## PEOPLE'S UTAH BANCORP AND SUBSIDIARIES

## NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

Note 1 - Basis of Presentation

The interim consolidated financial statements include the accounts of People's Utah Bancorp, Inc. ("PUB" or the "Company"), together with its subsidiary banks, Bank of American Fork ("BAF") and Lewiston State Bank ("LSB") (collectively the "Banks"). All intercompany transactions and balances have been eliminated.

The accompanying unaudited interim consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles ("GAAP") for interim financial information. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial information. In the opinion of management, the interim statements reflect all adjustments necessary for a fair presentation of the financial position, results of operations and cash flows of the Company on a consolidated basis and all such adjustments are of a normal recurring nature. These financial statements and the accompanying notes should be read in conjunction with the Company's audited financial statements for the years ended December 31, 2014 and 2013. Operating results for the six months ended June 30, 2015 are not necessarily indicative of the results that may be expected for the year ending December 31, 2015 or any other period.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates. Material estimates that are particularly susceptible to significant change in the near term relate to the determination of the allowance for loan losses, the valuation of real estate acquired through foreclosure, acquired loans and deposits, deferred tax assets, goodwill, and share-based compensation.

Earnings per share - Basic earnings per common share represents income available to common shareholders divided by the weighted-average number of common shares outstanding during the period. Diluted earnings per share reflect additional common shares that would have been outstanding if dilutive potential common shares had been issued. Potential common shares includes shares that may be issued by the Company for outstanding stock options determined using the treasury stock method and for all outstanding restricted stock units ("RSU").

Earnings per common share have been computed based on the following:

|  | Three Months Ended |  | Six Months Ended |  |
| :---: | :---: | :---: | :---: | :---: |

|  | $\$ 35,202$ | $\$ 116$ | $\$(21) \$(3$ | $) \$ 35,294$ |  |  |

The amortized cost and estimated fair values of investment securities that are available-for-sale and held-to-maturity at June 30, 2015, by contractual maturity, are as follows:

Expected maturities may differ from contractual maturities because issuers may have the right to call obligations with or without penalties.

## PEOPLE'S UTAH BANCORP AND SUBSIDIARIES

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 2 - Investment Securities - Continued
As of June 30, 2015 and December 31, 2014, the Company held 128 and 141 investment securities, respectively, with fair values less than amortized cost. Management evaluated these investment securities and determined that the decline in value is temporary and related to the change in market interest rates since purchase. The decline in value is not related to any company or industry specific event. The Company anticipates full recovery of the amortized cost with respect to these securities at maturity, or sooner in the event of a more favorable market interest rate environment.

Note 3 - Loans and Allowance for Loan Losses
Loans are summarized as follows:

|  | June 30, | December 31, |
| :---: | :---: | :---: |
| (in thousands) | 2015 | 2014 |
| Loans held for investment: |  |  |

| Accruing troubled debt restructured loans | $\$ 7,722$ | $\$ 8,399$ |
| Non-accrual troubled debt restructured loans | 1,929 | 3,528 |
| Total troubled debt restructured loans | $\$ 9,651$ | $\$ 11,927$ |

A restructured loan is considered a troubled debt restructured loan ("TDR"), if the Company, for economic or legal reasons related to the debtor's financial difficulties, grants a concession in terms or a below-market interest rate to the debtor that it would not otherwise consider. Each TDR loan is separately negotiated with the borrower and includes terms and conditions that reflect the borrower's prospective ability to service the debt as modified.

Credit Quality Indicators:

## Edgar Filing: People's Utah Bancorp - Form 10-Q

In addition to past due and non-accrual criteria, the Company also analyzes loans using a loan grading system. Performance-based grading follows the Company's definitions of Pass, Special Mention, Substandard and Doubtful, which are consistent with published definitions of regulatory risk classifications.

Definitions of Pass, Special Mention, Substandard and Doubtful are summarized as follows:
Pass: A Pass asset is higher quality and does not fit any of the other categories described below. The likelihood of loss is considered remote.

Special Mention: A Special Mention asset has potential weaknesses that may be temporary or, if left uncorrected, may result in a loss. While concerns exist, the Company is currently protected and loss is considered unlikely and not imminent.

Substandard: A Substandard asset is inadequately protected by the current sound net worth and paying capacity of the obligor or of the collateral pledged, if any. Assets so classified have well defined weaknesses and are characterized by the distinct possibility that the Company may sustain some loss if deficiencies are not corrected.

Doubtful: A Doubtful asset has all the weaknesses inherent in a Substandard asset with the added characteristics that the weaknesses make collection or liquidation in full highly questionable.

PEOPLE'S UTAH BANCORP AND SUBSIDIARIES
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 3 - Loans and Allowance for Loan Losses - Continued

For Consumer loans, the Company generally assigns internal risk grades similar to those described above based on payment performance.

Outstanding loan balances (accruing and non-accruing) categorized by these credit quality indicators are summarized as follows:

June 30, 2015

PEOPLE'S UTAH BANCORP AND SUBSIDIARIES
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 3 - Loans and Allowance for Loan Losses - Continued
The interest income recognized on impaired loans was as follows:

|  | Six Months Ended <br> June 30, 2015 <br> Average Interest | Year Ended <br> December 31, 2014 <br> Average Interest |
| :--- | :--- | :--- | :--- | :--- |
|  | Recorded Income | Recorded Income |

Loans to affiliates - The Company has entered into loan transactions with certain directors and executive committee members ("affiliates"). Such transactions were made in the ordinary course of business on substantially the same terms and conditions, including interest rates and collateral, as those prevailing at the same time for comparable transactions with other customers, and did not, in the opinion of management, involve more than normal credit risk or present other unfavorable features. Total outstanding loans with affiliates were $\$ 663,000$ and $\$ 688,000$ at June 30, 2015 and December 31, 2014, respectively. Available lines of credit for loans and credit cards to affiliates were $\$ 825,000$ at June 30, 2015.

Note 4 - Income Taxes
Income tax expense was $\$ 4.9$ million and $\$ 3.8$ million for the six months ended June 30, 2015 and 2014, respectively. The Company's effective tax rate was $34.2 \%$ and $35.6 \%$ for the six months ended June 30, 2015 and 2014, respectively.

Note 5 - Commitments and Contingencies
Commitments to extend credit - In the normal course of business, the Company has outstanding commitments and contingent liabilities, such as commitments to extend credit and unused credit card lines, which are not included in the accompanying consolidated financial statements. The Company's exposure to credit loss in the event of non-performance by other parties to the financial instruments for commitments to extend credit and unused credit card lines is represented by the contractual or notional amount of those instruments. The Company uses the same credit policies in making such commitments as it does for instruments that are included in the consolidated balance sheets.

Contractual amounts of off-balance sheet financial instruments were as follows:

|  | June 30, | December 31, |
| :---: | :---: | :---: |
| (in thousands) | 2015 | 2014 |
| Commitments to extend credit, including unsecured commitments of $\$ 11,893$ and $\$ 11,357$ as of June 30, 2015 and December 31, 2014, respectively | \$342,852 | \$278,966 |
| Stand-by letters of credit and bond commitments, including unsecured commitments of \$904 and $\$ 558$ as of June 30, 2015 and December 31, 2014, respectively | 35,261 | 27,619 |
| Unused credit card lines, all unsecured | 25,894 | 26,385 |

15

## PEOPLE'S UTAH BANCORP AND SUBSIDIARIES

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 5 - Commitments and Contingencies - Continued
Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. The commitments to extend credit may expire without being drawn upon. Therefore, the total commitment amounts do not necessarily represent future cash requirements. The amount of collateral obtained, if it is deemed necessary by the Company, is based on management's credit evaluation of the customer.

Unused credit card lines are commitments for possible future extensions of credit to existing customers. These lines of credit are uncollateralized and usually do not contain a specified maturity date and may not be drawn upon to the total extent to which the Company is committed.

## Note 6 - Regulatory Capital Matters

The consolidated Tier 1 Leverage ratio increased from 11.32\% at December 31, 2014 to $14.09 \%$ as of June 30, 2015. Federal Reserve Board Regulations require maintenance of certain minimum reserve balances based on certain average deposits which as of June 30, 2015 and December 31, 2014 were $\$ 6.1$ million and $\$ 6.5$ million, respectively. The Company's Board of Directors may declare a cash or stock dividend out of retained earnings provided the regulatory minimum capital ratios are met. The Company plans to maintain capital ratios that meet the well-capitalized standards per the regulations and, therefore, plans to limit dividends to amounts that are appropriate to maintain those well-capitalized regulatory capital ratios.

