PROXY STATEMENT

This Proxy Statement is furnished in connection with the solicitation by the Board of Directors of Cytogen Corporation (also referred to in this Proxy Statement as the Company, Cytogen, we or us) of proxies to be voted at our Annual Meeting of Stockholders (the Annual Meeting) to be held on Tuesday, June 14, 2005 at the Hyatt Regency Princeton, 102 Carnegie Center, Princeton, New Jersey at 11:00 A.M., local time, and at any adjournment or adjournments thereof. Holders of record of our common stock, \$0.01 par value per share, as of the close of business on April 18, 2005, will be entitled to notice of and to vote at the Annual Meeting and any adjournment or adjournments thereof. As of that date, there were 15,571,688 shares of common stock issued and outstanding and entitled to vote. Each share of common stock is entitled to one vote on any matter presented at the Annual Meeting. The aggregate number of common stock votes entitled to be cast at the Annual Meeting is 15,571,688. The holders of common stock will vote as a single class for each proposal.

If proxies in the accompanying form are properly executed and returned, the shares of common stock represented thereby will be voted in the manner specified therein. If not otherwise specified, the shares of common stock represented by the proxies will be voted:

(i) FOR, the election of the eight nominees named below as directors;

(ii) FOR, a proposal to amend the Company's Certificate of Incorporation to increase the total authorized shares of common stock, \$0.01 par value per share, of the Company from 25,000,000 to 50,000,000; and

(iii) in the discretion of the persons named in the enclosed form of proxy, on any other proposals which may properly come before the Annual Meeting or any adjournment or adjournments thereof.

Any stockholder who has submitted a proxy may revoke it at any time before it is voted, by written notice addressed to and received by our Corporate Secretary, by submitting a duly executed proxy bearing a later date or by electing to vote in person at the Annual Meeting. The mere presence at the Annual Meeting of the person appointing a proxy does not, however, revoke the appointment.

The presence at the Annual Meeting of a majority of the outstanding shares of common stock of the Company, represented either in person or by proxy, will constitute a quorum for the transaction of business at the Annual Meeting. With the presence of a quorum: (i) the affirmative vote of a plurality of the shares of common stock present at the Annual Meeting is required for the election of directors; (ii) the affirmative vote of a majority of the outstanding shares of common stock of the Company is required for the amendment of the Company's Certificate of Incorporation; and (iii) the affirmative vote of a majority of the shares of common stock present at the Annual Meeting is required for all other

matters.

Abstentions are included in the shares present at the Annual Meeting for purposes of determining whether a quorum is present. For the election of directors, abstentions are excluded entirely from the vote and do not have any effect on the outcome. For the approval of the amendment to the Company's Certificate of Incorporation and any other matters, abstentions are included in, and counted as, votes against such amendment or proposals.

Broker non-votes, a proxy specifically conferring only limited authority to brokers to vote on certain matters and no authority to vote on other matters, are included in the determination of the number of shares represented at the Annual Meeting for purposes of determining whether a quorum is present. For election of directors, broker non-votes have no effect on the outcome of the election. For the approval of amendment to the Company's Certificate of Incorporation, broker non-votes have the same effect as votes against such amendment. Whether brokers have discretion to vote on other proposals and, if they do not, the effects of broker non-votes on such other proposals will depend on the nature of such other proposals.

This Proxy Statement, together with the related proxy card, is being mailed to our stockholders on or about May 16, 2005. The Annual Report to Stockholders of the Company for the year ended December 31, 2004, including financial statements, is being mailed together with this Proxy Statement to all stockholders of record as of April 18, 2005. In addition, we have provided brokers, dealers, banks, voting trustees and their nominees, at our expense, with additional copies of the Annual Report and proxy materials so that such record holders could supply such materials to beneficial owners as of April 18, 2005.

ELECTION OF DIRECTORS

At the Annual Meeting, nine directors are to be elected (which number shall constitute our entire Board of Directors) to hold office until the 2006 Annual Meeting of Stockholders, and until their successors shall have been elected and qualified. The holders of common stock, voting as a class, will elect each such director.

It is the intention of the persons named in the enclosed form of proxy to vote the stock represented thereby, unless otherwise specified in the proxy, for the election as directors of the persons whose names and biographies appear below. Except for Dr. Mollica, all such nominees, are, at present, members of our Board of Directors. In the event any of the nominees should become unavailable or unable to serve as a director, it is intended that votes will be cast for a substitute nominee designated by our Board of Directors. CORPORATE GOVERNANCE

General

We believe that good corporate governance is important to ensure that we are managed for the long-term benefit of our stockholders. During the past year, we have continued to review our corporate governance policies and practices and to compare them to those suggested by various authorities in corporate governance and the practices of other public companies. We have also continued to review the provisions of the Sarbanes-Oxley Act of 2002, the new and proposed rules of the Securities and Exchange Commission and the new listing standards of the NASDAQ National Market.

