ASHFORD HOSPITALITY TRUST, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

1. Organization and Description of Business

Ashford Hospitality Trust, Inc., together with its subsidiaries (“Ashford Trust”), is a real estate investment trust (“REIT”) focused on investing in full service hotels in the upscale and upper-upscale segments in domestic and international markets that have revenue per available room (“RevPAR”) generally less than twice the national average, and in all methods including direct real estate, securities, equity, and debt. Other than Ashford Hospitality Trust, Inc.’s investment in Ashford Inc. common stock, we own our lodging investments and conduct our business through Ashford Hospitality Limited Partnership (“Ashford Trust OP”), our operating partnership. Ashford OP General Partner LLC, a wholly-owned subsidiary of Ashford Trust, serves as the sole general partner of our operating partnership. In this report, terms such as the “Company,” “we,” “us,” or “our” refer to Ashford Hospitality Trust, Inc. and all entities included in its consolidated financial statements.

On December 14, 2014, we executed a Letter Agreement (the “Agreement”) with PRISA III Investments (“PRISA III”). The Agreement was approved by the investment committee of Prudential Real Estate Investors (“PREI”), the investment manager of PRISA III, and fully executed and delivered to us on December 15, 2014. Pursuant to the Agreement, we agreed to purchase and PRISA III agreed to sell (the “Transaction”) all of PRISA III’s right, title and interest in and to its approximately 28.26% interest in the PIM Highland Holding LLC (“PIM Highland JV”). As of March 6, 2015, we own 100% of the PIM Highland JV. See Notes 3, 6 and 7.

We are advised by Ashford Hospitality Advisors LLC (“Ashford LLC”), a subsidiary of Ashford Inc., through an advisory agreement. All of the hotels in our portfolio are currently asset-managed by Ashford LLC. We do not have any employees. All of the services that might be provided by employees are provided to us by Ashford LLC.

As of June 30, 2015, we owned interests in the following assets:

127 consolidated hotel properties, including 125 directly owned and two owned through a majority-owned investment in a consolidated entity, which represent 27,180 total rooms (or 27,153 net rooms excluding those attributable to our partners);

10 hotel properties owned through a 15.2% interest in Ashford Hospitality Prime Limited Partnership (“Ashford Prime OP”) with a carrying value of \$55.5 million;

86 hotel condominium units at WorldQuest Resort in Orlando, Florida;

a 30.1% ownership in Ashford Inc. common stock with a carrying value of \$5.8 million;

a 52.4% ownership in AIM Real Estate Hedged Equity (U.S.) Fund, LP (the “REHE Fund”) with a carrying value of \$58.4 million and

a mezzanine loan with a carrying value of \$3.6 million.

For federal income tax purposes, we have elected to be treated as a REIT, which imposes limitations related to operating hotels. As of June 30, 2015, our 127 hotel properties were leased or owned by our wholly owned subsidiaries that are treated as taxable REIT subsidiaries for federal income tax purposes (collectively, these subsidiaries are referred to as “Ashford TRS”). Ashford TRS then engages third-party or affiliated hotel management companies to operate the hotels under management contracts. Hotel operating results related to these properties are included in the consolidated statements of operations.

As of June 30, 2015, Remington Lodging & Hospitality, LLC, together with its affiliates (“Remington Lodging”), which is beneficially wholly owned by Mr. Monty J. Bennett, our Chairman and Chief Executive Officer, and Mr. Archie Bennett, Jr., our Chairman Emeritus, managed 87 of our 127 hotel properties and WorldQuest Resort. Third-party management companies managed the remaining hotel properties.

2. Significant Accounting Policies

Basis of Presentation—The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles (“GAAP”) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information

and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. These consolidated financial statements include the accounts of Ashford Hospitality Trust, Inc., its majority-owned subsidiaries, and its majority-owned entities in which it has a controlling interest. All significant intercompany accounts and transactions between consolidated entities have been eliminated in these consolidated financial

statements. These consolidated financial statements and related notes should be read in conjunction with the consolidated financial statements and notes thereto included in our 2014 Annual Report to Stockholders on Form 10-K and Form 10-K/A filed with the Securities and Exchange Commission (“SEC”) on March 2, 2015, and March 31, 2015, respectively.

The following items affect reporting comparability related to our consolidated financial statements:

Historical seasonality patterns at some of our properties cause fluctuations in our overall operating results.

- Consequently, operating results for the three and six months ended June 30, 2015, are not necessarily indicative of the results that may be expected for the year ending December 31, 2015.

On March 1, 2014, we completed the sale of the Pier House Resort to Ashford Prime (“Ashford Prime”). The results of the Pier House Resort, which we acquired on May 14, 2013, and sold on March 1, 2014, are included in our results of operations for the period from January 1, 2014, through February 28, 2014.

