**NEWS RELEASE**

**INDEPENDENCE HOLDING COMPANY ANNOUNCES**  
**2007 THIRD-QUARTER AND NINE-MONTH RESULTS**

Stamford, Connecticut, November 9, 2007. Independence Holding Company (NYSE: IHC) today reported 2007 third-quarter and nine-month results.

***Financial Results***

Revenues increased 14% to \$106,214,000 for the three months ended September 30, 2007 compared to revenues for the three months ended September 30, 2006 of \$93,094,000. A net loss of \$(.55) per share, or \$(8,423,000) was recorded for the three months ended September 30, 2007, compared to income of \$.27 per share, diluted, or \$4,069,000 for the three months ended September 30, 2006. The 2007 third quarter net loss includes reserve strengthening net of tax of \$10,526,000.

Revenues increased 18% to \$320,406,000 for the nine months ended September 30, 2007 compared to revenues for the nine months ended September 30, 2006 of \$271,403,000. Net income per share decreased 99% to \$.01 per share, diluted, or \$108,000 for the nine months ended September 30, 2007 compared to income of \$.69 per share, diluted, or \$10,464,000 for the nine months ended September 30, 2006.

***Chief Executive Officer's Comments***

Roy Thung, Chief Executive Officer, commented, "Unfortunately, we are showing a significant loss in the quarter ended September 30, 2007 after 61 consecutive quarters of positive net income. This loss is largely a result of strengthening reserves by \$14.9 million pre-tax relating to medical stop-loss business written in 2006 and 2007, all of

which is being reported in the 2007 third quarter. Consistent with our experience, the industry as a whole has succumbed to the pricing pressures caused by an unexpectedly long down cycle (or "soft" market) for medical stop-loss business. A leading rating agency recently commented that this market condition has placed considerable downward pressure on operational margins. The Company has been aware of these market conditions and has curtailed our growth in order to attempt to achieve higher profit margins. We believed that we had taken sufficient action to insure that business written in 2006 produced better margins than that incepting in 2005. Early indications bore this out, however, in the third quarter of 2007 the Company began experiencing adverse development on medical stop-loss business written in 2006. Such adverse development was primarily driven by the frequency and severity of claims. While claims related to business written in 2007 have not yet developed to a level where claim development patterns would provide reliable estimates of ultimate claim levels, we believe that it is appropriate to re-estimate 2007 projected net loss ratios in this quarter to mirror developing losses with respect to business written in 2006. Despite these adverse developments, this line has shown accumulated profitability over the last several years even in this soft market.

Given historical trends, consolidation in the industry, and early indications as to January 2008 pricing, many in the industry are hopeful that the medical stop-loss market will see improved underwriting results on business written in 2008. Even if we start seeing some hardening, we will continue to maintain our discipline so as to improve the underwriting profitability of our business.

Mr. Thung continued, As discussed above, the medical stop-loss business has been profitable over the last several years. Our fully insured line of business is growing and we expect higher margins in 2008 due to an increase in rates and tighter underwriting in 2007. We have improved our infrastructure and incurred substantial expenditures in this line of business in recent years to support this growth, and we are confident that expenditures will stabilize in 2008. Our fixed maturity portfolio is rated, on average, AA and the Company's mortgage security portfolio has no exposure to sub-prime mortgages. We have \$1.3 billion of assets and our book value is \$15.05 per share.
