## Performance report

In the 3Q14, we recorded operating income (EBIT) of R\$ 152 million, an expansion of R\$ 115 million when compared to the same period last year, while the EBIT margin moved up 4.5 percentage points registering 6.2%. This was the seventh consecutive quarterly improvement in this indicator, reflecting the continuity and consistent delivery on our results.

Net revenue in the last 12 months totaled R\$ 10 billion, a new record, even in a scenario of soft economic growth. GOL's demand for seats (RPK) grew by 8.3% year over year in the first nine months, representing 53% of the industry's growth, which reflects the greater attractiveness of our products and services. Domestic supply, however, fell by 2.9%, demonstrating the rationalization strategy that the Company took in place since April 2012. From January to September, 2014, we were the market leader in terms of passengers boarded in the domestic market, reaching the record mark of 27.5 million.

In order to offer greater connectivity, we launched during this quarter two new regional destinations on the domestic market, Carajás and Altamira (Pará), as well as new international flights to Santiago (Chile) from Guarulhos (São Paulo), Miami from Campinas, and to Punta Cana from Guarulhos (São Paulo), Confins (Minas Gerais) and Brasília. In this way, we are the Brazilian airline with the greater supply to the Caribbean, with 78 weekly flights.

The strategy of increasing our international presence has been further reinforced by the expansion of our alliances. This has also strengthened revenue in other currencies, which accounted for 11% of our total revenue in the last 12 months. We implemented a two-way codeshare partnership with Aerolineas Argentinas, allowing us to sell its tickets on our website. We will shortly begin offering the same facility for AirFrance-KLM flights.

In order to ensure an even better flying experience, we extended our GOL+ Conforto seating to our entire domestic route network, with an even greater reclining angle and even more distance between seats. Currently, 94% of our fleet is configured as GOL+ and, by the end of the year, 100% of our fleet will have this configuration. In the third quarter, we also launched an exclusive service in Brazil, our express bag drop service at Congonhas airport. With this new service, the customers can complete one more check-in stage at the self-service totems, labeling and weighing their own baggage, as well as paying for any excess. This is one more simple and intelligent innovation providing our passengers with even greater control and visibility throughout the entire process, since the ticket purchase to the flight.

These new facilities have strengthened our capacity to ensure an even better flying experience for leisure passengers, and to be more attractive to the corporate client. Even in the midst of a challenging economic scenario in Brazil, resulting in reduced demand from corporate customers, GOL was the airline company

leader in tickets issued for the corporate segment, according to Abracorp (Brazilian Travel Agents' Association).

Continuing with our measures to strength our balance sheet, we concluded two senior notes tender offers totaling US\$ 411 million. Also, we concluded a senior notes issuance this quarter, totaling US\$ 325 million at 8.875% p.a. due on 2022. These actions aim to optimize the debt profile, avoiding major amortization pressure in the next three years and reduce the financial cost. We closed the quarter with R\$ 2.7 billion in cash position, equivalent to 27% of revenue in the last 12 months, which is essential to pass through periods of high market volatility. The financial leverage ratio (adjusted gross debt/EBITDAR) stood at 6.3x, 4.6 points down on 3Q13.

I would like to thank our customers for their loyalty, our Team of Eagles for their commitment and investors for their confidence posted on the Company. We celebrated on September 8, 2014 in the New York Stock Exchange (NYSE) the 10-year listing of GOL, in which we reiterated our commitment to the transparency and communication with our shareholders, which reinforces our vision of being the best company to fly with, work for and invest in.

CEO of GOL Linhas Aéreas Inteligentes S.A.

### Highlights of the Subsidiary Smiles' Results in 3Q14

19.9% year-over-year upturn in the **number of accrued ex-GOL miles**;

**Miles redeemed** increase by 13.7% over 3Q13;

**Operating margin of 30.8%**, 6.0 percentage points higher than in 3Q13;

**Operating cash flow** of R\$ 180 million, 34.6% up on 2Q14;

Launch of Brazil's innovative '**365 Reasons' campaign**;

**Net profit** of R\$ 60 million, 5.4% down on 3Q13, reflecting the financial result related to the capital structure following the capital reduction.

Smiles S.A. closed 3Q14 with an operating profit of R\$ 69.1 million, 78.2% up on 3Q13, with an operating margin of 30.8%, up by 6.0 percentage points, thanks to the 19.9% increase in growth in the number of accrued ex-GOL miles and healthy direct redemption margins. The financial result reflects the capital structure following the capital reduction, which led to significant increase in the return on capital indicators.

## Aviation Market – Industry

The **domestic airline industry** maintained its dynamic of rationality in terms of **seat supply (ASK)**, with a 0.1% year-over-year decline in the first nine months, while the **demand** increased by 5.4%. The load factor moved up by 4.2 percentage points reaching 79.4%. In the quarter, industry **supply** fell by 0.7% while **demand** was up by 3.2%. As a result, the **load factor** came to 79.8%, 3.0 percentage points higher than in 3Q13.

The number of **passengers boarded** in the **domestic market** increased by 6.8% in the first nine months of 2014 to 70.3 million. In the **international market** more than 4.7 million passengers were transported, 4.4% more than in the same period last year.

## Domestic Market - GOL

**Domestic supply** declined by 2.9% in the 9M14 and 4.2% in the quarter, in line with the Company's projections for 2014 of a reduction between -3% and -1%.

**Domestic demand** increased by 8.3% in 9M14, representing 53% of the growth in the industry demand. In 3Q14, domestic demand grew by 6.8%.

The **domestic load factor** stood at 77.0% and 78.3% in 9M14 and 3Q14, respectively, fueling PRASK growth in the period.

GOL registered a record of 26 million **passengers transported in the domestic market** in the first nine months, 2.6 million more than in 9M13, which account for 57% of the increase reported by the industry as a whole in the same period. These results arose from the Company's efforts to constantly improve its products and services, making them even more attractive to the customers.

For the first time, GOL **was the airline company leader in the sale of air tickets to the corporate segment** in the nine months accumulated, according to Abracorp (Brazilian Travel Agents' Association).

### International Market - GOL

**International supply** increased by 8% in 9M14, in line with the annual growth guidance of up to 8% for 2014. The company announced new flights in the quarter to Santiago (Chile) from Guarulhos (São Paulo), Miami from Campinas, and to Punta Cana from Guarulhos (São Paulo), Confins (Minas Gerais) and Brasília.

