (benefit from) provision for income taxes and effective tax rate from continuing operations:

	For the Quarter Ended March 31,	
	2015	2014
Pretax loss	\$ (24,990)	\$ (21,442)
(Benefit from) provision for income taxes	\$ (211)	\$ 220
Effective rate	-0.8%	1.0%

As of December 31, 2014, we reported a total deferred tax valuation allowance of \$150.4 million within our consolidated balance sheet. After considering both positive and negative evidence related to the likelihood of realization of the deferred tax assets, we have determined that it is necessary to continue to record this valuation allowance against our net deferred tax assets as of March 31, 2015. During the quarter, certain statute of limitations expired related to previously recorded reserves. As a result, the effective tax benefit for the quarter ended March 31, 2015 approximates \$0.2 million.

The cumulative effect of federal and state valuation losses reduced the effective tax rate benefit by 40.8%. The current quarter tax rate was also impacted by nominal uncertain tax position activity, the net effect of which resulted in a -0.8% effective tax rate.

We estimate that it is reasonably possible that the gross liability for unrecognized tax benefits for a variety of uncertain tax positions will decrease by up to \$1.5 million in the next twelve months as a result of the

Table of Contents

completion of various state tax audits currently in process and the expiration of the statute of limitations in several jurisdictions. The income tax rate for the quarter ended March 31, 2015 does not take into account the possible reduction of the liability for unrecognized tax benefits. The impact of a reduction to the liability will be treated as a discrete item in the period the reduction occurs. We recognize interest and penalties related to unrecognized tax benefits in tax expense. As of March 31, 2015, we had accrued \$2.5 million as an estimate for reasonably possible interest and accrued penalties.

Our tax returns are routinely examined by federal, state, local and foreign tax authorities and these audits are at various stages of completion at any given time. The Internal Revenue Service completed its examination of our U.S. income tax returns through our tax year ended December 31, 2012.

12. SHARE-BASED COMPENSATION

Overview of Share-Based Compensation Plans

The Career Education Corporation 2008 Incentive Compensation Plan (the 2008 Plan) authorizes awards of stock options, stock appreciation rights, restricted stock, restricted stock units, deferred stock, performance units, annual incentive awards, and substitute awards, which generally may be settled in cash or shares of our common stock. Any shares of our common stock that are subject to awards of stock options or stock appreciation rights payable in shares will be counted as 1.0 share for each share issued for purposes of the aggregate share limit and any shares of our common stock that are subject to any other form of award payable in shares will be counted as 1.67 shares for each share issued for purposes of the aggregate share limit. As of March 31, 2015, there were approximately 6.6 million shares of common stock available for future share-based awards under the 2008 Plan, which is net of 3.0 million shares issuable upon exercise of outstanding options. This amount does not reflect 0.7 million and 0.1 million shares underlying restricted stock units and deferred stock units, respectively, as of March 31, 2015, which will be settled in shares of our common stock if the vesting conditions are met and thus reduce the common stock available for future share-based awards under the 2008 Plan by the amount vested, multiplied by the applicable factor under the plan. The vesting of all types of equity awards (stock options, stock appreciation rights, restricted stock awards and restricted stock units) is subject to possible acceleration in certain circumstances. Generally, if a plan participant terminates employment for any reason other than by death or disability during the vesting period, the right to unvested equity awards is forfeited.

As of March 31, 2015, we estimate that compensation expense of approximately \$6.0 million will be recognized over the next four years for all unvested share-based awards that have been granted to participants, including stock options, shares of restricted stock and restricted stock units and deferred stock units to be settled in shares of stock but excluding restricted stock units to be settled in cash.

Stock Options. The exercise price of stock options and stock appreciation rights granted under each of the plans is equal to the fair market value of our common stock on the date of grant. Employee stock options generally become exercisable 25% per year over a four-year service period beginning on the date of grant and expire ten years from the date of grant. Non-employee directors' stock options expire ten years from the date of grant and generally become exercisable as follows: one-fourth on the grant date and one-fourth for each of the first through third anniversary of the grant date. Grants of stock options are generally only subject to the service conditions discussed previously.

Table of Contents

Stock option activity during the quarter ended March 31, 2015 under all of our plans was as follows (options in thousands):

	Options	Weighted Average Exercise Price	
Outstanding as of December 31, 2014	3,782	\$	12.88
Granted	355		5.90
Exercised	(7)		2.72
Forfeited	(966)		4.24
Cancelled	(167)		3.28
Outstanding as of March 31, 2015	2,997	\$	15.40
Exercisable as of March 31, 2015	2,241	\$	18.79

Restricted Stock and Restricted Stock Units to be Settled in Stock. Restricted stock and restricted stock units to be settled in shares of stock generally become fully vested 25% per year over a four-year service period beginning on the date of grant. Certain awards to plan participants referred to as performance-based are subject to performance conditions that, even if the requisite service period is met, may reduce the number of shares or units of restricted stock that vest at the end of the requisite service period or result in all shares or units being forfeited.

The following table summarizes information with respect to all outstanding restricted stock and restricted stock units to be settled in shares of stock under our plans during the quarter ended March 31, 2015 (shares and units in thousands):

	Restricted Stock to be Settled in Shares of Stock				
	Shares	Weighted Average Grant-Date Fair Value Per Share	Units	Weighted Average Grant-Date Fair Value Per Unit	Total
Outstanding as of December 31, 2014	43	\$ 21.63	556	\$ 7.35	599
Granted			538	5.90	538
Vested	(39)	21.80	(178)	8.45	(217)
Forfeited	(3)	21.80	(220)	6.19	(223)
Outstanding as of March 31, 2015	1	\$ 7.21	696	\$ 6.32	697

Deferred Stock Units to be Settled in Stock. During 2014 and for the first time since inception of any of our plans, we granted deferred stock units to our non-employee directors. The deferred stock units are to be settled in shares of stock and generally vest one-third per year over a three-year service period beginning on the date of grant. Settlement of the deferred stock units and delivery of the underlying shares of stock to the plan participants does not occur until he or she ceases to provide services to the Company in the capacity of a director, employee or consultant.

The following table summarizes information with respect to all deferred stock units during the quarter ended March 31, 2015 (units in thousands):

	Deferred Stock Units to be Settled in Shares	Weighted Average Grant-Date Fair Value Per Unit
Outstanding as of December 31, 2014	117	\$ 4.39
Granted	3	5.73
Vested		
Forfeited		
Outstanding as of March 31, 2015	120	\$ 4.42

Table of Contents

Restricted Stock Units to be Settled in Cash. Restricted stock units to be settled in cash generally become fully vested 25% per year over a four-year service period beginning on the date of grant. Cash-settled restricted stock units are recorded as liabilities as the expense is recognized and the fair value for these awards is determined at each period end date with changes in fair value recorded in our statement of loss and comprehensive loss in the current period. Cash-settled restricted stock units are settled with a cash payment for each unit vested equal to the closing price on the vesting date. Cash-settled restricted stock units are not included in common shares reserved for issuance or available for issuance under the 2008 Plan.

