1 TO THE STOCKHOLDERS

General American Investors

The U.S. stock market rose for the second consecutive year, gaining 10.8% in the 12 months ended December 31, 2004, as measured by our benchmark, the Standard & Poor's 500 Stock Index (including income). General American Investors' net asset value (NAV) per Common Share (assuming reinvestment of all dividends) increased 10.4%. The return to our Common Stockholders was 8.8%, reflecting a widening in the discount at which our shares trade which, at year end, was 11.7%.

The table that follows, which compares our returns on an annualized basis with the S&P 500, illustrates that over many years General American has produced superior investment results.

Years	Stockholder Return	S&P 500
3	0.2%	3.5%
5	4.6	- 2.3
10	16.8	12.0
20	15.2	13.2
30	17.3	13.7
40	12.9	10.5

During 2004, the Company purchased 1,092,800 of its Common Shares in the open market at an average discount to NAV of 10.3%. The Board of Directors has authorized repurchases of Common Shares when they are trading at a discount in excess of 8% of NAV.

While the market rallied last year, reflecting stronger profits than expected and lower interest rates than feared, most of the gain came in the final two months as the economy - along with labor markets - appeared to firm, signs of pricing power at the corporate level emerged, and merger and acquisition activity accelerated. Prior thereto, concerns regarding the twin deficits (budget and trade), the weakened dollar, rising energy costs, and the struggle in Iraq, among others, appeared to weigh on investor confidence. Unquestionably, the deficits impart instability to the financial system. Should foreign entities lose enthusiasm for holding the dollar-denominated assets that have come into their possession as a result of deficit finance, the stock and bond markets could be adversely affected. While we doubt that global imbalances can be resolved in the near term, the ongoing orderly decline in the dollar may help in that regard. It should increase exports and encourage American households to buy U.S. sourced goods at the same time.

With respect to energy, prices of oil and natural gas, having risen dramatically, may have peaked. Normalized future prices, however, could be meaningfully higher than in the past decade notwithstanding the volatility that attends, notably, unseasonable weather conditions. The world's consumption of

Edgar Filing: GENERAL AMERICAN INVESTORS CO INC - Form N-CSR

hydrocarbons is expected to continue to grow, having shown little sensitivity to higher prices. Supply is constrained, meanwhile, by the need for greater capital investment to sustain output from mature fields and to explore in areas characterized by significant geopolitical uncertainty. Therefore, energy securities have become an increasingly significant part of our portfolio with an accompanying decline in cash reserves. Corporate cash flows, furthermore, and their translation into dividends and share buybacks, have risen in importance as a portfolio metric. Dividends have been advantaged by the law change reducing the tax on them to 15% - the same rate as is applicable to long-term capital gains.

We enter 2005 with economic expansion more securely in place and anticipate modest, but healthy, growth in corporate results. Inflation remains subdued, though dollar weakness, historically, has led to its acceleration. Since roughly 40% of corporate earnings come from abroad, however, measured advances in prices can be beneficial thereto. Interest rates on long-dated bonds are not likely to decline again as they did last year, in the face of the Fed's seemingly inexorable march toward a 3% or higher Funds level. As rates increase, the consumer's ability to sustain spending, based on rising household wealth in the form of securities and real estate, may prove suspect in the context of low savings and the threat of unemployment. However, the combination of constrained capacity and pricing power should enable the corporate sector to importantly augment if not replace the consumer as the chief engine of economic growth.

Congressional support for the Bush agenda is likely to be tempered by the record budget deficit and Americans may become less tolerant of economic disparities, moreover, in the face of growing income inequality. But the U.S. should remain the destination of choice for capital and barring a dollar crisis the economy is likely to keep growing. In this environment, companies with relatively high, stable returns and low debt should continue to prosper, which augers well for General American's future returns.

We are pleased to announce that, on December 8, 2004, Craig A. Grassi, who has been an employee since 1991, was elected Assistant Vice-President of the Company and Maureen E. LoBello, an employee since 1992, was elected Assistant Secretary of the Company, both effective January 1, 2005.

