PROPOSAL 1 – ELECTION OF DIRECTORS

Nominees for Election

General Information. As of the date of this Proxy Statement, the entire Board consists of thirteen directors divided into three classes. Directors are elected to serve three-year terms. Messrs. Adkins, Bernstein and Moore will not seek re-election pursuant to the Company's Bylaws. In order to balance the number of directors in each class, the Board has requested that Mr. Bayard, who is currently a Class I director, agree to stand for election as a Class II director at the Annual Meeting. Mr. Bayard has so agreed, and he will stand for election as a Class II director along with Messrs. Maddock and McMasters. If Mr. Bayard is elected as a Class II director at the Annual Meeting, he will cease being a Class I director at the time he becomes a Class II director. If he is not elected as a Class II director at the Annual Meeting, he will continue to serve as a Class I director through the remainder of his term, which expires in 2018, and until his successor is elected and qualified. Directors are elected by a plurality of the votes cast by the holders of the shares present in person or represented by proxy at the Meeting. In December 2015, the Board amended the Company's Corporate Governance Guidelines to adopt a director resignation policy that would apply in cases where a nominee for director receives more "withheld" votes than votes "for" his or her election in an uncontested director election at a stockholder meeting. The Corporate Governance Guidelines are available at www.chpk.com/our-company/corporate-governance/.

Voting for Director Nominees. Each share of our common stock is entitled to one vote. You may authorize a proxy to vote your shares on the election of directors. A proxy that withholds authority to vote for a particular nominee will count neither for nor against the nominee.

Director Biographies, Key Attributes, Experience and Skills. Beginning on page 5, a description is provided for each of the director nominees and continuing director's principal occupation and employment, principal business, affiliations, and other business experience during the past five years.

Overview of the Process for Nominating Directors. Prior to nominating directors, the Corporate Governance Committee considers each candidate selected and the criteria described under the Director Nomination Process on page 19. The Corporate Governance Committee considers each individual candidate in the context of the Board as a whole with the objective of nominating individuals who the Corporate Governance Committee believes will contribute to the Company's success as a result of their education, job experience, industry knowledge, market knowledge and expertise. The Corporate Governance Committee seeks individuals who demonstrate integrity, judgment, leadership and decisiveness in their business dealings. The Corporate Governance Committee also seeks individuals who, with the other directors, will give the Board a diverse combination of skills and attributes that complement the nature of our business and support the Company's long-term strategic focus. Directors should be able to commit the requisite time for preparation and attendance at Board and Committee meetings, as well as be able to participate in other matters necessary to ensure good corporate governance. The Board reflects a broad range of leadership, professional skills and experience; corporate governance and board service experience; experience in the markets in which we conduct business; economic and financial expertise; industry experience; public affairs experience; academia experience; and entrepreneurship.

Director Nominations. On February 23, 2016, the Board decreased the size of the Board from thirteen to ten directors effective May 4, 2016 and upon the retirement of Messrs. Adkins, Bernstein, and Moore. Upon recommendation of the Corporate Governance Committee, the Board nominated three incumbent directors - Eugene H. Bayard, Paul L. Maddock, Jr., and Michael P. McMasters. If elected, these directors will serve as Class II directors until the 2019 Annual Meeting of Stockholders and until their successors are elected and qualified. If, prior to the election, any of the nominees become unable or unwilling to serve as a director of the Company (an eventuality that we do not anticipate), all proxies will be voted for any substitute nominee who may be designated by the Board pursuant to the recommendation of the Corporate Governance Committee.

BOARD RECOMMENDATION: THE BOARD RECOMMENDS A VOTE FOR EACH OF THE DIRECTOR NOMINEES.

PROPOSAL 2 – NON-BINDING ADVISORY VOTE TO RATIFY THE APPOINTMENT OF THE INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Appointment of External Audit Firm

The Audit Committee is solely responsible for the appointment, oversight, retention, and termination of the work of the Company's independent registered public accounting firm (also referred to in this Proxy Statement as "external audit firm"), including the approval of all engagement fees, terms, and the annual audit plan. On February 23, 2016, the Audit Committee approved the reappointment of Baker Tilly Virchow Krause, LLP ("Baker Tilly") to serve as our external audit firm for 2016. Baker Tilly (independently or through a legacy firm) has served as the Company's external audit firm since 2007. In determining whether to reappoint Baker Tilly as the Company's external audit firm, the Audit Committee took into consideration several factors, including an assessment of the professional qualifications and past performance of the Lead Audit Partner and the audit team, the quality and level of transparency of the Audit Committee's relationship and communications with Baker Tilly and the length of time the firm has been engaged. The Audit Committee considered, among other things, Baker Tilly's expanding utility practice and the knowledge and skills of Baker Tilly's auditing experts that would be providing services to the Company.

Evaluation of External Audit Firm

The Audit Committee previously established criteria and procedures used to evaluate the quality of the audit services. The evaluation focuses on the qualifications and performance of Baker Tilly; the quality and candor of the external audit firm's communications with the Audit Committee and the Company; and the external audit firm's independence and objectivity. In 2015, each member of the Audit Committee, as well as members of management and Internal Audit completed an evaluation of the quality of the audit services rendered in 2014. The questions were specifically developed for the individual given his or her relationship with the external audit firm. The Audit Committee analyzed the results of the assessment, which provided the Audit Committee with additional insight into the effectiveness and objectivity of the Company's external audit firm. The Chair of the Audit Committee and the Chief Financial Officer communicated the results of the evaluation process to Baker Tilly's Lead Audit Partner. The Audit Committee takes additional measures to ensure the audit team is independent and has the experience that creates an audit of the highest quality. These measures include, but are not limited to: (i) independently meeting with the external audit firm to discuss communications and other appropriate matters, (ii) pre-approving the audit and non-audit services performed by the external audit firm in order to assure that they do not impair the auditor's independence, (iii) overseeing the process for the rotation of the Lead Audit Partner to ensure the Lead Audit Partner has the knowledge, experience and quality to sustain the integrity of the Company's audits and the requisite knowledge in the Company's business and expected areas of future growth, and (iv) periodically overseeing the process to solicit proposals from external audit firms to review, among other things, the experience, qualifications, technical abilities, and audit fees in the industry prior to appointment of the external audit firm.

Combined Firm – ParenteBeard and Baker Tilly

On October 1, 2014, the Company was notified that the audit firm of ParenteBeard LLC ("ParenteBeard") had merged with Baker Tilly in a transaction pursuant to which ParenteBeard combined its operations with Baker Tilly and certain of the professional staff and partners of ParenteBeard joined Baker Tilly. On October 1, 2014, as a result of the merger, ParenteBeard ceased conducting business and resigned as the external audit firm of the Company. On October 1, 2014, the Audit Committee of the Company's Board of Directors, after review and consideration of the impact on the Company, approved the engagement of Baker Tilly to serve as its external audit firm for the remainder of 2014 and 2015.

Prior to engaging Baker Tilly as its external audit firm, the Company had not consulted with Baker Tilly regarding (a) the application of accounting principles to a specific completed or contemplated transaction or regarding the type of audit opinions that might be rendered by Baker Tilly on the Company's financial statements, and Baker Tilly did not provide any written or oral advice that was an important factor considered by the Company in reaching a decision as to any such accounting, auditing or financial reporting issue, or (b) a disagreement or reportable event as described

under Item 304(a)(2)(ii) of Regulation S-K.

The Report of Independent Registered Public Accounting Firm of ParenteBeard regarding the Company's financial statements for the interim period from December 31, 2013 through October 1, 2014, the date of resignation, did not contain any adverse opinion or disclaimer of opinion and were not qualified or modified as to uncertainty, audit scope or accounting principles.

CHESAPEAKE UTILITIES CORPORATION - 2016 Proxy Statement 10

During the interim period from December 31, 2013 through October 1, 2014, the date of resignation, there were no (a) disagreements, as described under Item 304(a)(1)(iv) of Regulation S-K, with ParenteBeard on any matter of accounting principles or practices, financial statement disclosure or auditing scope or procedures, which disagreements, if not resolved to the satisfaction of ParenteBeard would have caused it to make reference to such disagreement in its reports, or (b) reportable events, as described under Item 304(a)(1)(v) of Regulation S-K.

Non-Binding Advisory Vote to Ratify the External Audit Firm

Although the New York Stock Exchange (“NYSE”) listing standards require that the Audit Committee be directly responsible for selecting and retaining the external audit firm, we are providing you with the means to express your view on this matter. While this vote is not binding, in the event that stockholders fail to ratify the appointment of Baker Tilly, the Audit Committee will reconsider this appointment. Even if the appointment is ratified, the Audit Committee, in its discretion may direct the appointment of a different external audit firm at any time during the year if the Audit Committee determines that such a change would be in the best interests of the Company and its stockholders.

A representative from Baker Tilly will be present at the Annual Meeting and available to respond to appropriate questions. A formal statement will not be made.

BOARD RECOMMENDATION: THE BOARD RECOMMENDS A VOTE FOR THE RATIFICATION OF THE APPOINTMENT OF BAKER TILLY VIRCHOW KRAUSE, LLP AS THE COMPANY’S INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FOR 2016.

AUDIT COMMITTEE REPORT

This Audit Committee Report is provided by the Audit Committee of the Board of Directors and pertains to the Company’s audited financial statements for the year ended December 31, 2015. Prior to the issuance of the Company’s unaudited quarterly financial statements and annual audited financial statements, we reviewed and discussed the earnings press releases, consolidated financial statements and disclosures under “Management’s Discussion and Analysis of Financial Condition and Results of Operations” (including significant accounting policies and judgments) with management, the Company’s internal auditors, and the independent external audit firm. We also reviewed the Company’s policies and practices with respect to financial risk assessment, as well as its processes and practices with respect to enterprise risk assessment and management. We discussed with the Company’s external audit firm, Baker Tilly, the matters required to be discussed by applicable audit standards adopted by the Public Company Accounting Oversight Board (the “PCAOB”), including the Statement on Auditing Standards No. 16, Communications with Audit Committees (which superseded the Statement on Auditing Standards No. 61, as amended (AICPA, Professional Standards, Vol. I AU Section 380), Communications with Audit Committees, as adopted by the PCAOB in Rule 3200T).

We discussed with Baker Tilly the overall scope and plan for their audit and approved the terms of their engagement letter. We also reviewed the Company’s internal audit plan. We met with Baker Tilly and with the Company’s internal auditor, in each case, with and without other members of management present, to discuss the results of their respective examinations, the evaluation of the Company’s internal controls and the overall quality and integrity of the Company’s financial reporting. The Committee has received the written disclosures and the letter from Baker Tilly required by applicable requirements of the PCAOB regarding Baker Tilly’s communications with the Committee concerning independence, and has discussed with Baker Tilly its independence. Based on the Committee’s review and the discussions referred to above, the Committee recommended to the Board of Directors that the audited financial statements be included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2015 for filing with the Securities and Exchange Commission (“SEC”).

The information in this Audit Committee Report shall not be considered to be “soliciting material” or be “filed” with the SEC, nor shall this information be incorporated by reference into any previous or future filings under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, except to the extent that the Company incorporated it by specific reference.

The following provides information on fees for professional services rendered by Baker Tilly for the year ended December 31, 2015 and services rendered by ParenteBeard and Baker Tilly (collectively referred to in this section as “Baker Tilly”) for the year ended December 31, 2014.

Audit Fees

The aggregate fees billed to the Company and its subsidiaries by Baker Tilly in 2015 and 2014 totaled \$765,199 and \$730,339, respectively. Audit-Related Fees, Tax and Other Fees

During 2015 and 2014, Baker Tilly performed annual audits on our benefit plans for the plan years ended December 31, 2014 and 2013, respectively. During 2014, Baker Tilly assisted us with the due diligence process relating to our transaction with Gatherco, Inc. The Company did not engage Baker Tilly to provide any tax services or any services other than those described above.