The following table summarizes information with respect to all cash-settled restricted stock units during the quarter ended March 31, 2015 (units in thousands):

	Restricted Stock Units to be Settled in Cash
Outstanding as of December 31, 2014	1,842
Granted	276
Vested	(429)
Forfeited	(349)
Outstanding as of March 31, 2015	1,340

Upon vesting, based on the conditions set forth in the award agreements, these units will be settled in cash. We valued these units in accordance with the guidance set forth by FASB ASC Topic 718 *Compensation-Stock Compensation* and recognized \$0.3 million of expense for the first quarter of 2015 for all cash-settled restricted stock units.

Stock-Based Compensation Expense. Total stock-based compensation expense for the quarters ended March 31, 2015 and 2014, for all types of awards was as follows (dollars in thousands):

Award Type	For the Quarter Ended March 31,	
	2015⁽¹⁾	2014
Stock Options	\$ 270	\$ 461
Restricted stock or units settled in stock	1,288	870
Restricted stock units settled in cash	288	2,124
Stock appreciation rights settled in cash		132
Total stock-based compensation expense	\$ 1,846	\$ 3,587

- (1) Stock-based compensation expense for the first quarter of 2015 does not reflect \$1.5 million of forfeitures related to our former Chief Executive Officer's departure which was applied against the separation agreement payment of \$2.5 million.

Performance Unit Awards. Performance unit awards granted during 2013, 2014 and 2015 are long-term incentive, cash-based awards. Payment of these awards is based upon a calculation of Total Shareholder Return (TSR) of CEC as compared to TSR across a specified peer group of our competitors over a three-year performance period ending primarily on December 31, 2015, 2016 and 2017, respectively. These awards are recorded as liabilities as the expense is recognized and fair value for these awards is revalued at each period end date with changes in fair value recorded in our statement of loss and comprehensive loss in the current period. We recorded \$0.4 million as a credit to expense related to these awards for the quarter ended March 31, 2015, primarily due to the decrease in stock price relative to the specified peer group.

Table of Contents**13. WEIGHTED AVERAGE COMMON SHARES**

Basic net (loss) income per share is calculated by dividing net (loss) income by the weighted average number of common shares outstanding for the period. Diluted earnings per share is computed by dividing net (loss) income by the weighted average number of shares assuming dilution. Dilutive common shares outstanding is computed using the Treasury Stock Method and reflects the additional shares that would be outstanding if dilutive stock options were exercised and restricted stock and restricted stock units were settled for common shares during the period.

Due to the fact that we reported a loss from continuing operations for the quarters ended March 31, 2015 and 2014, potential common stock equivalents are excluded from the diluted common shares outstanding calculation. Per FASB ASC Topic 260 *Earnings Per Share*, an entity that reports discontinued operations shall use income or loss from continuing operations as the benchmark for calculating diluted common shares outstanding, and as such, we have zero common stock equivalents since these shares would have an anti-dilutive effect on our net loss per share for the quarters ended March 31, 2015 and 2014.

14. SEGMENT REPORTING

Our segments are determined in accordance with FASB ASC Topic 280 *Segment Reporting* and are based upon how the Company analyzes performance and makes decisions. Each segment represents a group of postsecondary education providers that offer a variety of degree and non-degree academic programs. These segments are organized by key market segments to enhance brand focus and operational alignment within each segment to more effectively execute our strategic plan. As of March 31, 2015, our segments are:

University Group:

Colorado Technical University (CTU) places a strong focus on providing industry-relevant degree programs to meet the needs of our students for employment and of employers for a well-educated workforce and collectively offers academic programs in the career-oriented disciplines of business studies, information systems and technologies, criminal justice, computer science and engineering, and health sciences. Students pursue their degrees through fully-online programs through CTU Online, local campuses and blended formats, which combine campus-based and online education. As of March 31, 2015, students enrolled at CTU represented approximately 47% of our total enrollments. Approximately 91% of CTU's enrollments are fully online.

American InterContinental University (AIU) focuses on helping busy professionals get the degree they need to move forward in their career as efficiently as possible and collectively offers academic programs in the career-oriented disciplines of business studies, information technologies, criminal justice and design technologies. Students pursue their degrees through fully-online programs through AIU Online, local campuses and blended formats, which combine campus-based and online education. As of March 31, 2015, students enrolled at AIU represented approximately 31% of our total enrollments. Approximately 90% of AIU's enrollments are fully online.

Career Colleges includes Briarcliffe College, Brooks Institute, Missouri College and our Sanford-Brown institutions. The Career Colleges segment collectively offers academic programs primarily in the career-oriented discipline of health education complemented by certain programs in business studies and information technology, as well as visual communications, fashion design, photography, interior design, graphic design and video production. Students pursue their degrees through local campuses, fully-online programs through SBC Online and blended formats, which combine campus-based and online education. As of March 31, 2015, students enrolled within our Career Colleges represented approximately 20% of our total enrollments. Approximately 15% of Career College's enrollments are fully online.

Transitional Group includes our campuses which were announced for teach-out prior to March 31, 2015 and were operating as of that date. In addition, it includes SBI White Plains which closed in the first quarter of 2015. These campuses employ a gradual teach-out process, enabling them to continue to operate while current students

Table of Contents

complete their course of study; they no longer enroll new students. The 11 campuses within the Transitional Group that have not yet ceased operations as of March 31, 2015 will complete their teach-outs on varying dates through 2017.

Summary financial information by reporting segment is as follows (dollars in thousands):

	For the Quarter Ended March 31,					
	Revenue			Operating (Loss) Income		
	2015	% of Total	2014	% of Total	2015	2014
CTU	\$ 85,127	46.7%	\$ 86,920	43.9%	\$ 14,616	\$ 14,481
AIU	53,066	29.1%	52,573	26.5%	(2,887)	(3,583)
Total University Group	138,193	75.8%	139,493	70.4%	11,729	10,898
Career Colleges	39,772	21.8%	47,832	24.1%	(22,110)	(13,922)
Corporate and Other	39	0.0%	100	0.1%	(5,860)	(11,136)
Subtotal	178,004	97.6%	187,425	94.6%	(16,241)	(14,160)
Transitional Group	4,298	2.4%	10,729	5.4%	(8,360)	(7,789)
Total	\$ 182,302		\$ 198,154		\$ (24,601)	\$ (21,949)

	Total Assets as of⁽¹⁾	
	March 31, 2015	December 31, 2014
	CTU	\$ 73,466
AIU	55,052	51,755
Total University Group	128,518	125,213
Career Colleges	21,206	29,365
Corporate and Other	296,820	332,672
Subtotal	446,544	487,250
Transitional Group	5,710	7,990
Assets held for sale	76,211	76,846
Discontinued Operations	1,169	1,448
Total	\$ 529,634	\$ 573,534

(1)

Total assets do not include intercompany receivable or payable activity between schools and corporate and investments in subsidiaries.

