Semi-Annual Report
April 30, 2003

Letter to Shareholders

June 13, 2003

Dear Shareholder,

We present this Semi-Annual Report which covers the activities of Aberdeen Global Income Fund, Inc. (the "Fund") for the six months ended April 30, 2003. The Fund's principal investment objective is to provide high current income by

Edgar Filing: ABERDEEN GLOBAL INCOME FUND INC - Form N-CSR

investing primarily in fixed-income securities denominated in Commonwealth Currencies, that is, the currencies of Australia, Canada, New Zealand and the United Kingdom. As a secondary investment objective, the Fund seeks capital appreciation, but only when consistent with its principal investment objective.

High Credit Quality: 78.9% of Securities Rated or Deemed Equivalent to AA/Aa or Better

The Fund's high credit quality has been maintained. Over 78.9% of assets are rated AA/Aa or better, or are considered of equivalent quality by the Investment Manager. An additional 12.4% is held in A rated securities.

Distributions

Cash distributions to common shareholders for the 12 months ended April 30, 2003 totaled 72 cents per share. Based on the share price of \$10.79 on April 30, 2003, the cash distribution rate over the 12 months then ended was 6.7%. Since all distributions are paid after deducting applicable withholding taxes, the effective distribution rate may be higher for those U.S. investors who are able to claim a tax credit.

On June 12, 2003 the Board of Directors declared a monthly distribution of 6 cents per share payable on July 11, 2003 to all shareholders of record as of June 30, 2003.

The Board's policy is to provide investors with a stable monthly distribution out of current income, supplemented by realized capital gains and, to the extent necessary, paid-in capital. It is the Board's intention that the monthly distribution of 6 cents per share be maintained for 12 months, beginning with the July 2003 distribution payment. This policy is subject to regular review at the Board's quarterly meetings, unless market conditions require an earlier evaluation. The next review is scheduled to take place in September 2003.

Net Asset Value Performance: 7.4% Per Annum Return Since Inception

The Fund's total return based on Net Asset Value ("NAV") was 14.2% over the six months ended April 30, 2003 and 7.4% per annum since inception, assuming the reinvestment of distributions.

Letter to Shareholders (continued)

Share Price Performance

The Fund's share price rose 15.4% over the six months, from \$9.35 on October 31, 2002 to \$10.79 on April 30, 2003. The Fund's share price on April 30, 2003 represented a discount of 6.6% to the NAV per share of \$11.55 on that date. This represents a narrowing of the discount to NAV of 10.6% on October 31, 2002.

Global Debt Securities: 12.1% of Total Assets Invested in Global Debt Securities

The Fund may invest up to 35% of its total assets in Global Debt Securities. The term "Global Debt Securities" includes securities of issuers located in, or securities denominated in the currency of, countries other than Australia, Canada, New Zealand or the United Kingdom. As of April 30, 2003, 12.1% of the Fund's total assets were held in Global Debt Securities. This included 6.9% in Asian debt securities. At April 30, 2003, 1.0% of the Fund's total assets were invested in Eastern Europe, 3.4% in Latin America and 0.8% in Western Europe.

Results of Annual Meeting of Shareholders

At the Annual Meeting of Shareholders held on Tuesday April 15, 2003 (the "Annual Meeting") Messrs. William J. Potter and Peter D. Sacks were elected by the holders of the Fund's common stock as Class II Directors to serve for a three-year term expiring at the 2006 Annual Meeting of Shareholders. Mr. John T. Sheehy and Dr. Anton E. Schrafl were elected by the holders of the Fund's preferred stock for a one-year term expiring at the 2004 Annual Meeting of Shareholders. Shareholders also approved the amendment and restatement of the Fund's charter. The amendments have the effect of changing certain of the terms of the Fund's series of Auction Market Preferred Stock.

Aberdeen Global Income Fund, Inc. 3

Your Board's policy is to provide investors with a stable monthly distribution out of current income, supplemented by realized capital gains and, to the extent necessary, paid-in capital.

The Fund is subject to U.S. corporate, tax and securities laws. Under U.S. tax accounting rules, the amount of distributable income for each fiscal period depends on the actual exchange rates during the entire year between the U.S. dollar and the currencies in which Fund assets are denominated and on the aggregate gains and losses realized by the Fund during the entire year.