Audit and Non-Audit Services Pre-Approval Policies and Procedures

The Audit Committee pre-approves the audit and non-audit services performed by the Company’s external audit firm in order to assure that they do not impair the external audit firm’s independence. The Audit Committee may also pre-approve tax services provided by the external audit firm, if any. In November 2015, the Audit Committee reviewed its Audit and Non-Audit Services Pre-Approval Policy and made no changes. In November 2014, the Audit Committee made changes to the policy that included legal and best practice developments. Under the Policy, the Audit Committee may pre-approve specific services in advance or may pre-approve one or more categories of audit and non-audit services. For all proposed services, the Audit Committee will, among other things, consider whether the external audit firm is the best positioned to provide the proposed services most effectively and efficiently based on its familiarity with the Company’s business, people, culture, accounting systems, risk profile and other factors, and whether the services are likely to enhance the Company’s ability to manage or control risk or improve audit quality. The Audit Committee may establish ceilings on the level of fees and costs of generally pre-approved services that may be performed. The Audit Committee has delegated to the Chair of the Audit Committee (and may delegate authority to any other member of the Audit Committee) authority to pre-approve up to \$40,000 in audit and non-audit services, which authority may be exercised when the Audit Committee is not in session. At least annually, the external audit firm is required to report to the Audit Committee on the specific services provided and the amounts that have been paid to the external audit firm. The Chief Financial Officer is required to report to the Audit Committee on the specific services provided and the amounts paid by the Company. Internal Audit is responsible for monitoring and reporting on the performance of all services provided by the external audit firm and to determine whether these services are in compliance with the Audit Committee’s policy. In 2015 and 2014, the Audit Committee approved 100 percent of all audit and non-audit services provided to the Company by Baker Tilly.

Director Independence

The independent directors bring expertise and a diversity of perspectives to the Board. The culture of the Board enables directors to openly express their opinions in the boardroom and engage in open dialogue. The NYSE rules governing independence require that a majority of the members of the Board be independent as defined by the NYSE. Members of the Board are independent if it is determined that the director has no material relationship with the Company except in his or her capacity as a director. To assist in making the determination of independence for each director, the Board previously adopted Corporate Governance Guidelines on Director Independence (the “Independence Guidelines”), which are more stringent than the NYSE rules.

In accordance with the Independence Guidelines, on February 23, 2016, the Board conducted its annual review of director independence. During this review, the Board examined all direct and indirect transactions or relationships between the Company or any of its subsidiaries and each director and any immediate family member of the director and determined that no material relationships with the Company existed during 2015. On the basis of this review, the Board determined that twelve directors (or 92 percent) are independent. Each of the following directors qualifies as an independent director as defined by the NYSE listing standards and in accordance with the standards set forth in the Independence Guidelines: Ralph J. Adkins, Eugene H. Bayard, Richard Bernstein, Thomas J. Bresnan, Ronald G. Forsythe, Jr., Thomas P. Hill, Jr., Dennis S. Hudson, III, Paul L. Maddock, Jr., Joseph E. Moore, Calvert A. Morgan, Jr., Dianna F. Morgan, and John R. Schimkaitis. Mr. McMasters, our President and Chief Executive Officer, is the only non-independent director.

Board Leadership

The Board is elected by the Company’s stockholders to oversee the direction and strategy of the business and ensure that it continues to operate in the best interests of all stakeholders. The Board works diligently to fulfill its fiduciary duties to protect the Company’s assets and stockholders’ investment. The Board of Directors is led by the Chair of the Board, who is elected annually by the Board. At its meeting on May 6, 2015, the Board elected John R. Schimkaitis to serve as the non-executive, independent Chair. Mr. Schimkaitis previously served as the Vice Chair of the Board from 2010 until his election as Chair in 2015. Mr. Schimkaitis has performed the responsibilities prescribed to him by the Board and those detailed in the Corporate Governance Guidelines, including establishing the agenda for and leading Board meetings, and facilitating communications among Board members and communications between the Board and the Chief Executive Officer outside of Board meetings. Mr. Schimkaitis has 40 years of experience in the utility industry, including 25 years in key management roles within the Company. This utility experience, his knowledge of the Company and its businesses, his understanding of the Delmarva and Florida markets, as well as his leadership skills are advantageous in leading the Board in the performance of its duties. At its meeting on May 6, 2015, the Board, in recognition of Ralph J. Adkins’ contributions to the Company, its employees and the communities we serve, designated Mr. Adkins as Chair Emeritus. Mr. Adkins served as our Chair from 1997 until his appointment as Chair Emeritus in 2015. In this role, Mr. Adkins assists the Chair of the Board and performs other duties as prescribed to him by the Board. In May 2016, after more than 50 years in the utility industry, including 42 years as an employee of the Company, 26 years of service as a director, and more than 15 years of service as Chair of the Board, Mr. Adkins will be retiring. In celebration of his extraordinary service to the Company and its stockholders, the Company joined Mr. Adkins at the NYSE on March 9, 2016 to ring the Closing Bell.

The Corporate Governance Committee regularly engages in discussion on Board composition and succession planning as further discussed on page 19. The Board may, at a future date, combine the Chair and Chief Executive Officer roles if the Board determines that such a leadership structure would be appropriate.

Board’s Role in Risk Oversight

The Board maintains an oversight role with respect to risk management and is ultimately responsible for ensuring that the Company’s risk management framework is sufficient given the Company’s business activities. Risks are considered in virtually every business decision and process, including the Company’s strategic planning process. We recognize that it is neither possible nor prudent to eliminate all risk. In fact, purposeful and appropriate risk taking is essential

for the Company to continue to grow and execute its strategic plan.

The Company's risk management framework includes the following components: risk identification, risk assessment, risk management and monitoring and communication. During the risk identification process, risk heat maps are developed. The risk heat maps reflect a variety of risks that the Company faces, including strategic, operational, compliance and financial risks that may affect the operations and/or financial performance of our businesses. During the risk management process, appropriate actions are identified to manage the specific risk, and processes are established to continually monitor identified risks.

Senior management is involved in the decision-making process, is aware of the known risks, and is intimately involved in the monitoring and mitigation of the identified risks. As part of its responsibilities, senior management updates the Board or Audit Committee, as appropriate, on the monitoring and mitigation of identified risks and the Board and/or Audit Committee provides direction to management as it deems appropriate. The Company's executive officers report to the Board regularly regarding financial and investment decisions, strategic plan initiatives, and other activities that may involve material risks that the Company may face. Board members remain informed

CHESAPEAKE UTILITIES CORPORATION - 2016 Proxy Statement 14

on industry trends, Company-wide strategic initiatives, key financial barometers and other matters relevant to the Company and its businesses. This provides the Board members with a comprehensive understanding of our initiatives, and allows the Board to effectively consider and evaluate the various risks associated with the Company, its businesses and its strategic initiatives.

In addition to the Board's general oversight role, the Audit, Compensation and Corporate Governance Committees focus on specific risks. The Audit Committee reviews and discusses with management the Company's guidelines and policies that govern the process by which risk assessment and risk management activities are undertaken. The Audit Committee also reviews with management the Company's major risk exposures relating to strategic, operational, compliance, and financial areas and the steps management has taken to monitor and control such exposures. The Audit Committee approved the Company's formal Global Risk Management Policy which outlines the Company's risk management framework and serves to guide the Company's overall risk management process. The Audit Committee receives updates and documents on this plan, including the Company's short-term and long-term risk assessments and risk heat maps that reflect the Company's most significant risks as discussed above. Formal risk identification, evaluation and monitoring steps are completed by the Company and reviewed with the Audit Committee, prior to finalizing the risk assessment and risk heat maps. In 2015, the Company engaged an independent third-party to conduct a more formalized cybersecurity and physical security program assessment across our technology environments and key facilities. Several recommendations from this independent assessment have been or are currently in process to be implemented throughout the organization. In 2015, the Company took the following actions, among others, to further protect our business from potential cyber or physical security risk: i) added additional key members to our team, ii) added new security mechanisms to further protect key assets, iii) developed strong relationships among the private sector and government agencies, iv) participated in an industry specific symposium, v) established several security teams comprised of select members of management that collectively review best practices, recent security events, and respond to security inquires, and vi) adopted several policies, controls and procedures to further enhance our security posture. The Audit Committee routinely receives updates and is actively engaged in these matters. The Audit Committee also reviews the Company's insurance program and various coverages, which serve to mitigate some of the Company's key risks. In 2015, the Audit Committee reviewed an in depth analysis of the Company's cyber insurance policy.

The Compensation Committee focuses on our compensation program and ensures the program appropriately incentivizes short-term and long-term financial and operational performance, without encouraging unnecessary risk. The Compensation Committee also considers risks related to organizational development, executive recruitment, retention and succession planning. The Corporate Governance Committee focuses on risks that arise in connection with the Company's governance structure and processes, including Board structure and composition, director independence, and related governance practices.

In addition, management-level implementation committees have been established to assist in identifying, assessing and managing risks, including a Global Risk Management Committee. The Company also has internal resources that provide support, oversight and direction for the Company's risk management program. The Global Risk Management program is aligned with the Company's other risk management functions under our Internal Audit team to provide a broader approach to identifying, assessing, managing and monitoring risk.

Overall, the Company maintains both top down and bottom up approaches in regards to risk identification, awareness, management and monitoring.

Standing Committees of the Board

The standing committees of the Board are the Audit Committee, Compensation Committee, and Corporate Governance Committee. Each of the Committees is comprised solely of independent directors. Each Committee member attended 75 percent or more of such members' applicable Committee meetings.

Audit Committee

In 2015, the Audit Committee continued to focus on the Company's risk management process, as well as our cyber and physical security program. The Committee oversaw an independent third-party assessment on the Company's security program, which led to several significant enhancements that further protect the Company's key assets.

CORPORATE GOVERNANCE

Director Nomination Process

The Corporate Governance Committee regularly engages in discussion on Board composition and succession planning. The Corporate Governance Committee identifies potential director nominees through contacts in the business, civic and legal communities and a variety of other sources. The Committee may retain a search firm or utilize third-party database search tools to identify director nominees. Stockholders may nominate candidates for election as directors by submitting a written submission to the Corporate Secretary at the Company’s principal offices not less than 90 days nor more than 120 days prior to the annual meeting at which directors are to be elected. The written submission must comply with the provisions of the Company’s Bylaws and the Corporate Governance Committee’s Charter. The Corporate Governance Committee will consider all candidates recommended by stockholders who comply with these provisions and satisfy the Director Eligibility Guidelines.

The Corporate Governance Committee will consider several factors prior to nominating a candidate. Generally, the Committee will consider the existing size and composition of the Board, evaluate biographical information and other background material, and interview each candidate selected. The Committee will apply any director selection criteria adopted by the Corporate Governance Committee based on the circumstances at the time and the criteria set forth in the Company’s Corporate Governance Guidelines. In addition to the personal characteristics and core competencies provided in our Director Eligibility Guidelines described below, the Corporate Governance Committee reviews other criteria such as: a candidate’s judgment; knowledge of our industry; business and service areas; community involvement; availability and commitment to carry out the responsibilities as a director of the Company (directors may not be directors of more than two public companies in addition to the Company); and the candidate’s independence under applicable regulations and listing standards.

