(1) Calculated in accordance with Rule 456(b) and 457(r) of the Securities Act.

**Table of Contents**

Prospectus Supplement to Prospectus Dated May 5, 2014

**Wells Fargo & Company**

**\$150,000,000 Floating Rate Notes Due May 24, 2021**

Wells Fargo & Company ( Wells Fargo ) will pay interest on the Floating Rate Notes Due May 24, 2021 (the notes ) at a rate equal to the base rate of LIBOR plus 0.90%, and will pay such interest on each February 24, May 24, August 24 and November 24, commencing August 24, 2016, and at maturity. The notes will mature on May 24, 2021. The notes will not be listed on any securities exchange or automated quotation system.

**The notes are unsecured obligations of Wells Fargo and all payments on the notes are subject to the credit risk of Wells Fargo. The notes are not deposits or other obligations of a depository institution and are not insured by the Federal Deposit Insurance Corporation, the Deposit Insurance Fund or any other governmental agency.**

**Neither the Securities and Exchange Commission nor any state securities commission or other regulatory body has approved or disapproved of these securities or passed upon the accuracy or adequacy of this prospectus supplement or the accompanying prospectus. Any representation to the contrary is a criminal offense.**

Investing in the notes involves risks. See **Risk Factors** beginning on page S-2.

	Public Offering Price <sup>(1)</sup>	Underwriting Discount	Proceeds, before expenses, to Wells Fargo <sup>(1)</sup>
Per Note	100.000%	0.350%	99.650%
Total	\$150,000,000	\$525,000	\$149,475,000

(1) Plus accrued interest, if any, from May 24, 2016.

## Edgar Filing: WELLS FARGO & COMPANY/MN - Form 424B2

The underwriter expects to deliver the notes in book-entry form only through the facilities of The Depository Trust Company for the accounts of its participants, including Euroclear Bank S.A./N.V., as operator of the Euroclear System, and Clearstream Banking société anonyme on May 24, 2016.

Wells Fargo Securities, LLC, one of our wholly-owned subsidiaries, will comply with Rule 5121 of the Conduct Rules of the Financial Industry Regulatory Authority, Inc. (FINRA ) in connection with sales of the notes.

Prospectus Supplement dated May 13, 2016

**Table of Contents**

**ABOUT THIS PROSPECTUS SUPPLEMENT**

**You should read this prospectus supplement along with the accompanying prospectus, any related free writing prospectus prepared by us or on our behalf and the documents incorporated by reference in this prospectus supplement and the accompanying prospectus. These documents contain information you should consider when making your investment decision. You should rely only on the information contained or incorporated by reference in this prospectus supplement, the accompanying prospectus and any free writing prospectus prepared by us or on our behalf. We have not, and the underwriter has not, authorized anyone else to provide you with different or additional information. If anyone provides you with different or inconsistent information, you should not rely on it.**

This prospectus supplement and the accompanying prospectus do not constitute an offer to sell or a solicitation of an offer to buy any securities other than the notes. This prospectus supplement and the accompanying prospectus may only be used where it is legal to sell the notes and do not constitute an offer to sell or a solicitation of an offer to buy such notes in any circumstances in which such offer or solicitation is unlawful. The distribution of this prospectus supplement and the accompanying prospectus and the offering of the notes in certain jurisdictions may be restricted by law. Persons into whose possession this prospectus supplement and accompanying prospectus come should inform themselves about and observe any such restrictions.

Information contained or incorporated by reference in this prospectus supplement or the accompanying prospectus may change after the date on the front of the applicable document. You should not interpret the delivery of this prospectus supplement or the accompanying prospectus, or the sale of the notes, as an indication that there has been no change in our affairs since those dates.

**WELLS FARGO & COMPANY**

We are a diversified, community-based financial services company organized under the laws of the State of Delaware and registered as a financial holding company and a bank holding company under the Bank Holding Company Act of 1956, as amended. We provide banking, insurance, investments, mortgage and consumer and commercial finance through banking stores and offices, ATMs, the internet, mobile banking and other distribution channels to individuals, businesses and institutions in all 50 states, the District of Columbia and elsewhere internationally to support customers who conduct business in the global economy. When we refer to Wells Fargo, we, our and us in this prospectus supplement we mean only Wells Fargo & Company, and not Wells Fargo & Company together with any of its subsidiaries, unless the context indicates otherwise.

We are a separate and distinct legal entity from our banking and other subsidiaries. A significant source of funds to pay debt service on our debt and dividends on our common and preferred stock is dividends from our subsidiaries. Various federal and state statutes and regulations limit the amount of dividends that our banking and other subsidiaries may pay to us without regulatory approval.

**RISK FACTORS**

Your investment in the notes involves risks. This prospectus supplement, the accompanying prospectus and the documents incorporated by reference do not describe all of those risks. Before purchasing any notes, you should carefully consider the risk factors contained in the accompanying prospectus and the other information contained or incorporated by reference in this prospectus supplement and the accompanying prospectus, including the risk factors contained in our annual and quarterly reports. You should consult your financial, legal, tax and other professional advisors as to the risks associated with an investment in our notes and the suitability of the investment for you.

**Table of Contents**

**DESCRIPTION OF THE NOTES**

This description of the particular terms of the notes offered by this prospectus supplement adds to, and to the extent inconsistent therewith replaces, the description of the general terms and provisions of the senior debt securities in the accompanying prospectus. If this summary differs in any way from the summary in the accompanying prospectus, you should rely on the description of the notes in this prospectus supplement. The notes will be issued under the senior indenture referred to in the accompanying prospectus. The notes are a series of senior debt securities described in the accompanying prospectus. You should read the accompanying prospectus for a general discussion of the terms and provisions of the senior indenture. Certain terms used in this prospectus supplement are defined in the accompanying prospectus.

**General**

The notes will initially be limited to a total principal amount of \$150,000,000. The stated maturity date for the notes is May 24, 2021, and on such date holders of the notes will be entitled to receive a cash payment in U.S. dollars equal to 100% of the principal amount of the notes plus any accrued and unpaid interest.

The notes will be our senior unsecured obligations and will rank equally with all of our other senior debt securities. The notes are not redeemable at the option of Wells Fargo. The notes will not be listed on any securities exchange or automated quotation system.

**Interest**

The notes will bear interest from May 24, 2016, or from the most recent interest payment date on which we have paid or provided for interest on the notes. The interest rate per annum for the notes will be reset quarterly on the first day of each interest reset period and will be equal to the base rate of LIBOR plus 0.90%, as determined by the calculation agent. The index maturity is three months. For purposes of determining LIBOR, the Designated LIBOR Page is Page LIBOR01, as displayed on Reuters or any successor service (or such other page as may replace Page LIBOR01 on that service or successor service). The interest payment dates for the notes will be each February 24, May 24, August 24 and November 24, commencing August 24, 2016, and the stated maturity date. The interest reset dates for the floating rate notes will be each February 24, May 24, August 24 and November 24, commencing August 24, 2016. The interest rate for each interest reset period will be determined as described under Description of Debt Securities Interest and Principal Payments and Floating Rate Debt Securities in the accompanying prospectus. The initial interest rate will be equal to the base rate of LIBOR plus 0.90%, determined two London banking days prior to May 24, 2016.

**Table of Contents**

**U.S. FEDERAL INCOME TAX CONSIDERATIONS**

For a brief description of the United States tax effects of an investment in the notes, see [Certain U.S. Federal Income Tax Considerations](#) in the accompanying prospectus.

Pursuant to published guidance by the Internal Revenue Service, withholding on gross proceeds under the Foreign Account Tax Compliance Act will be delayed until January 1, 2019 rather than January 1, 2017. See [Certain U.S. Federal Income Tax Considerations Legislation Affecting the Taxation of Debt Securities, Common Stock and Preferred Stock Held by or through Foreign Entities](#) in the accompanying prospectus.

**EU DIRECTIVE ON THE TAXATION OF SAVINGS INCOME**

On November 10, 2015, the Council of the European Union adopted a Council Directive repealing the EC Council Directive 2003/48/EC on the taxation of savings income, as amended (the [Directive](#) ), from January 1, 2017, in the case of Austria, and from January 1, 2016, in the case of all other EU Member States (subject to on-going requirements to fulfill administrative obligations such as the reporting and exchange of information relating to, and accounting for withholding taxes on, payments made before those dates). The repeal is meant to prevent overlap between the Directive and a new automatic exchange of information regime to be implemented under Council Directive 2011/16/EU on Administrative Cooperation in the field of Taxation (as amended by Council Directive 2014/107/EU). The new regime under Council Directive 2011/16/EU (as amended) is in accordance with the Global Standard released by the Organization for Economic Co-operation and Development in July 2014. Council Directive 2011/16/EU (as amended) is generally broader in scope than the Directive, although it does not impose withholding taxes. See [EU Directive on the Taxation of Savings Income](#) in the accompanying prospectus.

**Table of Contents**

**UNDERWRITING (CONFLICTS OF INTEREST)**

We and the underwriter for the offering, Wells Fargo Securities, LLC, have entered into an underwriting agreement, dated May 13, 2016, with respect to the notes. Subject to certain conditions, the underwriter has agreed to purchase the aggregate principal amount of the notes.

Notes sold by the underwriter to the public will initially be offered at the public offering price set forth on the cover page of this prospectus supplement. Any notes sold by the underwriter to securities dealers may be sold at a discount from the initial public offering price of up to % of the principal amount of the notes. The underwriter may allow, and those dealers may reallow, a discount of % of the principal amount of the notes to other broker/dealers. If all the notes are not sold at the initial offering price, the underwriter may change the offering price and the other selling terms. The maximum discount or commission that may be received by any member of FINRA for sales of securities pursuant to the accompanying prospectus, together with the reimbursement of any counsel fees by us, will not exceed 8.00% of the initial gross proceeds from the sale of such securities.

The notes are a new issue of securities with no established trading market. We have been advised by the underwriter that the underwriter intends to make a market in the notes but is not obligated to do so and may discontinue market making at any time without notice. No assurance can be given as to the liquidity of the trading market for the notes.

In connection with the offering, the underwriter may purchase and sell notes in the open market. These transactions may include short sales, stabilizing transactions and purchases to cover positions created by short sales. Short sales involve the sale by the underwriter of a greater number of notes than the underwriter is required to purchase in the offering. Stabilizing transactions consist of certain bids or purchases made for the purpose of preventing or retarding a decline in the market price of the notes while the offering is in progress.

These activities by the underwriter may stabilize, maintain or otherwise affect the market price of the notes. As a result, the price of the notes may be higher than the price that otherwise might exist in the open market. If these activities are commenced, they may be discontinued by the underwriter at any time. These transactions may be effected in the over-the-counter market or otherwise.

We estimate that our share of the total expenses of the offering will be approximately \$25,000.

We have agreed to indemnify the underwriter against certain liabilities, including liabilities under the Securities Act of 1933, as amended.

The notes are offered for sale in the United States and elsewhere where such offer and sale is permitted.

The underwriting agreement provides that the underwriter is obligated to purchase all of the notes if any are purchased. The underwriting agreement may be terminated by the underwriter prior to the issuance of the notes in certain circumstances.

The underwriter, Wells Fargo Securities, LLC, is our affiliate. The distribution arrangements for this offering comply with the requirements of FINRA Rule 5121, regarding a FINRA member firm's participation in the distribution of securities of an affiliate. In accordance with Rule 5121, no FINRA member firm that has a conflict of interest under Rule 5121 may make sales in this offering to any discretionary account without the prior approval of the customer. Wells Fargo Securities, LLC may use this prospectus supplement and the accompanying prospectus in connection with offers and sales of the notes in the secondary market.

We expect that delivery of the notes will be made against payment therefor on or about the closing date specified on the cover page of this prospectus supplement, which will be on the seventh business day

## **Table of Contents**

following the date the notes are priced. Under Rule 15c6-1 of the Securities Exchange Act of 1934, trades in the secondary market generally are required to settle in three business days after the date the notes are priced, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade notes on the date of pricing or the next three succeeding business days will be required, by virtue of the fact that the notes will settle in T+7, to specify an alternative settlement cycle at the time of any such trade to prevent a failed settlement; such purchasers should also consult their own advisors in this regard.

