Discovery of New Gas Accumulation in Espírito Santo Basin

Rio de Janeiro, November 3, 2011 – Petróleo Brasileiro S.A. - Petrobras announces the discovery of a new gas accumulation in the post-salt of the Espírito Santo Basin, in Concession BM-ES-21 (Block ES-M-414). The discovery lies 135 km from the city of Vitória, in the State of Espírito Santo.

The discovery was made by drilling well 1-BRSA-983-ESS, informally known as Malombe. This well was drilled 13 km to the southeast of Peroá Field at a water depth of 980m.

The discovery was confirmed from the response of the gas detector and the logging which was conducted in reservoirs located at a depth of some 2600m.

Petrobras is the operator of the consortium for the exploration of the concession (88.1%) in partnership with RepsolSinopec (11.9%).

The consortium will continue its activities in the block, and it intends to submit an Evaluation Plan proposal to the National Oil, Natural Gas and Biofuels Agency (ANP) designed to demarcate the accumulation discovered, and estimate the reservoirs' volumes and productivity.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (Securities Act), and Section 21E of the Securities Exchange Act of 1934, as amended (Exchange Act) that are not based on historical facts and are not assurances of future results. These forward-looking statements are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.

All forward-looking statements are expressly qualified in their entirety by this cautionary statement, and you should not place reliance on any forward-looking statement contained in this press release. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information or future events or for any other reason.
