Invests primarily in global fixed-income securities

Quarterly Report
July 31, 2003

Letter to Shareholders

September 12, 2003

Dear Shareholder,

We present this Quarterly Report which covers the activities of Aberdeen Global Income Fund, Inc. (the "Fund") for the quarter ended July 31, 2003. The Fund's principal investment objective is to provide high current income by investing primarily in fixed-income securities denominated in Commonwealth Currencies, that is, the currencies of Australia, Canada, New Zealand and the United Kingdom. As a secondary investment objective the Fund seeks capital appreciation, but only when consistent with its principal investment objective.

High Credit Quality: 77.3% of Securities Rated or Deemed Equivalent to AA/Aa or Better

The Fund's high credit quality has been maintained. Over 77.3% of assets are rated AA/Aa or better, or are considered to be of equivalent quality by the Investment Manager. An additional 11.4% is held in A rated securities.

Distributions

Cash distributions to common shareholders for the 12 months ended July 31, 2003 totaled 72 cents per share. Based on the share price of \$11.50 on July 31, 2003, the cash distribution rate over the 12 months then ended was 6.3%. Since all distributions are paid after deducting applicable withholding taxes, the effective distribution rate may be higher for those U.S. investors who are able to claim a tax credit.

On September 15, 2003 the Board of Directors declared a monthly distribution of 6 cents per share payable on October 10, 2003, to all shareholders of record as of September 30, 2003.

The Board's policy is to provide investors with a stable monthly distribution out of current income, supplemented by realized capital gains and, to the extent necessary, paid-in capital. It is the Board's intention that the monthly distribution of 6 cents per share be maintained for 12 months, beginning with the July 2003 distribution payment. This policy is subject to regular review at the Board's quarterly meetings, unless market conditions require an earlier evaluation. The next review is scheduled to take place in December 2003.

Edgar Filing: ABERDEEN GLOBAL INCOME FUND INC - Form N-CSR

Letter to Shareholders (continued)

Net Asset Value Performance: 7.5% Per Annum Return Since Inception

The Fund's total return based on Net Asset Value ("NAV") was 3.1% over the quarter ended July 31, 2003 and 7.5% per annum since inception, assuming the reinvestment of distributions.

Share Price Performance

The Fund's share price rose 6.6% over the quarter, from \$10.79 on April 30, 2003 to \$11.50 on July 31, 2003. The Fund's share price on July 31, 2003 represented a discount of 2.0% to the NAV per share of \$11.73 on that date. This represents a narrowing of the discount to NAV of 6.6% on April 30, 2003.

Global Debt Securities: 12.5% of Total Assets Invested in Global Debt Securities

The Fund may invest up to 35% of its total assets in Global Debt Securities. The term "Global Debt Securities" includes securities of issuers located in, or securities denominated in the currency of, countries other than Australia, Canada, New Zealand or the United Kingdom. As of July 31, 2003, 12.5% of the Fund's total assets were held in Global Debt Securities. This included 4.7% in Asian debt securities. At July 31, 2003, 0.9% of the Fund's total assets were invested in Eastern Europe, 2.5% in Latin America and 4.4% in Western Europe.

2 Aberdeen Global Income Fund, Inc.

Letter to Shareholders (concluded)

In an effort to provide more timely information to shareholders, the market review and outlook will now be published separately. For information about the Fund, including a market review and outlook, weekly updates of the share price, NAV, and details of recent distributions, contact Aberdeen Asset Management, Investor Relations, by:

- o calling toll free on 1-800-522-5465 or 1-212-968-8800 in the United States,
- o emailing to InvestorRelations@aberdeen-asset.com, or
- o visiting the website at www.aberdeen-asset.us

For information about the Aberdeen group, visit the Aberdeen website at www.aberdeen-asset.com

Yours sincerely,

/s/ Martin J. Gilbert

Martin J. Gilbert
Chairman

All amounts are U.S. dollars unless otherwise stated.

Aberdeen Global Income Fund, Inc. 3

Your Board's policy is to provide investors with a stable monthly distribution out of current income, supplemented by realized capital gains and, to the extent necessary, paid-in capital.

The Fund is subject to U.S. corporate, tax and securities laws. Under U.S. tax accounting rules, the amount of distributable income for each fiscal period depends on the actual exchange rates during the entire year between the U.S. dollar and the currencies in which Fund assets are denominated and on the aggregate gains and losses realized by the Fund during the entire year.

Therefore, the exact amount of distributable income for each fiscal year can only be determined as of the end of the Fund's fiscal year, October 31. However, under the U.S. Investment Company Act of 1940, the Fund is required to indicate the source of each distribution to shareholders.