### **Sales Restrictions**

The underwriter will agree that it will, to the best of its knowledge and belief, comply with all applicable securities laws and regulations in force in any jurisdiction in which it purchases, offers, sells or delivers the notes or possesses or distributes this prospectus supplement or the accompanying prospectus or any other offering material and will use its reasonable efforts to obtain any required consent, approval or permission for its purchase, offer, sale or delivery of such notes under the laws and regulations in force in any jurisdiction to which it is subject or in which it makes purchases, offers, sales or deliveries. We will not have any responsibility for the underwriter's compliance with applicable securities laws.

### ***Notice to Prospective Investors in Canada***

The notes may be sold only to purchasers purchasing, or deemed to be purchasing, as principal that are accredited investors, as defined in National Instrument 45-106 Prospectus Exemptions or subsection 73.3(1) of the Securities Act (Ontario), and are permitted clients, as defined in National Instrument 31-103 Registration Requirements, Exemptions and Ongoing Registrant Obligations. Any resale of the notes must be made in accordance with an exemption from, or in a transaction not subject to, the prospectus requirements of applicable securities laws.

Securities legislation in certain provinces or territories of Canada may provide a purchaser with remedies for rescission or damages if this prospectus supplement (including any amendment thereto) contains a misrepresentation, provided that the remedies for rescission or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser's province or territory. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser's province or territory for particulars of these rights or consult with a legal advisor.

Pursuant to section 3A.3 of National Instrument 33-105 Underwriting Conflicts (NI 33-105), the underwriter is not required to comply with the disclosure requirements of NI 33-105 regarding underwriter conflicts of interest in connection with this offering.

### ***Notice to Prospective Investors in the European Economic Area***

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a Relevant Member State), the underwriter has represented and agreed that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the Relevant Implementation Date), it has not made and will not make an offer of the notes which are the subject of the offering contemplated by this prospectus supplement to the public in that Relevant Member State other than:

to any legal entity which is a qualified investor as defined in the Prospectus Directive;

to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Directive), subject to obtaining the prior consent of the underwriter nominated by the issuer for any such offer; or

in any other circumstances falling within Article 3(2) of the Prospectus Directive;

## **Table of Contents**

provided that no such offer of notes shall require the issuer or the underwriter to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

For the purposes of this provision, the expression an offer of the notes to the public in relation to any notes in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the notes to be offered, so as to enable an investor to decide to purchase or subscribe to the notes, as the same may be varied in that Relevant Member State by any measure implementing the Prospectus Directive in that Relevant Member State, the expression Prospectus Directive means Directive 2003/71/EC (as amended, including by Directive 2010/73/EU), and includes any relevant implementing measure in the Relevant Member State.

This prospectus supplement has been prepared on the basis that all offers of the notes in any Relevant Member State will be made pursuant to an exemption under the Prospectus Directive from the requirement to publish a prospectus for offers of the notes. Accordingly, any person making or intending to make any offer of the notes in that Relevant Member State which are the subject of the offering contemplated in this prospectus supplement may only do so in circumstances in which no obligation arises for us, our affiliates or the underwriter to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive, in each case, in relation to such offer. Neither we nor the underwriter have authorized, nor will authorize, the making of any offer of the notes in circumstances in which an obligation arises for us or the underwriter to publish or supplement a prospectus pursuant to the Prospectus Directive for such offer.

### ***Notice to Prospective Investors in the United Kingdom***

In relation to the United Kingdom, the underwriter has represented and agreed with respect to the notes offered or sold by it, that:

in relation to any notes which have a maturity of less than one year, (1) it and each of its affiliates is a person whose ordinary activities involve it in acquiring, holding, managing or disposing of investments (as principal or agent) for the purposes of its business and (2) it and each of its affiliates has not offered or sold and will not offer or sell any notes other than to persons whose ordinary activities involve them acquiring, holding, managing or disposing of investments (as principal or agent) for the purposes of their businesses or who it is reasonable to expect will acquire, hold, manage or dispose of investments (as principal or agent) for the purposes of their businesses where the issue of the notes would otherwise constitute a contravention of Section 19 of the Financial Services and Markets Act 2000 (as amended) (the FSMA ) by us;

it and each of its affiliates has complied, and will comply, with all applicable provisions of the FSMA with respect to anything done by it in relation to the notes in, from or otherwise involving the United Kingdom; and

it and each of its affiliates has only communicated, or caused to be communicated, and will only communicate, or cause to be communicated, an invitation or inducement to engage in investment activity (within the meaning of Section 21 of the FSMA) received by it in connection with the issue or sale of the notes in circumstances in which Section 21(1) of the FSMA does not apply to it, its affiliates or us.

### ***Notice to Prospective Investors in Hong Kong***

The notes may not be offered or sold in Hong Kong by means of any document other than (i) in circumstances which do not constitute an offer to the public within the meaning of the Companies (Winding Up and Miscellaneous Provisions) Ordinance (Cap. 32, Laws of Hong Kong); (ii) to professional investors within the meaning of the Securities and Futures Ordinance (Cap. 571, Laws of Hong Kong) and any rules made

## **Table of Contents**

thereunder or (iii) in other circumstances which do not result in the document being a prospectus within the meaning of the Companies (Winding Up and Miscellaneous Provisions) Ordinance (Cap. 32, Laws of Hong Kong), and no advertisement, invitation or document relating to the notes may be issued or may be in the possession of any person for the purpose of issue (in each case whether in Hong Kong or elsewhere), which is directed at, or the contents of which are likely to be accessed or read by, the public in Hong Kong (except if permitted to do so under the laws of Hong Kong) other than with respect to notes which are or are intended to be disposed of only to persons outside Hong Kong or only to professional investors within the meaning of the Securities and Futures Ordinance (Cap. 571, Laws of Hong Kong) and any rules made thereunder.

### ***Notice to Prospective Investors in Singapore***

This prospectus supplement has not been registered as a prospectus with the Monetary Authority of Singapore. Accordingly, this prospectus supplement and any other document or material in connection with the offer or sale, or invitation for subscription or purchase, of the notes may not be circulated or distributed, nor may the notes be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to persons in Singapore other than (i) to an institutional investor under Section 274 of the Securities and Futures Act, Chapter 289 of Singapore (the SFA); (ii) to a relevant person pursuant to Section 275(1), or any person pursuant to Section 275(1A), and in accordance with the conditions specified in Section 275 of the SFA or (iii) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the SFA.

Where the notes are subscribed or purchased under Section 275 by a relevant person which is: (a) a corporation (which is not an accredited investor) the sole business of which is to hold investments and the entire share capital of which is owned by one or more individuals, each of whom is an accredited investor; or (b) a trust (where the trustee is not an accredited investor) whose sole purpose is to hold investments and each beneficiary is an accredited investor, shares, debentures and units of shares and debentures of that corporation or the beneficiaries' rights and interest in that trust shall not be transferable for 6 months after that corporation or that trust has acquired the notes under Section 275 except: (1) to an institutional investor under Section 274 of the SFA or to a relevant person pursuant to Section 275(2), or any person pursuant to Section 275(1A), and in accordance with the conditions, specified in Section 275 of the SFA; (2) where no consideration is given for the transfer; or (3) by operation of law.

### ***Notice to Prospective Investors in Japan***

The notes have not been and will not be registered under the Financial Instruments and Exchange Law of Japan (the Financial Instruments and Exchange Law) and the underwriter will represent and agree that it will not, directly or indirectly, offer or sell any notes in Japan or to, or for the benefit of, any resident of Japan (which term as used herein means any person resident in Japan, including any corporation or other entity organized under the laws of Japan), or to others for re-offering or resale, directly or indirectly, in Japan or to a resident of Japan, except pursuant to an exemption from the registration requirements of, and otherwise in compliance with, the Financial Instruments and Exchange Law and any other applicable laws, regulations and ministerial guidelines of Japan.

## **LEGAL MATTERS**

Faegre Baker Daniels LLP will issue an opinion about the legality of the notes. Certain legal matters will be passed upon for the underwriter by Gibson, Dunn & Crutcher LLP, San Francisco, California. Gibson, Dunn & Crutcher LLP represents us and certain of our subsidiaries in other legal matters.

We may also issue common stock upon conversion, exchange or exercise of any of the securities listed above. We will provide the specific terms of these securities in supplements to this prospectus. You should read this prospectus and the applicable prospectus supplement carefully before you invest.

Neither the Securities and Exchange Commission nor any state securities commission or other regulatory body has approved or disapproved of these securities or passed upon the accuracy or adequacy of this prospectus. Any representation to the contrary is a criminal offense.

These securities are our unsecured obligations and are not savings accounts, deposits or other obligations of any bank or nonbank subsidiary of Wells Fargo & Company and, unless otherwise specified in the applicable prospectus supplement, are not insured by the Federal Deposit Insurance Corporation, the Deposit Insurance Fund or any other governmental agency.

We will use this prospectus in the initial sale of these securities. In addition, Wells Fargo Advisors, LLC and Wells Fargo Securities, LLC, or another of our affiliates, may use this prospectus in a market-making transaction in any of these securities after their initial sale.

Investing in our securities involves risks. You should consider the risk factors described herein and in any documents that we incorporate by reference in this prospectus.

This prospectus is dated May 5, 2014.

**Table of Contents**

**ABOUT THIS PROSPECTUS**

This prospectus is part of a registration statement that Wells Fargo & Company filed with the Securities and Exchange Commission, or the SEC, using a shelf registration process. Under this shelf process, we may sell, either separately or together, debt securities, preferred stock, depositary shares, purchase contracts, units and securities warrants in one or more offerings. We may also issue common stock upon conversion, exchange or exercise of any of the securities mentioned above.

This prospectus provides you with a general description of the debt securities, preferred stock, depositary shares, purchase contracts, units and securities warrants that we may issue. Each time we sell securities, we will provide a prospectus supplement that will contain specific information about the terms of that offering. Such prospectus supplement may also add, update or change information contained in this prospectus. You should read this prospectus and the applicable prospectus supplement together with the additional information described under the heading Where You Can Find More Information. We may also prepare free writing prospectuses that describe particular securities. Any free writing prospectus should also be read in connection with this prospectus and with any prospectus supplement referred to therein. For purposes of this prospectus, any reference to an applicable prospectus supplement may also refer to a free writing prospectus, unless the context otherwise requires.

When we refer to Wells Fargo, our company, we, our and us in this prospectus under the headings The Company, Ratios of Earnings to Fixed Charges and to Fixed Charges and Preferred Stock Dividends, we mean Wells Fargo & Company and its subsidiaries unless the context indicates otherwise. When such terms are used elsewhere in this prospectus, we refer only to Wells Fargo & Company unless the context indicates otherwise.

The registration statement that contains this prospectus, including the exhibits to the registration statement, contains additional information about us and the securities offered under this prospectus. That registration statement can be read at the SEC web site or at the SEC offices mentioned under the heading Where You Can Find More Information.

The distribution of this prospectus and the applicable prospectus supplement and the offering of the securities in certain jurisdictions may be restricted by law. Persons into whose possession this prospectus and the applicable prospectus supplement come should inform themselves about and observe any such restrictions. This prospectus and the applicable prospectus supplement do not constitute, and may not be used in connection with, an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not authorized or in which the person making such offer or solicitation is not qualified to do so or to any person to whom it is unlawful to make such offer or solicitation.

**WHERE YOU CAN FIND MORE INFORMATION**

We file annual, quarterly and special reports, proxy statements and other information with the SEC. Our SEC filings are available to the public over the Internet at the SEC's web site at <http://www.sec.gov>. You may also read and copy any document we file with the SEC at its Public Reference Room at 100 F Street, N.E., Washington, D.C. 20549. You can also obtain copies of the documents at prescribed rates by writing to the Office of Investor Education and Advocacy of the SEC at 100 F Street, N.E., Washington, D.C. 20549. Please call the SEC at 1-800-SEC-0330 for further information on the operation of the public reference facilities. Our SEC filings are also available at the offices of the New York Stock Exchange. For further information on obtaining copies of our public filings at the New York Stock Exchange, you should call (212) 656-3000.

