Notes to Condensed Consolidated Financial Statements (Unaudited)

For the Six Months Ended June 30, 2013

Note 1 – Basis of Presentation

Reading International, Inc., a Nevada corporation (“RDI” and collectively with our consolidated subsidiaries and corporate predecessors, the “Company,” “Reading” and “we,” “us,” or “our”), was founded in 1983 as a Delaware corporation and reincorporated in 1999 in Nevada. Our businesses consist primarily of:

- the development, ownership, and operation of multiplex cinemas in the United States, Australia, and New Zealand; and
- the development, ownership, and operation of retail and commercial real estate in Australia, New Zealand, and the United States.

The accompanying unaudited condensed consolidated financial statements were prepared in accordance with accounting principles generally accepted in the United States of America (“US GAAP”) for interim reporting and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X of the Securities and Exchange Commission (“SEC”) for interim reporting. As such, certain information and disclosures typically required by US GAAP for complete financial statements have been condensed or omitted. The financial information presented in this quarterly report on Form 10-Q for the period ended June 30, 2013 (the “June Report”) should be read in conjunction with our Annual Report filed on Form 10-K for the year ended December 31, 2012 (our “2012 Annual Report”) which contains the latest audited financial statements and related notes. The periods presented in this document are the three (“2013 Quarter”) and six (“2013 Six Months”) months ended June 30, 2013 and the three (“2012 Quarter”) and six (“2012 Six Months”) months ended June 30, 2012.

In the opinion of management, all adjustments of a normal recurring nature considered necessary to present fairly in all material respects our financial position as of June 30, 2013 and our results of our operations and cash flows for the three and six months ended June 30, 2013 and 2012 have been made. The results of operations for the three and six months ended June 30, 2013 are not necessarily indicative of the results of operations to be expected for the entire year.

Expiring Debt and Liquidity Requirements

Expiring Long-Term Debt

As indicated in our 2012 Annual Report, the term of our Australian NAB Corporate Term Loan matures on June 30, 2014. Accordingly, the outstanding balance of this debt of \$62.3 million (AUS\$68.0 million) is classified as current on our June 30, 2013 balance sheet. The Australian NAB Corporate Term Loan is secured by the majority of our theater and entertainment-themed retail center (“ETRC”) properties in Australia.

Additionally, the term of our US Cinema 1, 2, 3 Term Loan matures on June 27, 2014. Accordingly, the outstanding balance of this debt of \$15.0 million is classified as current on our June 30, 2013 balance sheet.

We are currently in the process of renegotiating these loans with our current lenders while also seeking possible replacement loans with other lenders. While no assurances can be given that we will be successful, we

currently anticipate that these loans will either be extended or replaced prior to their maturities.

7

Liberty Theatre Term Loans

On May 29, 2013, we replaced our Liberty Theater Term Loan with a loan securitized by our Orpheum and Minetta Lane theaters with a note balance of \$7.5 million. For more details on this new loan, see Note 11 – Notes Payable.

Tax Settlement Liability

As indicated in our 2012 Annual Report, in accordance with the agreement between the U.S. Internal Revenue Service and our subsidiary, Craig Corporation, we are obligated to pay \$290,000 per month, \$3.5 million per year, in settlement of our tax liability for the tax year ended June 30, 1997.

For the abovementioned liabilities, we believe that we have sufficient borrowing capacity under our various credit facilities, together with our \$42.4 million of cash and cash equivalents, to meet our anticipated short-term working capital requirements for the next twelve months.

Marketable Securities

We had investments in marketable securities of \$58,000 and \$55,000 at June 30, 2013 and December 31, 2012, respectively. We account for these investments as available for sale investments. We assess our investment in marketable securities for other-than-temporary impairments in accordance with Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 320-10 for each applicable reporting period. These investments have a cumulative gain of \$14,000 included in accumulated other comprehensive income at June 30, 2013. For the three and six months ended June 30, 2013, our net unrealized gain on marketable securities was \$6,000 and \$5,000, respectively. For the three and six months ended June 30, 2012, our net unrealized gain (loss) on marketable securities was \$3,000 and (\$7,000), respectively. During the six months ended June 30, 2012, we sold \$3.0 million of our marketable securities with a realized gain of \$3,000. During the six months ended June 30, 2013, we did not buy or sell any marketable securities.

