The Fund, listed on the New York Stock Exchange under the symbol "SWZ," is managed by Hottinger Capital Corp.

The Fund has earned the Lipper, Inc. award for ranking number one among Western European closed-end funds in ten year performance for the periods ended December 31, 2002, 2001, 2000, 1999, and 1998. The Fund had previously been recognized for its top one year performance in the same category for the year 2000. The Fund also maintained Morningstar's overall rating of four stars as of December 31, 2003. Of course, past performance is no guarantee of future results. See page 4 for more information.

GLOBAL STOCK MARKET PERFORMANCE

The year under review was indeed a good one for stock markets across the world. 2003 was one of the best examples of markets "climbing a wall of worries". It all looked bleak at the beginning of the year with the prospect of major geopolitical risks materializing, recession in business spending continuing and deflation becoming more of a reality. However, the concerted actions of the central banks were able to stop price erosion and preserve the strength in U.S. consumer spending and keep Chinese economic growth on its path.

Edgar Filing: SWISS HELVETIA FUND INC - Form N-CSR

While emerging markets were star performers due to an increase in investors' risk appetite in the context of very favorable liquidity conditions, the more mature markets, such as Germany and Spain, had very good performance as well. Although Switzerland and the United Kingdom did not perform as strongly in their own currencies, when their returns are measured in U.S. dollar terms their performance was admirable. The Swiss market appreciation of 36.47% (in U.S. dollar terms), as measured by the Swiss Performance Index (SPI), significantly outperformed the Dow Jones Industrial Average return of 28.28% and the Standard & Poor's 500 Index return of 28.67%.

SWISS ECONOMIC NOTES

On December 12, 2003, the Swiss National Bank (SNB) announced at a press conference that it would leave the target range for the 3-month Libor unchanged at 0.00% - 0.75% and that, for the time being, the rate would be kept at around 0.25%. The ten-year spot interest rate on Confederation bonds increased from 2.58% at the beginning of the year to 2.97% by the end of December. Most of the increase happened between June and the beginning of September. The last quarter, however, was flat. Even though the signs of an economic recovery in Switzerland are present, a sustained upswing is not yet assured. At the same time, inflation potential is low. For these reasons, the SNB maintained its expansionary monetary policy.

The real Gross Domestic Product (GDP) at the end of the third quarter decreased by 0.7% in comparison to last year. However, it exceeded the two previous quarters. Third quarter GDP grew by 1.0% led by higher exports (+5.2% over the prior quarter) thanks to more favorable exchange rate conditions. In addition, equipment investment rose slightly following a long phase of decline (+4.5% over the prior quarter) and consumer spending increased (+1.5%). Leading economic indicators set a new two-year record in November, suggesting a continuing positive trend for the GDP.

2

T H E S W I S S H E L V E T I A F U N D , I N C .

Letter to Stockholders (continued)

There is, however, some concern regarding consumption in Switzerland. The unemployment rate hit a six-year high in December at 4.1% (at the beginning of the year the rate was at 3.5%). The SNB believes that unemployment should fall and consumer spending should increase following improvement in the economic situation. It is expecting exports to continue to develop favorably and investment in equipment to experience a robust increase. On average, it expects a moderate decline in economic activity in the current year with growth in the economy of slightly over 1.5%.

On the inflation side, if monetary policy remains unchanged, average annual inflation is likely to amount to 0.4% in the coming year, 1.0% in 2005 and 2.3% in 2006. The SNB's opinion is that price stability can be maintained by tightening monetary policy at a later point in time.

SWISS NEWS

On December 2, 2003, the Swiss parliament voted to add banking secrecy to the constitution. Switzerland has had a banking secrecy law since 1935. However, adding financial privacy to the constitution would strengthen the law against efforts by some European Union members to abolish it. With banking secrecy in the constitution, parliament would lose the power to repeal the secrecy law.

Edgar Filing: SWISS HELVETIA FUND INC - Form N-CSR

This is good news for the Swiss financial industry, as it will assure further guarantee of the confidentiality of domestic and foreign private clients. Before it is part of the constitution, it has to be approved by the upper house and then by a majority vote in a popular referendum.