**International demand** grew by 26.1% in 9M14, generating an increase of 10.2 percentage points in the period load factor.

GOL **carried 1.4 million boarded passengers in the international market** in the first nine months, 251 thousand more than in 9M13, versus an increase of 197 thousand for the industry as a whole. The Company maintained its focus on gradually increasing its presence in other countries, expanding the share of foreign-currency revenue.

**PRASK and Yield**

Due to the 8 percentage point upturn in the load factor, **PRASK** moved up by 9% over 3Q13. **Yield** recorded a 2% decline in the quarter, accompanying Brazil's challenging economic activity scenario, which reduced demand from business travelers.

## **Report on the review of interim financial information**

To

The Shareholders, Board of Directors and Officers

**Gol Linhas Aéreas Inteligentes S.A.**

São Paulo - SP

### **Introduction**

We have reviewed the accompanying individual and consolidated interim financial information of Gol Linhas Aereas Inteligentes S.A. ("Company"), identified as Company and Consolidated, respectively, contained in the Quarterly Information (ITR) for the quarter ended September 30, 2014, which comprises the balance sheet as at September 30, 2014 and the related income statement and statement of comprehensive income for the quarter and nine-month period then ended, and the statement of changes in equity and statement of cash flows for the nine-month period then ended, and a summary of significant accounting practices and other explanatory notes.

Company management is responsible for the preparation of interim individual financial information in accordance with the Technical Pronouncement of the Accounting Pronouncements Committee (CPC) 21 (R1) - Interim Financial Reporting and the consolidated interim financial information in accordance with CPC 21 (R1) and IAS 34 - Interim Financial Reporting, issued by the International Accounting Standards Board (IASB), as well as for the presentation of these information in compliance with the rules issued by the Brazilian Securities Commission ("CVM"), applicable to the preparation of Quarterly Information (ITR). Our responsibility is to express a conclusion on this interim financial information based on our review.

### **Scope of review**

We conducted our review according to the Brazilian and international review standards of interim financial information (NBC TR 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity, and ISRE 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim financial information consists of inquiries, mainly of the people responsible for the financial and accounting matters, and the application of analytical and other review procedures. The scope of a review is significantly narrower than that of an audit conducted in accordance with audit standards and, accordingly, it did not permit us to obtain assurance that we took notice of all significant matters that could have been raised in an audit. Therefore, we did not express an audit opinion.

### **Conclusion on the interim individual financial information**

Based on our review, we are not aware of any fact that makes us believe that the interim individual financial information included in the Quarterly Information referred above was not prepared, in all material respects, in accordance with CPC 21 (R1) applicable to the preparation of Quarterly Information (ITR), and presented in compliance with the rules issued by the CVM.

### **Conclusion on the interim consolidated financial information**

Based on our review, we are not aware of any fact that makes us believe that the interim consolidated financial information included in the Quarterly Information referred above was not prepared, in all material respects, in accordance with CPC 21 (R1) and IAS 34, and presented in compliance with the rules issued by the CVM.

### **Other matters**

### **Statements of value added**

We have also reviewed the individual and consolidated statement of value added (SVA) for the nine-month period ended September 30, 2014, prepared under the responsibility of the Company's management, the presentation of which in the interim financial information is required by the rules of the CVM applicable to Quarterly Information (ITR), and as supplementary information under IFRS, whereby no statement of value added presentation is required. These statements have been subject to the same review procedures previously described and, based on our review, we are not aware of any fact that makes us believe that they were not prepared, in all material respects, according to the interim individual and consolidated financial information taken as a whole.

### **Audit and review of the amounts corresponding to prior year and period**

The amounts correspondent to balance sheets for the year ended December 31, 2013 and the statements of income, of comprehensive income, of changes in shareholders' equity, of cash flows and of value added for the three and nine-months period ended September 30, 2013 presented for comparison purposes, were previously audited and reviewed, respectively, by other independent accountants, who issued an unmodified opinion dated March 25, 2014 and review report of quarterly information dated November 11, 2013.

## **GOL Linhas Aéreas Inteligentes S.A.**

Notes to the consolidated interim financial information

September 30, 2014

(In thousands of Brazilian Reais - R\$, except when indicated otherwise)

### **1. General information**

Gol Linhas Aéreas Inteligentes S.A. ("Company" or "GLAI") is a publicly-listed company established on March 12, 2004, in accordance with the Brazilian Corporate Laws. The Company is engaged in controlling its subsidiaries: (i) VRG Linhas Aéreas S.A. ("VRG"), which essentially explores (a) the regular and non-regular flight transportation services of passengers, cargo and mailbags, domestically or internationally, according to the concessions granted by the competent authorities; and (b) complementary activities of flight transport services provided in its bylaws; and (ii) Smiles S.A., which mainly operates (a) the development and management of its own or third party's customer loyalty program, and (b) sale of redemption rights of awards related to the loyalty program.

Additionally, the Company is the direct parent Company of the wholly-owned subsidiaries GAC Inc. ("GAC"), Gol Finance ("Finance"), Gol LuxCo S.A. ("Gol LuxCo"), Gol Dominicana Lineas Aereas SAS ("Gol Dominicana") and indirect parent Company of Webjet Linhas Aéreas S.A. ("Webjet"). The Company's shares are traded on São Paulo Stock Exchange - BM&FBOVESPA and on the New York Stock Exchange - NYSE. The Company adopted Differentiated Corporate Governance Practices of Level 2 from BM&FBOVESPA and is included in the Special Corporate Governance Stock Index ("IGC") and the Special Tag Along Stock Index ("ITAG"), which were created to identify companies committed to the differentiated corporate governance practices.

### **2. Approval and summary of significant accounting policies applied in preparing the interim financial information**

The interim Financial Information was authorized for issuance at the Board of Directors' meeting held on November 11, 2014. The Company's registered Office is at Pça. Comandante Linneu Gomes, s/n, portaria 3, prédio 24, Jardim Aeroporto, São Paulo, Brazil.

## **2.1. Basis of preparation**

The Consolidated Interim Financial Information was prepared for the three and nine-month period ended September 30, 2014 in accordance with International Accounting Standards ("IAS") n.34, and with corresponding Brazilian technical pronouncement CPC 21 (R1) which comprises the interim financial report.

IAS 34 requires the use of certain accounting estimates by Company's Management. The consolidated interim financial information was prepared based on historical cost, except for certain financial assets and liabilities measured at fair value.

