FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q contains forward-looking statements within the “safe harbor” provisions of the Private Securities Litigation Reform Act of 1995. All statements other than those that are purely historical are forward-looking statements. Words such as “expect,” “anticipate,” “believe,” “estimate,” “intend,” “plan,” “project,” and similar expressions also identify forward-looking statements. Forward-looking statements include, but are not limited to, statements regarding the following:

- the impact of the adoption of new accounting standards;
- the impact of the potential settlement of outstanding tax matters and the closing of audits;
- the impact of losses due to indemnification obligations;
- the outcome of proceedings, lawsuits, disputes, and claims;
- turning around Gap brand, including improving the brand's business performance, right-sizing the fleet, streamlining the headquarter workforce, and developing a clear, on-brand product aesthetic framework;
- continuing investment in digital capabilities;
- further enhancing our shopping experience for our customers;
- continuing our global growth, including opening additional stores in Asia with a focus on Gap China, Old Navy China, and Old Navy Japan;
- opening additional Athleta stores;
- the impact of foreign exchange rate fluctuations on our financial results;
- charges in fiscal 2015 associated with the strategic actions primarily related to Gap brand;
- current cash balances and cash flows being sufficient to support our business operations, including growth initiatives and planned capital expenditures;
- ability to supplement near-term liquidity, if necessary, with our \$500 million revolving credit facility;
- the impact of the seasonality of our operations;
- dividend payments in fiscal 2015; and
- the impact of changes in internal control over financial reporting.

Because these forward-looking statements involve risks and uncertainties, there are important factors that could cause our actual results to differ materially from those in the forward-looking statements. These factors include, without limitation, the following:

- the risk that adoption of new accounting pronouncements will impact future results;
- the risk that we or our franchisees will be unsuccessful in gauging apparel trends and changing consumer preferences;
- the risk that changes in global economic conditions or consumer spending patterns could adversely impact our results of operations;
- the highly competitive nature of our business in the United States and internationally;
- the risk that if we are unable to manage our inventory effectively, our gross margins will be adversely affected;
- the risks to our efforts to expand internationally, including our ability to operate under a global brand structure, foreign exchange fluctuations, and operating in regions where we have less experience;
- the risks to our business, including our costs and supply chain, associated with global sourcing and manufacturing;
- the risks to our reputation or operations associated with importing merchandise from foreign countries, including failure of our vendors to adhere to our Code of Vendor Conduct;
- the risk that trade matters could increase the cost or reduce the supply of apparel available to us and adversely affect our business, financial condition, and results of operations;
- the risk that our franchisees' operation of franchise stores is not directly within our control and could impair the value of our brands;
- the risk that we or our franchisees will be unsuccessful in identifying, negotiating, and securing new store locations and renewing, modifying, or terminating leases for existing store locations effectively;
- the risk that we are subject to data or other security breaches that may result in increased costs, violations of law, significant legal and financial exposure, and a loss of confidence in our security measures, which could have an adverse effect on our results of operations and our reputation;

the risk that the failure to attract and retain key personnel, or effectively manage succession, could have an adverse impact on our results of operations;

the risk that our investments in omni-channel shopping initiatives may not deliver the results we anticipate;

- the risk that comparable sales and margins will experience fluctuations;
- the risk that changes in our credit profile or deterioration in market conditions may limit our access to the capital markets and adversely impact our financial results or our business initiatives;
- the risk that updates or changes to our information technology (“IT”) systems may disrupt our operations;
- the risk that natural disasters, public health crises, political crises, or other catastrophic events could adversely affect our operations and financial results, or those of our franchisees or vendors;
- the risk that changes in the regulatory or administrative landscape could adversely affect our financial condition, strategies, and results of operations;
- the risk that we do not repurchase some or all of the shares we anticipate purchasing pursuant to our repurchase program; and
- the risk that we will not be successful in defending various proceedings, lawsuits, disputes, claims, and audits.

Additional information regarding factors that could cause results to differ can be found in our Annual Report on Form 10-K for the fiscal year ended January 31, 2015 and our other filings with the U.S. Securities and Exchange Commission.

Future economic and industry trends that could potentially impact net sales and profitability are difficult to predict. These forward-looking statements are based on information as of September 8, 2015, and we assume no obligation to publicly update or revise our forward-looking statements even if experience or future changes make it clear that any projected results expressed or implied therein will not be realized.

We suggest that this document be read in conjunction with Management’s Discussion and Analysis included in our Annual Report on Form 10-K for the fiscal year ended January 31, 2015.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Note 1. Basis of Presentation

The Condensed Consolidated Balance Sheets as of August 1, 2015 and August 2, 2014, the Condensed Consolidated Statements of Income and the Condensed Consolidated Statements of Comprehensive Income for the thirteen and twenty-six weeks ended August 1, 2015 and August 2, 2014, and the Condensed Consolidated Statements of Cash Flows for the twenty-six weeks ended August 1, 2015 and August 2, 2014 have been prepared by The Gap, Inc. (the "Company," "we," and "our"). In the opinion of management, such statements include all adjustments (which include normal recurring adjustments) considered necessary to present fairly our financial position, results of operations, and cash flows as of August 1, 2015 and August 2, 2014 and for all periods presented. The Condensed Consolidated Balance Sheet as of January 31, 2015 has been derived from our audited financial statements.

The accompanying unaudited Condensed Consolidated Financial Statements have been prepared in accordance with the rules and regulations of the Securities and Exchange Commission. Accordingly, certain information and disclosures normally included in the notes to the annual financial statements prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") have been omitted from these interim financial statements. We suggest that you read these Condensed Consolidated Financial Statements in conjunction with the Consolidated Financial Statements and notes thereto included in our Annual Report on Form 10-K for the fiscal year ended January 31, 2015.