SWISS MARKET REVIEW AND FUND PERFORMANCE FOR THE YEAR

In the first quarter of the year Management kept a high level of cash due to the strength of the Swiss currency and the geopolitical risks. The market reached a bottom in March. After a loss of -22% from the beginning of the year through March 12th, the SPI rallied sharply, gaining back 20% in seven days, mainly on short covering in a limited number of financial stocks. This volatility made the Fund lag the benchmark for the first half of the year. For the rest of the year, the Fund's investment strategy was to concentrate on stock picking, trying to find undervalued stocks in turnaround situations. The strategy allowed the Fund to regain a positive relative performance, finishing the year with a 22.54% return in local currency, 0.48% better than the SPI.

The Fund maintained, for the year ended December 31, 2003, an overall rating of four stars from Morningstar.* The Fund also received Lipper, Inc.'s top ranking for Western European closed-end funds in ten-year performance for the period ended December 31, 2002.** Past performance is no guarantee of future results.

* Morningstar is an independent fund performance monitor. Its ratings reflect historic risk-adjusted performance and may change monthly. Its ratings of one (low) and five (high) stars are based on a fund's three- and five-year average annual total returns with fee adjustments, and a risk factor that reflects fund performance relative to three-month Treasury Bill monthly returns. Only 33% of the funds in an investment category may receive four or five stars. As of 12/31/03, there were 12 funds in the Fund's asset category rated by Morningstar.

** Lipper, Inc. is an independent fund performance monitor. As of 12/31/02, there were 9 funds in the Lipper Western European closed-end funds category, which is comprised of funds that concentrate their investments in equity securities whose primary trading markets or operations are in the Western European region or a single country within this region.

SPECIFIC COMPANY NEWS GEBERIT: On December 12, 2003 the Geberit Group announced the acquisition of Mapress Holding, Germany, the leading European provider of press fitting systems and drainage solutions, mainly made of stainless steel. With this acquisition, Geberit will expand its piping systems division, broaden its geographic presence and open up further potential for improvement in its sales and profits.

SGS: On December 22, 2003 SGS announced its acquisition of Medisearch International (MSI), an international full service clinical research organization, which provides clinical development and biomedical services to life sciences companies. With this acquisition SGS is building-up its life sciences services and is establishing a presence in the North American market, both important steps for its growth strategy.

Several capital increases occurred this last quarter:

ABB: At an extraordinary meeting on November 20, 2003 shareholders approved share capital increase expected to raise about \$2.5 billion through a rights offering. Shareholders demonstrated their confidence in the company by exercising 99% of the rights.

MICRONAS: At an extraordinary meeting held on November 30, 2003 shareholders accepted a proposal to increase the share capital by 8.1 million Swiss francs

Edgar Filing: SWISS HELVETIA FUND INC - Form N-CSR

within the next two years. The stated aim is to increase the group's strategic financial flexibility.

SGS: At an extraordinary meeting on December 9, 2003 shareholders approved a conditional share capital increase of up to 20 million Swiss francs and an authorized share capital increase of up to 10 million Swiss francs. Management's stated objective is to strengthen the company's long term financial flexibility, especially with regard to acquisitions.

COMMENTS ON THE CURRENCY

U.S. DOLLAR: The dollar depreciated markedly against the other main currencies of the world. It fell by 20% against the euro, 10.5% against the Swiss franc, 10% against the British pound and 10% versus the yen. The trade and budget deficits have been a source of concern for some time now, but the downside move was triggered by the statements of U.S. officials showing little willingness to continue a strong dollar policy.

SWISS FRANC: The Swiss franc vs. the U.S. dollar was flat during the first half of the year and then appreciated by around 12% from the peak exchange rate of 1.4174 at the end of August to 1.2391 at the end of year. The Swiss franc weakened considerably against the euro between March and July, depreciating by 8% for the full year, a decline which considerably helped Swiss exports to Euroland.

EURO: The European Central Bank (ECB) changed its rate only one time during the year, from 2.5% to 2.0% in June. The news did not have any impact on the euro since it had been expected for a long time. With inflation steady at around 2%, there is no indication that the ECB will change policy for some time. The euro finished the year high with an exchange rate of 1.2595 against the U.S. dollar and of 1.56 against the Swiss franc.

OUTLOOK

It is difficult to imagine a more favorable environment for stocks than the one that prevailed during the second half of 2003. As inflexion points in earnings expectations were reached, the first incremental upward revision took place. With extremely low interest rates and the threat of deflation fading away, no investment vehicle could compete against stocks. While price momentum can be expected to carry over in 2004, investors can look more closely at valuations and analysts will have a tougher time increasing earnings estimates. In the Swiss and U.S. markets, however, some segments that have performed below average, such as quality names in the large capitalization area, should outperform as investors become more risk adverse. While a flatter yield curve may slow down market performance, as long as long-term interest rates stay stable, stocks should continue to be attractive.