### **2. Approval and summary of significant accounting policies applied in preparing the interim financial information** (Continued)

#### **2.1. Basis of preparation** (Continued)

The Individual Interim Financial Information was prepared in accordance with the technical pronouncement CPC 21 (R1) which comprises the interim financial reporting.

The Individual Interim Financial information measures investments in subsidiaries by the equity method, according to Brazilian legislation. Thus, the individual interim financial information is not in accordance with International Financial Reporting Standards ("IFRS"), which requires the valuation of these investments on the individual financial statements of the Parent Company at fair value or cost.

This Individual and Consolidated Interim Financial Information do not include all the information and disclosure items required in the consolidated annual financial statements and, therefore, it must be read along with the consolidated financial statements referring to the year ended December 31, 2013 filed on March 25, 2014, which were prepared in accordance with Brazilian accounting practices and IFRS. There were no changes in accounting policies adopted during the period from December 31, 2013 to September 30, 2014.

The shareholder's equity individual and consolidated quarterly financial information do not present differences on its composition, except in respect of the non-controlling interest in Smiles S.A., highlighted in the consolidated equity.

The non-financial information included on this Individual and Consolidated Interim Financial Information, such as sales volume, agreement information, forecasts, insurance, among others, have not been audited.

## **2.2. New accounting estimates, changes and assumptions**

### a) Applicable as of January 01, 2014

- Investment Entities (IFRS 10, 12 and IAS 12): provides an exception to the consolidation requirements to entities that fits in the definition of an investment entity in accordance with IFRS 10. The exception requires that the entities measure its subsidiaries at fair value through profit or loss. The Company's management concluded that this review did not affect its interim financial information, since none of its entities qualifies as an investment entity.

**2. Approval and summary of significant accounting policies applied in preparing the interim financial information** (Continued)

**2.2. New accounting estimates, changes and assumptions** (Continued)

a) Applicable as of January 01, 2014 (Continued)

- IAS 32 Offsetting Financial assets and liabilities - Review on IAS 32: These reviews clarifies the meaning of “currently have the legal right to offset known amounts” and the requirements of the non-simultaneous settlement to qualify for compensation. The Company’s management concluded that this review did not affect its interim financial information.
- IFRIC 21 Taxes: Clarifies when an entity should recognize a tax liability as the tax payment operation occurs. For taxes that require the payment from a metric achievement, the interpretation indicated that no liability should be recognized until its metric is reached. The Company’s management concluded that this review did not affect its interim financial information.
- IAS 39 Derivatives Renovation and Continued Hedge Accounting - Review on IAS 39: Assuage the discontinuing of the hedge accounting when the renovation of a derivative designated as hedge reaches certain criteria. The Company’s management concluded that this review did not affect its interim financial information.

b) Issued by IASB but not applicable to the date of this interim financial information, and not early adopted by the Company

*New standards*

- IFRS 9 Financial Instruments: As issued, reflects the first phase of the work of the IASB in order to replace the IAS 39 and applies to classification and measurement of financial assets and financial liabilities as defined in IAS 39. The standard would initially be applied to fiscal periods beginning on or after January 1, 2013, but the pronouncement “Amendments to IFRS 9 Mandatory effective Date of IFRS 9 and Transition Disclosures”, issued on December 2011, has postponed its term to January 1, 2015. On subsequent phases, the IASB will address issues such as hedge accounting and provision for losses on financial assets. The adoption of the first phase of IFRS 9 will have an impact on the classification and valuation of the Company's financial assets, but will not impact the classification and measurement of financial liabilities. The Company will quantify the effect in conjunction with the effects of the remaining stages of the IASB project, once the final rule is issued consolidated.

**2.2. New accounting estimates, changes and assumptions** (Continued)

b) Issued by IASB but not applicable to the date of this interim financial information, and not early adopted by the Company (Continued)

*New standards* (Continued)

- IFRS 15 Revenue from customers' agreements: Establishes a five-step model that the income earned from a contract with the client, regardless of the type of revenue or industry. Applies to all revenue agreements and provides a model for the recognition and measurement of gains or losses on the sale of certain non-financial assets that are not related to the ordinary activities of the entity (for example, sales of property, plant and equipment or intangible). Extensive disclosures are also required by this standard. This statement shall be applied for annual periods beginning on or after January 1, 2017, with earlier application allowed.

*Amendments to existing standards*

- IFRS 5 Non-current assets held for sale and discontinued operations - Changes in the settlement method: Clarifies that the change of method of the settlement of the property, either by sale or by distribution to its owners, should not be considered as a new plan of alienation, but rather a continuation of the original plan. Thus, there is no interruption in the application of the requirements of IFRS 5. The amendment also clarifies that the change of the settlement method does not change the date of classification. This amendment should be applied prospectively for changes in the method of alienation occurring in annual periods beginning on or after 1 January 2016, with earlier application allowed.
- IFRS 7 Financial instruments (Disclosure) - Service agreements: Clarifies that a service agreement that includes an administration fee may be characterized as a continuing involvement in some financial asset. An entity should evaluate the nature of the fee arrangement as guidance in paragraphs 7.B30 IFRS and IFRS 7.42C, in order to assess the required disclosures. This change should be applied for annual periods beginning on or after 1 January 2016, with earlier application allowed.

b) Issued by IASB but not applicable to the date of this interim financial information, and not early adopted by the Company (Continued)

##### *Amendments to existing standards (Continued)*

- IFRS 7 Financial instruments (Disclosure) - Applicability of disclosures offset to the condensed financial statements: The amendment removes the expression "and interim periods within those annual periods" of paragraph 44.R, clarifying that these disclosure requirements of IFRS 7 are not required to condensed financial statements. However, IAS 34 requires an entity to disclose "an explanation of events and transactions that are significant to an understanding of changes in financial position and performance of the entity since the end of the last year." So, if the disclosures in IFRS 7 reflect a significant update to the information contained in the latest annual report, it is expected that they are included in the condensed financial statements. This amendment should be applied retrospectively for annual periods beginning on or after 1 January 2016, with earlier application allowed.
- IAS 19 Employee benefits - Discount rate, regional market issuance: The amendment clarifies that high quality corporate bonds should be evaluated based on the currency which the obligation is denominated,

rather than the currency of the country where the obligation remains. When there is no bond market of high quality on the currency, public debt rates should be used. This amendment should be applied for annual periods beginning on or after 1 January 2016, with earlier application allowed.

