PART I – FINANCIAL INFORMATION

Item 1. Financial Statements

The accompanying unaudited financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions for Form 10-Q and Article 210 8-03 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation have been included. All such adjustments are of a normal recurring nature. Operating results for the three month period ended November 30, 2011 are not necessarily indicative of the results that may be expected for the fiscal year ending August 31, 2012. For further information refer to the financial statements and footnotes thereto included in our company's Annual Report on Form 10-K for the fiscal year ended August 31, 2011.

NEW AMERICA ENERGY CORP.
(AN EXPLORATION STAGE COMPANY)
NOTES TO THE FINANCIAL STATEMENTS
November 30, 2011

NOTE 1 – SUMMARY OF ACCOUNTING POLICIES

Nature of Business

New America Energy Corp (formerly “Atheron, Inc.”) was incorporated in Nevada on May 8, 2006 as a development stage company, initially developing a technology for ethanol-methanol gasoline. The Company did not progress the development of this technology.

On November 5, 2010, we underwent a change of control and the Company’s newly appointed sole director and majority shareholder approved a name change to New America Energy Corp. and a twenty-five (25) new for one (1) old forward stock split of the Company’s issued and outstanding shares of common stock, such that its issued and outstanding shares of common stock increased from 2,150,000 to 53,750,000. This forward split did not affect the number of the Company’s authorized common shares, which remains at 75,000,000.

On November 16, 2010, the Nevada Secretary of State accepted for filing of the Certificate of Amendment to the Company’s Articles of Incorporation to change our name from Atheron Inc. to New America Energy Corp.

The forward stock split and name change has become effective with the Over-the-Counter Bulletin Board at the opening of trading on December 1, 2010 under the symbol “NECA”. Our CUSIP number is 641872 106.

The effect of the stock split has been recognized retroactively in the stockholders’ equity accounts as of May 8, 2006, the date of our inception, and in all shares and per share data in the financial statements.

On February 3, 2011 we entered into property acquisition agreements with First Liberty Power Corp. (“FLPC”), and GeoXplor Corp. (“GeoXplor”). Pursuant to the terms of the agreements, we acquired an option, as well as exploration rights, in certain unpatented mining claims located in Southern Utah which we refer to the “Uravan Property”. The property was lost during the three month period covered by these financial statements as the Company did not pay the required option payments as they became due.

On May 31, 2011, we entered into a property acquisition agreement with GeoXplor Corp. Pursuant to the terms of the agreement we acquired an option, as well as exploration rights, in certain unpatented mining claims located in Clayton Valley, Nye County, Nevada. Subsequently, on October 27, 2011, we entered into an amended property acquisition agreement whereby we acquired additional claims.

As a result of these agreements, the Company will be focused exclusively on the acquisition and development of mineral resource properties.

Exploration Stage Company

The Company is an Exploration Stage Company, as defined by Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 915, Development Stage Entities. The Company’s principal business is the acquisition and exploration of mineral resources. The Company has not presently determined whether its properties contain mineral reserves that are economically recoverable.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date the financial statements and the reported amount of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 1 – SUMMARY OF ACCOUNTING POLICIES (continued)

Cash and Cash Equivalents

We consider all highly liquid investments with maturities of three months or less to be cash equivalents.

Fair Value of Financial Instruments

New America Energy Corp's financial instruments consist of cash and cash equivalents and a loan payable to a related party. The carrying amount of these financial instruments approximates fair value due either to length of maturity or interest rates that approximate prevailing market rates unless otherwise disclosed in these financial statements.

Mineral Properties Costs

Mineral exploration and development costs are accounted for using the successful efforts method of accounting.

Property acquisition costs - Mineral property acquisition costs are capitalized as mineral exploration properties. Upon achievement of all conditions necessary for reserves to be classified as proved, the associated acquisition costs are reclassified to prove properties

Exploration costs - Geological and geophysical costs and the costs of carrying and retaining undeveloped properties are expensed as incurred.