Based on this review, in April 2004 our Board of Directors adopted Corporate Governance Guidelines. In 2004, we adopted our Research and Development Committee Charter, and amended and restated the charters for our Audit and Finance Committee, our Nominating and Corporate Governance Committee and our Compensation Committee. We also amended and restated our Code of Business Conduct and Ethics. This section describes key corporate governance guidelines and practices that we have adopted. You can access our current committee charters, Code of Business Conduct and Ethics, Corporate Governance Guidelines, Insider Trading Policy and Disclosure Policy in the Corporate Governance section of www.cytogen.com or by writing to Rita A. Auld, Corporate Secretary, Cytogen Corporation, 650 College Road East, Suite 3100, Princeton, New Jersey 08540.

Corporate Governance Guidelines

Our Board is committed to sound and effective corporate governance practices, and, as such, has adopted corporate governance guidelines to assist the Board in the exercise of its duties and responsibilities and to serve the best interests of the Company and its stockholders. These guidelines, which provide a framework for the conduct of the Board's business, include statements that:

the principal responsibility of the directors is to oversee the management of the Company;

a majority of the members of the Board shall be independent directors;

the independent directors shall meet regularly in executive session;

directors shall have full and free access to management and, as necessary and appropriate, independent advisors;

new directors shall participate in an orientation program and all directors are expected to participate in continuing director education on an ongoing basis; and

at least annually, the Board and its committees will conduct a self-evaluation to determine whether the Board and its committees are functioning effectively.

Determination of Independence

Edgar Filing: CYTOGEN CORP - Form PRE 14A

Under NASDAQ rules that became applicable to us on the date of our 2004 Annual Meeting of Stockholders, a director will only qualify as an independent director as defined in Rule 4200 (a)(15) of the NASDAQ Stock Market, inc. Marketplace Rules if, in the opinion of our Board of Directors, that person does not have a relationship which would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. In making its determination, our Board of Directors is required to consider certain categorical standards listed in Rule 4200(a)(15). Our Board of Directors has affirmatively determined that each of John E. Bagalay, Jr., Allen Bloom, Stephen K. Carter, James A. Grigsby, Robert F. Hendrickson, Kevin G. Lokay and Joseph A. Mollica are independent.

Director Candidates

The process followed by the Nominating and Corporate Governance Committee to identify and evaluate director candidates includes requests to Board members and others for recommendations, meetings from time to time to evaluate biographical information and background material relating to potential candidates and interviews of selected candidates by members of the Committee and the Board.

In considering whether to recommend any particular candidate for inclusion in the Board's slate of recommended director nominees, the Nominating and Corporate Governance Committee will apply the criteria set forth in our Corporate Governance Guidelines, which are the minimum qualifications that the Nominating and Corporate Governance Committee believes must be met by a nominee to be recommended by the Nominating and Corporate Governance Committee. These criteria include the candidate's integrity, business acumen, knowledge of our business and industry, age, experience, diligence, conflicts of interest and the ability to act in the interests of all stockholders. The Committee does not assign specific weights to particular criteria and no particular criterion is a prerequisite for any prospective nominee. We believe that the backgrounds and qualifications of our directors, considered as a group, should provide a composite mix of experience, knowledge and abilities that will allow the Board to fulfill its responsibilities.

The Nominating and Corporate Governance Committee will also consider candidates recommended by stockholders. Any stockholders who would like to recommend a candidate to our Board of Directors should provide such recommendation, in writing, to Rita A. Auld, Corporate Secretary, Cytogen Corporation, 650 College Road East, Suite 3100, Princeton, NJ 08540. The Committee will review and evaluate information available to it regarding candidates proposed by stockholders and will apply the same criteria, and will follow substantially the same process in considering them, as it does in considering other candidates.

Joseph A. Mollica is being recommended for election to our Board of Directors by our Nominating and Corporate Governance Committee, which is comprised solely of non-management members of our Board. The Nominating and Corporate Governance Committee has engaged a third-party search firm, J. Robert Scott, a wholly-owned subsidiary of Fidelity Investments, to assist the Nominating and Corporate Governance Committee by identifying, evaluating and presenting potential board candidates to the Nominating and Corporate Governance Committee. Dr. Mollica was presented to the Nominating and Corporate Governance Committee by J. Robert Scott.

Communication with the Independent Directors

The Board will give appropriate attention to written communications that are submitted by stockholders, and will respond if, and as, appropriate. The Chairman of the Board, with the assistance of our legal counsel, is primarily responsible for monitoring communications from stockholders and for providing copies or summaries to the other directors as he or she considers appropriate.

Under procedures approved by a majority of the independent directors, communications are forwarded to all directors if they relate to important substantive matters and include suggestions or comments that the Chairman of the Board considers to be important for the directors to know. In general, communications relating to corporate governance and long-term corporate strategy are more likely to be forwarded than communications relating to ordinary business affairs, personal grievances and matters as to which we tend to receive repetitive or duplicative communications.

Stockholders who wish to send communications on any topic to the Board should address such communications to the Board of Directors, c/o Rita A. Auld, Corporate Secretary, Cytogen Corporation, 650 College Road East, Suite 3100, Princeton, New Jersey 08540.

