PROXY STATEMENT

Annual Meeting of Stockholders of the Company to be held on April 23, 2008

PROXY SOLICITATION AND VOTING INFORMATION

This Proxy Statement is furnished in connection with the solicitation of proxies by the Board of Directors (the "Board") of Sturm, Ruger & Company, Inc. (the "Company") for use at the 2008 Annual Meeting of Stockholders (the "Meeting") of the Company to be held at 10:30 a.m. on April 23, 2008 at the Trumbull Marriott, 180 Hawley Lane, Trumbull, Connecticut 06611 or at any adjournment or postponement thereof for the purposes set forth in the accompanying Notice of Annual Meeting of Stockholders. This Proxy Statement and enclosed proxy are first being sent to stockholders on or about March 14, 2008. This Proxy Statement has been posted and is available on the SEC website at www.sec.gov and the Company's website at www.ruger.com.

The mailing address of the principal executive office of the Company is 1 Lacey Place, Southport, Connecticut 06890.

If the enclosed proxy is signed and returned, it will be voted in accordance with its terms. However, a stockholder of record may revoke his or her proxy before it is exercised by: (i) giving written notice to the Company's Secretary at the Company's address indicated above, (ii) duly executing a subsequent proxy relating to the same shares and delivering it to the Company's Secretary at or before the Meeting or (iii) attending the Meeting and voting in person (although attendance at the Meeting will not, in and of itself, constitute revocation of a proxy). All expenses in connection with the solicitation of these proxies, which are estimated to be \$120,000, will be borne by the Company. We encourage our stockholders to contact the Company's transfer agent, Computershare Investor Services, LLC, or their stockbroker to sign up for electronic delivery of proxy materials in order to reduce printing, mailing and environmental costs.

The Company's Annual Report on Form 10-K for the year ended December 31, 2007, including financial statements, is enclosed herewith and has been posted and is available on the SEC website at www.sec.gov and the Company's website at www.ruger.com.

Only holders of Common Stock, \$1.00 par value, of the Company (the "Common Stock") of record at the close of business on March 4, 2008 will be entitled to vote at the Meeting. Each holder of record of the issued and outstanding shares of voting Common Stock is entitled to one vote per share. As of March 1, 2008, 20,571,817 shares of Common Stock were issued and outstanding and there were no outstanding shares of any other class of stock. The stockholders holding a majority of the issued and outstanding Common Stock, either present in person or represented by proxy, will constitute a quorum for the transaction of business at the Meeting.

In accordance with the Company's By-Laws and applicable law, the election of Directors will be determined by a plurality of the votes cast by the holders of shares present in person or by proxy and entitled to vote. Consequently, the eight nominees who receive the greatest number of votes cast for election as Directors will be elected. Shares present which are properly withheld as to voting with respect to any one or more nominees, and shares present with respect to which a broker indicates that it does not have authority to vote ("broker non-votes"), will be counted as being present at the Meeting. However, these shares will not be counted as voting on the election of Directors, with the result that such abstentions and broker non-votes will have no effect as votes on the election of Directors.

The affirmative vote of shares representing a majority of the shares present and entitled to vote is required to ratify the appointment of McGladrey & Pullen, LLP as the Company's independent auditors for the 2008 fiscal year, which is also to be voted on at the Meeting, and to approve any other matters properly presented at the

Meeting. Shares which are voted to abstain on these matters and broker non-votes will be considered present at the Meeting but will not be counted as voting for these matters, with the result that abstention and broker non-votes will have the same effect as votes against the proposal.

PROPOSAL NO. 1 – ELECTION OF DIRECTORS

Eight Directors will be elected at the Meeting, each to hold office until the next Annual Meeting of Stockholders or until his successor is elected and has qualified.

Background

Below is a discussion of certain events regarding the Board of Directors that have taken place since January 1, 2007, at which time the members of the Board were Michael O. Fifer, Stephen L. Sanetti, John A. Cosentino, Jr., Richard T. Cunniff, C. Michael Jacobi, John M. Kingsley, Jr., Stephen T. Merkel, James E. Service and Ronald C. Whitaker:

- Ø On January 22, 2008, Richard T. Cunniff announced his intention to retire from the Board as of April 24, 2007, and the Board voted on that date to amend the By-Laws to reduce the number of Directors to eight as of April 24, 2007, rather than fill the vacancy to be created by Mr. Cunniff's retirement.
- Ø On April 24, 2007, the Board amended the Company's By-Laws to provide that the Chairman of the Board shall be an independent, non-management Director, shall preside at all meetings of the shareholders and Directors, including the executive sessions of non-management Directors, which would generally be held as part of each regularly scheduled Board meeting, and that an independent, non-management Lead Director shall be designated to preside at all Board meetings in the absence or disability of the Chairman .
- Ø On July 20, 2007, the Board restated the Company's By-Laws to, among other things, set a range for the size of the Board of between five and nine members.
- Ø The July 20, 2007 restatement of the By-Laws also provided for the issuance of uncertificated shares in order to allow the Company to participate in the Direct Registration System so that its investors may choose to have their Company shares registered in their names without the issuance of physical certificates. This system also generally allows investors to electronically transfer their shares to broker-dealers in order to effect transactions without the risk of delays associated with the transfer of paper certificates.
- Ø The July 20, 2007 restatement of the By-Laws also addressed certain procedural and timing matters for stockholder proposals, as detailed under "Nominating and Corporate Governance Committee" and "STOCKHOLDER COMMUNICATIONS" below.
- Ø On February 5, 2008, the Board established a policy that the maximum number of public boards on which a non-management Director may serve shall be five, inclusive of the Sturm, Ruger & Company, Inc. Board of Directors.
- Ø On February 5, 2008, the Board also established a policy requiring that, upon a change in employment, a Director submit a letter of resignation to the Board for its consideration.

