PROXY STATEMENT FOR SPECIAL MEETING OF STOCKHOLDERS

Your execution of the accompanying proxy is solicited by the Board of Directors of India Globalization Capital, Inc. a Maryland corporation, for use at its Special Meeting of stockholders to be held on Tuesday, July 15, 2008, or any adjournment or postponement thereof, for the purposes set forth in the accompanying Notice of Special Meeting of Stockholders. This proxy statement and the enclosed proxy are being mailed to stockholders on or about June 24, 2008.

SOLICITATION AND VOTING

Voting Securities. Only stockholders of record as of the close of business on June 18, 2008 will be entitled to vote at the meeting and any adjournment thereof. As of June 19, 2008, we had 8,570,107 shares of Common Stock outstanding, all of which are entitled to be voted with respect to all matters to be acted upon at the Special Meeting. Each stockholder of record as of that date is entitled to one vote for each share of Common Stock held by him or her. Our Bylaws provide that a majority of all of the shares of the stock entitled to vote, whether present in person or represented by proxy, shall constitute a quorum for the transaction of business at the meeting. Unless otherwise noted below, votes for and against, abstentions and [broker non-votes] will each be counted as present for purposes of determining the presence of a quorum.

Broker Non-Votes. A broker non-vote occurs when a broker submits a proxy card with respect to shares held in a fiduciary capacity (typically referred to as being held in [street name]) but declines to vote on a particular matter because the broker has not received voting instructions from the beneficial owner. Under the rules that govern brokers who are voting with respect to shares held in street name, brokers have the discretion to vote such shares on routine matters, but not on non-routine matters. Routine matters include the election of directors, increases in authorized common stock for general corporate purposes and ratification of auditors. Non-routine matters include amendments to stock plans.

Solicitation of Proxies. We will bear the cost of soliciting proxies. In addition to soliciting stockholders by mail through our employees, we will request banks, brokers and other custodians, nominees and fiduciaries to solicit customers for whom they hold our stock and will reimburse them for their reasonable, out-of-pocket costs. We may use the services of our officers, directors and others to solicit proxies, personally or by telephone, without additional compensation. We have also engaged Morrow & Co., LLC to solicit proxies on our behalf. We anticipate that Morrow's fees will be approximately \$ 10,000.

Voting of Proxies. All valid proxies received before the meeting will be exercised. All shares represented by a proxy will be voted, and where a proxy specifies a stockholder's choice with respect to any matter to be acted upon, the shares will be voted in accordance with that specification. If no choice is indicated on the proxy, the shares will be voted in favor of the proposal. A stockholder giving a proxy has the power to revoke his or her proxy at any time before it is exercised by delivering to the Secretary of India Globalization Capital a written instrument revoking the proxy or a duly executed proxy with a later date, or by attending the meeting and voting in person.

PROPOSAL NO. 1

APPROVAL OF AMENDMENT OF OMNIBUS INCENTIVE PLAN

At the Special Meeting, the stockholders will be asked to approve an amendment to the Company's Omnibus Incentive Plan ([Stock Plan]) to do the following: (i) increase by 1,000,000 the maximum number of shares of Common Stock that may be issued under the Stock Plan from 300,000 to 1,300,000 shares, (ii) decrease from 13,974,500 to 8,570,107 the base number of shares used to determine the annual increase in the maximum number of shares of Common Stock that may be issued under the Stock Plan and (iii) to clarify the definition of [Plan Year] to mean the Company's fiscal year.

The Stock Plan was originally adopted by the Board of Directors in November 2007 and by the stockholders in March 2008. As of June 19, 2008, no options or awards had been granted under the Stock Plan, leaving 300,000 shares available for future grants under the Stock Plan. To enable the Company to continue to provide long-term equity incentives, the Board of Directors has amended the Stock Plan, subject to stockholder approval, to increase the maximum number of shares that may be issued under the Stock Plan by 1,000,000 shares to an aggregate of 1,300,000 shares and to decrease from 13,974,500 to 8,570,107 the base number of shares used to determine the annual increase in the maximum number of shares of Common Stock that may be issued under the Stock Plan (the [Base Number]).

