Forward-Looking Statements

This report and other documents filed by us contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, which reflect management's current views with respect to, among other things, our operations and financial performance.

You may identify these forward-looking statements by the use of words such as “outlook,” “believes,” “expects,” “potential,” “may,” “should,” “seeks,” “predicts,” “intends,” “plans,” “estimates,” “anticipates” or the negative versions of these words or comparable words. Such forward-looking statements are subject to various risks and uncertainties. Accordingly, there are or will be important factors that could cause actual outcomes or results to differ materially from those indicated in these forward-looking statements. We believe that these factors include, but are not limited to, the risks described in the Risk Factors section of our Annual Report on Form 10-K for the year ended December 31, 2014 (the Form 10-K), which is accessible on the Securities and Exchange Commission’s website at www.sec.gov and on our website at www.cohenandsteers.com. These factors are not exhaustive and should be read in conjunction with the other cautionary statements that are included in this report, the Form 10-K and our other filings with the Securities and Exchange Commission. We undertake no obligation to publicly update or review any forward-looking statement, whether as a result of new information, future developments or otherwise.

COHEN & STEERS, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

1. Organization and Description of Business

Cohen & Steers, Inc. (CNS) was organized as a Delaware corporation on March 17, 2004. CNS is the holding company for its direct and indirect subsidiaries, including Cohen & Steers Capital Management, Inc. (CSCM), Cohen & Steers Securities, LLC (CSS), Cohen & Steers Asia Limited (CSAL), Cohen & Steers UK Limited (CSUK) and Cohen & Steers Japan, LLC (collectively, the Company).

The Company is a global investment manager specializing in liquid real assets, including real estate securities, listed infrastructure, commodities and natural resource equities, as well as preferred securities and other income solutions. Founded in 1986, the Company is headquartered in New York City, with offices in London, Hong Kong, Tokyo and Seattle.

2. Basis of Presentation and Significant Accounting Policies

The condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP). The condensed consolidated financial statements set forth herein include the accounts of CNS and its direct and indirect subsidiaries. Intercompany balances and transactions have been eliminated in consolidation.

The condensed consolidated financial statements of the Company included herein are unaudited and have been prepared in accordance with the instructions to Form 10-Q pursuant to the rules and regulations of the Securities and Exchange Commission (SEC). In the opinion of management, all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of the interim results have been made. The Company's condensed consolidated financial statements and the related notes should be read together with the consolidated financial statements and the related notes included in the Company's Annual Report on Form 10-K for the year ended December 31, 2014.

Accounting Estimates—The preparation of the condensed consolidated financial statements in conformity with GAAP requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosures of contingent assets and liabilities at the dates of the condensed consolidated financial statements and the reported amounts of revenue and expenses during the reporting periods. Management believes the estimates used in preparing the condensed consolidated financial statements are reasonable and prudent. Actual results could differ from those estimates.

Reclassifications—Certain prior year amounts have been reclassified to conform to the current year presentation.

Consolidation—The Company consolidates operating entities deemed to be voting interest entities if the Company owns a majority of the voting interest. The Company also consolidates any variable interest entities (VIEs) in which the Company is the primary beneficiary. The Company records noncontrolling interests in consolidated subsidiaries for which the Company's ownership is less than 100 percent. The equity method of accounting is used for investments in affiliates in which the Company's ownership ranges from 20 to 50 percent, or in instances in which the Company is able to exercise significant influence but not control.

A VIE is an entity in which either (a) the equity investment at risk is not sufficient to permit the entity to finance its own activities without additional financial support or (b) the group of holders of the equity investment at risk lack certain characteristics of a controlling financial interest. The primary beneficiary is the entity that has the obligation to absorb a majority of the expected losses or the right to receive the majority of the residual returns. Investments and redemptions or amendments to the governing documents of the respective entities could affect an entity's status as a VIE or the determination of the primary beneficiary. The Company assesses whether entities in which it has an interest are VIEs upon initial involvement and at each reporting date. The Company assesses whether it is the primary beneficiary of any VIEs identified by evaluating its economic interests in the entity held either directly by the Company and its affiliates or indirectly through employees. See Note 4 for further discussion about the Company's

investments.

Cash and Cash Equivalents—Cash equivalents consist of short-term, highly liquid investments, which are readily convertible into cash and have original maturities of three months or less.

COHEN & STEERS, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
(UNAUDITED)

Due from Broker—The Company conducts business, primarily with respect to its consolidated seed investments, with brokers for certain of its investment activities. The clearing and custody operations for these investment activities are performed pursuant to contractual agreements. The due from broker balance represents cash and cash equivalents balances at brokers/custodians and net receivables and payables for unsettled security transactions.

Investments—Management of the Company determines the appropriate classification of its investments at the time of purchase and re-evaluates such determination at each statement of financial condition date.

Investments classified as trading represent securities held within the affiliated funds that the Company consolidates and are measured at fair value based on quoted market prices, market prices obtained from independent pricing services engaged by management or as determined by the Company's valuation committee. Unrealized gains and losses are recorded as gain (loss) from trading investments—net in the Company's condensed consolidated statements of operations.

Investments classified as equity method investments represent seed investments that are accounted for using the equity method, under which the Company recognizes its respective share of the investee's net income or loss for the period. As of June 30, 2015, the Company's equity method investments consisted of interests in affiliated funds which measure their underlying investments at fair value and report a net asset value on a recurring basis. The carrying amounts of these investments approximate their fair value.

Investments classified as available-for-sale are comprised of equity securities, investment-grade preferred instruments and investments in Company-sponsored open-end mutual funds. These investments are carried at fair value based on quoted market prices or market prices obtained from independent pricing services engaged by management, with unrealized gains and losses, net of tax, reported in accumulated other comprehensive income. The Company periodically reviews each individual security position that has an unrealized loss, or impairment, to determine if that impairment is other than temporary. If the Company believes an impairment of a security position is other than temporary, based on available quantitative and qualitative information as of the report date, the loss will be recognized in the Company's condensed consolidated statements of operations.

