The Company has incurred losses since inception resulting in an accumulated deficit of \$34,489 as of June 30, 2012 and further losses are anticipated in the development of its business raising substantial doubt about the Company's ability to continue as a going concern. NOTE 3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fair Value of Financial Instruments

The Company's financial instruments consist of cash and cash equivalents and amounts due to shareholder. The carrying amounts of cash and current liabilities approximate fair value because of the short-term maturity of these items. These fair value estimates are subjective in nature and involve uncertainties and matters of significant judgment, and, therefore, cannot be determined with precision. Changes in assumptions could significantly affect these estimates. We do not hold or issue financial instruments for trading purposes, nor do we utilize derivative instruments.

The FASB ASC clarifies that fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. It also requires disclosure about how fair value is determined for assets and liabilities and establishes a hierarchy for which these assets and liabilities must be grouped, based on significant levels of inputs as follows:

Level 1: Quoted prices in active markets for identical assets or liabilities.

Level 2: Quoted prices in active markets for similar assets and liabilities and inputs that are observable for the asset or liability.

Level 3: Unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

The determination of where assets and liabilities fall within this hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

Income Taxes

We account for income taxes as required by the Income Tax Topic of the FASB ASC, which requires recognition of deferred tax liabilities and assets for the expected future tax consequences of events that have been included in the

financial statements or tax returns. Under this method, deferred tax liabilities and assets are determined based on the difference between the financial statement and tax bases of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse.

We have analyzed filing positions in all of the federal and state jurisdictions where we are required to file income tax returns, as well as all open tax years in these jurisdictions. The Company has identified its federal tax return as a major tax jurisdiction, as defined. We are not currently under examination by the Internal Revenue Service or any other jurisdiction. The Company believes that its income tax filing positions and deductions will be sustained on audit and does not anticipate any adjustments that will result in a material adverse effect on the Company's financial condition, results of operations, or cash flow. Therefore, no reserves for uncertain income tax positions have been recorded.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATION

General

We were incorporated in the State of Nevada on November 17, 2010. We are a start-up stage operations and have not generated any revenues. We intend to provide 3D printing services. We have not generated any revenues and the only operation we have engaged in is the development of a business plan and execution of the service agreement with Licon, Corp.

RESULTS OF OPERATION

We are a development stage company with limited operations since our inception on November 17, 2010 to June 30, 2012. As of June 30, 2012, we had total assets of \$3,560 and total liabilities of \$7,949. Since our inception to June 30, 2012, we have accumulated a deficit of \$34,489. We anticipate that we will continue to incur substantial losses in the next 12 months. Our financial statements have been prepared assuming that we will continue as a going concern.

We expect we will require additional capital to meet our long term operating requirements. We expect to raise additional capital through, among other things, the sale of equity or debt securities.

Three Month Period Ended June 30, 2012 Compared to the Three Month Period Ended June 30, 2011.

Our net loss for the three month period ended June 30, 2012 was \$7,094 compared to a net loss of \$6,375 during the three month period ended June 30, 2011. During the Three month period ended June 30, 2012, we have not generated any revenue.

During the three month period ended June 30, 2012, we incurred general and administrative expenses of \$7,094 compared to \$6,375 incurred during the three month period ended June 30, 2011. General and administrative expenses incurred during the three month period ended June 30, 2012 were generally related to corporate overhead, financial and administrative contracted services, such as legal and accounting, developmental costs, and marketing expenses.

The weighted average number of shares outstanding was 7,760,000 for the three month period ended June 30, 2012.

LIQUIDITY AND CAPITAL RESOURCES

As of June 30, 2012

As at June 30, 2012, our current assets were \$3,560 compared to \$6,179 in current assets at March 31, 2012. Our current assets were comprised of \$227 in cash and \$3,333 in prepaid expenses. As at June 30, 2012, our current liabilities were \$7,949. Current liabilities were comprised entirely of \$7,949 in advance from director.

Stockholders' deficit was \$4,389 as of June 30, 2012 compared to stockholders' equity of \$2,705 as of March 31, 2012.

Cash Flows from Operating Activities

We have not generated positive cash flows from operating activities. For the three month period ended June 30, 2012, net cash flows used in operating activities was \$5,094 consisting of a net loss of \$7,094 and prepaid expenses of \$2,000. Net cash flows used in operating activities was \$37,822 for the period from inception (November 17, 2010) to June 30, 2012.

Cash Flows from Financing Activities

We have financed our operations primarily from either advancements or the issuance of equity and debt instruments. For the three month period ended June 30, 2012, net cash provided by financing activities was \$4,475. For the period from inception (November 17, 2010) to June 30, 2012, net cash provided by financing activities was \$38,049 received from proceeds from issuance of common stock and advance from director.

PLAN OF OPERATION AND FUNDING

We expect that working capital requirements will continue to be funded through a combination of our existing funds and further issuances of securities. Our working capital requirements are expected to increase in line with the growth of our business.

Existing working capital, further advances and debt instruments, and anticipated cash flow are expected to be adequate to fund our operations over the next twelve months. We have no lines of credit or other bank financing arrangements. Generally, we have financed operations to date through the proceeds of the private placement of equity and debt instruments. In connection with our business plan, management anticipates additional increases in operating expenses and capital expenditures relating to: (i) acquisition of inventory; (ii) developmental expenses associated with a start-up business; and (iii) marketing expenses. We intend to finance these expenses with further issuances of securities, and debt issuances. Thereafter, we expect we will need to raise additional capital and generate revenues to meet long-term operating requirements. Additional issuances of equity or convertible debt securities will result in dilution to our current shareholders. Further, such securities might have rights, preferences or privileges senior to our common stock. Additional financing may not be available upon acceptable terms, or at all.

We do not have any credit or equity facilities available with financial institutions, stockholders or third party investors, and will continue to rely on best efforts financings. There is no assurance that we can raise additional capital from external sources. If adequate funds are not available or are not available on acceptable terms, we may not be able to take advantage of prospective new business endeavors or opportunities, which could significantly and materially restrict our business operations, and will likely cause us to curtail or cease operations

OFF-BALANCE SHEET ARRANGEMENTS

As of the date of this Quarterly Report, we do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to investors.

GOING CONCERN

The independent auditors' report accompanying our March 31, 2012 financial statements contained an explanatory paragraph expressing substantial doubt about our ability to continue as a going concern. The financial statements have been prepared "assuming that we will continue as a going concern," which contemplates that we will realize our assets and satisfy our liabilities and commitments in the ordinary course of business.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

No report required.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures; Changes in Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining a system of disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) under the Exchange Act) that is designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Exchange Act is accumulated and communicated to the issuer's management, including its principal executive officer or officers and principal financial officer or officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

An evaluation was conducted under the supervision and with the participation of our management of the effectiveness of the design and operation of our disclosure controls and procedures as of June 30, 2012. Based on that evaluation, our management concluded that as of June 30, 2012, our disclosure controls and procedures were effective as of such date to ensure that information required to be disclosed in the reports that we file or submit under the Exchange Act, is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms. Such officer also confirmed that there was no change in our internal control over financial reporting during the three-month period ended June 30, 2012 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Limitations on the Effectiveness of Controls

The Company's management is responsible for establishing and maintaining adequate internal control over financial reporting. The Company's internal control over financial reporting is designed to provide reasonable assurance as to the reliability of the Company's financial reporting and the preparation of financial statements in accordance with generally accepted accounting principles. All internal control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation.

PART II. OTHER INFORMATION