Therefore, the exact amount of distributable income for each fiscal year can only be determined as at the end of the Fund's fiscal year, October 31. However,

Edgar Filing: ABERDEEN GLOBAL INCOME FUND INC - Form N-CSR

under the U.S. Investment Company Act of 1940, the Fund is required to indicate the source of each distribution to shareholders.

The Fund estimates that distributions for the entire fiscal year commencing November 1, 2002, including the distribution paid on June 13, 2003, are comprised of 69% net investment income and 31% return of paid-in capital.

This estimated distribution composition may vary from month to month because it may be materially impacted by future realized gains and losses on securities and fluctuations in the value of the currencies in which Fund assets are denominated.

The amount attributed as return of capital reflects, in part, the realization of currency losses in the Fund's Australian bond portfolio as a result of positioning the Fund's investments more towards global debt securities. Fund assets are marked to market, therefore the realization of such currency losses does not impact the Fund's net asset value. However, these losses do offset distributable income, therefore increasing the return of capital component of the distribution.

In January 2004, a Form 1099 DIV will be sent to shareholders, which will state the amount and composition of distributions and provide information with respect to their appropriate tax treatment.

4 Aberdeen Global Income Fund, Inc.

Dividend Reinvestment and Cash Purchase Plan

We invite you to participate in the Fund's Dividend Reinvestment and Cash Purchase Plan ("the Plan") which allows you to automatically reinvest your distributions in shares of the Fund's common stock at favorable commission rates. Distributions made under the Plan are taxable to the same extent as are cash distributions. The Plan also enables you to make additional cash investments in shares of at least \$100 per month. Under this arrangement EquiServe Trust Company N.A. (the "Plan Agent") will purchase shares for you on the stock exchange or otherwise on the open market on or about the 15th of each month, unless shares of the Fund are trading at a premium, in which case the Fund will issue additional shares. As a participant in the Plan you will have the convenience of:

Automatic reinvestment -- the Plan Agent will automatically reinvest your distributions, allowing you to gradually grow your holdings in the Fund;

Lower costs -- shares purchased on your behalf under the Plan will be at reduced brokerage rates. Brokerage on share purchases is currently 2 cents per share;

Convenience -- the Plan Agent will hold your shares in non-certificated form and will provide a detailed record of your holdings at the end of each distribution period.

To request a brochure containing information on the Plan, together with an authorization form, please contact the Plan Agent, EquiServe Trust Company N.A., P.O. Box 43011, Providence, RI 02490-3011 or call toll free on 1-800-426-5523.

Auction Market Preferred Stock (AMPS)

The Fund's \$30 million of AMPS continued to be well bid at the weekly auctions. The average interest rate paid was 1.58% over the six months ended April 30, 2003, compared with 1.26% for 30-day U.S. commercial paper over the same period. The rates declined over the period as U.S. yields, particularly at the short end of the curve, continued to rally. The rates paid to preferred shareholders have decreased further since April 30, 2003 to a level of 1.35% as of the date of

Edgar Filing: ABERDEEN GLOBAL INCOME FUND INC - Form N-CSR

this report.

6 Aberdeen Global Income Fund, Inc.

Report of the Investment Manager (concluded)

Over the past year, the impact of AMPS on the Fund has been positive, as the key currencies of the Fund -- the Australian dollar, British pound, New Zealand dollar and Canadian dollar -- were all stronger against the U.S. dollar, with key Asian currencies following a similar trend. The differential between AMPS funding rates and the yields at which the Fund invests has remained positive, as U.S. interest rates have remained at historic lows, while bond movements detracted slightly as ongoing geopolitical risks provided a volatile environment for global bond yields.

On September 16, 2002, the Fund entered into a two-year interest rate swap agreement in order to hedge one-third of the Fund's outstanding issue of AMPS. Under the original terms of the agreement, the Fund received a floating rate of interest (one month USD-LIBOR BBA rate) based on a notional amount of US\$10,000,000 and paid interest at a fixed rate of 2.46%. The fixed rate interest payment was re-priced to 2.10% on October 1, 2002, to 1.7175% on December 24, 2002 and then to 1.37% on February 18, 2003.