COMMITTEES OF THE BOARD

Audit Committee

In 2007, the members of the Audit Committee of the Board were C. Michael Jacobi, John M. Kingsley, Jr. and Ronald C. Whitaker. Mr. Kingsley served as Audit Committee Chairman. Each of Messrs., Jacobi, Kingsley and Whitaker are considered "independent" for purposes of service on the Audit Committee under the rules of the NYSE, including Rule 303A thereof, and Rule 10A-3 of the Securities and Exchange Act of 1934, as amended (the "Exchange Act"). All members of the Audit Committee are financially literate and have a working familiarity with basic finance and accounting practices. In addition, the Company has determined that Mr. Kingsley is a "audit committee financial expert" as defined by the SEC rules and regulations. The Board has also affirmed that Mr. Jacobi's simultaneous service on more than three audit committees, as noted in his business biography under "DIRECTOR NOMINEES", does not impair his ability to effectively serve on the Company's Audit Committee.

The purpose of the Audit Committee is to provide assistance to the Board in fulfilling its responsibility with respect to its oversight of: (i) the quality and integrity of the Company's financial statements; (ii) the Company's compliance with legal and regulatory requirements; (iii) the independent auditor's qualifications and independence; and (iv) the performance of the Company's internal audit function and independent auditors. In addition, the Audit Committee prepares the report required by the SEC rules included in this Proxy Statement.

The Audit Committee is governed by a written charter that has been adopted by the Board. Report of the Audit Committee*

Management has the primary responsibility for the financial statements and the reporting process including the systems of internal controls. In fulfilling its oversight responsibilities, the Audit Committee reviewed and discussed the audited financial statements in the Annual Report with management, including a discussion of the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments, and the clarity of disclosures in the financial statements.

The committee reviewed with the independent auditors, who are responsible for expressing an opinion of the conformity of those audited financial statements with accounting principles generally accepted in the United States, their judgments as to the quality, not just the acceptability, of the Company's accounting principles and such other matters as are required to be discussed with the committee by Statement on Auditing Standards No. 61 (Codification of Statements on Auditing Standards, AU § 380). In addition, the committee has discussed with the independent auditors the auditors' independence from management and the Company, and has received the written disclosures and the letter from the independent auditors as required by Independence Standard Board Standard No. 1 "Independence Discussions with Audit Committees".

The committee discussed with the independent auditors the overall scope and plans for their audit. The committee met with the independent auditors, with and without management present, to discuss the results of their examinations, their evaluations of the Company's internal controls, and the overall quality of the Company's financial reporting. The committee held eight meetings during fiscal year 2007.

In reliance on the reviews and discussions referred to above, the committee recommended to the Board of Directors that the audited financial statements be included in the Annual Report on Form 10-K for the year ended December 31, 2007 for filing with the Securities and Exchange Commission.

Nominating and Corporate Governance Committee

In 2007, the members of the Nominating and Corporate Governance Committee were James E. Service, John A. Cosentino, Jr., C. Michael Jacobi and Richard T. Cunniff, until his retirement from the Board on April 24, 2007. Admiral Service served as Nominating and Corporate Governance Committee Chairman. Each of Messrs. Cosentino, Jacobi and Service are, and Mr. Cunniff was, considered "independent" for purposes of service on the Nominating and Corporate Governance Committee under the rules of the NYSE, including Rule 303A thereof.

The Nominating and Corporate Governance Committee is responsible to the Board for identifying, vetting and nominating potential Directors and establishing, maintaining and supervising the corporate governance program. Some of these responsibilities are discussed in more detail below.

The Nominating and Corporate Governance Committee is governed by a written charter that has been adopted by the Board. The Nominating and Corporate Governance Committee charter is posted on the Company's website at www.ruger.com, and is available in print to any stockholder who requests it by contacting the Corporate Secretary as set forth in "STOCKHOLDER COMMUNICATIONS" below.

The Nominating and Corporate Governance Committee held four meetings during 2007. All members of the committee attended all meetings of that committee during their 2007 tenure.

As required under its charter, the Nominating and Corporate Governance Committee has adopted criteria for the selection of new Directors, including, among other things, career specialization, technical skills, strength of character, independent thought, practical wisdom, mature judgment, and gender and ethnic diversity. Functional skills considered important for Directors to possess include experience as a chief executive or financial officer or similar position in finance, audit, manufacturing, advertising, military, or government, and knowledge and familiarity of firearms and the firearms industry. The committee will also consider any such qualifications as required by law or applicable rule or regulation, and will consider questions of independence and conflicts of interest. In addition, the following characteristics and abilities, as excerpted from the Company's Corporate Board Governance Guidelines, will be important considerations of the Nominating and Corporate Governance Committee:

Ø personal and professional ethics, strength of character, integrity and values;

Ø success in dealing with complex problems or have obtained and excelled in a position of leadership;

Ø sufficient education, experience, intelligence, independence, fairness, reasoning ability, practicality, wisdom and vision to exercise sound and mature judgment;

Ø stature and capability to represent the Company before the public and the stockholders;

Ø the personality, confidence and independence to undertake full and frank discussion of the Company's business assumptions;

Ø willingness to learn the business of the Company, to understand all Company policies and to make themselves aware of the Company's finances; and

Ø willingness at all times to execute their independent business judgment in the conduct of all Company matters.

The charter also grants the Nominating and Corporate Governance Committee the responsibility to identify and meet individuals believed to be qualified to serve on the Board and recommend that the Board select candidates for directorships. The Nominating and Corporate Governance Committee's process for identifying and evaluating

nominees for Director, as set forth in the charter, includes inquiries into the backgrounds and qualifications of candidates. These inquiries include studies by the Nominating and Corporate Governance Committee and may also include the retention of a professional search firm to be used to assist it in identifying or evaluating candidates. The Nominating and Corporate Governance Committee has previously retained the firm of Korn/Ferry International to assist in the search for qualified Directors.