We incorporate by reference into this prospectus the information we file with the SEC, which means that we can disclose important information to you by referring you to those documents. The information incorporated by reference is an important part of this prospectus. Some information contained in this prospectus updates the information incorporated by reference, and information that we file subsequently with the SEC will automatically update this prospectus. In other words, in the case of a conflict or inconsistency between information set forth in this prospectus and/or information incorporated by reference into this prospectus, you should rely on the information contained in the document that was filed later. We incorporate by reference the documents listed below and any filings we make with the SEC under Sections 13(a), 13(c), 14, or 15(d) of the Securities Exchange Act of 1934, as amended, or the Exchange Act, after the date of this prospectus and prior to the later of (i) the time that we sell all the securities offered by this prospectus and (ii) the date that our broker-dealer subsidiaries cease offering securities in market-making transactions pursuant to this prospectus (other than any documents or any portions of any documents that are not deemed filed under the Exchange Act in accordance with the Exchange Act and applicable SEC rules):

Annual Report on Form 10-K for the year ended December 31, 2013, including information specifically incorporated by reference into our Form 10-K from our 2013 Annual Report to Stockholders and our definitive Proxy Statement for our 2014 Annual Meeting of Stockholders;

Current Reports on Form 8-K filed January 3, 2014, January 9, 2014, January 9, 2014, January 14, 2014, January 24, 2014, January 28, 2014, January 28, 2014, January 29, 2014, January 31, 2014, February 3, 2014, February 5, 2014, February 6, 2014, February 20, 2014, February 26, 2014, March 4, 2014, March 6, 2014, March 13, 2014, March 18, 2014, March 27, 2014, March 31, 2014, April 2, 2014, April 3, 2014, April 8, 2014, April 10, 2014, April 11, 2014, April 22, 2014, April 22, 2014, April 23, 2014, April 25, 2014 and May 2, 2014; and

the description of our common stock contained in exhibit 99(e) to our Quarterly Report on Form 10-Q for the quarter ended March 31, 2003, including any amendment or report filed to update such description.

You should rely only on the information incorporated by reference or presented in this prospectus or the applicable prospectus supplement. Neither we, nor any underwriters or agents, have authorized anyone else to provide you with different information. We may only use this prospectus to sell securities if it is accompanied by a prospectus supplement. We are only offering these securities in jurisdictions where the offer is permitted. You should not assume that the information in this prospectus or the applicable prospectus supplement is accurate as of any date other than the dates on the front of those documents.

**THE COMPANY**

We are a diversified, community-based financial services company organized under the laws of the State of Delaware and registered as a financial holding company and a bank holding company under the Bank Holding Company Act of 1956, as amended. We provide banking, insurance, trust and investments, mortgage banking, investment banking, retail banking, brokerage and consumer finance through banking stores and offices, ATMs, the internet and other distribution channels to individuals, businesses and institutions in all 50 states, the District of Columbia and elsewhere internationally to support customers who conduct business in the global economy.

We are a separate and distinct legal entity from our banking and other subsidiaries. A significant source of funds to pay dividends on our common and preferred stock and debt service on our debt is dividends from our subsidiaries. Various federal and state statutes and regulations limit the amount of dividends that our banking and other subsidiaries may pay to us without regulatory approval.

**Table of Contents**

**USE OF PROCEEDS**

Unless the applicable prospectus supplement states otherwise, the net proceeds from the sale of the offered securities will be added to our general funds and will be available for general corporate purposes, including, but not limited to, the following:

investments in or advances to our existing or future subsidiaries;

repayment of obligations that have matured; and

reducing our outstanding commercial paper and other debt.

Until the net proceeds have been used, they will be invested in short-term securities.

Table of Contents

**RATIOS OF EARNINGS TO FIXED CHARGES AND TO FIXED CHARGES  
AND PREFERRED STOCK DIVIDENDS**

	Fiscal Year Ended December 31,				
	2013	2012	2011	2010	2009
<b>Ratio of Earnings to Fixed Charges:</b>					
Excluding interest on deposits	10.68	8.40	5.92	4.32	3.64
Including interest on deposits	7.91	6.08	4.32	3.21	2.68
<b>Ratio of Earnings to Fixed Charges and Preferred Stock Dividends:</b>					
Excluding interest on deposits	7.36	6.21	4.69	3.61	1.90
Including interest on deposits	5.99	4.90	3.67	2.84	1.69

The ratio of earnings to fixed charges is calculated as follows:  
(income before income tax expense)

(net income from noncontrolling interests) +  
(fixed charges)

(fixed charges)

The ratio of earnings to fixed charges and preferred stock dividends is calculated as follows:  
(income before income taxes tax expense)

(net income from noncontrolling interests) +

(fixed charges)

(fixed charges) + (pretax earnings required to cover preferred stock dividends)

Pretax earnings required to cover preferred stock dividends are calculated as follows:  
preferred stock dividends

1 (our effective income tax rate)

Fixed charges, excluding interest on deposits, consist of

interest on short-term borrowings and long-term debt,  
amortization of debt expense,  
capitalized interest, and  
one-third of net rental expense, which we believe is representative of the interest factor.

Fixed charges, including interest on deposits, consist of all of the items listed immediately above plus interest on deposits.

6

**Table of Contents**

The preferred dividends, including accretion, were increased to amounts representing the pretax earnings that would be required to cover such dividend and accretion requirements.

We have included these ratios to comply with SEC regulations. However, we believe that the fixed charge ratios are not meaningful measures for our business due to two factors. First, even if our net income did not change, our ratios would decline if the proportion of our income that is tax-exempt increased. Conversely, our ratios would increase if the proportion of our income that is tax-exempt decreased. Second, even if our net income did not change, our ratios would decline if our interest income and interest expense increased by the same amount due to an increase in the level of interest rates. Conversely, our ratios would increase if our interest income and interest expense decreased by the same amount due to a decrease in the level of interest rates.

**Table of Contents**

**RISK FACTORS**

Your investment in our securities involves risks. This prospectus does not describe all of those risks. Before purchasing any securities, you should carefully consider the following risk factors, in addition to the other information contained or incorporated by reference in this prospectus, including the risk factors contained in our annual and quarterly reports. **Additional risks specific to particular securities will be detailed in the applicable prospectus supplement.** You should consult your financial, legal, tax and other professional advisors as to the risks associated with an investment in our securities and the suitability of the investment for you.

**General**

**The Securities Are Subject To The Credit Risk Of Wells Fargo.**

Any securities that we may issue are our obligations and are not, either directly or indirectly, an obligation of any third party. Any amounts payable under any securities are subject to our creditworthiness. As a result, our actual and perceived creditworthiness may affect the value of our securities and, in the event we were to default on our obligations, you may not receive any amounts owed to you under the terms of such securities.

**The Securities May Not Be Listed On Any Securities Exchange And An Active Trading Market For The Securities May Not Develop.**

Any securities that we issue will constitute a new issue of securities with no established trading market. The securities may not be listed or displayed on any securities exchange or any automated quotation system. Even if the securities are listed on a securities exchange or automated quotation system, such listing does not guarantee that a trading market will develop. Although underwriters, dealers or agents, as applicable, may purchase our securities from you, they are not obligated to do so and are not required to make a market for our securities. As such, there can be no assurance that a secondary market will develop. Because we do not expect that any market makers will participate in a secondary market for our securities, the price at which you may be able to sell your securities is likely to depend on the price, if any, at which an underwriter, dealer or agent, as applicable, is willing to buy your securities. If a secondary market does exist, it may be limited. Accordingly, there may be a limited number of buyers if you decide to sell your securities, and no assurance can be given as to the liquidity of any trading market for the securities or the price you receive upon a sale of your securities.

**One Of Our Affiliates May Act As The Calculation Agent Or Quotation Agent In Connection With An Issuance Of Securities And, As A Result, Potential Conflicts Of Interest Could Arise.**

One of our affiliates may act as the calculation agent or quotation agent in connection with an issuance of securities. Although any affiliate will exercise its judgment in good faith when performing its functions, potential conflicts of interest may exist between such affiliate and you.

**Table of Contents**

**If The Securities We Issue May Be Redeemed At Our Option, You May Not Be Able To Reinvest The Redemption Price You Receive In A Similar Security.**

The terms of our securities may permit us to redeem the securities, subject to any required regulatory approval. Any such redemption may occur at a time when prevailing interest rates are relatively low. As a result, if we redeem our securities, you may not be able to reinvest the redemption price you receive in a similar security.

**Foreign Currency Risks**

You should consult your financial and legal advisors as to any specific risks entailed by an investment in securities that are denominated or payable in a currency other than the currency of the country in which you are resident or in which you conduct your business, which we refer to as your home currency. These securities are not appropriate investments for investors who are not sophisticated in foreign currency transactions. We disclaim any responsibility to advise prospective purchasers who are residents of countries other than the United States of any matters arising under non-U.S. law that may affect the purchase of or holding of, or the receipt of payments on, these securities. These persons should consult their own legal and financial advisors concerning these matters.

**Exchange Rates And Exchange Controls May Affect Securities Value Or Return**

*General Exchange Rate And Exchange Control Risks.* An investment in a security that is denominated or payable in currencies other than your home currency entails significant risks. These risks include the possibility of significant changes in rates of exchange between your home currency and the relevant foreign currencies and the possibility of the imposition or modification of exchange controls by the relevant governmental entities. These risks generally depend on economic and political events over which we have no control.

*Exchange Rates Will Affect Your Investment.* In recent years, rates of exchange between some currencies have been highly volatile and this volatility may continue in the future. Fluctuations in any particular exchange rate that have occurred in the past are not necessarily indicative, however, of fluctuations that may occur during the term of any security. Depreciation of the currency in which a security is payable against your home currency would result in a decrease in the effective yield of the security below its coupon rate or in the payout of the security and could result in an overall loss to you on a home currency basis.

*There May Be Specific Exchange Rate Risks Applicable To Warrants And Purchase Contracts.* Fluctuations in the rates of exchange between your home currency and other currency (i) in which the exercise price of a warrant or the purchase price of a purchase contract is payable, (ii) in which the value of the property underlying a warrant or purchase contract is quoted or (iii) to be purchased or sold by exercise of a warrant or pursuant to a purchase contract or in the rates of exchange among any of these currencies may change the value of a warrant, a purchase contract or a unit that includes a warrant or purchase contract. You could lose money on your investment as a result of these fluctuations, even if the spot

## **Table of Contents**

price of the property underlying the warrant or purchase contract were such that the warrant or purchase contract appeared to be in the money.

*We Have No Control Over Exchange Rates.* Currency exchange rates can either float or be fixed by sovereign governments. Exchange rates of most economically developed nations are permitted to fluctuate in value relative to each other. However, from time to time governments may use a variety of techniques, such as intervention by a country's central bank, the imposition of regulatory controls or taxes or changes in interest rates to influence the exchange rates of their currencies. Governments may also issue a new currency to replace an existing currency or alter the exchange rate or relative exchange characteristics by a devaluation or revaluation of a currency. These governmental actions could change or interfere with currency valuations and currency fluctuations that would otherwise occur in response to economic forces, as well as in response to the movement of currencies across borders.

As a consequence, these government actions could adversely affect yields or payouts in your home currency for (i) securities denominated or payable in currencies other than your home currency, (ii) warrants or purchase contracts where the exercise price or the purchase price is denominated in a currency differing from your home currency or where the value of the property underlying the warrants or purchase contracts is quoted in a currency other than your home currency and (iii) warrants or purchase contracts to purchase or sell foreign currency.

We will not make any adjustment or change in the terms of the securities in the event that exchange rates should become fixed, or in the event of any devaluation or revaluation or imposition of exchange or other regulatory controls or taxes, or in the event of other developments affecting your home currency or any specified foreign currency. You will bear those risks.

*Some Foreign Currencies May Become Unavailable.* Governments have imposed from time to time, and may in the future impose, exchange controls that could also affect the availability of a specified currency. Even if there are no actual exchange controls, it is possible that the specified currency for any security would not be available when payments on that security are due.

*Alternative Payment Currency Used If Payment Currency Becomes Unavailable.* Unless otherwise specified in the applicable prospectus supplement, if a payment currency is unavailable, we will make required payments in U.S. dollars on the basis of the market exchange rate. However, if the specified currency for any security is not available because the euro has been substituted for that currency, we will make the payments in euro. The mechanisms for making payments in these alternative currencies are explained in *Description of Debt Securities Interest and Principal Payments* below.