The Company's continued employment growth and need for highly qualified employees, combined with the increased competition for the limited supply of qualified personnel, make the Stock Plan essential to the Company's ability to recruit and retain its key employees. The Board of Directors believes that an adequate reserve of shares available for issuance under the Stock Plan is necessary to enable it to compete successfully

with other companies to secure and retain valuable employees. The proposed amendments are intended to ensure that the Stock Plan will continue to be available with a reasonable number of shares to meet the Company's needs. One of the potential uses of the increase in shares is to provide additional equity compensation to Ram Mukunda, the Company's Chief Executive Officer. In March 2008 Mr. Mukunda agreed to transfer a 1,131,581 shares of Common Stock of the Company, amounting to approximately 2/3 of the shares owned by Mr. Mukunda and his wife Parveen (without taking the warrants held by Mr. Mukunda into account), to third parties to induce such third parties to acquire shares of the Company's common stock and to cause such shares to be voted in favor of the Company's acquisition of a 63% equity interest in Sricon Infrastructures, Limited ("Sricon") and a 77% equity interest in Techni Bharathi Limited ("TBL"). While the compensation committee and the Board of Directors have not reached a final determination as to the number of options to be granted to Mr. Mukunda if the amendments to the Stock Plan are approved, we expect such grant to constitute a substantial amount of the options available under the Stock Plan.

The change in the Base Number is a result of changes in the capitalization of the Company subsequent to the time the Stock Plan was initially approved. The 13,974,500 figure represented the number of shares of Common Stock of the Company outstanding at the time that the Company initially solicited stockholder approval for the Stock Plan. There are currently 8,570,107 shares of Common Stock outstanding.

Summary of the Provisions of the Stock Plan

The Stock Plan provides for the grant of incentive stock options, non-qualified stock options restricted and unrestricted stock awards and other stock-based awards to our and our subsidiary employees, directors and consultants. Currently an aggregate of 300,000 shares of common stock initially, which number shall be increased each year on April 1, commencing April 1, 2008, by 15% of the number of shares issued and outstanding minus 13,974,500 are available for issuance under the Stock Plan.

In accordance with the terms of the Stock Plan, our board of directors has authorized our compensation committee to administer the Stock Plan. The compensation committee may delegate part of its authority and powers under the Stock Plan to one or more of our directors and/or officers, but only the compensation committee can make awards to participants who are our directors or executive officers. In accordance with the provisions of the Stock Plan, our compensation committee will determine the terms of options and other awards, including:

- the determination of which employees, directors and consultants will be granted options and other awards;
- the number of shares subject to options and other awards;
- the exercise price of each option, which may not be less than fair market value on the date of grant;
- the schedule upon which options become exercisable;

5

-
- the terms and conditions of other awards, including conditions for repurchase, termination or cancellation, issue price and repurchase price; and
 - all other terms and conditions upon which each award may be granted in accordance with the Stock Plan.

The maximum term of options granted under the Stock Plan is ten years. Awards are generally subject to early termination upon the termination of employment or other relationship of the participant with us or our subsidiaries, whether such termination is at our option or as a result of the death or disability of the participant. Generally, in the event of a participant's termination for cause, all outstanding awards shall be forfeited.

In addition, our compensation committee may, in its discretion, amend any term or condition of an outstanding award provided (i) such term or condition as amended is permitted by our Stock Plan, and (ii) any such amendment shall be made only with the consent of the participant to whom such award was made, if the amendment is adverse to the participant.

If our common stock shall be subdivided or combined into a greater or smaller number of shares or if we issue any shares of common stock as a stock dividend, the number of shares of our common stock deliverable upon exercise of an option issued or upon issuance of an award shall be appropriately increased or decreased proportionately, and appropriate adjustments shall be made in the purchase price per share to reflect such subdivision, combination or stock dividend.

Upon a merger or other reorganization event, our board of directors may, in their sole discretion, take any one or more of the following actions pursuant to our Plan, as to some or all-outstanding awards:

- provide that all outstanding options shall be assumed or substituted by the successor corporation;
- upon written notice to a participant, (i) provide that the participant's unexercised options or awards will terminate immediately prior to the consummation of such transaction unless exercised by the participant; or (ii) terminate all unexercised outstanding options immediately prior to the consummation of such transaction unless exercised by the optionee;
- in the event of a merger pursuant to which holders of our common stock will receive a cash payment for each share surrendered in the merger, make or provide for a cash payment to the optionees equal to the difference between the merger price times the number of shares of our common stock subject to such outstanding options, and the aggregate exercise price of all such outstanding options, in exchange for the termination of such options;
- provide that all or any outstanding options shall become exercisable in full immediately prior to such event; and
- provide that outstanding awards shall be assumed or substituted by the successor corporation, become realizable or deliverable, or restrictions applicable to an award will lapse, in whole or in part, prior to or upon the reorganization event.

