Acquired Sales Corp.
Notes to the Condensed Financial Statements
(Unaudited)

NOTE 1 – BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation – On February 13, 2012, Acquired Sales Corp ("Acquired Sales", "AQSP" or the "Company") purchased 100% of the equity interests of Defense & Security Technology Group, Inc. ("DSTG"). On September 30, 2013, Acquired Sales sold 100% of the capital stock of DSTG to Minh Le, the previous owner of DSTG prior to its acquisition. DSTG's results of operations have been included in the Company's operations through September 30, 2013 and have been reclassified as discontinued operations.

On January 12, 2013, Acquired Sales entered into an agreement with Drumright Group, LLC ("Drumright") that was closed on February 11, 2013, wherein Acquired Sales sold 100% of the capital stock of Cogility Software Corporation ("Cogility") to Drumright. Cogility's results of operations have been reclassified as discontinued operations.

Condensed Financial Statements – The accompanying financial statements are condensed and do not include all disclosures normally required by generally accepted accounting principles. These statements should be read in conjunction with the annual financial statements included in Form 10-K filed with the U.S. Securities and Exchange Commission on March 31, 2015. In particular, the nature of operations and significant accounting principles were presented in Note 1 to the annual financial statements. In the opinion of management, all adjustments necessary for a fair presentation have been included in the accompanying unaudited condensed consolidated financial statements and consist of only normal recurring adjustments, except as disclosed herein. The results of operations for the three months ended March 31, 2015 are not necessarily indicative of the results that may be expected for the full year ending December 31, 2015.

Principles of Consolidation – The accompanying consolidated financial statements include the accounts and operations of Acquired Sales for all periods presented. Intercompany accounts and transactions have been eliminated on consolidation.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue, and expenses. Significant estimates include share-based compensation. Actual results and outcomes may differ from management's estimates and assumptions.

Basic and Diluted Earnings (Loss) Per Common Share – Basic earnings (loss) per common share is determined by dividing earnings (loss) by weighted-average number of common shares outstanding during the period. Diluted earnings (loss) per common share is calculated by dividing earnings (loss) by the weighted-average number of common shares and dilutive common share equivalents outstanding during the period. When dilutive, the incremental potential common shares issuable upon exercise of stock options and warrants are determined by the treasury stock method. The following table summarizes the calculations of basic and diluted earnings (loss) per share for the three months ended March 31, 2015 and 2014.

There were 6,198,774 stock options and warrants and 938,000 financing warrants outstanding during the three months ended March 31, 2015 that were excluded from the computation of diluted earnings (loss) per share because their effects would have been anti-dilutive. There were 2,148,774 employee stock options and 938,000 warrants outstanding during the three months ended March 31, 2014 that were excluded from the computation of diluted earnings (loss) per share because their effects would have been anti-dilutive.

Notes to the Condensed Financial Statements
(Unaudited)

Recent Accounting Pronouncements - In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers (Topic 606), which supersedes the revenue recognition requirements in ASC 605, Revenue Recognition. This ASU is based on the principle that revenue is recognized to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The ASU also requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and changes in judgments and assets recognized from costs incurred to obtain or fulfill a contract. The effective date will be the first quarter of fiscal year 2018 using one of two retrospective application methods. The Company has not determined the potential effects on the financial statements.

In June 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2014-12, Compensation-Stock Compensation (Topic 718)-Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could Be Achieved after the Requisite Service Period (a consensus of the FASB Emerging Issues Task Force). ASU No. 2014-12 requires that a performance target that affects vesting and could be achieved after the requisite service period shall be treated as a performance condition. The effective date will be the first quarter of fiscal year 2016. The Company has not determined the potential effects on the financial statements.