### **Currency Conversions May Affect Payments On Some Securities**

The applicable prospectus supplement may provide for (i) payments on a non-U.S. dollar denominated security to be made in U.S. dollars or (ii) payments on a U.S. dollar denominated security to be made in a currency other than U.S. dollars. In these cases, the

**Table of Contents**

exchange agent identified in the applicable prospectus supplement will convert the currencies. You will bear the costs of conversion through deductions from those payments.

**Exchange Rates May Affect the Value Of A New York Judgment Involving Non-U.S. Dollar Denominated Securities**

The securities will be governed by and construed in accordance with the laws of the State of New York. If a New York court were to enter a judgment in an action on any securities denominated in a foreign currency, such court would either enter a judgment in U.S. dollars based on the prevailing rate of exchange between the foreign currency and the U.S. dollar on the date such judgment is entered or enter judgment in the foreign currency and convert the judgment or decree into U.S. dollars at the prevailing rate of exchange on the date such judgment or decree is entered.

**Table of Contents**

**DESCRIPTION OF DEBT SECURITIES**

This section describes the general terms and provisions of our debt securities, which could be senior debt securities or subordinated debt securities. The prospectus supplement will describe the specific terms of the debt securities offered through that prospectus supplement and any general terms outlined in this section that will not apply to those debt securities.

Unless otherwise specified in the applicable prospectus supplement, the senior debt securities will be issued under an indenture dated as of July 21, 1999 between us and Citibank, N.A., as senior trustee, referred to herein as the senior indenture, and the subordinated debt securities will be issued under an indenture dated as of August 30, 1999 between us and The Bank of New York Mellon Trust Company, National Association (as successor in interest to The Bank of New York Trust Company, N.A., as successor in interest to J.P. Morgan Trust Company, National Association, as successor in interest to Bank One Trust Company, N.A., as successor in interest to The First National Bank of Chicago), as subordinated trustee, referred to herein as the subordinated indenture.

We have summarized the material terms and provisions of the senior and subordinated indentures in this section. We have also filed each of these indentures as exhibits to the registration statement of which this prospectus is a part. You should read the applicable indenture for additional information before you buy any debt securities. The summary that follows includes references to section numbers of these indentures so that you can more easily locate these provisions.

**General**

The debt securities will be our direct unsecured obligations. Neither of the indentures limits the amount of debt securities that we may issue. Both indentures permit us to issue debt securities from time to time and debt securities issued under an indenture will be issued as part of a series that has been established by us under such indenture. (Section 301)

The senior debt securities will be unsecured and will rank equally with all of our other unsecured unsubordinated debt. The subordinated debt securities will be unsecured and will rank equally with all of our other subordinated debt securities and, together with such other subordinated debt securities, will be subordinated to all of our existing and future Senior Debt. See Subordination below. Holders of our debt securities may be fully subordinated to interests held by the U.S. government in the event that we enter into a receivership, insolvency, liquidation or similar proceeding.

The debt securities are our unsecured senior or subordinated debt securities, as the case may be, but our assets consist primarily of equity in our subsidiaries. We are a separate and distinct legal entity from our subsidiaries. As a result, our ability to make payments on our debt securities depends on our receipt of dividends, loan payments and other funds from our subsidiaries. Various federal and state statutes and regulations limit the amount of dividends that our banking and other subsidiaries may pay us without regulatory approval. In addition, if any of our subsidiaries becomes insolvent, the direct creditors of that subsidiary will have a

**Table of Contents**

prior claim on its assets. Our rights and the rights of our creditors, including your rights as an owner of our debt securities, will be subject to that prior claim, unless we are also a direct creditor of that subsidiary. This subordination of creditors of a parent company to prior claims of creditors of its subsidiaries is commonly referred to as structural subordination.

Unless otherwise specified in the applicable prospectus supplement, we may, without the consent of the holders of a series of debt securities, issue additional debt securities of that series having the same ranking and the same interest rate, maturity date and other terms (except for the price to public and issue date) as such debt securities. Any such additional debt securities, together with the initial debt securities, will constitute a single series of debt securities under the applicable indenture. No additional debt securities of a series may be issued if an event of default under the applicable indenture has occurred and is continuing with respect to that series of debt securities.

A prospectus supplement relating to a series of debt securities being offered will include specific terms relating to the offering. (Section 301) These terms will include some or all of the following:

the title and type of the debt securities;

any limit on the total principal amount of the debt securities of that series;

the price at which the debt securities will be issued;

the date or dates on which the principal of and any premium on the debt securities will be payable;

the maturity date or dates of the debt securities or the method by which those dates can be determined;

if the debt securities will bear interest:

the interest rate on the debt securities or the method by which the interest rate may be determined;

the date from which interest will accrue;

the record and interest payment dates for the debt securities;

the first interest payment date; and

any circumstances under which we may defer interest payments;

if the amount of principal or interest payable on the debt securities will be determined by reference to one or more securities, indices, exchange traded funds, commodities or currencies, or baskets comprised of any of the foregoing, or any other market measure, information as to such market measures;

any terms on which the debt securities may be optionally or mandatorily converted or exchanged into or for stock or other securities of an entity

**Table of Contents**

unaffiliated with us, any specific terms relating to the adjustment of the conversion or exchange feature and the period during which the holders may make the conversion or the exchange;

the place or places where:

we can make payments on the debt securities;  
the debt securities can be surrendered for registration of transfer or exchange; and  
notices and demands can be given to us relating to the debt securities and under the applicable indenture;

any optional provisions that would permit us to elect redemption of the debt securities, or the holders of the debt securities to elect repayment of the debt securities, before their final maturity;

any sinking fund provisions that would obligate us to redeem the debt securities before their final maturity;

whether the debt securities will be convertible into shares of common stock, shares of preferred stock or depositary shares and, if so, the terms and conditions of any such conversion, and, if convertible into shares of preferred stock or depositary shares, the terms of such preferred stock or depositary shares;

if the debt securities will be issued in bearer form, the terms and provisions contained in the bearer securities and in the applicable indenture specifically relating to the bearer securities;

the currency or currencies in which the debt securities will be denominated and payable, if other than U.S. dollars and, if a composite currency, any special provisions relating thereto;

any circumstances under which the debt securities may be paid in a currency other than the currency in which the debt securities are denominated and any provisions relating thereto;

whether the provisions described below under the heading **Defeasance** will not apply to the debt securities;

any events of default which will apply to the debt securities in addition to those contained in the applicable indenture;

any additions or changes to the covenants contained in the applicable indenture and the ability, if any, of the holders to waive our compliance with those additional or changed covenants;

**Table of Contents**

the identity of the security registrar and paying agent for the debt securities if other than Wells Fargo Bank, N.A., one of our affiliates;

any special tax implications of the debt securities;

any special provisions relating to the payment of any additional amounts on the debt securities;

the terms of any securities being offered together with or separately from the debt securities; and

any other terms of the debt securities.

When we use the term holder in this prospectus with respect to a registered debt security, we mean the person in whose name such debt security is registered in the security register. (Section 101) A global security is a debt security that we issue in accordance with the applicable indenture to represent all or part of a series of debt securities.

**Exchange and Transfer**

Any debt securities of a series can be exchanged for other debt securities of that series so long as the other debt securities are denominated in authorized denominations and have the same aggregate principal amount and same terms as the debt securities that were surrendered for exchange. The debt securities may be presented for registration of transfer, duly endorsed or accompanied by a satisfactory written instrument of transfer, at the office or agency maintained by us for that purpose in Minneapolis, Minnesota or any other place of payment. However, holders of global securities may transfer and exchange global securities only in the manner and to the extent set forth under Book Entry, Delivery and Form below. There will be no service charge for any registration of transfer or exchange of the debt securities, but we may require holders to pay any tax or other governmental charge payable in connection with a transfer or exchange of the debt securities. (Sections 305, 1002) If the applicable prospectus supplement refers to any office or agency, in addition to the security registrar, initially designated by us where holders can surrender the debt securities for registration of transfer or exchange, we may at any time rescind the designation of any such office or agency or approve a change in the location. However, we will be required to maintain an office or agency in each place of payment for that series. (Section 1002)

We will not be required to:

register the transfer of or exchange debt securities to be redeemed for a period of fifteen calendar days preceding the mailing of the relevant notice of redemption; or

register the transfer of or exchange any registered debt security selected for redemption, in whole or in part, except the unredeemed or unpaid portion of that registered debt security being redeemed in part. (Section 305)

## **Table of Contents**

### **Interest and Principal Payments**

*Payments.* Holders may present debt securities for payment of principal, premium, if any, and interest, if any, register the transfer of the debt securities and exchange the debt securities at the agency in Minneapolis, Minnesota maintained by us for that purpose. On the date of this prospectus, the paying agent for the debt securities issued under the indentures is Wells Fargo Bank, N.A., acting through its corporate trust office at 625 Marquette Avenue, Minneapolis, MN 55479. We refer to Wells Fargo Bank, N.A., acting in this capacity for the debt securities, as the paying agent.

Any money that we pay to the paying agent for the purpose of making payments on the debt securities and that remains unclaimed two years after the payments were due will, at our request, be returned to us and after that time any holder of a debt security can only look to us for the payments on the debt security. (Section 1003)

Although we anticipate making payments of principal, premium, if any, and interest, if any, on most debt securities in U.S. dollars, some debt securities may be payable in foreign currencies as specified in the applicable prospectus supplement. Currently, few facilities exist in the United States to convert U.S. dollars into foreign currencies and vice versa. In addition, most U.S. banks do not offer non-U.S. dollar denominated checking or savings account facilities. Accordingly, unless alternative arrangements are made, we will pay principal, premium, if any, and interest, if any, on debt securities that are payable in a foreign currency to an account at a bank outside the United States, which, in the case of a debt security payable in euro, will be made by credit or transfer to a euro account specified by the payee in a country for which the euro is the lawful currency.

*Recipients of Payments.* The paying agent will pay interest to the person in whose name the debt security is registered at the close of business on the applicable record date. Unless otherwise specified in the applicable prospectus supplement, the record date for any interest payment date is the date 15 calendar days prior to that interest payment date, whether or not that day is a business day. However, upon maturity, redemption or repayment, the paying agent will pay any interest due to the person to whom it pays the principal of the debt security. The paying agent will make the payment on the date of maturity, redemption or repayment, whether or not that date is an interest payment date. The paying agent will make the initial interest payment on a debt security on the first interest payment date falling after the date of issuance, unless the date of issuance is less than 15 calendar days before an interest payment date. In that case, the paying agent will pay interest or, in the case of an amortizing debt security, principal and interest, on the next succeeding interest payment date to the holder of record on the record date corresponding to the succeeding interest payment date. An interest payment date for any debt security means a date on which, under the terms of that debt security, regularly scheduled interest is payable.

*Book-Entry Debt Securities.* The paying agent will make payments of principal, premium, if any, and interest, if any, to the account of The Depository Trust Company, referred to herein as DTC, or other depository specified in the applicable prospectus

**Table of Contents**

supplement, as holder of book-entry debt securities, by wire transfer of immediately available funds. We expect that the depository, upon receipt of any payment, will immediately credit its participants' accounts in amounts proportionate to their respective beneficial interests in the book-entry debt securities as shown on the records of the depository. We also expect that payments by the depository's participants to owners of beneficial interests in the book-entry debt securities will be governed by standing customer instructions and customary practices and will be the responsibility of those participants.

*Certificated Debt Securities.* Except as indicated below for payments of interest at maturity, redemption or repayment, the paying agent will make U.S. dollar payments of interest either:

by check mailed to the address of the person entitled to payment as shown on the security register;  
or

by wire transfer to an account designated by a holder, if the holder has given written notice not later than 10 calendar days prior to the applicable interest payment date. (Section 307)

U.S. dollar payments of principal, premium, if any, and interest, if any, upon maturity, redemption or repayment on a debt security will be made in immediately available funds against presentation and surrender of the debt security at the office of the paying agent.

