## Domestic load factor reached 81.0% in 2015 and 77.1% in February 2015

**São Paulo, March 26, 2015 - GOL Linhas Aéreas Inteligentes S.A. (BM&FBOVESPA: GOLL4 and NYSE: GOL), (S&P: B, Fitch: B-, Moody's: B3),** the largest low-cost and best-fare airline in Latin America, hereby announces its preliminary air traffic figures for February 2015. Comparisons refer to February 2014.

### GOL highlights

**The domestic load factor** totaled **81.0%** in the first two months of 2015, **3.1 p.p.** up on the same period last year. In February alone, we recorded a rate of **77.1%**, **0,4 p.p.** less than in February 2014. The rate in the last 12 months (LTM) stood at **78.3%**, an increase of **6.1 p.p.** over the previous 12-month period. The fact that the Carnival holiday fell in February in 2015 and in March in 2014 impacted this indicator.

**Domestic demand** in January and February 2015 increased by **8%** over the same period in 2014. In February alone, there was a **2.9%** year-on-year upturn, while the LTM figure grew by **6.5%** over the previous 12 months.

**Domestic** market supply increased by **3.9%** in 2015 through February and **3.4%** in February itself over the same periods last year, while LTM supply fell by **1.9%** over the previous 12 months.

**International demand** in the first two months of 2015 climbed by **25.1%**, raising the load factor by **1.1 p.p.** over the same period in 2014 to 73.9%, pushed by the 20.7% upturn in February itself.

The number of **passengers transported in the entire route network** moved up by **4.8%** year-on-year in the first two months of 2014, while the LTM number climbed by **11.9%** over the 12 months through February 2014.

**FORWARD-LOOKING STATEMENTS**

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
