PRESS RELEASE

Item1

North America's Railroad

CN reports Q3-2012 net income of C$664 million,
or C$1.52 per diluted share

Diluted Q3-2012 EPS increased 10 per cent over adjusted diluted EPS of C$1.38 for Q3-2011 (1)

MONTREAL, Oct. 22, 2012 — CN (TSX: CNR)(NYSE: CNI) today reported its financial and operating results for the third quarter and nine-month period ended Sept. 30, 2012.

Third-quarter 2012 highlights

- Net income was C$664 million, or C$1.52 per diluted share, compared with year-earlier net income of C$659 million, or C$1.46 per diluted share.
- Q3-2012 diluted earnings per share (EPS) increased 10 per cent over year-earlier adjusted diluted EPS of C$1.38 that excluded an after-tax gain of C$0.08 per diluted share on the sale of substantially all of the assets of IC RailMarine Terminal Company during Q3-2011. (1)
- Revenues for the most recent quarter increased eight per cent to C$2,497 million, while revenue ton-miles rose seven per cent and carloadings increased three per cent.
- Operating income increased five per cent to C$985 million.
- The operating ratio increased by 1.3 points to 60.6 per cent.
- Free cash flow for the first nine months of 2012 was C$1,036 million, including the impact of Q1-2012 voluntary pension plan contributions totalling C$450 million, compared with free cash flow of C$1,328 million for the same period of 2011. (1)

Claude Mongeau, president and chief executive officer, said: "CN's focus on operational and service excellence helped the Company post a solid third-quarter performance, with revenue growth in all our business segments and solid improvement in most of our key operating metrics.

"Petroleum and chemicals led the way with a 15 per cent increase in revenues, largely as a result of higher shipments of crude oil originating in western Canada. CN's crude oil volume in the quarter rose to a run rate of 40,000 carloads on an annualized basis.

"We continued to improve service and were able to make solid progress in our key velocity, efficiency and safety metrics across our network."

Mongeau also said: "While cautious about the strength of the economy, we see continued opportunities to grow our business in the longer term. Through our agenda of supply chain collaboration, CN expects to increase revenues slightly faster than general growth in the North American economy and to accommodate this growth at low incremental cost."

CANADIAN NATIONAL RAILWAY COMPANY
PRESS RELEASE

New CN share repurchase program
Mongeau said: “With our strong balance sheet and expectations of continued shareholder value creation, we are pleased to announce that CN’s Board of Directors has approved a new share repurchase program for up to C$1.4 billion in common shares. This will be executed through a normal course issuer bid to purchase for cancellation a maximum of 18 million shares.”

Foreign currency impact on results
Although CN reports its earnings in Canadian dollars, a large portion of its revenues and expenses is denominated in U.S. dollars. As such, the Company’s results are affected by exchange-rate fluctuations. On a constant currency basis that excludes the impact of fluctuations in foreign currency exchange rates, CN’s third-quarter and first nine-month 2012 net income would have been lower by C$8 million, or C$0.02 per diluted share and C$25 million, or C$0.06 per diluted share, respectively. (1)

Third-quarter 2012 revenues, traffic volumes and expenses
The eight per cent rise in third-quarter revenues mainly resulted from higher freight volumes, due in part to growth in North American and Asian economies and the Company’s performance above market conditions in a number of segments; freight rate increases; and the positive translation impact of the weaker Canadian dollar on U.S.-dollar-denominated revenues.

Revenues increased for petroleum and chemicals (15 per cent), coal (13 per cent), grain and fertilizers (10 per cent), automotive (nine per cent), metals and minerals (seven per cent), intermodal (six per cent), and forest products (three per cent).

Revenue ton-miles, measuring the relative weight and distance of rail freight transported by CN, increased seven per cent from the year-earlier period.

Rail freight revenue per revenue ton-mile, a measurement of yield defined as revenue earned on the movement of a ton of freight over one mile, increased two per cent over the third-quarter 2011 performance, driven by freight rate increases and the positive translation impact of the weaker Canadian dollar, partly offset by a lower fuel surcharge and an increase in the average length of haul.

Operating expenses for the third quarter increased by 10 per cent to C$1,512 million, mainly due to higher labor and fringe benefits expense, increased purchased services and material expense, as well as increased volume-related fuel costs.

