QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2018

Or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from to

Commission file number:
001-36299

Ladder Capital Corp
(Exact name of registrant as specified in its charter)

Delaware (State or other jurisdiction of incorporation or organization)	80-0925494 (IRS Employer Identification No.)
---	--

345 Park Avenue, New York (Address of principal executive offices)	10154 (Zip Code)
---	---------------------

(212) 715-3170
(Registrant’s telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Edgar Filing: Ladder Capital Corp - Form 10-Q

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of “large accelerated filer,” “accelerated filer,” “smaller reporting company” and “emerging growth company” in Rule 12b-2 of the Exchange Act:

Large accelerated filer Accelerated filer

Non-accelerated filer Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act):
Yes No

Indicate the number of shares outstanding of each of the registrant’s classes of common stock, as of the latest practicable date.

Class	Outstanding at October 31, 2018
Class A Common Stock, \$0.001 par value	98,141,899
Class B Common Stock, \$0.001 par value	13,117,419

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q (this “Quarterly Report”) includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”), and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). All statements other than statements of historical fact contained in this Quarterly Report, including statements regarding our future results of operations and financial position, strategy and plans, and our expectations for future operations, are forward-looking statements. The words “anticipate,” “estimate,” “expect,” “project,” “plan,” “intend,” “believe,” “may,” “might,” “will,” “should,” “can have,” “likely” and other words and terms of similar expressions are intended to identify forward-looking statements.

We have based these forward-looking statements largely on our current expectations and projections about future events and trends that we believe may affect our financial condition, results of operations, strategy, short-term and long-term business operations and objectives and financial needs. Although we believe that the expectations reflected in our forward-looking statements are reasonable, actual results could differ from those expressed in our forward-looking statements. Our future financial position and results of operations, as well as any forward-looking statements are subject to change and inherent risks and uncertainties. You should consider our forward-looking statements in light of a number of factors that may cause actual results to vary from our forward-looking statements including, but not limited to:

risks discussed under the heading “Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2017 (“Annual Report”), as well as our consolidated financial statements, related notes, and the other financial information appearing elsewhere in this Quarterly Report and our other filings with the United States Securities and Exchange Commission (“SEC”);

- changes in general economic conditions, in our industry and in the commercial finance and the real estate markets;
- changes to our business and investment strategy;
- our ability to obtain and maintain financing arrangements;
- the financing and advance rates for our assets;
- our actual and expected leverage and liquidity;
- the adequacy of collateral securing our loan portfolio and a decline in the fair value of our assets;
- interest rate mismatches between our assets and our borrowings used to fund such investments;
- changes in interest rates and the market value of our assets;
- changes in prepayment rates on our mortgages and the loans underlying our mortgage-backed and other asset-backed securities;
- the effects of hedging instruments and the degree to which our hedging strategies may or may not protect us from interest rate and credit risk volatility;
- the increased rate of default or decreased recovery rates on our assets;
- the adequacy of our policies, procedures and systems for managing risk effectively;
- a potential downgrade in the credit ratings assigned to our investments;
- our compliance with, and the impact of and changes in, governmental regulations, tax laws and rates, accounting guidance and similar matters;
- our ability to maintain our qualification as a real estate investment trust (“REIT”) for U.S. federal income tax purposes and our ability and the ability of our subsidiaries to operate in compliance with REIT requirements;
- our ability and the ability of our subsidiaries to maintain our and their exemptions from registration under the Investment Company Act of 1940, as amended (the “Investment Company Act”);
- potential liability relating to environmental matters that impact the value of properties we may acquire or the properties underlying our investments;
- the inability of insurance covering real estate underlying our loans and investments to cover all losses;
- the availability of investment opportunities in mortgage-related and real estate-related instruments and other securities;

fraud by potential borrowers;
the availability of qualified personnel;
the impact of the Tax Cuts and Jobs Act and/or estimates concerning the impact of the Tax Cuts and Jobs Act, which are subject to change based on further analysis and/or IRS guidance;
the degree and nature of our competition; and
the market trends in our industry, interest rates, real estate values, the debt securities markets or the general economy.

Table of Contents

You should not rely upon forward-looking statements as predictions of future events. In addition, neither we nor any other person assumes responsibility for the accuracy and completeness of any of these forward-looking statements. The forward-looking statements contained in this Quarterly Report are made as of the date hereof, and the Company assumes no obligation to update or supplement any forward-looking statements.

Ladder Capital Corp
Notes to Consolidated Financial Statements

1. ORGANIZATION AND OPERATIONS

Ladder Capital Corp is an internally-managed real estate investment trust (“REIT”) that is a leader in commercial real estate finance. Ladder Capital Corp, as the general partner of Ladder Capital Finance Holdings LLLP (“LCFH,” “Predecessor” or the “Operating Partnership”), operates the Ladder Capital business through LCFH and its subsidiaries. As of September 30, 2018, Ladder Capital Corp has a 88.2% economic interest in LCFH and controls the management of LCFH as a result of its ability to appoint its board members. Accordingly, Ladder Capital Corp consolidates the financial results of LCFH and records noncontrolling interest for the economic interest in LCFH held by the Continuing LCFH Limited Partners (as defined below). In addition, Ladder Capital Corp, through certain subsidiaries which are treated as taxable REIT subsidiaries (each a “TRS”), is indirectly subject to U.S. federal, state and local income taxes. Other than the noncontrolling interest in the Operating Partnership and such indirect U.S. federal, state and local income taxes, there are no material differences between Ladder Capital Corp’s consolidated financial statements and LCFH’s consolidated financial statements.

