REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

We have reviewed the accompanying consolidated balance sheets of Rhino Outdoor International, Inc., as of September 30, 2006 and 2005, and the related statements of operations, stockholders' equity, and cash flows for the nine months then ended and for the period from January 1, 2005 (inception of development stage) through September 30, 2006. All information included in these financial statements is the representation of the management of Rhino Outdoor International, Inc.

We conducted our review in accordance with standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit in accordance with the standards of the Public Company Accounting Oversight Board, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 2 to the financial statements, the Company has suffered recurring losses and has an accumulated deficit at September 30, 2006. These factors raise substantial doubt about its ability to continue as a going concern. Management's plans in regard to these matters are also described in Note 2. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

(A Development Stage Company)

NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS

SEPTEMBER 30, 2006

NOTE 1 - BASIS OF PRESENTATION AND DESCRIPTION OF THE BUSINESS

Rhino Outdoor International, Inc. (fka Cyberads, Inc), was incorporated on April 12, 2000 in the State of Florida. On August 10, 2005, the Company changed domicile from Florida to Nevada.

The Company provides management and sales support to businesses focused in the Extreme Sports/Lifestyle market segment. The Company earns commissions/fees on securing distribution for the businesses and products it represents. Additionally, the Company will earn commissions when product deliveries are made through the distribution channel. The Company and its management has devoted their attention toward restructuring debt and seeking profitable products in 2005 and 2006. The Company's year-end is December 31.

As of January 1, 2005, the Company abandoned its previous business plan of marketing cellular phone services and began a new development stage where it intends to provide management and sales support to businesses focused in the Extreme Sports/Lifestyle market segment.

On June 21, 2006, the Company entered into a share exchange agreement and plan of reorganization with Rhino Off Road Industries, Inc. Under this agreement and plan of reorganization, the Company acquired 100 percent of the outstanding common stock of Rhino in exchange for 1,650,000 shares of the Company's Series C convertible preferred stock. Furthermore, the Company issued another 600,000 shares of Series C convertible preferred stock for the retention of the subsidiary's officers and agreed to issue 400,000 shares of Series C convertible preferred stock for loan guarantees. As of September 30, 2006, the 400,000 shares had not yet been issued. Rhino Off Road Industries, Inc. was incorporated on September 25, 2003 in the State of Nevada. The principal business of the Company is the design, manufacturing and sale of off road vehicles and related parts. The Company's operations are located in Henderson, Nevada. See Note 3.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This summary of significant accounting policies of Rhino Outdoor International, Inc. is presented to assist in understanding the Company's financial statements. The financial statements and notes are representations of the Company's management, which is responsible for their integrity and objectivity. These accounting policies conform to accounting principles generally accepted in the United States of America, and have been consistently applied in the preparation of the financial statements.

Accounting Method

The Company's financial statements are prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Accounts Receivable

The Company carries its accounts receivable at cost less an allowance for doubtful accounts. On a periodic basis, the Company evaluates its accounts receivable and establishes an allowance for doubtful accounts, based on a history of past write-offs and collections and current credit conditions.

RHINO OUTDOOR INTERNATIONAL, INC.

(A Development Stage Company)

NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS

SEPTEMBER 30, 2006

The Company's policy is to accrue interest on trade receivables 90 days after invoice date. A receivable is considered past due if payments have not been received by the Company for 90 days. At that time, the Company will discontinue accruing interest and turn the account over for collection. If a payment is made after it has been turned over for collection, the Company will apply the payment to the outstanding principal first and resume accruing interest. Accounts are written off as uncollectible if no payments are received 180 days after they have been turned over for collection.

Cash and Cash Equivalents

For purposes of the statement of cash flows, the Company considers all highly liquid investments and short-term debt instruments with original maturities of three months or less to be cash equivalents.

Compensated Absences

Employees of the Company are entitled to paid vacation, and sick days, depending on job classification, length of service, and other factors. Management has deemed that any liability arising from this policy would be immaterial and has accrued no compensated absences liabilities for the period ended September 30, 2006.

Cost of Sales

Cost of sales consists of the purchase price of materials and supplies, shipping, labor and benefits, and other overhead costs associated with production.