Code of Business Conduct and Ethics

We have adopted a written Code of Business Conduct and Ethics that applies to our Directors, officers and employees, including our principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions. We have posted the Code of Business Conduct and Ethics on our website, which is located at www.cytogen.com. In addition, we intend to disclose on our website any amendments to, or waivers from, any provision of the Code of Business Conduct and Ethics that applies to our principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions.

Board of Directors and Attendance by Members of the Board of Directors at Meetings

Our Board of Directors is responsible for broad corporate policy and the overall performance of the Company. Board members remain informed of the Company's business by reviewing documents, such as management reports on recommendations for proposed Board actions, provided to them before each meeting and by attending presentations made by our President and Chief Executive Officer and other members of management during these meetings. They are also advised of actions taken, and matters considered, by the Audit, Compensation, Nominating and Corporate Governance, and Research and Development Committees of the Board. Directors have access to all books, records and reports of the Company upon request, and members of management are available at all times to answer any questions.

Our Board of Directors currently consists of James A. Grigsby, who serves as Chairman of the Board, Michael D. Becker, John E. Bagalay, Allen Bloom, Stephen K. Carter, Robert F. Hendrickson and Kevin G. Lokay. There were seven meetings of the Board of Directors during 2004. All members of our Board of Directors attended at least 75% of such meetings of the Board or Directors and any committees of the Board of Directors on which they served, during 2004. On May 5, 2005, our Board of Directors resolved to immediately amend Article III, Section 2 of the Company's By-Laws to increase the maximum number of directors permitted to serve on the Board from seven to nine.

Our Corporate Governance Guidelines provide that directors are expected to attend the annual meeting of stockholders. All directors at the time of the 2004 Annual Meeting of Stockholders attended such meeting.

Committees of the Board

Our Board of Directors has established four standing committees – the Audit and Finance Committee, the Compensation Committee, the Nominating and Corporate Governance Committee, and the Research and Development Committee – each of which operates under a charter that has been approved by our Board of Directors. In addition, in connection with the registered direct offering of our common stock in April 2004, our Board of Directors established a Pricing Committee comprised of Dr. Bagalay and Messrs. Becker and Grigsby, which met twice during fiscal year 2004. Current copies of each committee's charter are posted on the Corporate Governance section of our website www.cytogen.com. We have not adopted a charter relating to the Pricing Committee. In addition, our current Research and Development Committee Charter is attached hereto as [Appendix A](#).

Our Board of Directors has determined that all of the members of each of the Board's four standing committees are independent under relevant NASDAQ rules, including, in the case of all members of the Audit and Finance Committee, the independence requirements contemplated by Rule 10A-3 under the Securities Exchange Act of 1934, as amended (the Exchange Act).

Audit and Finance Committee of the Board of Directors

The Audit and Finance Committee currently consists of John E. Bagalay, Jr., who serves as Chairman, Robert F. Hendrickson and Stephen K. Carter. The Audit and Finance Committee was established in 1986 and

held eight meetings in 2004. The Audit and Finance Committee Charter was last amended and restated in April 2004. It is anticipated that each of Drs. Bagalay and Carter and Mr. Hendrickson, if re-elected to the Board of Directors by our stockholders, will continue to serve on the Audit and Finance Committee. Our Audit and Finance Committee's responsibilities include:

appointing, approving the compensation of, and assessing the independence of our independent registered public accounting firm;

overseeing the work of our independent registered public accounting firm, including the receipt and consideration of certain reports from our independent registered public accounting firm;

meeting separately with our independent registered public accounting firm, management and internal auditors; and

preparing the Report of the Audit and Finance Committee required by SEC rules (which is included on page 9 of this proxy statement).

Pursuant to the Audit and Finance Committee Charter, the Audit and Finance Committee has reviewed and discussed the audited financial statements for the year ended December 31, 2004 with our management and independent registered public accounting firm. Additionally, the Audit and Finance Committee has discussed with the independent registered public accounting firm the matters required by Statement of Auditing Standards (SAS) 61, has received the written disclosures and the letter from the independent registered public accounting firm required by the Independence Standards Board Standard No. 1 and has discussed with the independent registered public accounting firm the independent registered public accounting firm's independence. Based in part on the foregoing, the Audit and Finance Committee recommended to the Board of Directors that the financial statements as of and for the year ended December 31, 2004 audited by KPMG LLP be included in our Annual Report on Form 10-K.

The Board of Directors has determined that John E. Bagalay, Jr. is an audit committee financial expert as defined in Item 401(h) of Regulation S-K.

Compensation Committee of the Board of Directors

The Compensation Committee currently consists of Robert F. Hendrickson, who serves as Chairman, Allen Bloom and Kevin G. Lokay. The Compensation Committee was established in 1986 and held seven meetings in 2004. The Compensation Committee Charter was last amended and restated in April 2004. The primary responsibilities of the Compensation Committee include approving salaries and incentive compensation for our executive officers and administering our stock option plans. In addition, our Compensation Committee has the following principal duties:

The Nominating and Corporate Governance Committee Charter was last amended and restated in April 2004. The responsibilities of the Nominating and Corporate Governance Committee include:

identifying individuals qualified to become Board members;

recommending to the Board the persons to be nominated for election as directors and to each of the Board's committees;

reviewing and making recommendations to the Board with respect to management succession planning;

developing and recommending to the Board corporate governance principles; and

overseeing an annual evaluation of the Board.