Ladder Capital Corp was formed as a Delaware corporation on May 21, 2013. The Company conducted an initial public offering (“IPO”) which closed on February 11, 2014. The Company used the net proceeds from the IPO to purchase newly issued limited partnership units (“LP Units”) from LCFH. In connection with the IPO, Ladder Capital Corp also became a holding corporation and the general partner of, and obtained a controlling interest in, LCFH. Ladder Capital Corp’s only business is to act as the general partner of LCFH, and, as such, Ladder Capital Corp indirectly operates and controls all of the business and affairs of LCFH and its subsidiaries through its ability to appoint the LCFH board. The proceeds received by LCFH in connection with the sale of the LP Units have been and will be used for loan origination and related real estate business lines and for general corporate purposes. The IPO transactions described herein are referred to as the “IPO Transactions.”

In anticipation of the Company’s election to be subject to tax as a REIT under the Internal Revenue Code of 1986, as amended (the “Code”) beginning with its 2015 taxable year (the “REIT Election”), the Company effected an internal realignment as of December 31, 2014. As part of this realignment, LCFH and certain of its wholly-owned subsidiaries were serialized in order to segregate our REIT-qualified assets and income from the Company’s non-REIT-qualified assets and income. Pursuant to such serialization, all assets and liabilities of LCFH and each such subsidiary were identified as TRS assets and liabilities (e.g., conduit securitization and condominium sales businesses) and REIT assets and liabilities (e.g., balance sheet loans, real estate and most securities), and were allocated on the Company’s internal books and records into two pools within LCFH or such subsidiary, Series TRS and Series REIT (collectively, the “Series”), respectively. Series REIT and Series TRS have separate boards, officers, books and records, bank accounts, and tax identification numbers. Each outstanding LP Unit was exchanged for one Series REIT limited partnership unit (“Series REIT LP Unit”), which is entitled to receive profits and losses derived from REIT assets and liabilities, and one Series TRS limited partnership unit (“Series TRS LP Unit”), which is entitled to receive profits and losses derived from TRS assets and liabilities (Series REIT LP Units and Series TRS LP Units are collectively referred to as “Series Units”). Ladder Capital Corp remains the general partner of Series REIT of LCFH. LC TRS I LLC (“LC TRS I”), a Delaware limited liability company wholly-owned by Series REIT of LCFH, serves as the general partner of Series TRS of LCFH and Series TRS LP Units are exchangeable for an equal number of shares (“TRS Shares”) of LC TRS I (a “TRS Exchange”).

Ladder Capital Corp consolidates the financial results of LCFH and its subsidiaries. The ownership interest of certain existing owners of LCFH, who owned LP Units and an equivalent number of shares of Ladder Capital Corp Class B common stock as of the completion of the IPO (the “Continuing LCFH Limited Partners”) and continue to hold

equivalent Series Units and Ladder Capital Corp Class B common stock, is reflected as a noncontrolling interest in Ladder Capital Corp's consolidated financial statements.

Table of Contents

Pursuant to LCFH's Third Amended and Restated LLLP Agreement, dated as of December 31, 2014 and as amended from time to time, and subject to the applicable minimum retained ownership requirements and certain other restrictions, including notice requirements, from time to time, Continuing LCFH Limited Partners (or certain transferees thereof)

may from time to time, subject to certain conditions, receive one share of the Company's Class A common stock in exchange for (i) one share of the Company's Class B common stock, (ii) one Series REIT LP Unit and (iii) either one Series TRS LP Unit or one TRS Share, subject to equitable adjustments for stock splits, stock dividends and reclassifications. However, such exchange for shares of Ladder Capital Corp Class A common stock will not affect the exchanging owners' voting power since the votes represented by the canceled shares of Ladder Capital Corp Class B common stock will be replaced with the votes represented by the shares of Class A common stock for which such Series Units, including TRS Shares as applicable, will be exchanged.

As a result of the Company's ownership interest in LCFH and LCFH's election under Section 754 of the Code, the Company expects to benefit from depreciation and other tax deductions reflecting LCFH's tax basis for its assets. Those deductions will be allocated to the Company and will be taken into account in reporting the Company's taxable income.

As of March 4, 2015, the Company made the necessary TRS and check-the-box elections began to elect to be taxed as a REIT starting with its tax return for the year ended December 31, 2015, filed in September 2016.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting and Principles of Consolidation

The accompanying consolidated financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States ("GAAP"). In the opinion of management, the unaudited financial information for the interim periods presented in this report reflects all normal and recurring adjustments necessary for a fair statement of results of operations, financial position and cash flows. The interim consolidated financial statements should be read in conjunction with the audited consolidated financial statements for the year ended December 31, 2017, which are included in the Company's Annual Report, as certain disclosures that would substantially duplicate those contained in the audited consolidated financial statements have not been included in this interim report. Operating results for interim periods are not necessarily indicative of operating results for an entire fiscal year. The interim consolidated financial statements have been prepared, without audit, and do not necessarily include all information and footnotes necessary for a fair statement of our consolidated financial position, results of operations and cash flows in accordance with GAAP.

The consolidated financial statements include the Company's accounts and those of its subsidiaries which are majority-owned and/or controlled by the Company and variable interest entities for which the Company has determined itself to be the primary beneficiary, if any. All significant intercompany transactions and balances have been eliminated.