The results of operations for the thirteen and twenty-six weeks ended August 1, 2015 are not necessarily indicative of the operating results that may be expected for the 52-week period ending January 30, 2016.

Note 2. Recent Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board ("FASB") issued an accounting standards update ("ASU") No. 2014-09, Revenue from Contracts with Customers, to clarify the principles of recognizing revenue and create common revenue recognition guidance between U.S. GAAP and International Financial Reporting Standards. In August 2015, the FASB issued ASU No. 2015-14, Revenue from Contracts with Customers, Deferral of the Effective Date, which defers the effective date of the new revenue recognition standard by one year. As a result, the ASU No. 2014-09 is effective retrospectively for fiscal years and interim periods within those years beginning after December 15, 2017. We are currently assessing the potential impact of the ASU on our Condensed Consolidated Financial Statements.

In April 2015, the FASB issued ASU No. 2015-03, Interest - Imputation of Interest, Simplifying the Presentation of Debt Issuance Costs, which requires that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. The ASU is effective retrospectively for fiscal years and interim periods within those years beginning after December 15, 2015. We do not expect the adoption of this ASU to have a material impact on our Condensed Consolidated Financial Statements.

In July 2015, the FASB issued ASU No. 2015-11, Inventory, Simplifying the Measurement of Inventory, which requires an entity to measure in scope inventory at the lower of cost and net realizable value. Net realizable value is the estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal, and transportation. The ASU is effective for fiscal years and interim periods within those years beginning after December 15, 2016. We do not expect the adoption of this ASU to have a material impact on our Condensed Consolidated Financial Statements.

Less: Current portion	(20	) (21	) (24	)
Total long-term debt, less current portion	\$1,328	\$1,332	\$1,369	

As of August 1, 2015, January 31, 2015, and August 2, 2014, the estimated fair value of our \$1.25 billion aggregate principal amount of 5.95 percent notes (the "Notes") due April 2021 was \$1.40 billion, \$1.44 billion, and \$1.43 billion, respectively, and was based on the quoted market price of the Notes (level 1 inputs) as of the last business day of the respective fiscal quarter. The aggregate principal amount of the Notes is recorded in long-term debt in the Condensed Consolidated Balance Sheets, net of the unamortized discount.

As of August 1, 2015, January 31, 2015, and August 2, 2014, the carrying amount of our 15 billion Japanese yen, four-year, unsecured term loan ("Japan Term Loan") approximated its fair value, as the interest rate varies depending on quoted market rates (level 1 inputs). Repayments of 2.5 billion Japanese yen (\$20 million as of August 1, 2015) are payable on January 15 of each year, and commenced on January 15, 2015, with a final repayment of 7.5 billion Japanese yen (\$60 million as of August 1, 2015) due on January 15, 2018. Interest is payable at least quarterly based on an interest rate equal to the Tokyo Interbank Offered Rate plus a fixed margin.

We have a \$500 million, five-year, unsecured revolving credit facility (the "Facility"), which was set to expire in May 2018. On May 20, 2015, the Facility was amended under substantially similar terms to extend the expiration date to May 2020 and improve the pricing structure. There were no borrowings and no material outstanding standby letters of credit under the Facility as of August 1, 2015.

We maintain multiple agreements with third parties that make unsecured revolving credit facilities available for our operations in foreign locations (the "Foreign Facilities"). These Foreign Facilities are uncommitted and are generally available for borrowings, overdraft borrowings, and the issuance of bank guarantees. The total capacity of the Foreign Facilities was \$50 million as of August 1, 2015. As of August 1, 2015, there were no borrowings under the Foreign Facilities. There were \$12 million in bank guarantees issued and outstanding primarily related to store leases under the Foreign Facilities as of August 1, 2015.

We have bilateral unsecured standby letter of credit agreements that are uncommitted and do not have an expiration date. As of August 1, 2015, we had \$21 million in standby letters of credit issued under these agreements. We also have a \$50 million, two-year, unsecured committed letter of credit agreement, which expires in September 2016. We had no trade letters of credit issued under this letter of credit agreement as of August 1, 2015.

Note 4. Fair Value Measurements

There were no purchases, sales, issuances, or settlements related to recurring level 3 measurements during the thirteen and twenty-six weeks ended August 1, 2015 or August 2, 2014. There were no transfers of financial assets or liabilities into or out of level 1 and level 2 during the thirteen and twenty-six weeks ended August 1, 2015 or August 2, 2014.

Financial Assets and Liabilities

Financial assets and liabilities measured at fair value on a recurring basis and cash equivalents are as follows:

We have highly liquid investments classified as cash equivalents, which are placed primarily in money market funds, time deposits, and commercial paper. These investments are classified as held-to-maturity based on our positive intent and ability to hold the securities to maturity. We value these investments at their original purchase prices plus interest that has accrued at the stated rate.

Derivative financial instruments primarily include foreign exchange forward contracts. The principal currencies hedged against changes in the U.S. dollar are British pounds, Canadian dollars, Euro, and Japanese yen. The fair value of the Company's derivative financial instruments is determined using pricing models based on current market rates. Derivative financial instruments in an asset position are recorded in other current assets or other long-term assets in the Condensed Consolidated Balance Sheets. Derivative financial instruments in a liability position are recorded in accrued expenses and other current liabilities or lease incentives and other long-term liabilities in the Condensed Consolidated Balance Sheets.

We maintain the Gap Inc. Deferred Compensation Plan ("DCP"), which allows eligible employees to defer compensation up to a maximum amount. Plan investments are recorded at market value and are designated for the DCP. The fair value of the Company's DCP assets is determined based on quoted market prices, and the assets are recorded in other long-term assets in the Condensed Consolidated Balance Sheets.