Research and Development Committee of the Board of Directors

The Research and Development Committee currently consists of Allen Bloom and Stephen K. Carter. The Research and Development Committee was established in 2004 and held three meetings in 2004. The Research and Development Committee currently acts under a charter adopted and approved by our Board of Directors in August 2004, a copy of which is attached hereto as Appendix A. The responsibilities of the Research and Development Committee include:

reviewing our strategy and policy with respect to its scientific, research and development activities and related matters;

providing oversight of our management of scientific, research and development activities; and

assisting the Board of Directors in evaluating our strategic business decisions.

Executive Sessions of Independent Directors

Our Corporate Governance Guidelines require that independent directors meet in executive sessions in conjunction with regularly scheduled meetings of the Board of Directors. The independent directors should meet in executive sessions at least twice a year to discuss, among other things, the performance of the CEO. The independent directors may meet at other times at the request of any independent director. The Chairman of the Board of Directors presides at the executive sessions. During 2004, the independent directors held five executive sessions, and Mr. Grigsby presided at such meetings.

Directors Compensation

Annual Retainers

Each of our non-employee directors receives an annual retainer of \$16,000. In addition: (i) the Chairman of the Board (who is not an employee of the Company) currently receives, based upon significant time spent on Company business, an additional annual retainer of \$50,000; (ii) any non-employee director who also chairs a board committee receives an additional annual fee of \$6,000; and (iii) members of the Research and Development Committee each receive an annual fee of \$4,000.

Board Meeting Attendance

Each of our non-employee directors receives \$2,000 for each board meeting attended in person, and \$500 if such participation is by telephone.

Committee Meeting Attendance

Non-employee directors receive \$1,000 for each committee meeting attended in person, and \$500 if such participation is by telephone, but, other than members of the Research and Development Committee who receive an annual fee as set forth above, receive no additional fees for committee membership.

Equity Compensation

Pursuant to our 2004 Non-Employee Director Stock Incentive Plan (the "Director Plan"), which was approved by our stockholders at our 2004 Annual Meeting, each non-employee director receives an initial grant of options on the date of appointment equal to a pro-rata portion of 10,000 shares of our common stock per year, based upon the number of months remaining from the date of election until the one year anniversary of the preceding annual meeting. In addition, on the day following each annual meeting of the stockholders, each individual who is re-elected as a non-employee director is automatically granted options to purchase 10,000 shares of our common stock. The Chairman of the Board, unless the Compensation Committee determines otherwise, receives an additional grant of 7,500 options to purchase shares of our common stock on the day following each annual meeting. Furthermore, each director who, upon conclusion of our 2004 Annual Meeting of Stockholders and the adoption of the Director Plan, was a non-employee director, was granted options to purchase 10,000 shares of our common stock.

Options granted under the Director Plan are exercisable at a price equal to the average of the high and low sale prices of the common stock as reported on the Nasdaq National Market on the date of grant and vest in full (*i.e.*, first become exercisable) at the first anniversary of the option grant date.

Each director's outstanding options granted under the Director Plan also become immediately exercisable in full: (i) upon the occurrence of a Corporate Transaction or Major Event, as defined in the Director Plan; (ii) upon death or disability of such Director, or if a Director dies within three months following the date of his or her termination of service on the Board, until the earlier of the end of the one-year period immediately following the date of termination of service, or the expiration of the term of the option; or (iii) if the non-employee director has served as a director of the Company for three years, upon voluntary resignation or retirement after age 55, until the earlier of the end of the five year period immediately following the date of the termination of service, or the expiration of the term of the option.

Each eligible director may name, from time to time, any beneficiary or beneficiaries (which may be named contingently or successively) as his or her beneficiary for purposes of the Director Plan. Each designation shall be on a form prescribed by the Company, will be effective only when delivered to the Company, when effective will revoke all prior designations by such director and will be allowed only to the extent permitted by applicable law. If an eligible director dies with no such beneficiary designation in effect, such person's options will be transferable by will or pursuant to the laws of descent and distribution applicable to such person.

The Director Plan also provides that non-employee directors shall receive, at the sole discretion of and after formal action by our Board of Directors, such number of shares of common stock that is equal to each such director's cash compensation (including, but not limited to, annual

Edgar Filing: CYTOGEN CORP - Form PRE 14A

service fees, fees payable for board and committee meetings attended and fees for committees chaired) (the Cash Component), divided by the fair market value of our common stock as of the date of issuance of such shares (the Compensation Shares), which date shall be no earlier than the date on which the applicable Cash Component compensation becomes due and payable by the Company. Compensation Shares shall not be issued for services not yet rendered by such directors to the Company.

