OVERSEAS REGULATORY ANNOUNCEMENT
ADJUSTMENTS OF TARIFFS

This announcement is made pursuant to Rule 13.09(2) of the Rules Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited.

Huaneng Power International, Inc. (the "Company") announced the adjustments of tariffs of some of its power plants. Pursuant to a notice recently issued by the National Development and Reform Commission (the "NDRC"), the NDRC decided to adjust the on-grid tariffs of the power plants in the power grids of North China, South China, Central China, East China, Northeast and Northwest with effect from 30th June 2006.

The main purpose of adjusting the on-grid tariffs is to resolve the conflict arising from the increase of coal price and the desulphurization renovation of

Edgar Filing: HUANENG POWER INTERNATIONAL INC - Form 6-K

power plants. Key aspects of the plan include the following:

1. Coal-electricity Price Linkage Mechanism (the "Mechanisms") to be implemented to appropriately raise on-grid tariffs

In order to resolve the problem due to the increase of the average coal price in 2005 exceeding the latest estimates as per Mechanisms in the regions where the Company's power plants are located, the increase of the contract price of coal in 2006, and the impact on on-grid tariffs resulted from the two increases in the railway transportation costs in 2005, the on-grid tariffs are to be appropriately raised.

2. On-grid tariffs will be increased as a result of the cost increase due to the installation of the flue-gas desulphurization facilities

In respect of the coal-fired generating units with desulphurization facilities which had been put into operation before the end of 2006 while their on-grid tariffs have not been taken into consideration of the cost of desulphurization, their on-grid tariffs will be increased by RMB15/MWh (including VAT) after passing the examination by the provincial environmental protection departments and obtaining the approval from the provincial pricing bureau.

3. Excess generation tariffs will be abolished for those provinces where excess generation tariffs have been previously applied

Such abolition will be implemented in the South Hebei Grid, Hunan Province and Gansu Province where the Company's power plants are located.

According to the above-mentioned approved tariff adjustment plan, the average on-grid tariffs (including VAT) of the Company's coal-fired power plant will be increased by RMB9/MWh (exclusive of tariff increase for desulphurization) with effect from 30th June 2006.

Pursuant to a document in respect of the tariff adjustments issued by the NDRC, the on-grid tariffs of the Company's power plants will be adjusted as follow:

Power Plants	On-grid Tariff before Adjustment (RMB/MWh) (VAT Inclusive)	Change (RMB/MWh) (VAT Inclusive)	On-grid Tariff after Adjustment (RMB/MWh) (VAT Inclusive)
Liaoning Province			
Dalian	-	Increase RMB15.1/MWh	-