We are also pleased to report that, on January 19, 2005, Peter E. de Svastich was elected Vice-President of the Company. Prior to joining the Company in November 2004, Mr. de Svastich had been a senior executive and/or chief financial officer of several investment management and financial services organizations over the past 35 years.

Information about the Company, including our investment objective, operating policies and procedures, investment results, record of dividend payments, financial reports and press releases, etc., is available on our website which can be accessed at www.generalamericaninvestors.com.

Spencer Davidson

2 THE COMPANY

General American Investors

Corporate Overview

Edgar Filing: GENERAL AMERICAN INVESTORS CO INC - Form N-CSR

General American Investors, established in 1927, is one of the nation's oldest closed-end investment companies. It is an independent organization, internally managed. For regulatory purposes, the Company is classified as a diversified, closed-end management investment company; it is registered under and subject to the regulatory provisions of the Investment Company Act of 1940.

Investment Policy

The primary objective of the Company is long-term capital appreciation. Lesser emphasis is placed on current income. In seeking to achieve its primary objective, the Company invests principally in common stocks believed by its management to have better than average growth potential.

The Company's investment approach focuses on the selection of individual stocks, each of which is expected to meet a clearly defined portfolio objective. A continuous investment research program, which stresses fundamental security analysis, is carried on by the officers and staff of the Company under the oversight of the Board of Directors. A listing of the directors with their principal affiliations, showing a broad range of experience in business and financial affairs, is on the inside back cover of this report.

Portfolio Manager

Mr. Spencer Davidson has been responsible for the management of General American's portfolio since he was elected President and Chief Executive Officer of the Company in August 1995. Mr. Davidson, who joined the Company in 1994 as senior investment counselor, has spent his entire business career on Wall Street since first joining an investment and banking firm in 1966.

"GAM" Common Stock

As a closed-end investment company, General American Investors does not offer its shares continuously. The Common Stock is listed on The New York Stock Exchange (symbol, GAM) and can be bought or sold with commissions determined in the same manner as all listed stocks. Net asset value is computed daily (on an unaudited basis) and is furnished upon request. It is also available on most electronic quotation services using the symbol "XGAMX." The figure for net asset value per share, together with the market price and the percentage discount or premium from net asset value as of the close of each week, is published in The New York Times, The Wall Street Journal and Barron's.

The ratio of market price to net asset value has shown considerable variation over a long period of time. While shares of GAM usually sell at a discount from their underlying net asset value, as do the shares of most other domestic equity closed-end investment companies, they, occasionally, sell at a premium over net asset value. The last time the Company's shares sold at a premium for a prolonged period was the year-long period from March 1992 through April 1993. During 2004, the stock sold at discounts from net asset value which ranged from 8.2% (March 11) to 12.6% (September 21). At December 31, the price of the stock was at a discount of 11.7% as compared with a discount of 10.2% a year earlier.

"GAM Pr B" Preferred Stock

On September 24, 2003, the Company issued and sold in an underwritten offering 8,000,000 shares of its 5.95% Cumulative Preferred Stock, Series B with a liquidation preference of \$25 per share (\$200,000,000 in the aggregate).

The Preferred Shares are noncallable for 5 years, are rated "aaa" by Moody's Investors Service, Inc. and are listed and traded on The New York Stock Exchange (symbol, GAM Pr B).

3 THE COMPANY

General American Investors

The preferred capital is available to leverage the investment performance of the Common Stockholders. As is the case for leverage in general, it may also result in higher market volatility for the Common Stockholders.

Dividend Policy

The Company's dividend policy is to distribute to stockholders before year-end substantially all ordinary income estimated for the full year and capital gains realized during the ten-month period ending October 31 of that year. If any additional capital gains are realized or ordinary income is earned during the last two months of the year, a "spill-over" distribution of these amounts will be paid early in the following year to Common Stockholders. Dividends on shares of Preferred Stock are paid quarterly. Distributions from capital gains and ordinary income are allocated proportionately among holders of shares of Common Stock and Preferred Stock.

