|                                |                                                                                                                                                                                                                                                                                                                                                                     |
|--------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Day Count Convention:</b>   | Actual/Actual (Canadian Compound Method). For a full semi-annual interest period, interest will be computed on the basis of a 360-day year of twelve 30-day months. For an interest period that is shorter than a full semi-annual interest period, interest will be computed on the basis of a 365-day year and the actual number of days in such interest period. |
| <b>Coupon:</b>                 | 2.222%                                                                                                                                                                                                                                                                                                                                                              |
| <b>Issue Spread:</b>           | +157bps over the GoC Curve (CAN 0.75% 1MAR21 & CAN 3.25% 1JUN21)<br><br>+157bps plus a curve adjustment of 0.6bps plus a delay cost of 0.0bps over the CAN 0.75% 1MAR21 (priced at \$100.51 to yield 0.646%)                                                                                                                                                        |
| <b>Yield:</b>                  | 2.222%                                                                                                                                                                                                                                                                                                                                                              |
| <b>Interest Payment Dates:</b> | The Notes will bear interest from the settlement date up to, but excluding, March 15, 2021 at a fixed annual rate of 2.222%, payable in equal semi-annual installments on March 15 and September 15 in each year, with the first payment of interest due on September 15, 2016 and the last payment of interest due on March 15, 2021.                              |
| <b>Ranking:</b>                | The Notes will be senior unsecured obligations of the Issuer and will rank equally with all of the Issuer's other senior debt securities, as defined further in the Canadian Offering Memorandum.                                                                                                                                                                   |
| <b>Governing Law:</b>          | New York                                                                                                                                                                                                                                                                                                                                                            |

- 2 -

- Sales Restrictions:** This issue is available in each of the provinces of Canada only as a private placement to investors that are certain categories of accredited investors and in certain circumstances that are also permitted clients, each as set out in the Canadian Offering Memorandum. Resales in Canada will only be permitted pursuant to an exemption from the prospectus requirements of applicable provincial securities laws.