The Director Plan also provides that, in the event the Board elects to issue Compensation Shares, such eligible directors will receive Compensation Shares until, absent additional Board action, at least such time as: (i) such director owns 2,000 shares of our common stock, excluding options or other rights to acquire shares of our common stock, whether exercisable or unexercisable; or (ii) if fewer than 2,000 shares are so owned, such smaller number of shares has a fair market value of in excess of \$100,000, excluding the value, if any, of options to purchase common stock, whether exercisable or unexercisable, or other rights to acquire our common stock. Upon achieving either of such milestones (i) or (ii) above, each such director may, at his or her option, elect to cease receiving his or her Cash Component to which he or she is entitled in shares of our common stock under the Director Plan; provided, however, that such director must make such election by providing notice of such election to us in a timely manner. As of the date hereof, all of our current non-employee directors have satisfied either of the milestones as set forth above, and have elected to receive their director compensation in cash. Upon the election of each of Dr. Mollica to the Board of Directors, the Cash Component of his compensation will be paid in shares of our common stock until such time as the foregoing criteria are satisfied.

Each option provided for in the Director Plan shall be granted automatically and without further action by us, our Board of Directors or our stockholders. Promptly after the date of grant of each option provided for in the Director Plan, we shall cause an option agreement to be executed and delivered to the holder of the option. No other options may be granted at any time under the Director Plan.

Expense Reimbursement

All non-employee directors are eligible to be reimbursed for expenses incurred in connection with their service on the Board of Directors.

Report of the Audit and Finance Committee of the Board of Directors

The Audit and Finance Committee has furnished the following report:

We have reviewed and discussed with management the Company's audited financial statements as of and for the year ended December 31, 2004.

Management is responsible for the Company's internal controls and financial reporting process. The Company's independent registered public accounting firm, KPMG LLP ("KPMG"), is responsible for performing an independent audit of the Company's consolidated financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States), as well as expressing an opinion on: (i) management's assessment of the effectiveness of internal controls over financial reporting; and (ii) the effectiveness of internal control over financial reporting. As appropriate, the Audit and Finance Committee reviews, evaluates and discusses with the Company's management, internal accounting, financial and auditing personnel and KPMG, the following:

the plan for, and KPMG's reports on, the audits of the Company's financial statements and internal control over financial reporting;

the Company's financial disclosure documents, including all financial statements and reports filed with the Securities and Exchange Commission or sent to stockholders;

management's selection, application and disclosure of critical accounting policies;

Edgar Filing: CYTOGEN CORP - Form PRE 14A

changes in the Company's accounting practices, principles, controls or methodologies;

significant developments or changes in accounting rules applicable to the Company; and

the adequacy of the Company's internal controls and accounting, financial and auditing personnel.

During the course of fiscal year 2004, management completed the documentation, testing and evaluation of the Company's system of internal control over financial reporting in response to the requirements set forth in

Section 404 of the Sarbanes-Oxley Act of 2002 and related regulations. The Audit and Finance Committee was kept apprised of the progress of the evaluation and provided oversight and advice to management during the process. In connection with the oversight, the Audit and Finance Committee received periodic updates provided by management and KPMG at regularly scheduled committee meetings. At the conclusion of the process, management provided the Audit and Finance Committee with, and the Audit and Finance Committee reviewed, a report on the effectiveness of the Company's internal control over financial reporting. The Audit and Finance Committee also reviewed a report of management contained in the Company's Annual Report on Form 10-K for the year ended December 31, 2004 filed with the Securities and Exchange Commission, as well as KPMG's Reports of Independent Registered Public Accounting Firm included in the Company's Annual Report on Form 10-K related to its audit of: (i) the consolidated financial statements; (ii) management's assessment of the effectiveness of internal controls over financial reporting; and (iii) the effectiveness of internal control over financial reporting. The Audit and Finance Committee continues to oversee the Company's efforts related to its internal control over financial reporting and management's preparations for the evaluation in 2005.

We have discussed with KPMG the matters required to be discussed by Statement on Auditing Standards No. 61, *Communication with Audit Committees*, as amended, by the Auditing Standards Board of the American Institute of Certified Public Accountants (SAS 61). SAS 61 requires KPMG to discuss with the Audit and Finance Committee, among other things, the following:

methods to account for significant unusual transactions;

the effect of significant accounting policies in controversial or emerging areas for which there is a lack of authoritative guidance or consensus;

the process used by management in formulating particularly sensitive accounting estimates and the basis for KPMG's conclusions regarding the reasonableness of those estimates; and

disagreements with management over the application of accounting principles, the basis for management's accounting estimates and the disclosures in the financial statements.

We have received, reviewed and discussed the written disclosures from KPMG required by Independence Standards Board Standard No. 1, *Independence Discussions with Audit Committees*, as amended, by the Independence Standards Board (Independence Standards Board Standard No. 1), and have discussed with KPMG their independence. Independence Standards Board Standard No. 1 requires auditors annually to disclose in writing all relationships that in the auditor's professional opinion may be reasonably thought to bear on independence, confirm their independence and engage in a discussion of independence.

We have considered whether the non-audit services provided by KPMG, as set forth in the section of the Company's Proxy Statement entitled *Independent Auditor's Fees and Other Matters* are compatible with maintaining KPMG's independence.