15. SUBSEQUENT EVENT

The Company has made the strategic decision to focus its resources and attention on its universities Colorado Technical University (CTU) and American InterContinental University (AIU) where the company sees significant opportunity to provide quality higher education to the adult student market. In connection with that decision, on May 1, 2015, the Board of Directors approved the teach-out of the Company's remaining 15 Sanford-Brown campuses and the pursuit of divestiture options for the three additional Career College campuses: Briarcliffe College, Brooks Institute and Missouri College. If a sale of the three additional Career College campuses is not successful, they will be taught out. As part of the process to wind down the Career Colleges segment, the Company also announced that it will align its corporate overhead to support a more streamlined and focused operating entity. The Career College segment contributed \$172.8 million of revenue and approximately \$73.8 million of operating losses for the year ended December 31, 2014. The campuses will remain open to offer current students the reasonable opportunity to complete their course of study. The majority of these campuses are

Table of Contents

expected to cease operations by 2017 with the remainder expected to cease operations in 2018. The total estimated costs associated with these teach-out and divestiture restructuring activities are expected to be approximately \$40 million - \$50 million. These costs primarily relate to severance charges (approximately \$20 - \$25 million) and costs associated with exiting lease obligations (approximately \$20 - \$25 million). These estimated charges are based on several assumptions, including timing of campus teach-outs, sales of campuses and implementation of support services realignment, and are subject to change. These charges will result in future cash expenditures through 2018 for the severance related charges and through 2023 for lease obligations as certain campuses have lease terms ranging beyond their anticipated teach-out completion date. The severance and related charges will primarily be recorded during the second quarter of 2015 and the lease charges will be recorded at the time each facility is vacated.

Table of Contents

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The discussion below contains forward-looking statements, as defined in Section 21E of the Securities Exchange Act of 1934, as amended, that reflect our current expectations regarding our future growth, results of operations, cash flows, performance and business prospects, and opportunities, as well as assumptions made by, and information currently available to, our management. We have tried to identify forward-looking statements by using words such as anticipate, believe, expect, intend, on track, will, continue to, and similar expressions, but these words are not the exclusive means of identifying forward-looking statements. These statements are based on information currently available to us and are subject to various risks, uncertainties, and other factors, including, but not limited to, those matters discussed in Item 1A, Risk Factors, in our Annual Report on Form 10-K for the year ended December 31, 2014 that could cause our actual growth, results of operations, cash flows, performance, business prospects and opportunities to differ materially from those expressed in, or implied by, these statements. Except as expressly required by the federal securities laws, we undertake no obligation to update such factors or to publicly announce the results of any of the forward-looking statements contained herein to reflect future events, developments, or changed circumstances, or for any other reason.

Overview

The colleges, institutions and universities that are part of the Career Education Corporation (CEC) family offer high-quality education to a diverse student population in a variety of career-oriented disciplines through online, on-ground and hybrid learning program offerings. In addition to its online offerings, Career Education serves students from campuses throughout the United States offering programs that lead to doctoral, master's, bachelor's and associate degrees, as well as to diplomas and certificates.

Our institutions include, among others, American InterContinental University (AIU); Colorado Technical University (CTU); Le Cordon Bleu North America (LCB); and Sanford-Brown Institutes and Colleges (SBI and SBC, respectively). Through our institutions, we are committed to providing high-quality education, enabling students to graduate and pursue rewarding career opportunities.

On March 31, 2015, the Company announced the teach-out of one additional Career College campus, Harrington College of Design. This campus is reported within our Career Colleges segment as of March 31, 2015 in accordance with ASC Topic 280 *Segment Reporting*.

Effective January 1, 2015, ASC Topic 360 *Property, Plant and Equipment*, limits discontinued operations reporting and thus as campuses cease teach-out operations going forward, the results of operations for these campuses will remain within the results of continuing operations. Historically, campuses met the criteria for discontinued operations upon completion of the teach-out. During the first quarter of 2015, the Company completed the teach-out of one Transitional Group campus, Sanford-Brown White Plains, which continues to be reported under the Transitional Group as of March 31, 2015. As a result of this change, no prior period recast was made in our reporting and our results of operations for this campus is recorded within continuing operations for all periods presented.

During the first quarter of 2015, the Company made the decision to sell one of its campuses reported within the Career Colleges segment. As a result of this decision, the assets and liabilities of this campus are classified as held for sale within continuing operations as of March 31, 2015.

We operate in a highly regulated industry, which has significant impacts on our business and creates risk and uncertainties. We encourage you to review Item 1, Business, and Item 1A, Risk Factors, in our Annual Report on Form 10-K for the year ended December 31, 2014 to learn more.

The following Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) should be read in conjunction with the Company's condensed consolidated financial statements and

Table of Contents

the notes thereto appearing elsewhere in this Quarterly Report on Form 10-Q. The MD&A is intended to help investors understand the results of operations, financial condition and present business environment. The MD&A is organized as follows:

2015 First Quarter Overview

Consolidated Results of Operations

Segment Results of Operations

Summary of Critical Accounting Policies and Estimates

Liquidity, Financial Position and Capital Resources

Note Regarding Non-GAAP measures

The Company believes it is useful to present non-GAAP financial measures which exclude certain significant items as a means to understand the performance of its core business. As a general matter, the Company uses non-GAAP financial measures in conjunction with results presented in accordance with GAAP to help analyze the performance of its core business, assist with preparing the annual operating plan, and measure performance for some forms of compensation. In addition, the Company believes that non-GAAP financial information is used by analysts and others in the investment community to analyze the Company's historical results and to provide estimates of future performance and that failure to report non-GAAP measures could result in a misplaced perception that the Company's results have underperformed or exceeded expectations.

We believe adjusted EBITDA allows us to compare our current operating results with corresponding historical periods and with the operational performance of other companies in our industry because it does not give effect to potential differences caused by items we do not consider reflective of underlying operating performance. We also present adjusted EBITDA because we believe it is frequently used by securities analysts, investors and other interested parties as a measure of performance. In evaluating adjusted EBITDA, investors should be aware that in the future we may incur expenses similar to the adjustments presented below. Our presentation of adjusted EBITDA should not be construed as an inference that our future results will be unaffected by expenses that are unusual, non-routine or non-recurring. Adjusted EBITDA has limitations as an analytical tool, and you should not consider it in isolation, or as a substitute for net income (loss), operating income (loss), or any other performance measure derived in accordance and reported under GAAP or as an alternative to cash flow from operating activities or as a measure of our liquidity.

Non-GAAP financial measures, when viewed in a reconciliation to corresponding GAAP financial measures, provide an additional way of viewing the Company's results of operations and the factors and trends affecting the Company's business. Non-GAAP financial measures should be considered as a supplement to, and not as a substitute for, or superior to, the corresponding financial results presented in accordance with GAAP.

2015 FIRST QUARTER OVERVIEW

During the first quarter of 2015, we remained on track against our key objectives to generate modest total student enrollment within our University Group, to strengthen academic outcomes, to enhance regulatory compliance and simplify our business model, to reduce the organizational cost structure and continue to successfully complete the teach-out of our Transitional campuses. Our continued execution against our plan enables us to continue our mission of enabling students to obtain a quality education that allows them to achieve their goals.

Revenue from continuing operations declined \$15.9 million or 8.0% due to an overall 7.7% decrease in total student enrollments. For the current quarter, we reported an operating loss from continuing operations of \$24.6 million as compared to an operating loss of \$21.9 million for the prior year quarter. This increase in operating loss was primarily due to an increase of \$5.9 million of asset impairment charges recorded within our Career Colleges segment as compared to the prior year quarter. Excluding asset impairment charges, operating loss improved by 15.1% as compared to the prior year quarter.