On February 6, 2015, we acquired the Lakeway Resort & Spa, on February 25, 2015, we acquired the Memphis Marriott East hotel, on April 29, 2015, we acquired the Hampton Inn & Suites Gainesville, on June 3, 2015, we acquired the Le Pavillon Hotel, and on June 17, 2015, we acquired a 9-hotel portfolio. The results of these hotels are included in our results of operations as of their respective acquisition dates.

On March 6, 2015, we acquired the remaining approximate 28.26% interest in the 28 hotels of the PIM Highland JV. For the period January 1, 2014, through March 5, 2015, we have recorded equity in earnings for our ownership percentage. Beginning March 6, 2015, we consolidated the results of operations of these hotels.

Use of Estimates—The preparation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Restricted Cash—Restricted cash includes reserves for debt service, real estate taxes, and insurance, as well as excess cash flow deposits and reserves for furniture, fixtures, and equipment replacements of approximately 3% to 6% of property revenue for certain hotels, as required by certain management or mortgage debt agreement restrictions and provisions. For purposes of the consolidated statements of cash flows, changes in restricted cash caused by using such funds for debt service, real estate taxes, and insurance are shown as operating activities. Changes in restricted cash caused by using such funds for furniture, fixtures, and equipment replacements are included in cash flows from investing activities.

Investments in Hotel Properties, net—Hotel properties are generally stated at cost. However, four hotel properties contributed upon Ashford Trust’s formation in 2003 are stated at the predecessor’s historical cost, net of impairment charges, if any, plus a partial step-up related to the acquisition of noncontrolling interests from third parties associated with certain of these properties. For hotel properties owned through our majority-owned entities, the carrying basis attributable to the partners’ minority ownership is recorded at the predecessor’s historical cost, net of any impairment charges, while the carrying basis attributable to our majority ownership is recorded based on the allocated purchase price of our ownership interests in the entities. All improvements and additions which extend the useful life of hotel properties are capitalized.

Impairment of Investments in Hotel Properties—Hotel properties are reviewed for impairment whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. Recoverability of the hotel is measured by comparison of the carrying amount of the hotel to the estimated future undiscounted cash flows, which take into account current market conditions and our intent with respect to holding or disposing of the hotel. If our analysis indicates that the carrying value of the hotel is not recoverable on an undiscounted cash flow basis, we recognize an impairment charge for the amount by which the property’s net book value exceeds its estimated fair value, or fair value, less cost to sell. In evaluating impairment of hotel properties, we make many assumptions and estimates, including projected cash flows, expected holding period, and expected useful life. Fair value is determined

through various valuation techniques, including internally developed discounted cash flow models, comparable market transactions and third-party appraisals, where considered necessary. We recorded impairment charges of \$19.9 million for the three and six months ended June 30, 2015. See Note 4. No impairment charges were recorded for investments in hotel properties for the three and six months ended June 30, 2014.

Hotel Dispositions—Effective January 1, 2015, discontinued operations are defined as the disposal of components of an entity that represents strategic shifts that have (or will have) a major effect on an entity's operations and financial results. We anticipate that dispositions of hotel properties will not represent a strategic shift that has (or will have) a major effect on our operations and financial results as most will not fit the definition. This new guidance is to be implemented prospectively only. As such, hotel

property dispositions that occurred prior to December 31, 2014, will continue to be reported as discontinued operations in the statements of operations for all applicable periods presented. See Note 4.

Assets Held for Sale and Discontinued Operations—We classify assets as held for sale when we have obtained a firm commitment from a buyer, and consummation of the sale is considered probable and expected within one year. The related operations of assets held for sale are reported as discontinued if the disposal is a component of an entity or group of components that represents a strategic shift that has (or will have) a major effect on our operations and cash flows.

Intangible Assets and Liabilities—Intangible assets and liabilities represent the assets and liabilities recorded on certain hotel properties' ground lease contracts that were below or above market rates at the date of acquisition. These assets and liabilities are amortized using the straight-line method over the remaining terms of the respective lease contracts.

Note Receivable—Mezzanine loan financing, classified as note receivable, represents a loan held for investment and intended to be held to maturity. Note receivable is recorded at cost, net of unamortized loan origination costs and fees, loan purchase discounts, and allowance for losses when a loan is deemed to be impaired. Premiums, discounts, and net origination fees are amortized or accreted as an adjustment to interest income using the effective interest method over the life of the loan. We discontinue recording interest and amortizing discounts/premiums when the contractual payment of interest and/or principal is not received when contractually due. Payments received on impaired nonaccrual loans are recorded as adjustments to impairment charges. No interest income was recorded for the three and six months ended June 30, 2015 and 2014.

