PAR TECHNOLOGY CORPORATION ANNOUNCES

2012 THIRD QUARTER RESULTS

New Hartford, NY- November 5, 2012 -- PAR Technology Corporation (NYSE: PAR) today announced results for the third quarter ended September 30, 2012. PAR reported third quarter revenues of \$61.1 million, a 4% increase from the \$58.7 million reported for the third quarter of 2011. Net income from continuing operations for the third quarter of 2012 was \$1.3 million, representing diluted earnings per share of \$0.09, compared to the third quarter of 2011 figure of \$1.6 million, representing diluted earnings per share of \$0.11.

Paul B. Domorski, Chairman and Chief Executive Officer, stated, "Current market conditions, in the hospitality segments we serve, are making organic growth challenging in the near-term. Despite this uncertainty, PAR has been able to maintain profitability, while continuing our investment in expanding our market reach through new products and services."

Mr. Domorski continued, "During the third quarter, PAR made several important announcements. In the hospitality segment, we introduced our all new PAR EverServ® 7000 Point of Sale terminal. This is a terrific new product, which delivers demonstrable value to our customers at an attractive price point. Also in the quarter, PAR Springer-Miller formally announced the transition of its ATRIO® Guest Experience Management software with Microsoft Corporation's Windows® Azure™ cloud platform. With Windows Azure, a global network of Microsoft-managed datacenters, PAR is now able to provide computing and storage resources in support of ATRIO, assuring our customers of 99.95% uptime. During the quarter, we also announced new distribution partners, as we prepare for the aggressive roll-out of ATRIO worldwide."

"Finally, our Government contracting segment announced several new contracts, most notably the award by the U.S. Army of an additional contract with a ceiling value of \$48 million and a five year term. This is the most recent contract we have received based on our expertise in advanced Full Motion Video (FMV), Geospatial Information Systems (GIS) and Intelligence Surveillance and Reconnaissance (ISR) software and hardware technologies. PAR is providing research, development, deployment and operational support, and user training necessary to transition these innovative and important capabilities to the field."

Mr. Domorski concluded, "The continued slowdown in business with our largest restaurant technology customer in the quarter has resulted in lower year-over-year revenue in our hospitality technology segment. Our other hospitality markets have also shown weakness in the quarter. However, given our conservative approach to uncertainty, we

braced PAR for such conditions, refrained from any non-essential expenditures and concentrated on profitability while continuing our focus on innovation and new product introductions. It is important to note that we continue to benefit from our strong and growing Government contracting business through a pipeline of new contract wins. As our hospitality technology markets rebound from the current market slowdown, we are poised to return to improved growth patterns with higher profitability."

Certain Company information in this release or statements made by its spokespersons from time to time may contain forward-looking statements. Any statements in this document that do not describe historical facts are forward-looking statements. Forward-looking statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Investors are cautioned that all forward-looking statements involve risks and uncertainties, including without limitation, delays in new product introduction, risks in technology development and commercialization, risks in product development and market acceptance of and demand for the Company's products, risks of downturns in economic conditions generally, and in the quick service sector of the restaurant market specifically, risks of intellectual property rights associated with competition and competitive pricing pressures, risks associated with foreign sales and high customer concentration, and other risks detailed in the Company's filings with the Securities and Exchange Commission.

About PAR Technology Corporation

PAR Technology Corporation's stock is traded on the New York Stock Exchange under the symbol PAR. PAR has two operating segments:

PAR's Hospitality segment has been a leading provider of restaurant and retail technology for more than 30 years. ParTech, Inc. offers technology solutions for the full spectrum of restaurant operations, from large chain and independent table service restaurants to international quick service chains. PAR Springer-Miller Systems, Inc. offers hotel management systems that provide a complete suite of powerful tools for guest management, recreation management, and timeshare/condo management. PAR Springer-Miller Systems also provides the spa industry a leading management application that was specifically designed to support the unique needs of the resort spa and day spa markets, a rapidly growing hospitality segment. Products from PAR also can be found in retailers, cinemas, cruise lines, stadiums and food service companies.

PAR's Government segment is comprised of PAR Government Systems Corporation, which provides system solutions to Federal/State Government agencies, and Rome Research Corporation, which is a leading provider of communications and information technology support services to the United States Department of Defense.

Visit www.partech.com for more information.

There will be a conference call at 10:00 a.m. eastern time on November 5, 2012, during which the Company's management will discuss the financial results for the third quarter of 2012. If you would like to participate in this conference please call 800-561-2731 approximately 10 minutes before the call is scheduled to begin and use the PAR pass code 23958721. Individual & Institutional Investors will have the opportunity to listen to the conference call/event over the Internet. Individual Investors can listen to the call by visiting PAR's website at www.partech.com, and through CCBN's individual investor center at www.companyboardroom.com or by visiting any of the investor sites in CCBN's Individual Investor Network. Institutional investors can access the call via CCBN's password-protected site, StreetEvents (www.streetevents.com). In case you are unable to participate in the conference call, an automatic replay will be available on the World Wide Web via www.companyboardroom.com until November 12, 2012 or dial 888-286-8010 and use the Pass Code number 39590683 until November 12, 2012 as well.

The Company reports its financial results in accordance with GAAP. However, non-GAAP adjusted financial measures, as defined in the reconciliation table above, are provided herein because management uses such measures in evaluating the results of the continuing operations of the Company and believes this information provides investors better insight into underlying business trends and performance. Non-GAAP financial measures should be viewed in addition to, and not as an alternative for, the Company's reported results prepared in accordance with GAAP.

For the nine months ended September 30, 2011, the Company recorded total charges of \$29.4 million primarily related to an impairment of goodwill and intangible assets of —\$20.8 million. Additionally, the Company recorded a charge of \$7.7 million related to a non-recurring write-down of certain inventory associated with discontinued products, and charges of \$0.9 million related to the consolidation of some of its facilities. The aforementioned charges have been recorded net of tax benefit of \$10.6 million and have been excluded in the Company's non-GAAP measures because they are considered non-recurring in nature and are quantitatively and qualitatively different from the Company's core operations during any particular period.

These charges did not have any impact on the Company's financial results for the three months ended September 30, 2011.