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 810 — Consolidation ("ASC 810"), provides guidance on the identification of entities for which control is achieved through means other than voting rights ("variable interest entities" or "VIEs") and the determination of which business enterprise, if any, should consolidate the VIEs. Generally, the consideration of whether an entity is a VIE applies when either: (1) the equity investors (if any) lack one or more of the essential characteristics of a controlling financial interest; (2) the equity investment at risk is insufficient to finance that entity's activities without additional subordinated financial support; or (3) the equity investors have voting rights that are not proportionate to their economic interests and the activities of the entity involve or are conducted on behalf of an investor with a disproportionately small voting interest. The Company

consolidates VIEs in which it is considered to be the primary beneficiary. The primary beneficiary is the entity that has both of the following characteristics: (1) the power to direct the activities that, when taken together, most significantly impact the VIE's performance; and (2) the obligation to absorb losses and right to receive the returns from the VIE that would be significant to the VIE. See Note 3 for further information on the Company's consolidated variable interest entities.

Noncontrolling interests in consolidated subsidiaries are defined as "the portion of the equity (net assets) in the subsidiaries not attributable, directly or indirectly, to a parent." Noncontrolling interests are presented as a separate component of capital in the consolidated balance sheets. In addition, the presentation of net income attributes earnings to shareholders/unitholders (controlling interest) and noncontrolling interests.

Table of Contents

Use of Estimates

The preparation of the consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the balance sheets and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Estimates and assumptions are reviewed periodically, and the effects of resulting changes are reflected in the consolidated financial statements in the period the changes are deemed to be necessary. Significant estimates made in the accompanying consolidated financial statements include, but are not limited to the following:

- valuation of real estate securities;
- valuation of mortgage loan receivables held for sale;
- allocation of purchase price for acquired real estate;
- impairment, and useful lives, of real estate;
- useful lives of intangible assets;
- valuation of derivative instruments;
- valuation of deferred tax asset (liability);
- amounts payable pursuant to the Tax Receivable Agreement;
- determination of effective yield for recognition of interest income;
- adequacy of provision for loan losses including the valuation of underlying collateral for collateral dependent loans;
- determination of other than temporary impairment of real estate securities and investments in unconsolidated joint ventures;
- certain estimates and assumptions used in the accrual of incentive compensation and calculation of the fair value of equity compensation issued to employees;
- determination of the effective tax rate for income tax provision; and
- certain estimates and assumptions used in the allocation of revenue and expenses for our segment reporting.

Cash and Cash Equivalents

The Company considers all investments with original maturities of three months or less, at the time of acquisition, to be cash equivalents. The Company maintains cash accounts at several financial institutions, which are insured up to a maximum of \$250,000 per account as of September 30, 2018 and December 31, 2017. At September 30, 2018 and December 31, 2017, and at various times during the years, the balances exceeded the insured limits.

Restricted Cash

Restricted cash is comprised of accounts the Company maintains with brokers to facilitate financial derivative and repurchase agreement transactions in support of its loan and securities investments and risk management activities. Based on the value of the positions in these accounts and the associated margin requirements, the Company may be required to deposit additional cash into these broker accounts. The cash collateral held by broker is considered restricted cash. Restricted cash also includes tenant security deposits, deposits related to real estate sales and acquisitions and required escrow balances on credit facilities. Prior to January 1, 2017, these amounts were previously recorded in other assets on the Company's consolidated balance sheets.

Mortgage Loan Receivables Held for Investment

Loans for which the Company has the intention and ability to hold for the foreseeable future, or until maturity or payoff, are reported at their outstanding principal balances net of any unearned income, unamortized deferred fees or costs, premiums or discounts and an allowance for loan losses. Loan origination fees and direct loan origination costs

are deferred and recognized in interest income over the estimated life of the loans using the interest method, adjusted for actual prepayments. Upon the decision to sell such loans, the Company will transfer the loan from mortgage loan receivables held for investment to mortgage loan receivables held for sale at the lower of carrying value or fair value on the consolidated balance sheets.

Table of Contents

Provision for Loan Losses

The provision for loan losses reflects the Company's estimate of loan losses inherent in the loan portfolio as of the balance sheet date. The provision for loan losses includes a portfolio-based, general component and an asset-specific component.

The Company estimates its portfolio-based loan loss provision based on its historical loss experience and expectation of losses inherent in the investment portfolio but not yet realized. To ensure that the risk exposures are properly measured and the appropriate reserves are taken, the Company assesses a loan loss provision balance that will grow over time with its portfolio and the related risk as the assets are aged and approach maturity and ultimate refinancing where applicable.

The asset-specific reserve component relates to reserves for losses on individually impaired loans. The Company evaluates each loan for impairment at least quarterly. Impairment occurs when it is deemed probable that the Company will not be able to collect all amounts due according to the contractual terms of the loan. If the loan is considered to be impaired, an allowance is recorded to reduce the carrying value of the loan to the present value of the expected future cash flows discounted at the loan's effective rate or the fair value of the collateral, less the estimated costs to sell, if recovery of the Company's investment is expected solely from the collateral.

The Company's loans are typically collateralized by real estate directly or indirectly. As a result, the Company regularly evaluates the extent and impact of any credit deterioration associated with the performance and/or value of the underlying collateral property as well as the financial and operating capability of the borrower/sponsor on a loan by loan basis. Specifically, a property's operating results and any cash reserves are analyzed and used to assess (i) whether cash flow from operations is sufficient to cover the debt service requirements currently and into the future, (ii) the ability of the borrower to refinance the loan at maturity, and/or (iii) the property's liquidation value. The Company also evaluates the financial wherewithal of any loan guarantors as well as the borrower's competency in managing and operating the properties. In addition, the Company considers the overall economic environment, real estate sector, and geographic sub-market in which the collateral property is located. Such impairment analyses are completed and reviewed by asset management personnel, who utilize various data sources, including (i) periodic financial data such as property occupancy, tenant profile, rental rates, operating expenses, the borrowers' business plan, and capitalization and discount rates, (ii) site inspections, and (iii) current credit spreads and other market data.