Deferred Leasing Costs

We amortize direct costs incurred in connection with obtaining tenants over the respective term of the lease on a straight-line basis.

Deferred Financing Costs

We amortize direct costs incurred in connection with obtaining financing over the term of the loan using the effective interest method, or the straight-line method, if the result is not materially different. In addition, interest on loans with increasing interest rates and scheduled principal pre-payments, is also recognized using the effective interest method.

Accounting Pronouncements Adopted During 2013

No new pronouncements were adopted during the six months ended June 30, 2013.

New Accounting Pronouncements

No new pronouncements were made pertaining to our Company’s accounting during the six months ended June 30, 2013.

Note 2 – Equity and Stock Based Compensation

Stock-Based Compensation

During the six months ended June 30, 2013 and 2012, we issued 217,890 and 155,925, respectively, of Class A Nonvoting shares to an executive employee associated with the vesting of his prior years' stock grants. During the three and six months ended June 30, 2013, we accrued \$188,000 and \$376,000, respectively, in compensation expense associated with the vesting of executive employee stock grants. During the three and six months ended June 30, 2012, we accrued \$238,000 and \$476,000, respectively, in compensation expense associated with the vesting of executive employee stock grants.

Employee/Director Stock Option Plan

We have a long-term incentive stock option plan that provides for the grant to eligible employees, directors, and consultants of incentive or nonstatutory options to purchase shares of our Class A Nonvoting Common Stock and Class B Voting Common Stock. Currently we issue options under our 2010 Stock Incentive Plan.

When the Company's tax deduction from an option exercise exceeds the compensation cost resulting from the option, a tax benefit is created. FASB ASC 718-20 relating to Stock-Based Compensation ("FASB ASC 718-20"), requires that excess tax benefits related to stock option exercises be reflected as financing cash inflows instead of operating cash inflows. For the three and six months ended June 30, 2013 and 2012, there was no impact to the unaudited condensed consolidated statement of cash flows because there were no recognized tax benefits from stock option exercises during these periods.

FASB ASC 718-20 requires companies to estimate forfeitures. Based on our historical experience and the relative market price to strike price of the options, we do not currently estimate any forfeitures of vested or unvested options.

In accordance with FASB ASC 718-20, we estimate the fair value of our options using the Black-Scholes option-pricing model, which takes into account assumptions such as the dividend yield, the risk-free interest rate, the expected stock price volatility, and the expected life of the options. As we intend to retain all earnings, we exclude the dividend yield from the calculation. We expense the estimated grant date fair values of options issued on a straight-line basis over the vesting period.

For the 50,000 and 40,000 options granted during the six months ended June 30, 2013 and 2012, respectively, we estimated the fair value of these options at the date of grant using a Black-Scholes option-pricing model with the following weighted average assumptions:

	2013	2012
Stock option exercise price	\$5.89	\$4.99
Risk-free interest rate	2.260%	1.710%
Expected dividend yield	--	--
Expected option life in years	5	10
Expected volatility	31.89%	31.87%
Weighted average fair value	\$1.89	\$2.19

Based on the above calculation and prior years' assumptions, and, in accordance with the FASB ASC 718-20, we recorded compensation expense for the total estimated grant date fair value of \$77,000 and \$130,000 for the three and six months ended June 30, 2013, respectively, and \$89,000 and \$169,000 for the three and six months ended June 30, 2012, respectively. At June 30, 2013, the total unrecognized estimated compensation cost related to non-vested stock options granted was \$241,000, which we expect to recognize over a weighted average vesting period of 2.16 years. 50,000 options were exercised during the six months ended June 30, 2013 having an intrinsic value of \$99,500 for which we received \$200,500

Edgar Filing: READING INTERNATIONAL INC - Form 10-Q

of cash and 95,000 options were exercised during the six months ended June 30, 2012 having an intrinsic value of \$136,000 for which we received \$308,000 of cash. Additionally, 75,000 options were exercised during the six months ended June 30, 2013 having an intrinsic value of \$124,000 for which we did not receive any cash but the employee elected to exchange 53,136 personally owned shares of the company at a market price of \$5.66 per share for the 75,000 shares based on an exercise price of \$4.01 for the related options. The intrinsic, unrealized value of all options outstanding, vested and expected to vest, at June 30, 2013 was \$372,000 of which 92.8% are currently exercisable.