The Nominating and Corporate Governance Committee has a written policy which states that it will consider Director candidates recommended by stockholders. There is no difference in the manner in which the Nominating and Corporate Governance Committee will evaluate nominees recommended by stockholders and the manner in which it evaluates candidates recommended by other sources. Shareholder recommendations for the nomination of directors should set forth (a) as to each proposed nominee, (i) their name, age, business address and, if known, residence address, (ii) their principal occupation or employment, (iii) the number of shares of stock of the Company which are beneficially owned by each such nominee and (iv) any other information concerning the nominee that must be disclosed as to nominees in proxy solicitations pursuant to Regulation 14A under the Securities Exchange Act of 1934, as amended (including such person's written consent to be named as a nominee and to serve as a director of the Company if elected); (b) as to the shareholder giving the notice, (i) their name and address, as they appear on the Company's books, (ii) the number of shares of the corporation which are beneficially owned by such shareholder and (iii) a representation that such shareholder is a holder of record of stock of the Company entitled to vote at such meeting and intends to appear in person or by proxy at the meeting to propose such nomination; and (c) as to the beneficial owner, if any, on whose behalf the nomination is made, (i) the name and address of such person and (ii) the class and number of shares of the Company which are beneficially owned by such person. The Company may require any proposed nominee to furnish such other information as it may reasonably require to determine the eligibility of a proposed nominee to serve as a director of the Company, including a statement of the qualifications of the candidate and at least three business references. All recommendations for nomination of directors should be sent to the Corporate Secretary, Sturm, Ruger & Company, Inc., 1 Lacey Place, Southport, CT 06890. The Corporate Secretary will accept such recommendations and forward them to the Chairman of the Nominating and Corporate Governance Committee. In order to be considered for inclusion by the Nominating and Corporate Governance Committee as a candidate at the Company's next Annual Meeting of Stockholders, stockholder recommendations for director candidates must be received by the Company in writing delivered or mailed by first class United States mail, postage prepaid, no earlier than December 24, 2008 (120 days prior to the first anniversary of this year's Annual Meeting of Stockholders,) and no later than January 23, 2009 (90 days prior to the first anniversary of this year's Annual Meeting of Stockholders.)

The Company has not rejected any Director candidates put forward by a stockholder or group of stockholders who beneficially owned more than 5 % of the Company's Common Stock for at least one year prior to the date of the recommendation.

Executive Operations Committee

Effective August 1, 2006, the Board established the Executive Operations Committee to collaborate with the Company's executive team during the recent transition in the management of the Company, and appointed John A. Cosentino, Jr. and C. Michael Jacobi as Co-Chairs and James E. Service as a member of the Executive Operations Committee. The need to continue the Executive Operations Committee is evaluated by the Board annually, and as a result of such evaluation and upon the recommendation of the Chief Executive Officer, the committee's continuance has been extended by the Board through 2008. The Board established the Executive Operations Committee's responsibilities and roles as follows:

- Ø To act as the Board's representatives in providing advisory leadership to management as needed, and to ensure that all the expert resources, experiences and skill sets of the Board are constructively deployed in improving the business performance of the Company;
- Ø To establish and implement a strategic business plan that enables the delivery of the growth and profitability objectives of the Company's stockholders;
- Ø To develop and implement the Ruger Business System, a robust, Company-wide business system based on "lean" principles and practices, designed to become indelibly rooted and capable of sustaining itself beyond the tenure of the current management team;
- Ø To identify, recruit and develop key executive and management level personnel needed to execute the Company's strategic and operational plans and to ensure a viable succession plan;
- Ø To conduct ongoing oversight of Company operations and business performance, including operations and strategy deployment reviews with executive management;
- Ø To identify and explore major initiatives, such as acquisition analyses, major new program proposals and business opportunities; and
- Ø To ensure overall executive team effectiveness, collaboration and communication within management and with the Board.

The Executive Operations Committee held ten meetings during 2007. All members of the committee attended at least 75% of the meetings of the committee during their 2007 tenure.

MEMBERSHIP AND MEETINGS OF THE BOARD AND ITS COMMITTEES

In 2007, each Director attended at least 75% of the total number of 2007 meetings of the Board and its Committees on which he served during his 2007 tenure, with the exception of C. Michael Jacobi, who was unable to attend two telephonic meetings of the Board due to prior commitments, but who was separately apprised in advance of the business of those meetings.

In addition, all then-current members of the Company's Board attended the 2007 Annual Meeting of Stockholders. It is the policy of the Company that attendance at all meetings of the Board, all committee meetings, and the Annual Meeting of Stockholders is expected, unless the Director has previously been excused by the Chairman of the Board for good cause. Committee memberships and the number of meetings of the full Board and its committees held during the fiscal year 2007 are set forth in the table below. All committee memberships were effective as of January 1, 2007. When feasible and appropriate, it is the practice of the Board to hold its regular committee meetings in conjunction with the regular meetings of the Board of Directors.

(1) Richard T. Cunniff retired from the Board on April 24, 2007.

NON-MANAGEMENT DIRECTORS

The non-management members of the Board meet regularly in executive sessions, and each such meeting is led by the non-executive Chairman of the Board, or in his absence, a presiding Director. James E. Service has served as the non-executive Chairman of the Board since February 24, 2006. Richard T. Cunniff served as presiding Director from September 11, 2005 until his retirement on April 24, 2007. Historically, the non-management Director with the greatest length of service as a Company Director was chosen annually for a one-year term as presiding Director at the first executive session held in concurrence with the organizational meeting of the Board held after each Annual Meeting of Stockholders. On April 24, 2007, the By-Laws were amended to define the Chairman of the Board as an independent, non-management Director who would also preside at all meetings of the Board, including meetings of the non-management Directors in executive session, which would generally occur as part of each regularly scheduled Board meeting. The April 24, 2007 By-Law amendment also provided that an independent, non-management Lead Director would be named to preside at stockholder, Board and executive session meetings and to act as an intermediary between the non-management Directors and management of the Company when special circumstances exist or communication out of the ordinary course is necessary, such as the absence or disability of the non-executive Chairman of the Board. John A. Cosentino, Jr. was appointed Lead Director by the Board on April 24, 2007.

Only non-management, independent Directors served on any committees of the Board.