*Unavailability of Foreign Currency.* The relevant specified currency may not be available to us for making payments of principal of, premium, if any, or interest, if any, on any debt security. This could occur due to the imposition of exchange controls or other circumstances beyond our control or if the specified currency is no longer used by the government of the country issuing that currency or by public institutions within the international banking community for the settlement of transactions. If the specified currency is unavailable, we may satisfy our obligations to holders of the debt securities by making those payments on the date of payment in U.S. dollars on the basis of the noon dollar buying rate in New York, New York for cable transfers of the currency or currencies in which a payment on any debt security was to be made, published by the Federal Reserve Bank of New York, which we refer to as the market exchange rate. If that rate of exchange is not then available or is not published for a particular payment currency, the market exchange rate will be based on the highest bid quotation in New York, New York received by the exchange rate agent at approximately 11:00 a.m., New York City time, on the second business day preceding the applicable payment date from three recognized foreign exchange dealers for the purchase by the quoting dealer:

of the specified currency for U.S. dollars for settlement on the payment date;

in the aggregate amount of the specified currency payable to those holders or beneficial owners of debt securities; and

at which the applicable dealer commits to execute a contract.

**Table of Contents**

One of the dealers providing quotations may be the exchange rate agent appointed by us unless the exchange rate agent is our affiliate. If those bid quotations are not available, the exchange rate agent will determine the market exchange rate at its sole discretion.

These provisions do not apply if a specified currency is unavailable because it has been replaced by the euro. Unless otherwise specified in the applicable prospectus supplement, if the euro has been substituted for a specified currency, the debt securities will be redenominated in euro on a date determined by us, with a principal amount for each debt security equal to the principal amount of that debt security in the specified currency, converted into euro at the established rate (as defined below); provided that, if we determine after consultation with the paying agent that the then-current market practice in respect of redenomination into euro of internationally offered securities is different from the provisions specified above, such provisions will be deemed to be amended so as to comply with such market practice and we will promptly notify the applicable trustee and the paying agent of such deemed amendment. The established rate means the rate for the conversion of the specified currency (including compliance with rules relating to rounding in accordance with applicable European Union regulations) into euro established by the Council of European Union pursuant to the Treaty establishing the European Communities, as amended by the Treaty on European Union. We will give 30 days notice of the redenomination date to the paying agent and the applicable trustee.

Any payment made in U.S. dollars or in euro as described above where the required payment is in an unavailable specified currency will not constitute an event of default under the applicable indenture.

*Discount Debt Securities.* Some debt securities may be considered to be issued with original issue discount, which in most cases must be included in income for U.S. federal income tax purposes at a constant yield. We refer to these debt securities as discount notes. See the discussion under Certain U.S. Federal Income Tax Considerations below. In the event of a redemption or repayment of any discount note or if the principal of any debt security that is considered to be issued with original issue discount is declared to be due and payable immediately as described under Events of Default below, the amount of principal due and payable on that debt security will be limited to:

the aggregate principal amount of the debt security multiplied by the sum of

its issue price, expressed as a percentage of the aggregate principal amount, plus

the original issue discount amortized from the date of issue to the date of declaration, expressed as a percentage of the aggregate principal amount.

For purposes of determining the amount of original issue discount that has accrued as of any date on which a redemption, repayment or acceleration of maturity occurs for a discount note, original issue discount will be accrued using a constant yield method. The constant yield will be calculated using a 30-day month, 360-day year convention, a compounding period that,

**Table of Contents**

except for the initial period (as defined below), corresponds to the shortest period between interest payment dates for the applicable discount note (with ratable accruals within a compounding period), and an assumption that the maturity of a discount note will not be accelerated. If the period from the date of issue to the first interest payment date for a discount note (the initial period) is shorter than the compounding period for the discount note, a proportionate amount of the yield for an entire compounding period will be accrued. If the initial period is longer than the compounding period, then the period will be divided into a regular compounding period and a short period with the short period being treated as provided in the preceding sentence. The accrual of the applicable original issue discount discussed above may differ from the accrual of original issue discount for purposes of the Internal Revenue Code of 1986, as amended (the Code), certain discount notes may not be treated as having original issue discount within the meaning of the Code, and debt securities other than discount notes may be treated as issued with original issue discount for federal income tax purposes. See the discussion under Certain U.S. Federal Income Tax Considerations below. In addition, see the applicable prospectus supplement for any additional considerations applicable to these debt securities.

*Certain Definitions.* The following are definitions of certain terms we use in this prospectus when discussing principal and interest payments on the debt securities:

A business day means any day, other than a Saturday or Sunday, (i) that is neither a legal holiday nor a day on which banking institutions are authorized or required by law or regulation to close (a) in New York, New York, (b) for debt securities denominated in a specified currency other than U.S. dollars, euro or Australian dollars, in the principal financial center of the country of the specified currency, or (c) for debt securities denominated in Australian dollars, in Sydney, Australia, (ii) for debt securities denominated in euro, that is also a TARGET Settlement Day and (iii) for debt securities with a base rate of LIBOR, that is also a London banking day.

The depository means the depository for global securities issued under an indenture and, unless provided otherwise in the applicable prospectus supplement, means DTC.

Euro LIBOR debt securities means LIBOR debt securities for which the index currency is euros.

London banking day means any day on which commercial banks and foreign exchange markets settle payments in London.

TARGET Settlement Day means any day on which the Trans-European Automated Real-time Gross Settlement Express Transfer System is open.

References in this prospectus to U.S. dollar, or U.S.\$ or \$ are to the currency of the United States of America. References in this prospectus to euro are to the single currency introduced at the commencement of the third stage of the European Economic and Monetary Union pursuant to the Treaty establishing the European Community, as amended. References in this prospectus to £, pounds sterling or sterling are to the currency of the United Kingdom.

## **Table of Contents**

### **Fixed Rate Debt Securities**

Each fixed rate debt security will bear interest from the date of issuance at the annual rate specified in the applicable prospectus supplement until the principal is paid or made available for payment. Unless otherwise specified in the applicable prospectus supplement, the following provisions will apply to fixed rate debt securities offered pursuant to this prospectus.

*How Interest Is Calculated.* Interest on fixed rate debt securities will be computed on the basis of a 360-day year of twelve 30-day months.

*How Interest Accrues.* Interest on fixed rate debt securities will accrue from and including the most recent interest payment date to which interest has been paid or duly provided for or, if no interest has been paid or duly provided for, from and including the issue date or any other date specified in a prospectus supplement on which interest begins to accrue. Interest will accrue to but excluding the next interest payment date or, if earlier, the date on which the principal has been paid or duly made available for payment, except as described below under *If A Payment Date Is Not A Business Day*.

*When Interest Is Paid.* Payments of interest on fixed rate debt securities will be made on the interest payment dates specified in the applicable prospectus supplement. However, if the first interest payment date is less than 15 days after the issue date, interest will not be paid on the first interest payment date, but will be paid on the second interest payment date.

*Amount Of Interest Payable.* Interest payments for fixed rate debt securities will include accrued interest from and including the issue date or from and including the last interest payment date in respect of which interest has been paid or provided for, as the case may be, to but excluding the relevant interest payment date or date of maturity or earlier redemption or repayment, as the case may be.

*If A Payment Date Is Not A Business Day.* If any scheduled interest payment date is not a business day, we will pay interest on the next business day, but interest on that payment will not accrue during the period from and after the scheduled interest payment date. If the scheduled maturity date or date of redemption or repayment is not a business day, we may pay interest, if any, and principal and premium, if any, on the next business day, but interest on that payment will not accrue during the period from and after the scheduled maturity date or date of redemption or repayment.

*Amortizing Debt Securities.* A fixed rate debt security may pay a level amount in respect of both interest and principal amortized over the life of the debt security. Payments of principal and interest on amortizing debt securities will be made on the interest payment dates specified in the applicable prospectus supplement, and at maturity or upon any earlier redemption or repayment. Payments on amortizing debt securities will be applied first to interest due and payable and then to the reduction of the unpaid principal amount. We will provide to the original purchaser, and will furnish to subsequent holders upon request to us, a table setting forth repayment information for each amortizing debt security.

**Table of Contents**

**Floating Rate Debt Securities**

Unless otherwise specified in the applicable prospectus supplement, the following provisions will apply to floating rate debt securities offered pursuant to this prospectus.

Each floating rate debt security will mature on the date specified in the applicable prospectus supplement.

Each floating rate debt security will bear interest at a floating rate determined by reference to an interest rate or interest rate formula, which we refer to as the base rate. The base rate may be one or more of the following:

the CD rate;

the commercial paper rate;

EURIBOR;

the federal funds rate;

the federal funds (open) rate;

LIBOR;

the prime rate;

the Treasury rate;

the CMT rate; or

any other rate or interest rate formula specified in the applicable prospectus supplement.

*Formula For Interest Rates.* The interest rate on each floating rate debt security will be calculated by reference to:

the specified base rate based on the index maturity;

plus or minus the spread, if any; and/or

multiplied by the spread multiplier, if any.

For any floating rate debt security, index maturity means the period of maturity of the instrument or obligation from which the base rate is calculated and will be specified in the applicable prospectus supplement. The spread is the number of basis points (one one-hundredth of a percentage point) specified in the applicable prospectus supplement to be added to or subtracted from the base rate for a floating rate debt security. The spread multiplier is the percentage that may be specified in the applicable prospectus supplement to

**Table of Contents**

be applied to the base rate for a floating rate debt security. The interest rate on any inverse floating rate debt security will also be calculated by reference to a fixed rate.

*Limitations On Interest Rate.* A floating rate debt security may also have either or both of the following limitations on the interest rate:

a maximum limitation, or ceiling, on the rate of interest which may accrue during any interest reset period, which we refer to as the maximum interest rate ; and/or

a minimum limitation, or floor, on the rate of interest that may accrue during any interest reset period, which we refer to as the minimum interest rate.

Any applicable maximum interest rate or minimum interest rate will be set forth in the applicable prospectus supplement.

New York State law governs the indentures under which the debt securities will be issued. New York has usury laws that limit the amount of interest that can be charged and paid on loans, which includes floating rate debt securities. Under present New York usury law, the maximum permissible rate of interest, subject to some exceptions, is 16% per annum on a simple interest basis for debt securities in which less than \$250,000 has been invested and 25% per annum on a simple interest basis for debt securities in which \$250,000 or more has been invested. This limit may not apply to floating rate debt securities in which \$2,500,000 or more has been invested.

*How Floating Interest Rates Are Reset.* The interest rate in effect from the issue date to the first interest reset date for a floating rate debt security will be the initial interest rate specified in the applicable prospectus supplement. We refer to this rate as the initial interest rate. The interest rate on each floating rate debt security may be reset daily, weekly, monthly, quarterly, semiannually or annually. This period is the interest reset period and the first day of each interest reset period is the interest reset date. The interest determination date for any interest reset date is the day the calculation agent will refer to when determining the new interest rate at which a floating rate will reset, and is applicable as follows:

for federal funds rate debt securities, federal funds (open) rate debt securities and prime rate debt securities, the interest determination date will be on the business day prior to the interest reset date;

for CD rate debt securities, commercial paper rate debt securities and CMT rate debt securities, the interest determination date will be the second business day prior to the interest reset date;

for EURIBOR debt securities or Euro LIBOR debt securities, the interest determination date will be the second TARGET Settlement Day prior to the interest reset date;

for LIBOR debt securities (other than Euro LIBOR debt securities), the interest determination date will be the second London banking day prior to the interest

**Table of Contents**

reset date, except that the interest determination date pertaining to the interest reset date for a LIBOR debt security for which the index currency is pounds sterling will be the interest reset date;

for Treasury rate debt securities, the interest determination date will be the day of the week in which the interest reset date falls on which Treasury bills would normally be auctioned. Treasury bills are normally sold at auction on Monday of each week, unless that day is a legal holiday, in which case the auction is normally held on the following Tuesday, except that the auction may be held on the preceding Friday; provided, however, that if an auction is held on the Friday of the week preceding the interest reset date, the interest determination date will be that preceding Friday; and provided, further, that if Treasury bills are sold at an auction that falls on a day that is an interest reset date, that interest reset date will be the following business day; and

for debt securities with two or more base rates, the interest determination date will be the latest business day that is at least two business days before the applicable interest reset date on which each base rate is determinable.

The interest reset dates will be specified in the applicable prospectus supplement. If an interest reset date for any floating rate debt security falls on a day that is not business day, it will be postponed to the following business day, except that, in the case of a EURIBOR debt security or a LIBOR debt security, if that business day is in the next calendar month, the interest reset date will be the immediately preceding business day.