Development Stage Activities

Since the inception of the current development stage (which began January 1, 2005), the Company has realized minimal revenue from operations. It expects to be engaged to provide management and sales support to businesses focused in the Extreme Sports/Lifestyle market segment.

Going Concern

The accompanying financial statements have been prepared assuming the Company will continue as a going concern. As shown in the financial statements, the Company has limited cash and revenues, has incurred a net loss for the nine months ended September 30, 2006, and has an accumulated deficit since the inception of the Company. These factors indicate that the Company may be unable to continue in existence. The Company is currently putting business plans in place which will, if successful, mitigate these factors which raise substantial doubt about the Company's ability to continue as a going concern. The financial statements do not include any adjustments related to the recoverability and classification of recorded assets, or the amounts and classification of liabilities that might be necessary in the event the Company cannot continue existence.

Management has established plans designed to increase the sales of the Company's products and services and decrease debt. These plans will include providing management and sales support to businesses focused in the Extreme/Lifestyle market segment where the Company anticipates earning commissions/fees on securing distribution from business and products it represents.

RHINO OUTDOOR INTERNATIONAL, INC.**(A Development Stage Company)****NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS****SEPTEMBER 30, 2006**

An estimated \$2 million is believed necessary to continue operations and increase development through the next fiscal year. The timing and amount of capital requirements will depend on a number of factors, including demand for products and services and the availability of opportunities for international expansion through affiliations and other business relationships. Management intends to seek new capital from new equity securities issuances to provide funds needed to increase liquidity, fund internal growth, and fully implement its business plan.

Goodwill

Goodwill represents the excess of the purchase price and related direct costs over the fair value of net assets acquired as of the date of the acquisition of Rhino Off Road Industries, Inc. The Company reviews periodically its goodwill to assess recoverability based on projected undiscounted cash flows from operations. Impairments are recognized in operating results when a permanent diminution in value occurs. At September 30, 2006, no impairment was deemed necessary for the Company's goodwill.

Inventories

The Company records inventories at the lower of cost or market on a first-in, first-out basis. At September 30, 2006, the Company has a reserve for obsolescence of \$50,000.

	September 30, 2006	December 31, 2005
Raw materials and work-in-process	\$ 112,107	\$ -
Finished goods	81,103	-
Reserve for obsolescence	(50,000)	-
Total Inventory	\$ 143,210	\$ -

Investments

The Company's investments in securities are classified as either trading, held to maturity, or available-for-sale in accordance with Statement of Financial Accounting Standards No. 115. Available-for-sale securities consist of equity securities not classified as trading securities or as securities to be held to maturity. Unrealized holding gains and losses, net of tax, on available-for-sale securities are reported as a net amount in a separate component of other comprehensive income. Gains and losses on the sale of available-for-sale securities are determined using the average cost method and are included in earnings. The Company determines the gain or loss on investment securities held as available-for-sale, based upon the accumulated cost basis of specific investment accounts. On the Company's balance sheet, short-term available for sale securities are classified as "investments."

Long-lived Assets

The Company accounts for its long-lived assets in accordance with Statement of Financial Accounting Standards No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets". This standard establishes a single accounting model for long-lived assets to be disposed of by sale, including discontinued operations, and requires that these long-lived assets be measured at the lower of carrying amount or fair value less cost to sell, whether reported in continuing operations or discontinued operations. Accordingly, the Company reviews the carrying amount of long-lived assets for impairment where events or changes in

RHINO OUTDOOR INTERNATIONAL, INC.

(A Development Stage Company)

SEPTEMBER 30, 2006

circumstances indicate that the carrying amount may not be recoverable. The determination of any impairment would include a comparison of estimated future cash flows anticipated to be generated during the remaining life of the assets to the net carrying value of the assets.

Property and Equipment

Property and equipment are stated at cost. Depreciation of property and equipment is calculated using the straight-line method over the estimated useful lives of the assets, which range from three to seven years. See Note 5.

Principles of Consolidation

The accompanying consolidated financial statements at September 30, 2006 include the accounts of Rhino Outdoor International, Inc. and its wholly owned subsidiaries: IDS Cellular, Inc. ("IDS") and Rhino Off Road Industries, Inc. All significant transactions and balances among the companies included in the consolidated financial statements have been eliminated. The operations of IDS are currently idle.