Table of Contents

We continued to see improving business trends within our University Group. For our University Group, revenue decreased slightly by 0.9% as a result of relatively flat total student enrollments as compared to the prior year. Total student enrollments were impacted by the teach-out of two campuses within the University Group. Excluding these two campuses, total enrollments increased slightly as compared to the prior year quarter. New student enrollments for the University Group were 10,130 compared to 10,720 in the first quarter of 2014. This decrease was primarily attributable to a change in the methodology used to calculate new student enrollments at AIU in 2014 related to cancelled student enrollments. Excluding the impact of this change, new student enrollments within the University Group were down only 1.2% during the first quarter as compared to the prior year quarter. Total online student enrollments within the University Group increased 1.3% as compared to the prior year quarter. Operating income for the University Group improved by 7.6% to \$11.7 million due to continued cost containment execution.

Within our Career Colleges, revenue decreased \$8.1 million or 16.9% for the current quarter as compared to the prior year quarter and operating loss increased \$8.2 million or 58.8%, primarily due to the decrease in revenue as well as increased asset impairment charges. Career Colleges experienced a decline in new student enrollments of approximately 34.2% and an approximate 19.6% decline in total student enrollments as compared to the prior year quarter.

Restructuring Actions

During May 2015, we made strategic decisions to exit our Career College business, to right-size our corporate overhead and to streamline our University operations, in order to focus our resources and attention on our University businesses CTU and AIU, where we have significant opportunities to continue to provide quality higher education to the adult student market. As a result of several factors that have significantly impacted the Career Colleges, including negative publicity across the sector, a prolonged recession with depressed hiring, increasing costs of education and corresponding debt level of students, and increased legal and regulatory requirements aimed at private sector higher education, our career-oriented schools have faced increased difficulty to operate profitably. Accordingly, we are teaching out the 15 Sanford-Brown campuses and are seeking divestiture options for Briarcliffe College, Brooks Institute and Missouri College.

As part of these changes, Senior Vice President and Chief Career Schools Officer Lysa Clemens took on the role of Senior Vice President, Transitional Operations and Chief Transformation Officer, overseeing the teaching-out of campuses and right-sizing of centralized support operations. As Career Education has successfully accomplished in previous campus teach-outs, the company intends to serve students well, while managing costs through the gradual process of closing.

The gradual discontinuation of operations at these campuses provides each student the reasonable opportunity to complete their programs of study before the campus ultimately closes. We expect the majority of these teach-outs to be complete by 2017 with any remaining teach-outs expected to be complete in 2018. While a campus is completing the teach-out process, we will focus on providing our students with a quality education and career placement services so that they can complete their education and to help them secure employment.

While we are marketing Briarcliffe College, Brooks Institute and Missouri College and are optimistic that we will be able to find new ownership for these institutions, those that are not sold will also be taught out. We are in current negotiations with potential buyers for all three institutions and have signed an asset purchase agreement with a buyer for Brooks Institute, which is subject to accreditor and regulatory approval. We don't expect to receive any cash consideration for the sale of these assets. Additionally, we announced the teach-out of Harrington College of Design on March 31, 2015 and have entered into an agreement with Columbia College Chicago to facilitate the teach-out for these students.

With the newly announced teach-outs and potential divestitures, coupled with the future sale of our Le Cordon Bleu culinary arts campuses, we expect reductions in our centralized support staff to align our corporate

Table of Contents

overhead with the changing organization and to sharpen our focus on costs within the University Group to be more in line with leading education peers.

We expect to record approximately \$40 to \$50 million of restructuring charges related to these teach-out and divestiture initiatives. These costs primarily relate to severance charges (approximately \$20 - \$25 million) and costs associated with exiting lease obligations (approximately \$20 - \$25 million). These estimated charges are based on several assumptions, including timing of campus teach-outs, sales of campuses and implementation of support services realignment, and are subject to change. These charges will result in future cash expenditures through 2018 for the severance related charges and through 2023 for lease obligations as certain campuses have lease terms ranging beyond their anticipated teach-out completion date. The severance and related charges will primarily be recorded during the second quarter of 2015 and the lease charges will be recorded at the time each facility is vacated. The majority of the teach-outs are expected to be complete by 2017 and any remaining teach-outs are expected to be complete by 2018. Excluding restructuring charges, these initiatives are expected to be accretive to 2015 earnings. Specific timing and impacts of these actions on our cash balance are currently being approximated, but we do not anticipate any impact on our ability to maintain compliance with our Credit Agreement.

The Path Forward

Our focus and direction of the Company will be on the University Group and degree-oriented, higher education offered primarily online through regionally-accredited universities, where we maintain a competitive advantage in our online platform, brand awareness and intellipath adaptive learning technology. We are focused on being more efficient and effective in our spending as we continue to streamline operations to reduce our costs and improve our student outcomes. The University segments continue to invest in strengthening academic outcomes for students through our intellipath adaptive learning technology, which we believe is a key differentiator for our business. Given the strategic transformation announced for the Company, we believe our strong balance sheet and future positive cash flows will enable us to invest more in the CTU and AIU brands. These restructuring actions are expected to accelerate our path to profitability and right-size our corporate overhead.

Table of Contents

We believe the use of an adjusted EBITDA measure allows us to compare our current operating results for our operations with corresponding historical periods and with the operational performance of other companies in our industry because it does not give effect to potential differences caused by items we do not consider reflective of underlying operating performance. Adjusted EBITDA for the current quarter as well as the previous four quarters is presented below.

Adjusted EBITDA (\$ in thousands)	Q1 2015	Q4 2014	Q3 2014	Q2 2014	Q1 2014
University Group and Corporate:					
Pre-tax loss from continuing operations	\$ (24,990)	\$ (7,747)	\$ (31,651)	\$ (11,664)	\$ (21,442)
Transitional Group operating loss	8,360	10,138	10,856	9,091	7,789
Career Colleges operating loss	22,110	13,650	29,908	16,273	13,922
Interest expense (income), net	2	(38)	(120)	(177)	(25)

Cumulative adjustment related to revenue recognition ⁽⁴⁾	(67)	1,029			
Adjusted EBITDA Career Colleges, Transitional and Discontinued Operations	\$ (23,208)	\$ (20,495)	\$ (36,932)	\$ (39,063)	\$ (43,006)
Consolidated Adjusted EBITDA	\$ (11,776)	\$ 2,625	\$ (30,470)	\$ (19,551)	\$ (32,766)

(1) Quarterly amounts relate to the University Group and Corporate

(2) Legal settlement amounts are net of insurance recoveries

(3) Unused space charges include initial charge and subsequent accretion

(4) Quarterly amounts relate to Career Colleges, Transitional Group and discontinued operations

Adjusted EBITDA for the University Group and Corporate improved \$1.2 million or 11.6% for the first quarter of 2015 as compared to the same quarter last year as we continued to execute against our cost containment initiatives.

Adjusted EBITDA was \$11.4 million for the first quarter of 2015 as compared to \$10.2 million for the first quarter of 2014. We experienced positive Adjusted EBITDA for the current quarter despite increased advertising spending in our AIU segment within certain marketing channels. We continue to expect positive Adjusted EBITDA from our University Group and Corporate for the full year 2015 as improvement in operating margins for our University Group continues throughout 2015, although quarterly margins will be impacted by seasonal marketing spend.