Our stockholders may amend the Stock Plan. It may also be amended by the board of directors, provided that any amendment approved by the board of directors that is of a scope that requires stockholder approval as required in order to ensure favorable federal income tax treatment for any incentive stock options under Code Section 422 or for any other reason is subject to obtaining such stockholder approval. If adopted, our Stock Plan will expire on the tenth anniversary of the adoption of the plan by our stockholders.

MATERIAL FEDERAL INCOME TAX CONSIDERATIONS

The following discussion was prepared by Seyfarth Shaw LLP, our counsel, with respect to the material federal income tax considerations relating to stock options and stock grants under the Stock Plan:

Incentive Stock Options:

Incentive stock options are intended to qualify for treatment under Section 422 of the Code. An incentive stock option does not result in taxable income to the optionee or deduction to the company at the time it is granted or exercised, provided that no disposition is made by the optionee of the shares acquired pursuant to the option within two years after the date of grant of the option nor within one year after the date of issuance of shares the optionee (referred to as the "ISO holding period"). However, the difference between the fair market value of the shares on the date of exercise and the option price will be an item of tax preference includible in "alternative minimum taxable income." Upon disposition of the shares after the expiration of the ISO holding period, the optionee will generally recognize long term capital gain or loss based on the difference between the disposition proceeds and the option price paid for the shares. If the shares are disposed of prior to the expiration of the ISO holding period, the optionee generally will recognize taxable compensation, and we will have a corresponding deduction, in the year of the disposition, equal to the excess of the fair market value of the shares on the date of exercise of the option over the

option price. Any additional gain realized on the disposition will normally constitute capital gain. If the amount realized upon such a disqualifying disposition is less than fair market value of the shares on the date of exercise, the amount of compensation income will be limited to the excess of the amount realized over the optionee's adjusted basis in the shares.

Non-Qualified Options:

Options otherwise qualifying as incentive stock options, to the extent the aggregate fair market value of shares with respect to which such options are first exercisable by an individual in any calendar year exceeds \$100,000, and options designated as non-qualified options will be treated as options that are not incentive stock options.

A non-qualified option ordinarily will not result in income to the optionee or deduction to us at the time of grant. The optionee will recognize compensation income at the time of exercise of such non-qualified option in an amount equal to the excess of the then value of the shares over the option price per share. Such compensation income of optionees may be subject to withholding taxes, and a deduction may then be allowable to us in an amount equal to the optionee's compensation income.

An optionee's initial basis in shares so acquired will be the amount paid on exercise of the non-qualified option plus the amount of any corresponding compensation income. Any gain or loss as a result of a subsequent disposition of the shares so acquired will be capital gain or loss.

Stock Grants:

With respect to stock grants under the Stock Plan that result in the issuance of shares that are either not restricted as to transferability or not subject to a substantial risk of forfeiture, the grantee must generally recognize ordinary income equal to the fair market value of shares received. Thus, deferral of the time of issuance will generally result in the deferral of the time the grantee will be liable for income taxes with respect to such issuance. We generally will be entitled to a deduction in an amount equal to the ordinary income recognized by the grantee.

7

With respect to stock grants involving the issuance of shares that are restricted as to transferability and subject to a substantial risk of forfeiture, the grantee must generally recognize ordinary income equal to the fair market value of the shares received at the first time the shares become transferable or are not subject to a substantial risk of forfeiture, whichever occurs earlier. A grantee may elect to be taxed at the time of receipt of shares rather than upon lapse of restrictions on transferability or substantial risk of forfeiture, but if the grantee subsequently forfeits such shares, the grantee would not be entitled to any tax deduction, including as a capital loss, for the value of the shares on which he previously paid tax. The grantee must file such election with the Internal Revenue Service within 30 days of the receipt of the shares. We generally will be entitled to a deduction in an amount equal to the ordinary income recognized by the grantee.

PLAN BENEFITS

The Company did not issue any options under the Stock Plan during the fiscal year ended March 31, 2008. The granting of options is discretionary with the Board of Directors.

Vote Required and Board of Directors' Recommendation.

The affirmative vote of a majority of the votes present or represented by proxy and entitled to vote at the Special Meeting of stockholders, at which a quorum representing a majority of all outstanding shares of Common Stock of the Company is present and voting, either in person or by proxy, is required for approval of this proposal. Abstentions and []broker non-votes[] will each be counted as present for purposes of determining the presence of a quorum. Abstentions will have the same effect as a negative vote on this proposal. []Broker non-votes,[] on the other hand, will have no effect on the outcome of this vote.