## Note 7 - Shareholders' Equity

The Company completed an initial public offering in June 2015 and raised additional capital of $\$ 34.9$ million, net of underwriting discounts and offering costs. In June 2014, the Board of Directors declared and paid a semi-annual dividend of $\$ 0.08$ per share, totaling $\$ 1.2$ million. Additionally, in December 2014, the Board of Directors declared a semi-annual dividend of $\$ 0.14$ per share for $\$ 2.1$ million, which was paid in January 2015. In April 2015, the Board of Directors declared a quarterly dividend for the first quarter of 2015 of $\$ 0.06$ per share which was paid in May 2015. Subsequent to June 30, 2015, the Board of Directors declared a quarterly dividend for the second quarter of 2015 of $\$ 0.06$ per share totaling $\$ 1.0$ million, which was paid on August 14, 2015.

Note 8 - Incentive Share-Based Plan and Other Employee Benefits

In June 2014, the Board of Directors ("Board") and shareholders of the Company approved a share-based incentive plan (the "2014 Plan"). The 2014 Plan provides for various share-based incentive awards including incentive share-based options, non-qualified share-based options, restricted shares, and stock appreciation rights to be granted to officers, directors and other key employees. The maximum aggregate number of shares that may be issued under the 2014 Plan is 800,000 common shares. The share-based awards are granted to participants under both plans at a price not less than the fair value on the date of grant and for terms of up to ten years. The 2014 Plan also allows for granting of share-based awards to directors and consultants who are not employees of the Company.

On January 1, 2015, the Company granted options for the purchase of 159,240 common shares, which had an exercise price of $\$ 12.10$ per share and a fair value as of the date of grant of $\$ 2.89$ per share. The options generally vest over three years. The Company also issued Restricted Stock Units ("RSU's") for 36,522 common shares which had a fair value of $\$ 12.10$ per share and generally vest over three years. The Company recorded share-based compensation expense of $\$ 218,000$ and $\$ 78,000$ for the six months ended June 30, 2015 and 2014, respectively. Subsequent to June 30 , 2015 the Company issued 24,696 stock options and 1,764 RSU's to non-employee members of the Board of Directors. The options had an exercise price of $\$ 17.00$ per share and a fair value as of the date of grant of $\$ 2.47$ per share and the RSU's had a fair value of $\$ 17.00$ per share. The options and RSU's vest over one year.

## PEOPLE'S UTAH BANCORP AND SUBSIDIARIES

## NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

## Note 9 - Fair Value

Fair value measurements - Fair value represents the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. To measure fair value, U.S. generally accepted accounting principles has established a hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs. This hierarchy uses three levels of inputs to measure the fair value of assets and liabilities as follows:

Level Quoted prices in active markets for identical assets or liabilities.
1
Level Observable inputs other than Level 1 including quoted prices for similar assets or liabilities, quoted prices in 2 less active markets, or other observable inputs that can be corroborated by observable market data.

Level Unobservable inputs supported by little or no market activity for financial instruments whose value is 3 determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation. The following is a description of the valuation methodologies used for instruments measured at fair value, as well as the general classification of such instruments pursuant to the valuation methodology:

Investment securities, available for sale - Where quoted prices are available in an active market, securities are classified within Level 1 of the hierarchy. Level 1 includes securities that have quoted prices in an active market for identical assets. If quoted market prices are not available, then fair values are estimated using pricing models, quoted prices of securities with similar characteristics or discounted cash flows, and accordingly, are classified as Level 2 or 3. The Company has categorized its available-for-sale investment securities as Level 1 or 2.

Impaired loans and other real estate owned - Fair value applies to loans and other real estate owned measured for impairment. Impaired loans are measured at an observable market price (if available) or at the fair value of the loan's collateral (if collateral dependent). Fair value of the loan's collateral is determined by appraisals or independent valuation which is then adjusted for the cost related to liquidation of the collateral. The Company has categorized its impaired loans and other real estate owned as Level 2.

Assets measured at fair value are summarized as follows:

|  | Level | Level |  |  |
| :--- | :--- | :--- | :--- | :--- |
| (in thousands) | 1 | Level 2 | 3 | Total |
| As of June 30, 2015 |  |  |  |  |
| Fair valued on a recurring basis: <br> Investment securities available for sale | $\$ 2,033$ | $\$ 274,365$ | $\$$ | $-\$ 276,398$ |

Impaired loans - $4,009 \quad-\quad 4,009$
Other real estate owned - 126 - 126

## PEOPLE'S UTAH BANCORP AND SUBSIDIARIES

## NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

## Note 9 - Fair Value - Continued

Fair value of financial instruments - The following table summarizes carrying amounts, estimated fair values and assumptions used to estimate fair values of financial instruments:

| December 31, 2014 | Carrying <br> Value | Estimated <br> Fair Value |
| :--- | :---: | :---: |
| Financial Assets |  |  |
| Net loans held for investment | $\$ 925,306$ | $\$ 925,367$ |
| Financial Liabilities |  |  |
| Interest bearing deposits | 872,158 | 873,928 |

The fair values of financial assets and liabilities as of June 30, 2015 were not presented because the assumptions used to estimate fair values have not changed significantly from those used at December 31, 2014.

The above summary excludes financial assets and liabilities for which carrying value approximates fair value. For financial assets, these include cash and cash equivalents, held-to-maturity securities (see Note 2), loans held for sale, bank-owned life insurance, accrued interest receivable and FHLB stock. For financial liabilities, these include non-interest bearing deposits, short-term borrowings, and accrued interest payable. Also excluded from the summary are financial instruments recorded at fair value on a recurring basis, as previously described.

Fair values of off-balance sheet commitments such as lending commitments, standby letters of credit and guarantees are based on fees currently charged to enter into similar agreements, taking into account the remaining terms of the agreements and the counter parties' credit standing. The fair value of the fees as of June 30, 2015 and December 31, 2014 was insignificant.

The following methods and assumptions were used to estimate the fair value of financial instruments:
Net loans - The fair value is estimated by discounting the future cash flows and estimated prepayments using the current rates at which similar loans would be made to borrowers with similar credit ratings and for the same remaining term. Some loan types were valued at carrying value because of their floating rate or expected maturity characteristics.

Interest bearing deposits - The fair value of interest bearing deposits is estimated by discounting the estimated future cash flows using the rates currently offered for deposits with similar remaining maturities.

Fair value estimates are made at a specific point in time, based on relevant market information and information about the financial instrument. Fair value estimates are based on judgments regarding future expected loss experience, current economic conditions, risk characteristics of various financial instruments, and other factors. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and, therefore, cannot be determined with precision. Changes in the above methodologies and assumptions could significantly affect the estimates. Further, certain financial instruments and all non-financial instruments are excluded from the applicable disclosure requirements. Therefore, the fair value amounts shown in the table do not, by themselves, represent the
underlying value of the Company as a whole.

Item 2. Management's s Discussion and Analysis of Financial Condition and Results of Operations
The following discussion is intended to provide a more comprehensive review of People's Utah Bancorp's operating results and financial condition than can be obtained from reading the Consolidated Financial Statements alone. The discussion should be read in conjunction with the Consolidated Financial Statements and the notes thereto included in "Part I. Item 1. Financial Statements."

## FORWARD-LOOKING STATEMENTS

This Form 10-Q may contain certain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements reflect our current views and are not historical facts. These statements may include statements regarding projected performance for periods following the completion of this offering. These statements can generally be identified by use of phrases such as "believe," "expect," "will," "seek," "should," "anticipate," "estimate," "intend," "plan," "target," "project," "commit" or other words of similar import. Similarly, statements that describe our future financial condition, results of operations, objectives, strategies, plans, goals or future performance and business are also forward-looking statements. Statements that project future final conditions, results of operations and shareholder value are not guarantees of performance and many of the factors that will determine these results and values are beyond our ability to control or predict. For those statements, we claim the protection of the safe harbor for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995. These are forward-looking statements and involve known and unknown risks, uncertainties and other factors, including, but not limited to, those described in the "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" sections in this report and the prospectus related to our initial public offering dated June 10, 2015 (our "IPO Prospectus"), and other parts of this report that could cause our actual results to differ materially from those anticipated in these forward-looking statements. The following is a non-exclusive list of factors which could cause our actual results to differ materially from our forward-looking statements in this prospectus:
changes in general economic conditions, either nationally or in our local market;
inflation, interest rates, securities market volatility and monetary fluctuations;
increases in competitive pressures among financial institutions and businesses offering similar products and services; higher defaults on our loan portfolio than we expect;

- changes in management's estimate of the adequacy of the allowance for loan
losses;
risks associated with our growth and expansion strategy and related costs;
increased lending risks associated with our high concentration of real estate loans;
ability to successfully grow our business in Utah and neighboring states;
degislative or regulatory changes or changes in accounting principles, policies or guidelines;
technological changes;
regulatory or judicial proceedings; and
other factors and risks including those described under "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" in this report and our IPO Prospectus.
Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those anticipated, estimated, expected, projected, intended, committed or believed.