STOCK REPURCHASE PROGRAM

Pursuant to authorization by its Board of Directors, the Fund began open market purchases of its common stock on the New York Stock Exchange in 1999 and has continued purchases in each subsequent year. The principal purpose of the stock repurchase program is to enhance stockholder value by increasing the Fund's net asset value per share without creating a meaningful adverse effect upon the Fund's expense ratio and realizing capital gains in order to fund the repurchases. During the period ended December 31, 2003, the Fund repurchased and retired 172,100 shares at an average price of \$10.62 per share (including brokerage commissions) and a weighted average discount of 17.20%. These repurchases, which had a total cost of \$1,827,374, resulted in an increase of \$373,246 to the Fund's net asset value. The Board has authorized the purchase of up to 500,000 shares in 2004.

Notes to Financial Statements

NOTE 1-ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

A. ORGANIZATION

The Swiss Helvetia Fund, Inc. (the "Fund") is registered under the Investment Company Act of 1940, as amended (the "Act"), as a non-diversified, closed-end investment management company. The Fund is organized as a corporation under the laws of the State of Delaware.

The investment objective of the Fund is to seek long-term growth of capital through investment in equity and equity-linked securities of Swiss companies.

B. VALUATION OF SECURITIES

The Fund values its investments at market value.

When valuing listed equity securities, the Fund uses the last sale price prior to the calculation of the Fund's net asset value. When valuing equity securities that are not listed or that are listed but have not traded, the Fund uses the mean between the bid and asked prices for that day.

When valuing fixed income securities, the Fund uses the last bid price prior to the calculation of the Fund's net asset value. If a current bid price is not available, the Fund uses the mean between the latest quoted bid and asked prices. When valuing fixed income securities that mature within sixty days, the Fund uses amortized cost.

Edgar Filing: SWISS HELVETIA FUND INC - Form N-CSR

It is the responsibility of the Fund's Board of Directors (the "Board") to establish fair valuation procedures. When valuing securities for which market quotations are not readily available or for which the market quotations that are available are considered unreliable, the Fund determines a fair value in good faith in accordance with these procedures. The Fund may use these procedures to establish the fair value of securities when, for example, a significant event occurs between the time the market closes and the time the Fund values its investments. After consideration of various factors, the Fund may value the securities at their last reported price or at some other value. On December 31, 2003, there were no fair valued securities.

C. SECURITIES TRANSACTIONS AND INVESTMENT INCOME

Securities transactions are recorded on the trade date. Realized gains and losses are determined by comparing the proceeds of a sale or the cost of a purchase with a specific offsetting transaction.

Dividend income, net of any foreign taxes withheld, is recorded on the ex-dividend date. Interest income, including amortization of premiums and accretion of discounts, is accrued daily. Estimated expenses are also accrued daily.

The Fund records Swiss withholding tax as an expense, net of any amount receivable from Swiss tax authorities in accordance with the tax treaty between the United States and Switzerland.

D. DISTRIBUTIONS

The Fund pays dividends annually to the extent it has any net investment income and net realized gains from foreign currency transactions and makes distributions of any net realized capital gains to the extent they exceed any capital loss carryforwards. The Fund determines the size and nature of these distributions in accordance with provisions of the Internal Revenue Code. Distributions may be paid either in cash or in stock with an option to take cash. The Fund records dividends and distributions on its books on the ex-dividend date.

E. FEDERAL INCOME TAXES

The Fund's policy is to continue to comply with the requirements of the Internal Revenue Code that are applicable to regulated investment companies and to distribute all its taxable income to its stockholders. Therefore, no federal income tax provision is required.

F. SECURITIES LENDING

The Fund may lend securities to financial institutions. The Fund retains beneficial ownership of the securities it has loaned and continues to receive amounts equivalent to the dividends paid on these securities and to participate in any changes in their market value. For the initial transaction, the Fund requires the borrowers of the securities to establish collateral with the Fund in the form of cash and/or government securities equal to 105% of the value of the securities loaned.