For collateral dependent impaired loans, impairment is measured using the estimated fair value of collateral less the estimated cost to sell. Valuations are performed or obtained at the time a loan is determined to be impaired and designated non-performing, and are updated if circumstances indicate that a significant change in value has occurred. The Company generally will use the direct capitalization rate valuation methodology to estimate the fair value of the collateral for such loans. In more limited cases, the Company will obtain external appraisals for loan collateral. A loan is also considered impaired if its terms are modified in a troubled debt restructuring ("TDR"). A TDR occurs when a concession is granted and the debtor is experiencing financial difficulties. Impairments on TDR loans are generally measured based on the present value of expected future cash flows discounted at the effective interest rate of the original loans. Significant judgment is required when evaluating loans for impairment, therefore actual results over time could be materially different.

The Company designates non-performing loans at such time as (i) loan payments become 90-days past due; (ii) the loan has a maturity default; or (iii) in the opinion of the Company, it is probable the Company will be unable to collect all amounts due according to the contractual terms of the loan. Income recognition will be suspended when a loan is designated non-performing and resumed only when the suspended loan becomes contractually current and performance is demonstrated to have resumed. Any interest received for loans in non-performing status will be applied as a reduction to the unpaid principal balance. A loan will be written off when it is no longer realizable and

legally discharged.

Out-of-Period Adjustments

During the first quarter of 2017, the Company recorded an out-of-period adjustment to reduce depreciation expense by \$0.8 million related to prior periods. The Company has concluded that this adjustment is not material to the financial position or results of operations for the three months ended March 31, 2017 or any prior periods; accordingly, the Company recorded the related adjustment in the three month period ended March 31, 2017.

Table of Contents

During the first quarter of 2018, the Company recorded an out-of-period adjustment to increase tenant real estate tax recoveries on a net lease property by \$1.1 million, which was not billed until the three month period ended March 31, 2018, but related to prior periods. The Company has concluded that this adjustment is not material to the financial position or results of operations for the three months ended March 31, 2018 or any prior periods; accordingly, the Company recorded the related adjustment in the three month period ended March 31, 2018.

Change in Accounting Principle

As more fully described in Note 4, on June 29, 2017, the Company completed its first sponsored securitization transaction whereby it transferred \$625.7 million of loans to LCCM 2017-LC26 securitization trust. The Company initially concluded that the transfer restrictions placed on the Third Party Purchaser (“TPP”) of the risk retention securities, imposed by the risk retention rules of the Dodd-Frank Act, precluded sale accounting under ASC 860 and, accordingly, the Company originally accounted for the transaction as a financing in its interim financial statements for the periods ended June 30, 2017 and September 30, 2017. As a result of industry discussions, in November 2017 the staff of the Securities and Exchange Commission (the “SEC staff”) indicated that, despite such restrictions, they would not take exception to a registrant treating such transfers as sales if they otherwise met all the criteria for sale accounting. The Company believes treatment of such transfers as sales is more consistent with the substance of such transaction and, accordingly, changed its accounting principle to treat such transfers as sales in the quarter ended December 31, 2017. In accordance with generally accepted accounting principles, the Company reflected this change in accounting principle retrospectively to prior interim periods within 2017. The retrospective changes for the three and six months ended June 30, 2017 were reflected in the Company’s quarterly report for the quarter ended June 30, 2018. The retrospective changes for the three and nine months ended September 30, 2017 are reflected in this Quarterly Report. Refer to Note 20, Quarterly Financial Data (Unaudited) in the Company’s December 31, 2017 Annual Report for a summary of these changes.

Reclassifications

Certain prior period amounts have been reclassified to conform to the current period presentation.