Nonfinancial Assets

We review the carrying amount of goodwill and other indefinite-lived intangible assets for impairment annually and whenever events or changes in circumstances indicate that it is more likely than not that the carrying amount may not be recoverable.

There were no material impairment charges recorded for goodwill or other indefinite-lived intangible assets for the thirteen and twenty-six weeks ended August 1, 2015 or August 2, 2014.

We review the carrying amount of long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. In June 2015, the Company announced a series of strategic actions to position Gap brand for improved business performance in the future, including its plan to close about 175 Gap brand specialty stores in North America and a limited number of European stores over the next few years. As a result, we reviewed the global Gap brand specialty fleet for impairment during the thirteen weeks ended August 1, 2015.

For the thirteen weeks ended August 1, 2015, we recorded a charge for the impairment of long-lived assets of \$37 million, primarily related to Gap brand. The amount was recorded in operating expenses in the Condensed Consolidated Statement of Income. The impairment charge reduced the then carrying amount of the applicable long-lived assets of \$43 million to their fair value of \$6 million during the thirteen weeks ended August 1, 2015.

The fair value of the long-lived assets was determined using level 3 inputs and based on discounted future cash flows of the asset or asset group using a discount rate commensurate with the risk. The asset group is defined as the lowest level for which identifiable cash flows are available and largely independent of the cash flows of other groups of assets, which for our retail stores is primarily at the store level.

There were no material impairment charges recorded for other long-lived assets for the thirteen and twenty-six weeks ended August 2, 2014.

Note 5. Derivative Financial Instruments

We operate in foreign countries, which exposes us to market risk associated with foreign currency exchange rate fluctuations. Consistent with our risk management guidelines, we hedge a portion of our transactions related to merchandise purchases for foreign operations and certain intercompany transactions using foreign exchange forward contracts. These contracts are entered into with large, reputable financial institutions that are monitored for counterparty risk. The principal currencies hedged against changes in the U.S. dollar are British pounds, Canadian dollars, Euro, and Japanese yen. We do not enter into derivative financial contracts for trading purposes. Cash flows from derivative financial instruments are classified as cash flows from operating activities in the Condensed Consolidated Statements of Cash Flows.

Cash Flow Hedges

We designate the following foreign exchange forward contracts as cash flow hedges: (1) forward contracts used to hedge forecasted merchandise purchases and related costs denominated in U.S. dollars made by our international subsidiaries whose functional currencies are their local currencies; (2) forward contracts used to hedge forecasted intercompany royalty payments denominated in foreign currencies received by entities whose functional currencies are U.S. dollars; and (3) forward contracts used to hedge forecasted intercompany revenue transactions related to merchandise sold from our regional purchasing entity, whose functional currency is the U.S. dollar, to certain international subsidiaries in their local currencies of British pounds and Euro. The foreign exchange forward contracts entered into to hedge forecasted merchandise purchases and related costs, intercompany royalty payments, and intercompany revenue transactions generally have terms of up to 24 months.

There were no material amounts recorded in the Condensed Consolidated Statements of Income for the thirteen and twenty-six weeks ended August 1, 2015 or August 2, 2014 as a result of hedge ineffectiveness, hedge components excluded from the assessment of effectiveness, or the discontinuance of cash flow hedges because the forecasted transactions were no longer probable.

Net Investment Hedges

We also use foreign exchange forward contracts to hedge the net assets of international subsidiaries to offset the foreign currency translation and economic exposures related to our investment in the subsidiaries.

There were no material amounts recorded in the Condensed Consolidated Statements of Income for the thirteen and twenty-six weeks ended August 1, 2015 or August 2, 2014 as a result of hedge ineffectiveness, hedge components excluded from the assessment of effectiveness, or the discontinuance of net investment hedges.

Other Derivatives Not Designated as Hedging Instruments

We enter into foreign exchange forward contracts to hedge our market risk exposure associated with foreign currency exchange rate fluctuations for certain intercompany balances denominated in currencies other than the functional currency of the entity with the intercompany balance. The gain or loss on the derivative financial instruments, as well as the remeasurement impact of the underlying intercompany balances, is recorded in operating expenses in the Condensed Consolidated Statements of Income in the same period and generally offset.

Outstanding Notional Amounts

We had foreign exchange forward contracts outstanding in the following notional amounts:

(notional amounts in millions)	August 1, 2015	January 31, 2015	August 2, 2014
U.S. dollars (1)	\$ 1,768	\$ 1,395	\$ 1,643
Canadian dollars	C\$40	C\$14	C\$14
Euro	€ —	€ 1	€ 26
Japanese Yen	¥ 1,523	¥ —	¥ —

(1) The principal currencies hedged against changes in the U.S. dollar were British pounds, Canadian dollars, Euro, and Japanese yen.

Quantitative Disclosures about Derivative Financial Instruments

The fair values of foreign exchange forward contracts are as follows:

(\$ in millions)	August 1, 2015	January 31, 2015	August 2, 2014
Derivatives designated as cash flow hedges:			
Other current assets	\$95	\$115	\$29
Other long-term assets	\$29	\$23	\$6
Accrued expenses and other current liabilities	\$3	\$—	\$11
Lease incentives and other long-term liabilities	\$4	\$—	\$3
Derivatives designated as net investment hedges:

Accrued expenses and other current liabilities	\$1	\$1	\$2
Lease incentives and other long-term liabilities	\$—	\$—	\$—
Total derivatives in an asset position	\$141	\$157	\$41
Total derivatives in a liability position	\$8	\$1	\$16

The majority of the unrealized gains and losses from designated cash flow hedges as of August 1, 2015 will be recognized in income within the next 12 months at the then-current values, which may differ from the fair values as of August 1, 2015 shown above.