Governance Trends and Director Education

The Board and its Committees proactively monitor legislative and regulatory initiatives, market trends, as well as other corporate governance trends and their potential impact on the Company. Each director has access to publications and other resources that cover these matters. In 2014 and 2015, the Board received presentations from two of our long-term institutional investors, which provided additional information on portfolio management roles and processes associated with their investment decisions, as well as the firms' views on the Company's performance, industry dynamics, and valuation. In previous years, professionals in the financial community presented on various aspects of the utility industry, including the then current macro economic outlook, market trends, utility industry fundamentals, downstream utility focus, current valuations, investor perception, industry framework, and current industry topics. Experts in the areas of corporate governance, proxy advisory services and investor relations have also spoken to the Board on regulatory actions, governance trends and various other corporate governance topics. The Board has also received corporate governance updates from a Chancellor from the Delaware Court of Chancery, a Chief Justice of the Delaware Supreme Court, and established members of the academic, governance, investor relations, legal and financial communities who are experienced in the utilities industry and the broader market. Directors participated in continuing education sessions to remain informed on recent trends applicable to their Committee duties. Certain directors also participate in continuing legal education. Newly elected directors participate in a comprehensive director orientation program that covers, among other things, our strategy, business structure, financial performance, and competitive landscape. As part of this program, directors are invited to participate in a tour of selected facilities of the Company. Several of our Board meetings are held in various locations throughout our service territories. This provides directors the opportunity to become more familiar with our operations and the communities we serve. During these visits, the Board also has the opportunity to engage with our employees in the applicable service areas. Industry experts have also spoken to the Board on such topics as energy trends, market factors and competition, growth opportunities, key customer growth expectations, and future outlook.

The Committees actively engage with senior management and other parties when necessary to further assess the current environment or respond to governance related matters. Cook & Co. has routinely provided the Compensation Committee with updates on the status of compensation-related initiatives under the Dodd-Frank Act. The Corporate Governance Committee and Audit Committee each routinely receive updates on matters applicable to their responsibilities from legal counsel and independent consultants. The Committees also receive regulatory and legislative updates at their respective meetings.

CHESAPEAKE UTILITIES CORPORATION - 2016 Proxy Statement 20

Related Persons Transactions. We review relationships and transactions in which the Company, or any of its subsidiaries, and our executive officers, directors, director nominees, 5% or greater stockholders or their immediate family members are participants to determine whether such related persons have a direct or indirect material interest. A related person transaction would include, but is not limited to, any financial transaction, arrangement or relationship, any indebtedness or guarantee of indebtedness and any series of similar transactions, arrangements or relationships. In determining whether to approve or ratify a related person transaction, the disinterested members of the Audit Committee, as part of an annual review or as required, will consider the relationship of the individual to the Company, the materiality of the transaction to the Company and the individual, and the business purpose and reasonableness of the transaction. The Audit Committee may approve or disapprove the transaction and direct the officers of the Company to take appropriate action. The Audit Committee may also refer the matter to the full Board with a recommendation. If it is determined that a related person transaction is directly or indirectly material to the Company or a related person, the transaction will be disclosed in the Company's proxy statement.

The Company has established procedures in order to identify material transactions and determine, based on the relevant facts and circumstances, whether the Company or a related person has a direct or indirect material interest in the transaction. This includes discussions with the Company's Board, as well as dissemination of a questionnaire that directors and executive officers are required to complete annually. Director nominees, including those nominated by stockholders, are also required to complete a questionnaire in a form similar to that completed annually by directors and executive officers.

The Company's Code of Ethics requires that individuals provide prompt and full disclosure of all potential conflicts of interest (including related person transactions) to the appropriate person. These conflicts of interest may be specific to the individual or may extend to his or her family members. Any officer who has a conflict of interest with respect to any matter is required to disclose the matter to the Chief Executive Officer, or if the Chief Executive Officer has a conflict of interest, the Chief Executive Officer would disclose the matter to the Audit Committee. All other employees are required to disclose any conflict of interest to Internal Audit. Directors are required to disclose any conflict of interest to the Chair of the Board and to refrain from voting on any matter(s) in which they have a conflict. In addition, directors, executive officers and designated employees disclose to the Company, in an annual ethics questionnaire, any current or proposed conflict of interest (including related person transactions).

All employees and executive officers are encouraged to avoid relationships that have the potential for creating an actual conflict of interest or a perception of a conflict of interest. The Company's Code of Ethics provides specific examples that could represent a conflict of interest, including, but not limited to, the receipt of any payment, services, loan, guarantee or any other personal benefits from a third party in anticipation of or as a result of any transaction or business relationship between the Company and the third party. No employee or executive officer is permitted to participate in any matter in which he or she has a conflict of interest unless authorized by an appropriate Company official and under circumstances that are designed to protect the interests of the Company and its stockholders and to avoid any appearance of impropriety.

For the period beginning January 1, 2015 and ending March 10, 2016, there were no transactions, or currently proposed transactions, in which the Company was or is to be a participant and the amount involved exceeds \$120,000, and in which any related person had or will have a direct or indirect material interest.

Anti-Hedging Policy and Pledges of Securities. Directors, executive officers and employees of the Company may not engage in hedging transactions related to the Company's stock or pledge the Company's stock as collateral for a loan. The Chief Financial Officer may grant an exception to an individual who desires to pledge the Company's stock as collateral for a loan (excluding margin debt) if such individual clearly demonstrates the financial capacity to repay the loan without resort to the pledged securities. No exception was granted in 2015 or as of the date of this Proxy Statement.

Executive Sessions. The Chair of the Board presides over executive sessions of the non-management directors. The Company's Corporate Governance Guidelines ensure the integrity of these meetings by providing that the Chair of the Corporate Governance Committee would preside over these meetings in the event that the Chair of the Board was a management director. The Corporate Governance Guidelines also provide that if the non-management directors included any director who did not qualify as independent under the NYSE Listing Standards, the independent directors would meet at least annually without the non-independent director(s).

Board and Committee Self-Evaluations

Annually, the Corporate Governance Committee reviews and establishes the criteria that is used by the Board and each standing Committee prior to conducting self-evaluations for performance during the preceding year. The Board and its Committees conduct self-evaluations to, among other things, assess the qualifications, attributes, skills and experience represented on the Board and its Committees; ensure that appropriate resources are available to the Board and its Committees; and ensure the Board and its Committees are functioning effectively. The Chair of the Corporate Governance Committee receives a report of the results of the Board and Corporate Governance Committee Self-Evaluations. The Chairs of the Audit Committee and Compensation Committee receive a report of the results of their respective Committee Self-Evaluations. The Committee Self-Evaluation results are discussed at Committee meetings and reported to the Board at the next Board meeting. A director who is also an employee of the Company receives no additional compensation for his or her service as a director.

Each non-employee director receives cash and equity compensation for his or her service on the Board. In May 2015, the Board approved several changes to non-employee director compensation, including the elimination of meeting fees, as reflected in the table below. Directors may not elect to receive their cash compensation in stock. Directors are also reimbursed for business expenses incurred in connection with attending meetings and performing other Board-related services, including external director education.

2013 Stock and Incentive Compensation Plan

In 2013, stockholders approved the Company's 2013 Stock and Incentive Compensation Plan (the "2013 Equity Plan") under which non-employee directors are eligible to receive shares of our common stock. The full text of the plan can be reviewed on page 55 of our Proxy Statement that was filed with the SEC on April 2, 2013. The 2013 Equity Plan enhances stockholder value by ensuring that directors have a proprietary interest in our growth and financial success. The Board has the authority to determine the number and type of equity or stock awards to be granted to non-employee directors under the 2013 Equity Plan. Each director has the right to vote the shares awarded under the 2013 Equity Plan and to receive dividends on the shares. Each director is individually responsible for any tax obligations in connection with these shares.

Non-Qualified Deferred Compensation Plan

Directors may defer all or a portion of their meeting fees and annual retainers in accordance with the Chesapeake Utilities Corporation Non-Qualified Deferred Compensation Plan (the "Non-Qualified Deferred Compensation Plan") which is described in detail on page 47 in this Proxy Statement. Deferrals made under the Non-Qualified Deferred Compensation Plan are on a pre-tax basis until the Director's separation from service with the Company and its affiliates or another specified date. At all times, directors have a 100 percent vested interest in the amount of cash or stock that is deferred.

Director Stock Ownership

All non-management directors are required to own at least 9,000 shares of our common stock while serving as a director of the Company. Directors have five years after initial election to attain this ownership threshold. All directors currently own shares of stock exceeding this threshold or will continue to acquire shares in an effort to achieve their requisite ownership within the established timeframe. Directors may acquire their ownership through several means, including making purchases on the open market, making optional cash investments through our Dividend Reinvestment and Direct Stock Purchase Plan, and receiving a share award under the 2013 Equity Plan. Deferred stock units are applied toward achieving this ownership requirement. Each deferred stock unit is equivalent to one share of the Company's common stock.

Independent Compensation Consultant's Report

In May 2015, the Compensation Committee received a Non-Employee Director Compensation presentation (the "Analysis") prepared by Cook & Co. The Analysis compared our then current director compensation arrangements against the Company's peer group and a broader utility industry. The peer group used for the purposes of this Analysis is the same group of companies used to evaluate the Company's executive compensation program. The Analysis reviewed various elements of director compensation, including annual cash and equity retainers, meeting fees, and committee compensation. The Compensation Committee reviewed and discussed the Analysis that was prepared by Cook & Co. The Compensation Committee, after consideration of the Analysis and other relevant factors, recommended changes to the Board to further align director compensation with that of the peer group and broader industry, including increases to the Board cash and equity retainers, implementation of a committee member retainer, and elimination of Board and Committee meeting fees. The Board approved the Compensation Committee's recommendations at its meeting held in May 2015, as reflected in the Non-employee Director Compensation Table on page 24. In the future, the Board may modify director compensation as it deems appropriate.

The Fees Earned or Paid in Cash column reflects meeting fees for applicable Board and Committee meetings held between January 1, 2015 and May 6, 2015, as well as Board, Chair and Committee member retainers paid in May 2015. This column also reflects payment received in 2015 for an M&A Committee meeting held in December 2014 as further discussed in footnote 4 below.

The Stock Awards column reflects the grant date fair value on May 6, 2015 of \$54,966 (1,207 shares based upon a price per share of \$45.54, the closing price on May 5, 2015). The stock awards and all prior stock awards are fully vested in that they are not subject to forfeiture.

There is no compensation that needs to be included in Option Awards, Non-equity Incentive Plan Compensation, or Change in Pension Value and Non-Qualified Deferred Compensation Earnings columns. Dividends on deferred stock units in the Non-Qualified Deferred Compensation Plan (which are settled on a one for one basis in shares of common stock) are the same as dividends paid on the Company's outstanding shares of common stock. Additionally, cash meeting fees and retainers deferred under the Non-Qualified Deferred Compensation Plan have investment crediting options that are the same as investment options available to all employees under the Company's Retirement Savings Plan (a qualified 401(k) Plan). As a result, the directors participating in the Non-Qualified Deferred Compensation Plan do not receive preferential earnings on their investments. Directors do have the ability to purchase propane at the same discounted rate that we offer to our employees, the value of which, when combined with all other perquisites and personal benefits, does not exceed \$10,000 in the aggregate.

The M&A Committee was established in June 2011 to assist the Board in carrying out its responsibilities to evaluate potential opportunities. Messrs. Adkins, Bresnan, Hill, Morgan and Schimkaitis served as members of the ad-hoc M&A Committee in connection with the Company's merger with Gatherco, Inc in April 2015. In 2015, they each received \$1,000 for their attendance at a meeting held in December 2014.

Dr. Forsythe deferred his annual stock retainer (\$54,966). Mr. Hill deferred his annual cash retainer (\$65,000), meeting fees (\$5,400), committee member retainer (\$5,000), and annual stock retainer (\$54,966). All deferrals were made in accordance with the terms of the Non-Qualified Deferred Compensation Plan.

The All Other Compensation column reflects compensation received by Mr. Schimkaitis pursuant to the Consulting Agreement effective January 3, 2011 (the "Agreement") between the Company and Mr. Schimkaitis. The Agreement was subsequently renewed on an annual basis pursuant to the terms of the Agreement until it was terminated by mutual agreement on May 6, 2015. The Agreement provided for Mr. Schimkaitis to perform consulting services for up to 400 hours per year as requested by the Board. The terms of the Agreement under which consulting fees were paid to Mr. Schimkaitis were disclosed in the Director Compensation section of the Company's Proxy Statement filed with the SEC on March 31, 2015.