Table of Contents

Recently Adopted Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2014-09, Revenue from Contracts with Customers (Topic 606) (“ASU 2014-09”), that outlined a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and superseded most then-current revenue recognition guidance, including industry-specific guidance. ASU 2014-09 is based on the principle that an entity should recognize revenue to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The ASU also requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and changes in judgments and assets recognized from costs incurred to fulfill a contract. Entities have the option of using either a full retrospective or a modified retrospective approach for the adoption of the new standard. ASU 2014-09 was initially scheduled to become effective for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period; early adoption was not permitted. In August 2015, the FASB issued ASU 2015-14, Revenue from Contracts with Customers (Topic 606) — Deferral of the Effective Date (“ASU 2015-14”), which deferred the effective date of ASU 2014-09 for one year and permitted early adoption as early as the original effective date of ASU 2014-09. The new revenue standard may be applied retrospectively to each prior period presented or retrospectively with the cumulative effect recognized as of the date of adoption. In 2016, the FASB issued additional guidance to clarify the implementation guidance, ASU 2016-08, Revenue from Contracts with Customers (Topic 606): Principal versus Agent Considerations (Reporting Revenue Gross versus Net) (“ASU 2016-08”); ASU 2016-10, Revenue from Contracts with Customers (Topic 606): Identifying Performance Obligations and Licensing (“ASU 2017-10”); ASU 2016-11, Revenue Recognition (Topic 605) and Derivatives and Hedging (Topic 815): Rescission of SEC Guidance Because of Accounting Standards Updates 2014-09 and 2014-16 Pursuant to Staff Announcements at the March 3, 2016 Emerging Issues Task Force (“EITF”) Meeting (SEC Update) (“ASU 2016-11”), ASU 2016-12, Revenue from Contracts with Customers (Topic 606): Narrow-Scope Improvements and Practical Expedients (“ASU 2016-12”); and ASU 2016-20, Technical Corrections and Improvements to Topic 606, Revenue from Contracts with Customers (“ASU 2016-20”). In February 2017, the FASB issued ASU 2017-05, Other Income—Gains and Losses from the Derecognition of Nonfinancial Assets (Subtopic 610-20) (“ASU 2017-05”). In September 2017, the FASB issued ASU 2017-13, Revenue Recognition (Topic 605), Revenue from Contracts with Customers (Topic 606), Leases (Topic 840), and Leases (Topic 842): Amendments to SEC Paragraphs Pursuant to the Staff Announcement at the July 20, 2017 EITF Meeting and Rescission of Prior SEC Staff Announcements and Observer Comments (SEC Update) (“ASU 2017-13”). In November 2017, the FASB issued ASU 2017-14, Income Statement—Reporting Comprehensive Income (Topic 220), Revenue Recognition (Topic 605), and Revenue from Contracts with Customers (Topic 606) (SEC Update) (“ASU 2017-14”). These amendments provide additional clarification and implementation guidance on the previously issued ASU 2014-09.

Under the full retrospective method, a company will apply the rules to contracts in all reporting periods presented, subject to certain allowable exceptions. Under the modified retrospective method, a company will apply the rules to all contracts existing as of January 1, 2018, recognizing in beginning retained earnings an adjustment for the cumulative effect of the change and providing additional disclosures comparing results to previous rules. The Company believes the effects on its existing accounting policies will be associated with its non-leasing revenue components, specifically the amount, timing and presentation of tenant expense reimbursements revenue. The Company adopted the standard using the modified retrospective approach on January 1, 2018 and there was no cumulative effect adjustment recognized. The Company’s revenues impacted by this standard are included in tenant recoveries in the consolidated statements of income.

Table of Contents

In January 2016, the FASB issued ASU 2016-01, Financial Instruments - Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities, (“ASU 2016-01”), which was further amended in February and in March 2018 by ASU 2018-03, Technical Corrections and Improvements to Financial Instruments—Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Liabilities, (“ASU 2018-03”) and ASU 2018-04, Investments—Debt Securities (Topic 320) and Regulated Operations (Topic 980): Amendments to SEC Paragraphs Pursuant to SEC Staff Accounting Bulletin No. 117 and SEC Release No. 33-9273 (SEC Update), (“ASU 2018-04”) to clarify certain aspects of ASU 2016-01 and to update Securities and Exchange Commission (“SEC”) interpretive guidance in connection with the provisions of ASU 2016-01. These updates provide guidance for the recognition, measurement, presentation, and disclosure of financial instruments. Among other changes, the updates require public business entities to use the exit price notion when measuring the fair value of financial instruments for disclosure purposes, and clarifies that entities should evaluate the need for a valuation allowance on a deferred tax asset related to available for sale securities in combination with the entities' other deferred tax assets. These standards are effective for public companies for fiscal years beginning after December 15, 2017, and for interim periods within those fiscal years. The Company adopted the guidance effective January 1, 2018, using the modified retrospective method. Upon adoption, the fair value of the Company's loan portfolio is now presented using an exit price method. Also, the Company is no longer required to disclose the methodologies used for estimating fair value of financial assets and liabilities that are not measured at fair value on a recurring or nonrecurring basis. The remaining requirements of this update did not have a material impact on the Company's consolidated financial statements.

In May 2017, the FASB issued ASU 2017-09, Compensation-Stock Compensation (Topic 718), (“ASU 2017-09”). The ASU provides clarification on when modification accounting should be used for changes to the terms or conditions of a share-based payment award. ASU 2017-09 does not change the accounting for modifications but clarifies that modification accounting guidance should only be applied if there is a change to the value, vesting conditions or award classification and would not be required if the changes are considered non-substantive. The amendments of this ASU are effective for reporting periods beginning after December 15, 2017, with early adoption permitted. The Company adopted the guidance effective January 1, 2018. The adoption of ASU 2017-09 did not have a material impact on the Company's consolidated financial statements.

In May 2018, FASB issued ASU No. 2018-06, Codification Improvements to Topic 942, Depository and Lending—Income Taxes, (“ASU 2018-06”). The amendments in ASU 2018-06 supersede the guidance within Subtopic 942-741 that has been rescinded by the Office of the Comptroller of the Currency and is no longer relevant. A cross-reference between Subtopic 740-30, Income Taxes—Other Considerations or Special Areas, and Subtopic 942-740 is being added to the remaining guidance in Subtopic 740-30 to improve the usefulness of the codification. The amendments in ASU 2018-06 are effective upon issuance, as no accounting requirements are affected. The amendments in ASU 2018-06 do not have a material impact on the Company's consolidated financial statements.