Our foreign exchange forward contracts are subject to master netting arrangements with each of our counterparties and such arrangements are enforceable in the event of default or early termination of the contract. We do not elect to offset the fair values of our derivative financial instruments in the Condensed Consolidated Balance Sheets, and as such, the

fair values shown above represent gross amounts. The amounts subject to enforceable master netting arrangements are \$5 million, \$1 million, and \$4 million as of August 1, 2015, January 31, 2015, and August 2, 2014, respectively. If we did elect to offset, the net amounts of our derivative financial instruments in an asset position would be \$136 million, \$156 million, and \$37 million and the net amounts of the derivative financial instruments in a liability position would be \$3 million, zero, and \$12 million as of August 1, 2015, January 31, 2015, and August 2, 2014, respectively.

See Note 4 of Notes to Condensed Consolidated Financial Statements for disclosures on the fair value measurements of our derivative financial instruments.

The effective portion of gains and losses on foreign exchange forward contracts in cash flow hedging and net investment hedging relationships recorded in other comprehensive income and the Condensed Consolidated Statements of Income, on a pre-tax basis, are as follows:

(\$ in millions)	13 Weeks Ended		26 Weeks Ended	
	August 1, 2015	August 2, 2014	August 1, 2015	August 2, 2014
Derivatives in cash flow hedging relationships:

Gain reclassified into cost of goods sold and occupancy expenses	\$26	\$3	\$54	\$10
Gain reclassified into operating expenses	\$1	\$1	\$3	\$2

Derivatives in net investment hedging relationships:

Gain recognized in other comprehensive income	\$2	\$1	\$1	\$—
---	-----	-----	-----	-----

For the thirteen and twenty-six weeks ended August 1, 2015 and August 2, 2014, there were no amounts of gain or loss reclassified from accumulated other comprehensive income into net income for derivative financial instruments in net investment hedging relationships, as we did not sell or liquidate (or substantially liquidate) any of our hedged subsidiaries during the periods.

There were no material gains or losses on foreign exchange forward contracts not designated as hedging instruments that were recorded in operating expenses in the Condensed Consolidated Statements of Income, on a pre-tax basis, for the thirteen and twenty-six weeks ended August 1, 2015 and August 2, 2014.

Note 6. Share Repurchases

Share repurchase activity is as follows:

(\$ and shares in millions except average per share cost)	13 Weeks Ended		26 Weeks Ended

See Note 5 of Notes to Condensed Consolidated Financial Statements for additional disclosures about reclassifications out of accumulated other comprehensive income and their corresponding effects on the respective line items in the Condensed Consolidated Statements of Income.

Note 9. Income Taxes

The Company conducts business globally, and as a result, files income tax returns in the U.S. federal jurisdiction and various state and foreign jurisdictions. In the normal course of business, we are subject to examination by taxing authorities throughout the world, including such major jurisdictions as the United States, Canada, France, China, Hong Kong, Japan, India, and the United Kingdom. We are no longer subject to U.S. federal income tax examinations for fiscal years before 2009, and with few exceptions, we are also no longer subject to U.S. state, local, or non-U.S. income tax examinations for fiscal years before 2008.

The Company engages in continual discussions with taxing authorities regarding tax matters in the various U.S. and foreign jurisdictions in the normal course of business. As of August 1, 2015, it is reasonably possible that we will recognize a decrease in gross unrecognized tax benefits within the next 12 months of up to \$5 million, primarily due to the potential settlement of outstanding tax matters and the closing of audits. If we do recognize such a decrease, the net impact on the Condensed Consolidated Statement of Income would not be material.

During the twenty-six weeks ended August 1, 2015, we recognized an interest expense reversal of approximately \$15 million primarily as a result of a favorable foreign tax ruling and actions of foreign tax authorities related to transfer pricing matters. We reduced our unrecognized tax benefits for this matter by \$31 million, and there was no impact on the tax provision due to the offsetting decrease for the U.S. indirect effect of these unrecognized tax benefits.

Note 10. Earnings Per Share

Weighted-average number of shares used for earnings per share is as follows:

(shares in millions)	13 Weeks Ended		26 Weeks Ended	
	August 1, 2015	August 2, 2014	August 1, 2015	August 2, 2014
Weighted-average number of shares - basic	417	439	419	442
Common stock equivalents	1	4	2	5
Weighted-average number of shares - diluted	418	443	421	447

The above computations of weighted-average number of shares – diluted exclude 3 million and 2 million shares related to stock options and other stock awards for the thirteen weeks ended August 1, 2015 and August 2, 2014, respectively, and 3 million and 2 million shares related to stock options and other stock awards for the twenty-six weeks ended August 1, 2015 and August 2, 2014, respectively, as their inclusion would have an anti-dilutive effect on earnings per share.

Note 11. Commitments and Contingencies

We are a party to a variety of contractual agreements under which we may be obligated to indemnify the other party for certain matters. These contracts primarily relate to our commercial contracts, operating leases, trademarks, intellectual property, financial agreements, and various other agreements. Under these contracts, we may provide certain routine indemnifications relating to representations and warranties (e.g., ownership of assets, environmental or tax indemnifications) or personal injury matters. The terms of these indemnifications range in duration and may not be explicitly defined. Generally, the maximum obligation under such indemnifications is not explicitly stated, and as a result, the overall amount of these obligations cannot be reasonably estimated. Historically, we have not made significant payments for these indemnifications. We believe that if we were to incur a loss in any of these matters, the loss would not have a material effect on our Condensed Consolidated Financial Statements taken as a whole.