Pursuant to both our 1999 Stock Option Plan and our 2010 Stock Incentive Plan, all stock options expire within ten years of their grant date. The aggregate total number of shares of Class A Nonvoting Common Stock and Class B Voting Common Stock authorized for issuance under our 2010 Stock Incentive Plan is 1,250,000. At the discretion of our Compensation and Stock Options Committee, the vesting period of stock options is usually between zero and four years.

We had the following stock options outstanding and exercisable as of June 30, 2013 and December 31, 2012:

	Common Stock		Weighted Average Exercise Price of Options Outstanding		Common Stock Exercisable Options		Weighted Average Price of Exercisable Options	
	Class A	Class B	A	B	Class A	Class B	A	Class B
Outstanding - January 1, 2012	622,350	185,100	\$ 5.65	\$ 9.90	544,383	167,550	\$ 5.86	\$ 10.05

The weighted average remaining contractual life of all options outstanding, vested, and expected to vest at June 30, 2013 and December 31, 2012 was approximately 5.19 and 5.32 years, respectively. The weighted average remaining contractual life of the exercisable options outstanding at June 30, 2013 and December 31, 2012 was approximately 3.99 and 4.28 years, respectively.

Note 3 – Business Segments

We organize our operations into two reportable business segments within the meaning of FASB ASC 280-10 - Segment Reporting. Our reportable segments are (1) cinema exhibition and (2) real estate. The cinema exhibition segment is engaged in the development, ownership, and operation of multiplex cinemas. The real estate segment is engaged in the development, ownership, and operation of commercial properties. Incident to our real estate operations we have acquired, and continue to hold, raw land in urban and suburban centers in Australia, New Zealand, and the

United States.

The tables below summarize the results of operations for each of our principal business segments for the three and six months ended June 30, 2013 and 2012, respectively. Operating expense includes costs associated with the day-to-day operations of the cinemas and the management of rental properties including our live theater assets (dollars in thousands):

Note 4 – Operations in Foreign Currency

We have significant assets in Australia and New Zealand. To the extent possible, we conduct our Australian and New Zealand operations on a self-funding basis. The carrying value of our Australian and New Zealand assets and liabilities fluctuate due to changes in the exchange rates between the U.S. dollar and the functional currency of Australia (Australian dollar) and New Zealand (New Zealand dollar). We have no derivative financial instruments to hedge against the risk of foreign currency exposure.

12

Presented in the table below are the currency exchange rates for Australia and New Zealand as of June 30, 2013 and December 31, 2012:

	U.S. Dollar

Note 5 – Earnings (Loss) Per Share

Basic earnings (loss) per share is computed by dividing the net income (loss) attributable to Reading International, Inc. common shareholders by the weighted average number of common shares outstanding during the period. Diluted earnings (loss) per share is computed by dividing the net income (loss) attributable to Reading International, Inc. common shareholders by the weighted average number of common shares outstanding during the period after giving effect to all potentially dilutive common shares that would have been outstanding if the dilutive common shares had been issued. Stock options and non-vested stock awards give rise to potentially dilutive common shares. In accordance with FASB ASC 260-10 - Earnings Per Share, these shares are included in the diluted earnings per share calculation under the treasury stock method. The following is a calculation of earnings (loss) per share (dollars in thousands, except share data):

	Three Months Ended		Six Months Ended

Weighted average shares of common stock – basic	23,344,057	23,009,209	23,305,466	22,969,392
Weighted average shares of common stock – diluted	23,447,250	23,177,815	23,408,659	22,969,392

For the three and six months ended June 30, 2013, the weighted average common stock – diluted included 103,193 of common stock compensation and in-the-money incremental stock options and for the three months ended June 30, 2012, the weighted average common stock – diluted included 168,606 of common stock compensation and in-the-money incremental stock options. For the six months ended June 30, 2012, we recorded losses from continuing operations; therefore, we excluded 168,606 of in-the-money incremental stock options from the computation of diluted loss per share because they were anti-dilutive. In addition, 741,861 of out-of-the-money stock options were excluded from the computation of diluted earnings (loss) per share for the three and six months ended June 30, 2013, and 692,789 of out-of-the-money stock options were excluded from the computation of diluted earnings (loss) per share for the three and six months ended June 30, 2012.