Notes to Financial Statements (continued)

Subsequent to the initial transaction, the Fund requires the borrowers to maintain collateral with the Fund equal to 100% of the value of the securities

Edgar Filing: SWISS HELVETIA FUND INC - Form N-CSR

loaned. The Fund receives fees as compensation for lending its securities. Either the Fund or the borrower may terminate the securities loan at any time. At December 31, 2003, securities valued at \$4,325,850 were on loan to borrowers. For collateral, the Fund received U.S. government securities valued at \$4,436,250. Income generated from the program amounted to \$36,118 for the fiscal year ended December 31, 2003.

G. FOREIGN CURRENCY TRANSLATION

The Fund maintains its accounting records in U.S. dollars. The Fund determines the U.S. dollar value of foreign currency denominated assets, liabilities and transactions by using prevailing exchange rates. In valuing assets and liabilities, the Fund uses the prevailing exchange rate on the valuation date. In valuing securities transactions, the receipt of income and the payment of expenses, the Fund uses the prevailing exchange rate on the transaction date.

Net realized and unrealized gains and losses on foreign currency translations shown on the Fund's financial statements result from the sale of foreign currencies, from currency gains or losses realized between the trade and settlement dates on securities transactions, and from the difference between the amounts of dividends, interest, and foreign withholding taxes recorded on the Fund's books and the U.S. dollar equivalent of the amounts actually received or paid.

When calculating realized and unrealized gains or losses on investments in equity securities, the Fund does not separate the gain or loss attributable to changes in the foreign currency price of the security from the gain or loss attributable to the change in the U.S. dollar value of the foreign currency.

H. ESTIMATES

In preparing its financial statements in conformity with accounting principles generally accepted in the United States, management makes estimates and assumptions. Actual results may be different.

NOTE 2-FEES AND TRANSACTIONS WITH AFFILIATES

The Committee's allocations are based on its determination of the relative benefits the Fund and the Advisor derive from the expenditures. During 2003, the Committee allocated \$20,624 of expenses incurred in connection with publicizing the Fund as follows: \$10,312 to the Fund and \$10,312 to the Advisor.

Certain officers and directors of the Fund are also officers or directors of HCC, Hottinger U.S. Inc., Hottinger & Cie (Zurich) and/or Citigroup Global Transaction Services and its various affiliates (collectively "Citigroup"). Notes to Financial Statements (continued)

The Fund pays each director who is not an interested person (as such term is defined in the Act) of the Fund, its Advisor or Forum Administrative Services, LLC approximately \$16,000 per annum in compensation, except for the Chairmen of the Audit Committee and the Governance Committee, who the Fund pays an annual fee of approximately \$17,600. NOTE 5-FEDERAL INCOME TAX AND INVESTMENT TRANSACTIONS

At December 31, 2003, accumulated net investment income and accumulated net realized gain (loss) from investments and foreign currency transactions have been adjusted for current period permanent book/tax differences which arose principally from differing book/tax treatments of foreign currency transactions.

Accumulated Undistributed Net Investment Income	Accumulated Undistributed Net Realized Gain
\$6,289,626	\$(6,289,626)

At December 31, 2003, the net unrealized appreciation from investments for those

Edgar Filing: SWISS HELVETIA FUND INC - Form N-CSR

securities having an excess of value over cost (based on cost of \$170,447,162 for federal income tax purposes) was \$190,851,837. The difference between book basis and tax-basis unrealized appreciation is attributable primarily to the tax deferral of losses on wash sales.

Income and capital gain distributions are determined in accordance with federal income tax regulations, which may differ from generally accepted accounting principles.

The tax character of distributions paid during 2003 and 2002 was as follows (see page 28 for details):

	2003 ----	2002 ----
Ordinary income	\$ 3,470,158	\$ 1,532,859
Short-term capital gains	\$ 7,301,790	\$ 162,657

Long-term capital Gains (Post May 5)	\$ 662,572	-

At December 31, 2003, the components of distributable earnings on a tax basis were as follows:

Long-term capital gains	\$ 756,507
Unrealized appreciation	\$190,851,837

The aggregate cost of purchases and proceeds from sales of investments, other than short-term obligations, for the year ended December 31, 2003, were \$268,863,108 and \$243,427,567, respectively.

Notes to Financial Statements (concluded)

NOTE 6-STOCK REPURCHASE PROGRAM

Pursuant to authorization by the Board, the Fund began open market purchases of its common stock on the New York Stock Exchange in 1999 and has continued purchases in each subsequent year. The principal purpose of the stock repurchase program is to enhance stockholder value by increasing the Fund's net asset value per share without creating a meaningful adverse effect upon the Fund's expense ratio and realizing capital gains in order to fund the repurchases. The Board has authorized the purchase of up to 500,000 shares in 2004. During the period ended December 31, 2003, the Fund repurchased and retired 172,100 shares at an average price of \$10.62 per share (including brokerage commissions) and a weighted average discount of 17.20%. These repurchases, which had a total cost of \$1,827,374, resulted in an increase of \$373,246 to the Fund's net asset value.