Dividends from income have been paid continuously on the Common Stock since 1939 and capital gain dividends in varying amounts have been paid for each of the years 1943-2004 (except for the year 1974). (A table listing dividends paid during the 20-year period 1985-2004 is shown at the bottom of page 6.) To the extent that shares can be issued, dividends are paid to Common Stockholders in additional shares of Common Stock unless the stockholder specifically requests payment in cash. Spill-over dividends of very nominal amounts may be paid in cash only.

Proxy Voting Policies, Procedures and Record

The policies and procedures used by General American Investors to determine how to vote proxies relating to portfolio securities and the Company's proxy voting record for the 12-month period ended June 30, 2004 are available: (1) without charge, upon request, by calling the Company at its toll-free number (1-800-436-8401), (2) on the Company's website at <http://www.generalamericaninvestors.com> and (3) on the Securities and Exchange Commission's website at <http://www.sec.gov>.

Direct Registration

In 2002, the Company implemented direct registration for its Common Shareholders. Direct registration, which is an element of the Investors Choice Plan administered by our transfer agent, is a system that allows for book-entry ownership and the electronic transfer of our Common Shares. Accordingly, when Common Shareholders, who hold their shares directly, receive new shares resulting from a purchase, transfer or dividend payment, they will receive a statement showing the credit of the new shares as well as their Plan account and certificated share balances. A brochure which describes the features and benefits of the Investors Choice Plan, including the ability of shareholders to deposit certificates with our transfer agent, can be obtained by calling American Stock Transfer & Trust Company at 1-800-413-5499, calling the Company at 1-800-436-8401 or visiting our website: www.generalamericaninvestors.com - click on Dividends & Reports, then Report Downloads.

Privacy Policy and Practices

General American Investors collects nonpublic personal information about its customers (stockholders) with respect to their transactions in shares of the Company's securities but only for those stockholders whose shares are registered

in their names. This information includes the stockholder's address, tax identification or Social Security number and dividend elections. We do not have knowledge of, nor do we collect personal information about, stockholders who hold the Company's securities at financial institutions such as brokers or banks in "street name" registration.

We do not disclose any nonpublic personal information about our stockholders or former stockholders to anyone, except as permitted by law.

We restrict access to nonpublic personal information about our stockholders to those employees who need to know that information to provide services to our stockholders. We maintain physical, electronic and procedural safeguards that comply with federal standards to guard our stockholders' nonpublic personal information.

4 INVESTMENT RESULTS (UNAUDITED)

----- General American Investors

"Total return on \$10,000 investment 20 years ended December 31, 2004"

The investment return for a Common Stockholder of General American Investors (GAM) over the 20 years ended December 31, 2004 is shown in the table below and in the accompanying chart. The return based on GAM's net asset value (NAV) per Common Share in comparison to the change in the Standard & Poor's 500 Stock Index (S&P 500) is also displayed. Each illustration assumes an investment of \$10,000 at the beginning of 1985.

The Stockholder Return is the return a Common Stock holder of GAM would have achieved assuming reinvestment of all optional dividends at the actual reinvestment price and reinvestment of all cash dividends at the average (mean between high and low) market price on the ex-dividend date.

The GAM Net Asset Value (NAV) Return is the return on shares of the Company's Common Stock based on the NAV per share, including the reinvestment of all dividends.

The S&P 500 Return is the time-weighted total rate of return on this widely-recognized, unmanaged index which is a measure of general stock market performance, including dividend income.

The results illustrated are a record of past performance and may not be indicative of future results.

A leading provider of non-hazardous solid waste collection and disposal services in the U.S. The efficient operation of its routes and facilities combined with appropriate pricing enable Republic Services to generate significant free cash flow. The high probability of additional contracts and the expectation that economic activity will continue to improve should result in higher waste volumes for the company.

GOLDEN WEST FINANCIAL CORPORATION	620,000	38,080,40
-----------------------------------	---------	-----------

A savings and loan holding company with approximately \$106 billion in assets headquartered in Oakland, CA. It has a strong, conservative management with a high level of insider ownership. Excellent asset quality, tight expense control and efficient capital management help produce above-average earnings increases.