Variable interest entities ("VIEs"), as defined by authoritative accounting guidance, must be consolidated by their controlling interest beneficiaries if the VIEs do not effectively disperse risks among the parties involved. Our remaining mezzanine note receivable at June 30, 2015, is secured by a hotel property and is subordinate to the controlling interest in the secured hotel property. Although the note receivable is considered to be a variable interest in the entity that owns the related hotel, we are not considered to be the primary beneficiary of the hotel property as a result of holding the loan. Therefore, we do not consolidate the hotel property for which we have provided financing. We will evaluate interests in entities acquired or created in the future to determine whether such entities should be consolidated. In evaluating VIEs, our analysis involves considerable management judgment and assumptions.

Impairment of Note Receivable—We review notes receivable for impairment each reporting period. A loan is impaired when, based on current information and events, collection of all amounts recorded as assets on the balance sheet is no longer considered probable. We apply normal loan review and underwriting procedures (as may be implemented or modified from time to time) in making that judgment.

When a loan is impaired, we measure impairment based on the present value of expected cash flows discounted at the loan's effective interest rate against the value of the asset recorded on the balance sheet. We may also measure impairment based on a loan's observable market price or the fair value of collateral if the loan is collateral-dependent. Loan impairments are recorded as a valuation allowance and a charge to earnings. Our assessment of impairment is based on considerable management judgment and assumptions. No impairment charges were recorded during the three and six months ended June 30, 2015 and 2014. Valuation adjustments of \$109,000 and \$215,000 on previously impaired notes were credited to impairment charges during the three and six months ended June 30, 2015 and \$104,000 and \$205,000 during the three and six months ended June 30, 2014, respectively.

Investments in Unconsolidated Entities—Investments in entities in which we have ownership interests ranging from 14.4% to 52.4% are accounted for under the equity method of accounting by recording the initial investment and our percentage of interest in the entities' net income/loss. We review the investments in our unconsolidated entities for impairment in each reporting period pursuant to the applicable authoritative accounting guidance. An investment is impaired when its estimated fair value is less than the carrying amount of our investment. Any impairment is recorded in equity earnings (loss) in unconsolidated entities. No such impairment was recorded in the three and six months ended June 30, 2015 and 2014.

Our investments in certain unconsolidated entities are considered to be variable interests in the underlying entities. Variable Interest Entities (“VIE”), as defined by authoritative accounting guidance, must be consolidated by a reporting entity if the reporting entity is the primary beneficiary because it has (i) the power to direct the VIE’s activities that most significantly impact the VIE’s economic performance, (ii) an implicit financial responsibility to ensure that a VIE operates as designed, and (iii) the obligation to absorb losses of the VIE or the right to receive benefits from the VIE. Because we do not have the power and financial responsibility to direct the unconsolidated entities’ activities and operations, we are not considered to be the primary beneficiary of these entities on an ongoing basis and therefore such entities should not be consolidated. In evaluating VIEs, our analysis involves considerable management judgment and assumptions.

Marketable Securities—Marketable securities, including U.S. treasury bills, publicly traded equity securities and stocks, and put and call options on certain publicly traded securities. All of these investments are recorded at fair value. Put and call options are considered derivatives. The fair value of these investments has been determined based on the closing price as of the balance sheet date and is reported as “marketable securities” or “liabilities associated with marketable securities and other” in the consolidated balance sheets. The cost of securities sold is determined by using the high cost method. Net investment income, including interest income (expense), dividends, realized gains or losses and costs of investment, is reported as a component of “other income (loss).” Unrealized gains and losses on these investments are reported as “unrealized gain (loss) on marketable securities” in the consolidated statements of operations.

Due to/from Affiliates—Due to/from affiliates represents current receivables and payables resulting primarily from advances of shared costs incurred. Both due to/from affiliates are generally settled within a period not exceeding one year.

Due to/from Related Party—Due to/from related party represents current receivables and payables resulting from transactions related to hotel management, project management and market services with a related party. Due to/from related party is generally settled within a period not exceeding one year.

Due to/from Ashford Prime OP, net—Due to/from Ashford Prime OP represents receivables and payables resulting primarily from miscellaneous operating and capital improvement true-ups between the two entities. In 2014, we had receivables related to advisory fees. Both due to/from Ashford Prime OP is generally settled within a period not exceeding one year.

Due to Ashford Inc., net—Due to Ashford Inc., net, represents current payables resulting primarily from advisory services fee, including reimbursable expenses. In 2014, due to Ashford Inc., net, included payables resulting primarily from costs associated with the spin-off of Ashford Inc. Due to Ashford Inc., net, is generally settled within a period not exceeding one year.