Table of Contents

Adjusted EBITDA for Career Colleges, the Transitional Group and discontinued operations was -\$23.2 million, an improvement of \$19.8 million as compared to -\$43.0 million for the first quarter of 2014. This favorability was a result of the completion of teach-out operations at campuses that have now closed and continued focus on exiting and reducing real estate lease obligations once a teach-out is complete. Such lease obligations are a large component of our cost structure and cash usage. In addition to real estate leases associated with our ongoing operations, campuses that have completed the teach-out process more often than not have ongoing lease obligations that continue for some time. While we have added our Career Colleges to our teach-out operations, we expect to see the negative Adjusted EBITDA associated with these campuses continue to improve as we complete the teach-outs.

We remain on track with previous guidance related to positive Adjusted EBITDA for the full year of 2015 related to ongoing operations as defined at the beginning of the year as well as our previous guidance associated with the Transitional Group and discontinued operations of expected negative Adjusted EBITDA of \$62.0 million for the full year 2015. As we work through the finalization of estimates and timing related to our restructuring actions, we will update the previous guidance issued but excluding the restructuring charges, we expect these actions to be accretive to our 2015 earnings.

As an organization, our focus continues to be to **Enroll, Educate and Place** our students into a better position to succeed professionally and to close the gap between students and employers. In doing so, we seek to create a winning formula for our students, for employers that employ our graduates and for our shareholders. We expect that the restructuring actions announced will provide us with the necessary resources and a strong foundation to refocus our efforts on our University Group. We believe that this path will ultimately position the Company for long-term success. We continue to focus on our key objectives and expect positive Adjusted EBITDA from our University Group and Corporate for the full year 2015, modest total student enrollment growth within our University segments for the full year 2015, further reductions of real estate obligations within our teach-out and discontinued operations, reductions in our overall cost structure, and to maintain a year end cash, cash equivalents, restricted cash and investment balance of more than \$190 million.

Industry Update: Student Loan Forgiveness Initiatives

During the past several months, ED has received claims from current and former students of for profit education institutions seeking loan forgiveness. These students claim that they are legally entitled to such relief based on, among other things, allegations that their school engaged in unlawful conduct with respect to its administration of the Title IV loan program. ED is evaluating how to respond to these claims. We continue to monitor this issue to determine what, if any, potential impact such claims might have on our business.

Table of Contents**CONSOLIDATED RESULTS OF OPERATIONS**

The summary of selected financial data table below should be referenced in connection with a review of the following discussion of our results of operations for the quarters ended March 31, 2015 and 2014 (dollars in thousands):

	For the Quarter Ended March 31,				% Change 2015 vs. 2014
	2015	% of Total Revenue	2014	% of Total Revenue	
TOTAL REVENUE	\$ 182,302		\$ 198,154		-8%
OPERATING EXPENSES

OPERATING LOSS	(24,601)	-13.5%	(21,949)	-11.1%	-12%
PRETAX LOSS	(24,990)	-13.7%	(21,442)	-10.8%	-17%
(BENEFIT FROM) PROVISION FOR INCOME TAXES	(211)	-0.1%	220	0.1%	NM
<i>Effective tax rate</i>	-0.8%		1.0%		
LOSS FROM CONTINUING OPERATIONS	(24,779)	-13.6%	(21,662)	-10.9%	-14%
LOSS FROM DISCONTINUED OPERATIONS, net of tax	(102)	-0.1%	(36,481)	-18.4%	NM
NET LOSS	\$ (24,881)	-13.6%	\$ (58,143)	-29.3%	57%

(1) Educational services and facilities expense includes costs directly attributable to the educational activities of our schools, including: salaries and benefits of faculty, academic administrators, and student support personnel, and costs of educational supplies and facilities, including rents on school leases, certain costs of establishing and maintaining computer laboratories, costs of student housing and owned and leased facility costs. Also included in educational services and facilities expense are costs of other goods and services provided by our schools, including costs of textbooks, laptop computers, restaurant services and contract training.

(2)

General and administrative expense includes salaries and benefits of personnel in corporate and school administration, marketing, admissions, financial aid, accounting, human resources, legal and compliance. Other expenses within this expense category include costs of advertising and production of marketing materials, occupancy of the corporate offices and bad debt expense.

Revenue

Current quarter revenue decreased 8.0% as compared to the prior year quarter driven by the overall decline in total student enrollment. Excluding our Transitional Group campuses, which no longer enroll new students as they teach out the campus, revenue declined approximately 5.0% for the current quarter as compared to the prior year quarter. We experienced a slight increase in revenue within AIU which was offset with decreases within the

Table of Contents

remaining segments. The slight increase in revenue for AIU was driven by increases in both revenue per student and total student enrollments. Lastly, application volume within our Career Colleges segment continued to decrease as compared to the prior period, contributing to the decline in enrollments and therefore revenue as compared to the prior year quarter.

Educational Services and Facilities Expense (dollars in thousands)

	For the Quarter Ended March 31,			
	2015	% of Total Revenue	2014	% of Total Revenue
Educational services and facilities:				
Academics & student related	\$ 37,776	20.7%	\$ 43,462	21.9%
Occupancy	17,175	9.4%	18,176	9.2%
Total educational services and facilities	\$ 54,951	30.1%	\$ 61,638	31.1%

The decrease in educational services and facilities expense as compared to the prior year quarter is primarily driven by lower academic costs, most notably faculty and bookstore costs. The decrease in faculty and bookstore costs is caused by a combination of factors, including lower total student enrollments across the majority of our institutions. We continue to closely monitor the variable costs while maintaining optimal student-teacher ratios.

General and Administrative Expense (dollars in thousands)

	For the Quarter Ended March 31,			
	2015	% of Total Revenue	2014	% of Total Revenue
General and administrative:				
Advertising	\$ 60,630	33.3%	\$ 58,249	29.4%
Admissions	24,775	13.6%	28,346	14.3%
Administrative	49,721	27.3%	56,795	28.7%
Bad Debt	4,022	2.2%	5,056	2.6%
Total general and administrative expense	\$ 139,148	76.3%	\$ 148,446	74.9%

General and administrative expenses decreased as compared to the prior year quarter within administrative, admissions and bad debt expenses, which were slightly offset with an increase in advertising expense. Administrative expenses decreased by \$7.1 million primarily driven by higher legal settlements recorded in the prior year quarter. Admissions costs have decreased primarily in salary and related expenses due to headcount reductions made in response to decreasing enrollments as well as the Transitional Group no longer enrolling new students. The increased advertising expense is substantially related to AIU as a result of increased spending in certain marketing channels to

generate additional new student lead volume. Bad debt expense decreased as a percentage of revenue primarily due to a change in how we recognized revenue for students who have withdrawn prior to completing their course of study. Beginning in the fourth quarter of 2014, we recognize revenue on a cash-basis for these students upon withdrawal. In the prior year quarter, revenue was recognized immediately upon the withdrawal of a student with a corresponding charge to bad debt expense for the portion deemed uncollectible.