Please take into account that forward-looking statements speak only as of the date of Form 10-Q. We do not undertake any obligation to release publicly our revisions to such forward-looking statements to reflect events or circumstances after the date of this Form 10-Q.

Edgar Filing: People's Utah Bancorp - Form 10-Q

## Overview

We are a bank holding company, formed in 1998 and headquartered in American Fork, Utah, which is located on the I-15 corridor between the cities of Salt Lake City and Provo. We have 18 banking branches operated through our two wholly-owned banking subsidiaries, BAF and LSB, which began offering banking services in 1913 and 1905, respectively. We provide full-service retail banking in many of the leading population centers in the state of Utah, including a wide range of banking and related services to locally-owned businesses, professional firms, real estate developers, residential home builders, high net-worth individuals, investors and other customers. Our primary customers are small- and medium-sized businesses that require highly personalized commercial banking products and services.

We believe our recent growth is a result of our ability to attract and retain high-quality associates, add branches in attractive markets and provide good customer service, as well as due to the expansion of our construction, land acquisition and development and commercial and industrial lending. The primary source of funding for our asset growth has been the generation of core deposits, which we accomplished through a combination of competitive pricing for local deposits coupled with expansion of our branch system. In addition to the four branches from the LSB merger, we have added two new BAF branch offices since January 1, 2012.

Our results of operations are largely dependent on net interest income. Net interest income is the difference between interest income we earn on interest earning assets, which are comprised of loans, investment securities and short-term investments and the interest we pay on our interest bearing liabilities, which are primarily deposits, and, to a lesser extent, other borrowings. Deposits are our primary source of funding. Management strives to match the re-pricing characteristics of the interest earning assets and interest bearing liabilities to protect net interest income from changes in market interest rates and changes in the shape of the yield curve.

We measure our performance by calculating our net interest margin, return on average assets, and return on average equity. Net interest margin is calculated by dividing net interest income, which is the difference between interest income on interest earning assets and interest expense on interest bearing liabilities, by average interest earning assets. Net interest income is our largest source of revenue. Interest rate fluctuations, as well as changes in the amount and type of earning assets and liabilities, combine to affect net interest income. We also measure our performance by our efficiency ratio, which is calculated by dividing non-interest expense less merger-related costs by the sum of net interest income and non-interest income.

Since the recession began in the U.S. at the end of 2008, market interest rates have declined as a result of the Federal Reserve's monetary policies and have had a significant impact on our net interest income and margin. Our net interest margin has declined in the last five years from $4.63 \%$ in 2010 to $4.39 \%$ in 2014.

## LSB Merger

On October 18, 2013, we completed our acquisition of LSB. Under the terms of the merger agreement, PUB issued $2,044,736$ common shares and paid cash totaling $\$ 8.7$ million to the former shareholders of Lewiston Bancorp. Lewiston Bancorp shareholders received $\$ 9.89$ per share paid in PUB common shares and cash for an aggregate deal value of $\$ 28.9$ million. The following table provides information on the fair value of selected classifications of assets and liabilities acquired:

# Edgar Filing: People's Utah Bancorp - Form 10-Q 

| Investment securities | 54,473 |
| :--- | :--- |
| Loans receivable | 178,237 |
| Non-interest bearing deposits | 36,327 |
| Interest bearing deposits | 198,905 |

Merger of Bank Charters

BAF and LSB have applied to the FDIC and Utah Department of Financial Institutions to merge the charters of the two banks. The new amended charter will rename the combined bank People's Intermountain Bank (PIB) with BAF and LSB continuing to do business as registered names of PIB. Products and services will continue to be offered under the names of Bank of American Fork and Lewiston State Bank and we believe this merger of charters will allow the banks to improve efficiencies.

20

Key Factors in Evaluating Our Financial Condition and Results of Operations
As a bank holding company, we focus on a number of key factors in evaluating our financial condition and results of operations including:

Return on average equity;

- Return on average assets;
Asset quality;
Asset growth;
Capital and liquidity;
Net interest margin; and
Operating efficiency.
The chart below shows these key financial measures:

Year to Date
June 30, June 30,

| (Dollars in thousands except per share amounts) | 2015 | 2014 |  |
| :--- | :--- | :--- | :--- |
| Net income | $\$ 9,462$ | $\$ 6,938$ |  |
| Basic earnings per share | 0.63 | 0.47 |  |
| Diluted earnings per share | 0.61 | 0.46 |  |
| Total assets | $1,488,859$ | $1,321,237$ |  |
| Total loans, net | 985,089 | 846,101 |  |
| Total deposits | $1,274,790$ | $1,158,146$ |  |
| Net interest margin | 4.43 | $\%$ | 4.38 |
| Efficiency ratio | 60.24 | $\%$ | 65.12 |
| Return on average assets | 1.36 | $\%$ | 1.08 |
| Return on average equity | 11.46 | $\%$ | 9.38 |
| Average equity to average assets | 11.83 | $\%$ | 11.49 |
| Non-performing assets to total assets | 0.62 | $\%$ | 0.86 |
| Liquidity ratio ${ }^{(1)}$ | 32.09 | $\%$ | 33.55 |

${ }^{(1)}$ The liquidity ratio is the sum of cash equivalents and investment securities, less investment securities pledged as collateral against short-term borrowings, all divided by total liabilities. Pledged investment securities were $\$ 38.2$ million and $\$ 29.7$ million at June 30, 2015 and June 30, 2014, respectively.
Return on Average Equity. We measure the return to our shareholders through a return on average equity, or ROE, calculation. Our net income for the six months ended June 30, 2015 increased $36.4 \%$ to $\$ 9.5$ million from $\$ 6.9$ million for the comparable period in 2014. Net income for the six months ended June 30, 2015 increased primarily due to an increase to net loans from loan growth, a higher net interest margin and an increase in non-interest income. Basic earnings per share, or EPS, increased to $\$ 0.63$ for the six months ended June 30, 2015 compared to $\$ 0.47$ for the comparable period in 2014. Diluted EPS increased to $\$ 0.61$ per share for the six months ended June 30, 2015 compared to $\$ 0.46$ per share for the comparable period in 2014. Our increase in net income drove our ROE to $11.46 \%$ for the six months ended June 30, 2015 compared to $9.38 \%$ for the comparable period in 2014. Any increase in our capital may result in a lower return on equity.

Return on Average Assets. We measure asset utilization through a return on average assets, or ROA, calculation. For the six months ended June 30, 2015 our ROA was $1.36 \%$ compared to $1.08 \%$ for the six months ended June 30, 2014.

The increase in the year-to-date period in 2015 compared to the comparable period in 2014 is primarily due to higher net interest income and non-interest income and a lower effective tax rate of $34.2 \%$.

Asset Quality. Since the majority of our performing assets are loans, we measure asset quality in terms of non-performing assets as a percentage of total assets. This measurement is used in determining asset quality and its potential effect on future earnings. Non-performing assets as a percentage of total assets were $0.62 \%$ as of June 30, 2015 compared to $0.86 \%$ as of June 30,2014 . Nonperforming assets are loans that are 90 days or more past due or have been placed on nonaccrual status, or are other real estate owned, or OREO.

21

Asset Growth. Revenue growth and EPS are directly related to earning assets growth. In descending order, our earning assets are loans, investments (including federal funds) and interest earning balances. As of June 30, 2015, total assets grew $12.7 \%$ from June 30, 2014, total net loans increased by $16.4 \%$ and cash equivalents combined with investment securities increased $6.6 \%$. Loan growth in 2015 came primarily from the increased level of commercial \& industrial lending and real estate lending activities.

Capital and Liquidity. Maintaining appropriate capital and liquidity levels is imperative for us to continue our strong growth levels. We have been successful in maintaining capital levels well above the minimum regulatory requirements, which we believe has enabled our growth strategy. We raised approximately $\$ 34.9$ million in new capital from the initial public offering completed in June 2015. Our average equity to average assets ratio as of June 30,2015 was $11.83 \%$ compared to $11.49 \%$ as of June 30,2014 . We monitor liquidity levels to ensure we have adequate sources available to fund our loan growth and to accommodate daily operations. The key measure we use to monitor liquidity is our liquidity ratio which is calculated as cash and cash equivalents plus unpledged investment securities divided by total liabilities. Our liquidity ratio was $32.09 \%$ as of June 30,2015 , compared to $33.55 \%$ as of June 30,2014 . The decline in our liquidity ratio reflects a better usage of cash by funding higher loan balances.