The Board of Directors believes that the proposed amendment of the Stock Plan is in the best interests of the Company and the stockholders for the reasons stated above. THEREFORE, THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE []FOR[] APPROVAL OF THIS PROPOSAL TO AMEND THE OPTION PLAN.

SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The following table sets forth information regarding the beneficial ownership of our common stock as of June 19, 2008 by:

- each person known by us to be the beneficial owner of more than 5% of our outstanding shares of common stock;
- each of our executive officers, directors and our special advisors; and
- all of our officers and directors as a group.

Beneficial ownership is determined in accordance with the rules of the Securities and Exchange Commission and does not necessarily indicate beneficial ownership for any other purpose. Under these rules, beneficial ownership includes those shares of common stock over which the stockholder has sole or shared voting or investment power. It also includes shares of common stock that the stockholder has a right to acquire within 60 days through the exercise of any option, warrant or other right. The percentage ownership of the outstanding common stock, which is based upon 8,570,107 shares of common stock outstanding as of June 19, 2008, is based on the assumption, expressly required by the rules of the Securities and Exchange Commission, that only the person or entity whose ownership is being reported has converted options or warrants into shares of our common stock.

Unless otherwise indicated, we believe that all persons named in the table have sole voting and investment power with respect to all shares of common stock beneficially owned by them. Unless otherwise noted, the nature of the ownership set forth in the table below is common stock of the Company.

8

The table below sets forth as of December 31, 2007, except as noted in the footnotes to the table, certain information with respect to the beneficial ownership of the Company's Common Stock by (i) all persons known by the Company to be the beneficial owners of more than 5% of the outstanding Common Stock of the Company, (ii) each director and director-nominee of the Company, (iii) the executive officers named in the Summary Compensation Table, and (iv) all such executive officers and directors of the Company as a group.

Board of Directors

Our board of directors is divided into three classes (Class A, Class B and Class C) with only one class of directors being elected in each year and each class serving a three-year term. The term of office of the Class A directors, consisting of Mr. Nathani and Mr. Shenoy, will expire at our annual meeting of stockholders to be held in 2010. The term of office of the Class B directors, consisting of Mr. Prins and Dr. Krishna, will expire at the second annual meeting of stockholders. The term of office of the Class C director, consisting of Mr. Mukunda, will expire at the third annual meeting of stockholders. The American Stock Exchange, where we are listed, has rules mandating that the majority of the board be independent. Our board of directors will consult with counsel to ensure that the boards of directors' determinations are consistent with those rules and all relevant securities laws and regulations regarding the independence of directors. The Amex listing standards define an "independent director" generally as a person, other than an officer of a company, who does not have a relationship with the company that would interfere with the director's exercise of independent judgment. Consistent with these standards, the board of directors has determined that Messrs. Krishna, Shenoy and Nathani are independent directors.

Committee of the Board of Directors

Our Board of Directors has established an Audit Committee currently composed of two independent directors who report to the Board of Directors. Messrs. Krishna and Shenoy, each of whom is an independent director under the American Stock Exchange's listing standards, serve as members of our Audit Committee. In addition, we have determined that Mr. Shenoy is an "audit committee financial expert" as that term is defined under Item 407 of Regulation S-B of the Securities Exchange Act of 1934, as amended. The Audit Committee is responsible for meeting with our independent accountants regarding, among other issues, audits and adequacy of our accounting and control systems. We intend to locate and appoint at least one additional independent director to our Audit Committee to increase the size of the Audit Committee to three members.

The Audit Committee will monitor our compliance on a quarterly basis with the terms of our initial public offering. If any noncompliance is identified, then the Audit Committee is charged with the responsibility to take immediately all action necessary to rectify such noncompliance or otherwise cause compliance with our initial public offering. The Board currently does not have a nominating or corporate governance committee. However, all nominations are made by the majority of the independent directors of the Board.

Audit Committee Financial Expert

The Audit Committee will at all times be composed exclusively of "independent directors" who are "financially literate" as defined under the American Stock Exchange listing standards. The American Stock Exchange listing standards define "financially literate" as being able to read and understand fundamental financial statements, including a company's balance sheet, income statement and cash flow statement.