NOTE 7-LITIGATION

Edgar Filing: SWISS HELVETIA FUND INC - Form N-CSR

On April 2, 2001 and May 8, 2001, two complaints were filed in purported class actions on behalf of stockholders of the Fund, in the Court of Chancery of the State of Delaware, against the Fund, each of its directors and HCC, the Fund's Investment Advisor (collectively, the "defendants"). The complaints in these cases, entitled KIMBERLY KAHN V. PAUL HOTTINGUER ET AL. and CHARLES MILLER V. PAUL HOTTINGUER ET AL., have been voluntarily dismissed by plaintiffs with prejudice pursuant to a settlement agreement that was approved by the Delaware Chancery Court on June 4, 2003. In the opinion of management, the terms of the settlement did not have a material adverse effect on the financial statements of the Fund.

CODE OF ETHICS

The Board of Directors of the Fund and the Advisor have Adopted Codes of Ethics pursuant to provisions of the Investment Company Act of 1940 (the "Codes"). The Codes apply to the personal investing activities of various individuals including directors and officers of the Fund and designated officers, directors and employees of the Advisor. The provisions of the Codes place restrictions on individuals who are involved in managing the Fund's portfolio, who help execute the portfolio manager's decisions or who come into possession of contemporaneous information concerning the investment activities of the Fund.

The fundamental principle of the Codes is that the individuals covered by the Codes have a fiduciary responsibility to the Fund and its stockholders. They are therefore required at all times to place the interests of the Fund and the stockholders first and to conduct all personal securities transactions in a manner so as to avoid any actual or potential conflict of interest or abuse of their position of trust.

Portfolio managers and other individuals with knowledge of Fund investment activities are prohibited from purchasing or selling a security during a blackout period of 30 calendar days before and after the date on which the Fund effects a trade in the same or a similar security. They are also prohibited from engaging in short term trading of Swiss equity or equity linked securities. Additionally, the Fund's portfolio managers are prohibited from participating in any initial public offering or private placement of Swiss equity and equity linked securities and other covered individuals must obtain prior clearance before doing so.

Any individual who violates the provisions of the Codes is required to reverse the transaction and to turn over any resulting profits to the Fund. The Fund and the Advisor have adopted compliance procedures and have appointed compliance officers to ensure that all covered individuals comply with the Codes.

Dividend Reinvestment Plan (Unaudited)

THE PLAN

The Fund's Dividend Reinvestment Plan (the "Plan") offers a convenient way for you to reinvest your capital gains distributions and ordinary income dividends in additional shares of the Fund.

Some of the Plan features are:

- o Once you enroll in the Plan, all of your future distributions and dividends payable in whole or in part in cash will be automatically reinvested in Fund shares.
- o You will receive shares valued at the lower of the Fund's net asset value or the Fund's market price as described below. The entire amount of your distribution or dividend will be reinvested automatically in additional Fund shares. For any balance that is insufficient to purchase full shares of the Fund, your account will be credited with fractional shares.
- o Your shares will be held in an account with the Plan agent. You will be sent regular statements for your records.
- o You may terminate participation in the Plan at any time.

The following are answers to frequently asked questions about the Plan.

HOW DO I ENROLL IN THE PLAN?

If you are holding certificates for your shares, contact American Stock Transfer & Trust Company (AST) at the address shown below. If your shares are held in a brokerage account, contact your broker. Not all brokerage firms permit their clients to participate in dividend reinvestment plans such as the Plan and, even if your brokerage firm does permit participation, you may not be able to transfer your Plan shares to another broker who does not permit participation. Your brokerage firm will be able to advise you about its policies.

HOW DOES THE PLAN WORK?