Recent Accounting Pronouncements Pending Adoption

In February 2016, the FASB issued ASU 2016-02, Leases (Topic 842) (“ASU 2016-02”), which sets out the principles for the recognition, measurement, presentation and disclosure of leases for both parties to a contract (i.e. lessees and lessors). The new standard requires lessees to apply a dual approach, classifying leases as either operating leases or financing leases based on the principle of whether or not the lease is effectively a financed purchase by the lessee. This classification will determine whether lease expense is recognized based on an effective interest method or on a straight-line basis over the term of the lease. A lessee is also required to record a right-of-use asset and a lease liability for all leases with a term greater than 12 months regardless of their classification. Leases with a term of 12 months or less will be accounted for similar to existing guidance for operating leases today. The new standard requires lessors to account for leases using an approach that is substantially equivalent to existing guidance for sale-type leases, direct financing leases and operating leases. ASU 2016-02 supersedes the previous lease standard, Leases (Topic 840). In July 2018, the FASB issued ASU 2018-10, Codification Improvements to Topic 842 (Leases) (“ASU 2018-10”), which provides narrow amendments to clarify how to apply certain aspects of the new leasing standard. In July 2018, the FASB also issued ASU 2018-11, Leases (Topic 842): Targeted Improvements (“ASU 2018-11”), which provides a new transition method at the adoption date through a cumulative-effect adjustment to the opening balance of retained earnings; prior periods will not require restatement. ASU 2018-11 also provides a new practical expedient for lessors adopting the new lease standard. Lessors have the option to aggregate nonlease components with the related lease component upon adoption of the new standard if the following conditions are met: (1) the timing and pattern of transfer for the nonlease component and the related lease component are the same and (2) the stand-alone lease component would be classified as an operating lease if accounted for separately. Each of the standards are effective for the Company on January 1, 2019, with early adoption permitted. The Company continues to evaluate the effect the adoption of ASU 2016-02, ASU 2018-10 and ASU 2018-11 will have on the Company’s financial position and/or results of operations. The Company currently believes that the adoption of ASU 2016-02 will not have a material impact for operating leases where it is a lessor and will continue to record revenues from rental properties for its operating leases on a straight-line basis. For leases where the Company is the lessee, primarily for the Company’s corporate headquarters, the Company expects to record a lease liability and a right of use asset on its consolidated financial statements upon adoption. The lease liability and right-of-use asset are to be carried at the present value of remaining expected future lease payments.

In June 2016, the FASB issued ASU 2016-13, Financial Instruments—Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments, (“ASU 2016-13”). The guidance changes the impairment model for most financial assets. The new model uses a forward-looking expected loss method, which will generally result in earlier recognition of allowances for losses. ASU 2016-13 is effective for annual and interim periods beginning after December 15, 2019, and early adoption is permitted for annual and interim periods beginning after December 15, 2018. On July 25, 2018, the FASB proposed an amendment to ASU 2016-13 to clarify that operating lease receivables recorded by lessors are explicitly excluded from the scope of ASU 2016-13. The Company must apply the amendments in this update through a cumulative-effect adjustment to retained earnings as of the beginning of the first reporting period in which the guidance is effective. The Company is currently assessing the impact of this standard on the consolidated financial statements. In general, the allowance for credit losses is expected to increase when changing from an incurred loss to expected loss methodology. The models and methodologies that are currently used in estimating the allowance for credit losses are being evaluated to identify the changes necessary to meet the requirements of the new standard.

In January 2017, the FASB issued ASU 2017-04, Intangibles—Goodwill and Other (Topic 350), (“ASU 2017-04”). The ASU simplifies the accounting for goodwill impairment. The guidance removes Step 2 of the goodwill impairment test, which requires a hypothetical purchase price allocation. A goodwill impairment will now be the amount by which a reporting unit’s carrying value exceeds its fair value, not to exceed the carrying amount of goodwill. The guidance will be applied prospectively and is effective for annual or any interim goodwill impairment tests in years beginning

after December 15, 2019 with early adoption permitted. The Company does not currently expect any impact on its consolidated financial statements as the Company (absent a business combination) has no recorded goodwill.

In March 2017, the FASB issued ASU 2017-08, Receivables-Nonrefundable Fees and Other Costs (Subtopic 310-20), (“ASU 2017-08”). The ASU shortens the amortization period for the premium on certain purchased callable debt securities to the earliest call date. Today, entities generally amortize the premium over the contractual life of the security. The new guidance does not change the accounting for purchased callable debt securities held at a discount; the discount continues to be amortized to maturity. ASU No. 2017-08 is effective for interim and annual reporting periods beginning after December 15, 2018; early adoption is permitted. The guidance calls for a modified retrospective transition approach under which a cumulative-effect adjustment will be made to retained earnings as of the beginning of the first reporting period in which the guidance is adopted. The Company is currently assessing the impact that this guidance will have on its consolidated financial statements when adopted.

Table of Contents

In July 2017, the FASB issued ASU 2017-11, Earnings Per Share (Topic 260), Distinguishing Liabilities from Equity (Topic 480) and Derivatives and Hedging (Topic 815): I. Accounting for Certain Financial Instruments with Down Round Features; II. Replacement of the Indefinite Deferral for Mandatorily Redeemable Financial Instruments of Certain Nonpublic Entities and Certain Mandatorily Redeemable Noncontrolling Interests with a Scope Exception, (“ASU 2017-11”). Part I of this update addresses the complexity of accounting for certain financial instruments with down round features. Down round features are features of certain equity-linked instruments (or embedded features) that result in the strike price being reduced on the basis of the pricing of future equity offerings. Current accounting guidance creates cost and complexity for entities that issue financial instruments (such as warrants and convertible instruments) with down round features that require fair value measurement of the entire instrument or conversion option. Part II of this update addresses the difficulty of navigating Topic 480, Distinguishing Liabilities from Equity, because of the existence of extensive pending content in the FASB Accounting Standards Codification. This pending content is the result of the indefinite deferral of accounting requirements about mandatorily redeemable financial instruments of certain nonpublic entities and certain mandatorily redeemable noncontrolling interests. The amendments in Part II of this update do not have an accounting effect. This ASU is effective for fiscal years, and interim periods within those years, beginning after December 15, 2018. The Company is currently assessing the potential impact of adopting ASU 2017-11 on its financial statements and related disclosures.

