**PART III NARRATIVE**

State below in reasonable detail why Forms 10-K, 20-F, 11-K, 10-Q, 10-D, N-SAR, N-CSR, or the transition report or portion thereof, could not be filed within the prescribed time period.

The Quarterly Report on Form 10-Q of SandRidge Energy, Inc. (the Company) for the fiscal quarter ended June 30, 2016, could not be filed with the Securities and Exchange Commission (the SEC) within the prescribed time period without unreasonable effort or expense, because the Company needs additional time to complete its financial statements and related disclosures.

As previously disclosed in its Current Report on Form 8-K filed with the SEC on May 16, 2016, the Company and certain of its direct and indirect subsidiaries (collectively with the Company, the Debtors) filed voluntary petitions (the Bankruptcy Petitions) for reorganization under Chapter 11 of the United States Bankruptcy Code (the Bankruptcy Code) in the United States Bankruptcy Court for the Southern District of Texas (the Bankruptcy Court). The Chapter 11 cases are being administered jointly under the caption In re: SandRidge Energy Inc., et al., Case No. 16-32488 (the Chapter 11 Cases). The Debtors continue to operate their businesses and manage their properties as debtors-in-possession under the jurisdiction of the Bankruptcy Court and in accordance with the applicable provisions of the Bankruptcy Code and orders of the Bankruptcy Court. Proofs of claim involving over 2,000 claims were filed on or prior to July 22, 2016, the claims bar date established in connection with the Chapter 11 Cases. The claims bar date applies to nearly all types of claims against the Debtors that arose or are deemed to have arisen prior to the petition date.

Due to the considerable time and resources management must devote to the Chapter 11 Cases and the related administrative requirements, including the initial review and reconciliation of, and establishment of reserves in

connection with, the proofs of claim, the Company has been unable to complete the preparation of its Quarterly Report within its normal review cycle and has determined that it is unable to timely file its Quarterly Report without unreasonable effort or expense.

(Telephone Number)

(2) Have all other periodic reports required under Section 13 or 15(d) of the Securities Exchange Act of 1934 or Section 30 of the Investment Company Act of 1940 during the preceding 12 months or for such shorter period that the registrant was required to file such report(s) been filed? If answer is no, identify report(s).  Yes  No

(3) Is it anticipated that any significant change in results of operations from the corresponding period for the last fiscal year will be reflected by the earnings statements to be included in the subject report or portion thereof?  Yes  No

If so, attach an explanation of the anticipated change, both narratively and quantitatively, and, if appropriate, state the reasons why a reasonable estimate of the results cannot be made.

As a result of the matters discussed in Part III above, the Company is not in a position at this point to provide any specific estimate of anticipated significant changes in results of operations from the three- and six-month periods ended June 30, 2015 to the three- and six-month periods ended June 30, 2016 that may be reflected in the financial statements to be included in the Company's Quarterly Report on Form 10-Q for the fiscal quarter ended June 30, 2016.

We, however, anticipate that total revenues and income from operations for the three- and six-month periods ended June 30, 2016 will be significantly lower than the three- and six-month periods ended June 30, 2015, due primarily to a decline in oil and natural gas production, largely resulting from natural declines in existing producing wells and a decrease in wells drilled in the 2016 periods compared to the 2015 periods, and a decline in the average prices received primarily for our oil and to a lesser extent, natural gas and natural gas liquids production.

We further anticipate that operating expenses will be significantly lower for the three- and six-month periods ended June 30, 2016 than the three- and six-month periods ended June 30, 2015 due primarily to a decline in production expenses primarily as a result of a decrease in well activity as a result of fewer wells being brought on production and reduction in workover activity, the elimination of the CO<sub>2</sub> delivery shortfall penalty due to the termination of the CO<sub>2</sub> delivery agreement with Occidental Petroleum Corporation in January 2016, the decreased incurrence of full cost ceiling limitation impairments resulting primarily from the significant decrease in oil prices, and to a lesser extent, natural gas prices, that began in the latter half of 2014 and continued throughout 2015 and into 2016, and a decrease in depreciation and depletion rates due primarily to the full cost ceiling limitation impairments recorded in 2015 and the first quarter of 2016.

Finally, we anticipate that other expenses, taxes and net loss attributable to noncontrolling interest will be significantly higher for the three- and six-month periods ended June 30, 2016 than the three- and six-month periods ended June 30, 2015 due primarily to reorganization items in the 2016 periods primarily consisting of net unamortized debt premiums and discounts, unamortized debt issuance costs and the remaining value of derivatives associated with the Company's 8.125% Convertible Senior Notes due 2022, 7.5% Convertible Senior Notes due 2023 and 8.75% Senior Secured Notes due 2020 issued by the Company in October 2015 in connection with the acquisition of and termination of a gathering agreement with Piñon Gathering Company, LLC that were written-off on the date the Bankruptcy Petitions were filed, amounts related to the rejection of certain long-term contracts as approved by the Bankruptcy Court, and professional and legal fees incurred as a result of the Chapter 11 Cases.

The foregoing statements are based on our current expectations as of the date of this filing and involve a number of risks and uncertainties which may cause actual results to differ, as discussed further below.