Provision for Taxes

Income taxes are provided based upon the liability method of accounting pursuant to Statement of Financial Accounting Standards No. 109, "Accounting for Income Taxes" (hereinafter "SFAS No. 109"). Under this approach, deferred income taxes are recorded to reflect the tax consequences in future years of differences between the tax basis of assets and liabilities and their financial reporting amounts at each year-end. A valuation allowance is recorded against deferred tax assets if management does not believe the Company has met the "more likely than not" standard imposed by SFAS No. 109 to allow recognition of such an asset.

Recent Accounting Pronouncements

In September 2006, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 157, "Fair Value Measurements" (hereinafter "SFAS No. 157"), which defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles (GAAP), and expands disclosures about fair value measurements. Where applicable, SFAS No. 157 simplifies and codifies related guidance within GAAP and does not require any new fair value measurements. SFAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. Earlier adoption is encouraged. The Company does not expect the adoption of SFAS No. 157 to have a significant effect on its financial position or results of operations.

In June 2006, the Financial Accounting Standards Board issued FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes - an interpretation of FASB Statement No. 109" (hereinafter "FIN 48"), which prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN 48 also provides guidance on de-recognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. FIN 48 is effective for fiscal years beginning after December 15, 2006. The Company does not expect the adoption of FIN 48 to have an immediate material impact on its financial reporting, and the Company is currently evaluating the impact, if any, the adoption of FIN 48 will have on its disclosure requirements.

NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS

SEPTEMBER 30, 2006

In March 2006, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 156, "Accounting for Servicing of Financial Assets—an amendment of FASB Statement No. 140." This statement requires an entity to recognize a servicing asset or servicing liability each time it undertakes an obligation to service a financial asset by entering into a servicing contract in any of the following situations: a transfer of the servicer's financial assets that meets the requirements for sale accounting; a transfer of the servicer's financial assets to a qualifying special-purpose entity in a guaranteed mortgage securitization in which the transferor retains all of the resulting securities and classifies them as either available-for-sale securities or trading securities; or an acquisition or assumption of an obligation to service a financial asset that does not relate to financial assets of the servicer or its consolidated affiliates. The statement also requires all separately recognized servicing assets and servicing liabilities to be initially measured at fair value, if practicable and permits an entity to choose either the amortization or fair value method for subsequent measurement of each class of servicing assets and liabilities. The statement further permits, at its initial adoption, a one-time reclassification of available for sale securities to trading securities by entities with recognized servicing rights, without calling into question the treatment of other available for sale securities under Statement 115, provided that the available for sale securities are identified in some manner as offsetting the entity's exposure to changes in fair value of servicing assets or servicing liabilities that a servicer elects to subsequently measure at fair value and requires separate presentation of servicing assets and servicing liabilities subsequently measured at fair value in the statement of financial position and additional disclosures for all separately recognized servicing assets and servicing liabilities. This statement is effective for fiscal years beginning after September 15, 2006, with early adoption permitted as of the beginning of an entity's fiscal year. Management believes the adoption of this statement will have no impact on the Company's financial condition or results of operations.

In February 2006, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 155, "Accounting for Certain Hybrid Financial Instruments, an Amendment of FASB Standards No. 133 and 140" (hereinafter "SFAS No. 155"). This statement established the accounting for certain derivatives embedded in other instruments. It simplifies accounting for certain hybrid financial instruments by permitting fair value remeasurement for any hybrid instrument that contains an embedded derivative that otherwise would require bifurcation under SFAS No. 133 as well as eliminating a restriction on the passive derivative instruments that a qualifying special-purpose entity ("SPE") may hold under SFAS No. 140. This statement allows a public entity to irrevocably elect to initially and subsequently measure a hybrid instrument that would be required to be separated into a host contract and derivative in its entirety at fair value (with changes in fair value recognized in earnings) so long as that instrument is not designated as a hedging instrument pursuant to the statement. SFAS No. 140 previously prohibited a qualifying special-purpose entity from holding a derivative financial instrument that pertains to a beneficial interest other than another derivative financial instrument. This statement is effective for fiscal years beginning after September 15, 2006, with early adoption permitted as of the beginning of an entity's fiscal year. Management believes the adoption of this statement will have no impact on the Company's financial condition or results of operations.