NOTE 2 - RISKS AND UNCERTAINTIES

Going Concern – The Company has a history of recurring losses, which have resulted in an accumulated deficit of \$12,564,654 as of March 31, 2015. During the three months ended March 31, 2015, the Company recognized a loss of \$217,226 from continuing operations. The Company used net cash of \$213,966 in operating activities of continuing operations. The sale of Cogility and DSTG eliminated the Company's source of revenue. As a result, there is substantial doubt that the Company will be able to continue as a going concern. Bankruptcy of the Company at some point in the future is a possibility. The accompanying financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

Management plans to sustain the Company as a going concern by taking the following actions: (1) acquiring and/or developing profitable businesses that will create positive income from operations; (2) acquiring valuable real estate in exchange for common stock and/or preferred stock; and/or (3) completing private placements of our common stock and/or preferred stock. Management believes that by taking these actions, the Company will be provided with sufficient future operations and cash flow to continue as a going concern. However, there can be no assurance that the Company will be successful in consummating such actions on acceptable terms, if at all. Moreover, any such actions can be expected to result in substantial dilution to the existing shareholders of the Company.

NOTE 3 – NOTE RECEIVABLE

The William Noyes Webster Foundation, Inc. (the "Foundation"), a non-profit Massachusetts corporation, has received a provisional registration from the Commonwealth of Massachusetts to own and operate a medical marijuana cultivation facility and dispensary in Barnstable County, Massachusetts. Jane W. Heatley ("Heatley") is the founder and a member of the board of directors of the Foundation.

Teaming Agreement - On July 8, 2014, Acquired Sales Corp. ("AQSP") and Heatley agreed to use their respective best efforts, working exclusively together as a team, and not as a partnership or other entity, in order to consummate transactions, agreements, contracts and other arrangements pursuant to which AQSP will provide capital and expertise to the Foundation.

Promissory Note - On July 14, 2014, the Foundation signed and delivered to AQSP a Secured Promissory Note (the "Note") which is in the stated loan amount of \$1,500,000. The Note provides that the \$1,500,000 loan may be advanced in one or more installments as the Foundation and AQSP may mutually agree upon. The Foundation and AQSP mutually agreed that the first installment of this loan would be \$602,500. Pursuant to instructions from the Foundation, on July 14, 2014, AQSP paid \$2,500 owed by the Foundation to one of its consultants, and AQSP advanced \$600,000 directly to the Foundation. The amount and timing of subsequent loan installments under the Note, which could total \$897,500, had not yet been mutually agreed upon between the Foundation and AQSP as of the date of the Note.

The principal balance outstanding under the Note bears interest at the rate of 12.5% per annum, compounded monthly. The Company accrued \$55,805 in interest under the note for the period ended March 31, 2015. The first payment of accrued interest by the Foundation under the Note shall be made as soon after the Foundation commences operations of its medical marijuana cultivation facility and dispensary as the Foundation's cash flows shall reasonably permit, but in any event no later than one year after the Foundation commences operations. The principal of the Note shall be payable in eight consecutive equal quarterly installments, commencing on the last day of the calendar quarter in which the Foundation commences operations. Principal on the Note and related accrued interest will be considered past due if the aforementioned payments are not received by their due dates.

INDEX

Acquired Sales Corp.
Notes to the Condensed Financial Statements
(Unaudited)

The Company assessed the collectability of the Note based on the adequacy of the Foundation's collateral and the Foundation's capability of repaying the Note according to its terms. The Note is secured by, among other things, certain of the Foundation's assets, as set out in a Security Agreement dated July 14, 2014 (the "Security Agreement"). Based on this assessment, the Company has concluded that no allowance for loan losses was required as of March 31, 2015.

NOTE 4 – NOTES PAYABLE

Notes Payable to Related Parties – On July 14, 2014, AQSP borrowed \$300,000 from the Roberti Jacobs Family Trust (the "Trust"). The Trust is an affiliate of Gerard M. Jacobs, AQSP's chief executive officer. The loan was repaid in full on August 5, 2014.