Impairment of Mineral Properties

Unproved mineral properties are assessed at each reporting period for impairment of value, and a loss is recognized at the time of the impairment by providing an impairment allowance. An asset would be impaired if the undiscounted cash flows were less than its carrying value. Impairments are measured by the amount by which the carrying value exceeds its fair value. Because the Company uses the successful efforts method, the Company assesses its properties individually for impairment, instead of on an aggregate pool of costs. Impairment of unproved properties is based on the facts and circumstances surrounding each lease and is recognized based on management's evaluation. Management's evaluation follows a two-step process where (1) recoverability of the carrying value of the asset is reviewed to determine if there is sufficient value recoverable to support the capitalized value at the report date; and, (2) If assets fail the recoverability test, impairment testing is conducted, including the evaluation of various criteria such as: prior history of successful operations; production currently in place and/or future projected cash flows (if any); reserve reports or evaluations from which management can prepare future cash flow analyses; the Company's ability to monetize the asset(s) under evaluation; and, Management's intent regarding future development.

Income Taxes

Income taxes are computed using the asset and liability method. Under the asset and liability method, deferred income tax assets and liabilities are determined based on the differences between the financial reporting and tax bases of assets and liabilities and are measured using the currently enacted tax rates and laws. A valuation allowance is provided for the amount of deferred tax assets that, based on available evidence, are not expected to be realized.

Basic Loss Per Share

Basic loss per share has been calculated based on the weighted average number of shares of common stock outstanding during the period.

NOTE 1 – SUMMARY OF ACCOUNTING POLICIES (continued)

Recent Accounting Pronouncements

The Company does not expect the adoption of recently issued accounting pronouncements to have a significant impact on the Company's results of operations, financial position or cash flow.

NOTE 2 – LIQUIDITY AND GOING CONCERN

We have negative working capital, and have incurred losses since inception, and have not yet generated revenues. As we are in the exploration stage with our recently acquired mineral claims we do not expect to generate revenues for some period of time, if ever. These factors create substantial doubt about the Company's ability to continue as a going concern. The financial statements do not include any adjustment that might be necessary if the Company is unable to continue as a going concern.

The ability of the Company to continue as a going concern is dependent on the Company generating cash from the sale of its common stock and/or obtaining debt financing and attaining future profitable operations. Management's plans include selling its equity securities and obtaining debt financing to fund its capital requirement and ongoing operations; however, there can be no assurance the Company will be successful in these efforts.

NOTE 3 – MINERAL PROPERTY RIGHTS

A) Uravan Agreement

On February 3, 2011 we entered into and closed property acquisition agreements with First Liberty Power Corp. ("FLPC"), and GeoXplor Inc. ("GeoXplor"). Pursuant to the terms of the agreements, we acquired an option, as well as exploration rights, in certain unpatented mining claims located in Southern Utah which we refer to the "Uravan Property". The Company failed to make the payments required as of the extension date, the option agreement terminated and the Company lost all rights and interest in and to the Uravan claims.

B) Clayton Valley Agreement

On May 31, 2011, entered into a property acquisition agreement with GeoXplor Corp. Pursuant to the terms of the agreement, we acquired an option, as well as exploration rights, in certain unpatented mining claims located in Clayton Valley, Nye County, Nevada. Subsequently on October 27, 2011, we entered into an amended property acquisition agreement whereby we acquired additional claims. We agreed to provide the following payments and other consideration to GeoXplor:

- \$75,000 on May 31, 2011;
- \$100,000 on May 31, 2012;
- \$100,000 on May 31, 2013;
- \$100,000 on May 31, 2014;
- 500,000 shares of our common stock on execution of the agreement;
- 250,000 shares of our common stock on execution of the amended agreement;

500,000 shares of our common stock on or before the date one year from the date of the agreement;
500,000 shares of our common stock on or before the date two years from the date of the agreement;
500,000 shares of our common stock on or before the date three years from the date of the agreement; and
A 3.0% net smelter royalty on all net revenue derived from production from the Nye County Property.

NOTE 3 – MINERAL PROPERTY RIGHTS (continued)

B) Clayton Valley Agreement (continued)

We have also committed to a 4 year work program of no less than \$1,000,000 with \$100,000 to be spent in the first year, \$200,000 during the second year, \$300,000 during the third year and \$400,000 during the fourth year.

If we are unable to make any of the share issuances or payments under the agreements with GeoXplor, the property rights would revert to GeoXplor.