Revenue Recognition—Hotel revenues, including room, food, beverage, and ancillary revenues such as long-distance telephone service, laundry, parking and space rentals, are recognized when services have been rendered. Taxes collected from customers and submitted to taxing authorities are not recorded in revenue. Interest income (including accretion of discounts on the mezzanine loan using the effective interest method) is recognized when earned. We discontinue recording interest and amortizing discounts/premiums when the contractual payment of interest and/or principal is not received when contractually due. We were reimbursed by PIM Highland JV for costs associated with managing its day-to-day operations and providing corporate administrative services such as accounting, insurance, marketing support, asset management and other services. Beginning with the three months ended March 31, 2014, we changed the presentation to report such reimbursements as “other” revenue as opposed to credits within “corporate, general and administrative” expense. This change had no impact on our financial condition or results of operations. As of March 6, 2015, we acquired the remaining approximate 28.26% of the PIM Highland JV which discontinued the aforementioned reimbursements.

Prior to the spin-off of Ashford Inc. in November 2014, we recognized advisory services revenue when services had been rendered. The quarterly base fee was equal to 0.7% per annum of the total market capitalization, as defined in the advisory agreement, of Ashford Prime, subject to certain minimums. Reimbursements for overhead and internal audit services were recognized when services had been rendered. We also recorded advisory services revenue for equity grants of Ashford Prime common stock and LTIP units awarded to our officers and employees in connection with providing advisory services equal to the fair value of the award in proportion to the requisite service period satisfied during the period, as well as an offsetting expense in an equal amount included in “corporate, general and administrative” expense.

Derivatives Instruments and Hedging—We use interest rate derivatives to hedge our risks and to capitalize on the historical correlation between changes in LIBOR (London Interbank Offered Rate) and RevPAR. Interest rate derivatives could include swaps, caps, floors and floorridors. We assess the effectiveness of each hedging relationship

by comparing changes in fair value or cash flows of the derivative hedging instrument with the changes in fair value or cash flows of the designated hedged item or transaction. We also use credit default swaps to hedge financial and capital market risk. All of our derivatives are subject to master-netting settlement arrangements and the credit default swaps are subject to credit support annexes. For credit default swaps, cash collateral is posted by us as well as our counterparty. We offset the fair value of the derivative and the obligation/right to return/reclaim cash collateral. All derivatives are recorded at fair value in accordance with the applicable authoritative accounting guidance. Interest rate derivatives and credit default swaps are reported as “derivative assets, net” or “liabilities associated with marketable securities and other” in the consolidated balance sheets. Accrued interest on non-hedge designated interest rate derivatives is included in “accounts receivable, net” in the consolidated balance sheets. For interest rate derivatives designated as cash flow hedges:

the effective portion of changes in fair value is initially reported as a component of “accumulated other comprehensive income (loss)” (“OCI”) in the equity section of the consolidated balance sheets and reclassified to

a) interest expense in the consolidated statements of operations in the period during which the hedged transaction affects earnings, and

the ineffective portion of changes in fair value is recognized directly in earnings as “unrealized gain (loss) on

b) derivatives” in the consolidated statements of operations. For the three and six months ended June 30, 2015 and 2014, there was no ineffectiveness.

For non-hedge designated interest rate derivatives and credit default swaps, changes in fair value are recognized in earnings as “unrealized loss on derivatives” in the consolidated statements of operations.

Income Taxes—As a REIT, we generally are not subject to federal corporate income tax on the portion of our net income (loss) that does not relate to taxable REIT subsidiaries. However, Ashford TRS is treated as a taxable REIT subsidiary for federal income tax purposes. In accordance with authoritative accounting guidance, we account for income taxes related to Ashford TRS using the asset and liability method under which deferred tax assets and liabilities are recognized for future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. In addition, the analysis utilized by us in determining our deferred tax asset valuation allowance involves considerable management judgment and assumptions.

The “Income Taxes” Topic of the Financial Accounting Standards Board’s (“FASB”) Accounting Standards Codification addresses the accounting for uncertainty in income taxes recognized in an enterprise’s financial statements. The guidance requires us to determine whether tax positions we have taken or expect to take in a tax return are more likely than not to be sustained upon examination by the appropriate taxing authority based on the technical merits of the positions. Tax positions that do not meet the more likely than not threshold would be recorded as additional tax expense in the current period. We analyze all open tax years, as defined by the statute of limitations for each jurisdiction, which includes the federal jurisdiction and various states. We classify interest and penalties related to underpayment of income taxes as income tax expense. We and our subsidiaries file income tax returns in the U.S. federal jurisdiction and various states and cities. Tax years 2011 through 2014 remain subject to potential examination by certain federal and state taxing authorities.