DIRECTOR AND COMMITTEE COMPENSATION

The Board believes that compensation for the Company's independent Directors should be a combination of cash and equity-based compensation. The Directors and the Compensation Committee annually review Director compensation utilizing published compensation studies. Any recommendations for changes are made to the full Board by the Compensation Committee. In 2006 and 2007, as a result of these reviews, the Directors fee structure was changed as described below.

Director's Fees and Other Compensation

As of June 1, 2006, the Board approved a fee schedule whereby all non-management independent Directors receive annual retainer compensation of \$75,000. The retainer compensation is paid as \$50,000 in cash and \$25,000 in restricted stock. In addition to the annual retainer fees, the Board Chairman receives \$20,000, the Audit Committee Chairman receives \$10,000 and the Compensation Committee Chairman and the Nominating and Corporate Governance Committee Chairman each receive \$7,500. Payment for service on more than two committees was discontinued effective January 1, 2007. As of August 1, 2006, the Board established an Executive Operations Committee, as described above, and established additional committee fees of \$50,000 per year for this Committee's Co-Chairs and \$7,500 per year for its members.

The annual retainer award of \$25,000 worth of restricted stock was initially deferred subject to stockholder ratification of the 2007 SIP at the 2007 Annual Meeting of Stockholders. Pending such ratification, the independent Directors received \$25,000 per year in additional cash compensation, prorated from June 1, 2006 and continuing until June 30, 2007. On May 4, 2007, the date that the shares authorized under the 2007 Stock Incentive Plan were registered with the SEC following the April 24, 2007 stockholder ratification of the plan, the Board received their first annual awards of \$25,000 worth of restricted stock and therefore discontinued the payment of additional cash compensation. The Board also approved the retroactive reduction of their cash compensation from \$75,000 to \$50,000 per year effective April 1, 2007, the quarter in which the 2007 Stock Incentive Plan was approved by the Company's stockholders.

Under the 2007 Stock Incentive Plan, options to purchase 20,000 shares of the Company's Common Stock are granted to Directors when they are first elected at an exercise price equal to the closing price on the date of award. These options vest and become exercisable in four equal annual installments of 25% of the total number of options awarded, beginning on the date of grant and on each of the next succeeding three anniversaries thereafter. Until the April 24, 2007 ratification of the 2007 Stock Incentive Plan, these options were previously granted under the 2001 Stock Option Plan for Non-Employee Directors.

Directors are covered under the Company's business travel accident insurance policy for \$300,000 while traveling on Company business, and are covered under the Company's director and officer liability insurance policies for claims alleged in connection with their service as a Director.

All Directors were reimbursed for out-of-pocket expenses related to attendance at meetings.

- (3) Non-qualified stock option awards were granted as of date of election to Board under the Company's 2001 Stock Option Plan for Non-Employee Directors at an exercise price equal to the closing price of the Common Stock on the date of grant. These options vest and become exercisable in four equal annual installments of 25% of the total options awarded, beginning on the date of grant and on each of the next three anniversaries thereafter. See Note 5 of the consolidated financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2007 regarding assumptions underlying valuation of equity awards.
- (5) This column represents the sum of the change in pension value in 2007 for each Director, and applies only to Directors who were former employees of the Company. Mr. Kingsley is the only Director who is a former employee of the Company. Mr. Kingsley's total change in pension value is related to his service as Executive Vice

President of the Company from 1971 to 1996. No Director received preferential or above-market earnings on deferred compensation (also see Note 6 below). The change in pension value is calculated based on a 5.75% discount rate, the 2000 Group Mortality Table, average earnings and service credits as of December 31, 2007, and in the case of the SERP, a COLA assumption of 1.5% per year. See "PENSION PLANS" and the "PENSION BENEFITS TABLE" below for additional information, including the present value assumptions used in the calculation.

(6) The Company's non-management Directors do not receive non-equity incentive plan compensation, pension or medical plan benefits or non-qualified deferred compensation.

(7) Richard T. Cunniff retired from the Board on April 24, 2007.

Directors' Beneficial Equity Ownership

In 2006 the Board set a minimum equity ownership requirement for Non-Management Directors of five times their annual base cash retainer of \$50,000, to be achieved within five years of the later of the date of adoption or the date of a Director's election. As Directors are expected to hold a meaningful ownership position in the Company, a significant portion of overall Director compensation is intended to be in the form of Company equity. This has been partially achieved through options granted to each independent Director under the 2001 Stock Option Plan for Non-Employee Directors and through option grants and restricted stock awards under the 2007 Stock Incentive Plan, which was approved at the 2007 Annual Shareholders Meeting. The current amounts of Common Stock beneficially owned by each Director may be found in the "BENEFICIAL OWNERSHIP TABLE" below.

INDEPENDENT DIRECTORS' OUTSTANDING OPTION AWARDS AT FISCAL YEAR END 2007 TABLE

COMPENSATION DISCUSSION AND ANALYSIS

What is the Company's Philosophy Regarding Compensation and what are the Compensation Program Objectives and Rewards?

The Company's executive compensation program is designed to reward both corporate and individual performance in an environment that reflects commitment, responsibility and adherence to the highest standards of ethics and integrity. Recognition of both individual contributions as well as overall business results permits an ongoing evaluation of the relationship between the size and scope of the Company's operations, its performance and its executive compensation.

The program's objectives are to attract, retain and motivate the workforce that helps to ensure our future success, support a lean and flexible business model culture and to help achieve overall business objectives in order to provide our stockholders with a superior rate of return.

What are the Company's Governance Practices Regarding Compensation?

Stockholders: The 2007 Stock Incentive Plan (the "2007 SIP"), which was approved by the stockholders at the Company's 2007 Annual Meeting, replaced all previous stock incentive plans. The Company does not have any stock plans that are not stockholder-approved.