Net Interest Margin. Net interest margin is a metric that allows us to gauge our loan pricing and funding cost relationship. For the six months ended June 30, 2015 and June 30, 2014, our net interest margin was $4.43 \%$ and $4.38 \%$, respectively. The improvement in net interest margin is attributable primarily to higher loan volumes and lower costs of interest-bearing liabilities.

Operating Efficiency. Operating efficiency is the measure of how much it costs us to generate each dollar of revenue. A lower percentage indicates a better operating efficiency. Our efficiency ratio is calculated as the sum of non-interest expense less merger related expenses divided by the sum of net interest income and non-interest income and was $60.24 \%$ for the six months ended June 30,2015 , as compared to $65.12 \%$ for the six months ended June 30 , 2014. We completed a conversion to a common information technology platform in late 2014, which contributed to an improvement in our efficiency ratio for the six-months ended in 2015 compared to the comparable period in 2014.

## Results of Operations

Factors that determine the level of net income include the volume of earning assets and interest bearing liabilities, yields earned and rates paid, fee income, non-interest expense, the level of non-performing loans and other non-earning assets, and the amount of non-interest bearing liabilities supporting earning assets. Non-interest income includes service charges and other fees on deposits, and mortgage banking income. Non-interest expense consists primarily of employee compensation and benefits, occupancy, equipment and depreciation expense, and other operating expenses.

Average Balance and Yields. The following tables set forth a summary of average balances with corresponding interest income and interest expense as well as average yield, cost and net interest margin information for the periods presented. Average balances are derived from daily balances. Average non-accrual loans are derived from quarterly balances and are included as non-interest earning assets for purposes of these tables.

| Net interest margin (tax-equivalent) ${ }^{(5)}$ |  |  | 4.47 | \% |  |  | 4.43 | \% |

${ }^{(1)}$ Excludes average unrealized gains of $\$ 2.6$ million and $\$ 378,000$ for the three months ended June 30, 2015 and 2014 , respectively and $\$ 2.2$ million and $\$ 85,000$ for the six months ended June 30, 2015 and 2014, respectively which are included in non-interest earning assets.
${ }^{(2)}$ Calculated on a fully tax equivalent basis using an assumed tax rate of $35 \%$, which includes federal tax benefits relating to income earned on municipal securities totaling $\$ 137,000$ and $\$ 153,000$ for the three months ended June 30, 2015 and 2014, respectively, and $\$ 277,000$ and $\$ 310,000$ for the six months ended June 30, 2015 and 2014, respectively.
${ }^{(3)}$ Loan interest income includes loan fees of $\$ 3.2$ million and $\$ 2.4$ million for the three months ended June 30, 2015 and 2014, respectively, and $\$ 2.1$ million and $\$ 1.6$ million for the six months ended June 30, 2015 and 2014, respectively.
${ }^{(4)}$ Average loans do not include average non-accrual loans of $\$ 7.4$ million and $\$ 10.3$ million for the three months ended June 30, 2015 and 2014, respectively, and $\$ 7.2$ million and $\$ 12.2$ million for six months ended June 30, 2015
and 2014, respectively, which are included in non-interest earning assets.
${ }^{(5)}$ Net interest margin is computed by dividing net interest income (tax-equivalent) by average interest earning assets.

24

Rate/Volume Analysis. The following table shows the change in interest income and interest expense and the amount of change attributable to variances in volume, rates and the combination of volume and rates based on the relative changes of volume and rates. For purposes of this table, the change in interest due to both volume and rate has been allocated to change due to volume and rate in proportion to the relationship of absolute dollar amounts of change in each.

| (in thousands) | Three Months Ended June 30, |  |  | Six Months Ended June 30, |  |  |

| Total interest expense | 14 | (81) | ) (67 | ) 21 | (160 | ) (139) |
| Net interest income (tax-equivalent) | \$2,009 | \$(451) | ) \$1,558 | \$3,814 | \$(896 | ) $\$ 2,918$ |

${ }^{(1)}$ Tax equivalent income calculated on a fully tax-equivalent basis using an assumed tax rate of $35 \%$.
Net interest income (tax-equivalent) increased $\$ 1.6$ million for the three months ended June 30, 2015 compared to the same period in 2014. The increase in interest income was primarily driven by increased organic loan volumes, offset by decreases in interest income from lower average rates on loans and investment securities. Additionally, interest expense also decreased for the three months ended June 30, 2015 compared to the same period in 2014 due to lower deposit interest rates, offsetting the additional interest expense resulting from deposit growth.

Net interest income (tax-equivalent) increased $\$ 2.9$ million for the six months ended June 30, 2015 compared to the same period in 2014. The increase in interest income was primarily driven by increased organic loan volumes during 2015 offset by decreases in interest income from lower average rates on loans and investment securities. Additionally, interest expense also decreased for the six months ended June 30, 2015 compared to the same period in 2014 due to lower deposit interest rates, offsetting the additional interest expense resulting from deposit growth.

| Net income | \$4,664 | \$3,061 | \$ 1,603 | 52.4 | \% |

Net Income. Our net income grew by $\$ 1.6$ million or $52.4 \%$ to $\$ 4.7$ million for the quarter ended June 30, 2015 as compared to $\$ 3.1$ million for the same quarter in 2014 . This was attributable principally to increases in net interest income of $\$ 1.6$ million, non-interest income of $\$ 315,000$ and a decline of $\$ 571,000$ in non-interest expense, offset by an increase in income tax expense of $\$ 756,000$.

Net Interest Income and Net Interest Margin. The increase in net interest income for the quarter ended June 30, 2015 compared to the same quarter in 2014 was primarily driven by interest earned on a higher volume in average interest-earning assets attributable to internal growth, offset by a slight decrease from lower yields on interest-earning assets. Interest expense in the quarter ended June 30, 2015 decreased from the same period in 2014 due to lower rates paid on deposits.

The tax-equivalent yield on our average interest earning assets was $4.70 \%$ for the quarter ended June 30, 2015 and $4.69 \%$ for the same quarter in 2014. Although we experienced a decrease in our yield on loans to $5.89 \%$ in the quarter ended June 30, 2015 from $6.03 \%$ in the quarter ended June 30, 2014 due to competitive market pressures, the income from the increased volume in loans offset the decrease in loan yield.

The cost of funding our earning assets declined in the quarter ended June 30, 2015 to $0.33 \%$ from $0.38 \%$ in the comparable quarter in 2014 because of lower rates paid on deposits and accretion of fair value adjustments to LSB certificates of deposit.

Provision for Loan Losses. The provision for loan losses in each period is a charge against earnings in that period. The provision is that amount required to maintain the allowance for loan losses at a level that, in management's judgment, is adequate to absorb loan losses inherent in the loan portfolio.

The provision for loan losses for the quarters ended June 30, 2015 and 2014 was $\$ 450,000$ and $\$ 350,000$, respectively. We have experienced improving credit quality in our loan portfolio and lower net charge-offs. The provision for loan losses in both periods was primarily due to higher loan balances.

Non-interest Income. The following table presents, for the periods indicated, the major categories of non-interest income:

|  | Three Months |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  | Ended |  |  |  |  |
|  | $\begin{aligned} & \text { June } \\ & 30 \text {, } \end{aligned}$ | $\begin{aligned} & \text { June } \\ & 30 \text {, } \end{aligned}$ |  |  |  |
|  |  |  |  |  |  |
|  |  |  | \$ | \% |  |
| (in thousands) | 2015 | 2014 | Change | Change |  |
| Service charges on deposit accounts | \$614 | \$708 | \$ (94 | (13.3 | )\% |
| Card processing | 1,066 | 1,063 | 3 | 0.3 | \% |
| Mortgage banking | 2,025 | 1,701 | 324 | 19.0 | \% |
| Other operating | 438 | 356 | 82 | 23.0 | \% |
| Total non-interest income | \$4,143 | \$3,828 | \$ 315 | 8.2 | \% |

The increase in total non-interest income during the quarter ended June 30, 2015 compared to the same quarter in 2014 was primarily influenced by higher volumes of residential mortgage loans originated and sold and the income is included in the category mortgage banking.