As a multinational company, we are subject to various proceedings, lawsuits, disputes, and claims (“Actions”) arising in the ordinary course of our business. Many of these Actions raise complex factual and legal issues and are subject to uncertainties. As of August 1, 2015, Actions filed against us included commercial, intellectual property, customer, employment, and data privacy claims, including class action lawsuits. The plaintiffs in some Actions seek unspecified damages or injunctive relief, or both. Actions are in various procedural stages and some are covered in part by insurance. As of August 1, 2015, January 31, 2015, and August 2, 2014, we recorded a liability for an estimated loss if the outcome of an Action is expected to result in a loss that is considered probable and reasonably estimable. The liability recorded as of August 1, 2015, January 31, 2015, and August 2, 2014 was not material for any individual

Action or in total. Subsequent to August 1, 2015 and through the filing date of this Quarterly Report on Form 10-Q, no information has become available that indicates a change is required that would be material to our Condensed Consolidated Financial Statements taken as a whole.

We cannot predict with assurance the outcome of Actions brought against us. Accordingly, developments, settlements, or resolutions may occur and impact income in the quarter of such development, settlement, or resolution. However, we do not believe that the outcome of any current Action would have a material effect on our Condensed Consolidated Financial Statements taken as a whole.

Note 12. Segment Information

The Gap, Inc. is a global retailer that sells apparel, accessories, and personal care products under the Gap, Old Navy, Banana Republic, Athleta, and Intermix brands. We identify our operating segments according to how our business activities are managed and evaluated. As of August 1, 2015, our operating segments included Gap Global, Old Navy Global, Banana Republic Global, Athleta, and Intermix. The operating results for the twenty-six weeks ended August 1, 2015 and the thirteen and twenty-six weeks ended August 2, 2014 also include Piperlime, which was discontinued as of April 30, 2015. We have determined that each of our operating segments share similar economic and other qualitative characteristics, and therefore the results of our operating segments are aggregated into one reportable segment as of August 1, 2015.

Online sales are reflected within the respective results of each brand and region in the net sales above. Total online sales were \$529 million and \$515 million for the thirteen weeks ended August 1, 2015 and August 2, 2014, respectively. Total online sales were \$1.1 billion for each of the twenty-six weeks ended August 1, 2015 and August 2, 2014.

Net sales by region are allocated based on the location in which the sale was originated. This is determined based on the location of the store where the customer paid for and received the merchandise or the distribution center or store from which the products were shipped.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

OUR BUSINESS

We are a global retailer offering apparel, accessories, and personal care products for men, women, and children under the Gap, Old Navy, Banana Republic, Athleta, and Intermix brands. We have Company-operated stores in the United States, Canada, the United Kingdom, France, Ireland, Japan, Italy, China, Hong Kong, and beginning in March 2014, Taiwan. We also have franchise agreements with unaffiliated franchisees to operate Gap, Banana Republic, and Old Navy stores throughout Asia, Australia, Europe, Latin America, the Middle East, and Africa. Under these agreements, third parties operate, or will operate, stores that sell apparel and related products under our brand names. Our products are also available to customers online through Company-owned websites and through the use of third parties that provide logistics and fulfillment services. In addition to operating in the specialty, outlet, online, and franchise channels, we also use our omni-channel capabilities to bridge the digital world and physical stores to further enhance our shopping experience for our customers. Our omni-channel services include order-in-store, reserve-in-store, find-in-store, and ship-from-store. Most of the products sold under our brand names are designed by us and manufactured by independent sources. We also sell products that are designed and manufactured by branded third parties, primarily at our Intermix brand.

OVERVIEW

Our results for the second quarter and the first half of fiscal 2015 were negatively impacted by:

foreign exchange rate fluctuations;

delayed or canceled receipts of merchandise due to U.S. West Coast port congestion; and

certain charges incurred in connection with the Company's strategic actions primarily related to Gap brand.

Financial results for the second quarter of fiscal 2015 are as follows:

Net sales for the second quarter of fiscal 2015 decreased 2 percent compared with the second quarter of fiscal 2014.

Excluding the impact of foreign exchange, our net sales were flat for the second quarter of fiscal 2015 compared with the second quarter of fiscal 2014. See Net Sales discussion for impact of foreign exchange.

Comparable sales for the second quarter of fiscal 2015 decreased 2 percent compared with flat for the second quarter of fiscal 2014.

Operating margin for the second quarter of fiscal 2015 was 9.5 percent compared with 14.2 percent for the second quarter of fiscal 2014. Operating margin for the second quarter of fiscal 2015 was negatively impacted by foreign exchange, U.S. West Coast port congestion, and certain charges related to strategic actions as noted above.

Net income for the second quarter of fiscal 2015 was \$219 million compared with \$332 million for the second quarter of fiscal 2014, and diluted earnings per share was \$0.52 for the second quarter of fiscal 2015 compared with \$0.75 for the second quarter of fiscal 2014.

During the first half of fiscal 2015, we distributed \$814 million to shareholders through share repurchases and dividends.

For fiscal 2015, turning around Gap brand remains a top priority as we focus on improving the brand's business performance. Further, we expect to continue our investment in digital capabilities and to further enhance our shopping experience for our customers. We also plan to continue our global growth, including opening additional stores in Asia with a focus on Gap China, Old Navy China, and Old Navy Japan. In addition, we also expect to open additional Athleta stores in the United States.

In fiscal 2015, we expect that foreign exchange rate fluctuations will continue to have a meaningful negative impact on our results, particularly in our largest foreign subsidiaries in Canada and Japan. With the depreciation of the Canadian dollar, Japanese yen, and other foreign currencies, we expect net sales translated into U.S. dollars will negatively impact our total Company net sales growth. In addition, we expect gross margins for our foreign subsidiaries to be negatively impacted as our merchandise purchases are primarily in U.S. dollars. We expect this negative impact of foreign exchange rate fluctuations to be partially offset by the favorable impact of translation of expenses in foreign currencies into U.S. dollars.