During the three months period ended November 30, 2011, the Company issued 250,000 shares of common stock to GeoXplor on execution of the amended agreement. The issuance of 250,000 shares of common stock was valued at the market value of the stock on the issuance date. At November 30, 2011, the Company recorded \$75,000 as an impairment of mineral properties as no proven or probable reserves have yet been determined.

On the transaction date the Company capitalized the entire amount as option costs – mineral properties. At the close of the year ended November 30, 2011, the Company evaluated the recoverability of the amounts paid for the option and determined to impair the \$75,000 in full, as the Company is currently in the prospecting phase, with no proven or probable reserves having yet been determined.

NOTE 4 – RELATED PARTY TRANSACTIONS

On November 1, 2010, the Company entered into a three-year consulting agreement with the Company's sole director. Under the terms of the agreement, the consultant is paid \$2,500 a month, payable on the 1st of each month, pursuant to the services to be rendered by the consultant. During the three month periods ended November 30, 2011, the Company made cash payments of \$7,500 to the consultant.

NOTE 5 – CAPITAL STOCK

During the three months period ended November 30, 2011, the Company issued 250,000 shares of common stock pursuant to the mineral property assignment and acquisition agreement and mineral property option agreement. (See Note 3(b) – Mineral property rights – Clayton Valley Agreement).

NOTE 6 – FINANCING AGREEMENT

On November 22, 2011, the Company entered into a financing agreement with one non-US investor pursuant to which, the investor will make available of up to \$1,000,000 by way of advances until November 22, 2012 (the "Completion Date") in accordance with the terms of the financing agreement. The Completion Date may be extended for an additional term of up to twelve months at the option of the Company or the investor upon written notice on or before the Completion Date in accordance with the notice provisions of the Financing Agreement. The Company will issue, within ten (10) Banking Days following the date of the receipt by the Company of any advance under the Financing Agreement, common shares of the Company (each a "Share") at the Share Price. Upon receipt of an advance from the investor under the terms of the Financing Agreement, the Company will issue to the investor that number of shares of the Company at a price equal 90% of the average of the closing price of the Company's common stock, for

the five (5) Banking Days immediately preceding the date of the advance.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

FORWARD-LOOKING STATEMENTS

This quarterly report contains forward-looking statements. These statements relate to future events or our future financial performance. In some cases, you can identify forward-looking statements by terminology such as "could", "may", "will", "should", "expect", "plan", "anticipate", "believe", "estimate", "predict", "potential" or the negative of these terms or other comparable terminology. These statements are only predictions and involve known and unknown risks, uncertainties and other factors that may cause our or our industry's actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements.

Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. Except as required by applicable laws, including the securities laws of the United States, we do not intend to update any of the forward-looking statements so as to conform these statements to actual results.

Our unaudited financial statements are stated in U.S. dollars and are prepared in accordance with generally accepted accounting principles in the United States. The following discussion should be read in conjunction with our financial statements and the related notes that appear elsewhere in this quarterly report.

In this quarterly report, unless otherwise specified, all dollar amounts are expressed in United States dollars. All references to "common shares" refer to the common shares in our capital stock.

As used in this quarterly report and unless otherwise indicated, the terms "we", "us", "our" and "our company" mean New America Energy Corp., a Nevada corporation, unless otherwise indicated.

Overview

We were incorporated as "Atheron, Inc." in the State of Nevada on May 8, 2006. On November 5, 2010 we underwent a change of control and on November 15, 2010 we changed our name to New America Energy Corp., and began looking for opportunities to acquire exploration stage oil and gas or mineral properties. Also on November 15, 2010 we effected a split of our issued and outstanding common shares on a 25 for 1 basis. This forward split did not affect the number of our company's authorized common shares, which remains at 75,000,000. The forward stock split and name change became effective with the Over-the-Counter Bulletin Board at the opening of trading on December 1, 2010 under the symbol "NECA". Our CUSIP number is 641872 106. Our mailing address is 3651 Lindell Rd., Ste D#138, Las Vegas, NV 89103 and our telephone number is 800-508-6149.

On February 3, 2011 we entered into property acquisition agreements with First Liberty Power Corp., and GeoXplor Corp. Pursuant to the terms of the agreements, we acquired an option, as well as exploration rights, in certain unpatented mining claims located in Southern Utah which we refer to the "Uravan Property". The property was lost during the three month period covered by these financial statements as our company did not pay the required option payments as they became due.