COMPENSATION DISCUSSION AND ANALYSIS

Executive Summary

We are committed to pursuing growth opportunities in a manner that generates future value for our stockholders. In 2015, we generated record earnings for the ninth consecutive year. In 2015, our net income was \$41.1 million, or \$2.72 per share (diluted) compared to \$36.1 million, or \$2.47 per share (diluted). This represents an increase in diluted earnings per share of \$0.25, or 10.1 percent.

Thanks to our employees' continued efforts to transform opportunities into profitable growth, our performance throughout the first nine months of the year drove our results for the year despite significantly warmer temperatures, particularly in the fourth quarter, and resulted in top quartile performance in 18 of 20 financial benchmarks compared to our peers. We remained steadfast in the continued execution of our strategic plan, working tirelessly on several large growth projects, including the combined heat and power plant in Florida and new natural gas transmission services on the Delmarva Peninsula, while continuing to identify and develop additional growth opportunities within and beyond our current markets. In 2015, we also completed the acquisition of Gatherco, Inc. an unregulated natural gas infrastructure company in Ohio that has the potential to yield higher than traditional regulated returns. All of these efforts position our Company for continued growth in the future. In 2015, our results translated into a 12.1 percent return on equity ("ROE"), which represents performance exceeding regulated utility returns. Over the past five years, we have consistently generated ROEs between 11.6 percent and 12.2 percent.

CHESAPEAKE UTILITIES CORPORATION - 2016 Proxy Statement 28

In 2015, the Board increased the dividend paid to our stockholders on an annualized basis by \$0.07 per share, or 6.5 percent (which is on a post-split basis reflecting the three-for-two stock split, effected in the form of a stock dividend, on September 8, 2014). This resulted in an annualized dividend of \$1.15 per share. 2015 represents the 55th consecutive year that the Company has paid a dividend to its stockholders. In each of the 55 years, the Company has either maintained or increased its annualized dividend. The growth in our dividend reflects the financial strength of the Company. The Company is positioned to have sustainable dividend growth and is committed to dividend growth that is supported by earnings growth.

Dividend Track Record

The combination of stock price appreciation and dividends for the year produced a total return to stockholders of approximately 17 percent. Over each period considered (one, three, five, ten or twenty years), stockholders have achieved average annual returns in excess of 14 percent. The Company has consistently achieved top quartile performance in 18 of 20 financial benchmarks relative to companies in its peer group.

CHESAPEAKE UTILITIES CORPORATION - 2016 Proxy Statement 29

Our strong performance in 2015 is a result of our steadfast commitment to pursuing growth opportunities with discipline, determination and drive. Our results in 2015 are a culmination of the growth efforts that we initiated several years ago. Our earnings growth, because of the significance of our regulated operations, is driven by the additional capital investments we make. To sustain or increase our earnings growth rate, we invest in additional capital expenditures that generate returns equal to or greater than their respective target returns. We continued to expend high levels of capital in 2015, as measured by the ratio of capital expenditures (including acquisitions) to total capitalization.

Investing For Future Growth

(Capital Expenditures [including acquisitions] / Total Capitalization)

The Compensation Committee's approach to executive compensation encompasses practices that focus on a fair, reasonable and competitive executive compensation program while also aligning total compensation to our business objectives and performance. These practices include, but are not limited to:

The Compensation Committee retains discretion in administering all awards and performance goals, and determining performance achievement.

- Each incentive award features a cap on the maximum amount that can be earned for any performance period. Dividends on the equity incentive awards accrue in the form of dividend equivalents during the performance period and are only paid to the named executive officers if the awards are earned and then only in proportion to the actual shares earned.

Stock ownership guidelines are in place for the named executive officers, with a specified timeframe to attain the ownership threshold.

Each named executive officer is subject to a compensation recovery policy that requires the repayment by the executive if an incentive award was calculated based upon the achievement of certain financial results or other performance metrics that, in either case, were subsequently found to be materially inaccurate.

The Company does not provide excise tax gross-up protections.

Named executive officers generally may not engage in hedging transactions or pledge the Company's stock as collateral for a loan.

The Non-Qualified Deferred Compensation Plan and the Pension SERP (which was frozen as of January 1, 2005) are traditional plans that cover compensation not included in the qualified plans as a result of IRS compensation limitations. These plans do not provide additional benefits to the named executive officers or additional future years of service.

With the exception of Company vehicles that are available for personal use, but which are treated as compensation to the named executive officers, there are no perquisites. Named executive officers participate in the same benefits that are available to other employees of the Company.

The life insurance benefit provided to employees of the Company is capped at \$500,000 which limits the benefit to highly compensated individuals.

The Compensation Committee promotes a pay-for-performance culture by designing an executive compensation program that includes both base salary and performance-based incentive awards. Our Compensation Committee focuses on aligning total compensation with our business objectives thereby increasing stockholder value. Our executive compensation program consists of three components – base salary, performance-based cash incentive awards (“cash incentive awards”) granted pursuant to our 2015 Cash Plan, and performance-based equity incentive awards (“equity incentive awards”) granted pursuant to the 2013 Equity Plan. The Compensation Committee believes that our compensation program aligns the financial interests of the executive officers with the interests of stockholders.

Key Compensation Committee Actions Relating to Compensation Received by Named Executive Officers in 2015

The Compensation Committee sets base salaries at competitive levels to attract, recruit, and retain executive officers that have the knowledge and skills necessary to achieve the Company’s established goals. For 2015, the Compensation Committee considered the following prior to adjusting base salaries: results of the study provided by Cook & Co., functional role of the position, scope of the individual’s responsibilities, prior year’s performance, and competitive nature of our business. Effective April 1, 2015, base salaries for the named executive officers increased from 1.5 to 15.8 percent over their respective base salaries for the prior year.

Each named executive officer received performance-based incentive awards that comprised 55 percent or more of their total direct compensation for 2015. For 2015, cash incentive awards for each named executive officer were based on achieving pre-established financial and non-financial targets, with the financial component representing 80 percent of the payout opportunity. The named executive officers were evaluated on an earnings per share financial target of \$2.54, with a payout opportunity of 0 to 200 percent based upon a band of earnings per share levels centered around the \$2.54 per share target. Additionally, Mr. Householder was evaluated on an aggregate pre-established operating income of \$28.9 million for several energy businesses in Florida, with a payout opportunity of 0 to 200 percent based upon a band of operating income centered around \$28.9 million. As a result of the Company’s earnings and the achievement of individual performance goals, the cash incentive award (including any discretionary bonus) payout for 2015 performance ranged from 56 to 116 percent of base salary as reported in the Summary Compensation Table for each named executive officer.

The larger piece of incentive compensation focuses on long-term performance. The Compensation Committee established three performance components on which Messrs. McMasters and Thompson and Mmes. Cooper and Bittner’s awards were based – Shareholder Return, Growth in Long-Term Earnings, and Earnings Performance. Each named executive officer received an equity incentive award based upon an evaluation of the Company’s performance relative to the performance of a peer group and a ROE pre-established scale over the 2013 to 2015 performance period. For the first component, Shareholder Return, the Company’s total shareholder returns for the three years ended December 31, 2015 exceeded the peer group companies’ total shareholder returns for the same period. For the second component, Growth in Long-Term Earnings, the Company’s total capital expenditures as a percent of total capitalization for the 2013 to 2015 performance period was in the 90th percentile of the peer group. For the third component, Earnings Performance, the Company’s average ROE for the three years ended December 31, 2015 was 12.1 percent. Based upon these results, the percentage earned for each performance component was 150 percent of the target. Dividends on the equity incentive awards accrue in the form of dividend equivalents during the performance period and are paid to the respective named executive officer in proportion to the actual shares earned. Accordingly, the named executive officers received dividends on the maximum equity award.

Mr. Householder received a long-term incentive award based on achievement of targets related to performance components established by the Company’s Chief Executive Officer – Shareholder Return, Growth in Long-Term Earnings, and Earnings Performance. The Shareholder Return component was identical to that applicable to the other named executive officers in terms of performance metrics and outcome. For purposes of determining the actual bonus awards under the Growth in Long-Term Earnings and Earnings Performance components for Mr. Householder, the combined investment levels and financial results for several of the Company’s regulated and unregulated energy businesses in Florida were included. For the first component, Shareholder Return, the Company’s total shareholder returns for the three years ended December 31, 2015 exceeded the peer companies. For the second component,

Growth in Long-Term Earnings, total capital expenditures as a percent of total capitalization for these Florida operations for the 2013 to 2015 performance period was in the 90th percentile of the peer group. For the third component, Earnings Performance, average ROE for the three years ended December 31, 2015 for these Florida operations was 8.86 percent. Based upon these results, the percentage earned for the Shareholder Return and Growth in Long-Term Earnings components was 150 percent. Based on average ROE, the Earnings Performance component payout was zero. Mr. Householder received dividends on the maximum equity awards for the Shareholder Return and Growth in Long-Term Earnings components.

Say-on-Pay

At the 2014 Annual Meeting, stockholders voted, on a non-binding, advisory basis, on the executive compensation of our named executive officers. Approximately 93.9 percent of the votes cast by stockholders were voted to “approve” the compensation of our named executive officers. The Compensation Committee acknowledged stockholders’ widespread support for the Compensation Committee’s executive compensation decisions, program and policies as reflected in the voting results. The Compensation Committee will consider advisory stockholder votes in the future when determining executive compensation. The next Say-on-Pay advisory vote will occur at the 2017 Annual Meeting. The next advisory vote on the frequency of the Say-on-Pay advisory vote will also occur at the 2017 Annual Meeting. We refer you to our narrative and related tables in the Compensation Discussion and Analysis, Executive Compensation, and other relevant sections within this Proxy Statement for a more detailed discussion on the information provided above, as well as information on other practices utilized by the Compensation Committee, including executive stock ownership requirements, the compensation recovery policy, and executive employment agreements.

In December 2014, the Compensation Committee reviewed and discussed the market analysis that was prepared by Cook & Co. and related factors to assess the competitiveness of base salary levels. Cook & Co.'s market assessment compared the Company's base salaries for the named executive officers against market data for the Company's peer group, as well as from industry published survey data. Cook & Co. concluded that base salaries for the named executive officers are within a competitive range of the market median for the Company's peer group. In March 2015, the Committee reviewed base salaries for the Chief Executive Officer and the four other named executive officers for the ensuing year. The table below provides information on the Company's peer group that is used by the Compensation Committee to benchmark compensation practices. This peer group is in a comparable industry and relative in terms of the Company's market capitalization and revenues, which is presented as of December 31, 2015.

Peer Company	Market Capitalization (millions)	Revenues (millions)
Delta Natural Gas Company, Inc.	\$149	\$74
Empire District Electric Company	\$1,230	\$653
The Laclede Group, Inc.	\$2,580	\$1,756
MGE Energy, Inc.	\$1,609	\$564
Northwest Natural Gas Company	\$1,388	\$724
South Jersey Industries, Inc.	\$1,669	\$960

Suburban Propane Partners LP	\$1,504	\$1,270
Unitil Corp	\$502	\$427

The Compensation Committee considered the following: results of the market assessment performed by Cook & Co.; functional role of the position; scope of the individual's responsibilities; prior year's performance; and competitive nature of our business. Effective April 1, 2015, base salaries for the named executive officers increased from 1.5 to 15.8 percent over their respective base salaries for the prior year. These increases further align the named executive officers' base salaries with market practices.