In January 2018, the FASB issued ASU 2018-01, Land Easement Practical Expedient for Transition to Topic 842, (“ASU 2018-01”). This ASU provides an optional transition practical expedient that, if elected, would not require companies to reconsider their accounting for existing or expired land easements before adoption of Topic 842 and that were not previously accounted for as leases under Topic 840. This ASU will be effective January 1, 2019, and early adoption is permitted. The Company is currently assessing the potential impact of adopting ASU 2018-01 on its financial statements and related disclosures.

In February 2018, the FASB issued ASU 2018-02, Income Statement - Reporting Comprehensive Income (Topic 220), (“ASU 2018-02”). This ASU allows an entity to elect to reclassify the stranded tax effects related to the Tax Cuts and Jobs Act of 2017 from accumulated other comprehensive income into retained earnings. This ASU will be effective January 1, 2019, and early adoption is permitted. The Company is does not expect the adoption of ASU 2018-02 to have a material impact on its financial statements and related disclosures.

In March 2018, the FASB issued ASU 2018-05, Income Taxes (Topic 740): Amendments to SEC Paragraphs Pursuant to SEC Staff Accounting Bulletin No. 118 (SEC Update), (“ASU 2018-05”), which included amendments to SEC paragraphs pursuant to SEC Staff Accounting Bulletin No. 118 (“SAB 118”). The pronouncement addresses certain circumstances that may arise for registrants in accounting for the income tax effects of the Tax Cuts and Jobs Act, including when certain income tax effects of the Tax Cuts and Jobs Act are incomplete by the time financial statements are issued. The Company has complied with the amendments related to SAB 118, as discussed further in Note 16.

In July 2018, the FASB issued ASU 2018-09, Codification Improvements, (“ASU 2018-09”). This standard does not prescribe any new accounting guidance, but instead makes minor improvements and clarifications of several different FASB Accounting Standards Codification areas based on comments and suggestions made by various stakeholders. Certain updates are applicable immediately while others provide for a transition period to adopt as part of the next fiscal year beginning after December 15, 2018. The Company is currently evaluating this guidance to determine the impact it may have on its consolidated financial statements.

In August 2018, the FASB issued ASU 2018-13, Fair Value Measurement, (Topic 820): Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement, (“ASU 2018-13”). ASU 2018-13 eliminates, adds and modifies certain disclosure requirements for fair value measurements as part of its disclosure

framework project. The standard is effective for all entities for financial statements issued for fiscal years beginning after December 15, 2019, and interim periods within those fiscal years. Early adoption is permitted. The Company does not expect the adoption of ASU 2018-02 to have a material impact on its financial statements and related disclosures.

Table of Contents

In October 2018, the FASB issued ASU 2018-17, Consolidation (Topic 810): Targeted Improvements to Related Party Guidance for Variable Interest Entities, (“ASU 2018-17”). ASU 2018-17 requires reporting entities to consider indirect interests held through related parties under common control on a proportional basis rather than as the equivalent of a direct interest in its entirety for determining whether a decision-making fee is a variable interest. The standard is effective for all entities for financial statements issued for fiscal years beginning after December 15, 2019, and interim periods within those fiscal years. Early adoption is permitted. Entities are required to apply the amendments in ASU 2018-17 retrospectively with a cumulative-effect adjustment to retained earnings at the beginning of the earliest period presented. The Company is currently evaluating this guidance to determine the impact it may have on its consolidated financial statements.

Any new accounting standards not disclosed above that have been issued or proposed by FASB and that do not require adoption until a future date are not expected to have a material impact on the consolidated financial statements upon adoption.

3. CONSOLIDATED VARIABLE INTEREST ENTITIES

FASB Accounting Standards Codification (“ASC”) Topic 810 — Consolidation (“ASC 810”), provides guidance on the identification of entities for which control is achieved through means other than voting rights (“variable interest entities” or “VIEs”) and the determination of which business enterprise, if any, should consolidate the VIEs. Generally, the consideration of whether an entity is a VIE applies when either: (1) the equity investors (if any) lack one or more of the essential characteristics of a controlling financial interest; (2) the equity investment at risk is insufficient to finance that entity’s activities without additional subordinated financial support; or (3) the equity investors have voting rights that are not proportionate to their economic interests and the activities of the entity involve or are conducted on behalf of an investor with a disproportionately small voting interest. The Company consolidates VIEs in which it is considered to be the primary beneficiary. The primary beneficiary is the entity that has both of the following characteristics: (1) the power to direct the activities that, when taken together, most significantly impact the VIE’s performance; and (2) the obligation to absorb losses and right to receive the returns from the VIE that would be significant to the VIE. The Operating Partnership is a VIE and as such, substantially all of the consolidated balance sheet is a consolidated VIE. In addition, the Operating Partnership consolidates two collateralized loan obligation (“CLO”) VIEs with the following aggregate balance sheets (\$ in thousands):