In the detailed descriptions of the various base rates which follow, the calculation date pertaining to an interest determination date means the earlier of (i) the tenth calendar day after that interest determination date or, if that day is not a business day, the next business day, or (ii) the business day immediately preceding the applicable interest payment date or maturity date or, for any principal amount to be redeemed or repaid, any redemption or repayment date.

The interest rate in effect for the ten calendar days immediately prior to maturity, redemption or repayment will be the one in effect on the tenth calendar day preceding the maturity, redemption or repayment date.

*How Interest Is Calculated.* Interest on floating rate debt securities will accrue from and including the most recent interest payment date to which interest has been paid or duly provided for or, if no interest has been paid or duly provided for, from and including the issue date or any other date specified in a prospectus supplement on which interest begins to accrue. Interest will accrue to but excluding the next interest payment date or, if earlier, the date on which the principal has been paid or duly made available for payment, except as described below under **If A Payment Date Is Not A Business Day.**

Unless otherwise specified in the applicable prospectus supplement, the calculation agent for any issue of floating rate debt securities will be Wells Fargo Bank, N.A., one of our affiliates. We may appoint a successor calculation agent with the written consent of the paying

**Table of Contents**

agent, which consent shall not be unreasonably withheld. Upon the request of the holder of any floating rate debt security, the calculation agent will provide the interest rate then in effect and, if determined, the interest rate that will become effective on the next interest reset date for the floating rate debt security. The calculation agent will notify the paying agent of each determination of the interest rate applicable to any floating rate debt security promptly after the determination is made.

For a floating rate debt security, accrued interest will be calculated by multiplying the principal amount of the floating rate debt security by an accrued interest factor. This accrued interest factor will be computed by adding the interest factors calculated for each day in the period for which interest is being paid. The interest factor for each day is computed by dividing the interest rate applicable to that day:

by 360, in the case of CD rate debt securities, commercial paper rate debt securities, EURIBOR debt securities, federal funds rate debt securities, federal funds (open) rate debt securities, LIBOR debt securities, except for LIBOR debt securities denominated in pounds sterling, and prime rate debt securities;

by 365 (or 366 if the last day of the interest period falls in a leap year), in the case of LIBOR debt securities denominated in pounds sterling; or

by the actual number of days in the year, in the case of Treasury rate debt securities and CMT rate debt securities.

For these calculations, the interest rate in effect on any interest reset date will be the applicable rate as reset on that date. The interest rate applicable to any other day is the interest rate from the immediately preceding interest reset date or, if none, the initial interest rate.

All percentages used in or resulting from any calculation of the rate of interest on a floating rate debt security will be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point, with .000005% rounded up to .00001%, and all U.S. dollar amounts used in or resulting from these calculations on floating rate debt securities will be rounded to the nearest cent, with one-half cent rounded upward. All Japanese Yen amounts used in or resulting from these calculations will be rounded downward to the next lower whole Japanese Yen amount. All amounts denominated in any other currency used in or resulting from these calculations will be rounded to the nearest two decimal places in that currency, with .005 rounded up to .01.

*When Interest Is Paid.* We will pay interest on floating rate debt securities on the interest payment dates specified in the applicable prospectus supplement. However, if the first interest payment date is less than 15 days after the issue date, interest will not be paid on the first interest payment date, but will be paid on the second interest payment date.

*If A Payment Date Is Not A Business Day.* If any interest payment date, other than the maturity date or any earlier redemption or repayment date, for any floating rate debt security falls on a day that is not a business day, it will be postponed to the following business day,

**Table of Contents**

except that, in the case of a EURIBOR debt security or a LIBOR debt security, if that business day would fall in the next calendar month, the interest payment date will be the immediately preceding business day. If the maturity date or any earlier redemption or repayment date of a floating rate debt security falls on a day that is not a business day, the payment of principal, premium, if any, and interest, if any, will be made on the next business day, but interest on that payment will not accrue during the period from and after the maturity, redemption or repayment date, as the case may be.

*Base Rates.*

CD Rate Debt Securities. CD rate debt securities will bear interest at the interest rates specified in the applicable prospectus supplement. Those interest rates will be based on the CD rate and any spread and/or spread multiplier and will be subject to the minimum interest rate and the maximum interest rate, if any.

The CD rate means, for any interest determination date, the rate on that date for negotiable U.S. dollar certificates of deposit having the index maturity specified in the applicable prospectus supplement as published by the Board of Governors of the Federal Reserve System in Statistical Release H. 15 (519), Selected Interest Rates, or any successor publication of the Board of Governors of the Federal Reserve System (H.15 (519)) under the heading CDs (Secondary Market).

The following procedures will be followed if the CD rate cannot be determined as described above:

If the above rate is not published in H.15(519) by 3:00 p.m., New York City time, on the calculation date, the CD rate will be the rate on that interest determination date set forth in the daily update of H.15(519), available through the website of the Board of Governors of the Federal Reserve System at <http://www.federalreserve.gov/releases/h15/update>, or any successor site or publication, which is commonly referred to as the H.15 Daily Update, for the interest determination date for certificates of deposit having the index maturity specified in the applicable prospectus supplement, under the caption CDs (Secondary Market).

If the above rate is not yet published in either H.15(519) or the H.15 Daily Update by 3:00 p.m., New York City time, on the calculation date, the calculation agent will determine the CD rate to be the arithmetic mean of the secondary market offered rates as of 10:00 a.m., New York City time, on that interest determination date of three leading nonbank dealers in negotiable U.S. dollar certificates of deposit in New York, New York, which may include the underwriters or agents for the debt securities or their affiliates, selected by the calculation agent, after consultation with us, for negotiable U.S. dollar certificates of deposit of major U.S. money center banks of the highest credit standing in the market for negotiable certificates of deposit with a remaining

**Table of Contents**

maturity closest to the index maturity specified in the applicable prospectus supplement in an amount that is representative for a single transaction in that market at that time.

If the dealers selected by the calculation agent are not quoting as set forth above, the CD rate for that interest determination date will remain the CD rate for the immediately preceding interest reset period, or, if none, the rate of interest payable will be the initial interest rate.

**Commercial Paper Rate Debt Securities.** Commercial paper rate debt securities will bear interest at the interest rates specified in the applicable prospectus supplement. Those interest rates will be based on the commercial paper rate and any spread and/or spread multiplier and will be subject to the minimum interest rate and the maximum interest rate, if any.

The commercial paper rate means, for any interest determination date, the money market yield, calculated as described below, of the rate on that date for U.S. dollar commercial paper having the index maturity specified in the applicable prospectus supplement, as that rate is published in H.15(519), under the heading Commercial Paper Nonfinancial or Commercial Paper Financial, as specified in the applicable prospectus supplement.

The following procedures will be followed if the commercial paper rate cannot be determined as described above:

If the above rate is not published by 3:00 p.m., New York City time, on the calculation date, then the commercial paper rate will be the money market yield of the rate on that interest determination date for commercial paper of the index maturity specified in the applicable prospectus supplement as published in the H.15 Daily Update, or other recognized electronic source used for the purpose of displaying the applicable rate, under the heading Commercial Paper Nonfinancial or Commercial Paper Financial, as specified in the applicable prospectus supplement.

If by 3:00 p.m., New York City time, on that calculation date the rate is not yet published in either H.15(519) or the H.15 Daily Update, or other recognized electronic source used for the purpose of displaying the applicable rate, then the calculation agent will determine the commercial paper rate to be the money market yield of the arithmetic mean of the offered rates as of 11:00 a.m., New York City time, on that interest determination date of three leading dealers of U.S. dollar commercial paper in New York, New York, which may include the underwriters or agents for the debt securities or their affiliates, selected by the calculation agent, after consultation with us, for commercial paper of the index maturity specified in the applicable prospectus supplement, placed for an industrial issuer whose bond rating is Aa, or the equivalent, from a nationally recognized statistical rating agency.

If the dealers selected by the calculation agent are not quoting as set forth above, the commercial paper rate for the interest determination date will remain

**Table of Contents**

the commercial paper rate for the immediately preceding interest reset period, or, if none, the rate of interest payable will be the initial interest rate.

The money market yield will be a yield calculated in accordance with the following formula:

$$\text{money market yield} = \frac{D \times 360}{360 (D \times M)} \times 100$$

where D refers to the applicable per year rate for commercial paper quoted on a bank discount basis and expressed as a decimal and M refers to the actual number of days in the interest period for which interest is being calculated.

EURIBOR Debt Securities. EURIBOR debt securities will bear interest at the interest rates specified in the applicable prospectus supplement. That interest rate will be based on EURIBOR and any spread and/or spread multiplier and will be subject to the minimum interest rate and the maximum interest rate, if any.

EURIBOR means, for any interest determination date, the rate for deposits in euros as sponsored, calculated and published jointly by the European Banking Federation and ACI – The Financial Market Association, or any company established by the joint sponsors for purposes of compiling and publishing those rates, for the index maturity specified in the applicable prospectus supplement as that rate appears on the display on Reuters 3000 Xtra Service (Reuters), or any successor service, on page EURIBOR01 or any other page as may replace page EURIBOR01 on that service, which is commonly referred to as Reuters Page EURIBOR01, as of 11:00 a.m., Brussels time.

The following procedures will be followed if EURIBOR cannot be determined as described above:

If the above rate does not appear on Reuters Page EURIBOR01 on an interest determination date at approximately 11:00 a.m., Brussels time, the calculation agent will request the principal Euro-Zone office of each of four major banks in the Euro-Zone interbank market, as selected by the calculation agent, after consultation with us, to provide the calculation agent with its offered rate for deposits in euros, at approximately 11:00 a.m., Brussels time, on the interest determination date, to prime banks in the Euro-Zone interbank market for the index maturity specified in the applicable prospectus supplement commencing on the applicable interest reset date, and in a principal amount not less than the equivalent of 1 million that is representative of a single transaction in euro, in that market at that time. If at least two quotations are provided, EURIBOR will be the arithmetic mean of those quotations.

If fewer than two quotations are provided, then the calculation agent, after consultation with us, will select four major banks in the Euro-Zone

**Table of Contents**

interbank market to provide a quotation of the rate offered by them, at approximately 11:00 a.m., Brussels time, on the applicable interest determination date for loans in euro to leading European banks for a period of time equivalent to the index maturity specified in the applicable prospectus supplement commencing on that interest reset date in a principal amount not less than the equivalent of 1 million. EURIBOR will be the arithmetic mean of those quotations.

If at least three quotations are not provided, EURIBOR for that interest determination date will remain EURIBOR for the immediately preceding interest reset period, or, if none, the rate of interest payable will be the initial interest rate.

Euro-Zone means the region comprising member states of the European Union that have adopted the single currency in accordance with the relevant treaty of the European Union, as amended.

Federal Funds Rate Debt Securities. Federal funds rate debt securities will bear interest at the interest rates specified in the applicable prospectus supplement. Those interest rates will be based on the federal funds rate and any spread and/or spread multiplier and will be subject to the minimum interest rate and the maximum interest rate, if any.

The federal funds rate means, for any interest determination date, the rate on that date for U.S. dollar federal funds as published in H.15(519) under the heading Federal Funds (Effective) as displayed on Reuters, or any successor service, on page FEDFUNDS1 or any other page as may replace the applicable page on that service, which is commonly referred to as Reuters Page FEDFUNDS1.

The following procedures will be followed if the federal funds rate cannot be determined as described above:

If the above rate is not published in H.15(519) by 3:00 p.m., New York City time, on the calculation date, or does not appear on Reuters Page FEDFUNDS1, the federal funds rate will be the rate on that interest determination date as published in the H.15 Daily Update, or other recognized electronic source used for the purpose of displaying the applicable rate, under the heading Federal Funds (Effective).

If the above rate is not yet published in either H.15(519) or the H.15 Daily Update, or other recognized electronic source used for the purpose of displaying the applicable rate, by 3:00 p.m., New York City time, on the calculation date, the calculation agent will determine the federal funds rate to be the arithmetic mean of the rates for the last transaction in overnight U.S. dollar federal funds prior to 9:00 a.m., New York City time, on the business day following that interest determination date, by each of three leading brokers of U.S. dollar federal funds transactions in New York, New York, which may

**Table of Contents**

include the underwriters or agents for the debt securities or their affiliates, selected by the calculation agent, after consultation with us.