2015 Cash Incentive Award

For 2015, the Compensation Committee was authorized to grant cash incentive awards to each named executive officer under the 2015 Cash Plan approved by stockholders in 2015. Generally, the target cash incentive award opportunity for each named executive officer are set at an amount that approximates the median prevailing practices of the industry peer group and broader utility industry for comparable positions. The actual award earned for all named executive officers can range from 0 to 150 percent of the target cash incentive award for the non-financial component and from 0 to 200 percent of the target cash incentive award for the financial component, depending on actual performance at the end of the performance period as compared to the performance targets. The Compensation Committee may use its discretion to adjust a participant's cash incentive payout amount upward or downward based on unanticipated and/or extraordinary events.

In January 2015, the Compensation Committee established financial and non-financial performance targets under the 2015 Cash Plan for Messrs. McMasters, Thompson and Householder and Mmes. Cooper and Bittner. These named executive officers were evaluated on an earnings per share financial target of \$2.54. Additionally, Mr. Householder was evaluated on an aggregate pre-established operating income of \$28.9 million for several regulated and unregulated energy businesses in Florida. Each named executive officer also had established individual goals that are evaluated by the Compensation Committee in connection with determining the extent to which the individual met his or her non-financial targets, including: (i) Leadership, (ii) Employee Engagement, and (iii) Service Excellence. The named executive officers may earn a cash incentive award upon achieving his or her pre-established financial and non-financial targets based on the Compensation Committee's evaluation. The Compensation Committee reserves the right to consider additional performance criteria for the Chief Executive Officer related to pursuing strategic or operational opportunities.

The following table shows each named executive officer's target cash incentive award, based on such named executive officer's base salary as of December 31, 2015 and weighting for the financial and non-financial performance targets. In February 2016, the Compensation Committee reviewed the performance of each named executive officer and, based on that review, authorized the payment of cash incentive awards as reflected in the table below.

(1) In addition to receiving a cash incentive award, Mr. Householder received a discretionary bonus. More information on the bonus is available in footnote 2 of the Summary Compensation Table.

Equity Incentive Awards Granted in 2015

The Compensation Committee is authorized to grant equity incentive awards to each named executive officer under the 2013 Equity Plan approved by the Company's stockholders in 2013. Our long-term incentive program is 100 percent performance-based, featuring annual grants of shares that are awarded if pre-established targets are achieved at the end of the three-year performance period. The equity incentive awards are designed to reward executives for improving stockholder value by achieving growth in earnings while investing in the future growth of both our regulated and unregulated energy businesses. The actual award earned for all named executive officers can range from 0 to 150 percent of the target equity incentive award, depending on actual performance at the end of the performance period as compared to the performance targets. The payout opportunity is 0% (minimum), 50% (threshold), 100% (target), and 150% (maximum) of the target equity award for each named executive officer. The awards granted for the performance periods are pursuant and subject to the terms of Performance Share Agreements, including vesting periods, entered into by the Company and each of the named executive officers. The Compensation Committee has granted equity incentive awards to Messrs. McMasters, Thompson and Householder and Mmes. Cooper and Bittner for the January 1, 2015 through December 31, 2017 performance period.

In January 2015, the Compensation Committee granted performance-based equity awards to the named executive officers as follows:

Named Executive Officer	Equity Incentive Award Opportunity for the 2015-2017 Performance Period				Value of Each Performance Component at Target			
	Base Salary (as of January 13, 2015)	Bonus Opportunity (% of Base Salary)	Target Equity Value	Average Closing Stock Price Per Share from 11/1/2014 -12/31/2014	Target Equity Shares	Shareholder Return (30% Weighting)	Growth in Long-Term Earnings(35% Weighting)	Earnings Performance(35% Weighting)

The Compensation Committee approved performance components set forth below for the equity incentive awards granted to the named executive officers.

Performance Component	Benchmark	Description of Benchmark	Percent Target Award
Shareholder Return	Total shareholder return compared to the total shareholder returns of companies included in the peer group for the performance period	Shareholder Return incentivizes executives to generate additional value for our stockholders	30%
Growth in Long-Term Earnings	Total capital expenditures as a percent of total capitalization as compared to companies in the peer group for the performance period	In the long-term, the Company's growth is dependent upon continuous investment of capital at levels sufficient to drive growth	35%
Earnings Performance	Average ROE compared to pre-determined ROE targets	ROE measures the Company's ability to generate current income using equity investors' capital	35%

The Compensation Committee evaluates achievement of the Shareholder Return and Growth in Long-Term Earnings performance components for the named executive officers based upon evaluating the Company's performance relative to the performance of a peer group over the applicable thirty-six month performance period. The Company's performance is ranked against the performance of the peer group. The payout opportunity is based on the Company's percentile ranking against the companies in the peer group for each of these two performance components as shown in the table below.

CHESAPEAKE UTILITIES CORPORATION - 2016 Proxy Statement 35

Internal Audit performs a review of the equity incentive awards and reports on the accuracy of the calculations. Equity Incentive Award for the 2014-2016 Performance Period

In January 2014, the Compensation Committee established equity incentive awards for Messrs. McMasters and Thompson and Mmes. Cooper and Bittner for the 2014-2016 performance period. The target equity incentive awards were as follows: Mr. McMasters (8,634 shares), Mr. Thompson (4,186 shares), Ms. Cooper (3,728 shares), and Ms. Bittner (3,074 shares). In April 2014, the Chief Executive Officer established a target equity incentive award for Mr. Householder of 3,578 shares. The features of these awards are similar to those provided above for the equity incentive awards relating to the 2015-2017 performance period. Each named executive officer is entitled to earn the performance shares at the end of the performance period depending on the extent to which performance targets are achieved.

Equity Incentive Award for the 2013-2015 Performance Period

In January 2013, the Compensation Committee established equity incentive awards for Messrs. McMasters and Thompson and Mmes. Cooper and Bittner for the 2013-2015 performance period. The target equity incentive awards were as follows: Mr. McMasters (10,007 shares), Mr. Thompson (5,171 shares), Ms. Cooper (4,575 shares) and Ms. Bittner (3,738 shares). The features of these awards are similar to those provided above for the equity incentive awards relating to the 2015-2017 performance periods. The Chief Executive Officer established a target equity incentive award for Mr. Householder of 4,428 shares. The features of Mr. Householder's equity incentive award are similar to that provided above for the equity incentive awards relating to the 2015-2017 performance period; however, the Growth in Long-Term Earnings performance component includes an evaluation of the performance of several of the Company's regulated and unregulated energy businesses in Florida relative to the performance of the peer group over the applicable thirty-six month performance period, and the Earnings Performance component includes an evaluation of the average ROE for these businesses in Florida over the three-year performance period. Each named executive officer is entitled to earn the performance shares at the end of the performance period depending on the extent to which performance targets are achieved. The Compensation Committee met in February 2016 to review the extent to which the named executive officers achieved the performance targets established for the 2013-2015 performance period as summarized in the following table. As a result of this performance, the named executive officers received the following shares for the 2013-2015 performance period.

Named Executive Officer	Total Equity Target Shares for the 2013-2015 Performance Period	Achievement of Performance Components at 150%			Actual Payout for the 2013 - 2015 Performance Period

Outstanding Equity Awards

In January 2014 and January 2015, the Compensation Committee granted performance shares to Messrs. McMasters and Thompson and Mmes. Cooper and Bittner for the 2014-2016 and 2015-2017 performance periods. For Mr. Householder, the Chief Executive Officer granted performance shares for the 2014-2016 performance period and the Compensation Committee granted performance shares for the 2015-2017 performance period. The values of the 2014-2016 equity awards are reflected in the Stock Award column for 2014 in the Summary Compensation Table. The values of the 2015-2017 equity awards are reflected in the Stock Award column for 2015 in the Summary Compensation Table. The grant date fair value of the 2015-2017 target equity awards are reflected in the Grant Date Fair Value of Stock Awards column in the Grants of Plan-Based Awards Table. Please refer to pages 35 and 36 in this Proxy Statement for additional details on this award.

All Other Compensation

In addition to the primary components of the executive compensation program, we offer certain other benefits to the named executive officers. The aggregate value of these benefits for each named executive officer is more than \$10,000 and is reflected in the All Other Compensation column of the Summary Compensation Table.

During 2015, the Company provided each named executive officer with a Company-owned vehicle that is available for personal use, but which is treated as compensation to the named executive officers. Each named executive officer's Form W-2 that is filed with the IRS includes imputed income for the personal use of the Company-owned vehicle. This imputed income has no effect on the Company's revenues or expenses. Each named executive officer is responsible for the payroll taxes associated with personal usage.

- On behalf of each employee, including the named executive officers, we also pay an annual premium in connection with term life insurance. The life insurance benefit of two times base salary is capped at \$500,000, which limits the benefit to highly compensated employees of the Company such as the named executive officers.

Named executive officers also have the ability to purchase propane at the same discounted rate that we offer to our employees.

For 2015, each named executive officer who participated in the qualified 401(k) Retirement Savings Plan received matching contributions of 100 percent of up to 6 percent of eligible cash compensation deferred in the plan up to the applicable statutory compensation limit. This was the same benefit available to other employees of the Company. The IRS limits the amount of pre-tax contributions that a participant may make to his or her qualified 401(k) Retirement Savings Plan. The Company's Non-Qualified Deferred Compensation Plan enables named executive officers to make pre-tax deferrals of compensation over that limit. We match contributions in the same manner as the qualified 401(k) Retirement Savings Plan on compensation that exceeds the applicable statutory limit.

In addition, employees of the Company and its subsidiaries, as applicable, including the named executive officers, are eligible to receive an additional supplemental employer contribution at the discretion of the Company. We also make a supplemental employer contribution to the Non-Qualified Deferred Compensation Plan if such a contribution would have been made in the qualified 401(k) Retirement Savings Plan, absent the compensation limit.

Internal Revenue Code Section 162(m)

Internal Revenue Code Section 162(m) prohibits any public corporation from taking a deduction on its annual federal income tax return for compensation that exceeds \$1 million paid in any taxable year to its Chief Executive Officer or to any one of its three most highly compensated executive officers (excluding the Chief Financial Officer). There is an exception from this limitation for certain "performance-based" compensation as defined under Section 162(m). Compensation qualifying as "performance-based" compensation within the meaning of Section 162(m) is exempt from the deduction limit.

The Compensation Committee grants cash and equity performance-based incentive awards to the executive officers pursuant to the 2015 Cash Plan and the 2013 Equity Plan, respectively, which have been approved by stockholders. Cash incentive awards and equity incentive awards earned by the executive officers depend on actual performance at the end of the applicable performance period as compared to financial and non-financial targets that are established by the Compensation Committee at the time the awards are granted. We generally expect that awards for executive officers granted under these plans will qualify as "performance-based" compensation under Section 162(m). To maintain flexibility in compensating our executives, however, the Compensation Committee reserves the right to use its judgment to adjust the performance goals or to authorize compensation payments that may cause the awards to be subject to the Section 162(m) limit when the Compensation Committee believes that such adjustment or payments are appropriate.

Stock Ownership and Retention Guidelines

The Corporate Governance Committee is responsible for the development, oversight and monitoring of stock ownership guidelines. In November 2014, the Board amended the ownership guidelines upon the recommendation of the Corporate Governance Committee, replacing those guidelines adopted by the Board in 2006. In October 2015, the Board further reviewed the ownership guidelines to ensure its appropriateness and, consistent with the Corporate Governance Committee's recommendation, made no changes. The ownership guidelines include recommendations made by Cook & Co.

The stock ownership guidelines promote long-term profitability by aligning the interests of the named executive officers with those of the Company's stockholders. The Chief Executive Officer's stock ownership requirement is five times base salary, and all other named executive officers are at three times base salary. Named executive officers may acquire equity interests that will count toward satisfaction of the required ownership through several means, including making purchases on the open market, making optional cash investments through our Dividend Reinvestment and Direct Stock Purchase Plan, and receiving performance incentive shares that have been awarded to them by the Compensation Committee upon completion of the relevant performance period. Once a named executive officer attains his or her ownership requirement, he or she will remain in compliance with the ownership guidelines despite future changes in the stock price and base salary, as long as the named executive officer continues to own shares equal to the number of shares owned at the time the ownership requirement is met.