WAL-MART STORES, INC.	675,000	35,653,50
-----------------------	---------	-----------

A policy of serving the mass market with everyday low prices, supported by the lowest cost structure has made Wal-Mart the world's largest retailer with ongoing growth opportunities in the U.S. and overseas.

PFIZER INC	1,275,000	34,284,75
------------	-----------	-----------

Well established as a leader in the pharmaceutical industry, Pfizer continues its commitment to research and development and its ability to effectively market products. Pfizer remains dedicated to optimizing its corporate structure and is streamlining the company.

1. SIGNIFICANT ACCOUNTING POLICIES

General American Investors Company, Inc. (the "Company"), established in 1927, is registered under the Investment Company Act of 1940 as a closed-end, diversified management investment company. It is internally managed by its officers under the direction of the Board of Directors.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Certain prior year financial statement items have been reclassified, from Other Comprehensive Income to a reduction of Expenses and an increase in Net Investment Income, to conform to the current year presentation.

a. SECURITY VALUATION Securities traded on a national securities exchange are valued at the last reported sales price on the last business day of the period. Securities reported on the NASDAQ national market are valued at the official closing price on that day. Listed and NASDAQ securities for which no sales are reported on that day and other securities traded in the over-the-counter market are valued at the last bid price (asked price for open short positions and options written) on the valuation date. Securities traded primarily in foreign markets are generally valued at the preceding closing price of such securities on their respective exchanges or markets. If, after the close of the foreign market, conditions change significantly, the price of certain foreign securities may be adjusted to reflect fair value as of the time of the valuation of the portfolio. Corporate discount notes are valued at amortized cost, which approximates market value. Special holdings (restricted securities) and other securities for which quotations are not readily available are valued at fair value determined in good faith pursuant to procedures established by and under the general supervision of the Board of Directors.

b. SHORT SALES The Company may make short sales of securities for either speculative or hedging purposes. When the Company makes a short sale, it borrows the securities sold short from a broker; in addition, the Company places cash with that broker and securities in a segregated account with the custodian, both as collateral for the short position. The Company may be required to pay a fee to borrow the securities and may also be obligated to pay any dividends declared on the borrowed securities. The Company will realize a gain if the security price decreases and a loss if the security price increases between the date of the short sale and the date on which the Company replaces the borrowed securities.

c. OPTIONS The Company may purchase and write (sell) put and call options. The risk associated with purchasing an option is that the Company pays a premium whether or not the option is exercised. Additionally, the Company bears the risk of loss of the premium and a change in market value should the counterparty not perform under the contract. Put and call options purchased are accounted for in the same manner as portfolio securities. Premiums received from writing options that expire unexercised are treated by the Company on the expiration date as realized gains from investments. The difference between the premium received and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is also treated as a realized gain, or, if the premium is less than the amount paid for the closing purchase transaction, as a realized loss. If a call option is exercised, the premium is added to the proceeds from the sale of the underlying security in determining whether the Company has realized a gain or loss. If a put option is exercised, the premium reduces the cost basis for the securities purchased by the Company. The Company as writer of an option bears the market risk of an unfavorable change in the price of the security

Edgar Filing: GENERAL AMERICAN INVESTORS CO INC - Form N-CSR

underlying the written option.

d. FEDERAL INCOME TAXES The Company's policy is to fulfill the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all taxable income to its stockholders. Accordingly, no provision for Federal income taxes is required.

e. INDEMNIFICATIONS In the ordinary course of business, the Company enters into contracts that contain a variety of indemnifications. The Company's maximum exposure under these arrangements is unknown. However, the Company has not had prior claims or losses pursuant to these indemnification provisions and expects the risk of loss thereunder to be remote.

f. OTHER As customary in the investment company industry, securities transactions are recorded as of the trade date. Dividend income and distributions to stockholders are recorded as of the ex-dividend dates. Interest income, adjusted for amortization of discount and premium on investments, is earned from settlement date and is recognized on the accrual basis. Cost of short-term investments represents amortized cost.