If fewer than three brokers selected by the calculation agent are not quoting as set forth above, the federal funds rate for that interest determination date will remain the federal funds rate for the immediately preceding interest reset period, or, none, the rate of interest payable will be the initial interest rate.

**Federal Funds (Open) Rate Debt Securities.** Federal funds (open) rate debt securities will bear interest at the interest rates specified in the applicable prospectus supplement. Those interest rates will be based on the federal funds (open) rate and any spread and/or spread multiplier and will be subject to the minimum interest rate and the maximum interest rate, if any.

The federal funds (open) rate means, for any interest determination date, the federal funds rate on that date set forth opposite the caption Open as displayed on Reuters, or any successor service, on page 5 or any other page as may replace the applicable page on that service, which is commonly referred to as Reuters Page 5.

The following procedures will be followed if the federal funds (open) rate cannot be determined as described above:

If the above rate is not published by 3:00 p.m., New York City time, on the calculation date, the federal funds (open) rate will be the rate on that interest determination date displayed on FFPREBON Index Page on Bloomberg L.P. (Bloomberg), which is the Fed Funds Opening Rate as reported by Prebon Yamane, or any successor service, on Bloomberg.

If the above rate is not displayed on the FFPREBON Index Page on Bloomberg, or other recognized electronic source used for the purpose of displaying the applicable rate, by 3:00 p.m., New York City time, on the calculation date, the calculation agent will determine the federal funds (open) rate to be the arithmetic mean of the rates for the last transaction in overnight U.S. dollar federal funds prior to 9:00 a.m., New York City time, on that interest determination date, by each of three leading brokers of U.S. dollar federal funds transactions in New York, New York, which may include the underwriters or agents for the debt securities and their affiliates, selected by the calculation agent, after consultation with us.

If fewer than three brokers selected by the calculation agent are not quoting as set forth above, the federal funds (open) rate for that interest determination date will remain the federal funds (open) rate for the immediately preceding interest reset period, or, if none, the rate of interest payable will be the initial interest rate.

**LIBOR Debt Securities.** LIBOR debt securities will bear interest at the interest rates specified in the applicable prospectus supplement. That interest rate will be based on London

**Table of Contents**

Interbank Offered Rate, which is commonly referred to as LIBOR, and any spread and/or spread multiplier and will be subject to the minimum interest rate and the maximum interest rate, if any.

The calculation agent will determine LIBOR for each interest determination date as follows:

LIBOR means, for any interest determination date, the arithmetic mean of the offered rates for deposits in the index currency having the index maturity designated in the applicable prospectus supplement, commencing on the second London banking day immediately following that interest determination date or, if pounds sterling is the index currency, commencing on that interest determination date, that appear on the Designated LIBOR Page as of 11:00 a.m., London time, on that interest determination date, if at least two offered rates appear on the Designated LIBOR Page, provided that if the specified Designated LIBOR Page by its terms provides only for a single rate, that single rate will be used.

If (i) fewer than two offered rates appear or (ii) no rate appears and the Designated LIBOR Page by its terms provides only for a single rate, then the calculation agent will request the principal London offices of each of four major banks in the London Interbank market, as selected by the calculation agent, to provide the calculation agent with its offered quotation for deposits in the index currency for the period of the index maturity specified in the applicable prospectus supplement commencing on the second London banking day immediately following the interest determination date or, if pounds sterling is the index currency, commencing on that interest determination date, to prime banks in the London Interbank market at approximately 11:00 a.m., London time, on that interest determination date and in a principal amount that is representative of a single transaction in that index currency in that market at that time. If at least two quotations are provided, LIBOR determined on that interest determination date will be the arithmetic mean of those quotations.

If fewer than two quotations are provided, LIBOR will be determined for the applicable interest reset date as the arithmetic mean of the rates quoted at approximately 11:00 a.m., or some other time specified in the applicable prospectus supplement, in the applicable principal financial center for the country of the index currency on that interest determination date, by three major banks in that principal financial center selected by the calculation agent for loans in the index currency to leading European banks, having the index maturity specified in the applicable prospectus supplement and in a principal amount that is representative of a single transaction in that index currency in that market at that time.

If the banks so selected by the calculation agent are not quoting as set forth above, LIBOR for that interest determination date will remain LIBOR for the immediately preceding interest reset period, or, if none, the rate of interest payable will be the initial interest rate.

**Table of Contents**

The index currency means the currency specified in the applicable prospectus supplement as the currency for which LIBOR will be calculated or, if the euro is substituted for that currency, the index currency will be the euro. If that currency is not specified in the applicable prospectus supplement, the index currency will be U.S. dollars.

Designated LIBOR Page means the display on Reuters, or any successor service, on page LIBOR01, or any other page as may replace that page on that service, for the purpose of displaying the London Interbank rates for the applicable index currency.

Prime Rate Debt Securities. Prime rate debt securities will bear interest at the interest rates specified in the applicable prospectus supplement. That interest rate will be based on the prime rate and any spread and/or spread multiplier, and will be subject to the minimum interest rate and the maximum interest rate, if any.

The prime rate means, for any interest determination date, the rate on that date as published in H.15 (519) prior to 3:00 p.m., New York City time, on the related calculation date, under the heading Bank Prime Loan.

The following procedures will be followed if the prime rate cannot be determined as described above:

If the above rate is not published in H.15 (519) prior to 3:00 p.m., New York City time, on the calculation date, then the prime rate will be the rate on that interest determination date as published in H.15 Daily Update, or any other recognized electronic source used for the purposes of displaying the applicable rate, under the heading Bank Prime Loan.

If the rate is not published in either H.15 (519) or the H.15 Daily Update or another recognized electronic source by 3:00 p.m., New York City time, on the calculation date, then the calculation agent will determine the prime rate to be the arithmetic mean of the rates of interest publicly announced by each bank that appears on the Reuters Screen USPRIME 1 Page, as defined below, as that bank's prime rate or base lending rate as in effect as of 11:00 a.m., New York City time, for that interest determination date.

If fewer than four rates for that interest determination date appear on the Reuters Screen USPRIME 1 Page by 3:00 p.m., New York City time, on the calculation date, the calculation agent will determine the prime rate to be the arithmetic mean of the prime rates quoted or base lending rates furnished in New York City by three substitute major banks or trust companies (all organized under the laws of the United States or any of its states and having total equity capital of at least \$500,000,000), selected by the calculation agent, after consultation with us.

If the banks selected by the calculation agent are not quoting as set forth above, the prime rate for that interest determination date will remain the prime rate for

---

**Table of Contents**

the immediately preceding interest reset period, or, if none, the rate of interest payable will be the initial interest rate.

Reuters Screen USPRIME 1 Page means the display designated as page USPRIME 1 on the Reuters Monitor Money Rate Service, or any successor service, or any other page as may replace the USPRIME 1 Page on that service for the purpose of displaying prime rates or base lending rates of major U.S. banks.

Treasury Rate Debt Securities. Treasury rate debt securities will bear interest at the interest rates specified in the applicable prospectus supplement. That interest rate will be based on the Treasury rate and any spread and/or spread multiplier and will be subject to the minimum interest rate and the maximum interest rate, if any.

The Treasury rate means:

the rate from the auction held on the applicable interest determination date, which we refer to as the auction, of direct obligations of the United States, which are commonly referred to as Treasury Bills, having the index maturity specified in the applicable prospectus supplement as that rate appears under the caption INVESTMENT RATE on the display on Reuters, or any successor service, on page USAUCTION 10 or any other page as may replace page USAUCTION 10 on that service, which we refer to as Reuters Page USAUCTION 10, or page USAUCTION 11 or any other page as may replace page USAUCTION 11 on that service, which we refer to as Reuters Page USAUCTION 11 ; or

if the rate described in the first bullet point is not published by 3:00 p.m., New York City time, on the calculation date, the bond equivalent yield of the rate for the applicable Treasury Bills as published in the H.15 Daily Update, or other recognized electronic source used for the purpose of displaying the applicable rate, under the caption U.S. Government Securities/Treasury Bills/Auction High ; or

if the rate described in the second bullet point is not published by 3:00 p.m., New York City time, on the related calculation date, the bond equivalent yield of the auction rate of the applicable Treasury Bills, announced by the United States Department of the Treasury; or

if the rate referred to in the third bullet point is not announced by the United States Department of the Treasury, or if the auction is not held, the bond equivalent yield of the rate on the applicable interest determination date of Treasury Bills having the index maturity specified in the applicable prospectus supplement published in H.15(519) under the caption U.S. Government Securities/Treasury Bills/Secondary Market ; or

if the rate referred to in the fourth bullet point is not so published by 3:00 p.m., New York City time, on the related calculation date, the rate on the applicable

**Table of Contents**

interest determination date of the applicable Treasury Bills as published in H.15 Daily Update, or other recognized electronic source used for the purpose of displaying the applicable rate, under the caption U.S. Government Securities/Treasury Bills/Secondary Market ; or

if the rate referred to in the fifth bullet point is not so published by 3:00 p.m., New York City time, on the related calculation date, the rate on the applicable interest determination date calculated by the calculation agent as the bond equivalent yield of the arithmetic mean of the secondary market bid rates, as of approximately 3:30 p.m., New York City time, on the applicable interest determination date, of three primary U.S. government securities dealers, which may include the underwriters or agents for the debt securities or their affiliates, selected by the calculation agent after consultation with us, for the issue of Treasury Bills with a remaining maturity closest to the index maturity specified in the applicable prospectus supplement; or

if the dealers selected by the calculation agent are not quoting as set forth above, the Treasury rate for that interest determination date will remain the Treasury rate for the immediately preceding interest reset period, or, if none, the rate of interest payable will be the initial interest rate.

The bond equivalent yield means a yield calculated in accordance with the following formula and expressed as a percentage:

$$\text{bond equivalent yield} = \frac{D \times N}{360 (D \times M)} \times 100$$

where D refers to the applicable per annum rate for Treasury Bills quoted on a bank discount basis, N refers to 365 or 366, as the case may be, and M refers to the actual number of days in the interest period for which interest is being calculated.

CMT Rate Debt Securities. CMT rate debt securities will bear interest at the interest rates specified in the applicable prospectus supplement. That interest rate will be based on the CMT rate and any spread and/or spread multiplier and will be subject to the minimum interest rate and the maximum interest rate, if any.

The CMT rate means, for any interest determination date, the rate displayed on the Designated CMT Reuters Page, as defined below, under the caption Treasury Constant Maturities Federal Reserve Board Release H.15 Mondays Approximately 3:45 p.m., under the column for the Designated CMT Maturity Index, as defined below, for:

the rate on that interest determination date, if the Designated CMT Reuters Page is FRBCMT; and

the week or the month, as applicable, ended immediately preceding the week in which the related interest determination date occurs, if the Designated CMT Reuters Page is FEDCMT.

**Table of Contents**

The following procedures will be followed if the CMT rate cannot be determined as described above:

If the above rate is no longer displayed on the relevant page, or if not displayed by 3:00 p.m., New York City time, on the related calculation date, then the CMT rate will be the Treasury Constant Maturity rate for the Designated CMT Maturity Index as published in the relevant H.15(519).

If the above rate described in the first bullet point is no longer published, or if not published by 3:00 p.m., New York City time, on the related calculation date, then the CMT rate will be the Treasury Constant Maturity rate for the Designated CMT Maturity Index or other U.S. Treasury rate for the Designated CMT Maturity Index on the interest determination date as may then be published by either the Board of Governors of the Federal Reserve System or the United States Department of the Treasury that the calculation agent determines to be comparable to the rate formerly displayed on the Designated CMT Reuters Page and published in the relevant H.15(519).