- IAS 34 Interim financial statements - Disclosures "elsewhere in the interim financial statements": Establishes that the interim disclosures should be included or necessary in the interim financial statements or incorporated by reference in the interim financial statements and wherever they are included within the information intermediary (for example, the management report or risk report). This amendment should be applied retrospectively for annual periods beginning on or after 1 January 2016, with earlier application allowed.

The Company intends to adopt those standards when it becomes effective by disclosing and recognizing the impacts on the interim financial information that may occur when the application of such standards.

There are no other standards and interpretations issued but not yet adopted that, in Management's opinion, have a significant impact on net income or equity issued by the Company.

**3. Seasonality**

The Company expects that revenues and profits from its flights reach the highest levels during the summer and winter vacation periods, in January and July, respectively, and during the last two weeks of December, during the season holidays. Given the high portion of fixed costs, this seasonality tends to result in fluctuations in our operational quarter-on-quarter income.

	<b>327,401</b>	23,517	<b>1,449,055</b>	967,662

As of September 30, 2014, the cash equivalents were represented by private bonds (Bank Deposit Certificates - "CDBs"), buy-back transactions and time deposits paid at post fixed rates ranging between 85% and 104% of the Interbank Deposit Certificate Rate ("CDI").

The investment funds were represented primarily by government bonds paid at a weighted average rate of 92% of the CDI rate.

The investment funds classified as cash equivalents have immediate liquidity and, according to the Company analysis, can be converted to a known amount of cash with insignificant risk of change in its value.

#### Repatriation of the generated cash in Venezuela

On January 23, 2014, the Venezuela government announced that the airline companies could request the repatriation of their resources generated by sales in Venezuela through CADIVI ("Comisión de Administración de Divisas") by the official rate of BS 6.30/US\$1.00. This rate experienced a level increase and the rate as of September 30, 2014 was BS 12.00/US\$1.00. The exchange variation control in Venezuela is determined on a weekly basis by its Federal Reserve (SICAD).

Repatriation of the generated cash on Venezuela (Continued)

Given this increase, the Company recorded a currency depreciation justified by the intention to repatriate its values related to the operations performed in Venezuela as of January, 2014. During the three-month period ended September 30, 2014, the Company repatriated the amount of BS 227,220 (US\$20,226) at weighted average rate of BS 11.23/US\$1.00, equivalent to R\$47,300.

The total amount of the cash in Venezuela as of September 30, 2014 was R\$399,291, which the portion accrued as an impairment from the Venezuelan Bolívar related to U.S. Dollar was R\$82,227 with counterpart on "Foreign exchange variation, net" (see Note 28). The net recoverable balance of R\$317,064 is recorded as "Cash and bank deposits", which R\$130,949 is related to the operations performed in 2014 and R\$186,115 is related to the operation performed in 2013.

The register is subject to future changes due to the doubtful economic scenario in Venezuela, with the possibility of new limitations in the cash flows by CADIVI or sanctions by the government that may difficult the cash repatriation of the amounts.

The Company and its direct subsidiary VRG and indirect subsidiary Webjet have tax losses and negative basis of social contribution in the calculation of taxable income, to compensate with 30% of annual taxable profits, without time limit for expiration, in the following amounts:

	<b>Individual (GLAI)</b>		<b>Direct subsidiary (VRG)</b>		<b>Indirect subsidiary (Webjet)</b>

As of September 30, 2014, the tax credits arising from tax loss carryforwards and negative social contribution basis were valued based on the reasonably expected generation of future taxable income of the parent Company and its subsidiaries, subject to legal limitations.

Estimated recovery of deferred tax assets was based on taxable income projections, considering the assumptions above and several financial assumptions, business and internal and external factors considered at the end of the period. Consequently, the estimates may be subject to not materialize in the future, due to the uncertainties inherent in these estimates.

The Company and its subsidiaries hold the total amount of R\$1,334,107, of which R\$80,208 is related to its parent Company GLAI and R\$1,263,899 is related to its subsidiaries VRG and Webjet.

The forecasts of the parent Company GLAI and the indirect subsidiary Webjet did not present sufficient taxable profits to be realized over the next 10 years and, as a result, a provision was recorded for unrealizable loss tax credits of R\$26,522 for GLAI and R\$260,372 for Webjet. For the subsidiary VRG such forecasts indicate sufficient taxable profits for such to be realized in the next 10 years. However, due to tax losses presented during the recent years, the Administration conducted a sensitivity analysis on the forecast results, and considering significant changes in the macroeconomic scenario, registered the deferred tax assets on tax losses based on the lowest value obtained in this analysis. As a result, the Company and its subsidiaries did not recognized of R\$467,625 in its subsidiary VRG.

The Company's management considers that the deferred assets recognized as of September 30, 2014 arising from temporary differences will be realized when the provisions are settled and the related future events are resolved.

a) Escrow deposits

Deposits and blocked escrows represent guarantees of lawsuits related to tax, civil and labor claims deposited in escrow until the resolution of the related claims. Part of the blocked amount in escrow is related to civil and labor claims arising on the succession orders on claims against Varig S.A. and proceedings filed by employees that are not related to the Company or any related party (third-party claims). As the Company is not correctly classified as the defendant of these lawsuits, whenever such blockages occur, the exclusion of such is requested in order to release the resources. As of September 30, 2014 the blocked amounts regarding the Varig' succession and the third-party lawsuits are R\$84,689 and R\$65,818 respectively (R\$71,457 and R\$52,343 as of December 31, 2013, respectively).

b) Maintenance deposits

The Company and its subsidiaries VRG and Webjet made deposits in U.S. Dollars for maintenance of aircraft and engines that will be used in future events as set forth in some leasing contracts.

The maintenance deposits do not exempt the Company and its subsidiaries, as lessee, neither from the contractual obligations relating to the maintenance of the aircraft nor from the risk associated with maintenance activities. The Company and its subsidiaries hold the right to select any of the maintenance service providers or to perform such services internally.

c) Deposits in guarantee for lease agreements

As required by the lease agreements, the Company and its subsidiaries hold guarantee deposits in U.S. Dollars on behalf of the leasing companies, whose full refund occurs upon the contract expiration date.

(a) Refers to transactions related to revenue for redeeming miles for flight tickets for Smiles Program participants that, for consolidated financial statements purposes, only take place when the participants of the program are effectively transported by VRG.

(b) The adjusted equity corresponds to the percentage of the equity less unrealized gains.