NOTE 5 – SHAREHOLDERS' EQUITY

Financing Warrants – Through December 31, 2012, the Company issued 938,000 warrants in connection with the issuance of notes payable primarily to related parties. The warrants were outstanding at March 31, 2015. Common Stock – On October 17, 2013, the Company entered into a settlement agreement with Matthew Ghourdjian and the Deborah Sue Ghourdjian Separate Property Trust, whereby Mr. Ghourdjian and the Trust sold to the Company 690,796 shares of common stock for \$30,000 cash plus an obligation to pay an additional \$20,000 in February 2014, or approximately \$0.07 per share. Mr. Ghourdjian resigned from the Company as an employee, director and officer. Mr. Ghourdjian and the Trust, and the Company entered into mutual releases of all claims against one another. The obligation was paid in February 2014.

Also on October 17, 2013, Mr. Roger Greene entered into a settlement agreement with the Company whereby Mr. Greene forfeited his options to purchase 25,000 shares of common stock of the Company at \$0.001 per share. In addition, Mr. Greene and the Company signed mutual releases of any and all claims against one another. Mr. Greene resigned as a director of the Company on that date.

Medical marijuana in California and Oregon:

(the "Cal/Ore Company") that wants to purchase certain medical marijuana facilities in California and Oregon (the "Cal/Ore Facilities"), (2) the Cal/Ore Company purchases the Cal/Ore Facilities, (3) AQSP directly or via subsidiaries enters into purchase agreements with the Cal/Ore Company regarding the Cal/Ore Facilities, and (4) all necessary approvals are obtained. Financial Consulting Agreement:

In January 2015, AQSP retained Aspen Equity Partners, LLL ("Aspen") as AQSP's financial advisor, and AQSP paid Aspen a nonrefundable retainer of \$50,000 in connection therewith. As AQSP's financial advisor, Aspen may assist AQSP in the placement of equity, equity-linked securities or debt securities of the Company. If AQSP completes an equity financing covered by its agreement with Aspen, then Aspen shall receive a fee from AQSP of between three and one half percent (3.5%) to seven percent (7%) of the amount of such equity financing. If AQSP completes a debt financing covered by its agreement with Aspen, then Aspen shall receive a fee of between one half percent (0.5%) to one percent (1%) of the amount of such debt financing. In addition, if AQSP completes an equity financing or a debt financing covered by its agreement with Aspen, then Aspen shall receive an additional transaction fee consisting of warrants to purchase the Company's common stock so that, after giving effect to such financing, Aspen shall hold warrants equal to five percent (5%) of the equity financing or three percent (3%) of the debt financing. The period of time during which Aspen is obligated to provide financial advisory services to AQSP ends on May 31, 2015.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

As used in this Form 10-Q, references to the "Company," "Acquires Sales," "AQSP," "we," "our" or "us" refer to Acquired Sales Corp., unless the context otherwise indicates.

The Company has a history of recurring losses, which has resulted in an accumulated deficit of \$12,564,654 as of March 31, 2015. In addition, the Company suffered losses from continuing operations during the three months ended March 31, 2015 and 2014 and used cash in its operating activities from continuing operations during the three months ended March 31, 2015 and 2014. Additionally, as discussed in Note 2, the Company sold 100% of the capital stock of its subsidiaries, Cogility Software Corporation and Defense & Security Technology Group, Inc., which were its primary source of revenue. These matters raise substantial doubt about the Company's ability to continue as a going concern.

This Management's Discussion and Analysis or Plan of Operations ("MD&A") section discusses our results of operations, liquidity and financial condition, contractual relationships and certain factors that may affect our future results. You should read this MD&A in conjunction with our financial statements and accompanying notes included for Acquired Sales Corp.