In addition, we must certify to the American Stock Exchange that the Audit Committee has, and will continue to have, at least one member who has past employment experience in finance or accounting, requisite professional certification in accounting, or other comparable experience or background that results in the individual's financial

sophistication. The Board of Directors has determined that Mr. Shenoy and Dr. Krishna satisfy the American Stock Exchange's definition of financial sophistication and qualify as an "audit committee financial expert," as defined under rules and regulations of the Securities and Exchange Commission.

Compensation Committee

Our Board of Directors has established a Compensation Committee currently composed of three directors who report to the Board of Directors. Messrs. Krishna and Shenoy, each of whom is an independent director under the American Stock Exchange's listing standards, and Mr. Prins serve as members of our Compensation Committee. The Compensation Committee's purpose is to review and approve compensation paid to our officers and directors and to administer the Stock Plan.

15

Nominating and Corporate Governance Committee

We intend to establish a nominating and corporate governance committee. The primary purpose of the nominating and corporate governance committee will be to identify individuals qualified to become directors, recommend to the board of directors the candidates for election by stockholders or appointment by the board of directors to fill a vacancy, recommend to the board of directors the composition and chairs of board of directors committees, develop and recommend to the board of directors guidelines for effective corporate governance, and lead an annual review of the performance of the board of directors and each of its committees.

We do not have any formal process for stockholders to nominate a director for election to our board of directors. Currently, the entire board of directors decides on nominees, on the recommendation of one or more members of the board of directors. Any stockholder wishing to recommend an individual to be considered by our board of directors as a nominee for election as a director should send a signed letter of recommendation to the following address: India Globalization Capital, Inc. c/o Corporate Secretary, 4336 Montgomery Avenue, Bethesda, MD 20817.

Recommendation letters must state the reasons for the recommendation and contain the full name and address of each proposed nominee as well as a brief biographical history setting forth past and present directorships, employments, occupations and civic activities. Any such recommendation should be accompanied by a written statement from the proposed nominee consenting to be named as a candidate and, if nominated and elected, consenting to serve as a director. We may also require a candidate to furnish additional information regarding his or her eligibility and qualifications. The board of directors does not intend to evaluate candidates proposed by stockholders differently than it evaluates candidates that are suggested by our board members, executive officers or other sources.

Code of Conduct and Ethics

We have adopted a code of conduct and ethics applicable to our directors, officers and employees in accordance with applicable federal securities laws and the rules of the American Stock Exchange. We have filed the code of conduct and ethics as Exhibit 99.1 to our Registration Statement on Form S-1/A, filed with the Securities and Exchange Commission on March 2, 2006.

Board Meetings

During the fiscal year ended March 31, 2008, our board of directors held five meetings. Although we do not have any formal policy regarding director attendance at our annual meetings, we will attempt to schedule our annual meetings so that all of our directors can attend. During the fiscal year ended March 31, 2008, all of our directors attended 100% of the meetings of the board of directors.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires our directors, executive officers and persons who beneficially own more than 10% of our common stock to file reports of their ownership of shares with the Securities and Exchange Commission. Such executive officers, directors and stockholders are required by SEC regulation to furnish us with copies of all Section 16(a) reports they file. Based solely upon review of the

copies of such reports received by us, our senior management believes that all reports required to be filed under Section 16(a) for the fiscal year ended March 31, 2008 were filed in a timely manner.

Director Compensation

Our directors do not currently receive any cash compensation for their service as members of the board of directors. We anticipate that in the near future we will pay varying levels of compensation to the current and newly elected non-employee directors of the Company for their services as directors in the future based on their eligibility to be members of our audit and compensation committees. We anticipate determining director compensation in accordance with industry practice and standards.

We pay IGN, LLC, an affiliate of Mr. Mukunda, \$4,000 per month for office space and certain general and administrative services. Mr. Mukunda is the Chief Executive Officer of IGN, LLC. We believe, based on rents and fees for similar services in the Washington, DC metropolitan area, that the fee charged by IGN, LLC was at least as favorable as we could have obtained from an unaffiliated third party. The agreement with IGN with respect to such services initially provided that payments would cease upon the acquisition of Sricon and TBL. However, as our independent directors have approved the continuation of the agreement on a month-to-month basis having determined that the space and services are of benefit to the Company and, as noted above, they believe that the rates are at least as favorable as we could have obtained from an unaffiliated third party.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Overview of Compensation Policy

The Company's Compensation Committee is empowered to review and approve, or in some cases recommend for the approval of the full Board of Directors the annual compensation for the executive officers of the Company. This Committee has the responsibility for establishing, implementing, and monitoring the Company's compensation strategy and policy. Among its principal duties, the Committee ensures that the total compensation of the executive officers is fair, reasonable and competitive.