Note 6 – Property and Equipment

Acquisitions

Coachella, California Land Acquisition

On January 10, 2012, Shadow View Land and Farming, LLC, a limited liability company owned by our Company, acquired a 202-acre property, zoned for the development of up to 843 single-family residential units, located in the City of Coachella, California. The property was acquired at a foreclosure auction for \$5.5 million which currently has a net carrying value of \$4.0 million. The property was acquired as a long-term investment in developable land. Half of the funds used to acquire the land were provided by Mr. James J. Cotter, our Chairman, Chief Executive Officer and controlling shareholder. Upon the approval of our Conflicts Committee, these funds were converted on January 18, 2012 into a 50% interest in Shadow View Land and Farming, LLC. We are the managing member of this company.

Disposals

Indooroopilly Sale

On November 20, 2012, we sold our Indooroopilly property for \$12.4 million (AUS\$12.0 million). This property's operational results are included in income (loss) from discontinued operations on our Condensed Consolidated Statements of Operations for the three and six months ended June 30, 2012. The condensed statement of operations for Indooroopilly is as follows (dollars in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,

Taringa Sale

On February 21, 2012, we sold our three properties in the Taringa area of Brisbane, Australia consisting of approximately 1.1 acres for \$1.9 million (AUS\$1.8 million).

Property Held for Sale – Moonee Ponds

In May 2013, we announced our intent to sell and began actively marketing our 3.3-acre Moonee Pond property in Australia. The current carrying value of this property on our books is \$11.3 million (AUS\$12.4 million) which has been reclassified from property held for development to land held for sale on our June 30, 2013 condensed consolidated balance sheet.

Operating Property

As of June 30, 2013 and December 31, 2012, property associated with our operating activities is summarized as follows (dollars in thousands):

	June 30,	
	2013	December 31, 2012
Operating property		
Land	\$ 65,582	\$ 69,370
Building and improvements	124,507	136,225

Depreciation expense for property and equipment was \$3.5 million and \$7.1 million for the three and six months ended June 30, 2013, respectively, and \$4.0 million and \$7.5 million for the three and six months ended June 30, 2012, respectively.

Investment and Development Property

As of June 30, 2013 and December 31, 2012, our investment and development property is summarized as follows (dollars in thousands):

	June 30,	
	2013	December 31, 2012
Investment and Development Property		
Land	\$ 59,869	\$ 77,020
Construction-in-progress (including capitalized interest)	14,250	17,902
Investment and development property	\$ 74,119	\$ 94,922

At the beginning of 2010, we curtailed the development activities of our properties under development and are not currently capitalizing interest expense. As a result, we did not capitalize any interest during the three and six months ended June 30, 2013 or 2012.

Note 7 – Investments in Unconsolidated Joint Ventures and Entities

Our investments in unconsolidated joint ventures and entities are accounted for under the equity method of accounting except for Rialto Distribution, which is accounted for as a cost method investment, and, as of June 30, 2013 and December 31, 2012, included the following (dollars in thousands):

	Interest	June 30, 2013	December 31, 2012
Rialto Distribution	33.3%	\$ --	\$ --
Rialto Cinemas	50.0%	1,528	1,561

Note 8 – Goodwill and Intangible Assets

In accordance with FASB ASC 350-20-35, Goodwill - Subsequent Measurement and Impairment, we perform an annual impairment review in the fourth quarter of our goodwill and other intangible assets on a reporting unit basis, or earlier if changes in circumstances indicate an asset may be impaired. No such circumstances existed during the 2013 Quarter. As of June 30, 2013 and December 31, 2012, we had goodwill consisting of the following (dollars in thousands):

	Cinema	Real Estate	Total
Balance as of December 31, 2012	\$ 17,674	\$ 5,224	\$ 22,898
Foreign currency translation adjustment	(1,196)	--	(1,196)
Balance at June 30, 2013	\$ 16,478	\$ 5,224	\$ 21,702

We have intangible assets other than goodwill that are subject to amortization, which we amortize over various periods. We amortize our beneficial leases over the lease period, the longest of which is 30 years; our trade name using an accelerated amortization method over its estimated useful life of 45 years; and our other intangible assets over 10 years. For the three and six months ended June 30, 2013, the amortization expense of intangibles totaled \$457,000 and \$1.0 million, respectively, and, for the three and six months ended June 30, 2012, the amortization expense of intangibles totaled \$572,000 and \$1.2 million, respectively. The accumulated amortization of intangibles includes \$517,000 and \$540,000 of the amortization of acquired leases which are recorded in operating expense for the six months ended June 30, 2013 and 2012, respectively.