From time to time, the affiliated funds consolidated by the Company enter into derivative contracts to gain exposure to the underlying commodities markets or to hedge market and credit risks of the underlying portfolios utilizing options, total return swaps, credit default swaps and futures contracts. These instruments are measured at fair value with gains and losses recorded as gain (loss) from trading investments—net in the Company's condensed consolidated statements of operations. The fair values of these instruments are recorded in other assets or other liabilities and accrued expenses in the Company's condensed consolidated statements of financial condition. As of June 30, 2015, none of the outstanding derivative contracts were subject to a master netting agreement or other similar arrangement.

Additionally, from time to time, the Company enters into foreign exchange contracts to hedge its currency exposure related to client receivables. These instruments are measured at fair value with gains and losses recorded in other non-operating income in the Company's condensed consolidated statements of operations. The fair values of these contracts are recorded in other assets or other liabilities and accrued expenses in the Company's condensed consolidated statements of financial condition.

Goodwill and Intangible Assets—Goodwill represents the excess of the cost of the Company's investment in the net assets of an acquired company over the fair value of the underlying identifiable net assets at the date of acquisition. Goodwill and indefinite lived intangible assets are not amortized but are tested at least annually for impairment by comparing the fair value to their carrying amounts. Finite lived intangible assets are amortized over their useful lives and are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. See Note 3 for further discussion about the Company's goodwill and intangible assets.

Redeemable Noncontrolling Interest—Redeemable noncontrolling interest represents third-party interests in the Company's consolidated entities. This interest is redeemable at the option of the investors and therefore is not treated as permanent equity. Redeemable noncontrolling interest is remeasured at redemption value which approximates the fair value at each reporting period.

COHEN & STEERS, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
(UNAUDITED)

Investment Advisory and Administration Fees—The Company earns revenue by providing asset management services to institutional accounts and to Company-sponsored open-end mutual funds and closed-end funds. Investment advisory fees are earned pursuant to the terms of investment management agreements, and are based on a contractual fee rate applied to the assets in the portfolio. The Company also earns administration fees from certain Company-sponsored open-end mutual funds and closed-end funds pursuant to the terms of underlying administration contracts.

Administration fees are based on the average assets under management of such funds. Investment advisory and administration fee revenue is recognized as such fees are earned.

Distribution and Service Fee Revenue—CSS acts as the principal distributor of the Company's sponsored open-end mutual funds which may offer the following classes: Class A (initial sales load), Class C (back end sales load), Class R (load retirement) and Class Z (no load retirement). Effective May 2007, the Company suspended sales of Class B shares and all remaining Class B shares converted to Class A shares in 2015. Distribution and service fee revenue is based on the average daily net assets of the funds as detailed below. Distribution and service fee revenue is earned daily and is recorded gross of any third-party distribution and service fee expense for applicable share classes.

Pursuant to distribution plans with the Company's sponsored open-end mutual funds, CSS receives distribution fees of up to 25bps for Class A shares, 75bps for Class C shares and 50bps for Class R shares. CSS also receives shareholder servicing fees of up to 10bps on Class A shares, 25bps on Class C shares and 15bps on Class Z shares, pursuant to shareholder servicing plans with the funds. Effective October 1, 2014, the Company no longer receives shareholder servicing fees on Class Z shares.

Distribution and Service Fee Expense—Distribution and service fee expense includes distribution fees, service fees and intermediary assistance payments. Distribution and service fee expense is recorded as incurred.

Distribution fee expense represents payments made to qualified dealers/institutions for (i) assistance in connection with the distribution of the Company's sponsored open-end mutual funds' shares and (ii) for other expenses such as advertising costs and printing and distribution of prospectuses to investors. Such amounts may also be used to pay financial intermediaries for services as specified in the terms of written agreements complying with Rule 12b-1 of the Investment Company Act of 1940 (Rule 12b-1). CSS pays distribution fee expense based on the average daily net assets under management of up to 25bps on Class A shares, 75bps on Class C shares and 50bps on Class R shares. Shareholder servicing fee expense represents payments made to qualified dealers/institutions for shareholder account service and maintenance. These services are provided pursuant to written agreements with such qualified institutions. CSS pays service fee expenses based on the average daily net assets under management of up to 10bps on Class A shares, 25bps on Class C shares and 15bps on Class Z shares. Effective October 1, 2014, the Company no longer pays shareholder service fees on Class Z shares.

Intermediary assistance payments represent payments to qualified dealers/institutions for activities related to distribution, shareholder servicing and marketing and support of Company-sponsored open-end mutual funds and are incremental to those described above. Intermediary assistance payments are generally based on the average assets under management or the number of accounts being serviced.

Portfolio Consulting and Other—The Company earns portfolio consulting and other fees by: (i) providing portfolio consulting services in connection with model-based strategy accounts; (ii) earning a licensing fee for the use of the Company's proprietary indexes; and (iii) providing portfolio monitoring services related to a number of unit investment trusts. This revenue is earned pursuant to the terms of the underlying contract, and the fee schedules for these relationships vary based on the type of services the Company provides for each relationship. This revenue is recognized as such fees are earned.

Stock-based Compensation—The Company recognizes compensation expense for the grant-date fair value of awards of equity instruments to employees. This expense is recognized over the period during which employees are required to

provide service. The Company also estimates forfeitures.

Income Taxes—The Company records the current and deferred tax consequences of all transactions that have been recognized in the condensed consolidated financial statements in accordance with the provisions of the enacted tax laws. Deferred tax assets are recognized for temporary differences that will result in deductible amounts in future years at tax rates that are expected to apply in those years. Deferred tax liabilities are recognized for temporary differences that will result in taxable income in future years at tax rates that are expected to apply in those years. The Company records a valuation allowance, when necessary, to reduce deferred tax assets to an amount that more likely than not will be realized. The effective tax rate for interim periods represents the Company's best estimate of the effective tax rate expected to be applied to the full fiscal year.

Currency Translation and Transactions—Assets and liabilities of subsidiaries having non-U.S. dollar functional currencies are translated at exchange rates at the applicable condensed consolidated statement of financial condition date. Revenue and expenses of such subsidiaries are translated at average exchange rates during the period. The gains or losses resulting from translating non-U.S. dollar functional currency into U.S. dollars are included in the Company's condensed consolidated statements of comprehensive income. The cumulative translation adjustment was \$(1,990,000) and \$(1,446,000) as of June 30, 2015 and December 31, 2014, respectively. Gains or losses resulting from non-U.S. dollar currency transactions are included in other non-operating income in the condensed consolidated statements of operations.