The Board of Directors has resolved to amend the Fund's policies with respect to derivatives to increase the percentage of the Fund's AMPS liabilities which may be hedged pursuant to interest rate swaps from one-third to up to 100% of the AMPS liabilities. A significant type of risk associated with interest rate swaps is the risk that the counterparty may default or file for bankruptcy, in which case the Fund would bear the risk of loss of the amount expected to be received under the swap agreement. There can be no assurance that the Fund will have an interest rate swap in place at any given time nor can there be any assurance that, if an interest rate swap is in place, it will be successful in hedging the Fund's interest rate risk with respect to the AMPS. The implementation of this strategy is at the discretion of the AMPS Pricing Committee of the Board of Directors.

Notes to Financial Statements

Note 1. Investment Objectives

Aberdeen Global Income Fund, Inc. (the "Fund") was incorporated in Maryland on June 28, 1991, as a closed-end, non-diversified investment company.

The Fund's principal investment objective is to provide high current income by investing primarily in fixed-income securities denominated in Commonwealth Currencies. As a secondary investment objective, the Fund seeks capital appreciation, but only when consistent with its principal investment objective. The Fund will seek to achieve its investment objective through investment in fixed-income securities denominated in the Commonwealth Currencies and in Global Debt Securities. In order to comply with a rule adopted by the Securities and Exchange Commission under the Investment Company Act of 1940 regarding fund names, the Board of Directors has adopted an investment policy that, for as long as the name of the Fund remains Aberdeen Global Fund, Inc., it shall be the policy of the Fund normally to invest at least 80% of its net assets plus the amount of any borrowings for investment purposes, in debt securities. This 80% investment policy is a non-fundamental policy of the Fund and may be changed by the Board of Directors upon 60 days prior written notice to shareholders. The ability of issuers of debt securities held by the Fund to meet their obligations may be affected by economic developments in a specific industry, country or region.

Note 2. Accounting Policies

The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements.

Basis of Presentation: The financial statements of the Fund are prepared in accordance with accounting principles generally accepted in the United States of

Edgar Filing: ABERDEEN GLOBAL INCOME FUND INC - Form N-CSR

America using the United States dollar as both the functional and reporting currency. However, the Commonwealth Currencies (excluding New Zealand) are

Aberdeen Global Income Fund, Inc. 29

Notes to Financial Statements (continued)

the functional currencies for Federal tax purposes (see Taxes below).

Foreign Currency Translation: Foreign currency amounts are translated into United States dollars on the following basis:

- (i) market value of investment securities, other assets and liabilities -- at the closing rates of exchange as reported by a major bank;
- (ii) purchases and sales of investment securities, income and expenses -- at the rates of exchange prevailing on the respective dates of such transactions.

The Fund isolates that portion of the results of operations arising as a result of changes in the foreign exchange rates from the fluctuations arising from changes in the market prices of the securities held at fiscal period end. Similarly, the Fund isolates the effect of changes in foreign exchange rates from the fluctuations arising from changes in the market prices of portfolio securities sold during the fiscal year.

Net realized foreign exchange losses includes realized foreign exchange gains and losses from sales and maturities of portfolio securities, sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions and the difference between the amounts of interest, discount and foreign withholding taxes recorded on the Fund's books and the U.S. dollar equivalent amounts actually received or paid. Net unrealized foreign exchange gains include changes in the value of portfolio securities and other assets and liabilities arising as a result of changes in the exchange rate. Accumulated realized and unrealized foreign exchange gains (losses) shown in the composition of net assets represent foreign exchange gains (losses) for book purposes that have not yet been recognized for tax purposes.

30 Aberdeen Global Income Fund, Inc.

Notes to Financial Statements (continued)

Foreign security and currency transactions may involve certain considerations and risks not typically associated with those of domestic origin, including unanticipated movements in the value of the foreign currency relative to the U.S. dollar.

The exchange rates of the Commonwealth Currencies utilized by the Fund at April 30, 2003 were US\$0.6256 to A\$1.00, US\$0.6971 to C\$1.00, US\$0.5594 to NZ\$1.00, US\$1.5983 to (pound)1.00.

Security Valuation: The Fund's Board of Directors has adopted Pricing and Valuation Procedures (the "Procedures") to be used in determining the value of the assets held by the Fund. In accordance with the Procedures, investments are stated at value. Investments for which market quotations are readily available are valued at the last trade price on the date of determination as obtained from a pricing source. If no such trade price is available, such investments are valued at the quoted bid price or the mean between the quoted bid and asked

Edgar Filing: ABERDEEN GLOBAL INCOME FUND INC - Form N-CSR

price on the date of determination as obtained from a pricing source.

