SABESP recorded net revenue of R\$1,086.8 million and EBITDA of R\$503.8 million in 3Q04. The result of the period end, R\$235.5 million net income, is a reflection of the positive effect from the Brazilian Real 8.0% appreciation versus US Dollar in the period and tariff readjustment of 6.78% in August 2004.

2. Gross Operating Revenue 6.2% growth

The 6.2% growth at gross operating revenue is due to the recovery trend from the retail market.

The 6.78% tariff readjustment effect as from August 29, 2004, bumped in 1.95% the month of September, resulting in a small variation in the operating revenues amount. The complete readjustment will be fully implemented to revenues up to November.

Revenues were also offset by the reduction on water consumption, with the migration of some consumers to the lower tariff level and by the R\$36.3 million bonus paid this quarter, which represented 3.2% of total gross operating revenue.

Volume of water and sewage billed to the retail market increased by 3.1%. The following tables show the water and sewage services volume billed to retail by type of use and region, in the third quarter of 2003 and 2004 (non audited):