(c) Is related to the investment cost due to G.A.

(d) The subsidiary Smiles decreased its own capital in the amount of R\$1,000,000 during the nine-month period ended September 30, 2014, and the amount due to the Company was R\$543,856.

(e) The subsidiary GAC has a net balance of deferred losses and gains on sale leaseback, whose deferral is subject to the payment of contractual installments made by its subsidiary VRG. Accordingly, as of September 30, 2014, the net balance to be deferred is essentially part of the net investment of the Parent Company in VRG. The net balance to be deferred as of September 30, 2014 was R\$25,030 (R\$27,088 as of December 31, 2013). For further details, see Note 30b.

**14. Investments** (Continued)Impacts on participation change on capital - Smiles S.A.

On February 27, 2014, the Company sold to General Atlantic S.A. (G.A.) the total of 3,433,476 shares of Smiles S.A. through the exercise of stock options in accordance with the investment agreement between the companies dated April 5, 2013 in the amount of R\$80,000. As a result of the exercise of the options, the Company decreased its participation in Smiles' capital, being from 57.3% to 54.5% and remaining as the controlling shareholder. The gain generated by this partial decrease in the investment was recorded in "Gains on change on investment" in equity. This gain is also consists of the reversal of R\$46,216 previously classified in equity as derivatives of equity instruments. The amounts related to this transaction are presented below:

Shares sold	<b>3,433,476</b>
Investment per share	<b>11.05</b>
Sell price	<b>80,000</b>

## 15. Losses per share

Although there are differences between common and preferred shares in terms of voting rights and priority in case of liquidation, the Company's preferred shares are not entitled to receive any fixed dividends. Rather, preferred shareholders are entitled to receive dividends per share in the same amount of the dividends per share paid to common shareholders. Therefore, the Company understands that, substantially, there is no difference between preferred shares and common shares, and, accordingly, basic and diluted result per share is calculated equally for both shares.

Consequently, result per share is calculated by dividing the net income or loss by the weighted average number of all classes of shares outstanding during the period. Diluted earnings or loss per share are computed including stock options granted to key management and employees using the treasury shares method when the effect is dilutive. The antidilutive effect of all potential shares is disregarded in calculating diluted earnings or loss per share.

(a) Smiles holds a Stock Options Plan for its employees. These equity instruments have a dilutive effect on earnings per share of this subsidiary, impacting, therefore, the loss considered on the basis calculation of Company's diluted result per share, in accordance with CPC 41.

Diluted result per share is calculated by the weighted average number of outstanding shares, in order to assume the conversion of all potential dilutive shares. Diluted result per share is calculated based on considering the instruments that may have a potential dilutive effect in the future, such as share-based payment transactions, described in Note 13. However, due to the losses reported for the period ended on September 30, 2014, these instruments issued have anti-dilutive effect and, therefore, are not considered in the total number of outstanding shares.

#### Adoption of the Law nº 12.973/2014 (Provisional Measure 627/2013)

On November, 2013 the provisional measure n. 627 was issued establishing that non-taxation over the profit and dividends calculated based on results from January 01, 2008 to December 31, 2013 by the Companies taxable based on actual profits, presumed or arbitrate, paid until the date of the provisional measure publication, in higher values that the ones calculated by the current accounting policies on December 31, 2007 since the Company has already paid the profit or dividends the anticipated adoption by 2014.

On May, 2014, the provisional measure was converted to Law n. 12,973, resulting in significant changes to the previously established, along with dividends, return on own capital and investments measurement through equity. A change from provisional measure n. 627 to Law n. 12,973, was the unconditional non-taxation for the profits and dividends calculated based on the results from January 01, 2008 to December 31, 2013.

In order to ensure tax neutrality established in Law n. 11,941, from 2009, since dividend payments occurred until the date of the law's publication, the Company and its subsidiary Smiles S.A.'s managements chose the early adoption of the Law through DCTF related to May, 2014. Thus, it will be guaranteed the usage of the equity measured in accordance with the Law no. 6404 from 1976, for purposes of calculating the limits as per laws related to the tax effects of interest on capital.

The Company analyzed the potential effects on the Law n. 12,973 adoption and concluded that there are no significant effects on its interim financial information as of September 30, 2014 and December 31, 2013 on GLAI and Smiles. On VRG and Webjet, the Company will analyse the impacts of the adoption of the Law and the related effects will be registered starting as from January 01, 2015.

a) Provision for anticipated return of aircraft

In 2011, according to the strategic planning of Webjet, a provision for the anticipated return of aircraft was recorded. This provision was calculated based on the expected return of 18 aircraft Boeing 737-300 with operating leases contracts, as part of the Company's fleet renewal. During the Nine-month period ended September 30, 2014 the Company completed 6 aircraft return with the following prefixes: PR-WJA, PR-WJV, PR-WJB, PR-WJD, PR-WJF and PR-WJH.

b) Return of aircraft and engines

The returns provisions consider the costs that meet the contractual conditions for the return of engines maintained under operating leases, as well as the costs to reconfigure the aircraft without purchase option, as prescribed in the returns conditions of the lease contracts, and which is capitalized in fixed assets (aircraft reconfigurations/overhauling), as described in Note 16.

c) Lawsuits

As of September 30, 2014 the Company and its subsidiaries are parties to 28,637 (8,146 labor and 20,491 civil) lawsuits and administrative proceedings. The lawsuits and administrative proceedings are classified into Operation (those arising from the Company's normal course of operations), and Succession (those arising from the succession of former Varig S.A. obligations).

**24. Provisions (Continued)**c) Lawsuits (Continued)

Under this classification, the number of proceedings is as follows:

	<b>Operation</b>	<b>Succession</b>	<b>Total</b>
Civil lawsuits	17,409	400	<b>17,809</b>
Civil proceedings	2,672	10	<b>2,682</b>

Labor proceedings	220	2	<b>222</b>
	<b>24,931</b>	<b>3,706</b>	<b>28,637</b>

The civil lawsuits are primarily related to compensation claims generally related to flight delays and cancellations, baggage loss and damage. The labor claims primarily consist of discussions related to overtime, hazard pay, and wage differences.

The provisions related to civil and labor suits, whose likelihood of loss is assessed as probable are as follows:

	<b>09/30/2014</b>	<b>12/31/2013</b>
Civil	<b>52,354</b>	66,294
Labor	<b>45,474</b>	51,271
	<b>97,828</b>	117,565

Provisions are reviewed based on the progress of the proceedings and history of losses based on the best current estimate for labor and civil lawsuits.