Board and Compensation Committee and Nominating and Corporate Governance Committee: The Compensation Committee and the Board determine the compensation of the Company's executive officers, including the individuals whose compensation is detailed in this Proxy Statement. The Compensation Committee, which is composed entirely of independent Directors, establishes and administers compensation programs and philosophies. The Compensation Committee ensures that stockholder-approved plans are administered in accordance with good governance practices and stockholder intent. The Compensation Committee is responsible for approval of salaries, bonuses and long-term incentive compensation paid to executive officers, bonus pools for non-executive employees, retirement formulas for executive officers, deferred compensation plans, and any employment and change-in-control agreements. In addition, the performance of each executive officer is evaluated by the Nominating and Corporate Governance Committee and reported to the full Board. The full Board reviews the Compensation Committee and Nominating and Corporate Governance Committee reports and acts on recommendations of the Compensation Committee.

Management: The Chief Executive Officer's views regarding the performance and recommended compensation levels for the Company's executive officers are discussed with all of the non-management Directors, including the Compensation Committee and the Nominating and Corporate Governance Committee. Within management, the Chief Executive Officer and the Secretary serve as liaisons with these committees.

What are the Company's Governance Practices Regarding Stock Options?

The use of equity compensation is a significant component of the Company's overall compensation philosophy and is one that the Company plans to continue. The Company's philosophy is built on the principles that equity

compensation should seek to align participants' actions and behaviors with stockholders' interests, be market-competitive, and be able to attract, motivate and retain the best employees, independent contractors and Directors.

The Compensation Committee and the Board consider recommendations from the Chief Executive Officer in establishing appropriate option grants to officers or employees. The Company's policy for setting the timing of stock option grants does not allow executives to have any role in choosing the price of their options or other stock awards. The Company has never "back dated" or re-priced options or other stock awards, and on February 5, 2008, the Board clarified the 2007 Stock Incentive Plan to state that repricing of options is not allowed under the plan. On October 23, 2007, the Company also established a policy that stock options or stock grants for employees will be issued only on the fourth business day following public quarterly filing of the Company's Forms 10-K or 10-Q in order to allow the investment markets adequate time to assimilate the current financial information, and will be valued at the mean between the highest and lowest sales prices of the Company's common stock on the New York Stock Exchange on the date of grant. Prior to October 23, 2007, employee option awards were valued at the closing price of the Company's Common Stock on the date of grant.

The Compensation Committee approves stock option awards, including the specific number of options granted to specific individuals, which are then ratified by the full Board

All stock option awards have been, and will continue to be, subject to the approval of the Compensation Committee and the Board. The Company's Corporate Secretary is responsible for issuing grants upon their approval by the Compensation Committee and the Board and maintaining records of all grants issued, exercised or terminated in accordance with the terms of the 1998 Stock Incentive Plan, 2001 Stock Option Plan for Non-Employee Directors and the 2007 SIP.

What are the Elements of Compensation?

The key elements of the Company's executive compensation consist of:

Cash Compensation: Base salary and performance bonuses.

Equity Compensation: Pursuant to the Company's 2007 Stock Incentive Plan approved by the Company's stockholders on April 24, 2007, which replaced all prior stock incentive plans, the Company may make grants of stock options, restricted stock, deferred stock and stock appreciation rights ("SARS"), any of which may or may not require the satisfaction of performance objectives.)

Retirement Benefits: Until December 31, 2007, the Company offered a tax-qualified defined-benefit Salaried Employee's Retirement Income Plan (the "Pension Plan") to all salaried employees and a non-qualified defined-benefit Supplemental Executive Retirement Plan (the "SERP") to one employee and two retired employees. In 2007, the Company's Pension Plan was amended so that employees will no longer accrue benefits under it effective December 31, 2007. This action "freezes" the benefits for all employees and prevents future hires from joining the plans, effective December 31, 2007. Starting in 2008, the Company will provide supplemental discretionary contributions to substantially all employees' individual 401(k) Plan accounts. In 2007, the Company's SERP was amended effective December 31, 2007 so that lump-sum payments of the benefits accrued were paid to the one employee and one of the two retiree participants. There are no current employees participating in the SERP. For further discussion, see "PENSION PLANS" below.

Health, Welfare and Other Insurance Benefits: The Company offers the same health and welfare benefits to all salaried employees. These benefits include medical benefits, dental benefits, vision benefits, life insurance, salary continuation for short-term disability, long-term disability insurance, accidental death and dismemberment insurance and other similar benefits. Because these benefits are offered to a broad class of employees, the cost is not required by SEC rules to be included in the "SUMMARY COMPENSATION TABLE" below.

Officers are covered under the Company's business travel accident insurance policy for \$1,000,000 while traveling at any time. Officers are also covered under the Company's director and officer liability insurance policies for claims alleged in connection with their service as an officer, as applicable.

Severance Agreements: The Company has a Severance Policy that covers all employees. In addition, the officers of the Company are offered specific severance agreements that provide severance benefits to them when their employment terminates as a result of a change in control or by the Company without cause. For further discussion, see "Potential Payments Upon Termination or Change in Control" below.

Why Does the Company Choose to Pay Each Element?

The Company's compensation and benefits programs is designed to fulfill the Company's need to attract, retain and motivate the highly talented individuals who will engage in the behaviors necessary to enable the Company to achieve its business objectives while upholding our values in a highly competitive marketplace. The reasons for each of the elements of compensation are:

- Base salaries and retirement and welfare benefits are designed to attract and retain employees over time;
- Incentive bonuses, which are paid in cash or a combination of cash and deferred stock, are designed to focus executives and employees on important Company-wide performance goals;
- Long-term equity incentives, including non-qualified or incentive stock options, SARS and restricted stock and deferred stock awards are designed to focus executives' efforts on their individual contributions to the long-term success of the Company, as reflected in increases to the Company's stock prices over a period of several years, growth in its earnings per share and other measurements of corporate performance; and
- Severance Agreements, which are designed to facilitate the Company's ability to attract and retain talented executives and encourage them to remain focused on the Company's business during times of corporate change.

As a result of the Company's equity and non-equity incentive plan awards, a significant portion of the Company's executive compensation is linked directly to individual and corporate performance. The Compensation Committee intends to continue the policy of linking executive compensation to corporate and individual performance, recognizing that the ups and downs of the business cycle from time to time may result in an imbalance for a particular period.