Table of Contents

Bad debt expense incurred by each of our segments during the quarters ended March 31, 2015 and 2014 was as follows (dollars in thousands):

	For the Quarter Ended March 31,			
		% of		% of
	2015	Segment	2014	Segment
Bad debt expense:		Revenue		Revenue
CTU	\$ 2,264	2.7%	\$ 2,269	2.6%
AIU	1,262	2.4%	2,339	4.4%
Total University Group	3,526	2.6%	4,608	3.3%
Career Colleges	302	0.8%	560	1.2%
Corporate and Other	140	NM	(181)	NM
Sub Total	3,968	2.2%	4,987	2.7%
Transitional Group	54	1.3%	69	0.6%
Total	\$ 4,022	2.2%	\$ 5,056	2.6%

Operating Loss

The operating loss reported for the current quarter resulted from the decline in revenues across most of our segments which was only partially offset with the decline in operating expenses. Initiatives to align expenses with the declining student enrollment, changes in marketing strategies and implementation of efficiencies in our support functions continue to partially offset the impact of declining revenues and deleveraging of the business.

(Benefit from) Provision for Income Taxes

As of December 31, 2014, we reported a total deferred tax valuation allowance of \$150.4 million within our consolidated balance sheet. We have determined that it is necessary to continue to record this valuation allowance against our net deferred tax assets as of March 31, 2015. The effective tax benefit for the quarter ended March 31, 2015 approximated \$0.2 million, resulting primarily from adjustments for uncertain tax positions. We will continue to evaluate our valuation allowance in future periods for any change in circumstances that may cause a change in judgment about the realizability of the deferred tax assets.

Loss from Discontinued Operations

The results of operations for campuses that have been taught out or sold prior to 2015, and are considered distinct operations as defined under FASB ASC Topic 205 *Presentation of Financial Statements*, as well as our LCB campuses which are held for sale, are presented within discontinued operations. During the first quarter of 2015, the Company adopted the new accounting guidance impacting the presentation of financial statements for discontinued operations, which limits the discontinued operations treatment if the group being sold or disposed of does not meet the definition of a strategic business shift. During the first quarter of 2015, the Company completed the teach-out of the Sanford-Brown White Plains campus which continues to be reported under the Transitional Group within continuing operations as a result of this new guidance.

Asset Held For Sale - Le Cordon Bleu

During the fourth quarter of 2014, our Board of Directors approved a plan to sell our 16 Culinary Arts campuses (LCB). Our decision to pursue the divestiture of LCB was the result of an ongoing portfolio review undertaken to evaluate the strategic direction of the Company. As a result of the decision to sell LCB, the results of operations for the entities to be sold are classified within loss from discontinued operations as of March 31, 2015.

Table of Contents

Revenue, operating expenses, income (loss) from discontinued operations, new student enrollments and total student enrollments for our LCB asset held for sale during the first quarter of 2015 and prior year quarter was as follows (dollars in thousands):

	For the Quarter Ended March 31,		2015 vs 2014 % Change
	2015	2014	
Asset Held For Sale:			
Revenue	\$ 44,712	\$ 42,247	5.8%
Operating expenses:			
Educational services and facilities	19,943	19,340	3.1%
General and administrative	24,525	36,685	-33.1%
Depreciation and amortization	1	4,268	NM
Total operating expenses	\$ 44,469	\$ 60,293	-26.2%
Income (loss) from discontinued operations	\$ 250	\$ (18,021)	NM
New student enrollments	2,040	2,300	-11.3%
Total student enrollments	8,800	8,400	4.8%

Current quarter revenue for LCB increased by \$2.5 million or 5.8% as compared to the prior year quarter. This increase in revenue was primarily a result of improved total enrollments and reintroduction of the Associates degree program, which began to positively impact the revenue comparison. Total student enrollments were positively impacted by the reintroduction of this program beginning in late 2012 due to the demand from students and employers. This program has a greater lead time between a prospective applicant to a new student enrollment as compared to the Certificate program due to the longer length of the program impacting a student's likelihood to start.

Current quarter income from discontinued operations for LCB was \$0.3 million as compared to the prior year quarter loss of \$18.0 million. The increase in operating income is primarily a result of decreases in administrative expenses. Administrative expenses decreased primarily due to increased legal settlements in the prior year quarter and increased management fee allocations in the prior year quarter as compared to the current year quarter. In accordance with ASC Topic 205 *Presentation of Financial Statements*, general corporate overhead cannot be allocated to discontinued operations.

Table of Contents**SEGMENT RESULTS OF OPERATIONS**

The following tables present unaudited segment results for the reported periods (dollars in thousands):

	For the Quarter Ended March 31,							
	REVENUE			OPERATING (LOSS) INCOME			OPERATING MARGIN (LOSS)	
	2015	2014	% Change	2015	2014	% Change	2015	2014

Total	\$ 182,302	\$ 198,154	-8.0%	\$ (24,601)	\$ (21,949)	-12.1%	-13.5%	-11.1%

	NEW STUDENT ENROLLMENTS			TOTAL STUDENT ENROLLMENTS		
	For the Quarter Ended March 31,			As of March 31,		
	2015	2014	% Change	2015	2014	% Change
CTU ⁽¹⁾	5,040	4,820	4.6%	20,300	20,600	-1.5%
AIU ^{(1) (2)}	5,090	5,900	-13.7%	13,500	13,300	1.5%
Total University Group	10,130	10,720	-5.5%	33,800	33,900	-0.3%
Career Colleges	1,830	2,780	-34.2%	8,600	10,700	-19.6%
Subtotal	11,960	13,500	-11.4%	42,400	44,600	-4.9%
Transitional Group ⁽³⁾		220	NM	900	2,300	NM
Total	11,960	13,720	-12.8%	43,300	46,900	-7.7%

- (1) A portion of the total student enrollment decrease for the University Group resulted from campus location teach-outs which negatively impacted the comparison of the current quarter versus the prior year quarter as a result of the wind down of operations at one location within each segment.
- (2) Beginning in the second quarter of 2014, AIU changed its methodology related to certain cancelled student enrollments. As a result, the decrease in the current quarter versus the prior year quarter was partially a result of this change in methodology.
- (3) Campuses within the Transitional Group segment no longer enroll new students; students who re-enter after 365 days are reported as new student enrollments.

University Group. Current quarter revenue decreased slightly by approximately 0.9% as a slight increase in revenue for AIU was offset with a decline in revenue for CTU driven by an overall 0.3% decrease in total student enrollments as compared to the prior year quarter. Total student enrollments were impacted by the teach-out of two campuses within the University Group. Excluding these two campuses, total student enrollments increased slightly

Table of Contents

as compared to the prior year quarter. New student enrollments decreased approximately 5.5% in the current quarter for our University Group as compared to the prior year quarter. This decrease was primarily attributable to a change in the methodology used to calculate new student enrollments at AIU in 2014 related to cancelled student enrollments. Excluding the impact of this change, new student enrollments within the University Group were down only 1.2% during the first quarter as compared to the prior year quarter.

Current quarter operating income for the University Group increased \$0.8 million, or 7.6%, as compared to the prior year quarter driven by an overall decrease in operating expenses which was partially offset with a decline in revenue. Most expense categories were lower when compared to the prior year quarter, with the exception of administrative expenses and advertising expense. The increase in administrative expense is primarily due to increased management fees as a result of general corporate overhead no longer being allocated to the LCB campuses and therefore increasing the percent allocated to the University Group. Advertising expense increased due to increased spending within certain marketing channels for AIU to assist with increasing new student interest.