Role of the Compensation Committee

The Compensation Committee is solely responsible for the oversight and administration of our executive compensation program. The Compensation Committee designs, recommends to the Board for adoption as appropriate, and administers all of the policies and practices related to executive compensation. The Compensation Committee believes that the most effective compensation program is one that is designed to ensure that total compensation is fair, reasonable and competitive. The primary objectives in creating an effective compensation program are to:

- Develop an appropriate mix of compensation to enhance performance that aligns the financial interests of the executive officers with the interests of our stockholders;

- Structure the program to attract high-quality executive talent that will incentivize performance that focuses on achieving our short and long-term goals; and

- Contribute to effective development of talent through internal processes such as performance evaluations, succession planning, and leadership development.

The Compensation Committee annually reviews the executive compensation program to align (i) the program with the Company's objectives; (ii) the components of each element of compensation to arrive at a proper overall compensation level; and (iii) the compensation with that earned by executive officers in comparable positions at peer companies.

Role of Management

The Chief Executive Officer participates in the establishment of the compensation targets and payout levels for the other named executive officers. He assesses the performance for all named executive officers and recommends to the Compensation Committee the overall levels of achievement and the extent to which performance targets were attained. Upon request, named executive officers will provide supplemental material to the Compensation Committee to assist in making its determinations in regards to the overall levels of achievement. The Chief Executive Officer is not involved in any part of the setting of any component of his compensation. The Chief Executive Officer and other members of senior management attend Compensation Committee meetings at the invitation of the Compensation Committee.

Role of Independent Compensation Consultant

The Compensation Committee has engaged an independent compensation consultant to assist in reviewing the Company's executive compensation program. Cook & Co. currently advises the Compensation Committee on executive compensation and non-employee director compensation matters. Cook & Co. does not provide any other services to the Company.

Compensation Risk

There are controls in place that discourage unnecessary risk-taking. The named executive officers simultaneously participate in the Cash Incentive Plan and the 2013 Equity Plan, which provide the Compensation Committee with the ability to utilize multiple performance criteria at any given time. The Compensation Committee also has discretion and the ability to reduce awards based on the named executive officer's individual performance.

Several other features of the cash incentive award process further mitigate risk-taking and exposure, including the following: (i) financial results for the respective award period are reviewed by the Audit Committee prior to the issuance of any cash incentive award; (ii) the target for the cash incentive award is set at an amount that approximates the median cash incentive award of an industry peer group; and (iii) each cash incentive award features a cap (maximum of 150% of the target for the non-financial component and 200% of the target for the financial component) on the maximum amount that can be earned for any performance period.

The equity incentive awards compensate named executive officers for improving stockholder value by achieving growth in total shareholder return as well as growth in earnings while investing for future long-term earnings growth. The Compensation Committee believes that these awards do not encourage unnecessary risk-taking since part of the ultimate value of the award is tied to the Company's stock price and awards are staggered and cover a multi-year performance period. Additionally, several other features of the equity incentive

award process further minimize potential risk: (i) financial results for the respective award year are reviewed by the Audit Committee prior to the issuance of any equity incentive award; (ii) the total shareholder return and growth in long-term earnings over the relevant performance periods are benchmarked against the same measures for a peer group of natural gas distribution companies, and the average return on equity performance component is compared to pre-determined return on equity thresholds that are established by the Compensation Committee; and (iii) each equity incentive award features a cap (a maximum of 150% of the target) on the maximum amount that can be earned in any year. The Compensation Committee believes that the 2015 Cash Plan (and any predecessor plan) and the 2013 Equity Plan appropriately balance risk and the desire to focus on areas considered critical to the short-term and long-term growth and success of the Company.

The Compensation Committee has adopted additional practices to ensure diligent and prudent decision-making and review processes. The practices that are in place to manage and control risk include:

Although awards under the 2015 Cash Plan (and any predecessor plan) and the 2013 Equity Plan are primarily determined using targeted financial and non-financial goals, they also include components which are tied to the Company's capital budget and strategic plan that are reviewed and approved by the Board;

During its goal-setting process, the Compensation Committee considers prior years' performance relative to future expected performance to assess the reasonableness of the goals;

The 2015 Cash Plan (and any predecessor plan) and the 2013 Equity Plan include both performance and profitability measures, thus balancing growth with value creation;

The Compensation Committee retains discretion in administering all awards and performance goals, and in determining performance achievement;

Each named executive officer is subject to stock ownership guidelines commensurate with his or her position and equity awards could lose significant value over time if the Company was exposed to inappropriate, unnecessary risks which could affect our stock price; and

Each named executive officer is subject to a compensation recovery policy that requires the repayment by the named executive officer if an incentive award was calculated based upon the achievement of certain financial results or other performance metrics that, in either case, were subsequently found to be materially inaccurate.

In December 2014 and December 2015, Cook & Co. provided the Compensation Committee with a market analysis that compared the Company's executive compensation against market data for the Company's peer group, as well as from industry survey data. Target total direct compensation for the named executive officers is aligned with or slightly below the market median of the Company's peer group. The Company reviewed its compensation programs applicable to all employees in conjunction with the risks that have been identified and included in the Company's Annual Report on Form 10-K and determined that these programs do not create risk that could result in a material adverse effect on the Company.

EXECUTIVE COMPENSATION

Summary Compensation Table

The following table provides information on compensation earned for the years ended December 31, 2015, 2014 and 2013 by the Chief Executive Officer, Chief Financial Officer, and three additional most highly compensated executive officers employed by the Company at year-end (collectively, the “named executive officers”). In determining the individuals to be included in this table, we considered the roles and responsibilities for individuals serving at the Company and its subsidiaries, as well as total compensation (reduced by the change in pension value and nonqualified deferred compensation earnings), for all officers of the Company for the year ended December 31, 2015.

For Messrs. McMasters, Thompson and Householder and Mmes. Cooper and Bittner, the Company calculated the aggregate grant date fair value of the performance-based equity incentive awards for each performance period based on the estimated compensation costs on the grant date. We estimate the percent of which the Growth in Long-Term Earnings component and the Earnings Performance component are likely to be earned. The equity incentive awards have been recorded at the grant date fair value which is based on the closing price on the grant date. The Company also evaluated the likelihood of earning the Shareholder Return component for the respective performance periods. We first determined the aggregate fair value of the award using a Black-Scholes model. The (1) Company’s total shareholder return was then compared to the companies in the peer group using a Monte Carlo stock simulation. The Monte Carlo stock simulation estimated a percentile ranking for the Shareholder Return component which is used to determine the payout percentage. The performance share fair value for the Shareholder Return component was generated from the Black-Scholes model and used to calculate the aggregate grant date fair value of this component of the award. The number of actual performance shares earned will range from 0 to 150 percent of the target performance shares depending on the actual performance for the applicable performance period as compared to the performance goals. The following table sets forth the factors associated with the estimated compensation costs for each performance period.

If the named executive officers were to achieve the maximum award for the 2015-2017 performance period, each award would be valued as follows: Mr. McMasters \$543,450; Mr. Thompson \$251,703; Ms. Cooper \$226,152; Ms. Bittner \$198,312; and Mr. Householder \$215,092. If the named executive officers were to achieve the maximum award for the 2014-2016 performance period, each award would be valued as follows: Mr. McMasters \$504,256; Mr. Thompson \$244,488; Ms. Cooper \$217,747; Ms. Bittner \$179,546; and Mr. Householder \$208,961.

CHESAPEAKE UTILITIES CORPORATION - 2016 Proxy Statement 42

Given the growth in Florida's business operations and significant increase in operating income year over year, the Compensation Committee approved an incremental discretionary cash bonus in 2015 of \$50,000 for Mr.

(2) Householder. In 2014, given the future earnings and the effort expended to finalize the combined heat and power project in Nassau County, Florida, the Compensation Committee approved an incremental discretionary bonus of \$30,000 for Mr. Householder.

Named Executive Officers received payment for performance in March 2016, 2015, and 2014, respectively, under the 2015 Cash Plan (or the 2005 Cash Bonus and Incentive Plan in the case of 2014 and 2013 performance). In (3) 2014 and 2013, Mr. Householder's cash incentive award was based on a determination made by the Chief Executive Officer based on his achievement of pre-established financial and non-financial targets.

(4) The two defined benefit pension plans (a qualified plan, the Pension Plan, and a non-qualified plan, the Pension SERP) that include named executive officers were frozen as of January 1, 2005. The amount of monthly pension payments each participant is entitled to receive has not changed since that date; however, the net present value of those payments varies each year depending primarily on the assumptions made for the discount rate, mortality rates and expected return on plan assets (for the Pension Plan). The present value of the accrued pension benefits has been calculated in accordance with Accounting Standards Codification Topic 715 "Compensation - Retirement Benefits" (see Note 16 "Employee Benefit Plans" in our 2015 Annual Report on Form 10-K and the Pension Plan section on page 45 of this Proxy Statement for further details). The discount rates at December 31, 2015, December 31, 2014 and December 31, 2013 were 3.75%, 3.50%, and 4.25%, respectively. When the discount rate decreases, it generates an increase in the present value of the pension benefits and vice versa. In 2014 and 2015, a new mortality table was used that takes into consideration greater longevity, which also caused the present value to increase. In 2015, the Mortality Improvement Scale was updated to the MP-2015 scale. In 2015, the present value of the accumulated benefits in the Pension Plan increased by \$10,482, \$8,593 and \$2,444 for Mr. McMasters, Mr. Thompson and Ms. Cooper, respectively. In 2014, the present value of the accumulated benefits in the Pension Plan increased by \$103,820, \$96,939 and \$31,620 for Mr. McMasters, Mr. Thompson and Ms. Cooper, respectively. The participants experienced decreases to their present values in 2013 due to the increase in the discount rate. Ms. Bittner and Mr. Householder do not participate in the Pension Plan.

The assumptions used to calculate the present value of the Pension SERP are the same as those used for the Pension Plan, except that there is no assumed return on assets because the Pension SERP is unfunded. Variances from year to year have the same causes as the Pension Plan. Additionally, Mr. McMasters has elected to receive his Pension SERP benefit in a lump sum payment upon retirement and Mr. Thompson elected to receive his Pension SERP benefit in annuity payments upon retirement. These elections also impact the present value calculation due to assumptions regarding the IRS lump sum interest rates. In 2015, the present value of Mr. McMasters' Pension SERP increased by \$12,974 and Mr. Thompson's Pension SERP decreased by \$5,283. In 2014, the present value of Mr. McMasters and Mr. Thompson's Pension SERP increased by \$3,922 and \$48,803, respectively. In 2013, Mr. McMasters experienced an increase and Mr. Thompson experienced a decrease in present value. Ms. Cooper, Ms. Bittner and Mr. Householder do not participate in the Pension SERP.

Dividends on deferred stock units (which are settled on a one-for-one basis in shares of common stock) are the (5) same as dividends paid on the Company's outstanding shares of common stock. For 2015, 2014 and 2013, compensation deferred under the Non-Qualified Deferred Compensation Plan (or any predecessor plan) earned the same returns as funds available for the Company's qualified 401(k) Retirement Savings Plan.

The Company considered that investment options under our Non-Qualified Deferred Compensation Plan (or any predecessor plan) are the same choices available to all employees under the Company's 401(k) Retirement Savings Plan. As a result, the named executive officers do not receive preferential earnings on their investments.

(6) The following table includes payments that were made by the Company on behalf of the named executive officers in 2013, 2014 and 2015.