Non-interest Expense. The following table presents, for the periods indicated, the major categories of non-interest expense:

|  | Three Months |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  | Ended |  |  |  |  |
|  | June 30, June 30, |  | \$ | \% |  |
|  |  |  |  |  |  |
| (in thousands) | 2015 | 2014 | Change | Change |  |
| Salaries and employee benefits | \$7,308 | \$7,038 | \$ 270 | 3.8 | \% |
| Occupancy, equipment and depreciation | 955 | 892 | 63 | 7.1 | \% |
| Data processing | 848 | 772 | 76 | 9.8 | \% |
| FDIC premiums | 191 | 195 | (4 | (2.1 | )\% |
| Card processing | 534 | 564 | (30 | (5.3 | )\% |
| Other real estate owned | 40 | 312 | (272 | (87.2 | )\% |
| Marketing and advertising | 204 | 177 | 27 | 15.3 | \% |
| Merger related expenses | - | 615 | (615 | (100.0 | )\% |
| Other | 1,403 | 1,489 | (86 | (5.8 | )\% |
| Total non-interest expense | \$11,483 | \$12,054 | \$ (571 | ) (4.7 | )\% |

Non-interest expense for the second quarter 2015 decreased $\$ 571,000$ compared to the comparable period in 2014, primarily due to $\$ 615,000$ of merger-related expenses which were not recurring in 2015. Salaries and employee benefits of $\$ 7.3$ million in the quarter ended June 30, 2015 represents $63.6 \%$ of our total non-interest expense, and this category increased by $3.8 \%$ compared to the comparable quarter in 2014. This increase primarily resulted from the addition of five full-time equivalent associates hired to support our balance sheet and income growth and higher incentive payments. Other real estate owned expenses declined by $\$ 272,000$ in second quarter ended 2015 compared to same period in 2014 because of declining OREO balances.

Provision for Income Taxes. We recorded a tax provision of $\$ 2.4$ million for the quarter ended June 30, 2015 compared to $\$ 1.7$ million for the same period in 2014. Our effective tax rate was approximately $34.4 \%$ for the quarter ended June 30, 2015 and $35.6 \%$ for the same period in 2014. Any difference from the federal statutory rate in either period was primarily due to the non-taxable nature of income from municipal securities and bank-owned life insurance, tax credits and state income taxes.

Financial Overview for the Six Months Ended June 30, 2015 and 2014

Six Months Ended
June 30,

|  |  |  | $\$$ | $\%$ |  |
| :--- | :--- | :--- | :--- | :--- | :--- |
| (in thousands) | 2015 | 2014 | Change | Change |  |
| Interest income | $\$ 30,902$ | $\$ 28,090$ | $\$ 2,812$ | 10.0 | $\%$ |
| Interest expense | 1,500 | 1,639 | $(139$ | $)$ | $(8.5$ |

Edgar Filing: People's Utah Bancorp - Form 10-Q

| Net interest income after provision for loan losses | 28,802 | 25,951 | 2,851 | 11.0 | $\%$ |
| :--- | :--- | :--- | :--- | :--- | :--- |
| Non-interest income | 8,287 | 7,645 | 642 | 8.4 | $\%$ |
| Non-interest expense | 22,702 | 22,820 | $(118$ | $)$ | $(0.5$ |
| $)$ | 14,387 | 10,776 | 3,611 | 33.5 | $\%$ |
| Income before income tax expense | 4,925 | 3,838 | 1,087 | 28.3 | $\%$ |
| Income tax expense | $\$ 9,462$ | $\$ 6,938$ | $\$ 2,524$ | 36.4 | $\%$ |

Net Income. Our net income grew by $\$ 2.5$ million to $\$ 9.5$ million for the six months ended June 30, 2015 as compared to $\$ 6.9$ million for the same period in 2014. This was attributable principally to increases in net interest income of $\$ 3.0$ million and non-interest income of $\$ 642,000$, a decline of $\$ 118,000$ in non-interest expenses, offset by a $\$ 1.1$ million increase in income tax expense.

Net Interest Income and Net Interest Margin. The increase in net interest income for the six months ended 2015 was primarily driven by interest earned on a higher volume in interest-earning assets attributable to internal growth. Interest expense for the first six months of 2015 was slightly lower than the same period in 2014 due to lower deposit rates.

The tax-equivalent yield on our average interest earning assets was $4.70 \%$ for the six month periods ended 2015 and 2014. Although we experienced a decrease in our yield on loans to $5.90 \%$ in the six months ended June 30, 2015 from $6.05 \%$ in the six month period ended June 30, 2014 due to competitive market pressures, the income from the increased volume in loans offset the decrease in loan yield.

27

The cost of funding our earning assets declined from $0.39 \%$ in 2014 to $0.34 \%$ in 2015 because of lower rates paid on deposits and accretion of fair value adjustments to LSB certificates of deposit.

Provision for Loan Losses. The provision for loan losses in each period is a charge against earnings in that period. The provision is that amount required to maintain the allowance for loan losses at a level that, in management's judgment, is adequate to absorb loan losses inherent in the loan portfolio.

The provision for loan losses for the first six months of 2015 was $\$ 600,000$ compared to $\$ 500,000$ for the same period in 2014. We experienced lower net loan charge-offs in the first six months of 2015 of $\$ 96,000$ compared to net loans charged-off of $\$ 515,000$ in the same period in 2014. The increase in the year-to-date provision for loan losses in 2015 compared to year-to-date 2014 is primarily due to higher loan balances.

Non-interest Income. The following table presents, for the periods indicated, the major categories of non-interest income:

## Six Months <br> Ended

June 30,

|  |  |  | \$ <br> Change | \% |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
| (in thousands) | 2015 | 2014 |  | Change |  |
| Service charges on deposit accounts | \$1,257 | \$1,413 | \$ (156 | (11.0 | )\% |
| Card processing | 2,068 | 2,059 | 9 | 0.4 | \% |
| Mortgage banking | 3,797 | 3,035 | 762 | 25.1 | \% |
| Other operating | 1,165 | 1,138 | 27 | 2.4 | \% |
| Total non-interest income | \$8,287 | \$7,645 | \$ 642 | 8.4 | \% |

The increase in total non-interest income during the six months ended June 30, 2015 compared to the same period in 2014 was primarily influenced by higher volumes of residential mortgage loans originated and sold and the income is included in the category mortgage banking. We cannot assure you that growth in residential mortgage loans will continue in future periods because the mortgage banking business has historically been a cyclical business.

Non-interest Expense. The following table presents, for the periods indicated, the major categories of non-interest expense:

Six Months Ended

June 30,
$\left.\begin{array}{llllll} & & & \$ & \% \\ \text { (in thousands) } & 2015 & 2014 & \text { Change } & \text { Change } \\ \text { Salaries and employee benefits } & \$ 14,502 & \$ 13,744 & \$ 758 & 5.5 & \% \\ \text { Occupancy, equipment and depreciation } & 1,945 & 1,861 & 84 & 4.5 & \% \\ \text { Data processing } & 1,537 & 1,545 & (8 & ) & (0.5 \\ \text { FDIC premiums } & 378 & 407 & (29 & ) & (7.1\end{array}\right) \%$

Edgar Filing: People's Utah Bancorp - Form 10-Q

| Card processing | 1,004 | 1,066 | $(62$ | $)$ | $(5.8$ | $) \%$ |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- |
| Other real estate owned | 57 | 318 | $(261$ | $)$ | $(82.1$ | $) \%$ |
| Marketing and advertising | 377 | 383 | $(6$ | $)$ | $(1.6$ | $) \%$ |
| Merger related expenses | - | 615 | $(615$ | $)$ | $(100.0) \%$ |  |
| Other | 2,902 | 2,881 | 21 | 0.7 | $\%$ |  |
| Total non-interest expense | $\$ 22,702$ | $\$ 22,820$ | $\$(118$ | $)$ | $(0.5$ | $) \%$ |

Salaries and employee benefits of $\$ 14.5$ million in the first six months of 2015 represents $63.9 \%$ of our total non-interest expense, an increase of $5.5 \%$ compared to the same period in 2014. This increase primarily resulted from an increase of 4 full-time equivalent new associates hired to support our balance sheet and income growth and higher incentive payments. Merger-related expenses in 2014 are primarily costs of terminating the information technology contracts with the previous LSB data processing provider.

Provision for Income Taxes. We recorded tax provisions of $\$ 4.9$ million for the first half of 2015 compared to $\$ 3.8$ million for the same period in 2014. Our effective tax rate was approximately $34.2 \%$ for the first half of 2015 and $35.6 \%$ for the same period in 2014. Any difference from the federal statutory rate in either period was primarily due to the non-taxable nature of income from municipal securities and bank-owned life insurance, tax credits and state income taxes.