If the information described in the second bullet point is not provided by 3:00 p.m., New York City time, on the related calculation date, then the calculation agent will determine the CMT rate to be a yield to maturity, based on the arithmetic mean of the secondary market closing offer side prices as of approximately 3:30 p.m., New York City time, on the interest determination date, reported, according to their written records, by three leading primary U.S. government securities dealers, which we refer to as a reference dealer, in New York, New York, which may include the underwriters or agents for the debt securities or their affiliates, selected by the calculation agent as described in the following sentence. The calculation agent will select five reference dealers, after consultation with us, and will eliminate the highest quotation or, in the event of equality, one of the highest, and the lowest quotation or, in the event of equality, one of the lowest, for the most recently issued direct noncallable fixed rate obligations of the United States, which are commonly referred to as Treasury notes, with an original maturity of approximately the Designated CMT Maturity Index, a remaining term to maturity of no more than 1 year shorter than that Designated CMT Maturity Index and in a principal amount that is representative for a single transaction in the securities in that market at that time. If two Treasury notes with an original maturity as described above have remaining terms to maturity equally close to the Designated CMT Maturity Index, the quotes for the Treasury note with the shorter remaining term to maturity will be used.

If the calculation agent cannot obtain three Treasury notes quotations as described in the immediately preceding bullet point, the calculation agent will determine the CMT rate to be a yield to maturity based on the arithmetic mean of the secondary market offer side prices as of approximately 3:30 p.m., New York

## **Table of Contents**

City time, on the interest determination date of three reference dealers in New York, New York, selected using the same method described in the immediately preceding bullet point, for Treasury notes with an original maturity equal to the number of years closest to but not less than the Designated CMT Maturity Index and a remaining term to maturity closest to the Designated CMT Maturity Index and in a principal amount that is representative for a single transaction in the securities in that market at that time.

If three or four, and not five, of the reference dealers are quoting as described above, then the CMT rate will be based on the arithmetic mean of the offer prices obtained and neither the highest nor the lowest of those quotes will be eliminated.

If fewer than three reference dealers selected by the calculation agent are quoting as described above, the CMT rate for that interest determination date will remain the CMT rate for the immediately preceding interest reset period, or, if none, the rate of interest payable will be the initial interest rate.

Designated CMT Reuters Page means the display on Reuters, or any successor service, on the page designated in the applicable prospectus supplement or any other page as may replace that page on that service for the purpose of displaying Treasury Constant Maturities as reported in H.15(519). If no page is specified in the applicable prospectus supplement, the Designated CMT Reuters Page will be FEDCMT, for the most recent week.

Designated CMT Maturity Index means the original period to maturity of the U.S. Treasury securities, which is either 1, 2, 3, 5, 7, 10, 20 or 30 years, as specified in the applicable prospectus supplement, for which the CMT rate will be calculated. If no maturity is specified in the applicable prospectus supplement, the Designated CMT Maturity Index will be two years.

## **Redemption and Repayment**

*Optional Redemption By Us.* If applicable, the prospectus supplement will indicate the terms of our option to redeem the debt securities. We will mail a notice of redemption to each holder which, in the case of global securities, will be the depositary, as holder of the global securities, by first-class mail, postage prepaid, at least 30 days and not more than 60 days prior to the date fixed for redemption, or within the redemption notice period designated in the applicable prospectus supplement, to the address of each holder as that address appears upon the books maintained by the security registrar. The debt securities, except for amortizing debt securities, will not be subject to any sinking fund.

A partial redemption of the debt securities may be effected by such method as the applicable trustee shall deem fair and appropriate and may provide for the selection for redemption of a portion of the principal amount of debt securities held by a holder equal to an authorized denomination. If we redeem less than all of the debt securities and the debt securities are then held in book-entry form, the redemption will be made in accordance with

**Table of Contents**

the depository's customary procedures. We have been advised that it is DTC's practice to determine by lot the amount of each participant in the debt securities to be redeemed.

Unless we default in the payment of the redemption price, on and after the redemption date interest will cease to accrue on the debt securities called for redemption.

*Optional Make-Whole Redemption of Debt Securities.* If the applicable prospectus supplement provides that a series of debt securities is redeemable at our option and also provides for the payment of a redemption premium, the following provisions will apply unless otherwise specified in the applicable prospectus supplement. Upon redemption of such debt securities, we will pay a redemption price equal to the greater of the following amounts, plus, in each case, accrued and unpaid interest thereon to the redemption date:

100% of the principal amount of the debt securities to be redeemed, and

the sum of the present values of the remaining scheduled payments.

In determining the present values of the remaining scheduled payments, we will discount such payments to the redemption date on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) using a discount rate equal to the treasury rate plus the spread specified in the applicable prospectus supplement.

The following terms are relevant to the determination of the redemption price:

Treasury rate means, with respect to any redemption date, the rate per annum equal to the semi-annual equivalent yield to maturity of the comparable treasury issue. In determining this rate, we will assume a price for the comparable treasury issue (expressed as a percentage of its principal amount) equal to the comparable treasury price for such redemption date.

Comparable treasury issue means the United States Treasury security selected by the quotation agent as having an actual or interpolated maturity comparable to the remaining term of the debt securities to be redeemed that would be utilized, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of comparable maturity to the remaining term of such debt securities.

Quotation agent means Wells Fargo Securities, LLC, or if that firm is unwilling or unable to select the comparable treasury issue, an investment banking institution of national standing appointed by us.

Comparable treasury price means (A) the arithmetic average of the reference treasury dealer quotations for such redemption date after excluding the highest and lowest reference treasury dealer quotations, or (B) if the quotation agent obtains fewer than three reference treasury dealer quotations, the arithmetic average of all reference treasury dealer quotations for such redemption date.

Reference treasury dealer quotations means, with respect to each reference treasury dealer and any redemption date, the arithmetic average, as determined by the quotation agent,

**Table of Contents**

of the bid and asked prices for the comparable treasury issue (expressed in each case as a percentage of its principal amount) quoted in writing to the quotation agent by such reference treasury dealer at 5:00 p.m. on the third business day preceding such redemption date.

Reference treasury dealer means primary U.S. Government securities dealers in New York City ( primary treasury dealers ) selected by the quotation agent after consultation with us.

Remaining scheduled payments means, with respect to any debt security to be redeemed, the remaining scheduled payments of the principal and interest thereon that would be due after the related redemption date but for such redemption; provided, however, that, if such redemption date is not an interest payment date with respect to such debt security, the amount of the next scheduled interest payment thereon will be reduced by the amount of interest accrued thereon to such redemption date.

The quotation agent is our affiliate and, as such, the economic interests of Wells Fargo Securities, LLC may be adverse to your interests as a holder of debt securities subject to our redemption, including with respect to certain determinations and judgments it must make as quotation agent in the event we redeem such debt securities before their maturity. Wells Fargo Securities, LLC is obligated to carry out its duties and functions as quotation agent in good faith.

*Repayment At Option Of Holder.* If applicable, the prospectus supplement relating to a series of debt securities will indicate that the holder has the option to have us repay the debt security on a date or dates specified prior to its stated maturity date. Unless otherwise specified in the applicable prospectus supplement, the repayment price will be equal 100% of the principal amount of the debt security, together with accrued interest, if any, to the date of repayment. For debt securities issued with original issue discount, the prospectus supplement will specify the amount payable upon repayment.

For us to repay a debt security, the paying agent must receive at least 30 days but not more than 45 days prior to the repayment date:

the debt security with the form entitled Option to Elect Repayment on the reverse of debt security duly completed; or

a telegram, telex, facsimile transmission or a letter from a member of a national securities exchange, or the Financial Industry Regulatory Authority ( FINRA ) or a commercial bank or trust company in the United States setting forth the name of the holder of the debt security, the principal amount of the debt security, the principal amount of the debt security to be repaid, the certificate number or a description of the tenor and terms of the debt security, a statement that the option to elect repayment is being exercised and a guarantee that the debt security to be repaid, together with the duly completed form entitled Option to Elect Repayment on the reverse of the debt security, will be received by the paying agent not later than the fifth business day after the date of the telegram, telex, facsimile transmission or letter. However, the telegram, telex, facsimile transmission or letter will only be effective if that debt security

## **Table of Contents**

and form duly completed are received by the paying agent by the fifth business day after the date of that telegram, telex, facsimile transmission or letter.

Exercise of the repayment option by the holder of a debt security will be irrevocable. The holder may exercise the repayment option for less than the entire principal amount of the debt security but, in that event, the principal amount of the debt security remaining outstanding after repayment must be an authorized denomination.

If a debt security is represented by a global security, the depositary or the depositary's nominee will be the holder of the debt security and therefore will be the only entity that can exercise a right to repayment. In order to ensure that the depositary's nominee will timely exercise a right to repayment of a particular debt security, the beneficial owner of the debt security must instruct the broker or other direct or indirect participant through which it holds an interest in the debt security to notify the depositary of its desire to exercise a right to repayment. Different firms have different cut-off times for accepting instructions from their customers and, accordingly, each beneficial owner should consult the broker or other direct or indirect participant through which it holds an interest in a debt security in order to ascertain the cut-off time by which an instruction must be given in order for timely notice to be delivered to the depositary.

We may purchase debt securities at any price in the open market or otherwise. Debt securities so purchased by us may, at our discretion, be held or resold or surrendered to the applicable trustee for cancellation.

## **Denominations**

Unless we state otherwise in the applicable prospectus supplement, the debt securities will be issued only in registered form, without coupons, in denominations of \$1,000 each and integral multiples of \$1,000 in excess thereof.

## **Bearer Debt Securities**

If we ever issue bearer debt securities, the applicable prospectus supplement will describe all of the special terms and provisions of debt securities in bearer form, and the extent to which those special terms and provisions are different from the terms and provisions which are described in this prospectus, which generally apply to debt securities in registered form, and will summarize provisions of the applicable indenture that relate specifically to bearer debt securities.

## **Original Issue Discount**

Debt securities may be issued under the indentures as original issue discount securities and sold at a substantial discount below their stated principal amount. If a debt security is an original issue discount security, that means that an amount less than the principal amount of the debt security will be due and payable upon a declaration of acceleration of the maturity of the debt security under the applicable indenture. (Section 101) See Interest and Principal

Payments Discount Debt Securities and Certain U.S. Federal Income Tax Considerations for the federal income tax consequences and other special factors you should consider before purchasing any original issue discount securities.

**Covenants Contained in Indentures**

Except as otherwise set forth in the next sentence, the senior indenture:

prohibits us and our subsidiaries from selling, pledging, assigning or otherwise disposing of shares of capital stock, or securities convertible into capital stock, of any Principal Subsidiary Bank or of any subsidiary owning, directly or indirectly, any capital stock of a Principal Subsidiary Bank; and

prohibits any Principal Subsidiary Bank from issuing any shares of its capital stock or securities convertible into its capital stock.

This restriction does not apply to:

sales, pledges, assignments or other dispositions or issuances of directors qualifying shares;

sales, pledges, assignments or other dispositions or issuances, so long as, after giving effect to the disposition and to the issuance of any shares issuable upon conversion or exchange of securities convertible or exchangeable into capital stock, we would own directly or through one or more of our subsidiaries not less than 80% of the shares of each class of capital stock of the applicable Principal Subsidiary Bank;

sales, pledges, assignments or other dispositions or issuances made in compliance with an order or direction of a court or regulatory authority of competent jurisdiction; or

sales of capital stock by any Principal Subsidiary Bank to its stockholders so long as before the sale we own directly or indirectly shares of the same class and the sale does not reduce the percentage of the shares of that class of capital stock owned by us. (Section 1005 of the senior indenture)

When we use the term subsidiary in this section, we mean any corporation of which we own more than 50% of the outstanding shares of voting stock, except for directors qualifying shares, directly or indirectly through one or more of our other subsidiaries. Voting stock is stock that is entitled in the ordinary course to vote for the election of a majority of the directors of a corporation and does not include stock that is entitled to so vote only as a result of the happening of certain events.

When we use the term Principal Subsidiary Bank above, we mean any commercial bank or trust company organized in the United States under Federal or state law of which we

**Table of Contents**

own at least a majority of the shares of voting stock directly or indirectly through one or more of our subsidiaries if such commercial bank or trust company has total assets, as set forth in its most recent statement of condition, equal to more than 10% of our total consolidated assets, as set forth in our most recent financial statements filed with the SEC under the Exchange Act. (Section 101 of the senior indenture) As of the date hereof, our only Principal Subsidiary Bank is Wells Fargo Bank, N.A.

The subordinated indenture does not contain the restriction described above.

Except as expressly set forth above, neither of the indentures contains restrictions on our ability to:

incur, assume or become liable for any type of debt or other obligation;

create liens on our property for any purpose; or
