PREVIEW OF OPERATIONAL RESULTS

4Q11

--- Full-year launches totaled R\$ 3.5 billion, reflecting a more conservative strategy to enhance cash flow ---

--- Full-year contracted sales reached R\$ 3.4 billion, a 16% decrease compared to 2010 ---

--- Fourth quarter consolidated sales velocity of 8%, or 18% ex-Tenda ---

--- 23 thousand units delivered in 2011, almost double the number of 2010 ---

FOR IMMEDIATE RELEASE - São Paulo, January 19, 2012 – Gafisa S.A. (Bovespa: GFSA3; NYSE: GFA), Brazil’s leading diversified national homebuilder, today announced its operational figures for the fourth quarter and full year of 2011, ended December 31, 2011.

“The consolidated operational results reflect the planned strategy designed to maximize profits as we decided to scale back Tenda launches and dissolve contracts with potential homeowners no longer qualifying for bank mortgages,” CEO Duilio Calciolari said. “The full-year contribution of the higher margin AlphaVille brand increased, reflecting a long-term plan to expand its share of the product mix, while the Gafisa segment delivered stable launch volumes. We are confident this near term strategy will result in a strong product mix for the future.”

Consolidated Launches

Full-year consolidated launches totaled R\$ 3.5 billion, a 21% decrease compared to 2010, and at the low end of annual guidance of R\$ 3.5 to R\$ 4.0 billion. The deliberate slowdown in Tenda launches in the second half of 2011 reflects a more conservative strategy designed to increase profits, generate cash and reduce debt.

Throughout the year, 51 projects/phases were launched across 10 states. The Gafisa brand accounted for 61% of launches, AlphaVille comprised 28% and Tenda the remaining 11%.

Fourth quarter consolidated launches reached R\$ 582 million, a 62% drop compared to 4Q10, reflecting the implementation of a strategy to focus Tenda launches on those that can be immediately transferred to financial institutions.

Consolidated Pre-Sales

Full-year consolidated pre-sales totaled R\$ 3.4 billion, a 16% decrease compared to 2010. Sales from inventory represented 38% of the 2011 total, while units launched during the same year accounted for the remaining 62%. Full-year sales velocity of launches reached 47.2%, or 53.9% ex-Tenda.

Fourth quarter pre-sales reached R\$ 338 million, a 73% decline compared to 4Q10. The result is a direct consequence of the change in strategy during the second half. Excluding the dissolution of Tenda contracts no longer qualifying for bank financing, 4Q11 pre-sales would have reached R\$ 557 million.

Fourth quarter consolidated sales velocity reached 8.3%, compared to 27.4% in 4Q10. Excluding Tenda, 4Q11 sales velocity was 17.7%, compared to 23.1% in 3Q11 and 26.4% in 4Q10. The result reflects fewer launches during the period.

GAFISA

Focuses on residential developments within the upper, upper-middle, and middle-income segments, with unit prices exceeding R\$250,000, located in 50 cities across 19 states.

Gafisa Launches

Full-year launches were stable at R\$ 2.2 billion and included 22 projects/phases across 3 states. São Paulo and Rio de Janeiro, where the company has robust supply chains and projects demonstrating strong profitability, accounted for more than 95% of launches.

Fourth quarter launches reached R\$ 341 million, a 59% decrease compared to 4Q10.

Gafisa Pre-Sales

Full-year sales totaled R\$ 2.2 billion, a 10% increase compared to the previous year. Sales from inventory represented 40% of the 2011 total, while the remaining 60% came from units launched during the same year. The sales velocity of launches in 2011 was stable at 51.9%, as compared to a rate of 51.5% the previous year.

Fourth-quarter sales totaled R\$ 313 million, a 50% decrease compared to 4Q10. The sales speed of Gafisa projects in 4Q11 was 13.4%, compared to 25.1% in 4Q10. The decline reflects the launch of new developments toward the end of the quarter.

ALPHAVILLE

Focuses on the sale of residential lots, with unit prices between R\$100,000 and R\$500,000, and is present in 68 cities across 23 states and in the Federal District

AlphaVille Launches

Full-year launches totaled R\$ 972 million, a 31% increase over 2010, and included 12 projects/phases across 8 states. AlphaVille accounted for 27% of 2011 launches, up from a 16% share in 2010. AlphaVille is expected to increase its contribution to the Company's business in future periods as demographic changes and significant investments in the country's infrastructure make high quality suburban living more common.

Fourth quarter launches reached R\$ 344 million, a 79% increase over 4Q10.

AlphaVille Pre-Sales

Full-year pre-sales reached R\$ 842 million, a 41% increase compared to 2010. The residential lots segment accounted for 25% of consolidated pre-sales, up from a 15% share the previous year. Sales velocity of launches reached 59.7%. Sales from inventory represented 30% of the 2011 total, while the remaining 70% came from units launched during the same year.

Fourth-quarter sales totaled R\$ 244 million, a 27% increase over 4Q10. The sales speed of AlphaVille projects in 4Q11 remained stable at 30.1%, compared to 31.6% in 4Q10, primarily due to the success of projects launched during the period.

TENDA

Focuses on affordable residential developments, with unit prices between R\$80,000 and R\$200,000, has 20 regional store fronts, and projects developed in 105 cities across 15 states.

Tenda Launches

Full-year launches totaled R\$ 398 million, a 75% reduction compared to 2010, and included 17 projects/phases across 8 states and the cancellation in 4Q11 of R\$ 103 million of project no longer feasible under the new criteria of the Company adopted in the 3Q11.

Tenda Pre-Sales

This more conservative approach to Tenda's operations led to full-year sales of R\$ 330 million, a 77% reduction compared to 2010, in line with the reduced volume of launches.

In keeping with a necessary change in strategy, 4Q11 pre-sales in the low income segment were a negative R\$ 219 million, compared to R\$ 426 million in 4Q10, due to the dissolution of contracts with potential homeowners who no longer qualified for a bank mortgage due to a change in circumstance, such as lack of financial capacity, increased income, move to dual household income, cessation of employment etc. Consequently, units, which are on average more than 70% complete, will be returned to inventory and eligible for resale to qualified customers. We collected on average a down payment of 6% of the units that will be resold with mortgages from Financial Institutions, where according to the PoC1, the percentage of the incurred cost of a unit's value is received upfront. Going forward, pre-sales recognition and the remuneration of Tenda sales force will be based on the ability to pass mortgages on to banks.

Note: 1 PoC – Percentage of completion method.

Delivered Projects

The Group delivered 118 projects encompassing 22,679 units (26,868 equals 100% - Gafisa plus minority stake) with a potential sales value at company stake of R\$ 3.7 billion during 2011, almost double the number delivered during the previous year.

Inventory (Properties for Sale)

Inventory at market value totaled R\$ 3.8 billion in 4Q11, a 14% increase over 4Q10, due to the dissolution of Tenda sales and return of those units to inventory.

Q-o-Q (4Q11 compared to 3Q11) consolidated inventory at market value went up by 7.9%, or 3% ex-Tenda. The market value of Gafisa inventory was stable at R\$ 2.0 billion at the end of 4Q11. The market value of AlphaVille inventory totaled R\$ 567 million at the end of 4Q11, a 15.3% increase compared to the end of 3Q11. The improvement reflects the launch of two new developments toward the end of the quarter, allowing insufficient time for sales collection. Tenda inventory was valued at R\$ 1.17 billion at the end of 4Q11, a 20.5% increase compared to the end of 3Q11, mainly due to the dissolution of sales.