Forward-Looking Statements

Certain information included in this news release constitutes “forward-looking statements” within the meaning of the United States Private Securities Litigation Reform Act of 1995 and under Canadian securities laws. CN cautions that, by their nature, these forward-looking statements involve risks, uncertainties and assumptions. The Company cautions that its assumptions may not materialize and that current economic conditions render such assumptions, although reasonable at the time they were made, subject to greater uncertainty. Such forward-looking statements are not guarantees of future performance and involve known and unknown risks, uncertainties and other factors which may cause the actual results or performance of the Company or the rail industry to be materially different from the outlook or any future results or performance implied by such statements. To the extent that CN has provided guidance that are non-GAAP financial measures, the Company may not be able to provide a reconciliation to the GAAP measures, due to unknown variables and uncertainty related to future results. Key assumptions used in determining forward-looking information are set forth below.

CANADIAN NATIONAL RAILWAY COMPANY
PRESS RELEASE

Key assumptions
CN remains comfortable with the 2012 financial guidance issued on July 25, 2012, in its second-quarter 2012 financial and operational results news release. CN expects to deliver up to 15 per cent growth in adjusted diluted EPS for 2012, over adjusted diluted EPS of C$4.84 in 2011. Also, CN expects to generate free cash flow of approximately C$1 billion for 2012 – taking into consideration a potential C$250 million additional voluntary pension contribution in the fourth quarter. (1)

CN's 2012 outlook is based on a number of economic and market assumptions. The Company is forecasting that North American industrial production for 2012 will increase by about 3.0 per cent. For the year, CN also expects U.S. housing starts to be approximately 750,000 units, and U.S. motor vehicles sales to be approximately 14.5 million units. In addition, CN is assuming the 2012/2013 U.S. grain crop will be well below, and the 2012/2013 Canadian grain crop will be slightly higher, than the five-year average. With the assumptions above, CN assumes carload growth in the mid-single digit range, along with continued pricing improvement above inflation. CN also assumes the Canadian-U.S. exchange rate to be around parity for 2012 and that the price of crude oil (West Texas Intermediate) for the year to be approximately US$95 per barrel. In 2012, CN plans to invest approximately C$1.8 billion in capital programs, of which more than C$1 billion will be targeted on track infrastructure to maintain a safe and fluid railway network. In addition, the Company will invest in projects to support a number of productivity and growth initiatives.

Important risk factors that could affect the forward-looking statements include, but are not limited to, the effects of general economic and business conditions, industry competition, inflation, currency and interest rate fluctuations, changes in fuel prices, legislative and/or regulatory developments, compliance with environmental laws and regulations, actions by regulators, various events which could disrupt operations, including natural events such as severe weather, droughts, floods and earthquakes, labor negotiations and disruptions, environmental claims, uncertainties of investigations, proceedings or other types of claims and litigation, risks and liabilities arising from derailments, and other risks detailed from time to time in reports filed by CN with securities regulators in Canada and the United States. Reference should be made to "Management's Discussion and Analysis" in CN's annual and interim reports, Annual Information Form and Form 40-F filed with Canadian and U.S. securities regulators, available on CN's website, for a summary of major risk factors.

CN assumes no obligation to update or revise forward-looking statements to reflect future events, changes in circumstances, or changes in beliefs, unless required by applicable Canadian securities laws. In the event CN does update any forward-looking statement, no inference should be made that CN will make additional updates with respect to that statement, related matters, or any other forward-looking statement.

1) See discussion and reconciliation of non-GAAP adjusted performance-measures in the attached supplementary schedule, Non-GAAP Measures.

CN – Canadian National Railway Company and its operating railway subsidiaries – spans Canada and mid-America, from the Atlantic and Pacific oceans to the Gulf of Mexico, serving the ports of Vancouver, Prince Rupert, B.C., Montreal, Halifax, New Orleans, and Mobile, Ala., and the key metropolitan areas of Toronto, Buffalo, Chicago, Detroit, Duluth, Minn./Superior, Wis., Green Bay, Wis., Minneapolis/St. Paul, Memphis, and Jackson, Miss., with connections to all points in North America. For more information on CN, visit the Company's website at www.cn.ca.