28

Financial Condition
Our total assets as of June 30, 2015 were $\$ 1.49$ billion, an increase of $8.9 \%$ compared to December 31, 2014. Our total net loans as of June 30, 2015 were $\$ 985.1$ million, an increase of $5.1 \%$ from December 31, 2014. Total deposits as of June 30, 2015 were $\$ 1.27$ billion, an increase of $6.3 \%$ compared to December 31, 2014.

Loans
The following table sets forth information regarding the composition of the loan portfolio at the end of each of the periods presented.

|  | June 30, | December <br> 31, |
| :--- | :--- | :--- |
|  |  |  |
| (Dollars in thousands) | 2015 | 2014 |
| Loans held for sale | $\$ 9,322$ | $\$ 12,272$ |
| Loans held for investment: |  |  |
| Commercial real estate loans: | 539,486 | 521,536 |
| Real estate term | 163,689 | 155,117 |
| Construction and land development | 103,175 | 676,653 |
| Total commercial real estate loans | 705,787 | 178,116 |
| Commercial and industrial |  |  |
| Consumer loans: | 70,463 | 73,515 |
| Residential and home equity | 15,619 | 15,421 |
| Consumer and other | 86,082 | 88,936 |
| Total consumer loans | 995,044 | 943,705 |
| Total loans held for investment | $(3,622$ | $(3,248 \quad)$ |

| (Percentage of total loans held for investment) | 2015 | 2014 |  |  |
| Loans held for investment: |  |  |  |  |
| Commercial real estate loans: | 54.2 | $\%$ | 55.3 | $\%$ |
| Real estate term | 16.5 | $\%$ | 16.4 | $\%$ |
| Construction and land development | 70.7 | $\%$ | 71.7 | $\%$ |
| Total commercial real estate loans | 20.7 | $\%$ | 18.9 | $\%$ |
| Commercial and industrial |  |  |  |  |
| Consumer loans: | 7.1 | $\%$ | 7.8 | $\%$ |
| Residential and home equity | 1.6 | $\%$ | 1.6 | $\%$ |
| Consumer and other | 8.7 | $\%$ | 9.4 | $\%$ |

Total loans held for investment $\quad 100.0 \% \quad 100.0 \quad \%$

We originate certain residential mortgage loans for sale to investors that are carried at cost. Due to the short period held, generally less than 90 days, we consider these loans held for sale to be carried at fair value.

The following tables show the amounts of outstanding loans, which, based on remaining scheduled repayments of principal, were due in one year or less, more than one year through five years, and more than five years. Lines of credit or other loans having no stated maturity and no stated schedule of repayments are reported as due in one year or less. In the table below, loans are classified as real estate related if they are collateralized by real estate. The tables also present, for loans with maturities over one year, an analysis with respect to fixed interest rate loans and adjustable interest rate loans.

Contractual maturities as of June 30, 2015 are as follows:

Rate Structure for
Loans Maturing Over

${ }^{(1)}$ The sum of adjustable rate loans maturing after one year and total loans maturing within one year is $\$ 677$ million or $68 \%$ of total loans at June 30, 2015.
Concentrations. As of June 30, 2015, in management's judgment, a concentration of loans existed in real estate-related loans. At that date, real estate related loans comprised $77.8 \%$ of total loans held for investment, of which commercial real estate represents $54.2 \%, 16.5 \%$ are construction and land development loans, and $7.1 \%$ are residential and home equity loans. We require collateral on real estate lending arrangements and typically maintain loan-to-value ratios of no greater than $80 \%$.

Non-Performing Assets. Loans are placed on non-accrual status when they become 90 days or more past due or at such earlier time as management determines timely recognition of interest to be in doubt. Accrual of interest is discontinued on a loan when management believes, after considering economic and business conditions, collection efforts, and the borrower's financial condition, that the borrower will be unable to make payments as they become due. When interest accrual is discontinued, all unpaid accrued interest is reversed. Interest income is subsequently recognized only to the extent cash payments are received, or payment is considered certain. Loans may be returned to accrual status when all delinquent interest and principal amounts contractually due are brought current and future payments are reasonably assured.

The following table summarizes the loans for which the accrual of interest has been discontinued and loans more than 90 days past due and still accruing interest, including those non-accrual loans that are troubled-debt restructured loans, and OREO:

|  | $\begin{aligned} & \text { June } \\ & 30 \text {, } \end{aligned}$ | December 31, |
| :---: | :---: | :---: |
| (Dollars in thousands) | 2015 | 2014 |
| Non-accrual loans, not troubled-debt restructured |  |  |
| Real estate term | \$5,241 | \$ 1,465 |
| Construction and land development | 355 | 578 |
| Commercial and industrial | 979 | 1,787 |
| Residential and home equity | 158 | 428 |
| Consumer and other | 4 | 63 |
| Total non-accrual, not troubled-debt restructured loans | 6,737 | 4,321 |
| Troubled-debt restructured loans - non-accrual |  |  |
| Real estate term | 1,067 | 1,106 |
| Construction and land development | 839 | 933 |
| Commercial and industrial | 23 | 1,200 |
| Residential and home equity | - | 289 |
| Consumer and other | - | - |
| Total troubled-debt restructured, non-accrual loans | 1,929 | 3,528 |
| Total non-accrual loans ${ }^{(1)}$ | 8,666 | 7,849 |
| Accruing loans past due 90 days or more | 9 | 15 |
| Total non-performing loans (NPL) | 8,675 | 7,864 |
| OREO | 615 | 1,673 |
| Total non-performing assets (NPA) ${ }^{(2)}$ | \$9,290 | \$ 9,537 |
| Accruing troubled debt restructured loans | \$7,722 | \$8,399 |
| Non-accrual troubled debt restructured loans | 1,929 | 3,528 |
| Total troubled debt restructured loans | \$9,651 | \$ 11,927 |
| Selected ratios |  |  |
| NPL to total loans | 0.88 | \% 0.84 |
| NPA to total assets | 0.62 | 0.70 |

${ }^{(1)}$ We estimate that approximately $\$ 235,000$ and $\$ 658,000$ of interest income would have been recognized on loans accounted for on a non-accrual basis for the six months ended June 30, 2015 and the year ended December 31, 2014, respectively, had such loans performed pursuant to contractual terms.
${ }^{(2)}$ As of June 30, 2015 and December 31, 2014, non-performing assets had not been reduced by U.S. government guarantees of $\$ 45,000$ and $\$ 1.1$ million, respectively.
Impaired Loans. Impaired loans are loans for which it is probable that we will be unable to collect all principal and interest payments due according to the contractual terms of the loan agreement. We measure impairment based on the present value of expected future cash flows discounted at the loan's effective interest rate, the loan's observable market price, or the fair value of the collateral, if the loan is collateral-dependent.

In determining whether or not a loan is impaired, we consider payment status, collateral value and the probability of collecting scheduled principal and interest payments when due. Loans that experience insignificant payment delays
and payment shortfalls generally are not classified as impaired. We determine the significance of payment delays and payment shortfalls on a case-by-case basis, taking into consideration all the circumstances surrounding the loan and borrower, including the length of delay, the reasons for the delay, the borrower's prior payment record and the amount of the shortfall in relation to the principal and interest owed. Loans for which an insignificant shortfall in amount of payments is anticipated, but where we expect to collect all amounts due, are not considered impaired.

Troubled-debt Restructured Loans. A restructured loan is considered a troubled debt restructured loan, or TDR, if we, for economic or legal reasons related to the debtor's financial difficulties, grant a concession in terms or a below-market interest rate to the debtor that we would not otherwise consider. We had TDR loans of $\$ 9.7$ million and $\$ 11.9$ million as of June 30, 2015 and December 31, 2014, respectively. Our TDR loans are considered impaired loans of which $\$ 1.9$ million and $\$ 3.5$ million as of June 30, 2015 and December 31, 2014, respectively, are designated as non-accrual.

Each restructured debt is separately negotiated with the borrower and includes terms and conditions that reflect the borrower's prospective ability to service the debt as modified.