Based on the reviews and discussions referred to above, we recommend to the Board of Directors that the audited, consolidated financial statements referred to above be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2004.

Under the terms of such letter agreement, Mr. Becker received an annual base salary of \$250,000, which was subsequently increased to \$280,000 for 2004 and \$300,000 for 2005, and a car allowance of \$750 per month. Mr. Becker is also eligible to participate in the Cytogen Corporation Performance Bonus Plan, as and if approved by our Board of Directors, with a target bonus rate of up to 35% of base salary based upon performance objectives. Mr. Becker is also entitled to all existing Company benefits, at the sole discretion of the Board of Directors.

Edgar Filing: CYTOGEN CORP - Form PRE 14A

In addition, Mr. Becker was granted options to purchase 200,000 shares of our common stock under our 1995 Stock Option Plan. The exercise price per share of such options is \$3.54, the fair market value of our common stock on the date of grant. 50,000 of such options vested immediately upon grant, and the remaining 150,000 options will vest, if at all, in three equal tranches of 50,000, based upon Mr. Becker's achievement of certain performance based milestones established by the Board of Directors. Mr. Becker has subsequently received additional options to purchase shares of our common stock. Additionally, pursuant to the terms of the letter agreement, in the event we terminate Mr. Becker's employment for reasons other than for cause, as defined therein, Mr. Becker shall be entitled to receive twelve months' base pay and continuation of benefits under COBRA, and a pro rata portion of any incentive benefits earned through the date of termination.

Each of our executive officers and each of Dr. Manyak, Ms. Auld and Ms. Dang are currently party to an Executive Change of Control Severance Agreement with Cytogen. Such agreements provide, generally, for the payment of twelve months' base salary, a pro-rata portion of such officer's bonus compensation, the continuation of all benefits, reasonable Company-paid outplacement assistance and certain other accrued rights, in the event such officer's employment with us is terminated in connection with a change in control as set forth therein.

Report of the Compensation Committee of the Board of Directors

Policy

The Compensation Committee of the Board of Directors is responsible for oversight of our executive compensation program. The Compensation Committee is composed entirely of independent, non-employee directors. The Compensation Committee makes recommendations to the full Board of Directors on compensation policy and as to specific compensation actions, except where independent action by the Compensation Committee is appropriate.

Our compensation program, both for our executive officers as well as for all employees, is based on the philosophy that the interests of the employees should be closely aligned with those of our stockholders. Our 2004 executive compensation program was based on the following principles:

compensation opportunities should attract the best talent to us, motivate individuals to perform at their highest levels, reward outstanding achievement, and retain the leadership and skills necessary for building long-term stockholder value;

a portion of total compensation should be at risk of performance; and

individual executives should be encouraged to manage from the perspective of owners of the Company.

Our 2004 compensation program reflected the Compensation Committee's assessment as to appropriate treatment on an individual basis for the Chief Executive Officer during 2004 and the other Named Executives compared to the prior year levels. We target our overall compensation program at the median level of the biotechnology industry. In addition, compensation for the Named Executives (and other executives), including our CEO, took into account individual responsibility and performance as assessed by the Compensation Committee.

The compensation program includes a combination of competitive base salary and benefits, annual cash bonus opportunities and stock option awards. The 2004 executive compensation program and a specific discussion as to the compensation of the CEO are set out below.

Annual Compensation for 2004

Generally, annual compensation of executive officers under the executive compensation program for 2004 consisted of salary and bonus components.

Base Salary

In December 2003, the Compensation Committee determined for recommendation to the full Board of Directors, base salaries and certain annual incentive opportunities for 2004 for our executives, including the CEO and the other Named Executives. In setting annual base salary for executive officers, the Compensation Committee considers compensation data for the biotechnology industry; the officer's relevant experience, skills and abilities; the officer's historical performance against goals and contribution to corporate performance; and equitableness relative to the compensation of other officers and employees of the Company. The Compensation Committee does not, however, use a specific formula based on a ranking of the indicated criteria, but instead makes a subjective evaluation of each executive officer's contributions and potential in light of such criteria.

Bonus

A portion of 2004 executive officer annual compensation opportunity was based on corporate performance. The Compensation Committee believes that incentive compensation should be linked to corporate financial results and corporate goals. Bonus opportunity levels for 2004

Edgar Filing: CYTOGEN CORP - Form PRE 14A

performance were set in advance of the year at a percentage of base salary, with the total amount of the bonus opportunity dependent on the extent to which corporate objectives were achieved and the amount of cash available as determined by the Compensation Committee. At year-end, the Compensation Committee determined the extent to which our financial and corporate objectives had been achieved and applied the appropriate bonus percentage to the respective base salary of each of the Named Executives.

Long Term Compensation Stock Options

The Compensation Committee believes that stock options are an appropriate means to link our employees' interests with those of our stockholders. Stock option awards are designed primarily to provide strong incentives

for superior longer-term performance and continued retention. Because the Compensation Committee believes that corporate performance is one of the principal factors influencing the market value of our common stock, the granting of stock options to our executive officers encourages them to work to achieve consistent improvements in corporate performance. Options only have value to the recipient when the price of our common stock exceeds the exercise price, which is not less than the fair market value of our common stock at the date of grant.