Comprehensive Income—The Company reports all changes in comprehensive income in the condensed consolidated statements of comprehensive income. Comprehensive income includes net income or loss attributable to common stockholders, foreign currency translation gain and loss (net of tax), unrealized gain and loss from available-for-sale investments (net of tax) and reclassification to statements of operations of gain and loss from available-for-sale investments (net of tax).

Recently Issued Accounting Pronouncements—In May 2015, the Financial Accounting Standards Board (FASB) issued new guidance amending the current disclosure requirement for investments in certain entities that calculate net asset value per share. The guidance requires investments for which fair value is measured using the net asset value per share practical expedient be removed from the fair value hierarchy. Instead, those investment amounts shall be provided as a separate item to permit reconciliation of the fair value of investments included in the fair value hierarchy to the line items presented in the statement of financial position. This new guidance will be effective for the Company's first quarter of 2016. The Company does not anticipate that the adoption of this new guidance will have a material impact on its condensed consolidated financial statements.

In February 2015, the FASB issued new guidance amending the current accounting for consolidation of certain legal entities. These amendments modify the evaluation of whether limited partnerships and similar legal entities are VIEs or voting interest entities, eliminate the presumption that a general partner should consolidate a limited partnership, affect the consolidation analysis of reporting entities that are involved with VIEs, particularly those that have fee arrangements and related party relationships, and provide a scope exception from consolidation guidance for reporting entities with interests in certain investment funds. This new guidance will be effective for the Company's first quarter of 2016. The Company is currently evaluating the potential impact on its condensed consolidated financial statements and related disclosures.

In August 2014, the FASB issued new guidance regarding disclosure of going concern uncertainties in the financial statements. The guidance requires management to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the entity's ability to continue as a going concern within one year after the date that the financial statements are issued at each annual and interim reporting period. This new guidance will be effective for the Company's first quarter of 2017. The Company does not anticipate that the adoption of this new guidance will have a material impact on its condensed consolidated financial statements.

In May 2014, the FASB issued new guidance which outlined a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers. The core principle of the revenue model is that an entity recognizes revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. This new guidance will be effective for the Company's first quarter of 2018 and requires either a retrospective or a modified retrospective approach to

adoption. The Company is currently evaluating the potential impact on its condensed consolidated financial statements and related disclosures, as well as the available transition methods.

3. Goodwill and Intangible Assets

Goodwill

Goodwill represents the excess of purchase price over the net tangible assets and identifiable intangible assets of an acquired business. At June 30, 2015 and December 31, 2014, goodwill was approximately \$18,233,000 and \$19,120,000, respectively. The Company's goodwill decreased by \$887,000 for the six months ended June 30, 2015 as a result of foreign currency revaluation.

Intangible Assets

The following table details the gross carrying amounts and accumulated amortization for the intangible assets at June 30, 2015 and December 31, 2014 (in thousands):

	Remaining Amortization Period (in months)	Gross Carrying Amount	Accumulated Amortization	Intangible Assets, Net
June 30, 2015:				
Amortized intangible assets:				
Client relationships	42	\$1,543	\$(1,225)	\$318
Non-amortized intangible assets:

4. Investments

The Cohen & Steers Active Commodities Strategy Fund, Inc. (CDF), which was launched by the Company in May 2014, is an open-end mutual fund for which the Company is the investment adviser. As of June 30, 2015, the Company owned the majority of the outstanding voting interest in CDF. Accordingly, the underlying assets and liabilities and results of operations of CDF have been included in the Company's condensed consolidated financial statements with the third-party interests classified as redeemable noncontrolling interest.

The Cohen & Steers Active Commodities Fund, LP (ACOM), launched by the Company in April 2013, is structured as a partnership. The Company is the investment adviser of ACOM for which it is entitled to receive a management fee. The Company owned all of the voting interest in ACOM through September 30, 2014. Accordingly, the underlying assets and liabilities and results of operations of ACOM had been included in the Company's condensed consolidated financial statements. As a result of third-party investments into the fund, effective October 1, 2014, the Company no longer held a controlling financial interest in ACOM. The Company determined that ACOM was not a VIE as the limited partners, unaffiliated with the Company, have the ability to liquidate the fund with a majority vote. As a result, the Company does not have financial control and ACOM is not consolidated into the Company's condensed consolidated financial statements. As the general partner, the Company has significant influence over the financial decisions of ACOM and therefore records its investment in ACOM using the equity method of accounting. The Company's equity interest in ACOM represents a seed investment to launch the fund, adjusted for the Company's proportionate share of the fund's earnings. As of June 30, 2015, the Company's ownership in ACOM was approximately 11%.

Cohen & Steers Global Realty Partners III-TE, L.P. (GRP-TE), which had its closing in October 2011, is structured as a partnership. The Company is the general partner and investment adviser of GRP-TE, for which it receives a management fee and is entitled to receive an incentive distribution, if earned. GRP-TE is a VIE and the Company is not the primary beneficiary. As the general partner, the Company has significant influence over the financial decisions of GRP-TE and therefore records its investment using the equity method of accounting. The Company's equity interest in GRP-TE represents a seed investment to launch the fund, adjusted for the Company's proportionate share of the fund's earnings. As of June 30, 2015, the Company's ownership in GRP-TE was approximately 0.2%. The Company's risk with respect to its investment in GRP-TE is limited to its equity ownership and any uncollected management fees. In conjunction with the launch of GRP-TE, the Company established Cohen & Steers Co-Investment Partnership, L.P. (GRP-CIP), which is used by the Company to fulfill its contractual commitment to co-invest with GRP-TE. See Note 11 for further discussion regarding the Company's co-investment commitment. As of June 30, 2015, the Company owned all of the voting interest in GRP-CIP. Accordingly, the underlying assets and liabilities and results of operations of GRP-CIP have been included in the Company's condensed consolidated financial statements.