Reclassification—Certain amounts in the consolidated financial statements for the three and six months ended June 30, 2014, have been reclassified for discontinued operations.

Recently Adopted Accounting Standards—In April 2014, the FASB issued accounting guidance that revises the definition of discontinued operations by limiting discontinued operations reporting to disposals of components of an entity that represent strategic shifts that have (or will have) a major effect on an entity’s operations and financial results, removing the lack of continuing involvement criteria and requiring discontinued operations reporting for the disposal of an equity method investment that meets the definition of discontinued operations. The update also requires expanded disclosures for discontinued operations, including disclosure of pretax profit or loss of an individually significant component of an entity that does not qualify for discontinued operations reporting. The new accounting guidance is effective prospectively for fiscal years, and interim periods within those years, beginning after December 15, 2014. We adopted this accounting guidance on January 1, 2015. The adoption of this accounting guidance impacted the presentation of our results of operations as it required the operations of our disposed hotel property to be included in continuing operations.

Recently Issued Accounting Standards—In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers (“ASU 2014-09”). ASU 2014-09 is a comprehensive new revenue recognition model, which requires a company to recognize revenue to depict the transfer of promised goods or services to a customer in an amount that reflects the consideration the company expects to receive in exchange for those goods or services. The update will replace most existing revenue recognition guidance in U.S. GAAP when it becomes effective. ASU 2014-09 is effective in fiscal periods beginning after December 15, 2016. Early adoption is not permitted. The standard permits

the use of either the retrospective or cumulative effect transition method. We are evaluating the effect that ASU 2014-09 will have on our consolidated financial statements and related disclosures. We have not yet selected a transition method.

In August 2014, the FASB issued ASU 2014-15, Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern ("ASU 2014-15"), to provide guidance on management's responsibility to perform interim and annual assessments of an entity's ability to continue as a going concern and to provide related disclosure requirements. ASU 2014-15 applies to all entities and is effective for annual periods ending after December 15, 2016, and interim periods thereafter, with early adoption permitted. We do not expect the adoption of this standard will have an impact on our financial position, results of operations or cash flows.

In February 2015, the FASB issued ASU 2015-02, Amendments to the Consolidation Analysis. The ASU amends the consolidation guidance for VIEs and general partners' investments in limited partnerships and modifies the evaluation of whether limited partnerships and similar legal entities are VIEs or voting interest entities. The ASU is effective for interim and annual reporting periods beginning after December 15, 2015, with early adoption permitted. We are currently evaluating the effect of the ASU on our consolidated financial statements and related disclosures.

In April 2015, the FASB issued Accounting Standards Update ("ASU") No. 2015-03, Interest—Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs. The new standard requires that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. The standard is effective for annual reporting periods beginning after December 15, 2015, and interim periods within those fiscal years, with early adoption permitted. Upon adoption of the standard, we will reclassify deferred financing costs, net from total assets to be shown net of debt in the liabilities section of our consolidated balance sheet. Adoption of this standard will only affect the presentation of our consolidated balance sheet.

The unaudited proforma results of operations as if the acquisition had occurred on January 1, 2014 are included in the pro forma table below.

PIM Highland JV Acquisition

As previously discussed in Note 1, we acquired the remaining approximate 28.26% interest in the PIM Highland JV. The transaction closed on March 6, 2015, for consideration of \$250.1 million in cash. We recognized a gain of \$381.8 million. Subsequent to the close of the transaction, \$907.6 million of existing debt of the PIM Highland JV was refinanced. See Note 7. We have allocated the assets acquired and liabilities assumed using estimated fair value information based on a third party appraisal that was received subsequent to March 31, 2015, and resulted in adjustments to land, buildings and improvements, furniture, fixtures and equipment, and intangibles associated with above and below market leases. These adjustments resulted in a reduction of \$1.1 million of depreciation expense for the three months ended June 30, 2015, which represents the decrease of depreciation from the date of the acquisition through March 31, 2015. These adjustments also resulted in a net reduction of approximately \$16,000 of rent expense associated with intangible amortization of above and below market leases for the three months ended June 30, 2015, which represents the net decrease of rent expense from the date of acquisition through March 31, 2015. Rent expense is included in “other expenses” in the consolidated statements of operations. This valuation is considered a Level 3 valuation technique.