Option grants are set taking into account the comparison of practices at peer groups, an individual's level of responsibility and furtherance of corporate objectives, and the amount and terms of past stock option awards and the availability of options for grant under our stock option plans. The Compensation Committee also took into account in its review of option grants the fact that we have no other long term incentive program, and believes that options are important to retain executives and promote steps to build long term value.

The Compensation Committee reviews from time to time with the entire Board of Directors the need and advisability of increasing shares available under any compensation plan and will consider with the Board the need for the adoption of new stock plans in future years. Any such change or recommendation would be presented to stockholders for review and approval at a subsequent meeting of our stockholders.

Compensation of Michael D. Becker

Mr. Becker's salary was set on the recommendation of the Compensation Committee and was believed to be an appropriate level of base compensation in view of compensation levels paid by the industry, in view of Mr. Becker's experience, and considering our continuing accomplishments under his leadership during the year. Prior to his promotion to President and Chief Executive Officer in December 2002, Mr. Becker's salary was \$180,000. Upon his promotion, the Compensation Committee approved an increase of \$70,000 to \$250,000. Also in connection with his promotion in 2002, Mr. Becker was granted options to purchase 200,000 shares of our common stock under our 1995 Plan. Mr. Becker's salary was \$280,000 in 2004 and is \$300,000 for 2005.

Federal Income Tax Considerations

Section 162(m) of the Internal Revenue Code of 1986, as amended (the Code), generally disallows a tax deduction to public companies for certain compensation in excess of \$1 million paid to a company's Chief Executive Officer and the four other most highly compensated executive officers. Certain compensation, including qualified performance-based compensation, will not be subject to the deduction limit if certain requirements are met. The Compensation Committee reviews the potential effect of Section 162(m) periodically and generally seeks to structure the long-term incentive compensation granted to its executive officers through option issuances under the Company's equity incentive plans in a manner that is intended to avoid disallowance of deductions under Section 162(m). Nevertheless, there can be no assurance that compensation attributable to awards granted under the Company's equity incentive plans will be treated as qualified performance-based compensation under Section 162(m). In addition, the Compensation Committee reserves the right to use its judgment to authorize compensation payments that may be subject to the limit when the Compensation Committee believes such payments are appropriate and in the best interests of the Company and its stockholders, after taking into consideration changing business conditions and the performance of its employees.

The Compensation Committee believes that performance should be rewarded, that the financial interests of the executive officers should be aligned with the stockholders, and that compensation should be competitive. We have structured the compensation we pay to meet these criteria.

The foregoing report on compensation is provided by the following outside directors, who constituted the Compensation Committee as of December 31, 2004.

Equity Compensation Plans Not Approved by Security Holders

Edgar Filing: CYTOGEN CORP - Form PRE 14A

The following describes the material features of our equity compensation plans that have not been approved by our security holders, as set forth in the above table.

We issued options to purchase 1,000 shares of our common stock outside any of our equity compensation plans to Kevin G. Lokay, upon his appointment to our Board of Directors in January 2001. Such options have an exercise price of \$61.26 per share, expire on January 17, 2011 and vested in full on January 17, 2002. Such options are subject to the same equitable adjustment as are our outstanding shares of common stock and are not afforded anti-dilution protection.

We also have outstanding warrants to purchase an aggregate of 100,000 shares of our common stock, that have been issued to various persons and entities in consideration for services rendered by such persons or entities. Such warrants have a weighted average exercise price of \$5.65 per share and are exercisable and expire at various times through June 2006.

APPROVAL OF AMENDMENT TO THE COMPANY'S CERTIFICATE OF INCORPORATION TO INCREASE NUMBER OF AUTHORIZED SHARES OF COMMON STOCK

Stockholders are being asked to approve an amendment to our Restated Certificate of Incorporation, as amended to date (the "Certificate of Incorporation") to increase the number of authorized shares of our common stock, \$0.01 par value per share (the "Common Stock") from 25,000,000 to 50,000,000. On May 5, 2005, our Board of Directors adopted resolutions approving and authorizing the amendment and directing that the amendment be submitted to a vote of the stockholders at the 2005 Annual Meeting.

The Board determined that the amendment is in the best interests of the Company and its stockholders and unanimously recommends approval by the stockholders. If the proposed amendment is approved by the stockholders, the Board currently intends to file, with the Secretary of State of the State of Delaware, a Certificate of Amendment to the Certificate of Incorporation (the "Certificate of Amendment") reflecting such amendment as soon as practicable following stockholder approval. The following summary is qualified in its entirety by reference to the Certificate of Incorporation. Attached hereto as Appendix B to this Proxy Statement is the proposed Certificate of Amendment.

Our Certificate of Incorporation currently authorizes the issuance of up to 25,000,000 shares of Common Stock and 5,400,000 shares of Preferred Stock, par value \$0.01 per share. Of such 5,400,000 shares of Preferred Stock, 200,000 are designated as Series C Junior Participating Preferred Stock. No shares of Preferred Stock are currently issued and outstanding. The proposed amendment will not, if adopted, result in an increase in the number of authorized shares of Preferred Stock.