Career Colleges. Current quarter revenue decreased \$8.1 million, or approximately 16.9%, as Career Colleges experienced declines in total student enrollments as compared to the prior year quarter. Lower total student enrollments at the beginning of the year as well as new student enrollments being approximately 34.2% lower as compared to the prior year quarter contributed to the decline.

The current quarter operating loss of \$22.1 million for Career Colleges is driven by the decline in revenue. Most expense categories decreased as compared to the prior year quarter, primarily due to our restructuring and re-engineering initiatives carried out to better align with current total student enrollments. Asset impairment expenses increased by \$6.0 million in the current quarter as compared to the prior year quarter primarily due to changes in management's expectations regarding future use of the assets.

Transitional Group. This segment includes our institutions that are currently being taught out as of March 31, 2015 as well as one campus that ceased operation in the current year quarter. The current quarter decline in revenue as compared to the prior year quarter is primarily a result of the decrease in total student enrollments at the beginning of the year and campuses no longer enrolling new students. We expect revenue to continue to decline as compared to prior periods as campuses continue to wind down their operations.

The operating loss within the Transitional Group increased by \$0.6 million as compared to the prior year quarter as the decrease in revenue more than offset the reductions in variable operating expenses.

Corporate and Other. This category includes unallocated costs that are incurred on behalf of the entire company. Corporate and Other costs decreased \$5.3 million as compared to the prior year quarter, primarily due to higher legal settlement expense in the prior year quarter.

SUMMARY OF CRITICAL ACCOUNTING POLICIES AND ESTIMATES

A detailed discussion of the accounting policies and estimates that we believe are most critical to our financial condition and results of operations that require management's most subjective and complex judgments in estimating the effect of inherent uncertainties is included under the caption "Summary of Critical Accounting Policies and Estimates" included in Management's Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for the year ended December 31, 2014. Note 2 "Summary of Significant Accounting Policies" of the notes to our consolidated financial statements in our Annual Report on Form 10-K for the year ended December 31, 2014 also includes a discussion of these and other significant accounting policies.

Table of Contents

LIQUIDITY, FINANCIAL POSITION, AND CAPITAL RESOURCES

As of March 31, 2015, cash, cash equivalents, restricted cash and short-term investments totaled \$206.4 million. Our cash flows from operations have historically been adequate to fulfill our liquidity requirements. We historically have financed our operating activities, organic growth and acquisitions primarily through cash generated from operations, existing cash balances and credit facility borrowings. The recent declines in operating performance have resulted in an increase in net cash used in operating activities and we expect continued net cash usage in operating activities. However, as we execute on our strategic imperatives, we expect continued improving cash trends in the business driven by continued reductions in cash usage related to our Transitional Group and discontinued operations, improved financial performance for our University Group, reduced real estate obligations and reduced legal costs. We anticipate that we will be able to satisfy the cash requirements associated with, among other things, our working capital needs, capital expenditures and lease commitments through at least the next 12 months primarily with cash generated by operations and existing cash balances.

Restricted cash balances as of March 31, 2015 approximate \$13.9 million and are comprised of restricted cash balances for certificates of deposit to provide securitization for letters of credit.

The discussion above reflects management's expectations regarding liquidity; however, we are not able to assess the effect of loss contingencies on future cash requirements and liquidity. See Note 10 Contingencies to our unaudited condensed consolidated financial statements. Further, as a result of the significance of the Title IV Program funds received by our students, we are highly dependent on these funds to operate our business. Any reduction in the level of Title IV funds that our students are eligible to receive or any impact on timing or our ability to receive Title IV Program funds may have a significant impact on our operations and our financial condition. In addition, our financial performance is dependent on the level of student enrollment which could be impacted by external factors. See Item 1A, Risk Factors, in our Annual Report on Form 10-K for the year ended December 31, 2014.

In particular, to participate in Title IV Programs, our institutions must either satisfy standards of financial responsibility prescribed by ED, or be subjected to additional oversight, required to post a letter of credit in favor of ED or placed on provisional certification. These regulations require each eligible higher education institution to, among other things, satisfy a quantitative standard of financial responsibility that is a weighted average composite score of three annual tests which assess the financial condition of the institution. If the institution achieves a composite score of at least 1.5, it is considered financially responsible without conditions or additional oversight. See Item 1, Business Student Financial Aid and Related Federal Regulation Compliance with Federal Regulatory Standards and Effect of Federal Regulatory Violations *Financial Responsibility Standards*, in our Annual Report for Form 10-K for the year ended December 31, 2014 for more information regarding ED's standards of financial responsibility.

ED applies its quantitative financial responsibility tests annually based on an institution's audited financial statements. Recent profitability declines and the write down of the carrying value of non-financial assets, such as deferred tax assets and goodwill, have negatively impacted our financial responsibility composite score. Our composite score for the consolidated entity for the year ended December 31, 2013 was 1.5, and our preliminary calculation for the year ended December 31, 2014 is 1.5, which are considered financially responsible without conditions or additional oversight. The Company continuously monitors compliance with ED's standards of financial responsibility. In order to remain financially responsible for 2015 and 2016, as defined by ED, the Company is exploring additional steps which include further cost reductions, investing in new business technologies, long-term borrowing options, acquisitions or divestitures, modifying our capital structure and other organization changes. Additionally, our investment decisions, such as the use of our cash, will be impacted by the course of action we choose.

There can be no assurance that the Company's actions will result in the Company remaining financially responsible as defined by ED. For example, a failure to successfully implement our plan to sell our Culinary Arts

Table of Contents

campuses may negatively impact our financial responsibility composite score. Additionally, our plans to reduce costs through closure of campuses may negatively impact our composite score in the short term. We believe that recent developments in the proprietary postsecondary education industry have negatively impacted the availability and cost of capital for companies in the industry, which may impact the course of action we choose and our future compliance with ED's financial responsibility standards. Further, there is some uncertainty regarding ED's treatment of certain components of the financial responsibility composite score.

ED has significant discretion in determining the monitoring and reporting procedures applicable to an institution with a composite score below 1.5, the amount of any required letter of credit and the terms of any provisional certification. If in the future we are required to satisfy ED's standards of financial responsibility on an alternative basis, including potentially by posting irrevocable letters of credit, we may not have the capacity to post these letters of credit.

Sources and Uses of Cash

Operating Cash Flows

During the quarters ended March 31, 2015 and 2014, net cash flows used in operating activities totaled \$20.2 million and \$35.4 million, respectively. The current quarter operating cash usage included cash payments of \$13.5 million of real estate payments for lease obligations of vacated facilities, of which \$8.9 million was paid to exit facilities which reduced future lease obligations by \$19.4 million, as well as \$4.9 million of cash payments for legal settlements and separation payments for the previous CEO.

Our primary source of cash flows from operating activities is tuition collected from our students. Our students derive the ability to pay tuition costs through the use of a variety of funding sources, including, among others, federal loan and grant programs, state grant programs, private loans and grants, institution payment plans, private and institutional scholarships and cash payments. For the quarters ended March 31, 2015 and 2014, approximately 76% and 77%, respectively, of our institutions' cash receipts from tuition payments came from Title IV Program funding.