2. CAPITAL STOCK AND DIVIDEND DISTRIBUTIONS

The authorized capital stock of the Company consists of 50,000,000 shares of Common Stock, \$1.00 par value, and 10,000,000 shares of Preferred Stock, \$1.00 par value, of which 29,205,312 shares and 8,000,000 shares, respectively, were outstanding at December 31, 2004.

On September 23, 2003, the Company redeemed all of its then outstanding 6,000,000 shares of 7.20% Tax-Advantaged Cumulative Preferred Stock, Series A, at a redemption price of \$25.00 per share. The Series A Preferred Shares were issued originally on June 19, 1998.

On September 24, 2003, the Company issued and sold 8,000,000 shares of its 5.95% Cumulative Preferred Stock, Series B in an underwritten offering. The Preferred Shares are noncallable for 5 years and have a liquidation preference of \$25.00 per share plus an amount equal to accumulated and unpaid dividends to the date of redemption. The underwriting discount and other expenses associated with the Preferred Stock offering amounted to \$6,700,000 and were charged to paid-in capital.

The Company is required to allocate distributions from long-term capital gains and other types of income proportionately among holders of shares of Common Stock and Preferred Stock. To the extent that dividends on the shares of Preferred Stock are not paid from long-term capital gains, they will be paid from ordinary income or net short-term capital gains or will represent a return of capital

2. CAPITAL STOCK AND DIVIDEND DISTRIBUTIONS - (Continued from bottom of previous page.)

Under the Investment Company Act of 1940, the Company is required to maintain an asset coverage of at least 200% for the Preferred Stock. In addition, pursuant to the Rating Agency Guidelines, the Company is required to maintain a certain discounted asset coverage for its portfolio that equals or exceeds the Basic Maintenance Amount under the guidelines established by Moody's

Edgar Filing: GENERAL AMERICAN INVESTORS CO INC - Form N-CSR

Investors Service, Inc. The Company has met these requirements since the issuance of the Preferred Stock. If the Company fails to meet these requirements in the future and does not cure such failure, the Company may be required to redeem, in whole or in part, shares of Preferred Stock at a redemption price of \$25.00 per share plus accumulated and unpaid dividends (whether or not earned or declared). In addition, the Company's failure to meet the foregoing asset coverage requirements could restrict its ability to pay dividends on shares of Common Stock and could lead to sales of portfolio securities at inopportune times.

The holders of Preferred Stock have voting rights equivalent to those of the holders of Common Stock (one vote per share) and, generally, vote together with the holders of Common Stock as a single class.

At all times, holders of Preferred Stock will elect two members of the Company's Board of Directors and the holders of Preferred and Common Stock, voting as a single class, will elect the remaining directors. If the Company fails to pay dividends on the Preferred Stock in an amount equal to two full years' dividends, the holders of Preferred Stock will have the right to elect a majority of the directors. In addition, the Investment Company Act of 1940 requires that approval of the holders of a majority of any outstanding Preferred Shares, voting separately as a class, would be required to (a) adopt any plan of reorganization that would adversely affect the Preferred Stock and (b) take any action requiring a vote of security holders, including, among other things, changes in the Company's subclassification as a closed-end investment company or changes in its fundamental investment policies.

The Company classifies its Preferred Stock pursuant to the requirements of EITF D-98, Classification and Measurement of Redeemable Securities, which require that preferred stock for which its redemption is outside of the company's control should be presented outside of net assets in the statement of assets and liabilities.

Transactions in Common Stock during 2004 and 2003 were as follows:

19 REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

General American Investors

TO THE BOARD OF DIRECTORS AND STOCKHOLDERS OF GENERAL AMERICAN INVESTORS COMPANY, INC.