OREO Properties. OREO represents real property taken either through foreclosure or through a deed in lieu thereof from the borrower. All OREO properties are recorded by us at amounts equal to or less than the fair market value of the properties based on current independent appraisals reduced by estimated selling costs. The following table provides a summary of the changes in the OREO balance:

|  | Six Months <br> Ended <br> June <br> 30, | June <br> 30, |
| :--- | :--- | :--- |
|  | 2015 | 2014 |
| (in thousands) | $\$ 1,673$ | $\$ 4,092$ |
| Balance, beginning of period | 7 | 242 |
| Additions | - | $(452)$ |
| Write-downs | $(1,065)$ | $(1,808)$ |
| Sales | $\$ 615$ | $\$ 2,074$ |

## Allowance for Loan Losses

We maintain an adequate allowance for loan losses, or ALLL, based on a comprehensive methodology that assesses the losses inherent in the loan portfolio. Our ALLL is based on a continuing review of loans which includes consideration of actual loss experience, changes in the size and character of the portfolio, identification of individual problem situations which may affect the borrower's ability to repay, evaluations of the prevailing and anticipated economic conditions, and other qualitative factors. This evaluation is inherently subjective, as it requires estimates that are susceptible to significant revision, as more information becomes available.

Our ALLL is increased by charges to income and decreased by charge-offs (net of recoveries). While we use available information to recognize losses on loans, changes in economic conditions may necessitate revision of the estimate in future years.

The ALLL consists of specific and general components. The specific component relates to loans determined to be impaired that are individually evaluated for impairment. For impaired loans individually evaluated, an allowance is established when the discounted cash flows, or the fair value of the collateral if the loans are collateral-dependent, of the impaired loan are lower than the carrying value of the loan. The general component covers all loans not
individually evaluated for impairment and is based on historical loss experience adjusted for qualitative factors. Various qualitative factors are considered including changes to underwriting policies, loan concentrations, volume and mix of loans, size and complexity of individual credits, locations of credits and new market areas, changes in local and national economic conditions, and trends in past due, non-accrual and classified loan balances.

32

The following table sets forth the activity in our allowance for loan losses for the periods indicated:

|  | Three Mont |  | Ended |  | Six Months | En | ded |  |

| Non-performing loans | 8,675 |  | 9,277 |  | 8,675 |  | 9,277 |  |
| Selected ratios: |  |  |  |  |  |  |  |  |
| Net charge-offs to average loans | 0.04 | \% |  | \% | 0.02 |  |  | \% |
| Provision for loan losses to average loans | 0.18 | \% | 0.17 | \% | 0.13 |  | 0.12 | \% |
| Allowance for loan losses to loans outstanding at end of period | 1.56 | \% | 1.66 | \% | 1.56 |  | 1.66 |  |

The decrease in ALLL as a percentage to total loans from 2014 to 2015 is attributable to overall improvement in the credit quality of the underlying loan portfolio, which remained rather unchanged as of June 30, 2015.

Our construction and land development portfolio reflects some borrower concentration risk, and also carries the enhanced risks encountered with construction loans generally. We also finance contractors on a speculative basis. Construction and land development loans are generally more risky than permanent mortgage loans because they are dependent upon the borrower's ability to generate cash to service the loan, and the value of the collateral depends on project completion when market conditions may have changed.

Our commercial real estate loans are a mixture of new and seasoned properties, retail, office, warehouse, and some industrial properties. Loans on properties are usually underwritten at a loan to value ratio of less than $75 \%$ with a minimum debt coverage ratio of 1.25 times.

We allocate our allowance for loan losses by assigning general percentages to our major loan categories (construction and land development, commercial real estate term, residential real estate, C\&I and consumer), assigning specific percentages to each category of loans graded in accordance with the guidelines established by our regulatory agencies, and making specific allocations to impaired loans when factors are present requiring a greater reserve than would be required using the assigned risk rating allocation, which is typically based on a review of appraisals or other collateral analysis.

The following table indicates management's allocation of the allowance and the percent of loans in each category to total loans as of each of the following dates:

Allocation of the Allowance:

|  | June 30, | December <br> 31, |
| :--- | :---: | :--- |
| (in thousands) | 2015 | 2014 |

| Commercial and industrial | 20.7 \% | 18.9 \% |
| Consumer loans: |  |  |
| Residential and home equity | 7.1 \% | 7.8 \% |
| Consumer and other | 1.6 \% | 1.6 \% |
| Total consumer loans | 8.7 \% | 9.4 \% |
| Total | 100.0\% | 100.0 \% |

## Investments

The carrying value of our investment securities totaled $\$ 314.2$ million as of June 30, 2015 and $\$ 330.8$ million as of December 31, 2014. Our portfolio of investment securities is comprised of both available-for-sale securities and securities that we intend to hold to maturity. As of June 30, 2015, we held no investment securities from any issuer which totaled over $10 \%$ of our shareholders' equity.

The carrying value of our portfolio of investment securities was as follows:
$\left.\begin{array}{lll} & & \text { December } \\ & \text { June 30, } & 31,\end{array}\right]$

The following table show the amortized cost for maturities of investment securities and the weighted average yields of such securities, including the benefit of tax-exempt securities:

Investment securities maturities as of June 30, 2015:

| Other securities | - | - \% | 2,232 | 1.04\% | - | - \% | - | \% | 2,232 | 1.04\% |
| Total | 4,988 | 2.02\% | 21,699 | 2.18\% | 11,112 | 2.76\% | - | - \% | 37,799 | 2.33\% |
| Total investment securities | \$16,067 | 2.75\% | \$91,094 | 2.01\% | \$69,224 | 2.00\% | \$136,525 | 1.76\% | \$312,910 | 1.94\% |

Expected maturities may differ from contractual maturities because issuers may have the right to call obligations with or without penalties.

We evaluate securities for other-than-temporary impairment at least on an annual basis, and more frequently when economic or market concerns warrant such evaluation. Consideration is given to (1) the length of time and the extent to which the fair value has been less than cost, (2) the financial condition and near-term prospects of the issuer, and (3) our intent and ability to retain our investment in the issuer for a period of time sufficient to allow for any anticipated recovery in fair value.

Deposits
Total deposits were $\$ 1.27$ billion as of June 30, 2015 and $\$ 1.20$ billion as of December 31, 2014. The increase in total deposits is attributed primarily to our growth in existing markets and entering into new markets. Non-interest bearing demand deposits increased to $\$ 388.0$ million, or $30.4 \%$ of total deposits as of June 30 , 2015, from $27.3 \%$ as of December 31, 2014. Interest bearing deposits are comprised of money market accounts, regular savings accounts, certificates of deposit of under $\$ 100,000$ and certificates of deposit of $\$ 100,000$ or more.

The following table shows the average amount and average rate paid on the categories of deposits for each of the periods presented:

|  | Year to Date June 30, 2015 |  |  | December 31, 2014 |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Average | Average |  | Average | Average |  |
| (Dollars in thousands) | Balance | Rate |  | Balance | Rate |  |
| Non-interest bearing deposits | \$347,182 | - |  | \$309,225 | - |  |
| Interest bearing deposits: |  |  |  |  |  |  |
| Interest bearing demand and savings | 548,372 | 0.28 | \% | 513,241 | 0.29 | \% |
| Money market | 139,372 | 0.23 | \% | 137,829 | 0.23 | \% |
| Certificates of deposit under \$100,000 | 109,697 | 0.43 | \% | 115,103 | 0.51 | \% |
| Certificates of deposit \$100,000 and over | 86,155 | 0.82 | \% | 91,878 | 0.94 | \% |
| Total interest bearing deposits | 883,596 | 0.34 | \% | 858,051 | 0.38 | \% |
| Total | \$1,230,778 |  |  | \$1,167,276 |  |  |

Additionally, the following table shows the maturities of CDs of $\$ 100,000$ or more:

June 30,

| (in thousands) | 2015 |
| :--- | :---: |
| Due in three months or less | $\$ 7,375$ |
| Due in over three months through six months | 7,069 |
| Due in over six months through twelve months | 16,357 |
| Due in over twelve months | 50,463 |
| Total | $\$ 81,264$ |

Deposits are gathered from individuals, partnerships and corporations in our market areas. The interest rates paid are competitively priced for each particular deposit product and structured to meet our funding requirements. We will continue to manage interest expense through deposit pricing.

## Shareholders' Equity

As of June 30, 2015, our shareholders' equity totaled $\$ 201.6$ million, an increase of $\$ 43.9$ million or $27.9 \%$ since December 31, 2014. The increase in shareholders' equity for the six month period ended June 30, 2015 was primarily due to the sale of common shares in the initial public offering in June 2015 which provided $\$ 34.9$ million in capital, net of offering costs and from net income of $\$ 9.5$ million for the six month period.

We began paying quarterly dividends in 2015 with the dividend being declared after the end of each quarter. A quarterly dividend of $\$ 0.06$ per share was declared in April 2015 representing $18.5 \%$ of the net income for the quarter ended March 31, 2015. Another quarterly dividend of $\$ 0.06$ per share was declared in July 2015 representing 22.5\% of the net income for the quarter ended June 30, 2015. Future cash dividends will depend on a variety of factors, including net income, capital, asset quality, general economic conditions and regulatory considerations.