For further discussion of Title IV Program funding and alternative private loan funding sources for our students, see Item 1, "Business Student Financial Aid and Related Federal Regulation," in our Annual Report on Form 10-K for the year ended December 31, 2014.

Our primary uses of cash to support our operating activities include, among other things, cash paid and benefits provided to our employees for services, to vendors for products and services, to lessors for rents and operating costs related to leased facilities, to suppliers for textbooks and other institution supplies, and to federal, state and local governments for income and other taxes.

Investing Cash Flows

During the quarters ended March 31, 2015 and 2014, net cash used in investing activities totaled \$3.9 million and \$19.0 million, respectively.

Purchases and Sales of Available-for-Sale Investments. Purchases and sales of available-for-sale investments resulted in a \$0.5 million and \$15.5 million net cash outflow during the quarters ended March 31, 2015 and 2014, respectively.

Capital Expenditures. Capital expenditures remained relatively flat at \$3.4 million for the quarter ended March 31, 2015 as compared to \$3.5 million for the quarter ended March 31, 2014. Capital expenditures represented 1.5% and 1.4% of total revenue of continuing and discontinued operations during the quarters ended March 31, 2015 and 2014,

respectively.

Table of Contents

Financing Cash Flows

During the quarters ended March 31, 2015 and 2014, net cash flows used in financing activities totaled \$0.8 million and \$0.2 million, respectively.

Credit Agreement. On October 31, 2014, we entered into a \$120.0 million Amended and Restated Credit Agreement with BMO Harris Bank N.A., in its capacities as the initial lender and letter of credit issuer thereunder and the administrative agent for the lenders which from time to time may be parties to the Credit Agreement. The revolving credit facility under the Credit Agreement is scheduled to mature on June 30, 2016 and replaced our previous credit agreement entered into on December 30, 2013. The Credit Agreement, which includes certain financial covenants, requires that fees and interest are payable monthly and quarterly in arrears, respectively, and principal is payable at maturity. During the first quarter of 2015, we repaid the \$10.0 million which was borrowed under the Credit Agreement during the fourth quarter of 2014. As of March 31, 2015, we have no outstanding borrowing under the Credit Agreement.

Restricted Cash. As of March 31, 2015, we had approximately \$13.9 million of restricted cash related to certificates of deposit to secure outstanding letters of credit. As of December 31, 2014, our restricted cash balances approximated \$22.9 million related to collateralization of borrowings under our Credit Agreement and certificates of deposit to secure outstanding letters of credit.

Table of Contents**Contractual Obligations**

As of March 31, 2015, future minimum cash payments under contractual obligations for our non-cancelable operating lease arrangements were as follows (dollars in thousands):

	2015 ⁽⁴⁾	2016	2017	2018	2019	2020 & Thereafter	Total

Total net contractual lease obligations ⁽²⁾	\$ 76,918	\$ 68,299	\$ 57,540	\$ 53,356	\$ 38,767	\$ 45,929	\$ 340,809

- (1) Amounts exclude certain costs associated with real estate leases, such as expense for common area maintenance (i.e. CAM) and taxes, as these amounts are undeterminable at this time and may vary based on future circumstances.
- (2) Certain real estate properties are shared by campuses within multiple segments. The lease obligations for shared locations are reported under the segment which holds the legal title to the lease.
- (3) Amounts provided are for executed sublease arrangements.
- (4) Amounts provided are for the full year of 2015.

Table of Contents

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to financial market risks, including changes in interest rates and foreign currency exchange rates. We use various techniques to manage our market risk, including, from time to time, the use of derivative financial instruments. We do not use derivative financial instruments for speculative purposes.

Our municipal bond investment in auction rate securities (ARS) has a stated term to maturity of greater than one year, and as such, we classify our investment in ARS as non-current on our condensed consolidated balance sheets within other assets. Auctions can fail when the number of sellers of the security exceeds the buyers for that particular auction period. In the event that an auction fails, the interest rate resets at a rate based on a formula determined by the individual security. The ARS for which auctions have failed continues to accrue interest and is auctioned on a set interval until the auction succeeds, the issuer calls the security, or it matures. As of March 31, 2015, we have determined this investment is at risk for impairment due to the nature of the liquidity of the market over the past several years. Cumulative unrealized losses as of March 31, 2015 amount to \$0.5 million and are reflected within accumulated other comprehensive loss as a component of stockholders' equity. We believe this impairment is temporary, as we do not intend to sell the investment and it is unlikely we will be required to sell the investment before recovery of its amortized cost basis.

Interest Rate Exposure

Any outstanding borrowings under our revolving credit facility bear annual interest at fluctuating rates under either the Base Rate Loan or as determined by the London Interbank Offered Rate (LIBOR) for the relevant currency, plus the applicable rate based on the type of loan. As of March 31, 2015, we had no outstanding borrowings under this facility.

Our financial instruments are recorded at their fair values as of March 31, 2015 and December 31, 2014. We believe that the exposure of our consolidated financial position and results of operations and cash flows to adverse changes in interest rates is not significant.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

We completed an evaluation as of the end of the period covered by this Quarterly Report on Form 10-Q (Report) under the supervision and with the participation of management, including our Interim Chief Executive Officer and Interim Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Rule 13a-15(b) of the Securities Exchange Act of 1934, as amended (the Exchange Act). Based upon that evaluation, our Interim Chief Executive Officer and Interim Chief Financial Officer concluded that, as of March 31, 2015 our disclosure controls and procedures were effective to provide reasonable assurance that (i) the information required to be disclosed by us in this Report was recorded, processed, summarized, and reported within the time periods specified in the rules and forms provided by the U.S. Securities and Exchange Commission (SEC) and (ii) information required to be disclosed by us in our reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting that occurred during the quarter ended March 31, 2015, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents

Inherent Limitations on the Effectiveness of Controls

Our management does not expect that our disclosure controls and procedures or our internal controls will prevent or detect all errors and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in a cost-effective control system, no evaluation of controls can provide absolute assurance that misstatements due to error or fraud will not occur or that all control issues and instances of fraud, if any, within our Company have been detected.

These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake. Controls can also be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the controls. The design of any system of controls is based in part on certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Projections of any evaluation of controls effectiveness to future periods are subject to risks. Over time, controls may become inadequate because of changes in conditions or deterioration in the degree of compliance with policies or procedures.

Table of Contents**PART II OTHER INFORMATION****Item 1. Legal Proceedings**

Note 10 Contingencies to our unaudited condensed consolidated financial statements is incorporated herein by reference.

Item 1A. Risk Factors

In addition to the other information set forth in this Quarterly Report on Form 10-Q, the reader should carefully consider the factors discussed in Part I, Item 1A Risk Factors, in the Company's Annual Report on Form 10-K for the year ended December 31, 2014, which was filed with the Securities and Exchange Commission on March 3, 2015.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table sets forth information regarding purchases made by us of shares of our common stock on a monthly basis during the quarter ended March 31, 2015:

Issuer Purchases of Equity Securities

Period	Total Number of Shares Purchased (1)	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs (2)	Maximum Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs (2)
December 31, 2014				\$ 183,296,772
January 1, 2015 - January 31, 2015		\$		183,296,772
February 1, 2015 - February 28, 2015				183,2