There are other civil and labor lawsuits assessed by management and its legal counsel as possible risks, in the estimated amount as of September 30, 2014 of R\$18,310 for civil claims and R\$3,251 for labor claims (R\$13,226 and R\$3,929 as of December 31, 2013 respectively), for which no provisions are recognized.

The tax lawsuits below were evaluated by the Company's management and its legal consultants as being relevant and with probable risk as of September 30, 2014:

- GLAI is discussing the non-incidence of taxation of PIS and COFINS on revenues generated by the interest on capital in the amount of R\$37,750, related to the years from 2006 to 2008, paid by its subsidiary GTA Transportes Aéreos S.A., succeeded by VRG on September 25, 2008. According to the opinion of the Company's legal counsel and based on the jurisprudence occurred in recent events, the Company classified this case as possible loss, without a provision registered for the related amount. Additionally, the Company maintains a letter of credit with Bic Banco with a partial guarantee on the lawsuit value of R\$21,131 as disclosed in Note 6.

#### c) Lawsuits (Continued)

- Tax on Services (ISS), the amount of R\$15,970 arising from assessment notices issued by the Prefeitura do Município de São Paulo against the Company, in the period from January, 2007 to December, 2010 regarding a possible ISS taxation on partners agreements. The classification of the possible risk stems from the matters under discussion and are interpretative, and involves discussions of factual and evidential materials, and has no final positioning of the Superior Courts.
- Customs Penalty in the amount of R\$33,604 relating to assessment notices issued against the Company for alleged breach of customs rules regarding procedures for temporary import of aircraft. The classification of possible risk is a result of the absence of a final positioning of the Superior Courts.
- BSSF goodwill (BSSF Air Holdings), in the amount of R\$42,835 related to Infraction notices due to the deductibility of the goodwill allocated to future profitability. The classification of possible risk is a result of the absence of a final positioning of the Superior Courts.
- VRG's goodwill in the amount of R\$16,674 resulted from summons of violation related to the deductibility of the goodwill classified as future payment. The classification of probable risk arises from the absence of a final opinion from the Superior Courts.

There are other lawsuits considered by the Company's management and its legal counsel as possible risk, in the estimated amount of R\$18,310 which added to the lawsuits mentioned above, amount to R\$165,143

as of September 30, 2014.

The Company and its subsidiaries are challenging in the court the ICMS levied on aircraft and engines imported under aircraft lease transactions without purchase options in transactions carried out with lessors' registered in foreign countries. The Company and its subsidiaries' management understand that these transactions represent simple leases in view of the contractual obligation to return the assets that are the subject matter of the contract.

The Management believes that there is no evidence of goods circulation and so, there are no legal events to generate the ICMS taxation. Based on the legal counsel opinion and supported by similar lawsuits with favorable decisions to taxpayers by the Superior Court of Justice (STJ) and Supreme Federal Court (STF) in the second quarter of 2007, the Company understands that the likelihood of loss is remote, and thus did not recognize provisions for these amounts. As of September 30, 2014 the estimated aggregated amount of the ongoing lawsuits related to the non-levy of ICMS tax on said imports is R\$240,599 (R\$229,450 as of December 31, 2013) adjusted for inflation, not including late payment charges. On September 11, 2014, the Federal Supreme Court (STF) granted the lawsuit declaring the non-levy of ICMS on imports of merchandise under financial leasing.

### **29. Operating segment**

Operating segments are defined as business activities from which it may earn revenues and incur expenses, which operating results are regularly reviewed by the relevant decision makers to evaluate performance and allocate resources to the segments.

As of January 01, 2013, as a result of the Smiles Program as an independent entity, the Company presents two operating segments: the flight transportation segment and the customer's loyalty program segment.

The flight transportation segment offers regular transportation of passenger and cargo, and the customer's loyalty program segment consists on the granting of credit reward miles to participants who can use them to redeem rewards, mainly airline tickets.

The accounting policies of the operating segments are the same as those applied to the consolidated financial statements. Additionally, the Company has distinct natures between the two reportable segments, which prevents any form of cost allocation, so there is no common costs and revenues between operating segments.

The information below presents the summarized financial position related to reportable segments for the nine-month period ended September 30, 2014:

In the individual interim financial information - ITR of the subsidiary Smiles S.A., which represents the segment Smiles Loyalty Program and in the information provided to the relevant decision makers, the revenue recognition occurs upon redemption of the miles by the participants. Under this perspective, this measurement is appropriate given that this is when the revenue recognition cycle is complete. At this point, Smiles has transferred to its suppliers the obligation to provide services or deliver products to its customers.

However, from a consolidated perspective, the revenue recognition cycle related to miles exchanged for flight tickets is only complete when the passengers are effectively transported. Therefore, for purposes of reconciliation with the consolidated assets, liabilities and results, as well as for purposes of equity method of accounting and for consolidation purposes, the Company performed, besides eliminations entries, consolidating adjustments to adjust the accounting practices related to Smiles' revenues. In this case, under the perspective of the consolidated financial statements, the miles that were used to redeem airline tickets are only recognized as revenue when passengers are transported, in accordance with accounting practices and policies adopted by the Company.

### **30. Commitments**

As of September 30, 2014 the Company holds 130 firm orders for aircraft acquisitions with Boeing. These aircraft acquisition commitments include estimates for contractual price increases during the construction phase. The approximate amount of firm orders, not including the contractual discounts, is R\$36,394,836 (corresponding to US\$14,848,974 at the reporting date) and are segregated according to the following years:

	<b>09/30/2014</b>	<b>12/31/2013</b>

The installment financed by long-term debt with aircraft guarantee through the U.S. Ex-Im Bank corresponds approximately to 85% of the aircraft total cost. Other establishments finance the acquisitions with equal or higher percentages, reaching up to 100%.

The Company performs payments related to aircraft acquisition through its own funds, short and long-term debt, cash provided by operating activities, short and medium-term line of credit and supplier financing.

The Company leases its entire aircraft fleet through a combination of operational and financial leases. As of September 30, 2014, the total fleet leased was comprised of 143 aircraft, excluding 3 aircraft from Webjet's fleet, of which 97 were under operating leases and 46 were recorded as financial leases. The Company holds 40 aircraft under financial leasing with purchase option. During the nine-month period ended September 30, 2014, the Company received 9 aircraft under operating lease contracts and affected the return of 8 aircraft operating lease.