The Fund estimates that distributions for the fiscal year commencing November 1, 2002, including the distribution paid on September 12, 2003, are comprised of 62% net investment income and 38% return of paid-in-capital.

This estimated distribution composition may vary from month to month because it may be materially impacted by future realized gains and losses on securities and fluctuations in the value of the currencies in which Fund assets are denominated.

The amount attributed as return of capital reflects, in part, the realization of currency losses in the Fund's Australian bond portfolio as a result of positioning the Fund's investments more towards global debt securities. Fund assets are marked to market, therefore the realization of such currency losses does not impact the Fund's net asset value. However, these losses do offset distributable income, therefore increasing the return of capital component of the distribution.

In January 2004, a Form 1099 DIV will be sent to shareholders, which will state the amount and composition of distributions and provide information with respect to their appropriate tax treatment.

4 Aberdeen Global Income Fund, Inc.

Dividend Reinvestment and Cash Purchase Plan

We invite you to participate in the Fund's Dividend Reinvestment and Cash Purchase Plan ("the Plan") which allows you to automatically reinvest your distributions in shares of the Fund's common stock at favorable commission rates. Distributions made under the Plan are taxable to the same extent as are cash distributions. The Plan also enables you to make additional cash investments in shares of at least \$100 per month. Under this arrangement EquiServe Trust Company N.A. (the "Plan Agent") will purchase shares for you on the stock exchange or otherwise on the open market on or about the 15th of each month, unless shares of the Fund are trading at a premium, in which case the Fund will issue additional shares. As a participant in the Plan you will have the convenience of:

Automatic reinvestment -- the Plan Agent will automatically reinvest your distributions, allowing you to gradually grow your holdings in the Fund;

Edgar Filing: ABERDEEN GLOBAL INCOME FUND INC - Form N-CSR

Lower costs -- shares purchased on your behalf under the Plan will be at reduced brokerage rates. Brokerage on share purchases is currently 2 cents per share;

Convenience -- the Plan Agent will hold your shares in non-certificated form and will provide a detailed record of your holdings at the end of each distribution period.

To request a brochure containing information on the Plan, together with an authorization form, please contact the Plan Agent, EquiServe Trust Company N.A., P.O. Box 43011, Providence, RI 02490-3011 or call toll free on 1-800-426-5523.

Report of the Investment Manager (continued)

Auction Market Preferred Stock (AMPS)

The Fund's \$30 million of AMPS continued to be well bid at the weekly auctions. The average interest rate paid was 1.29% over the quarter ended July 31, 2003, compared with 1.15% for 30-day U.S. commercial paper over the same period. These rates declined over the period as the U.S. Federal Reserve eased interest rates by 0.25% in late June. The rates paid to preferred shareholders have decreased further since July 31, 2003 to a level of 1.20% as of the date of this report. Over the past year, the impact of AMPS on the Fund has been positive, as the key currencies of the Fund -- the Australian dollar, British pound, New Zealand dollar and Canadian dollar -- all strengthened against the U.S. dollar. Most key Asian currencies followed a similar trend, with the Korean won, Thai baht, Singapore dollar and Indonesian rupiah all rising over the twelve months. In addition, the fact that U.S. interest rates have remained at historic lows has meant that the differential between AMPS funding rates and the yields at which the Fund invests remains positive.

On September 16, 2002, the Fund entered into a two-year interest rate swap agreement in order to hedge one-third of the Fund's outstanding issue of AMPS. Under the original terms of the agreement, the Fund received a floating rate of interest (one month USD-LIBOR BBA rate) based on a notional amount of US\$10,000,000 and paid interest at a fixed rate of 2.46%. The fixed rate interest payment was re-priced to 2.10% on October 1, 2002, to 1.7175% on December 24, 2002 and then to 1.37% on February 18, 2003.

The Board of Directors has resolved to amend the Fund's policies with respect to derivatives to increase the percentage of the Fund's AMPS liabilities which may be hedged pursuant to interest rate swaps from one-third to up to 100% of the AMPS liabilities. A significant type of risk associated with interest rate swaps is the risk that the counterparty may default or file for bankruptcy, in which case the Fund would bear the risk of loss of the amount expected to be received under the swap agreement. There can be no assurance that the Fund will have an interest rate swap in place at any given time nor can there be any assurance that, if an interest rate swap is in place, it will be successful in hedging the Fund's interest rate risk with respect to the AMPS. The implementation of this strategy is at the discretion of the AMPS Pricing Committee of the Board of Directors.