The Cohen & Steers MLP & Energy Opportunity Fund, Inc. (MLO), which was launched by the Company in December 2013, is an open-end mutual fund for which the Company is the investment adviser. The Company owned the majority of the outstanding voting interest in MLO through October 31, 2014. Accordingly, the underlying assets and liabilities and results of operations of MLO had been included in the Company's condensed consolidated financial statements with the third-party interests classified as redeemable noncontrolling interest. During the period of November 1, 2014 through April 30, 2015, as a result of additional third-party subscriptions into the fund, the Company no longer owned the majority of the outstanding voting interest in MLO, however it was determined that the Company had significant influence over MLO and recorded its investment in MLO using the equity method of accounting. Effective May 1, 2015, the Company's ownership interest in MLO fell below 20% and the Company no longer has significant influence over MLO. Accordingly, the Company began recording its investment in MLO as an

available-for-sale investment.

Cohen & Steers Real Assets Fund, Inc. (RAP), which was launched by the Company on January 31, 2012, is an open-end mutual fund for which the Company is the investment adviser. During the period of August 1, 2013 through September 30, 2014, the Company did not hold a controlling financial interest in RAP, however it was determined that the Company had significant influence over RAP. Accordingly, the Company recorded its investment in RAP using the equity method of accounting. Effective September 30, 2014, the Company's ownership interest in RAP fell below 20% and the Company no

longer has significant influence over RAP. Accordingly, the Company began recording its investment in RAP as an available-for-sale investment.

The Company owned the majority of the voting interests in Cohen & Steers Global Real Estate Long-Short Fund, L.P. (the Onshore Fund) prior to its liquidation in April 2014. Accordingly, the underlying assets and liabilities and results of operations of the Onshore Fund had been included in the Company's condensed consolidated financial statements. The Onshore Fund was structured as a partnership and the Company was the general partner and investment adviser of the fund.

The Cohen & Steers Global Real Estate Long-Short Offshore Fund, L.P. (the Offshore Fund), which was liquidated in April 2014, was structured as a partnership. The Company was the general partner and investment adviser of the Offshore Fund for which it received a management fee and was entitled to receive a performance fee, if earned. The Company determined that the Offshore Fund was not a VIE as the limited partners, unaffiliated with the Company, had the ability to dissolve the fund with a majority vote. As a result, the Company did not have financial control and the Offshore Fund was not consolidated into the Company's condensed consolidated financial statements. As the general partner, the Company had significant influence over the financial decisions of the Offshore Fund and therefore recorded its investment in this fund using the equity method of accounting. The Company's equity interest in the Offshore Fund represented a seed investment to launch the fund, adjusted for the Company's proportionate share of the fund's earnings.

The following is a summary of the fair value of trading investments and equity method investments as of June 30, 2015 and December 31, 2014 (in thousands):

(1) At December 31, 2014, there were no securities with unrealized losses continuously for a period of more than 12 months.

Included in the total fair value of available-for-sale investments was approximately \$35,998,000 and \$15,875,000 in an unrealized loss position at June 30, 2015 and December 31, 2014, respectively.

Unrealized losses on available-for-sale investments as of June 30, 2015 were generally caused by market conditions. When evaluating whether an unrealized loss on an available-for-sale investment is other than temporary, the Company reviews such factors as the extent and duration of the loss, deterioration in the issuer's credit quality, reduction or cessation of dividend payments and overall financial strength of the issuer. As of June 30, 2015, the Company determined that it had the ability and intent to hold the remaining investments for which no other-than-temporary

impairment has occurred until a recovery of fair value. Accordingly, impairment of these investments is considered temporary.

5. Fair Value

Accounting Standards Codification Topic 820, Fair Value Measurement (ASC 820) specifies a hierarchy of valuation classifications based on whether the inputs to the valuation techniques used in each valuation classification are observable or unobservable. These classifications are summarized in the three broad levels listed below:

Level 1—Unadjusted quoted prices for identical instruments in active markets.

Level 2—Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs and significant value drivers are observable.

Level 3—Valuations derived from valuation techniques in which significant inputs or significant value drivers are unobservable.

Inputs used to measure fair value might fall in different levels of the fair value hierarchy, in which case the Company defaults to the lowest level input that is significant to the fair value measurement in its entirety. These levels are not necessarily an indication of the risk or liquidity associated with the investments. In determining the appropriate levels, the Company performed a detailed analysis of the assets and liabilities that are subject to ASC 820. Transfers among levels, if any, are recorded at the beginning of the reporting period. There were no transfers between level 1 and level 2 during the six months ended June 30, 2015.

Valuation Techniques

In certain instances, debt and equity securities are valued on the basis of prices from an orderly transaction between market participants provided by reputable brokers/dealers or pricing services. In determining the value of a particular investment, pricing services may use information with respect to transactions in such investments, broker quotes, pricing matrices, market transactions in comparable investments and various relationships between investments. As part of its independent price verification process, the Company selectively performs detailed reviews of valuations provided by broker/dealers or pricing services. Investments in Company-sponsored mutual funds are valued at their closing net asset value.

Foreign exchange contracts are valued by interpolating a value using the spot foreign exchange rate and forward points (based on the spot rate and currency interest rate differentials), which are all inputs that are observable in active markets (level 2).

In the absence of observable market prices, the Company values its investments using valuation methodologies applied on a consistent basis. For some investments, little market activity may exist; management's determination of fair value is then based on the best information available in the circumstances, and may incorporate management's own assumptions and involves a significant degree of judgment, taking into consideration a combination of internal and external factors. Such investments are valued on a quarterly basis, taking into consideration any changes in key inputs and changes in economic and other relevant conditions, and valuation models are updated accordingly. The valuation process also includes a review by the Company's valuation committee which is comprised of senior members from various departments within the Company, including investment management. The valuation committee provides independent oversight of the valuation policies and procedures.