In June 2015, we announced a series of strategic actions to position Gap brand for improved business performance in the future, including our decision to right-size the Gap brand store fleet and streamline the brand's headquarter

workforce. The Company expects to close approximately 175 specialty stores in North America and a limited number of European stores over the next few years, with about 140 closures occurring in fiscal 2015. The brand's headquarter workforce is expected to be reduced by approximately 250 roles during fiscal 2015. In connection with the store closures and workforce reduction, the Company incurred certain charges during the second quarter of fiscal 2015, primarily consisting of lease termination fees, lease losses, and employee related expenses, as well as impairment of store assets related to closing stores. We are also developing a clear, on-brand product aesthetic framework that will help strengthen the Gap brand to compete more successfully on the global stage. As part of the effort to turn around the brand business performance, the Company also incurred additional charges during the second quarter of fiscal 2015, primarily consisting of impairment of store assets related to underperforming stores and impairment of inventory that did not meet brand standards.

The charges incurred in the second quarter of fiscal 2015 related to the Company's strategic actions primarily related to Gap brand are as follows:

(\$ in millions)	Cost of Goods Sold and Occupancy Expenses	Operating Expenses	Total Charges
Store closures and workforce reduction:			
Lease termination fees and lease losses	\$—	\$23	\$23
Employee related expenses	1	9	10
Store asset impairment	1	3	4
Other	(1)	) 3	2
Total	1	38	39
Other charges:			
Store asset impairment related to underperforming stores	—	33	33
Inventory impairment	11	—	11
Total	11	33	44

Total charges related to strategic actions \$12 \$71 \$83

Including the charges incurred in the second quarter of fiscal 2015, the Company expects to incur approximately \$130 million to \$140 million of charges in fiscal 2015 associated with the strategic actions primarily related to Gap brand.

RESULTS OF OPERATIONS

Net Sales

See Note 12 of Notes to Condensed Consolidated Financial Statements included in Part I, Item 1 in this Form 10-Q, for net sales by brand and region.

Comparable Sales

The percentage change in comparable ("Comp") sales by global brand and for total Company, as compared with the preceding year, is as follows:

	13 Weeks Ended		26 Weeks Ended	
	August 1, 2015	August 2, 2014	August 1, 2015	August 2, 2014
Gap Global	(6)%	(5)%	(8)%	(5)%
Old Navy Global	3%	4%	3%	3%
Banana Republic Global	(4)%	—	(6)%	—
The Gap, Inc.	(2)%	—	(3)%	(1)%

Comparable online sales favorably impacted total Company Comp sales by 2 percent in each of the second quarter of fiscal 2015 and 2014. Comparable online sales favorably impacted total Company Comp sales by 1 percent and 2 percent in the first half of fiscal 2015 and 2014, respectively.

Only Company-operated stores are included in the calculations of Comp sales. The calculation of total Company Comp sales includes the results of Athleta and Intermix but excludes the results of our franchise business.

A store is included in the Comp sales calculations when it has been open and operated by the Company for at least one year and the selling square footage has not changed by 15 percent or more within the past year. A store is included in the Comp sales calculations on the first day it has comparable prior year sales. Stores in which the selling square footage has changed by 15 percent or more as a result of a remodel, expansion, or reduction are excluded from the Comp sales calculations until the first day they have comparable prior year sales.

A store is considered non-comparable ("Non-comp") when it has been open and operated by the Company for less than one year or has changed its selling square footage by 15 percent or more within the past year.

A store is considered “Closed” if it is temporarily closed for three or more full consecutive days or it is permanently closed. When a temporarily closed store reopens, the store will be placed in the Comp/Non-comp status it was in prior to its closure. If a store was in Closed status for three or more days in the prior year, the store will be in Non-comp status for the same days the following year.

Online Comp sales are defined as sales through online channels in those countries where we have existing Comp store sales.

Current year foreign exchange rates are applied to both current year and prior year Comp sales to achieve a consistent basis for comparison.

Store Count and Square Footage Information

Net sales per average square foot is as follows:

Net Sales

Our net sales for the second quarter of fiscal 2015 decreased \$83 million, or 2 percent, compared with the second quarter of fiscal 2014 primarily due to the unfavorable impact of foreign exchange of \$100 million and a decrease in net sales primarily at Gap and Banana Republic; partially offset by an increase in net sales at Old Navy. The unfavorable impact of foreign exchange was primarily due to the weakening of the Japanese yen and Canadian dollar against the U.S. dollar. The foreign exchange impact is the translation impact if net sales for the second quarter of

fiscal 2014 were translated at exchange rates applicable during the second quarter of fiscal 2015. Excluding the impact of foreign exchange, our net sales for the second quarter of fiscal 2015 were flat on a constant currency basis compared with the second quarter of fiscal 2014. We believe this metric enhances the visibility of underlying business trends by excluding the impact of foreign currency exchange rate fluctuations.

Our net sales for the first half of fiscal 2015 decreased \$200 million, or 3 percent, compared with the first half of fiscal 2014 primarily due to the unfavorable impact of foreign exchange of \$188 million and a decrease in net sales primarily at Gap and Banana Republic; partially offset by an increase in net sales at Old Navy. The unfavorable impact of foreign exchange was primarily due to the weakening of the Japanese yen and Canadian dollar against the U.S. dollar. The foreign exchange impact is the translation impact if net sales for the first half of fiscal 2014 were translated at exchange rates applicable during the first half of fiscal 2015. Excluding the impact of foreign exchange, our net sales for the first half of fiscal 2015 were flat on a constant currency basis compared with the first half of fiscal 2014. We believe this metric enhances the visibility of underlying business trends by excluding the impact of foreign currency exchange rate fluctuations.