Forward-Looking Statements

This Quarterly Report on Form 10-Q contains statements that are considered forward-looking statements. Forward-looking statements give the Company's current expectations and forecasts of future events. All statements other than statements of current or historical fact contained in this quarterly report, including statements regarding the Company's future financial position, business strategy, budgets, projected costs and plans and objectives of management for future operations, are forward-looking statements. The words "anticipate," "believe," "continue," "estimate," "expect," "intend," "may," "plan," and similar expressions, as they relate to the Company, are intended to identify forward-looking statements. These statements are based on the Company's current plans, and the Company's actual future activities and results of operations may be materially different from those set forth in the forward-looking statements. These forward-looking statements are subject to risks and uncertainties that could cause actual results to differ materially from the statements made. Any or all of the forward-looking statements in this annual report may turn out to be inaccurate. The Company has based these forward-looking statements largely on its current expectations and projections about future events and financial trends that it believes may affect its financial condition, results of operations, business strategy and financial needs. Overview

Acquired Sales Corp. is incorporated under the laws of the State of Nevada.

From time to time, the Company evaluates potential companies and opportunities involved in the marijuana industry. No assurances or guarantees whatsoever can be made as to whether any acquisitions or transactions will be successfully consummated, nor on what terms.

If the Company does lend money, provide consulting services, and/or lease real estate to entities in the marijuana industry, then it is highly likely that the Company will be required to raise a substantial amount of equity capital and/or debt capital in connection with those acquisitions or other transactions, which could result in substantial dilution for existing shareholders of the Company. No assurances whatsoever can be made that such acquisitions or transactions would result in profitability of the Company, nor what the impacts would be on the Company's balance sheet, income statement, or stock price.

INDEX

In addition, marijuana is classified as a controlled substance by the U.S. federal government, and any entrance by the Company into the marijuana industry may trigger material legal and financial risks for the Company. Under certain scenarios, these material legal and financial risks could result in a shutdown or bankruptcy of the Company.

This Form 10-Q does not attempt to describe all of the numerous material risks and uncertainties associated with any possible entrance by the Company into the marijuana industry. If the Company does enter into the marijuana industry, then shareholders and potential shareholders are expressly cautioned that such participation will entail such numerous material risks and uncertainties, and associated "Risk Factors" will need to be set forth in subsequent filings by the Company with the U.S. Securities and Exchange Commission. The Company cannot provide any assurances whatsoever in regard to the potential negative legal, regulatory, financial and operational risks to the Company associated with the potential entrance by the Company into the marijuana industry. You are urged to use caution in your evaluation of the Company's stock, and to seek the advice of competent legal and financial advisors in regard to the marijuana industry, which is currently in a state of rapid change and involves many variables which are beyond the Company's control.

The Company further cautions you that as the recreational use of marijuana is permitted in certain states, that the marijuana industry is likely to be subjected to even more intense scrutiny and oversight by elected officials, legislative bodies, courts, law enforcement agencies, and community groups. The Company cannot provide any assurances whatsoever in regard to the future potential negative impacts of such intensified scrutiny and oversight.

If for any reason the Company does not enter into the marijuana industry, then the Company will continue to seek acquisitions and/or transactions in various industries including but not limited to the industrial services industry, the real estate industry, or other industries.

Critical Accounting Policies

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue, and expenses. Significant estimates include share-based compensation forfeiture rates and the potential outcome of future tax consequences of events that have been recognized for financial

reporting purposes. Actual results and outcomes may differ from management's estimates and assumptions.

Income Taxes – Provisions for income taxes are based on taxes payable or refundable for the current year and deferred income taxes. Deferred income taxes are provided on differences between the tax bases of assets and liabilities and their reported amounts in the financial statements and on tax carry forwards. Deferred tax assets and liabilities are included in the financial statements at currently enacted income tax rates applicable to the period in which the deferred tax assets and liabilities are expected to be realized or settled. As changes in tax laws or rates are enacted, deferred tax assets and liabilities are adjusted through the provision for income taxes. A valuation allowance is provided against deferred income tax assets when it is not more likely than not that the deferred income tax assets will be realized.