We have audited the accompanying statement of assets and liabilities, including the statements of investments, securities sold short and options written, of General American Investors Company, Inc. as of December 31, 2004, and the related statements of operations and changes in net assets for each of the two years in the period then ended, and financial highlights for each of the five years in the period then ended. These financial statements and financial highlights are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of December 31, 2004, by correspondence with the custodian and brokers. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of

Edgar Filing: GENERAL AMERICAN INVESTORS CO INC - Form N-CSR

General American Investors Company, Inc. at December 31, 2004, the results of its operations and the changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

ITEM 2. CODE OF ETHICS.

On July 9, 2003, the Board of Directors adopted a code of ethics that applies to registrant's principal executive and senior financial officers. The code of

Edgar Filing: GENERAL AMERICAN INVESTORS CO INC - Form N-CSR

ethics is available on registrant's Internet website at <http://www.generalamericaninvestors.com>. Since the code of ethics was adopted there have been no amendments to the code nor have there been granted any waivers from any provisions of the code of ethics.

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

The board of directors has determined that none of the members of registrant's audit committee meets the definition of "audit committee financial expert" as the term has been defined by the U.S. Securities and Exchange Commission (the "Commission"). In addition, the board of directors has determined that the members of the audit committee have sufficient expertise to perform the duties and responsibilities of the audit committee.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

(a) AUDIT FEES The aggregate fees paid and accrued by the registrant for professional services rendered by its independent auditors, Ernst & Young LLP, for the audit of the registrant's annual financial statements and the review of the registrant's semi-annual financial statements for 2004 and 2003 were \$69,600 and \$64,500, respectively.

(b) AUDIT RELATED FEES The aggregate fees paid or accrued by the registrant for audit-related professional services rendered by Ernst & Young LLP for 2004 and 2003 were \$20,500 and \$49,400, respectively. Such services and related fees for 2004 and 2003 included: review of registration statement related to preferred stock offering and provision of comfort letter and consent (\$21,150 in 2003), performance of agreed upon procedures relating to the preferred stock basic maintenance reports (\$5,000 and \$12,750, respectively), review of quarterly employee security transactions and issuance of report thereon (\$12,000 in each year) and other audit-related services (\$3,500 in each year).

(c) TAX FEES The aggregate fees paid or accrued by the registrant for professional services rendered by Ernst & Young LLP for the review of the registrant's federal, state and city income tax returns and excise tax calculations for 2004 and 2003 were \$12,500 and \$12,000, respectively.

(d) ALL OTHER FEES No such fees were billed to the registrant by Ernst & Young LLP for 2004 or 2003.

(e) (1) AUDIT COMMITTEE PRE-APPROVAL POLICY All services to be performed for the registrant by Ernst & Young LLP must be pre-approved by the audit committee. All services performed during 2004 and 2003 were pre-approved by the committee.

(2) Not applicable.

(f) Not applicable.

(g) The aggregate fees paid or accrued by the registrant for non-audit professional services rendered by Ernst & Young LLP to the registrant for 2004 and 2003 were \$33,000 and \$61,400, respectively.

(h) Not applicable.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS.

(a) The registrant has a separately-designated standing audit committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934. The members of the audit committee are: Sidney R. Knafel, chairman, Arthur G. Altschul, Jr., Lawrence B. Buttenwieser, Lewis B. Cullman and John D. Gordan, III.

Edgar Filing: GENERAL AMERICAN INVESTORS CO INC - Form N-CSR

(b) Not applicable.

ITEM 6. SCHEDULE OF INVESTMENTS

The schedule of investments in securities of unaffiliated issuers is included as part of the report to stockholders filed under Item 1 of this form.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

General American Investors Company, Inc.

PROXY VOTING POLICIES AND PROCEDURES

General American Investors Company, Inc. (the "Company") is uniquely structured as an internally managed closed-end investment company. Our research efforts, including the receipt and analysis of proxy material, are focused on the securities in the Company's portfolio, as well as alternative investment opportunities. We vote proxies relating to our portfolio securities in the best long-term interests of the Company.

Our investment approach stresses fundamental security analysis, which includes an evaluation of the integrity, as well as the effectiveness of management personnel. In proxy material, we review management proposals and management recommendations relating to shareholder proposals in order to, among other things, gain assurance that management's positions are consistent with its integrity and the long-term interests of the company. We generally find this to be the case and, accordingly, give significant weight to the views of management when we vote proxies.