## Capital Resources

Prior to January 2015, risk-based regulatory capital standards generally required banks and bank holding companies to maintain a minimum ratio of "core" or "Tier I" capital (consisting principally of common equity) to risk-weighted assets of at least $4 \%$, a ratio of Tier I capital to adjusted total assets (leverage ratio) of at least $4 \%$ and a ratio of total capital (which includes Tier I capital plus certain forms of subordinated debt, a portion of the allowance for loan losses and preferred stock) to risk-weighted assets of at least $8 \%$. Risk-weighted assets were calculated by multiplying the balance in each category of assets by a risk factor, which ranges from zero for cash assets and certain government obligations to $100 \%$ for some types of loans, and adding the products together.

Since January 2015, we have been subject to new risk-based capital adequacy guidelines related to the adoption of U.S. Basel III Capital Rules which impose higher risk-based capital and leverage requirements than those previously in place. Specifically, the rules impose, among other requirements, new minimum capital requirements including a Tier 1 leverage capital ratio of $4.0 \%$, a new common equity Tier 1 risk-based capital ratio of $4.5 \%$, a Tier 1 risk-based capital ratio of $6 \%$ and a total risk-based capital ratio of $8 \%$. Since we only have common equity, our common equity Tier 1 risk-based capital ratio and our Tier 1 risk-based capital ratio are the same. Therefore, we only disclose our Tier 1 risk-based capital ratio since it has a higher required ratio for minimum and well-capitalized banks.

The following table sets forth our capital ratios.
$\left.\begin{array}{llllll} & \begin{array}{l}\text { Base/III } \\ \text { Regulatory }\end{array} & \begin{array}{l}\text { Previous } \\ \text { Regulatory }\end{array} & \text { PUB } & & \\ & \text { Requirements } & \text { Requirements - } & & & \\ & \text { Well } & \text { Well } \\ \text { Capitalized } & \text { Capitalized }\end{array}\right)$

PUB and both Banks were well-capitalized as of June 30, 2015, December 31, 2014 and June 30, 2014 for federal regulatory purposes.

36

## Off-Balance Sheet Arrangements

The following table sets forth our other off-balance sheet lending commitments as of June 30, 2015:

|  | Total | Amount of Commitment Expiration PerPeriod |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  | One to | Three to | After |
|  | Amounts | Less than | Three | Five | Five |
| Other Commitments (in thousands) | Committed | One Year | Years | Years | Years |
| Commitments to extend credit | \$ 342,852 | \$234,732 | \$51,460 | \$19,045 | \$37,615 |
| Standby letters of credit | 35,261 | 35,261 | - | - | - |
| Credit cards | 25,894 | 25,894 | - | - | - |
| Total | \$ 404,007 | \$295,887 | \$51,460 | \$19,045 | \$37,615 |

## Contractual Obligations

The following table sets forth our significant contractual obligation as of June 30, 2015:

|  |  | Payments Due by Period <br> One to |  |  |  |  |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- |
|  |  |  | Three to | After |  |  |

|  |  |  |  |  |  |  |
| Contractual Obligations (in thousands) | Total | One Year | Years | Years | Years |  |
| Time certificates of deposit | $\$ 187,497$ | $\$ 93,875$ | $\$ 65,476$ | $\$ 25,571$ | $\$ 2,575$ |  |
| Deposits without stated maturity | $1,087,293$ | $1,087,293$ | - | - | - |  |
| Short-term borrowings | 2,334 | 2,334 | - | - | - |  |
| Total | $\$ 1,277,124$ | $\$ 1,183,502$ | $\$ 65,476$ | $\$ 25,571$ | $\$ 2,575$ |  |

## Liquidity

The ability to have readily available funds sufficient to repay fully maturing liabilities is of primary importance to depositors, creditors and regulators. Our liquidity, represented by cash borrowing lines, federal funds and available-for-sale securities, is a result of our operating, investing and financing activities and related cash flows. In order to ensure funds are available at all times, we devote resources to projecting on a monthly basis the amount of funds that will be required and we maintain relationships with a diversified customer base so funds are accessible. Liquidity requirements can also be met through short-term borrowings or the disposition of short-term assets. We have
borrowing lines at correspondent banks totaling $\$ 29.0$ million. In addition, we have current borrowing lines with the FHLB, totaling $\$ 254.5$ million as of June 30, 2015, which are secured by various real estate loans pledged as collateral totaling $\$ 407.2$ million.

We believe our liquid assets are adequate to meet our cash flow needs for loan funding and deposit cash withdrawal for the next 60 to 90 days. As of June 30, 2015, we had approximately $\$ 422.8$ million in liquid assets comprised of $\$ 137.1$ million in cash and cash equivalents, including interest bearing deposits of $\$ 113.5$ million and federal funds sold of $\$ 5.1$ million, $\$ 276.4$ million in available-for-sale securities and $\$ 9.3$ million in loans held for sale, less $\$ 38.2$ million pledged as collateral for short-term borrowings. We monitor liquidity measured by a liquidity ratio defined as cash and cash equivalents plus unpledged investment securities divided by total liabilities. Our liquidity ratio was $32.09 \%$ as of June 30, 2015 compared to $28.84 \%$ as of December 31, 2014. The liquidity ratio in 2015 was impacted by the additional cash received from our initial public offering.

On a long term basis, our liquidity will be met by changing the relative distribution of our asset portfolios by reducing our investment or loan volumes, or selling or encumbering assets. Further, we will increase liquidity by soliciting higher levels of deposit accounts through promotional activities and/or borrowing from our correspondent banks as well as the FHLB. At the current time, our long-term liquidity needs primarily relate to funds required to support loan originations and commitments and deposit withdrawals. All of these needs can currently be met by cash flows from investment payments and maturities, and investment sales if the need arises.

Our liquidity is comprised of three primary classifications: cash flows from or used in operating activities; cash flows from or used in investing activities; and cash flows from or used in financing activities.

Net cash provided by or used in operating activities has consisted primarily of net income adjusted for certain non-cash income and expense items such as the loan loss provision, investment and other amortization and depreciation.

Our primary investing activities are the origination of real estate, commercial and consumer loans and purchases and sales of investment securities. As of June 30, 2015 we had outstanding loan commitments of $\$ 368.7$ million and outstanding letters of credit of $\$ 35.3$ million. We anticipate that we will have sufficient funds available to meet current loan commitments.

Net cash provided by financing activities has been impacted significantly by higher deposit levels. During the six months ended June 30, 2015, deposits increased $\$ 75.6$ million.

Item 3. Quantitative and Qualitative Disclosures about Market Risk
The Company's assessment of market risk as of June 30, 2015 indicates there are no material changes in the quantitative and qualitative disclosures from those in the Registration Statement filed with the SEC in June 2015.

Item 4. Controls and Procedures
Evaluation of Disclosure Controls and Procedures
The Company's Chief Executive Officer and Chief Financial Officer have reviewed and evaluated the effectiveness of the Company's disclosure controls and procedures (as required by Exchange Act Rules 240.13a-15(b) and 15d-14(a)) as of June 30, 2015. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that the Company's current disclosure controls and procedures are effective and timely, providing them with material information relating to the Company required to be disclosed in the reports the Company files or submits under the Exchange Act.

Changes in Internal Controls
There have not been any changes in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the second quarter 2015, to which this report relates that have materially affected, or are reasonably likely to materially affect the Company's internal control over financial reporting.

## PART II - OTHER INFORMATION

Item 1. Legal Proceedings
The Company is involved in various claims, legal actions and complaints which arise in the ordinary course of business. In the Company's opinion, all such matters are adequately covered by insurance, are without merit or are of
such kind, or involve such amounts, that unfavorable disposition would not have a material adverse effect on the financial condition or results of operations of the Company.

Item 1A. Risk Factors

There have been no material changes in our assessment of our risk factors from those set forth in the Registration Statement.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Use of Proceeds from Initial Public Offering - On June 11, 2015 the SEC declared effective our registration statement on Form S-1 registering common shares of the Company. On June 16, 2015, the Company completed the initial public offering of $2,657,000$ common shares. Additionally, 218,000 common shares were sold by certain selling shareholders. The Company received net proceeds of $\$ 34.9$ million from the offering, after deducting the underwriting discounts and offering expenses. The Company did not receive any proceeds from the sale of shares by the selling shareholders.

There has been no material change in the planned use of proceeds from our initial public offering as described in our final prospectus filed with the SEC on June 11, 2015 pursuant to Rule 424(b).

Item 3. Defaults upon Senior Securities