Basic and Diluted Earnings (Loss) Per Common Share – Basic earnings (loss) per common share is determined by dividing earnings (loss) by the weighted-average number of common shares outstanding during the period. Diluted earnings (loss) per common share is calculated by dividing earnings (loss) by the weighted-average number of common shares and dilutive common share equivalents outstanding during the period. When dilutive, the incremental potential common shares issuable upon exercise of stock options and warrants are determined by the treasury stock method. There were 2,148,774 stock options and 4,988,000 warrants outstanding during the three months ended March 31, 2015 that were excluded from the computation of diluted earnings (loss) per share because their effects would have been anti-dilutive. There were 2,148,774 employee stock options and 938,000 warrants outstanding during the three months ended March 31, 2014 that were excluded from the computation of diluted earnings (loss) per share because their effects would have been anti-dilutive.

INDEX

Recent Accounting Pronouncements – In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers (Topic 606), which supersedes the revenue recognition requirements in ASC 605, Revenue Recognition. This ASU is based on the principle that revenue is recognized to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The ASU also requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and changes in judgments and assets recognized from costs incurred to obtain or fulfill a contract. The effective date will be the first quarter of fiscal year 2018 using one of two retrospective application methods. The Company has not determined the potential effects on the financial statements.

In September 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2014-12, Compensation-Stock Compensation (Topic 718)-Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could Be Achieved after the Requisite Service Period (a consensus of the FASB Emerging Issues Task Force). ASU No. 2014-12 requires that a performance target that affects vesting and could be achieved after the requisite service period shall be treated as a performance condition. The effective date will be the first quarter of fiscal year 2016. The Company has not determined the potential effects on the financial statements.

Off Balance Sheet Arrangements – We have no off-balance sheet arrangements.

Contractual Cash Obligations and Commercial Commitments

The William Noyes Webster Foundation, Inc. (the "Foundation"), a non-profit Massachusetts corporation, has received a provisional registration from the Commonwealth of Massachusetts to own and operate a medical marijuana cultivation facility and dispensary in Barnstable County, Massachusetts. Jane W. Heatley ("Heatley") is the founder and a member of the board of directors of the Foundation.

Teaming Agreement – On July 8, 2014, Acquired Sales Corp. ("AQSP") and Heatley agreed to use their respective best efforts, working exclusively together as a team, and not as a partnership or other entity, in order to consummate transactions, agreements, contracts and other arrangements pursuant to which AQSP will provide capital and expertise to the Foundation.

Promissory Note – On July 14, 2014, the Foundation signed and delivered to AQSP a Secured Promissory Note (the "Note") which is in the stated loan amount of \$1,500,000. The Note provides that the \$1,500,000 loan may be advanced in one or more installments as the Foundation and AQSP may mutually agree upon. The Foundation and AQSP mutually agreed that the first installment of this loan would be \$602,500. Pursuant to instructions from the Foundation, on July 14, 2014, AQSP paid \$2,500 owed by the Foundation to one of its consultants, and AQSP advanced \$600,000 directly to the Foundation. The amount and timing of subsequent loan installments under the Note, which will total \$897,500, have not yet been mutually agreed upon between the Foundation and AQSP.

The unpaid balance of the Note will bear interest at the rate of 12.5% per annum, compounded monthly. The first payment of accrued interest by the Foundation under the Note shall be made as soon after the Foundation commences operations of its medical marijuana cultivation facility and dispensary as the Foundation's cash flows shall reasonably permit, but in any event no later than one year after the Foundation commences operations. The principal of the Note shall be payable in eight consecutive equal quarterly installments, commencing on the last day of the calendar quarter in which the Foundation commences operations. The Note is secured by, among other things, certain of the Foundation's assets as set out in a Security Agreement dated July 14, 2014.