The valuation techniques and significant unobservable inputs used in the fair value measurement of the following level 3 investments as of June 30, 2015 were:

	Fair Value (in thousands)	Fair Value Methodology	Significant Unobservable Inputs	Input / Range
Limited partnership interests - direct investments in real estate	\$1,419	Discounted cash flows	Discount rate Exit capitalization rates Market rental rates	9.5% - 15% 8% - 8.5% \$15.00 - 17.00 psf

The valuation techniques and significant unobservable inputs used in the fair value measurement of the following level 3 investments as of December 31, 2014 were:

	Fair Value (in thousands)	Fair Value Methodology	Significant Unobservable Inputs	Input / Range
Limited partnership interests - direct investments in real estate	\$1,465	Discounted cash flows	Discount rate Exit capitalization rates Market rental rates	9% - 15% 8% - 8.5% \$15.00 - 17.00 psf

Changes in the significant unobservable inputs in the tables above may result in a materially higher or lower fair value measurement. The disclosure in the above tables excludes the Company's ownership interests in limited partnership vehicles which are valued based on the net asset values of the underlying funds.

7. Earnings Per Share

Basic earnings per share is calculated by dividing net income attributable to common stockholders by the weighted average shares outstanding. Diluted earnings per share is calculated by dividing net income attributable to common stockholders by the total weighted average shares of common stock outstanding and common stock equivalents. Common stock equivalents are comprised of dilutive potential shares from restricted stock unit awards. Common stock equivalents are excluded from the computation if their effect is anti-dilutive. Diluted earnings per share are computed using the treasury stock method.

 (UNAUDITED)

Anti-dilutive common stock equivalents of approximately 17,000 and 8,000 shares, respectively, were excluded from the computation for the three and six months ended June 30, 2015. No anti-dilutive common stock equivalents were excluded from the computation for the three and six months ended June 30, 2014.

The following is a reconciliation of the income and share data used in the basic and diluted earnings per share computations for the three and six months ended June 30, 2015 and 2014 (in thousands, except per share data):

Diluted earnings per share attributable to common stockholders	\$0.45	\$0.49	\$0.91	\$0.91	

8. Income Taxes

The provision for income taxes includes U.S. federal, state, local and foreign taxes. For the three months ended June 30, 2015 and June 30, 2014, the effective tax rate was approximately 37.0% and 34.6%, respectively. The effective tax rate for the three months ended June 30, 2014 included the cumulative effect to adjust the estimated tax rate to 35.5% for the full year 2014. The effective tax rate for the six months ended June 30, 2015 and June 30, 2014 was approximately 37.0% and 35.5%, respectively. The Company expects the tax rate for the full year 2015 to approximate 37.0%, excluding discrete items.

Deferred income taxes represent the tax effects of the temporary differences between book and tax bases and are measured using enacted tax rates that will be in effect when such items are expected to reverse. The Company's net deferred tax asset is primarily comprised of future income tax deductions attributable to the delivery of unvested restricted stock units. The Company records a valuation allowance, when necessary, to reduce deferred tax assets to an amount that more likely than not will be realized.

9. Regulatory Requirements

CSS, a registered broker/dealer in the U.S., is subject to the SEC's Uniform Net Capital Rule 15c3-1 (the Rule), which requires that broker/dealers maintain a minimum level of net capital, as prescribed under the Rule. As of June 30, 2015, CSS had net capital of approximately \$1,078,000, which exceeded its requirements by approximately \$897,000. The Rule also provides that equity capital may not be withdrawn or cash dividends paid if the resulting net capital of a broker/dealer is less than the amount required under the Rule and requires prior notice to the SEC for certain withdrawals of capital.

CSS does not carry customer accounts and is exempt from SEC Rule 15c3-3 pursuant to provisions (k)(1) and (k)(2)(i) of such rule.

The Company has agreements with certain affiliated open-end mutual funds and closed-end funds to reimburse certain fund expenses. For the three months ended June 30, 2015 and 2014, expenses of approximately \$2,084,000 and \$2,423,000, respectively, were incurred by the Company pursuant to these agreements and are included in general and administrative expenses. For the six months ended June 30, 2015 and 2014, expenses of approximately \$4,478,000 and \$4,539,000, respectively, were incurred.

Included in accounts receivable at June 30, 2015 and December 31, 2014 are receivables due from Company-sponsored mutual funds of approximately \$19,514,000 and \$19,750,000, respectively.

11. Commitments and Contingencies

From time to time, the Company is involved in legal matters relating to claims arising in the ordinary course of business. There are currently no such matters pending that the Company believes could have a material adverse effect on its condensed consolidated results of operations, cash flows or financial position.

The Company periodically commits to fund a portion of the equity in certain of its sponsored investment products. The Company has committed to co-invest up to \$5.1 million alongside GRP-TE, a portion of which is made through GRP-TE and the remainder of which is made through GRP-CIP for up to 12 years through the life of GRP-TE. As of June 30, 2015, the Company has funded approximately \$3.2 million with respect to this commitment. The actual

timing for funding the unfunded portion of this commitment is currently unknown, as the drawdown of the Company's unfunded commitment is contingent on the timing of drawdowns by the underlying funds and co-investments in which GRP-TE invests. The unfunded

COHEN & STEERS, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
(UNAUDITED)

commitment was not recorded on the Company's condensed consolidated statements of financial condition as of June 30, 2015.

12. Concentration of Credit Risk

The Company's cash and cash equivalents are principally on deposit with three major financial institutions. The Company is subject to credit risk should these financial institutions be unable to fulfill their obligations.

13. Subsequent Events

The Company has evaluated the need for disclosures and/or adjustments resulting from subsequent events through the date the condensed consolidated financial statements were issued. Other than the items described below, the Company determined that there were no additional subsequent events that require disclosure and/or adjustment.

On August 6, 2015, CNS declared a quarterly dividend on its common stock in the amount of \$0.25 per share. The dividend will be payable on September 24, 2015 to stockholders of record at the close of business on September 3, 2015.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Set forth on the following pages is management's discussion and analysis of our financial condition and results of operations for the three and six months ended June 30, 2015 and June 30, 2014. Such information should be read in conjunction with our condensed consolidated financial statements and the notes to the condensed consolidated financial statements included herein. The condensed consolidated financial statements of the Company included herein are unaudited. When we use the terms "Cohen & Steers," the "Company," "we," "us," and "our," we mean Cohen & Steers, Inc., a Delaware corporation, and its consolidated subsidiaries.