How Does the Company Determine the Amount/Formula for Each Element?

Generally, each element of compensation is evaluated independently to determine whether it is competitive within the market as a whole, and then the aggregate compensation is evaluated to determine whether it is competitive and reasonable within the market as a whole, as further described below.

How are Salaries Determined?

Salaries for executive officers are determined by considering historical salaries paid by the Company to officers having certain duties and responsibilities, by comparing those salaries to required market rates for compensation of new executives being recruited to the company, and then evaluating the current responsibilities of the officer's position, the scope and performance of the operations under their management and the experience and performance of the individual.

In making its salary decisions, the Compensation Committee places its emphasis on the particular executive's experience, responsibilities and performance. No specific formula is applied to determine the weight of each factor. The Compensation Committee has historically followed a policy of using incentive bonus awards rather than base salary to reward outstanding performance, and base salaries are not typically adjusted each year.

How are Bonuses Determined?

The Company's executive officers are eligible for an annual performance incentive bonus and discretionary bonuses. The annual performance incentive bonuses are based on operating performance metrics and goals approved by the Compensation Committee and ratified by the Board. Discretionary bonuses are awarded under special circumstances and are approved by the Compensation Committee and ratified by the Board. All employees, including

the officers, shared the same goals for 2007. In 2008, all employees will participate in a quarterly profit sharing and supervisory employees, management-level employees and officers will additionally participate in the performance-based incentive bonus program.

Under the performance based incentive program, bonus opportunities range from between 0% to 150% of each employee's incentive bonus grade level, depending on the Company's operating performance results. Incentive bonus grade levels for individuals vary from 5% to 75% of their annual base salary or hourly wage compensation.

The Company has adopted a policy that officers of the Company shall have 25% of any performance incentive bonus that is earned paid in three-year-deferred stock in lieu of cash. The quantity of deferred stock shall be determined based upon a 1/3 discount to market price, which discount shall cliff vest after the three year deferral period is completed.

How are Equity Compensation Awards Determined?

Equity compensation awards are given to key employees and officers of the Company to align their long-term interests with those of the shareholders. In 2006 the Company adopted a practice whereby key new executives hired by the Company would receive an initial, one-time award of stock options with time-based vesting. New Vice Presidents were granted 100,000 such options and the new Chief Executive Officer was granted 400,000 such options. In 2007, the Company extended the practice to include more modest, annual awards of options with performance-based vesting. The Chief Executive Officer was granted 40,000 such options and the other Named Executive Officers were granted 15,000 such options. Other officers and senior managers rated for their superior performance were also granted such options in quantities reflecting the level of their responsibility. It is anticipated that the Company will continue to grant annual performance-based stock options in similar quantities going forward.

The performance-based options vest only upon achievement of earnings-based operating goals within three years of grant. If the goals are not met within three years of grant, the options do not vest and they expire.

The Compensation Committee considers previous grants, tenure and responsibilities of an executive and the recommendation of the Chief Executive Officer when determining the amount of stock awards to be granted.

In early 2007 the Company also awarded restricted stock grants to the officers of the Company equal to 10% of their base salary in recognition of their performance during the transition year of 2006. These awards were intended to be a one-time grant. In 2007 the Company also awarded a \$250,000 restricted stock grant to the Chief Executive Officer of the Company in accordance with the terms of his 2006 employment offer from the Company.

What are the Company's Ongoing Plans for Plan-Based Equity Compensation?

The Company intends to consider annually the grant of performance-based stock options for management-level employees as described above. The performance goals will likely vary from year to year and will be based on the perceived needs of the business at the time of the award.

The Company does not currently anticipate expansion of the equity compensation program as described above.

How is the Chief Executive Officer's Performance Evaluated and Compensation Determined?

The Nominating and Corporate Governance Committee, the Compensation Committees and the Board as a whole annually evaluate the performance and review the compensation of the Chief Executive Officer utilizing a variety of criteria. The job objectives established for the Chief Executive Officer are:

Ø To promote and require the highest ethical conduct by all Sturm, Ruger & Company, Inc. employees and demonstrate personal integrity consistent with the Company's Corporate Governance Guidelines.

Ø To establish, articulate and support the vision for the Company that will serve as a guide for expansion.

Ø To align physical, human, financial and organizational resources with strategies.

POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE IN CONTROL

Payments on Change in Control

In the event of a potential change in control of the Company, it is vitally important that executives be able to continue working in the best interest of our stockholders. For that reason, in 2006, the Company entered into severance agreements (the "Severance Agreements") with certain executive officers designed to provide salary and medical benefit continuance in the event of the termination of his or her employment under certain circumstances. These agreements are not employment contracts and do not specify an employment term, compensation levels or other terms or conditions of employment.

There are also change-in-control provisions in the stock option agreements issued pursuant to the Company's stockholder-approved 1998 Stock Incentive Plan and 2007 Stock Incentive Plan.

The 2006 Severance Agreements have both single and double trigger components. The "single trigger" arrangements require payout immediately upon a change in control and in situations where there is a "double trigger" a Change in Control must be followed by an involuntary loss of employment, a reduction in salary or duties or other event for the Named Executive Officer to be eligible to receive severance benefits.

On February 5, 2008, the Board approved a revised form of severance agreement which has been offered to, and is under consideration by, all of the Company's executive officers. The revised form of severance agreement is intended to standardize the severance benefits to be provided and simplify and standardize the language of the severance agreements. It also expands those benefits to include base salary and medical insurance continuation in cases of termination without cause for a minimum of 12 months and a maximum of 18 months. Absent the revised form of severance agreement, benefits in cases of termination without cause are covered by the Employee Severance Plan, a formal severance plan for all employees, and under which officers will receive one month's salary per year of service, plus medical insurance continuation, for a minimum of six months and a maximum of 18 months.