Securities purchased with a maturity of less than 60 days are valued at amortized cost. Securities purchased with a maturity of greater than 60 days are valued at current market quotations until the 60th day prior to maturity. At that time, the value of the security on the 61st day prior to maturity is amortized on a straight-line basis to value the security for the remaining 60 days. Securities for which market quotations are not readily available are valued at fair value in good faith using methods set forth in the Procedures.

Repurchase Agreements: In connection with transactions in repurchase agreements with U.S. financial institutions, it is the Fund's policy that its custodian/counterparty segregates the underlying collateral securities, the value of which exceeds the principal amount of the repurchase

Aberdeen Global Income Fund, Inc. 31

Notes to Financial Statements (continued)

transaction, including accrued interest. To the extent that any repurchase transaction exceeds one business day, the collateral is valued on a daily basis to determine its adequacy. If the seller defaults and the value of the collateral declines or if bankruptcy proceedings are commenced with respect to the seller of the security, realization of the collateral by the Fund may be delayed or limited.

Securities Transactions and Investment Income: Securities transactions are recorded on the trade date. Realized and unrealized gains and losses from security and currency transactions are calculated on the identified cost basis. Interest income is recorded on an accrual basis. Discounts and premiums on securities purchased are accreted or amortized on an effective yield basis over the estimated lives of the respective securities. Expenses are accrued on a daily basis.

Derivative Financial Instruments: The Fund is authorized to use derivatives to manage both currency and interest rate risk for global debt securities. With respect to investments denominated in Commonwealth currencies, derivatives can only be used to manage interest rate risk. Losses may arise due to changes in the value of the contract if the counterparty does not perform under the contract.

Interest Rate Swap: The Fund may engage in certain swap transactions, in order to obtain a desired return at a lower cost than if the Fund invested directly in the asset that yielded the desired return. An interest rate swap is an agreement between two parties which involves exchanging floating rate and fixed rate interest payments for a specified period of time. Interest rate swaps involve the accrual and exchange of interest payments between the parties.

32 Aberdeen Global Income Fund, Inc.

Notes to Financial Statements (continued)

During the term of the swap, changes in the value of the swap are recognized as unrealized gains and losses by "marking-to-market" to reflect the market value of the swap. When the swap is terminated, the Fund will record a realized gain or loss equal to the difference, if any, between the proceeds from (or cost of) the closing transaction and the Fund's basis in the contract. The Fund is exposed to credit risk in the event of non-performance by the other party to the

Edgar Filing: ABERDEEN GLOBAL INCOME FUND INC - Form N-CSR

interest rate swap. However, the Fund does not anticipate non-performance by any counterparty.

Forward Currency Contracts: A forward currency contract involves an obligation to purchase and sell a specific currency at a future date, which may be any fixed number of days from the date of the contract agreed upon by the parties, at a price set at the time of the contract. The foreign currency contract is marked-to-market daily and the change in market value is recorded by the Fund as an unrealized gain or loss. When the forward currency contract is closed, the Fund records a realized gain or loss equal to the difference between the value at the time it was opened and the value at the time it was closed.

Financial futures contracts: A futures contract is an agreement between two parties to buy and sell a security for a set price on a future date. Upon entering into a contract, the Fund deposits and maintains as collateral such initial margin as required by the exchange on which the transaction is effected. Pursuant to the contract, the Fund agrees to receive from or pay to the broker an amount of cash equal to the daily fluctuation in the value of the contract. Such receipts or payments are known as variation margin and are recorded by the Fund as unrealized gains or losses. When the contract is closed, the Fund records a realized gain or loss equal to the difference between the value

Aberdeen Global Income Fund, Inc. 33

Notes to Financial Statements (continued)

of the contract at the time it was opened and the value at the time it was closed. As of April 30, 2003, there were no open futures contracts.