CANADIAN NATIONAL RAILWAY COMPANY
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (U.S. GAAP)

Note 1 - Basis of presentation

In management's opinion, the accompanying unaudited Interim Consolidated Financial Statements and Notes thereto, expressed in Canadian dollars, and prepared in accordance with U.S. generally accepted accounting principles (U.S. GAAP) for interim financial statements, contain all adjustments (consisting of normal recurring accruals) necessary to present fairly Canadian National Railway Company's (the Company) financial position as at September 30, 2012, December 31, 2011 and September 30, 2011, and its results of operations, changes in shareholders' equity and cash flows for the three and nine months ended September 30, 2012 and 2011.

These unaudited Interim Consolidated Financial Statements and Notes thereto have been prepared using accounting policies consistent with those used in preparing the Company's 2011 Annual Consolidated Financial Statements. While management believes that the disclosures presented are adequate to make the information not misleading, these unaudited Interim Consolidated Financial Statements and Notes thereto should be read in conjunction with the Company's Interim Management's Discussion and Analysis (MD&A) and the 2011 Annual Consolidated Financial Statements and Notes thereto.

Note 2 - Accounting change

In June 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2011-05, Presentation of Comprehensive Income, giving companies the option to present the components of net income and comprehensive income in either one or two consecutive financial statements. ASU 2011-05 eliminates the option to present the components of other comprehensive income in the statement of changes in shareholders' equity. ASU 2011-05 also requires reclassification adjustments for each component of accumulated other comprehensive income (AOCI) in both net income and other comprehensive income (OCI) to be separately disclosed on the face of the financial statements. In December 2011, the FASB issued ASU 2011-12, Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income, which deferred the effective date to present reclassification adjustments in net income. The effective date of the deferral is consistent with the effective date of ASU 2011-05 which is effective for fiscal years beginning on or after December 15, 2011. The FASB is currently re-evaluating the requirements, with a final decision expected in 2012. The Company has adopted the requirements of these ASUs.

Note 3 - Disposal of property

2012 – Disposal of Bala-Oakville
In March 2012, the Company entered into an agreement with Metrolinx to sell a segment of the Bala and a segment of the Oakville subdivisions in Toronto, Ontario, together with the rail fixtures and certain passenger agreements (collectively the "Bala-Oakville"), for cash proceeds of $311 million before transaction costs. Under the agreement, the Company obtained the perpetual right to operate freight trains over the Bala-Oakville at its then current level of operating activity, with the possibility of increasing its operating activity for additional consideration. The transaction resulted in a gain on disposal of $281 million ($252 million after-tax) that was recorded in Other income under the full accrual method of accounting for real estate transactions.

2011 – Disposal of IC RailMarine Terminal

In August 2011, the Company sold substantially all of the assets of IC RailMarine Terminal Company (ICRMT), an indirect subsidiary of the Company, to Raven Energy, LLC, an affiliate of Foresight Energy, LLC (Foresight) and the Cline Group (Cline), for cash proceeds of $70 million (US$73 million) before transaction costs. ICRMT is located on the east bank of the Mississippi River and stores and transfers bulk commodities and liquids between rail, ship and barge, serving customers in North American and global markets. Under the sale agreement, the Company will benefit from a 10-year rail transportation agreement with Savatran, LLC, an affiliate of Foresight and Cline, to haul a minimum annual volume of coal from four Illinois mines to the ICRMT transfer facility. The transaction resulted in a gain on disposal of $60 million ($38 million after-tax) that was recorded in Other income.

2011 – Disposal of Lakeshore East

In March 2011, the Company entered into an agreement with Metrolinx to sell a segment of the Kingston subdivision known as the Lakeshore East in Pickering and Toronto, Ontario, together with the rail fixtures and certain passenger agreements (collectively the

CANADIAN NATIONAL RAILWAY COMPANY
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (U.S. GAAP)

"Lakeshore East"), for cash proceeds of $299 million before transaction costs. Under the agreement, the Company obtained the perpetual right to operate freight trains over the Lakeshore East at its then current level of operating activity, with the possibility of increasing its operating activity for additional consideration. The transaction resulted in a gain on disposal of $288 million ($254 million after-tax) that was recorded in Other income under the full accrual method of accounting for real estate transactions.

Note 4 - Financing activities

Revolving credit facility
In May 2011, the Company entered into an $800 million four-year revolving credit facility agreement with a consortium of lenders. In March 2012, the agreement was amended to extend the term to May 2017. The agreement, which contains customary terms and conditions, allows for increases in the facility amount, up to a maximum of $1,300 million, as well as the option to extend the term by an additional year at each anniversary date, subject to the consent of individual lenders. The Company plans to use the credit facility for working capital and general corporate purposes, including backstopping its commercial paper program. As at September 30, 2012, the Company had no outstanding borrowings under its revolving credit facility (nil as at December 31, 2011).