W Atlanta Downtown Hotel

On June 11, 2015, we announced that a definitive agreement had been signed to acquire the W Atlanta Downtown (“W Atlanta”) in Atlanta, Georgia for total consideration of \$56.8 million. On July 1, 2015, we completed the acquisition. Subsequent to the close of the transaction, we completed the financing of a \$40.5 million mortgage loan. See Note 17. The results of operations of the hotel property will be included in our results of operations beginning July 1, 2015. The unaudited proforma results of operations as if the acquisition had occurred on January 1, 2014 are included in the pro forma table below.

W Minneapolis Hotel & Le Meridien Minneapolis Hotel

On June 24, 2015, we announced that a definitive agreement had been signed to acquire the W Minneapolis Hotel - The Foshay (“W Minneapolis”) and the Le Meridien Chambers Minneapolis (“Le Meridien Minneapolis”) in Minneapolis, Minnesota for total consideration of \$101.0 million. As part of the transaction, we will assume approximately \$56.0 million of mortgage debt on the W Minneapolis Hotel. The assumed debt matures in May 2023 and carries a fixed rate of 5.46%. We completed the acquisition of Le Meridien Minneapolis on July 23, 2015, for total consideration of \$15 million. See Note 17. The results of operations of the Le Meridien Minneapolis will be included in our results of operations beginning July 23, 2015. The unaudited proforma results of operations as if the acquisition had occurred on January 1, 2014 are included in the pro forma table below.

Hilton Garden Inn - Wisconsin Dells

On August 5, 2015, we acquired a 100% interest in the Hilton Garden Inn - Wisconsin Dells in Wisconsin Dells, Wisconsin for total consideration of \$15.2 million. The acquisition was funded with cash. Subsequent to the close of the transaction, we completed the financing of a \$12.0 million mortgage loan. See Note 17. The results of operations of the hotel property will be included in our results of operations beginning August 5, 2015. The unaudited proforma results of operations as if the acquisition had occurred on January 1, 2014 are included in the pro forma table below.

Intangible Assets and Intangible Liabilities

The intangible assets and intangible liabilities of our new acquisitions noted above represent the above-market rate leases and below-market rate leases that were determined based on the comparison of rent due under the lease contracts assumed in the acquisitions to market rates for the remaining duration of the lease contracts and are amortized over their respective lease terms

with expiration dates ranging from 2024 to 2102. For the three and six months ended June 30, 2015, net amortization related to intangibles was a reduction in lease expense of \$68,000. There was no amortization expense recognized prior to the acquisitions noted above.

Estimated future net amortization expense for intangible assets and intangible liabilities for each of the next five years is as follows (in thousands):

	Intangible Assets	Intangible Liabilities
2015	\$98	\$197
2016	197	395

Pro Forma Financial Results

The following table reflects the unaudited pro forma results of operations as if all acquisitions had occurred and the applicable indebtedness was incurred on January 1, 2014 and the removal of \$5.4 million of non-recurring transaction costs and gain on acquisition of the PIM Highland JV of \$381.8 million. The table also reflects the removal of equity in earnings in unconsolidated entities of \$6.7 million for the three months ended June 30, 2014, respectively, and the removal of equity in loss in unconsolidated entities of \$3.8 million and equity in earnings in unconsolidated entity of \$4.0 million for the six months ended June 30, 2015 and 2014, respectively. These adjustments are directly attributable to the transactions for the three and six months ended June 30, 2015 and 2014 (in thousands):

4. Hotel Dispositions and Impairment Charges

Effective January 1, 2015, discontinued operations according to ASU 2014-08 are defined as the disposal of components of an entity that represent strategic shifts that have (or will have) a major effect on an entity's operations and financial results. As a result, operations of hotels sold subsequent to December 31, 2014 will continue to be reported in continuing operations, while gains/losses on disposition will be included in gain/loss on sale of property, after continuing operations. For transactions that have been classified as discontinued operations for periods prior to ASU 2014-08, we will continue to present the operating results as discontinued operations in the statements of operations for all applicable periods presented.

In March 2015, we completed the sale of the Hampton Inn hotel in Terre Haute, Indiana. We included operations for this hotel through the date of disposition in income (loss) from continuing operations as shown in the consolidated statements of operations for the six months ended June 30, 2015 and the three and six months ended June 30, 2014, as disposition of this hotel does not represent a strategic shift in our business.

In June 2015, we announced a plan to commence the process to list for sale a portfolio of approximately 23 select-service hotels. While we have determined this announcement does not meet the criteria to classify the approximately 23 select service hotels as held for sale, we have concluded that these properties were not to be held long-term. Based on our impairment assessment of individual properties we recorded an impairment charge of \$19.9 million related to two hotel properties. The Residence Inn in Las Vegas, Nevada and the SpringHill Suites in Gaithersburg, Maryland, recorded impairment charges of \$17.1 million and \$2.8 million, respectively in the three and six months ended June 30, 2015. The impairment charges were based on methodologies discussed in Note 2, which are considered Level 3 valuation techniques. Our estimates of fair value reduced their respective carrying values to \$37.5 million and \$15.3 million.