Options: When the Fund writes an option, an amount equal to the premium received by the Fund is reflected as an asset and an equivalent liability. The amount of the liability is subsequently marked to market to reflect the current market value of the option written. When a security is purchased or sold through an exercise of an option, the related premium paid (or received) is added to (or deducted from) the basis of the security acquired or deducted from (or added to) the proceeds of the security sold. When an option expires (or the Fund enters into a closing transaction), the Fund realizes a gain or loss on the option to the extent of the premiums received or paid (or gain or loss to the extent the cost of the closing transaction exceeds the premium paid or received). As of April 30, 2003, there were no open option contracts.

Dividends and distributions: Dividends and distributions to common shareholders are recorded on the ex-dividend date. These are based upon net investment income, and capital and currency gains determined in accordance with income tax regulations which may differ from accounting principles generally accepted in the United States of America. These differences are primarily due to amortization of premium and discount and differing treatments for foreign currencies and loss deferrals. Dividends and distributions to preferred shareholders are accrued on the record date and are determined as described in Note 6.

Taxes: For Federal income and excise tax purposes, substantially all of the Fund's transactions are accounted for using the functional currencies. Accordingly, only realized currency gains and losses

34 Aberdeen Global Income Fund, Inc.

Notes to Financial Statements (continued)

Edgar Filing: ABERDEEN GLOBAL INCOME FUND INC - Form N-CSR

resulting from the repatriation of any of the Commonwealth Currencies into U.S. dollars or another Commonwealth Currency and realized currency gains and losses on non-Commonwealth currencies are recognized for tax purposes.

No provision has been made for United States of America Federal income taxes because it is the Fund's policy to meet the requirements of the United States of America Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income to shareholders. Under the applicable foreign tax law, a withholding tax may be imposed on interest and discounts earned at various rates.

Cash Flow Information: The Fund invests in securities and distributes dividends from net investment income and net realized gains on investment and currency transactions which are paid in cash or are reinvested at the discretion of shareholders. These activities are reported in the Statements of Changes in Net Assets Applicable to Common Shareholders and additional information on cash receipts and cash payments is presented in the Statement of Cash Flows. Cash includes domestic and foreign currency.

Use of Estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

Note 3. Agreements

The Fund has agreements with Aberdeen Asset Managers (C.I.) Limited (the "Investment Manager"), Aberdeen Asset Management Limited (the "Investment Adviser"), and Princeton Administrators, L.P. (the "Administrator"). The Investment

Aberdeen Global Income Fund, Inc. 35

Notes to Financial Statements (continued)

Manager and the Investment Adviser are direct or indirect wholly-owned subsidiaries of Aberdeen Asset Management Plc. The Investment Manager has entered into an agreement with CIBC World Markets, Inc. (the "Consultant").

The Investment Manager makes investment decisions on behalf of the Fund on the basis of recommendations and information furnished to it by the Investment Adviser and the Consultant, including the selection of and the placement of orders with brokers and dealers to execute portfolio transactions on behalf of the Fund.

The management agreement provides the Investment Manager with a fee, computed weekly and payable monthly, at the following annual rates: 0.65% of the Fund's average weekly total net assets of both common and preferred shareholders up to \$200 million, 0.60% of such assets between \$200 million and \$500 million and 0.55% of such assets in excess of \$500 million. The administration agreement provides the Administrator with a fee computed and payable monthly at the annual rate of 0.20% of the Fund's average weekly total net assets of both common and preferred shareholders, subject to a minimum annual payment of \$150,000 (\$12,500 per month). The Investment Manager pays fees to the Investment Adviser and the Consultant for their services rendered.

The Investment Manager informed the Fund that it paid \$169,696 to the Investment Adviser and \$6,000 to the Consultant during the six months ended April 30, 2003.

Edgar Filing: ABERDEEN GLOBAL INCOME FUND INC - Form N-CSR

Under terms of an Investor Relations Services Agreement, Aberdeen Fund Managers, Inc. ("Aberdeen"), an affiliate of the Fund's Investment Manager and Investment Adviser, serves as the Fund's investor relations services provider. This agreement provides Aberdeen with a monthly

36 Aberdeen Global Income Fund, Inc.

Notes to Financial Statements (continued)

retainer of \$4,000 plus out-of-pocket expenses. During the six months ended April 30, 2003, the Fund incurred fees of approximately \$5,067 for the services of Aberdeen. Investor relations fees and expenses in the Statement of Operations include certain out-of-pocket expenses.