During 2015, the Company provided each named executive officer with a Company-owned vehicle that is available for personal use, but which is treated as compensation to the named executive officers. Each named executive officer's Form W-2 that is filed with the IRS includes imputed income for the personal use of the Company-owned vehicle. The cash dividend amounts paid to Messrs. McMasters, Thompson and Householder and Mmes. Cooper and Bittner in 2016 for the 2013-2015 performance period are reflected in the 2013 row in the Summary Compensation Table, the year the share awards (on which the dividends were based) were granted by the Compensation Committee. Dividends were accrued on the same basis as dividends declared by the Board each calendar quarter during the applicable years and paid on the Company's common stock. The actual cash dividend received by each named executive officer was determined based upon the number of shares of common stock earned and issued to the executive for such performance periods.

Named executive officers also have the ability to purchase propane at the same discounted rate that we offer to our employees.

Mr. McMasters has served as President of the Company since March 1, 2010. He was appointed Chief Executive (7) Officer of the Company effective January 1, 2011. Mr. McMasters has also served as a director of the Company since March 1, 2010. He received no additional compensation for serving as a director of the Company.

Grants of Plan-Based Awards

The following table reflects, for each named executive officer, the range of payouts for 2015 performance under the 2015 Cash Incentive Plan, and reflects the number of equity incentive awards established by the Compensation Committee on January 13, 2015 for the 2015-2017 performance period. For each named executive officer, the Compensation Committee established a target equity award with a dollar value (as a percent of base salary) to be paid in shares of our common stock, if earned, based on the grant date fair value of the common stock. The threshold (minimum amount payable for a certain level of performance), target (amount payable if the targets are reached), and maximum (maximum payout possible) award levels are provided for each award. Additional information on these awards can be found under the Cash Incentive Award and Equity Incentive Award sections in our Compensation Discussion and Analysis section in this Proxy Statement.

(1) For the 2015-2017 performance period, the Company calculated the aggregate grant date fair value of the performance-based equity incentive awards based on the estimated compensation costs on the grant date. We estimated that 150 percent of the Growth in Long-Term Earnings component and 100 percent of the Earnings Performance component are likely to be earned. These equity incentive awards have been recorded at the grant date fair value of \$50.20 per share, which is based on the closing price on January 13, 2015, the grant date. The Company also evaluated the likelihood of earning the Shareholder Return component for this performance period. We first determined the aggregate fair value of the award using a Black-Scholes model. The Company's total shareholder return was then compared to its peers using a Monte Carlo stock simulation. The Monte Carlo stock

simulation estimated a percentile ranking for the Shareholder Return component of greater than 65 percent, representing a 150 percent payout. For the 2015-2017 performance period, the performance share fair value of \$43.55 was generated from the Black-Scholes model and used to calculate the aggregate grant date value of this component of the award. The number of actual performance shares earned will range from 0 to 150 percent of the target performance shares depending on actual performance as compared to the performance goals.

For the 2015 cash incentive award, Messrs. McMasters, Thompson and Householder and Mmes. Cooper and (2) Bittner had the opportunity to earn a maximum of 150% of the target for the non-financial component and 200% of the target for the financial component.

Outstanding Equity Incentive Awards

In January 2014 and January 2015, the Compensation Committee granted performance shares to Messrs. McMasters and Thompson and Mmes. Cooper and Bittner for the 2014-2016 and 2015-2017 performance periods. For Mr. Householder, the Chief Executive Officer granted performance shares for the 2014-2016 and the Compensation Committee granted performance shares for the 2015-2017 performance period. Shares granted for the 2014-2016 and 2015-2017 performance period were outstanding at December 31, 2015. No awards have been transferred. Please refer to the Equity Incentive Awards and Outstanding Equity Awards (in the Compensation Discussion and Analysis) sections in this Proxy Statement for details on these awards.

The following table shows outstanding equity awards for each named executive officer at December 31, 2015.

Named Executive Officer	Equity Incentive Plan Awards: Number of Unearned Shares, Units or Other Rights That Have Not Vested ⁽¹⁾ (#)	Equity Incentive Plan Awards: Market or Payout Value of Unearned Shares, Units, or Other Rights That Have Not Vested ⁽²⁾ (\$)
Michael P. McMasters	24,225	1,374,769
Stephen C. Thompson	11,501	652,682
Beth W. Cooper	10,284	583,617
Elaine B. Bittner	8,725	495,144
Jeffrey M. Householder	9,829	557,796

(1) The share amount shown represents the maximum award levels. The number of actual performance shares to be earned will depend on the actual performance for the applicable performance period.

The market value represents the unearned shares multiplied by \$56.75, the closing market price per share of the Company's common stock on December 31, 2015. These shares will be earned to the extent that certain

(2) performance targets are achieved for the award periods January 1, 2014 through December 31, 2016 and January 1, 2015 through December 31, 2017. Award levels for the 2015-2017 performance period are shown in the Grants of Plan-Based Awards Table.

Pension Plans

We maintain two defined benefit pension plans that include named executive officers as provided below. Both plans were frozen effective January 1, 2005. On that date all benefits became fully vested and no further benefit accruals have occurred.

The Pension Plan is a tax qualified plan that was formerly available to all eligible employees and provides benefits based on a formula that yields a monthly amount payable over the participant's life. Benefits from the Pension Plan are paid from the Pension Plan's trust, which is funded solely by the Company. Messrs. McMasters and Thompson and Ms. Cooper have vested benefits in the Pension Plan.

The Pension SERP provides benefits based on the Pension Plan formula applied to compensation and benefits in excess of IRS limits. The Pension SERP is unfunded, but is required to be funded in the event of a change in control of the Company. Messrs. McMasters and Thompson have vested benefits in the Pension SERP.

The following table shows the present value of accumulated benefits that named executive officers are entitled to under the Pension Plan and Pension SERP:

Name	Plan Name	Number of Years Credited Service ⁽¹⁾ (#)	Present Value of Accumulated Benefits ⁽²⁾ (\$)	Payments During the Last Fiscal Year (\$)
Michael P. McMasters ⁽³⁾	Pension Plan	25	709,015	0
	Pension SERP	25	198,007	0
Stephen C. Thompson ⁽³⁾	Pension Plan	24	603,063	0
	Pension SERP	24	173,120	0

Beth W. Cooper ⁽⁴⁾	Pension Plan	17	134,894	0
-------------------------------	--------------	----	---------	---

(1) Number of years of service equals total service from date of employment until the plans were frozen. Additionally, on December 31, 2004, in conjunction with the freezing of the Pension Plan and the Pension SERP, each employee participating in such plans was credited with an additional two years of service. Since the Plans are now frozen, service and compensation on or after January 1, 2005 will not affect the benefits available to any participant. Due to the additional two years of credited service, the monthly accrued benefit payable at normal retirement age from the Pension Plan increased as follows: Mr. McMasters, \$522; Mr. Thompson, \$520; and Ms. Cooper, \$236. The monthly accrued benefits at normal retirement age under the Pension SERP increased as follows: Mr. McMasters, \$130 and Mr. Thompson, \$117.

Actuarial present value is based on assumptions and methods used to calculate the benefit obligation under (2) standards established by the Financial Accounting Standards Board (see Note 16 "Employee Benefit Plans" in our 2015 Annual Report on Form 10-K for further details), including:

• Discount rate equal to 3.75% as of December 31, 2015;

• Mortality rates based on the RP-2014 Mortality Table with MP-2015 Mortality Improvement Scale;

• Long-term rate of return on Pension Plan assets equal to 6.0%;

• Annuity at normal retirement (age 65) except for Mr. McMasters' Pension SERP which assumes a lump sum payment at age 65; and

Final Average Earnings equal the average of Adjusted W-2 Earnings during the highest 60 consecutive months taken from the last 120 months before December 31, 2004, when the Plans were frozen. Adjusted W-2 Earnings are comprised of W-2 compensation, less performance-based share awards, plus salary deferrals, less fringe benefits. The Internal Revenue Code places limits on annual benefit amounts and annual compensation that can be considered under the Pension Plan; the Pension SERP provides the executive with a benefit as if the limits did not exist. Final Average Earnings used to compute the benefit amounts were as follows: Mr. McMasters \$293,565; Mr. Thompson \$273,815; and Ms. Cooper \$116,342. The annual benefits that may be paid and the amount of annual compensation that will be considered in connection with the Pension SERP are based on IRS limitations for 2004 which are \$165,000 and \$205,000, respectively.

- Eligible for early retirement under both plans. Mr. McMasters' early retirement benefits under the Pension Plan and Pension SERP are \$3,828 and \$950 per month, respectively. Mr. Thompson's early retirement benefits under the Pension Plan and Pension SERP are \$3,188 and \$719, respectively.
- (4) Not eligible for early retirement under either plan.

Under the Pension Plan and Pension SERP, participants are entitled to receive benefits at the normal retirement age of 65, based upon Final Average Earnings (defined in Note 2 above) and credited years of service (described in Note 1 above). The Pension Plan provides a benefit up to the IRS limits and the Pension SERP provides a benefit for additional amounts that would have been earned if the IRS limits did not exist. The accrued monthly benefit for each named executive officer is determined by calculating one-twelfth of the annual amount of (i) plus (ii), multiplied by (iii):

(i) 1.3 percent of the Final Average Earnings

(ii) 0.625 percent of the Final Average Earnings in excess of Covered Compensation, as defined by the IRS

(iii) Credited years of service (but not more than 35 years)

A participant may elect to receive a reduced early retirement benefit beginning at age 55. The early retirement benefit equals the normal retirement benefit reduced by one-fifteenth for each of the first five years, and one-thirtieth for each of the next five years by which the annuity start date precedes the normal retirement date.

For the Pension Plan, the normal form of benefit for a married employee is a joint and survivor annuity. The normal form of benefit for a single employee is a life annuity. Other forms of benefits may be elected, including a lump sum payment. Benefits under the qualified Pension Plan and Pension SERP are not subject to any deduction for Social Security or other offset amounts. The Pension Plan and Pension SERP also include provisions for benefits that the participant's beneficiary or spouse would be entitled to in the event of death or disability.

Non-Qualified Deferred Compensation

Effective January 1, 2014, we merged two plans (the Deferred Compensation Plan and the Chesapeake Utilities Corporation Supplemental Executive Retirement Savings Plan) into the Non-Qualified Deferred Compensation Plan. Prior to January 1, 2014, the plans were informally funded in separate Rabbi Trusts. Upon the merger of the plans, the assets, which are still informally funded, were combined in the same Rabbi Trust. The Non-Qualified Deferred Compensation Plan allows:

The named executive officers to defer any percentage of their performance-based stock awards (except for required withholdings). Additionally, non-executive board members could elect to defer any percentage of their stock retainers. Participants are entitled to deferred stock units on the deferred performance-based shares and stock retainers.

Dividends are paid on the deferred stock units in the same proportion and amount as dividends on the Company's common stock. These dividends are then reinvested into additional deferred stock units. When distributed to participants, the deferred stock units will be settled on a one-for-one basis in shares of the Company's common stock. Deferrals of performance based stock awards are not eligible for Company matching contributions.

The named executive officers to defer a specified percentage (up to 80%) of their eligible cash compensation to the Non-Qualified Deferred Compensation Plan and non-executive board members to defer any percentage of their cash retainer and cash meeting fees. The Company matches named executive officer deferrals (up to 6% of eligible compensation) provided there is no duplication of matching in the qualified 401(k) Retirement Savings Plan. The Company may also make discretionary contributions to the named executive officers. Discretionary contributions are made to the applicable named executive officer during the years a discretionary contribution was made to the qualified 401(k) Retirement Savings Plan, for compensation that exceeds the IRS limits applicable to the qualified plan. Participants may allocate their deferrals and the Company's contributions among the same mutual fund choices available to all employees under the Company's qualified 401(k) Retirement Savings Plan. The deferred compensation will earn the applicable investment return(s) or loss(es) that they would have earned if the dollars had actually been invested in the funds.