In November 2014, we completed the sale of the Homewood Suites hotel in Mobile, Alabama. Since this hotel sold prior to ASU 2014-08, we will continue to present the operating results as discontinued operations in the statements of operations for all applicable periods presented. 5. Note Receivable

At June 30, 2015 and December 31, 2014, we had one mezzanine loan receivable with a net carrying value of \$3.6 million, net of a valuation allowance of \$7.3 million and \$7.5 million, respectively. This note is secured by one hotel

property, bears interest at a rate of 6.09%, and matures in 2017. All required payments on this loan are current. Ongoing payments are treated as reductions of carrying value with related valuation allowance adjustments recorded as credits to impairment charges.

6. Investment in Unconsolidated Entities

We held a 71.74% common equity interest and a \$25.0 million, or 50%, preferred equity interest earning an accrued but unpaid 15% annual return with priority over common equity distributions in PIM Highland JV, a 28-hotel portfolio venture. Although we had majority ownership in PIM Highland JV, all major decisions related to the joint venture, including establishment of policies and operating procedures with respect to business affairs and incurring obligations and expenditures, were subject to the approval of an executive committee, which was comprised of four persons with us and our partner each designating two of those persons. As a result, we utilized the equity accounting method with respect to the PIM Highland JV.

As previously discussed, pursuant to the Agreement, we agreed to purchase and PRISA III agreed to sell all of PRISA III's right, title and interest in and to its approximately 28.26% interest in the PIM Highland JV. As of March 6, 2015, we own 100% of the PIM Highland JV. Prior to the acquisition of the remaining approximate 28.26% interest in the PIM Highland JV, we had a carrying value of \$144.8 million at December 31, 2014. The acquisition-date fair value of the previous equity interest was \$522.8 million and is included in the measurement of the consideration transferred. We recognized a gain of \$381.8 million as a result of remeasuring our equity interest in PIM Highland JV before the business combination. See Note 3 for unaudited pro forma results of operations and Note 7 for indebtedness related to the PIM Highland JV.

The following tables summarize the consolidated balance sheet as of December 31, 2014 and the consolidated statements of operations for the period from January 1, 2015 through March 5, 2015 and the three and six months ended June 30, 2014 of the PIM Highland JV (in thousands):

On February 27, 2014, we announced that our Board of Directors had approved a plan to spin-off our asset management business into a separate publicly traded company in the form of a taxable special distribution. The spin-off was completed on November 12, 2014, with a pro-rata taxable distribution of Ashford Inc.'s common stock to our common stockholders of record as of November 11, 2014. The distribution was comprised of one share of Ashford Inc. common stock for every 87 shares of our common stock held by our stockholders. In addition for each common unit of our operating partnership, the holder received a common unit of the operating limited liability company subsidiary of Ashford Inc. Each holder of common units of the operating limited liability company of Ashford Inc. could exchange up to 99% of those units for shares of Ashford Inc. stock at the rate of one share of Ashford Inc. common stock for every 55 common units. The exchange occurred on November 12, 2014, simultaneously with the distribution to common stockholders. Following the spin-off, we continue to hold approximately 598,000 shares of Ashford Inc. common stock for the benefit of our common stockholders, which represented an approximate 30.1% ownership interest in Ashford Inc. at the time of the spin-off. In connection with the spin-off, we entered into an advisory agreement with Ashford Inc.

In June 2015, for consideration of certain marketable securities, we obtained a 52.4% ownership interest in AIM Real Estate Hedged Equity (U.S.) Fund, LP (the "REHE Fund"). The REHE Fund is managed by Ashford Investment Management, LLC ("AIM"), an indirect subsidiary of Ashford Inc. As of and for the six months ended June 30, 2015, the REHE Fund was consolidated by Ashford Inc. The REHE Fund invests substantially all of its assets in the AIM Real Estate Hedged Equity Master Fund, LP (the "Master Fund"), and as a consequence of our investment in the REHE Fund, we obtained an indirect interest in the Master Fund. Our maximum exposure of loss is limited to our investment in the REHE Fund.

The Master Fund generally invests in publicly traded equity securities and put and call options on publicly traded equity securities. The REHE Fund records its investment in the Master Fund at its proportionate share of net assets. Income (loss) and distributions are allocated to the REHE Fund's partners based on their ownership percentage of the REHE Fund. Our equity in loss in the REHE Fund represents our share of the REHE Fund's loss from June 1, 2015 through June 30, 2015. We generally may redeem our investment in the REHE Fund on the last business day of the month after providing a 45-day written notice. As of June 30, 2015, we have no unfunded commitments. We are not obligated to pay any portion of the management fee or the performance allocation in favor of the REHE Fund's investment manager and general partner, respectively, but do share pro rata in all other applicable expenses of the REHE Fund.