#### a) Operating leases

The future payments of non-cancelable operating lease contracts are denominated in U.S. Dollars, and are as follows:

	<b>09/30/2014</b>	<b>12/31/2013</b>
2014	<b>249,428</b>	693,125
2015	<b>697,590</b>	581,153

<b>Total minimum lease payments</b>	<b>4,869,988</b>	4,094,045

b) Sale-leaseback transactions

During the nine-month period ended September 30, 2014, the Company recorded the amount of R\$1,783 and R\$1,783, as "Other payables" in current and noncurrent liabilities, respectively (R\$5,247 and R\$3,118 as of December 31, 2013), related to the gains from sale-leaseback transactions performed by its subsidiary GAC Inc. in 2006 of 8 aircraft 737-800 Next Generation. These gains were deferred and are being amortized proportionally to the payments of the operational lease agreements, of which 1 aircraft have the agreement maturity of 91 months, 5 aircraft have contract term of 96 months and 2 aircraft have contract term of 120 months.

#### b) Sale-leaseback transactions (Continued)

On the same date, the Company held the amount of R\$8,280 and R\$20,316 as “Prepaid expenses” in current and noncurrent assets, respectively (R\$8,923 and R\$26,526 as of December 31, 2013), related to the losses on sale-leaseback transactions performed by its subsidiary GAC Inc. of 9 aircraft. During the years 2007, 2008 and 2009 these losses were deferred, and are being amortized proportionally to the payments of the operational lease agreements over the contract term of 120 months.

Additionally, during the nine-month period ended on September 30, 2014, the Company recorded a gain of R\$73,920 resulting from 9 aircraft received during the period (14 aircraft received during the nine-month period ended on September 30, 2013) that were used as sale-leaseback transactions and resulted in operating leases. Given that the gains and losses from sale-leaseback transactions will not be offset against future lease payments and were negotiated at fair value, such gain was recognized directly in profit or loss.

### **31. Financial instruments**

The Company and its subsidiaries have financial asset and financial liability transactions, which consist in part of derivative financial instruments.

The financial derivative instruments are used to hedge against the inherent risks related to the Company operations. The Company and its subsidiaries consider as most relevant risks: fuel price, exchange rate and interest rate. These risks can be mitigated by using exchange swap derivatives, futures and options contracts based on oil, U.S. Dollar and interest markets. The contracts may be held by means of exclusive investment funds, as described in the Risk Management Policy of the Company.

Management follows a documented guideline when managing its financial instruments, set out in its Risk Management Policy, which is periodically revised by the Risk Committee (CPR), and approved by the Board of Directors. The Committee sets the guidelines and limits, monitors controls, including the mathematical models adopted for a continuous monitoring of exposures and possible financial effects and also prevents the execution of speculative financial instruments transactions.

The gains or losses on these transactions and the application of risk management controls are part of the Committee's monitoring and have been satisfactory when considering the objectives proposed.

**31. Financial instruments** (Continued)

The fair values of financial assets and liabilities of the Company and its subsidiaries are established through information available in the market and according to valuation methodologies.

Most of the derivative financial instruments are engaged with the purpose of hedging against fuel and exchange rates risks based on scenarios with low probability of occurrence, and thus have lower costs compared to other instruments with higher probability of occurrence. Consequently, despite the high correlation between the hedged item and the derivative financial instruments contracted, can presents ineffective positions for hedge accounting purposes upon settlement, which are presented in the tables below.

The description of the consolidated account balances and the categories of financial instruments included in the balance sheet as of September 30, 2014 and December 31, 2013 is as follows:

### **31. Financial instruments(Continued)**

#### Risks

The operating activities expose the Company and its subsidiaries to the following financial risks: market (especially currency risk, interest rate risk, and fuel price risk), credit and liquidity risks. These risks are originated by, essentially, leasing agreements of aircraft purchase.

The Company's risk management policy aims at mitigating potential adverse effects from transactions that could affect its financial performance.

The Company's and its subsidiaries' decisions on the exposure portion to be hedged against financial risk, both for fuel consumption and currency and interest rate exposures, consider the risks and hedge costs.

The Company and its subsidiaries do not usually contract hedging instruments for its total exposure, and thus they are subject to the portion of risks resulting from market fluctuations. The portion of exposure to be hedged is determined and reviewed at least yearly in compliance with the strategies determined in the Risk Policies Committees. The relevant information on the main risks affecting the Company's and its subsidiaries' operation is as follows:

a) *Fuel price risk*

As of September 30, 2014, fuel expenses accounted for 40.7% of the costs and operating expenses of the Company. The aircraft fuel price fluctuates both in the short and in the long term, in line with crude oil and oil byproduct price fluctuations.

To mitigate the risk of fuel price, the Company holds derivative financial instruments referenced mainly to crude oil and, eventually, to their derivatives, also contracted, directly with the local supplier, are future fuel deliveries to aircraft at predetermined prices.

As of September 30, 2014, there are no open transactions of derivatives instruments of fuel price variation hedge.

b) *Exchange rate risk*

The exchange rate risk derives from the possibility of unfavorable fluctuation of foreign currencies to which the Company's liabilities or cash flows are exposed. The exposure of the Company's and its subsidiaries' assets and liabilities to the foreign currency risk mainly derives from foreign currency-denominated leases and financing.

b) *Exchange rate risk* (Continued)

The Company's revenues are mainly denominated in Brazilian Reais, except for a small portion in U.S. Dollar, Argentinean pesos, Bolivian bolivianos, Chilean peso, Colombian peso, Paraguay Guarani, Uruguayan peso, Venezuela bolivar etc.

To mitigate the risk of exchange rate, the Company holds derivative financial instruments that are referenced to the U.S. Dollar.

Risks (Continued)

c) *Interest rate risk*

The Company and its subsidiaries are exposed to fluctuations in domestic and foreign interest rates, substantially the CDI and Libor, respectively. The highest exposure is related to lease transactions, of which the installments to be paid are indexed to the Libor after date that the aircraft are delivered. Another relevant exposure is the local investments and debts indexed to the CDI rate.

To mitigate the interest rate risk the Company holds swap derivatives.

d) *Credit risk*

The credit risk is inherent in the Company's operating and financing activities, mainly represented by trade receivables, cash and cash equivalents, including bank deposits.