Executive Overview

General

We are a global investment manager specializing in liquid real assets, including real estate securities, listed infrastructure, commodities and natural resource equities, as well as preferred securities and other income solutions. Founded in 1986, we are headquartered in New York City, with offices in London, Hong Kong, Tokyo and Seattle. Our primary investment strategies include U.S. and global/international real estate securities, global listed infrastructure, Master Limited Partnerships (MLPs) and midstream energy, commodities, natural resource equities, multi-strategy real assets, preferred securities and large cap value. Our strategies encompass a diversity of investment objectives and risk profiles and are actively managed by specialist teams of investment professionals who employ fundamental-driven research and portfolio management processes. We offer our strategies through a variety of investment vehicles, including U.S. registered mutual funds and other commingled vehicles and separate accounts, including sub-advised portfolios for financial institutions around the world.

Our products and services are marketed and offered through multiple distribution channels. We distribute our U.S. registered mutual funds principally through financial intermediaries, including broker/dealers, registered investment advisers, banks and fund supermarkets. Our institutional clients include corporate and public pension plans, endowment funds and foundations and insurance companies that access our investment management services directly or through consultants.

Our revenue is derived from investment advisory fees received from our clients, including fees for managing or sub-advising separate accounts, and investment advisory, administration, distribution and service fees received from our sponsored open-end mutual funds and closed-end funds. Our fees are based on contractually specified percentages of the value of the assets we manage. Our revenue fluctuates with changes in the total value of our assets under management, which may occur as a result of our investment decisions, market conditions, foreign currency fluctuations, or investor subscriptions or redemptions, and is recognized over the period that the assets are managed.

Quarterly Highlights

Revenue decreased 0.4% from the first quarter of 2015 to \$83.5 million for the second quarter of 2015. The decrease in revenue was primarily attributable to lower average assets under management in all three account types. Operating income decreased 9.8% from the first quarter of 2015 to \$31.2 million for the second quarter of 2015. Operating margin decreased to 37.3% for the second quarter of 2015 compared with 41.2% for the first quarter of 2015. Our effective tax rate was 37% for the second quarter of 2015.

Assets under management decreased by \$4.5 billion, or 8.3%, in the second quarter of 2015 to \$50.1 billion as of June 30, 2015, driven by market depreciation combined with net outflows. Average assets under management decreased by 3.1% during the second quarter of 2015 to \$53.3 billion. Our annualized organic decay rate for open-end mutual funds was 10% which, combined with our annualized organic decay rate of 4% for institutional accounts, resulted in an overall annualized organic decay rate of 5% for the second quarter of 2015. Organic growth/decay rates represent the ratio of annualized net flows for the quarter to the beginning assets under management.

Business Developments

During the second quarter of 2015, we were awarded our largest global listed infrastructure mandate to date of \$450 million; this mandate will be funded in stages beginning in the second half of 2015. In addition, Argo Global Listed Infrastructure Limited, an Australian listed investment company that we sub-advise (AGLI), was successfully launched on July 1, 2015 and funded with \$214 million, net of underwriter commissions, and has the potential to grow further through March 31, 2017, subject to market conditions affecting AGLI's shareholders' outstanding options.

Assets Under Management

We manage three types of accounts: institutional accounts, open-end mutual funds and closed-end funds.

Average assets under management were \$17.7 billion for the six months ended June 30, 2015, an increase of 16% from \$15.3 billion for the six months ended June 30, 2014.

Closed-end funds

Assets under management in closed-end funds were \$9.4 billion at June 30, 2015, a decrease of 6% from \$9.9 billion at June 30, 2014. The decrease in assets under management for the twelve months ended June 30, 2015 was primarily due to market depreciation of \$542 million.

Average assets under management for closed-end funds were \$9.8 billion for the three months ended June 30, 2015, an increase of 1% from \$9.7 billion for the three months ended June 30, 2014. Average assets under management were \$9.9 billion for the six months ended June 30, 2015, an increase of 4% from \$9.5 billion for the six months ended June 30, 2014, primarily due to market appreciation.

Three Months Ended June 30, 2015 Compared with Three Months Ended June 30, 2014

Revenue

Total revenue increased 6% to \$83.5 million for the three months ended June 30, 2015 from \$78.4 million for the three months ended June 30, 2014. This increase was primarily attributable to higher investment advisory and administration fees of \$4.3 million, resulting from higher average assets under management in all three account types, and higher portfolio consulting and other revenue of approximately \$506,000, primarily attributable to higher average assets under advisement from model-based strategies.

For the three months ended June 30, 2015, total investment advisory revenue from institutional accounts increased 4% to \$21.5 million from \$20.7 million for the three months ended June 30, 2014.

For the three months ended June 30, 2015, total investment advisory and administration revenue from open-end mutual funds increased 10% to \$34.8 million from \$31.5 million for the three months ended June 30, 2014.

For the three months ended June 30, 2015, total investment advisory and administration revenue from closed-end funds increased 1% to \$20.9 million from \$20.6 million for the three months ended June 30, 2014.

For the three months ended June 30, 2015, total portfolio consulting and other revenue increased 29% to \$2.3 million from \$1.8 million for the three months ended June 30, 2014.

Expenses

Total operating expenses increased 7% to \$52.3 million for the three months ended June 30, 2015 from \$48.7 million for the three months ended June 30, 2014, primarily due to increases of \$2.5 million in employee compensation and benefits, \$760,000 in general and administrative expenses and \$269,000 in distribution and service fee expenses. Employee compensation and benefits increased 10% to \$28.4 million for the three months ended June 30, 2015 from \$25.9 million for the three months ended June 30, 2014, primarily due to increases in incentive compensation of approximately \$1.5 million, salaries of approximately \$449,000 and commission-based compensation of approximately \$315,000, partially offset by lower amortization of restricted stock units of approximately \$562,000. General and administrative expenses increased 6% to \$12.8 million for the three months ended June 30, 2015 from \$12.1 million for the three months ended June 30, 2014. The increase was primarily due to higher international travel expenses of approximately \$436,000 and increased rent and occupancy costs of approximately \$266,000 attributable to the expansion of office space at our corporate headquarters.