Objectives and Philosophies of Compensation

The primary objective of the Company's compensation policy, including the executive compensation policy, is to help attract and retain qualified, energetic managers who are enthusiastic about the Company's mission and products. The policy is designed to reward the achievement of specific annual and long-term strategic goals aligning executive performance with company growth and shareholder value. In addition, the Board of Directors strives to promote an ownership mentality among key leaders and the Board of Directors.

Setting Executive Compensation

The compensation policy is designed to reward performance. In measuring executive officers' contribution to the Company, the Compensation Committee considers numerous factors including the Company's growth and financial performance as measured by revenue, gross margin and net income before taxes among other key performance indicators.

Regarding most compensation matters, including executive and director compensation, management provides recommendations to the Compensation Committee; however, the Compensation Committee does not delegate any of its functions to others in setting compensation. The Compensation Committee does not currently engage any consultant related to executive and/or director compensation matters.

Stock price performance has not been a factor in determining annual compensation because the price of the Company's common stock is subject to a variety of factors outside of management's control. The Company does not subscribe to an exact formula for allocating cash and non-cash compensation. However, a significant percentage of total executive compensation is performance-based. Historically, the majority of the incentives to executives

have been in the form of non-cash incentives in order to better align the goals of executives with the goals of stockholders.

Elements of Company's Compensation Plan

The principal components of compensation for the Company's executive officers are:

- base salary
- performance-based incentive cash compensation
- right to purchase the company's stock at a preset price (stock options)
- retirement and other benefits

Base Salary

The Company provides named executive officers and other employees with base salary to compensate them for services rendered during the fiscal year. Base salary ranges for named executive officers are determined for each executive based on his or her position and responsibility.

17

During its review of base salaries for executives, the Committee primarily considers:

- market data;
- internal review of the executives' compensation, both individually and relative to other officers; and
- individual performance of the executive.

Salary levels are typically evaluated annually as part of the Company's performance review process as well as upon a promotion or other change in job responsibility.

Performance-Based Incentive Compensation

The management incentive plan gives the Committee the latitude to design cash and stock-based incentive compensation programs to promote high performance and achievement of corporate goals, encourage the growth of stockholder value and allow key employees to participate in the long-term growth and profitability of the Company. So that stock-based compensation may continue to be a viable part of the Company's compensation strategy, management is currently seeking shareholder approval of a proposal to increase the number of shares of Company common stock reserved for issuance pursuant to the Company's Stock Plan.

Ownership Guidelines

To directly align the interests of the Board of Directors with the interests of the stockholders, the Committee recommends that each Board member maintain a minimum ownership interest in the Company. Currently, the Compensation Committee recommends that each Board member own a minimum of 5,000 shares of the Company's common stock with such stock to be acquired within a reasonable time following election to the Board.

Stock Option Program

The Stock Option Program assists the Company to:

- enhance the link between the creation of stockholder value and long-term executive incentive compensation;
- provide an opportunity for increased equity ownership by executives; and
- maintain competitive levels of total compensation.

Stock option award levels will be determined based on market data and will vary among participants based on their positions within the Company and are granted at the Committee's regularly scheduled meeting. We anticipate that options will be awarded at the AMEX's closing price of the Company's Common Stock on the date of the grant. As of March 31, 2008, we had not granted any stock options under our Stock Plan.

Perquisites and Other Personal Benefits

The Company provides some executive officers with perquisites and other personal benefits that the Company and the Committee believe are reasonable and consistent with its overall compensation program to better enable the Company to attract and retain superior employees for key positions. Accounting and Tax Considerations

The Company's stock option grant policy will be impacted by the implementation of SFAS No. 123R, which was adopted in the first quarter of fiscal year 2006. Under this accounting pronouncement, the Company is required to value unvested stock options granted prior to the adoption of SFAS 123 under the fair value method and expense those amounts in the income statement over the stock option's remaining vesting period.

Section 162(m) of the Internal Revenue Code restricts deductibility of executive compensation paid to the Company's chief executive officer and each of the four other most highly compensated executive officers holding office at the end of any year to the extent such compensation exceeds \$1,000,000 for any of such officers in any year and does not qualify for an exception under Section 162(m) or related regulations. The Committee's policy is to qualify its executive compensation for deductibility under applicable tax laws to the extent practicable. In the future, the Committee will continue to evaluate the advisability of qualifying its executive compensation for full deductibility.