Of the 25,000,000 shares of Common Stock currently authorized, as of the close of business on March 31, 2005, there were 15,521,229 shares of Common Stock issued and outstanding. Such amount:

(i) includes an aggregate of 241 shares of common stock to be issued to prior holders of securities of CytoRad Incorporated and Cellcor, Inc., which we acquired in 1995, upon each such holders respective exchange of such securities; and

(ii) excludes 50,000 shares of common stock previously issued by us and currently held in escrow pending release, upon certain conditions, to Advanced Magnetics, Inc. who currently maintains voting control of such securities.

Furthermore, we have reserved for future issuance:

(a) 835,119 shares of common stock upon the exercise of outstanding stock options;

(b) 1,217,400 shares of common stock upon the exercise of future grants under our current stock options plans;

(c) 1,908,122 shares of common stock upon the exercise of outstanding warrants;

Edgar Filing: CYTOGEN CORP - Form PRE 14A

(d) 19,733 shares of common stock under our Employee Stock Purchase Plan; and

(e) 22,751 shares of common stock under our employee bonus plan.

In addition:

(x) there are 85,934 additional shares of common stock, subject to certain adjustments, which we have reserved for future issuance in connection with the issuance of a convertible promissory note, having a seven (7) year maturity, to ELAN Corporation, plc in August 1998; and

(y) in connection with our acquisition of Prostagin, Inc., an additional \$1.5 million of our common stock may be issued to certain shareholders and debtholders of Prostagin, if certain milestones are achieved in connection with PSMA development programs.

Our Board of Directors has proposed this increase in authorized shares of Common Stock to ensure that we have sufficient shares of Common Stock available for general corporate purposes including, without limitation, equity financings, acquisitions, establishing strategic relationships with corporate and other partners, providing equity incentives to employees, and payments of stock dividends, stock splits or other recapitalizations. In particular, we believe that in order to fully commercialize our products, product candidates and technologies, we will need additional funding in the future. This funding may be obtained through, among other alternatives, public or private issuance of equity or equity-linked debt. In order to be positioned timely to take full advantage of market and other conditions suitable for equity related financings, our Board of Directors believes that we must increase the number of our authorized shares of Common Stock.

As of the date of this Proxy Statement, we have not made a determination to issue additional equity in the near future, but we are currently evaluating available alternatives for long-term funding in order to fully exploit our products, product candidates and technologies. Any decision to issue equity, including any equity authorized by the proposed increase in authorized shares of Common Stock, will depend on, among other things, our evaluation of our funding needs, developments in the testing and commercialization of our products, product candidates and technologies, current and expected future market conditions and other factors.

As is the case with the current authorized but unissued shares of Common Stock, the additional shares of Common Stock authorized by this proposed amendment could be issued upon approval by our Board of Directors without further vote of our stockholders except as may be required in particular cases by our Company's Certificate of Incorporation, applicable law, regulatory agencies or the rules of the Nasdaq Stock Exchange. Under our Certificate of Incorporation, stockholders do not have preemptive rights to subscribe to additional securities that may be issued by the Company, which means that current stockholders do not have a prior right to purchase any new issue of Common Stock in order to maintain their proportionate ownership interest in the Company. In addition, if we issue additional shares of Common Stock or securities convertible into or exercisable for Common Stock, such issuance would have a dilutive effect on the voting power and could have a dilutive effect on the earnings per share of the Company's currently outstanding shares of Common Stock.

The proposed amendment to the Certificate of Incorporation could also, under certain circumstances, have an anti-takeover effect. The proposed increase in the number of authorized shares of Common Stock may discourage or make it more difficult to effect a change in control of the Company. For example, we could issue additional shares to dilute the voting power of, create voting impediments for, or otherwise frustrate the efforts of persons seeking to take over or gain control of the Company, whether or not the change in control is favored by a majority of our unaffiliated stockholders. We could also privately place shares of Common Stock with purchasers who would side with our Board in opposing a hostile takeover bid. The Board is not aware of any plans for or attempt to take control of the Company.

If approved, the amendment would amend and restate the first paragraph of the Article Fifth of the Certificate of Incorporation, as follows: Total Capital Stock. The total number of shares of all classes stock which the Corporation shall have authority to issue is Fifty-Five Million Four Hundred Thousand (55,400,000) shares, of which Fifty Million (50,000,000) shall be shares of Common Stock, \$.01 par value per share (the Common Stock); and Five Million Four Hundred Thousand (5,400,000) shares shall be Preferred Stock, \$.01 par value per share (Preferred Stock).

The Certificate of Amendment, which contains the above amendment, is attached to this Proxy Statement as [Appendix B](#). The affirmative vote of a majority of the outstanding shares of Common Stock is required for approval of the proposed amendment. Therefore, abstentions and broker non-votes will have the same effect as votes against this proposal.

The Board Recommends That Stockholders Vote FOR The Proposal To Amend The Company's Certificate of Incorporation.