The trade receivable credit risk consists of amounts falling due from the largest credit card companies, with credit risk better than or equal to those of the Company and its subsidiaries, and receivables from travel agencies, installment sales, and government sales, with a small portion exposed to risks from individuals or other entities.

As defined in the Risk Management Policy, the Company is required to evaluate the counterparty risks in financial instruments and diversify the exposure. Financial instruments are contracted with counterparties rated at least as investment grade by S&P and Moody's. The financial instruments are mostly contracted on commodities and futures exchanges (BM&FBOVESPA and NYMEX), which substantially mitigate the credit risk, derivative transactions contracted on the OTC market (OTC) have counterparts with a minimum rating of "investment grade". The Company's Risk Management Policy establishes a maximum limit of 20% per counterparty for short-term investments.

e) *Liquidity risk*

Liquidity risk takes on two distinct forms: market and cash flow liquidity risk. The first is related to current market prices and varies in accordance with the types of assets and the markets where they are traded. Cash flow liquidity risk, however, is related to difficulties in meeting the contracted operating obligations at the agreed dates.

Risks (Continued)

e) *Liquidity risk* (Continued)

As a way of managing the liquidity risk, the Company invests its funds in liquid assets (governmental bonds, CDBs, and investment funds with daily liquidity), and the Cash Management Policy establishes that the Company's and its subsidiaries' weighted average debt maturity should be higher than the weighted average maturity of the investment portfolio. As of September 30, 2014, the weighted average maturity of the Company's financial assets was 20 days and of financial debt, excluding perpetual bonds, was 3.9 years.

f) *Capital management*

The table below shows the financial leverage rate as of September 30, 2014 and December 31, 2013:

Classification of derivatives financial instruments

i) *Cash flow hedges*

The Company and its subsidiaries use cash flow hedges to hedge against future revenue or expense fluctuations resulting from changes in the exchange rates, interest rates or fuel price, and accounts for actual fluctuations of the fair value of derivative financial instruments in shareholders' equity until the hedged revenue or expense is recognized.

The Company estimates the effectiveness based on statistical correlation methods and the ratio between gains and losses on the financial instruments used as hedge, and the cost and expense fluctuation of the hedged items. The instruments are considered as effective when the fluctuation in the value of derivatives offsets between 80 % to 125% the impact of the price fluctuation on the cost or expense of the hedged item.

The balance of the actual fluctuations in the fair values of the derivatives designated as cash flow hedges is transferred from shareholders' equity to profit or loss for the period in which the hedged costs or expenses impacts profit or loss. Gains or losses on effective cash flow hedges are recorded in balancing accounts of

the hedged expenses, by reducing or increasing the operating cost, and the ineffective gains or losses are recognized as financial income or financial expenses for the period.

ii) *Derivative financial instruments not designated as hedge*

The Company holds derivative financial instruments that are not formally designated for hedge accounting. This occurs when transactions are in the short term and the control and disclosure complexity.

iii) *Derivative equity instruments*

In April 2013, the Company entered into an investment agreement with General Atlantic Service Company LLC. ("G.A.") that established the grant by the Company of an option to purchase its Smiles shares enabling the secondary acquisition by G.A. (or other person designated by it), of Smiles S.A. shares held by the Company. These stock options were exercised on February 27, 2014 and, during the period ended September 30, 2014, the Company registered a loss in derivative instruments on the financial result in the amount of R\$15,901 related to the derivative market pricing. As of September 30, 2014, the Company performed a reversal of this derivative obligation to the equity in the amount of R\$46,216.

Hedge activities

a) *Fuel hedge*

Due to the low liquidity of jet fuel derivatives traded in commodities exchanges, the Company and its subsidiaries contracts crude oil derivatives (WTI, Brent) and its byproducts (Heating Oil) to hedge against fluctuations in jet fuel prices. Historically, oil prices are highly correlated with aircraft fuel prices.

As of September 30, 2014, the Company and its subsidiaries does not have contracts designated as “cash flow hedge accounting” of fuel.

Sensitivity analysis of derivative financial instruments

The sensitivity analysis of financial instruments was prepared according to CVM Instruction 475/08, in order to estimate the impact on the fair value of financial instruments operated by the Company, considering three scenarios considered in the risk variable: most likely scenario, the assessment of the Company; deterioration of 25% (possible adverse scenario) in the risk variable, deterioration 50% (remote adverse scenario).

The estimates presented, since they are based on simple statistics, do not necessarily reflect the amounts to be reported in the next financial statements. The use of different methodologies and/ or assumptions may have a material effect on the estimates presented.

The tables below show the sensitivity analysis for market risks and financial instruments considered relevant by management, open position as of September 30, 2014 and based on the scenarios described above.

The probable scenario of the Company is the maintaining of the market rates.

In the tables, positive values are displayed as asset exposures (assets greater than liabilities) and negative values are exposed liabilities (liabilities greater than assets).

(\*) Negative values correspond to net losses expected in the case of U.S. Dollar appreciation.

III) *Interest risk factor*

As of September 30, 2014, the Company holds financial investments and financial liabilities indexed to several rates, and Libor interest.

In the sensitivity analysis of non-derivative financial instruments it was considered the impacts on yearly interest of the exposed values as of September 30, 2014 (see Note 19), arising from fluctuations in interest rates according to the scenarios presented below:

<b>Instruments</b>	<b>Risk</b>	<b>Exposed amount</b>	<b>Probable Scenario</b>	<b>Possible Adverse Scenario</b>	<b>Adverse Scenario Remote</b>
				<b>25%</b>	<b>50%</b>
Financial investments -

Measurement of the fair value of financial instruments

In order to comply with the disclosure requirements for financial instruments measured at fair value, the Company and its subsidiaries must classify its instruments in Levels 1 to 3, based on observable fair value levels:

a) Level 1: Fair value measurements are calculated based on quoted prices (without adjustment) in active market or identical liabilities;

b) Level 2: Fair value measurements are calculated based on other variables besides quoted prices included in Level 1, that are observable for the asset or liability directly (such as prices) or indirectly (derived from prices); and

c) Level 3: Fair value measurements are calculated based on valuation methods that include the asset or liability but that are not based on observable market variables (unobservable inputs).

The following table shows a summary of the Company's and its subsidiaries' financial instruments measured at fair value, including their related classifications of the valuation method, as of September 30, 2014 and December 31, 2013:

Financial instrument	09/30/2014		12/31/2013
