SEC Rule 15Ga-1 Methodology Statement

Fannie Mae is filing this report in compliance with SEC Rule 15Ga-1. The following information is

Fannie Mae filed its initial report in compliance with SEC Rule 15Ga-1 as of February 14, 2012. (set forth below) outstanding as of December 31, 2011 and included all activities between and including the reporting period Fannie Mae against the seller of the related mortgage loans (including activities in such period of representations and warranties related to such mortgage loans.

In accordance with Rule 15Ga-1, Fannie Mae is filing a report on a quarterly basis approximately 100% of the securities (with those exceptions as set forth below) outstanding at the beginning of that calendar quarter to repurchase demands made by Fannie Mae against the seller of the related mortgage loans (including activities in such reporting period) for breaches of representations and warranties related to such mortgage loans.

Because the report does not include information related to the origination date of a loan, market value of securities based on when the report was filed. In order to determine the issue date of an MBS, or other security, Fannie Mae's website or utilize another third-party data source. Fannie Mae also provides the originator name in the Prospectus Supplement for each issuance of MBS Securities.

Fannie Mae engages in a variety of practices with respect to mortgage loans where there are breaches of representations and warranties. Fannie Mae may repurchase mortgage loans from a Fannie Mae trust if it determines that there has been a breach of representation and warranty by the seller of a mortgage loan from a Fannie Mae trust in accordance with the terms of the related trust agreement at the time that it was issued or may alternatively result in a payment by the seller of the mortgage loan to reimburse Fannie Mae for the settlement of such demand, as agreed to by the seller and Fannie Mae. Each such repurchase demand is based on (i) whether the mortgage asset in question is in the related Fannie Mae trust at the time of demand and (ii) whether the mortgage asset in question is in the related Fannie Mae trust at the time of demand and 10-Q SEC filings, the first receipt date of funds for repurchase, as captured in Fannie Mae's prospectus.

The report will not include percentage calculations for most fields. Because Fannie Mae routinely repurchases mortgage loans that have been removed from the related Fannie Mae trust, such percentages would tend to overstate (and understate) the percentage of mortgage loans subject to a repurchase demand. Fannie Mae will provide the number of mortgage loans and the principal amount of such mortgage loans.

Breaches of representations and warranties generally relate to the underwriting of a mortgage loan or (ii) servicing violations. The report includes all breaches of representation and warranty, including underwriting deficiencies and those unrelated to such deficiencies. For example, a mortgage loan may be included in a mortgage pool. Such fixed-rate mortgage loan may meet Fannie Mae underwriting requirements, but Fannie Mae may repurchase the mortgage loan seller's representation and warranty that such mortgage loan bears an adjustable rate.

This report includes only those Fannie Mae mortgage securities where Fannie Mae has the right in the mortgage loan to enforce representation and warranty. These securities typically include Fannie Mae single-family MBS, Fannie Mae commercial MBS, Fannie Mae securities, including Megas, Stripped Mortgage-Backed Securities, most REMIC Securities and other securities.

As described above, the mortgage loans may not necessarily be in the related Fannie Mae trust at the time of demand that is paid off prior to the actual repurchase will not be reflected in subsequent reports. The mortgage loans are commingled throughout the report and structured products (such as REMICs) reported at the end. Fannie Mae reports the data at a deal-group level. As the deal-groups pay off, the data will be removed from subsequent reports.

The term "Total Assets by Originator" presents, by originator, the number and issue date principal amount of mortgage loans. The term "originator" is the party that funded the mortgage loan in question. It is common practice for Fannie Mae to originate to third parties, who aggregate such mortgage loans from multiple originators and rather than with the originators, Fannie Mae had not, prior to November 2012, obtained the names of the originators (years after issuance) would be prohibitively expensive. Consequently, where Fannie Mae does not have the identity of such originator, but will list the originator as "Unavailable" in such cases. Fannie Mae reports the seller (which party is frequently not the originator) of the mortgage loans who has made the mortgage loans in the event of a breach of representation and warranty.

Certain Fannie Mae mortgage securities, all of which were issued no later than January 1, 2001, have outstanding principal balances.
