**Forward-Looking Statements**

This document contains forward-looking statements related to the proposed transaction between Intel and TPG, including statements regarding the benefits and the timing of the transaction. Forward-looking statements are predictions, projections and other statements about future events that are based on current expectations and assumptions and, as a result, are subject to risks and uncertainties. Many factors could cause actual future events to differ materially from the forward-looking statements in this document, including the following, among others: changes in consumer demand; Intel's ability to successfully separate the Intel Security business and factors affecting McAfee's ability to operate as a standalone business; the realization of the projected benefits of the proposed transaction; the retention of suppliers, customers and key employees; McAfee's ability to service and satisfy debt obligations assumed in the transaction; general economic conditions in the regions and industries in which Intel and McAfee operate; the intensely competitive industries in which Intel and McAfee operate; and litigation or regulatory matters and other issues that could affect the closing of the transaction.

In addition, please refer to the documents that Intel files with the U.S. Securities and Exchange Commission on Forms 10-K, 10-Q and 8-K. These filings identify and address other important risks and uncertainties that could cause events and results to differ materially from those contained in the forward-looking statements set forth in this document. Readers are cautioned not to put undue reliance on forward-looking statements, and Intel and TPG assume no obligation and do not intend to update these forward-looking statements, whether as a result of new information, future events or otherwise.