Cost of Goods Sold and Occupancy Expenses

(\$ in millions)	13 Weeks Ended		26 Weeks Ended	
	August 1, 2015	August 2, 2014	August 1, 2015	August 2, 2014
Cost of goods sold and occupancy expenses	\$2,440	\$2,412	\$4,715	\$4,720
Gross profit	\$1,458	\$1,569	\$2,840	\$3,035
Cost of goods sold and occupancy expenses as a percentage of net sales	62.6	% 60.6	% 62.4	% 60.9
Gross margin	37.4	% 39.4	% 37.6	% 39.1

Cost of goods sold and occupancy expenses increased 2.0 percentage points in the second quarter of fiscal 2015 compared with the second quarter of fiscal 2014.

Cost of goods sold increased 1.6 percentage points in the second quarter of fiscal 2015 compared with the second quarter of fiscal 2014 primarily driven by increased markdown activities and incremental shipping cost partially due to the U.S. West Coast port congestion. Cost of goods sold in the second quarter of fiscal 2015 was also negatively impacted by foreign exchange as our merchandise purchases are primarily in U.S. dollars.

Occupancy expenses increased 0.4 percentage points in the second quarter of fiscal 2015 compared with the second quarter of fiscal 2014, primarily driven by the decrease in net sales without a corresponding decrease in occupancy expenses.

Cost of goods sold and occupancy expenses increased 1.5 percentage points in the first half of fiscal 2015 compared with the first half of fiscal 2014.

Cost of goods sold increased 0.8 percentage points in the first half of fiscal 2015 compared with the first half of fiscal 2014 primarily driven by increased markdown activities and incremental shipping cost partially due to the U.S. West Coast port congestion. Cost of goods sold in the first half of fiscal 2015 was also negatively impacted by foreign exchange as our merchandise purchases are primarily in U.S. dollars.

Occupancy expenses increased 0.7 percentage points in the first half of fiscal 2015 compared with the first half of fiscal 2014, primarily driven by the decrease in net sales without a corresponding decrease in occupancy expenses.

Operating Expenses

(\$ in millions)	13 Weeks Ended		26 Weeks Ended	
	August 1, 2015	August 2, 2014	August 1, 2015	August 2, 2014
Operating expenses	\$1,089	\$1,002	\$2,085	\$2,025
Operating expenses as a percentage of net sales	27.9	% 25.2	% 27.6	% 26.1
Operating margin	9.5	% 14.2	% 10.0	% 13.0

Operating expenses increased \$87 million, or 2.7 percentage points, in the second quarter of fiscal 2015 compared with the second quarter of fiscal 2014. Operating expenses increased \$60 million, or 1.5 percentage points, in the first half of fiscal 2015 compared with the first half of fiscal 2014.

The increase in operating expenses for the second quarter and the first half of fiscal 2015 compared with the respective periods of fiscal 2014 was primarily due to charges associated with the store closures, workforce reduction,

and store asset impairment, primarily related to Gap brand incurred in the second quarter of fiscal 2015, as well as the gain on sale of a building recognized in the second quarter of fiscal 2014; partially offset by the favorable translation impact as a result of foreign exchange rate fluctuations.

Interest Expense

(\$ in millions)	13 Weeks Ended		26 Weeks Ended	
	August 1, 2015	August 2, 2014	August 1, 2015	August 2, 2014
Interest expense	\$17	\$19	\$22	\$36

Interest expense for the second quarter of fiscal 2015 and 2014 primarily consists of interest on overall borrowings and other obligations mainly related to our \$1.25 billion 5.95 percent Notes.

Interest expense for the first half of fiscal 2015 includes \$37 million of interest on overall borrowings and other obligations mainly related to our \$1.25 billion 5.95 percent Notes, partially offset by a reversal of approximately \$15 million of tax-related interest expense primarily resulting from a favorable foreign tax ruling and actions of foreign tax authorities related to transfer pricing matters. Interest expense for the first half of fiscal 2014 primarily consists of interest on overall borrowings and other obligations mainly related to our \$1.25 billion 5.95 percent Notes.

Income Taxes

(\$ in millions)	13 Weeks Ended		26 Weeks Ended	
	August 1, 2015	August 2, 2014	August 1, 2015	August 2, 2014
Income taxes	\$134	\$217	\$277	\$383
Effective tax rate	38.0	% 39.5	% 37.7	% 39.3

The decrease in the effective tax rate for the second quarter and first half of fiscal 2015 compared with the second quarter and first half of fiscal 2014 was primarily due to the indefinite reinvestment of certain foreign fiscal 2015 earnings, which will be used to fund international growth.

LIQUIDITY AND CAPITAL RESOURCES

Our largest source of cash flows is cash collections from the sale of our merchandise. Our primary uses of cash include merchandise inventory purchases, occupancy costs, personnel-related expenses, purchases of property and equipment, share repurchases, and payment of taxes. As of August 1, 2015, cash and cash equivalents were \$1.0 billion. As of August 1, 2015, over half of our cash and cash equivalents were held in the U.S. and are generally accessible without any limitations.

We believe that current cash balances and cash flows from our operations will be sufficient to support our business operations, including growth initiatives and planned capital expenditures, for the next 12 months and beyond. We are also able to supplement near-term liquidity, if necessary, with our \$500 million revolving credit facility or other available market instruments.