Distribution and service fee expenses increased 3% to \$9.5 million for the three months ended June 30, 2015 from \$9.3 million for the three months ended June 30, 2014. The increase was primarily due to higher average assets under management in open-end mutual funds, partially offset by a shift to lower cost share classes and the expiration of a compensation agreement entered into in connection with the common stock offering of one of our closed-end funds for which fees were incurred through January 2015.

Non-operating Income

Non-operating income for the three months ended June 30, 2015 was \$1.8 million, compared with non-operating income of \$5.0 million for the three months ended June 30, 2014. The decrease was primarily due to lower realized and unrealized earnings from seed investments. The non-operating income for the three months ended June 30, 2015 included net income attributable to redeemable noncontrolling interest of \$11,000. The non-operating income for the three months ended June 30, 2014 included net income attributable to redeemable noncontrolling interest of \$741,000.

Income Taxes

Income tax expense was \$12.2 million for the three months ended June 30, 2015, compared with \$11.7 million for the three months ended June 30, 2014. The provision for income taxes for the three months ended June 30, 2015 included U.S. federal, state, local and foreign taxes at an approximate effective tax rate of 37.0%. The effective tax rate for the three months ended June 30, 2014 was approximately 34.6%, which included the cumulative effect to adjust our estimated tax rate to 35.5% for the full year 2014. We expect our tax rate for the full year 2015 to approximate 37.0%, excluding discrete items.

Six Months Ended June 30, 2015 Compared with Six Months Ended June 30, 2014

Revenue

Total revenue increased 11% to \$167.3 million for the six months ended June 30, 2015 from \$151.2 million for the six months ended June 30, 2014. This increase was primarily attributable to higher investment advisory and administration fees of \$14.5 million, resulting from higher average assets under management in all three account types, higher portfolio consulting and other revenue of approximately \$862,000, attributable to higher average assets under advisement from model-based strategies, and higher distribution and service fees of approximately \$706,000, attributable to higher average assets under management in our open-end mutual funds in 2015.

For the six months ended June 30, 2015, total investment advisory revenue from institutional accounts increased 8% to \$43.3 million from \$40.3 million for the six months ended June 30, 2014.

For the six months ended June 30, 2015, total investment advisory and administration revenue from open-end mutual funds increased 16% to \$69.9 million from \$60.2 million for the six months ended June 30, 2014.

For the six months ended June 30, 2015, total investment advisory and administration revenue from closed-end mutual funds increased 4% to \$41.8 million from \$40.1 million for the six months ended June 30, 2014.

For the six months ended June 30, 2015, total portfolio consulting and other revenue increased 24% to \$4.4 million from \$3.6 million for the six months ended June 30, 2014.

For the six months ended June 30, 2015, total distribution and service fees revenue increased 10% to \$7.9 million from \$7.2 million for the six months ended June 30, 2014.

Expenses

Total operating expenses increased 8% to \$101.6 million for the six months ended June 30, 2015 from \$94.0 million for the six months ended June 30, 2014, primarily due to increases of \$4.5 million in employee compensation and benefits, \$2.1 million in general and administrative expenses and \$1.2 million in distribution and service fee expenses. Employee compensation and benefits increased 9% to \$54.4 million for the six months ended June 30, 2015 from \$49.9 million for the six months ended June 30, 2014, primarily due to increases in salaries of approximately \$1.4 million, incentive compensation of approximately \$1.2 million and commission-based compensation of approximately \$773,000, partially offset by lower amortization of restricted stock units of approximately \$536,000.

General and administrative expenses increased 9% to \$25.3 million for the six months ended June 30, 2015 from \$23.2 million for the six months ended June 30, 2014. The increase was primarily due to higher international travel expenses of approximately \$861,000, increased rent and occupancy costs of approximately \$473,000 attributable to the expansion of office space at our corporate headquarters and higher information technology costs of approximately \$292,000.

Distribution and service fee expenses increased 7% to \$18.8 million for the six months ended June 30, 2015 from \$17.6 million for the six months ended June 30, 2014. The increase was primarily due to higher average assets under management in open-end mutual funds, partially offset by a shift to lower cost share classes and the expiration of a compensation agreement entered into in connection with the common stock offering of one of our closed-end funds for which fees were incurred through January 2015.

Non-operating Income

Non-operating income for the six month ended June 30, 2015 was \$245,000, compared with \$8.2 million for the six months ended June 30, 2014. The decrease was primarily due to lower realized and unrealized earnings from seed investments. The non-operating income for the six months ended June 30, 2015 included net loss attributable to redeemable noncontrolling interest of \$34,000. The non-operating income for the six months ended June 30, 2014 included net income attributable to redeemable noncontrolling interest of \$896,000.

Income Taxes

Income tax expense was \$24.4 million for the six months ended June 30, 2015, compared with \$22.9 million for the six months ended June 30, 2014. The provision for income taxes for the six months ended June 30, 2015 included U.S. federal, state, local and foreign taxes at an approximate effective tax rate of 37.0%. The effective tax rate for the six months ended June 30, 2014 was approximately 35.5%. We expect our tax rate for the full year 2015 to approximate 37.0%, excluding discrete items.

Changes in Financial Condition, Liquidity and Capital Resources

Our investment advisory business does not require us to maintain significant capital balances. Our current financial condition is highly liquid, with a significant amount of our assets comprised of cash and cash equivalents, trading investments, equity method investments, available-for-sale investments and accounts receivable. Our cash flows generally result from the operating activities of our business, with investment advisory and administrative fees being the most significant contributor. Cash and cash equivalents, equity method investments, available-for-sale investments and accounts receivable, excluding investments classified as level 3 in accordance with Accounting Standards Codification Topic 820, Fair Value Measurement, were 78% of total assets at both June 30, 2015 and December 31, 2014, respectively.