Cultivation and dispensary of Medical Marijuana in the State of Massachusetts – On July 20, 2014, AQSP entered into an agreement to pay a lump sum finder's fee to Parare Partners Inc. in the event that all of the following conditions occur: (1) AQSP makes certain loans to the William Noyes Webster Foundation, Inc. (the "Foundation") which was found by Parare Partners Inc., (2) the Foundation constructs and brings into operation its planned medical marijuana cultivation facility and dispensary in Massachusetts, (3) AQSP directly or via subsidiaries enters into certain consulting agreements with the Foundation, and (4) all necessary approvals are obtained. If all of such conditions occur, then the finder's fee will be calculated as follows:

5% of the first \$1,000,000 of the aggregate principal amount of such loans
4% of the second \$1,000,000 of the aggregate principal amount of such loans
3% of the third \$1,000,000 of the aggregate principal amount of such loans
2% of the fourth \$1,000,000 of the aggregate principal amount of such loans
1% of the aggregate principal amount of such loans that are in excess of \$4,000,000

INDEX

The Company has not paid any fees under this Agreement. All of the conditions have not been met for the finder's fee to have accrued on the amounts loaned to the foundation; therefore, a liability has not been recorded for the finder's fee at March 31, 2015.

Cultivation and dispensary of Medical Marijuana in the States of California and Oregon – On July 20, 2014, AQSP entered into an agreement to pay a lump sum finder's fee to Parare Partners Inc. in the event that all of the following conditions occur: (1) AQSP makes certain loans to a company found by Parare Partners Inc. (the "Calif /Ore Company") that wants to purchase certain medical marijuana facilities in California and Oregon (the "Calif /Ore Facilities"), (2) the Calif /Ore Company purchases the Calif /Ore Facilities, (3) AQSP directly or via subsidiaries enters into purchase agreements with the Cal /Ore Company regarding the Calif/Ore Facilities, and (4) all necessary approvals are obtained. If all of such conditions occur, then the finder's fee will be calculated as follows:

5% of the first \$1,000,000 of the aggregate principal amount of such loans
4% of the second \$1,000,000 of the aggregate principal amount of such loans
3% of the third \$1,000,000 of the aggregate principal amount of such loans
2% of the fourth \$1,000,000 of the aggregate principal amount of such loans
1% of the aggregate principal amount of such loans that are in excess of \$4,000,000

The Company has not paid any fees under this agreement.

The Company is subject to other legal proceedings, claims, and litigation arising in the ordinary course of business. The Company defends itself vigorously against any such claims. Although the outcome of these other matters is currently not determinable, management does not expect that the ultimate costs to resolve these matters will have a material adverse effect on its consolidated financial position, results of operations, or cash flows.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

As a smaller reporting company, we are not required to provide the information required by this Item.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our chief executive officer and chief financial officer, evaluated the effectiveness of our disclosure controls and procedures as defined in Rule 13a-15(e) under the Exchange Act as of the end of the period covered by this Quarterly Report on Form 10-Q. In designing and evaluating the disclosure controls and procedures, our management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. In addition, the design of disclosure controls and procedures must reflect the fact that there are resource constraints and that management is required to apply its judgment in evaluating the benefits of possible controls and procedures relative to their costs. The design of any disclosure controls and procedures also is based in part upon certain assumptions about the likelihood of future events and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions.

Based on that evaluation, our chief executive officer and chief financial officer concluded that, as of March 31, 2015, our disclosure controls and procedures were not effective to provide reasonable assurance that information we are required to disclose in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules, regulations and forms, and that such information is accumulated and communicated to our management, including our chief executive officer and

chief financial officer, as appropriate, to allow timely decisions regarding required disclosure.

As indicated in our Form 10-K for the year ended December 31, 2014, management concluded that our internal control over financial reporting was not effective. Management's assessment of internal controls over financial reporting has not changed at March 31, 2015. There existed a lack of segregation of duties in regard to the Company's financial reporting, procedures for depositing of funds, procedures for cash disbursements, procedures for checkbook entries, period close procedures, and procedures for financial statement preparation that result in material weaknesses in internal control over financial reporting.

Changes in Internal Control over Financial Reporting

Our management, with the participation of the chief executive officer and chief financial officer, has concluded there were no significant changes in our internal controls over financial reporting that occurred during our last fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