Cash Flows from Operating Activities

Net cash provided by operating activities during the first half of fiscal 2015 decreased \$354 million compared with the first half of fiscal 2014, primarily due to the following:

- a decrease of \$170 million related to other current assets and other long-term assets primarily due to the change in timing of payments received related to our credit card program, which resulted in increased cash inflow in the first half of fiscal 2014;
- a decrease of \$134 million in net income;
- a decrease of \$122 million related to lease incentives and other long-term liabilities primarily due to the receipt of an upfront payment in the first half of fiscal 2014 related to the amendment of our credit card program agreement with the third-party financing company, which is being amortized over the term of the contract;
- a decrease of \$106 million related to merchandise inventory primarily due to the volume and timing of receipts; partially offset by
- an increase of \$74 million related to accrued expenses and other current liabilities primarily due to a lower bonus payout in the first half of fiscal 2015 compared with the bonus payout in the first half of fiscal 2014; and
- an increase of \$50 million related to accounts payable primarily due to the timing of merchandise payments.

We fund inventory expenditures during normal and peak periods through cash flows from operating activities and available cash. Our business follows a seasonal pattern, with sales peaking during the end-of-year holiday period. The seasonality of our operations may lead to significant fluctuations in certain asset and liability accounts between fiscal year-end and subsequent interim periods.

Cash Flows from Investing Activities

Net cash used for investing activities during the first half of fiscal 2015 increased \$94 million compared with the first half of fiscal 2014, primarily due to the following:

- \$121 million of proceeds from the sale of a building owned but no longer occupied by the Company in the first half of fiscal 2014; partially offset by
- \$27 million less property and equipment purchases.

Cash Flows from Financing Activities

Net cash used for financing activities during the first half of fiscal 2015 increased \$25 million compared with the first half of fiscal 2014, primarily due to the following:

- \$14 million more repurchases of common stock; and
- \$11 million more net cash outflows related to issuances under share-based compensation plans and withholding tax payments related to vesting of stock units.

Free Cash Flow

Free cash flow is a non-GAAP financial measure. We believe free cash flow is an important metric because it represents a measure of how much cash a company has available for discretionary and non-discretionary items after the deduction of capital expenditures, as we require regular capital expenditures to build and maintain stores and purchase new equipment to improve our business. We use this metric internally, as we believe our sustained ability to generate free cash flow is an important driver of value creation. However, this non-GAAP financial measure is not intended to supersede or replace our GAAP results.

The following table reconciles free cash flow, a non-GAAP financial measure, from a GAAP financial measure.

(\$ in millions)	26 Weeks Ended	
	August 1, 2015	August 2, 2014
Net cash provided by operating activities	\$642	\$996
Less: Purchases of property and equipment	(301)	(328)
Free cash flow	\$341	\$668

Long-Term Debt and Credit Facilities

Certain financial information about the Company's long-term debt and credit facilities is set forth under the heading "Debt and Credit Facilities" in Note 3 of Notes to Condensed Consolidated Financial Statements included in Part I, Item 1 of this Form 10-Q.

Dividend Policy

In determining whether and at what level to declare a dividend, we consider a number of factors including sustainability, operating performance, liquidity, and market conditions.

We paid a dividend of \$0.46 per share and \$0.44 per share during the first half of fiscal 2015 and fiscal 2014, respectively. Including the dividend paid during the first half of fiscal 2015, we intend to pay an annual dividend of \$0.92 per share for fiscal 2015 compared with the annual dividend of \$0.88 per share for fiscal 2014.

Share Repurchases

Certain financial information about the Company's share repurchases is set forth under the heading "Share Repurchases" in Note 6 of Notes to Condensed Consolidated Financial Statements included in Part I, Item 1 of this Form 10-Q.

Summary Disclosures about Contractual Cash Obligations and Commercial Commitments

There have been no material changes to our contractual obligations and commercial commitments as disclosed in our Annual Report on Form 10-K as of January 31, 2015, other than those which occur in the normal course of business. See Note 11 of Notes to Condensed Consolidated Financial Statements included in Part I, Item 1 of this Form 10-Q, for disclosures on commitments and contingencies.

Critical Accounting Policies and Estimates

There have been no significant changes to our critical accounting policies and estimates as discussed in our Annual Report on Form 10-K for the fiscal year ended January 31, 2015.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

Our market risk profile as of August 1, 2015 has not significantly changed since January 31, 2015. Our market risk profile as of January 31, 2015 is disclosed in our Annual Report on Form 10-K. See Notes 3, 4, and 5 of Notes to Condensed Consolidated Financial Statements included in Part I, Item 1, of this Form 10-Q, for disclosures on our debt, investments, and derivative financial instruments.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

We carried out an evaluation, under the supervision and with the participation of management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Exchange Act Rule 13a-15(e)) as of the end of the period covered by this Quarterly Report on Form 10-Q. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective.

Changes in Internal Control over Financial Reporting

There was no change in the Company's internal control over financial reporting that occurred during the Company's second quarter of fiscal 2015 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings.

As a multinational company, we are subject to various proceedings, lawsuits, disputes, and claims arising in the ordinary course of our business. Many of these Actions raise complex factual and legal issues and are subject to uncertainties. Actions filed against us from time to time include commercial, intellectual property, customer, employment, and data privacy claims, including class action lawsuits. The plaintiffs in some Actions seek unspecified damages or injunctive relief, or both. Actions are in various procedural stages, and some are covered in part by insurance.

We cannot predict with assurance the outcome of Actions brought against us. Accordingly, developments, settlements, or resolutions may occur and impact income in the quarter of such development, settlement, or resolution. However, we do not believe that the outcome of any current Action would have a material effect on our financial results.

Item 1A. Risk Factors.

There have been no material changes in our risk factors from those disclosed in Part I, Item 1A of our Annual Report on Form 10-K for the fiscal year ended January 31, 2015.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

The following table presents information with respect to purchases of common stock of the Company made during the thirteen weeks ended August 1, 2015 by The Gap, Inc. or any affiliated purchaser, as defined in Exchange Act Rule 10b-18(a)(3):