	September 30, 2018	December 31, 2017
	Notes 4 & 8	Notes 4 & 8
Mortgage loan receivables held for investment, net, at amortized cost	\$ 869,536	880,385
Accrued interest receivable	4,391	4,252
Total assets	\$ 873,927	\$ 884,637
Senior and unsecured debt obligations	\$ 677,898	\$ 689,961
Accrued expenses	1,478	794
Other liabilities	2	—
Total liabilities	679,378	690,755
Net equity in VIEs (eliminated in consolidation)	194,549	193,882
Total equity	194,549	193,882
Total liabilities and equity	\$ 873,927	\$ 884,637

4. MORTGAGE LOAN RECEIVABLES

September 30, 2018 (\$ in thousands)

	Outstanding Face Amount	Carrying Value	Weighted Average Yield (1)	Remaining Maturity (years)
Mortgage loans held by consolidated subsidiaries(2)	\$ 3,830,115	\$3,805,387	7.70 %	1.35
Provision for loan losses	N/A	(17,600)		
Mortgage loan receivables held for investment, net, at amortized cost	3,830,115	3,787,787		
Mortgage loan receivables held for sale	377,352	375,162	5.26 %	9.87
Total	\$ 4,207,467	\$4,162,949	7.51 %	2.13

(1) September 30, 2018 London Interbank Offered Rate (“LIBOR”) rates are used to calculate weighted average yield for floating rate loans.

(2) Includes amounts relating to consolidated variable interest entities. See Note 3.

On June 29, 2017, the Company transferred its interests in \$625.7 million of loans to the LCCM 2017-LC26 securitization trust. The assets transferred to the trust were comprised of 34 loans to third parties having a combined outstanding face amount of \$549.0 million and a combined carrying value of \$547.7 million as well as 23 former intercompany loans secured by certain of the Company’s real estate assets, having a combined principal balance of \$76.7 million (which had not previously been recognized for accounting purposes because they were eliminated in consolidation). In connection with this transaction, pursuant to the 5% risk retention requirement of the Dodd-Frank Act described in Part I, Item 1A “Risk Factors,” in the Annual Report, the Company (i) retained a \$12.9 million restricted “vertical interest” consisting of approximately 2% in each class of securities issued by the trust, which must be held by the Company until the principal balance of the pool has been reduced to a level prescribed by the risk retention rules and (ii) sold an approximately 3% restricted “horizontal interest” in the form of 98% of the controlling classes (excluding the 2% included in the vertical interest) to a TPP, which must be held by the TPP for at least five years. In addition, the Company purchased \$62.7 million of securities issued by the trust, which are not restricted.

The Company initially concluded that the transfer restrictions placed on the TPP of the risk retention securities, imposed by the risk retention rules of the Dodd-Frank Act, precluded sale accounting under generally accepted accounting principles and, accordingly, the Company originally accounted for the transaction as a financing. As a result of industry discussions, in November 2017, the SEC staff indicated that, despite such restrictions, they would not take exception to a registrant treating such transfers as sales if they otherwise met all the criteria for sale accounting. The Company believes treatment of such transfers as sales is more consistent with the substance of such transaction, and accordingly, changed its accounting principles to treat such transfers as sales in the quarter ended December 31, 2017. In accordance with generally accepted accounting principles, the Company reflected this change in accounting principle retrospectively to prior interim periods within 2017. The retrospective changes for the three and nine months ended September 30, 2017 are reflected in this Quarterly Report. The retrospective changes for the three and six months ended June 30, 2017 were reflected in the Company’s quarterly report for the quarter ended June 30, 2018. Refer to Note 20, Quarterly Financial Data (Unaudited) in the Company’s December 31, 2017 Annual Report for a summary of these changes.

In connection with the securitization transaction, the former intercompany loans, which are secured by real estate properties still owned by the Company, will continue to be reported as a financing transaction. As a result of the change in accounting principle, the Company recognized a gain of \$26.1 million on the transaction when it closed on

June 29, 2017. In addition, upon consummation, the Company recognized \$12.9 million and \$62.7 million in restricted and unrestricted securities, respectively, which are included in real estate securities on the Company's consolidated balance sheets. The Company also recognized a liability for \$78.8 million for 23 intercompany loans with a combined principal balance of \$76.7 million.

Table of Contents

As of September 30, 2018, \$808.2 million, or 21.2%, of the carrying value of our mortgage loan receivables held for investment, at amortized cost, were at fixed interest rates and \$3.0 billion, or 78.8%, of the carrying value of our mortgage loan receivables held for investment, at amortized cost, were at variable interest rates, linked to LIBOR, some of which include interest rate floors. As of September 30, 2018, \$375.2 million, or 100.0%, of the carrying value of our mortgage loan receivables held for sale were at fixed interest rates.

December 31, 2017 (\$ in thousands)

	Outstanding Face Amount	Carrying Value	Weighted Average Yield (1)	Remaining Maturity (years)
Mortgage loans held by consolidated subsidiaries	\$ 3,300,709	\$3,282,462	7.18 %	1.61
Provision for loan losses	N/A	(4,000)		
Mortgage loan receivables held for investment, net, at amortized cost	3,300,709	3,278,462		
Mortgage loan receivables held for sale	232,527	230,180	4.88 %	8.17
Total	3,533,236	3,508,642	7.03 %	2.04

(1) December 31, 2017 LIBOR rates are used to calculate weighted average yield for floating rate loans.

As of December 31, 2017, \$723.7 million, or 22.0%, of the carrying value of our mortgage loan receivables held for investment, at amortized cost, were at fixed interest rates and \$2.6 billion, or 78.0%, of the carrying value of our mortgage loan receivables held for investment, at amortized cost, were at variable interest rates, linked to LIBOR, some of which