Covered Terminations and Severance Payments Pursuant to Change in Control Agreements

Each of the Named Executive Officers entered into a Severance Agreement that provides for the following:

Michael O. Fifer

Michael O. Fifer's severance agreement provides for severance benefits, if during the term of the agreement: (A) he is terminated without cause or (B) there is a Change in Control and a subsequent reduction of his salary or a diminution of his duties and thereafter he terminates his employment. In the situation described in clause (A) above, he will receive a lump sum cash payment equal to 18 months of his annual base salary. In the situation described in clause (B) above, he will receive an amount equal to a lump sum cash payment equal to 18 months of his annual base salary and 100% of his target cash bonus and continued insurance benefits. Such continued insurance benefits are to be paid by Mr. Fifer for a period equal to the greater of: (x) the remaining term in effect under his Severance Agreement at the time of the Change in Control or (y) the period that such coverage would be maintained if Mr. Fifer was fully eligible to receive severance benefits as is otherwise maintained by the Company for full time employees, for a period not to exceed two years from the date that Mr. Fifer's employment with the Company ceases.

Stephen L. Sanetti

Stephen L. Sanetti's Severance Agreement provides for severance benefits, if during the term of the agreement: (A) there is a Change in Control and he is terminated or (B) he is no longer President (this is a Change in Control event as defined in Mr. Sanetti's Severance Agreement) and thereafter he terminates his employment, or there

is a subsequent reduction in his salary and thereafter he terminates his employment. In the either of the situations described in clauses (A) and (B), he will receive: (i) a lump sum cash payment equal to the greater of (a) 18 months of annual base salary and 100% of his target bonus or (b) ½ month of salary for each year of employment service to the Company; and (ii) continued insurance benefits. Such continued insurance benefits are to be paid by Mr. Sanetti for a period equal to the greater of: (x) the remaining term in effect under his Severance Agreement at the time of the Change in Control or (y) the period that such coverage would be maintained if Mr. Sanetti was fully eligible to receive severance benefits as is otherwise maintained by the Company for full time employees, for a period not to exceed two years from the date that Mr. Sanetti's employment with the Company ceases.

Thomas A. Dineen and Robert R. Stutler

Thomas A. Dineen's and Robert R. Stutler's Severance Agreements provide for severance benefits, if during the term of each agreement: (A) there is a Change in Control and thereafter the officer terminates his employment or (B) there is a Change in Control and a subsequent reduction in salary or diminution of duties and thereafter he terminates employment. In either of the situations described in clauses (A) and (B) above, the executive officer will receive: (i) a lump sum cash payment equal to the greater of (a) 18 months of annual base salary and 100% of target bonus or (b) ½ month of salary for each year of employment service to the Company; and (ii) continued insurance benefits. Such continued insurance benefits are to be paid by the executive, for a period equal to the greater of: (x) the remaining term in effect under his Severance Agreement at the time of the Change in Control or (y) the period that such coverage would be maintained if the executive was fully eligible to receive severance benefits as is otherwise maintained by the Company for full time employees for a period not to exceed two years from the date that the executive's employment with the Company ceases.

Thomas P. Sullivan

Thomas P. Sullivan's Severance Agreement provides for severance benefits, if during the term of the agreement: (A) there is a Change in Control and he is terminated or (B) there is a Change in Control and he no longer reports directly to the Chief Executive Officer and thereafter he terminates his employment, or there is a Change in Control and a subsequent reduction in his salary and thereafter he terminates his employment. In either of the situations described in clauses (A) and (B) above, he will receive (i) a lump sum cash payment equal to the greater of (a) 18 months of base salary and 100% of his target bonus or (b) ½ month of salary for each year of employment service to the Company; and (ii) continued insurance benefits. Such continued insurance benefits are to be paid by Mr. Sullivan, for a period equal to the greater of: (x) the remaining term in effect under his Severance Agreement at the time of the Change in Control or (y) the period that such coverage would be maintained if Mr. Sullivan was fully eligible to receive severance benefits as is otherwise maintained by the Company for full time employees, for a period not to exceed two years from the date that Mr. Sullivan's employment with the Company ceases.

In all cases, payment of severance benefits will be subject to the six-month deferral requirements of under the IRS Tax Code Section 409A. All of the agreements have a one-year term, subject to automatic renewal on each anniversary of its date unless either side gives notice of intent not to renew at least one year in advance. The amount of severance and benefits are generally determined based on competitive market practices for executives at this level. The Compensation Committee also takes into consideration that executives at this level generally require a longer timeframe to find comparable jobs because there are fewer jobs at this level in the market and often have a large percentage of their personal wealth dependent on the status of the Company, given the fact that a large part of their compensation is stock option-based.

Change in Control Events and Severance Benefits Not Covered by the Severance Agreements

The 1998 Stock Incentive Plan and 2007 Stock Incentive Plan provide for accelerated vesting of stock awards that the executive has already received, not for additional payments. The 1998 Stock Incentive Plan has a single trigger component, the Change in Control event. In other words, if there is a Change in Control event, the accelerated vesting of stock-based compensation will occur whether or not the executive's employment is terminated. This further protects the executive because it provides him or her with an opportunity to exercise and vote the option shares as a stockholder. The 2007 Stock Incentive Plan also has a single trigger change in control accelerated vesting component which will apply unless, in the case of a merger or acquisition of the Company by another business entity, the surviving, continuing, or purchasing corporation assumes the awards previously issued under that plan.

In addition, under the Company's current practice, the Named Executive Officers are potentially eligible to receive certain severance benefits in the event that they are terminated without cause other than in a Change in Control circumstance from the Sturm, Ruger & Company, Inc. Employee Severance Plan, a formal severance plan for all employees approved by the Board in 2006, and under which officers, in the event of termination without cause, will receive one month's salary per year of service, plus medical insurance continuation, for a minimum of six months and a maximum of 18 months. On February 5, 2008, the Board approved a revised form of severance agreement which has been offered to all of the Company's executive officers. The revised form of severance agreement expands the severance benefits to include base salary and medical insurance continuation in cases of termination without cause for a minimum of 12 months and a maximum of 18 months.