Proposals that may have an impact on the rights or privileges of the securities held by the Company would be reviewed very carefully. The explanation for a negative impact could justify the proposal; however, if such justification were not present, we would vote against a significant reduction in the rights or privileges associated with any of our holdings.

Proposals relating to corporate governance matters are reviewed on a case-by-case basis. When they involve changes in the state of incorporation, mergers or other restructuring, we would, if necessary, complete our review of the rationale for the proposal by contacting company representatives and, with few exceptions, vote in favor of management's recommendations. Proposals relating to anti-takeover provisions, such as staggered boards, poison pills and supermajorities could be more problematic. They would be considered in light of our assessment of the capability of current management, the duration of the proposal, the negative impact it might have on the attractiveness of the company to future "investors," among other factors. We can envision circumstances under which we would vote against an anti-takeover provision.

Generally, we would vote with management on proposals relating to changes to the company's capital structure, including increases and decreases of capital and issuances of preferred stock; however, we would review the facts and circumstances associated with each proposal before finalizing our decision.

Well-structured stock option plans and management compensation programs are essential for companies to attract and retain high caliber management personnel. We generally vote in favor of proposals relating to these issues; however, there could be an occasion on which we viewed such a proposal as over reaching on the part of management or having the potential for excessive dilution when we would vote against the proposal.

Corporations should act in a responsible manner toward their employees, the

Edgar Filing: GENERAL AMERICAN INVESTORS CO INC - Form N-CSR

communities in which they are located, the customers they serve and the world at large. We have observed that most stockholder proposals relating to social issues focus on a narrow issue and the corporate position set forth in the proxy material provides a well-considered response demonstrating an appropriate and responsible action or position. Accordingly, we generally support management recommendations on these types of proposals; however, we would consider each proposal on a case-by-case basis.

We take voting proxies of securities held in our portfolio very seriously. As indicated above, it is an integral part of the analytical process at General American Investors. Each proposal and any competing interests are reviewed carefully on a case-by-case basis. Generally, we support and vote in accordance with the recommendations of management; however, the overriding basis for the votes we cast is the best long-term interests of the Company.

ITEM 11. CONTROLS AND PROCEDURES.

Conclusions of principal officers concerning controls and procedures

Edgar Filing: GENERAL AMERICAN INVESTORS CO INC - Form N-CSR

(a) As of January 25, 2005, an evaluation was performed under the supervision and with the participation of the officers of General American Investors Company, Inc. (the "Registrant"), including the principal executive officer ("PEO") and principal financial officer ("PFO"), to assess the effectiveness of the Registrant's disclosure controls and procedures. Based on that evaluation, the Registrant's officers, including the PEO and PFO, concluded that, as of January 25, 2005, the Registrant's disclosure controls and procedures were reasonably designed so as to ensure: (1) that information required to be disclosed by the Registrant on Form N-CSR and on Form N-Q is recorded, processed, summarized and reported within the time periods specified by the rules and forms of the Securities and Exchange Commission; and (2) that material information relating to the Registrant is made known to the PEO and PFO as appropriate to allow timely decisions regarding required disclosure.

(b) There have been no significant changes in the Registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act of 1940 (17 CFR 270.30a-3(d)) that occurred during the Registrant's last fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Registrant's internal control over financial reporting.

ITEM 12. EXHIBITS

(a) (1) As indicated in Item 2., the code of ethics is posted on the registrant's Internet website.

(a) (2) The certifications of the principal executive officer and the principal financial officer pursuant to Rule 30a-2(a) under the Investment Company Act of 1940 are attached hereto as Exhibit 99 CERT.

(a) (3) There were no written solicitations to purchase securities under the Rule 23c-1 under the Investment Company Act of 1940 during the period covered by the report.

(b) The certifications of the principal executive officer and the principal financial officer pursuant to Rule 30a-2(b) under the Investment Company Act of 1940 are attached hereto as Exhibit 99.906 CERT.
