STATEMENT BY HOLDING COMPANY CLAIMING EXEMPTION UNDER RULE U-3A-2 FROM THE PROVISIONS OF THE PUBLIC UTILITY HOLDING COMPANY ACT OF 1935

To Be Filed Annually Prior to March 1

MADISON GAS AND ELECTRIC COMPANY

(Name of Company)

hereby files with the Securities and Exchange Commission, pursuant to Rule 2, its statement claiming exemption as a holding company from the provisions of the Public Utility Holding Company Act of 1935, and submits the following information.

1. Name, state of organization, location, and nature of business of claimant and every subsidiary thereof, other than any exempt wholesale generator (EWG) or foreign utility company in which claimant directly or indirectly holds an interest.

Madison Gas and Electric Company (MGE) is a utility that generates and distributes electricity to approximately 128,000 customers in Dane County, Wisconsin (250 square miles), and purchases, transports, and distributes natural gas service to approximately 123,000 customers in seven Wisconsin counties: Columbia, Crawford, Dane, Iowa, Juneau, Monroe, and Vernon (1,375 square miles). MGE was organized as a Wisconsin corporation in 1896. Its principal offices are located at 133 South Blair Street, Madison, Wisconsin 53701-1231.

Subsidiaries of MGE are described below.

ATC Management Inc. / American Transmission Company LLC

MGE owns approximately 6% of the non-voting stock and 20% of the voting stock of ATC Management Inc. ("ATC"), a Wisconsin corporation located at N16W23217 Stone Ridge Drive, Waukesha, Wisconsin 53188. ATC is the corporate manager of the American Transmission Company LLC ("Transco") and, as such, has full, complete, and exclusive discretion to exercise management control over the business of the Transco. Transco is a Wisconsin corporation located at N16W23217 Stone Ridge Drive, Waukesha, Wisconsin 53188. MGE owns approximately a 6% interest in the Transco, which operates the electric transmission system in Wisconsin.

Central Wisconsin Development Corporation

MGE owns all of the outstanding stock of Central Wisconsin Development Corporation ("CWDC"), a Wisconsin corporation headquartered in Madison, Wisconsin. CWDC assists new and expanding businesses throughout central Wisconsin by participating in planning, financing, property acquisition, joint ventures, and associated activities.

MAGAEL, LLC

MGE owns all of the outstanding stock of MAGAEL, LLC ("MAGAEL"), a Wisconsin corporation headquartered in Madison, Wisconsin. MAGAEL holds title to property acquired by MGE for future utility plant expansion and non-utility property.

MGE Energy, Inc.

MGE owns all of the outstanding stock of MGE Energy, Inc., a Wisconsin corporation headquartered in Madison, Wisconsin. MGE Energy is currently inactive and will become the parent company of MGE if the necessary approvals are received this year.

2. A brief description of the properties of claimant and each of its subsidiary public utility companies used for the generation, transmission, and distribution of electric energy for sale, or for the production, transmission, and distribution of natural or manufactured gas, indicating the location of principal generating plants, transmission lines, producing fields, gas manufacturing plants, and electric and gas distribution facilities, including all such properties which are outside the state in which claimant and its subsidiaries are organized and all transmission or pipelines which deliver or receive electric energy or gas at the borders of such state.

Major electric distribution lines and substations in service at December 31, 2001, are as follows:

	Miles	
Distribution Lines	Overhead	Underground
69 kV	7	1
13.8 kV and under	994	819
Distribution	Substations	Installed Capacity (kVA)
69-13.8 kV	22	723,000
13.8-4 kV	32	325,000

On January 1, 2001, MGE transferred its electric transmission assets to Transco. In exchange for its transmission plant and related deferred taxes and deferred investment tax credits, MGE received approximately a 6% ownership interest in Transco. MGE expects to receive a return on its investment in Transco that is approximately equal to the return it would have earned by retaining its transmission facilities. A small portion of the 69-kilovolt (kV) lines and substations has been classified as distribution assets.

Gas facilities include 2.117 miles of distribution mains.

MGE supplied natural gas service to approximately 123,000 customers in the cities of Elroy, Madison, Middleton, Monona, Fitchburg, Lodi, Prairie du Chien, Verona, and Viroqua; 24 villages; and all or parts of 45 townships, all in Wisconsin.

MGE has physical interconnections with ANR Pipeline Co. (ANR) and Northern Natural Gas Co. (NNG). MGE's primary service territory, which includes Madison and the surrounding area, receives deliveries at one NNG and four ANR gate stations. Interconnections with two major pipelines provide competition in interstate pipeline service and a more reliable and economical supply mix, which includes gas from Canada and the United States mid-continent and Gulf/offshore regions.

MGE's net generating capability in service at Dec. 31, 2001, was as follows:

Steam plants:				
Columbia	Portage, WI	Low-sulfur coal	232 (1,2)	2
Blount (Madison)	Madison, WI	Coal/gas	99	2
		Gas	39	2
		Coal/gas	22	1

Combustion turbines	Madison, WI Marinette, WI	Gas/oil	170	6
Portable generators	Madison, WI	Diesel	51	55
Wind turbines	Rosiere, WI	Wind	2	17
Total			650