Note 4. Portfolio Securities

Purchases and sales of investment securities, other than short-term investments, for the six months ended April 30, 2003 aggregated \$10,814,219 and \$11,353,663, respectively.

On September 16, 2002, the Fund entered into a two-year interest rate swap agreement in order to hedge one third of the Fund's outstanding issue of AMPS. Under the original terms of the agreement, the Fund received a floating rate of interest (one month USD-LIBOR BBA rate) based on a notional amount of \$10,000,000 and paid interest at a fixed rate of 2.46%. The fixed rate interest payment has been periodically repriced and the most recent repricing occurred on February 18, 2003 at a new fixed rate of 1.37%. Net receipts of payments of such amounts are exchanged every 28 days. At April 30, 2003 the unrealized appreciation of interest rate swaps was \$11,640. The swap is scheduled to terminate on September 18, 2004.

Net interest loss of \$13,605 on interest rate swaps during the period is included in miscellaneous expenses in the Statement of Operations.

The United States of America federal income tax basis of the Fund's investments at April 30, 2003 was \$123,900,476 and accordingly, net unrealized appreciation for United States federal income tax purposes was \$8,861,133 (gross unrealized appreciation -- \$10,844,074, gross unrealized depreciation -- \$1,982,941.) The Fund estimates that distributions for the entire fiscal year commencing November 1, 2002, including the distribution paid on

Aberdeen Global Income Fund, Inc. 37

Notes to Financial Statements (continued)

June 13, 2003, are comprised of 69% net investment income and 31% return of paid-in capital.

Note 5. Common Stock

There are 300 million shares of \$.001 par value common stock authorized and 9,266,209 shares outstanding at April 30, 2003.

On March 1, 2001, the Board of Directors approved a stock repurchase program. The stock repurchase program allows the Fund to repurchase up to 10% of its outstanding common stock in the open market during any 12-month period, if and when the discount to net asset value is at least 10%. Through April 30, 2003,

Edgar Filing: ABERDEEN GLOBAL INCOME FUND INC - Form N-CSR

there have been no share repurchases through this program.

On January 10, 2003, the Fund announced that it would not proceed with the proposed rights offering, based upon the determination of the Rights Offering Committee that market conditions remained unfavorable for the commencement of the rights offering and that favorable market conditions were not anticipated to develop in the near term. Expenses incurred in connection with the proposed rights offering are included in the Statement of Operations.

Note 6. Preferred Stock

There are 100 million shares of \$.001 par value of Auction Market Preferred Stock ("Preferred Stock") authorized. The preferred shares have rights as determined by the Board of Directors. The 1,200 shares of Preferred Stock outstanding consist of one series, W-7. The Preferred Stock has a liquidation value of \$25,000 per share plus any accumulated but unpaid dividends whether or not declared.

Dividends on the Preferred Stock are cumulative at a rate typically reset every twenty-eight days based on the results of an auction. Dividend rates ranged from 1.35% to 1.95% during the six months ended April 30, 2003. Under the Investment Company Act of 1940, the Fund

38 Aberdeen Global Income Fund, Inc.

Notes to Financial Statements (concluded)

may not declare dividends or make other distributions on shares of common stock or purchase any such shares if, at the time of the declaration, distribution or purchase, asset coverage with respect to the outstanding Preferred Stock would be less than 200%.

The Preferred Stock is redeemable at the option of the Fund, in whole or in part, on any dividend payment date at \$25,000 per share plus any accumulated but unpaid dividends. The Preferred Stock is also subject to mandatory redemption at \$25,000 per share plus any accumulated but unpaid dividends, whether or not declared, if certain requirements relating to the composition of the assets and liabilities of the Fund as set forth in the Charter are not satisfied.

The holders of Preferred Stock have voting rights equal to the holders of common stock (one vote per share) and will vote together with holders of shares of common stock as a single class. However, holders of Preferred Stock are also entitled to elect two of the Fund's directors.

Note 7. Subsequent Dividends

Subsequent to April 30, 2003, the Board of Directors of the Fund declared distributions of \$0.06 per common share payable on June 13, 2003 to common shareholders of record on May 30, 2003.

Subsequent to April 30, 2003, dividends and distributions declared and paid on preferred shares totaled approximately \$61,908 for the outstanding preferred share series through June 12, 2003.