Commercial paper
The Company has a commercial paper program, which is backed by its revolving credit facility, enabling it to issue commercial paper up to a maximum aggregate principal amount of $800 million, or the US dollar equivalent. As at September 30, 2012, the Company had borrowings of $171 million of commercial paper ($82 million (US$81 million) as at December 31, 2011) presented in Current portion of long-term debt on the Consolidated Balance Sheet. The weighted-average interest rate on these borrowings was 1.06% (0.20% as at December 31, 2011).

Bilateral letter of credit facilities and Restricted cash and cash equivalents
In April 2011, the Company entered into a series of three-year bilateral letter of credit facility agreements with various banks to support its requirements to post letters of credit in the ordinary course of business. In March 2012, the agreements were amended to extend the maturity by one year to April 2015 and an additional letter of credit agreement was signed with an additional bank. Under these agreements as amended, the Company has the option from time to time to pledge collateral in the form of cash or cash equivalents, for a minimum term of one month, equal to at least the face value of the letters of credit issued. As at September 30, 2012, from a total committed amount of $559 million ($520 million as at December 31, 2011) by the various banks, the Company had letters of credit drawn of $549 million ($499 million as at December 31, 2011). As at September 30, 2012, cash and cash equivalents of $518 million ($499 million as at December 31, 2011) were pledged as collateral and recorded as Restricted cash and cash equivalents on the Consolidated Balance Sheet.

Share repurchase programs
In October 2011, the Board of Directors of the Company approved a share repurchase program which allowed for the repurchase of up to 17.0 million common shares between October 28, 2011 and October 27, 2012 pursuant to a normal course issuer bid at prevailing market prices plus brokerage fees, or such other prices as may be permitted by the Toronto Stock Exchange. The Company repurchased a total of 16.7 million common shares under this share repurchase program.
The following table provides the activity under such share repurchase program as well as the share repurchase program of the prior year:

In millions, except per share data	Three months ended September 30 2012	Three months ended September 30 2011	Nine months ended September 30 2012	Nine months ended September 30 2011
Number of common shares repurchased (1)	4.1	6.0	13.3	16.5
Weighted-average price per share (2)	$ 89.82	$ 69.48	$ 82.32	$ 70.56
Amount of repurchase	$ 373	$ 417	$ 1,095	$ 1,164

(1) Includes common shares purchased in the first quarters of 2012 and 2011 pursuant to private agreements between the Company and arm's length third-party sellers.

(2) Includes brokerage fees.

See Note 11 – Subsequent event for additional information on the Company's new share repurchase program approved on October 22, 2012.

Note 5 - Stock plans

The Company has various stock-based incentive plans for eligible employees. A description of the Company's major plans is provided in Note 11 – Stock plans to the Company's 2011 Annual Consolidated Financial Statements. The following table provides total stock-based compensation expense for awards under all plans, as well as the related tax benefit recognized in income, for the three and nine months ended September 30, 2012 and 2011.

	Three months ended September 30				Nine months ended September 30			
In millions		2012		2011		2012		2011
Cash settled awards								
Restricted share unit plan	$	17	$	(8)	$	47	$	39
Voluntary Incentive Deferral Plan (VIDP)		4		(13)		14		5
		21		(21)		61		44
Stock option awards		3		2		8		7
Total stock-based compensation expense (benefit)	$	24	$	(19)	$	69	$	51
Tax benefit (expense) recognized in income	$	7	$	(6)	$	16	$	12

Cash settled awards
Following approval by the Board of Directors in January 2012, the Company granted 0.5 million restricted share units (RSUs) to designated management employees entitling them to receive payout in cash based on the Company's share price. The RSUs granted by the Company are generally scheduled for payout in cash after three years ("plan period") and vest conditionally upon the attainment of a target relating to return on invested capital over the plan period.

Payout is conditional upon the attainment of a minimum share price calculated using the average of the last three months of the plan period. In addition, commencing at various dates, for senior and executive management employees ("executive employees"), payout is conditional on compliance with the conditions of their benefit plans, award or employment agreements, including but not limited to non-compete, non-solicitation, and non-disclosure of confidential informatio