The Company's SERP provides that in the event of a Change in Control, participants in pay status will receive a lump-sum payment equal to the present value of the participant's benefit. Those not in pay status immediately prior to a Change in Control will: (i) become fully vested upon the change in control and (ii) if their employment with the Company is terminated under certain circumstances within three years after a Change in Control, become entitled to a lump-sum payment following such termination of employment. However, on December 20, 2007, Stephen L. Sanetti, the only current employee participating in the SERP during 2007, elected to receive a lump-sum cash settlement of his accrued SERP benefits on February 1, 2008.

Change in Control Definition

Generally, under the Severance Agreements and the 1998 Stock Incentive Plan and 2007 Stock Incentive Plan, a "Change in Control" will be deemed to have occurred:

- When any person acquires a significant percentage of the voting power of the Company (50% or more under the 1998 Stock Incentive Plan, and 25% or more under the 2007 Stock Incentive Plan);
- If a majority of the Board members change, unless the new Directors are elected or nominated for election by at least two-thirds of the existing Board members;
- upon the acquisition of the Company; or
- upon the liquidation or dissolution of the Company (with approval of the stockholders)

Termination by Death or Disability

In the event of death or disability, executives receive no payment other than through life insurance or disability insurance available to salaried employees generally. Under the 1998 Stock Incentive Plan, all options may be exercised for 90 days after death or disability to the extent vested on the date of such death or total disability. Under the 2007 Stock Incentive Plan, vested options are exercisable in the case of death or disability within the greater of: 30 days, or one-fourth of the length of time elapsed since the options first vested to the date of termination. Under both plans, in no case can options be exercised beyond the expiration date of the award.

In the event of termination by death or disability, the executive or his or her estate will receive his or her bonus to the extent earned.

Termination by Retirement

Executives are eligible to participate in the Company's Pension Plan and, subject to authorization of the Board, may participate in the Company's SERP. At year-end 2007, Stephen L. Sanetti and Robert Stutler were eligible for early retirement under Pension Plan, and Mr. Sanetti was the only executive participating in the SERP, but elected to receive a cash settlement of his accrued SERP benefits in a lump sum payment made on February 1, 2008. None of the Named Executive Officers was eligible for normal retirement, and none of the Named Executive Officers will accrue service in the Pension Plan beyond December 31, 2007, the effective date of that plan's "freeze" by the Company. Pension benefits are described under "PENSION PLANS" below. In addition to the pension benefits described below, when a retirement-eligible employee terminates employment, his or her options awarded under the 1998 Stock Incentive Plan expire 90 days after termination. Under the 2007 Stock Incentive Plan, vested options awarded to the Named Executive Officers are exercisable in the case of retirement within the greater of: 30 days, or one-fourth of the length of time elapsed since the options first vested to the date of retirement. Under both plans, in no case can options be exercised beyond the expiration date of the award.

In the event of termination by retirement, the executive will receive his or her bonus to the extent earned.

Voluntary and Involuntary Termination

Executives receive no payments or benefits above those that are available to all employees generally upon voluntary termination. On December 13, 2006 the Board approved the creation of the Sturm, Ruger & Company, Inc. Employee Severance Plan, a formal severance plan for all employees, and under which officers, in the event of termination

without cause, will receive one month's salary per year of service, plus medical insurance continuation, for a minimum of six months and a maximum of 18 months. These benefits are available to all employees generally (absent a Change in Control event, death, disability or retirement or in the case of Mr. Fifer, he is terminated without cause), but minimum and maximum benefit periods are based upon hourly, salaried, or salaried officer status. On February 5, 2008, the Board approved a revised form of severance agreement, which has been offered to all of the Company's executive officers. The revised form of severance agreement expands the severance benefits to include base salary and medical insurance continuation in cases of termination without cause for a minimum of 12 months and a maximum of 18 months. Under the 1998 Stock Incentive Plan, when an employee terminates voluntarily before retirement, his or her stock options expire 30 days after termination. Under the 2007 Stock Incentive Plan, vested options awarded to the Named Executive Officers are exercisable in the case of voluntary termination within the greater of: 30 days, or one-fourth of the length of time elapsed since the options first vested to the date of retirement. Under both plans, options cannot be exercised beyond the expiration date of the award. Under both plans, in the case of involuntary termination, an employee's stock options terminate immediately.

If any employee voluntarily or involuntarily without cause terminates his or her employment the employee, will receive his or her bonus to the extent earned. If an employee is terminated for cause, any bonus is forfeited.

Retention Agreements

The Company may enter into retention agreements from time to time with retiring executives in order to facilitate the management transition of the executives' areas of responsibility. Robert R. Stutler entered into a retention and consulting agreement with the Company upon his retirement as Vice President of Prescott Operations on February 15, 2008. This agreement provides for eighteen months' of compensation equivalent to his base salary in effect at the time of his retirement and continued health insurance benefits for the same period of time. Commencement of payment of Mr. Stutler's compensation under the retention agreement will be postponed until August 16, 2008 in accordance with IRS Tax Code Section 409A, and will be made retroactive to February 16, 2008 with interest of 6% per annum applied to the retroactive payments. Mr. Stutler will also be entitled to receive a performance bonus for 2008 prorated until February 15, 2008 provided that the financial goals are met that trigger the obligation of the Company to pay such bonus.

POTENTIAL AND ACTUAL PAYMENTS UNDER SEVERANCE AGREEMENTS TABLE

The table below sets forth the terms and estimated potential payments and benefits provided in each termination circumstance for the Company's Named Executive Officers as of December 31, 2007. The potential amounts shown in the table do not include payments and benefits to the extent that they are provided on a non-discriminatory basis to the Company's salaried employees generally. These include: accrued vacation pay, regular pension benefits under the Company's Pension Plan, any severance paid under the Company's general policy as described above, and voluntary and involuntary termination absent a Change in Control. Although all options granted under the 1998 Stock Incentive Plan and 2007 Stock Incentive Plan vest the same for salaried employees as executives, these values are included, as options have traditionally been granted primarily to executives.