On May 31, 2011, we entered into a property acquisition agreement with GeoXplor Corp. Pursuant to the terms of the agreement we acquired an option, as well as exploration rights, in certain unpatented mining claims located in Clayton Valley, Nye County, Nevada. Subsequently, on October 27, 2011, we entered into an amended property acquisition agreement whereby we acquired additional claims.

As a result of these agreements, our company will be focused exclusively on the acquisition and development of mineral resource properties.

Current Business

We are an exploration stage company and have not generated any revenues to date. We are in the initial stages of developing our mineral properties, have very limited cash resources and are in need of substantial additional capital to execute our business plan. For these and other reasons, our independent auditors have raised substantial doubt about our ability to continue as a going concern.

Liquidity & Capital Resources

We are an exploration stage company engaged in the exploration of mineral properties. To date, we have not generated any revenues.

Cash on hand at November 30, 2011 was \$549 as compared to \$19,992 at August 31, 2011. Our total liabilities at November 30, 2011 were \$24,694 as compared to \$12,209 at August 31, 2011. The increase in payables was due to the fact that our company did not have sufficient funds during the three months ended November 30, 2011 to meet its payment obligations as they became due.

On February 3, 2011 pursuant to the option of certain mineral claims, we entered into a contingency liability with First Liberty Power Corp. and GeoXplor in the amount of \$150,000, \$100,000 payable to First Liberty and \$50,000 payable to GeoXplor. On May 31, 2011, we extended the option for a further 120 days. On September 30, 2011, our company defaulted on its payment obligations to First Liberty and GeoXplor and the option agreement terminated. There are

no further commitments required by our company on this property.

On May 31, 2011, pursuant to the option of certain mineral claims with GeoXplor, as amended on October 27, 2011, we have a contingent liability of \$200,000 within the next 12 month period, of which \$100,000 is by way of option payment and \$100,000 is required to be spent on exploration activities.

In order to meet all of the current commitments and fund operations for the next twelve months our company estimates it will require a minimum of \$500,000. We intend to undertake an exploration program on Clayton Ridge of approximately \$100,000 and we have property taxes of \$10,000 and have allowed \$15,000 for additional claim staking, \$15,000 for contingencies and \$100,000 for property payments. We have allocated an additional \$259,000 for operations, which may include the acquisition of additional properties as well as general and administrative costs. Our company believes it will have sufficient funding to meet its ongoing obligations for the next twelve months. On November 22, 2011, we entered into a financing agreement with one non-US investor pursuant to which, the investor will make available of up to \$1,000,000 by way of advances until the completion date of November 22, 2012. The completion date may be extended for an additional term of up to twelve months at the option of our company or the investor upon written notice on or before the completion date.

While we believe we have sufficient funding to meet our next twelve month obligations, our ability to meet our financial liabilities and commitments is primarily dependent upon the continued issuance of equity pursuant to the financing agreement, the ability of the financier to fund our operations as we request drawdowns on the funding, our ability to borrow funds, and ultimately upon our ability to achieve and maintain profitable operations. There can be no assurance that additional financing will be available to us when needed or, if available, that it can be obtained on commercially reasonable terms.

The issuance of additional equity securities by us could result in a significant dilution in the equity interests of our current stockholder. Obtaining commercial loans, assuming those loans would be available, will increase our liabilities and future cash commitments.

Results of Operations

Results of Operations for the Three Months Ended November 30, 2011 and 2010

Our operating results for the three month periods ended November 30, 2011 and 2010 and from inception to November 30, 2011 are summarized as follows:

Impairment of mineral properties	\$75,000	\$Nil	\$685,000
Professional fees	\$11,972	\$Nil	\$150,668
Management fees	\$7,500	\$2,500	\$32,500
General and administration	\$12,456	\$287	\$26,338
Net loss	\$(106,928)	\$(2,787)	\$(897,972)

We have recently changed our business plan with the change in control of our company and the option of certain mineral claims on which we intend to commence exploration activities. We do not have any revenues and have not had any revenue since inception on May 8, 2006.