Cash and cash equivalents increased by \$520,000, excluding the effect of foreign exchange rate changes, for the six months ended June 30, 2015. Net cash provided by operating activities was \$36.2 million for the six months ended June 30, 2015. Net cash provided by investing activities was \$875,000, which included proceeds from sales of available-for-sale investments in the amount of \$4.6 million, partially offset by purchases of available-for-sale investments in the amount of \$2.9 million and purchases of property and equipment in the amount of \$813,000. Net cash of \$36.5 million was used in financing activities, primarily for dividends to stockholders of \$22.7 million and repurchases of common stock to satisfy employee withholding tax obligations on the vesting and delivery of restricted stock units of \$19.2 million, partially offset by

excess tax benefits associated with the vesting and delivery of restricted stock units of \$4.7 million, issuance of common stock of \$341,000 and contributions from redeemable noncontrolling interest of \$279,000.

Cash and cash equivalents decreased by \$16.2 million, excluding the effect of foreign exchange rate changes, for the six months ended June 30, 2014. Net cash provided by operating activities was \$2.8 million for the six months ended June 30, 2014. Net cash provided by investing activities was \$3.0 million, which included proceeds from sales of available-for-sale investments in the amount of \$8.3 million, partially offset by purchases of available-for-sale investments in the amount of \$3.6 million and purchases of property and equipment in the amount of \$2.2 million. Net cash of \$22.0 million was used in financing activities, primarily for dividends to stockholders of \$19.7 million and repurchases of common stock to satisfy employee withholding tax obligations on the vesting and delivery of restricted stock units of \$11.6 million, partially offset by contributions from redeemable noncontrolling interest of \$7.3 million and excess tax benefits associated with the vesting and delivery of restricted stock units of \$2.5 million.

It is our policy to continuously monitor and evaluate the adequacy of our capital. We have consistently maintained net capital in excess of the regulatory requirements for our broker/dealer, as prescribed by the Securities and Exchange Commission (SEC). At June 30, 2015, we exceeded our minimum regulatory capital requirements by approximately \$897,000. The SEC's Uniform Net Capital Rule 15c3-1 imposes certain requirements that may have the effect of prohibiting a broker/dealer from distributing or withdrawing capital and requiring prior notice to the SEC for certain withdrawals of capital.

Cohen & Steers Asia Limited (CSAL) and Cohen & Steers UK Limited (CSUK) are regulated outside the U.S. by the Hong Kong Securities and Futures Commission and the United Kingdom Financial Conduct Authority, respectively. At June 30, 2015, CSAL and CSUK exceeded their aggregate minimum regulatory requirements by approximately \$64.0 million. We believe that our cash and cash equivalents and cash flows from operations will be more than adequate to meet our anticipated capital requirements and other obligations as they become due.

Included in cash and cash equivalents was approximately \$85.2 million held by our foreign subsidiaries as of June 30, 2015. It is our current intention to permanently reinvest funds held by our non-U.S. subsidiaries. We believe that our cash and cash equivalents and short term investments held in the U.S. are more than sufficient to cover our working capital needs in the U.S.

We periodically commit to fund a portion of the equity in certain of our sponsored investment products. We have committed to co-invest up to \$5.1 million alongside Cohen & Steers Global Realty Partners III-TE, L.P. (GRP-TE). As of June 30, 2015, we funded approximately \$3.2 million with respect to this commitment. Our co-investment alongside GRP-TE is illiquid and is anticipated to be invested for the life of the fund. The timing of the funding of the unfunded portion of our commitment is currently unknown, as the drawdown of our commitment is contingent on the timing of drawdowns by the underlying funds and co-investments in which GRP-TE invests. The unfunded portion of this commitment was not recorded on our condensed consolidated statements of financial condition as of June 30, 2015.

Contractual Obligations and Contingencies

We have contractual obligations to make future payments in connection with our noncancelable operating leases for office space and certain computer and office equipment. There were no material capital lease obligations as of June 30, 2015. The following summarizes our contractual obligations as of June 30, 2015 (in thousands):

	2015	2016	2017	2018	2019	2020 and after	Total
Operating leases	\$5,645	\$11,472	\$10,474	\$9,997	\$10,733	\$42,976	\$91,297

Off-Balance Sheet Arrangements

We do not invest in any off-balance sheet vehicles that provide liquidity, capital resources, market or credit risk support, or engage in any leasing activities that expose us to any liability that is not reflected in our condensed consolidated financial statements.

Critical Accounting Policies and Estimates

A complete discussion of critical accounting policies is included in Management's Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for the year ended December 31, 2014. There were no significant changes in our critical accounting policies during the three months ended June 30, 2015.

Recently Issued Accounting Pronouncements

See discussion of Recently Issued Accounting Pronouncements in Note 2 of the Notes to Condensed Consolidated Financial Statements contained in Part I, Item 1 of this report.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There have been no material changes to our Quantitative and Qualitative Disclosures About Market Risk from those previously reported in our Annual Report on Form 10-K for the year ended December 31, 2014.

Item 4. Controls and Procedures

We maintain disclosure controls and procedures (as that term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)), that are designed to ensure that information required to be disclosed in our reports under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and our Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosures. Any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. Our management, including our Chief Executive Officer and our Chief Financial Officer, has evaluated the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act) as of June 30, 2015. Based on that evaluation and subject to the foregoing, our Chief Executive Officer and our Chief Financial Officer have concluded that our disclosure controls and procedures as of June 30, 2015 were effective to accomplish their objectives at a reasonable assurance level.

There has been no change in our internal control over financial reporting that occurred during the three months ended June 30, 2015 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II—Other Information

Item 1. Legal Proceedings

From time to time, we may become involved in legal matters relating to claims arising in the ordinary course of our business. There are currently no such matters pending that we believe could have a material effect on our condensed consolidated results of operations, cash flows or financial condition. From time to time, we receive subpoenas or other requests for information from various U.S. federal and state governmental authorities, domestic and international regulatory authorities and third parties in connection with certain industry-wide inquiries or other investigations or legal proceedings. It is our policy to cooperate fully with such requests.

Item 1A. Risk Factors

For a discussion of the potential risks and uncertainties associated with our business, please see Part I, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2014 (the Form 10-K). There have been no material changes to the risk factors disclosed in Part 1, Item 1A of the Form 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

During the three months ended June 30, 2015, we made the following purchases of our equity securities that are registered pursuant to Section 12(b) of the Securities Exchange Act of 1934.

Period	Total Number of Shares Purchased ⁽¹⁾	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs
