**CGGVeritas Provides Update on
Recently Awarded Contracts**

Paris, January 23rd 2009

CGGVeritas (ISIN: 0000120164 NYSE: CGV) announced today that it has been awarded two long-term seismic acquisition contracts by BP to undertake multiple high-end marine 3D, wide-azimuth and 4D seismic surveys.

CGGVeritas has also received a letter of cancelation from PDVSA relating to the previously announced six month land 3D seismic survey in Venezuela.

For BP, the first contract encompasses an Arctic Ocean exploration 3D survey in the Canadian Beaufort Sea. This project, with an option to extend for a second season, is expected to commence in the summer of 2009. The second long-term contract comprises multiple wide-azimuth and 4D reservoir management surveys in the Gulf of Mexico. This GoM program is expected to commence early in 2009, with part of the program being acquired in 2010 and includes options for further extensions. The total value of these new BP contracts, not including optional extensions, is expected to be approximately \$130 million.