Due to this change in business, we have a net loss of (\$106,928) for the three month period ended November 30, 2011 as compared to a net loss of (\$2,787) for the same period ended November 30, 2010. This loss is mainly comprised of the amount of \$75,000 for impairment of our mineral claims. For the comparable period in 2010 we did not have any

mineral claims. Due to increased operations we had an increase in professional fees from \$Nil (November 30, 2010) to \$11,972 (November 30, 2011) and a consulting contract with our sole director for \$2,500 per month resulting in an expense of \$7,500 in management fees for the three months ended November 30, 2011 as compared to \$2,500 for management fees (November 30, 2010) and we had an increase in general and administrative fees from \$287 (November 30, 2010) to \$12,456 (November 30, 2011). The increases in operational expenses are the result of the change in business of our company and the fact that our company is actively pursuing its business plan to commence exploration activities.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to stockholders.

Critical Accounting Policies

The discussion and analysis of our financial condition and results of operations are based upon our financial statements, which have been prepared in accordance with the accounting principles generally accepted in the United States of America. Preparing financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue, and expenses. These estimates and assumptions are affected by management's application of accounting policies. We believe that understanding the basis and nature of the estimates and assumptions involved with the following aspects of our financial statements is critical to an understanding of our financial statements.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date the financial statements and the reported amount of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Basic Loss Per Share

Basic loss per share has been calculated based on the weighted average number of shares of common stock outstanding during the period.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

A smaller reporting company is not required to provide the information required by this Item.

Item 4. Controls and Procedures

Management's Report on Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports filed under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our management, including our chief executive officer and chief financial officer (our principal executive officer, principal financial officer and principle accounting officer) to allow for timely decisions regarding required disclosure.

As of the end of our quarter covered by this report, we carried out an evaluation, under the supervision and with the participation of our chief executive officer and chief financial officer (our principal executive officer, principal financial officer and principle accounting officer), of the effectiveness of the design and operation of our disclosure controls and procedures. Based on the foregoing, our chief executive officer and chief financial officer (our principal executive officer, principal financial officer and principle accounting officer) concluded that our disclosure controls and procedures were not effective as of the end of the period covered by this quarterly report.

Changes in Internal Control over Financial Reporting

During the period covered by this report, there were no changes in our internal controls over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings

We know of no material, existing or pending legal proceedings against us, nor are we involved as a plaintiff in any material proceeding or pending litigation. There are no proceedings in which any of our directors, officers or affiliates, or any registered or beneficial shareholder, is an adverse party or has a material interest adverse to our company.

Item 1A. Risk Factors

As a “smaller reporting company”, we are not required to provide the information required by this Item.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On December 22, 2011 the Company issued a total of 281,294 Regulation S restricted shares pursuant to a financing agreement between the Company and an investor whereby the Company drew down \$100,000 under the terms of the agreement.

The 281,284 shares were subscribed for with the exemption from the registration requirements found in Regulation S promulgated by the Securities and Exchange Commission (the “SEC”) under the Securities Act of 1933. The offer and sale to the purchaser was made in an offshore transaction as defined by Rule 902(h). No directed selling efforts were made in the U.S. as defined in Rule 902(c). The offer and sale to the purchaser was not made to a U.S. person or for the account or benefit of a U.S. person. The following conditions were present in the offer and sale: a) The purchaser of the securities certified that it is not a U.S. person and did not acquire the shares for the account or benefit of any U.S. person; b) The purchaser has agreed to resell the securities only in compliance with Regulation S pursuant to a registration under the Securities Act, or pursuant to an applicable exemption from registration; and has agreed not to engage in hedging transactions with regard to the securities unless in compliance with the Securities Act; c) The purchaser has acknowledged and agreed with the Company that the Company shall refuse registration of any transfer of the securities unless made in accordance with Regulation S, pursuant to a registration statement under the Securities Act, or pursuant to an applicable exemption from registration and; d) The purchaser has represented that it is acquiring the shares for its own account, for investment purposes only and not with a view to any resale, distribution or other disposition of the shares in violation of the United States federal securities laws. Neither the Company nor any person acting on its behalf offered or sold these securities by any form of general solicitation or general advertising. The shares sold are restricted securities and the certificates representing these shares have been affixed with a standard restrictive legend, which states that the securities cannot be sold without registration under the Securities Act of 1933 or an exemption therefrom. No commissions or finder’s fees were paid by the Company in connection with the issuance of these shares.