Additionally, as of June 30, 2015 and December 31, 2014, we had a 14.4% subordinated beneficial interest in a trust that holds the Four Seasons hotel property in Nevis, which had a zero carrying value.

mortgage loan is interest only and provides for a floating interest rate of LIBOR + 4.95%. The stated maturity is January 2017, with three one-year extension options. The three mortgage loans totaling \$100.5 million due February 2025 bear interest at a fixed rate of 4.45%. The stated maturity date for each of these loans is February 2025. The new loans continue to be secured by the same 15 hotel properties.

On March 25, 2015, we completed the financing of a \$33.3 million mortgage loan, secured by the Memphis Marriott. The mortgage loan is interest only and provides for a floating interest rate of LIBOR + 4.95%. The stated maturity is April 2017, with three one-year extension options.

As previously discussed in Note 1, pursuant to the Agreement, we acquired the remaining approximate 28.26% interest in the PIM Highland JV. The transaction closed on March 6, 2015. Subsequent to the close of the transaction, \$907.6 million of assumed mortgage loans due March 2015 were refinanced with a \$1.07 billion non-recourse mortgage loan due April 2017. The new loan provides for an interest rate of LIBOR plus 4.39%. Additionally we assumed two mortgage loans which include a \$99.3 million mortgage due January 2018 with a fixed interest rate of 4.38% and a \$108.6 million mortgage loan due January 2018 with a fixed interest rate of 4.44%.

On April 17, 2015, we completed the financing of a \$25.1 million mortgage loan, secured by the Lakeway Resort. The mortgage loan is interest only and provides for a floating interest rate of LIBOR + 5.10%. The stated maturity is May 2017, with three one-year extension options.

On June 3, 2015, we completed the financing of a \$43.8 million mortgage loan, secured by the Le Pavillon. The mortgage loan is interest only and provides for a floating interest rate of LIBOR + 5.10%. The stated maturity is June 2017, with three one-year extension options.

On June 17, 2015, we completed the financing of two mortgage loans totaling \$179.2 million, secured by the Rockbridge Portfolio. The financing includes a \$144.0 million mortgage loan, secured by eight of the nine hotel properties. The mortgage loan is interest only and provides for a floating interest rate of LIBOR + 4.09%. The stated maturity is July 2017, with three one-year extension options. The financing also includes a \$35.2 million mortgage loan, secured by the Sheraton Ann Arbor hotel in Ann Arbor, Michigan. The mortgage loan is interest only and provides for a floating rate of LIBOR + 4.15%. The stated maturity is July 2017, with three one-year extension options.

On June 24, 2015, we completed the financing of a \$21.2 million mortgage loan, secured by the Hampton Inn Gainesville. The mortgage loan is interest only and provides for a floating interest rate of LIBOR + 4.50%. The stated maturity is July 2018, with two one-year extension options.

During the three and six months ended June 30, 2015, we recognized premium amortization of \$484,000 and \$611,000, respectively. The amortization of the premium is computed using a method that approximates the effective interest method, which is included in interest expense and amortization of premiums and loan costs in the consolidated statements of operations.

We are required to maintain certain financial ratios under various debt and derivative agreements. If we violate covenants in any debt or derivative agreement, we could be required to repay all or a portion of our indebtedness before maturity at a time when we might be unable to arrange financing for such repayment on attractive terms, if at all. The assets of certain of our subsidiaries are pledged under non-recourse indebtedness and are not available to satisfy the debts and other obligations of Ashford Trust or Ashford Trust OP, our operating partnership, and the liabilities of such subsidiaries do not constitute the obligations of Ashford Trust or Ashford Trust OP. Presently, our existing financial covenants are non-recourse and primarily relate to maintaining minimum debt coverage ratios, maintaining an overall minimum net worth, maintaining a maximum loan to value ratio, and maintaining an overall minimum total assets. As of June 30, 2015, we were in compliance in all material respects with all covenants or other requirements set forth in our debt and related agreements as amended.

8. Income (Loss) Per Share

Basic income (loss) per common share is calculated using the two-class method by dividing net income (loss) attributable to common stockholders by the weighted average number of common shares outstanding during the

period. Diluted income (loss) per common share is calculated using the two-class method, or treasury stock method if more dilutive, and reflects the potential dilution that could occur if securities or other contracts to issue common shares were exercised or converted into common shares, whereby such exercise or conversion would result in lower income per share.