The Non-Qualified Deferred Compensation Plan is required to comply with Internal Revenue Code Section 409A and procedures established by the Compensation Committee. The requirements include advance elections of deferral amounts. Additionally, participants must select a distribution date and form of distribution at the time of the deferral election. Distributions can be made in a single payment or in annual installments over 2-15 years (prior to January 1, 2014, installments were allowed over 5 years or 10 years). The named executive officers will not be entitled to receive any payments until six months after his or her date of separation, except under certain circumstances. Payments to the participant may be accelerated in the event of death, disability, change in control, or an unforeseeable emergency. Participants will be individually responsible for any tax obligations related to deferring compensation under the Non-Qualified Deferred Compensation Plan. Distributions of deferrals of cash compensation will be paid in cash, while distributions of deferred stock units will be paid in common stock.

All of the named executive officers participated in the Non-Qualified Deferred Compensation Plan. The following table reflects the aggregate balance of non-qualified deferred compensation for each named executive officer.

The Registrant Contributions in 2015 column represents the Company's matching and supplemental contributions (1) associated with the Non-Qualified Deferred Compensation Plan. These dollars are included in the All Other Compensation column of the Summary Compensation Table.

The investment options available under the Non-Qualified Deferred Compensation Plan are the same choices (2) available to all employees under the qualified 401(k) Retirement Savings Plan. Accordingly, these amounts are not considered above-market or preferential earnings for purposes of, and are not included in, the 2015 Summary Compensation Table.

Dividends on deferred stock units in the Non-Qualified Deferred Compensation Plan are paid at the same rate as (3) dividends on shares of the Company's common stock.

Those amounts, as well as similar awards reported in the Summary Compensation Tables in prior years and matching contributions into the Company's Non-Qualified Deferred Compensation Plan previously reported in the Summary Compensation Tables in prior years under All Other Compensation, are included in the Aggregate Balance at December 31, 2015 column and quantified below:

Termination Provisions		

The Company entered into an employment agreement with Mr. McMasters, which became effective on January 1, 2011. On January 8, 2014, the Company entered into an amendment to the employment agreement with Mr. McMasters that became effective on January 1, 2014. The amendment extended the term of the employment agreement with Mr. McMasters through December 31, 2015 and updated certain provisions to reflect Mr. McMasters' current compensation arrangement. The Company also entered into new employment agreements with Mr. Thompson and Mmes. Cooper and Bittner, effective January 1, 2013, for a three-year term. In November 2015, the Compensation Committee authorized an amendment for a two-year extension of the employment agreements for Messrs. McMasters and Thompson and Mmes. Cooper and Bittner. Mr. Householder entered into an employment agreement effective January 1, 2015 that is substantially the same as the employment agreements of the other named executive officers. These new employment agreements supersede and replace the previous employment agreements and amendments. All of the employment agreements provide for certain benefits if a named executive officer's employment with us is voluntarily or involuntarily terminated. The Compensation Committee has the option to renew each of the named executive officers' employment agreement for successive one-year terms. Each employment agreement automatically extends upon a "change in control," as specifically defined in the employment agreement for two years from the date of a change in control.

Under the employment agreements, the named executive officers are entitled to participate in all bonus, incentive compensation and performance-based compensation plans; all profit-sharing, savings and retirement benefit plans; all insurance, medical, health and welfare plans; all vacation and other employee fringe benefit plans; and other similar policies, plans or arrangements of the Company, all on a basis that is commensurate with his or her position and no less favorable than those generally applicable or made available to the other named executive officers. Under the 2013 Equity Plan, each named executive officer is eligible for a target long-term equity-based incentive award as determined on an annual basis by the Board or Compensation Committee, as applicable, in its discretion and in accordance with and subject to the terms of the 2013 Equity Plan. Under the 2015 Cash Plan each named executive officer is eligible for a target short-term cash incentive award, as determined on an annual basis by the Board or Compensation Committee, as applicable, in its discretion and in accordance with and subject to the terms of the 2015 Cash Plan.

Each of the named executive officer's employment agreement contains a clawback provision. Under the clawback provision, all or any portion of an incentive award under the 2015 Cash Plan and 2013 Equity Plan or any future arrangement established by the Company is subject to repayment by the named executive officer, if the award was calculated based upon the achievement of certain financial results or other performance metrics that, in either case, were subsequently found to be materially inaccurate. If the Compensation Committee determines that the named executive officer engaged in misconduct, malfeasance or gross negligence in the performance of his or her duties that either caused or significantly contributed to the material inaccuracy in financial statements or other performance metrics, there is no time limit on this right of recovery. In all other circumstances, the right of recovery is limited to one year after the date of payment of each award. The right of recovery of payments automatically terminates upon a change in control except with respect to any right of recovery that has been asserted prior to such change in control.

All of the employment agreements include covenants that protect our goodwill. These covenants are effective during the time that the named executive officer is employed with us and after termination of the agreement. These covenants relate to confidentiality of information; non-solicitation of employees; non-solicitation of third parties; non-competition; post-termination cooperation; and non-disparagement. The non-solicitation and non-competition covenants remain effective for one year after a named executive officer terminates employment with us. If the named executive officer resigns for reasons related to certain acts of the Company after a change in control, these covenants would remain effective for fifteen months after the resignation. For the other named executive officers, payments upon termination (described below) are subject to compliance with these provisions and the execution and delivery (and non-revocation) of a release of claims against the Company and its officers, directors, employees and affiliates. In the event that these named executive officers do not comply with the provisions or do not deliver a release of claims, then payments upon termination would cease and any unpaid amounts are forfeited.

Potential Payments Upon Termination. If the Company terminates or elects to not renew a named executive officer's employment agreement at the end of the term of the agreement for any reason other than "for cause," as specifically defined in the employment agreements, or the named executive officer's death, then the named executive officer is entitled to receive, as severance compensation, his or her then monthly base compensation for one year after the termination date. The named executive officer's compensation may be

decreased provided that the decrease is made on a good faith basis and with reasonable justification. Termination for any reason other than “for cause” can also be referred to as termination “without cause” and can be initiated by either the named executive officer or the Company. Generally, termination “without cause” can occur when the Company, acting in good faith, decreases a named executive officer’s position, compensation or benefits at which time the named executive officer may terminate his or her employment for “good reason.” The reduction in compensation or benefits may not be related to a company-wide reduction. Termination “without cause” can also occur if the Company terminates the named executive officer for reasons not related to a crime involving moral turpitude, theft from the Company, violation of non-competition or confidentiality obligations, or, following a cure period, gross negligence in fulfilling his or her responsibilities. Based upon a hypothetical termination date of December 31, 2015, and assuming the termination is “without cause” the named executive officers (or his or her estate) would have received a severance benefit, as described above, as follows: Michael P. McMasters \$550,000; Stephen C. Thompson \$335,000; Beth W. Cooper \$302,000; Elaine B. Bittner \$275,000; and Jeffry M. Householder \$295,000.

Potential Payments Upon a Change in Control. The employment agreements include provisions that are designed to help retain the named executive officers in the event of a change in control of the Company. The Board believes that these provisions are appropriate to address the uncertainties and potential distractions resulting from any threatened or actual change in control. In accordance with the agreements, a change in control occurs upon one of several events involving the replacement of a majority of the members of our Board, the acquisition of ownership of our stock, or the acquisition of significant assets of the Company.

Under each named executive officer’s most recent employment agreement, if a named executive officer’s employment was terminated, after a change in control, by the named executive officer for “good reason” or by the Company “without cause,” as specifically defined in the employment agreement and as described herein, he or she would be entitled to receive, in addition to the sum of all accrued but unpaid amounts due, a single lump sum payment (provided such termination occurs within two years of a change in control) in cash based on the sum of the following:

• Current monthly base compensation multiplied by 24 (multiplied by 36 for Mr. McMasters).

• Average of the cash incentive awards paid over the prior three calendar years, multiplied by two (multiplied by three for Mr. McMasters).

Upon a change in control, each named executive officer’s monthly base compensation may increase by such amounts as the Board may determine from time to time based, in part, on an annual review of the named executive officers’ compensation and performance. In no event would a named executive officer’s base compensation be decreased. Each named executive officer would continue to receive health and other insurance benefits for the remainder of the term of his or her employment agreement. Under each named executive officer’s performance share agreements, in the event of a change in control, the executive immediately earns all unearned performance shares at the target level under the 2014-2016 and 2015-2017 agreements. In addition, each named executive officer would receive any benefits that he or she otherwise would have been entitled to receive under our 401(k) Plan and Non-Qualified Deferred Compensation Plan, as of the date of termination, although these benefits are not increased.

The total severance amount payable to a named executive officer following a change in control is capped at one dollar less than the amount that would be subject to Internal Revenue Code Section 280G. As a result, no excise tax would be levied nor would there be any loss of tax deductibility to the Company as a result of making the severance payment. If the severance as computed exceeds this limitation, the amount payable will be unilaterally reduced to the amount necessary to avoid exceeding the limitations under Internal Revenue Code Section 280G.

Based upon a hypothetical termination date of December 31, 2015, under the terms and conditions of the employment agreements, estimated payments or benefits in connection with a change in control, using \$56.75, the closing market price per share of our common stock on December 31, 2015, would have been as follows:

	Michael P. McMasters	Stephen C. Thompson	Beth W. Cooper	Elaine B. Bittner	Jeffry M. Householder
Base Salary (based upon severance multiple)	\$ 1,650,000	\$ 670,000	\$ 604,000	\$ 550,000	\$ 590,000
Annual Cash Bonus (based upon severance multiple) ¹	\$ 933,699	\$ 283,152	\$ 251,715	\$ 205,805	\$ 175,651

(1) The average of the cash incentive awards under the 2015 Cash Plan (or any predecessor plan) for the years 2013, 2014, and 2015, multiplied by the respective severance multiple. In addition, each named executive officer is entitled to receive his or her applicable annual cash incentive award that was earned in 2015 as set forth in the Non-Equity Incentive Plan Compensation column of the Summary Compensation Table.

(2) Based upon the expected healthcare cost per employee for 2016, as provided by the Company's third-party administrator, as well as the term life insurance paid by the Company, and continued coverage for life, accidental death and dismemberment, and long-term disability insurance.

CHESAPEAKE UTILITIES CORPORATION - 2016 Proxy Statement 49

(3) This represents the target awards under the 2014-2016 and 2015-2017 performance periods. The awards are valued at \$56.75 per share, the year-end closing price.

(4) The total severance amount payable to a named executive officer following a change in control is capped at one dollar less than the amount that would be subject to Internal Revenue Code Section 280G. Pursuant to Section 280G, this amount is calculated by multiplying three times the five-year average of the named executive officer's W-2 compensation (or the period employed, if less).

Upon a change in control, each named executive officer would be entitled to receive the amounts deferred under the Non-Qualified Deferred Compensation Plan, in the form of a lump sum payment.

In accordance with the Treasury Regulations issued under Section 409A of the Internal Revenue Code, each named executive officer's employment agreement provides that if a separation from service occurs: (i) within two years of a change in control, benefits will be paid in a lump sum, or (ii) more than two years after the change in control, the benefits will be paid in equal installments over a one year period. In addition, each employment agreement provides that benefits paid upon a separation from service will be subject to a six-month delay in the commencement of payment if required by Section 409A of the Internal Revenue Code. The named executive officer will pay the full amount for benefits extended during the six-month delay period (to be reimbursed by the Company with interest) if this delay provision applies.

Votes Required

The following votes are required for each proposal: (i) Election of Directors - directors are elected by a plurality of the votes cast by the holders of the shares present in person or represented by proxy at the Meeting. Withhold votes, abstentions, or broker non-votes will have no effect on the outcome; and (ii) Non-binding Advisory Vote to ratify the appointment of the Company's Independent Registered Public Accounting Firm – This is a non-binding advisory vote that the Board considers when ratifying the appointment of its independent registered public accounting firm. Abstentions will have the same effect as a vote cast "against" this proposal.