Any dividends or distributions you receive will be reinvested in shares of the Fund. The number of shares credited to your Plan account as a result of the reinvestment will depend upon the relationship between the Fund's market price and its net asset value per share on the record date of the distribution or

Edgar Filing: SWISS HELVETIA FUND INC - Form N-CSR

dividend, as described below:

- o If the net asset value is greater than the market price (the Fund is trading at a discount), AST as Plan Agent, will buy Fund shares for your account on the open market on the New York Stock Exchange or elsewhere. Your dividends or distributions will be reinvested at the average price AST pays for those purchases.
- o If the net asset value is equal to the market price (the Fund is trading at parity), the Fund will issue for your account new shares at net asset value.
- o If the net asset value is less than but within 95% of the market price (the Fund is trading at a premium of less than 5%), the Fund will issue for your account new shares at net asset value.
- o If the net asset value is less than 95% of the market price (the Fund is trading at a premium of 5% or more), the Fund will issue for your account new shares at 95% of the market price.

If AST begins to buy Fund shares for your account at a discount to net asset value but, during the course of the purchases, the Fund's market price increases to a level above the net asset value, AST will complete its purchases, even though the result may be that the average price paid for the purchases exceeds net asset value.

WILL THE ENTIRE AMOUNT OF MY DISTRIBUTION OR DIVIDEND BE REINVESTED?

The entire amount of your distribution or dividend will be reinvested in additional Fund shares. If a balance remains after the purchase of whole shares, your account will be credited with any fractional shares (rounded to three decimal places) necessary to complete the reinvestment.

HOW CAN I SELL MY SHARES?

You can sell any or all of the shares in your Plan account by contacting AST. AST charges \$15 for the transaction plus \$.10 per share for this service. You can also withdraw your shares from your Plan account and sell them through your broker.

DOES PARTICIPATION IN THE PLAN CHANGE THE TAX STATUS OF MY DISTRIBUTIONS OR DIVIDENDS?

No. The distributions and dividends are paid in cash and their taxability is the same as it would be if you received the cash. It is only after the payment that AST reinvests the cash for your account.

Dividend Reinvestment Plan (Unaudited) (concluded)

CAN I GET CERTIFICATES FOR THE SHARES IN THE PLAN?

AST will issue certificates for whole shares upon your request. Certificates for fractional shares will not be issued.

IS THERE ANY CHARGE TO PARTICIPATE IN THE PLAN?

There is no charge to participate in the Plan. You will, however, pay a pro rata share of brokerage commissions incurred with respect to AST's open market purchases of shares for your Plan account.

HOW CAN I DISCONTINUE MY PARTICIPATION IN THE PLAN?

Contact your broker or AST in writing. If your shares are in a Plan account, AST

Edgar Filing: SWISS HELVETIA FUND INC - Form N-CSR

will send you a certificate for your whole shares and a check for any fractional shares.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS

Not Applicable.

ITEM 6. [RESERVED]

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

The Registrant has delegated voting of proxies in respect of portfolio holdings to its investment adviser, Hottinger Capital Corp. (the "Advisor"), to vote the Registrant's proxies in accordance with Advisor's proxy voting guidelines and procedures. The Advisor has adopted proxy voting guidelines (the "Voting Guidelines") that provide as follows:

- o The Advisor votes proxies in respect of a client's securities in the client's best economic interests and without regard to the interests of the Advisor or any other client of the Advisor.
- o Unless the Advisor's Proxy Voting Committee (the "Committee") otherwise determines (and documents the basis for its decision) or as otherwise provided below, the Advisor votes proxies in a manner consistent with the Voting Guidelines.
- o To avoid material conflicts of interest, the Advisor applies the Voting Guidelines in an objective and consistent manner across client accounts. Where a material conflict of interest has been identified and the matter is covered by the Voting Guidelines, the Committee votes in accordance with the Voting Guidelines. Where a conflict of interest has been identified and the matter is not covered by the Voting Guidelines, the Advisor will disclose the conflict and the Committee's determination of the manner in which to vote to the Fund's Audit Committee.
- o The Advisor also may determine not to vote proxies in respect of securities of any issuer if it determines that it would be in the client's overall best interests not to vote.

The Advisor's Voting Guidelines address how it will vote proxies on particular types of matters such as the election for directors, adoption of option plans and anti-takeover proposals. For example, the Advisor generally will:

- o support management in most elections for directors, unless the board gives evidence of acting contrary to the best economic interests of shareholders;
- o support option plans, if it believes that they provide for their administration by disinterested parties and provide incentive to directors, managers and other employees by aligning their economic interests with those of the shareholders while limiting the transfer of wealth out of the company; and
- o oppose anti-takeover proposals unless they are structured in such a way that they give shareholders the ultimate decision on any proposal or

Edgar Filing: SWISS HELVETIA FUND INC - Form N-CSR

offer.