Intangible assets subject to amortization consist of the following (dollars in thousands):

As of June 30, 2013	Beneficial Leases	Trade name	Other Intangible Assets	Total
Gross carrying amount	\$ 24,185	\$ 7,254	\$ 453	\$ 31,892

Note 10 – Income Tax

The provision for income taxes is different from the amount computed by applying U.S. statutory rates to consolidated losses before taxes. The significant reason for these differences is as follows (dollars in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2013	2012	2013	2012
Expected tax provision	\$ 1,951	\$ 174	\$ 2,028	\$ 659

Pursuant to FASB ASC 740-10 – Income Taxes (“ FASB ASC 740-10”), a provision should be made for the tax effect of earnings of foreign subsidiaries that are not permanently invested outside the United States. Our intent is that earnings of our foreign subsidiaries are not permanently invested outside the United States. Current earnings were available for distribution in the Reading Australia and Reading New Zealand consolidated group of subsidiaries as of June 30, 2013. We have provided \$0.4 million in withholding tax expense in relation to those earnings. We believe the U.S. tax impact of a dividend from

our Australian and New Zealand subsidiaries, net of loss carry forward and potential foreign tax credits, would not have a material effect on the tax provision as of June 30, 2013.

Deferred income taxes reflect the “temporary differences” between the financial statement carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes, adjusted by the relevant tax rate. In accordance with FASB ASC 740-10, we record net deferred tax assets to the extent we believe these assets will more likely than not be realized. In making such determination, we consider all available positive and negative evidence, including scheduled reversals of deferred tax assets and liabilities, projected future taxable income, tax planning strategies, and recent financial performance. FASB ASC 740-10 presumes that a valuation allowance is required when there is substantial negative evidence about realization of deferred tax assets, such as a pattern of losses in recent years, coupled with facts that suggest such losses may continue.

In the period ended June 30, 2011, the Company determined that substantial negative evidence regarding the realizable nature of deferred tax assets continues to exist in the U.S., New Zealand, and Puerto Rico subsidiaries, arising from ongoing pre-tax financial losses. Accordingly, the Company continues to record a full valuation allowance for net deferred tax assets available in these subsidiaries. After consideration of a number of factors for the Reading Australia group, including its recent history of pretax financial income, its expected future earnings, the increase in market value of its real estate assets, which would cause taxable gain if sold, and having executed in June 2011 a credit facility of over \$100.0 million to resolve potential liquidity issues, the Company determined that it is more likely than not that deferred tax assets in Reading Australia will be realized. Accordingly, during 2011, Reading Australia reversed \$13.8 million of the valuation allowance previously recorded against its net deferred tax, which mainly reflects the loss carryforwards available to offset future taxable income in Australia.

We have accrued \$22.2 million in income tax liabilities as of June 30, 2013, of which \$13.4 million has been classified as income taxes payable under current liabilities and \$8.8 million have been classified as non-current tax liabilities. As part of current tax liabilities, we have accrued \$3.5 million in connection with the negotiated Tax Court judgment, dated January 6, 2011, implementing our agreement with the IRS as to the final disposition of the 1996 tax litigation matter. We believe that the \$22.2 million represents an adequate provision for our income tax exposures, including income tax contingencies related to foreign withholding taxes.

In accordance with FASB ASC 740-10-25 – Income Taxes - Uncertain Tax Positions (“FASB ASC 740-10-25”), we record interest and penalties related to income tax matters as part of income tax expense.

The following table is a summary of the activity related to unrecognized tax benefits, excluding interest and penalties, for the periods ending June 30, 2013 and December 31, 2012, and December 31, 2011 (dollars in thousands):

	Six Months Ended June 30, 2013	Year Ended December 31, 2012	Year Ended December 31, 2011
Unrecognized tax benefits – gross beginning balance	\$ 2,171	\$ 1,974	\$ 8,058
Gross increases – prior period tax provisions	164	197	--
Gross increases – current period tax positions	--	--	151
Settlements	--	--	(6,235)
Unrecognized tax benefits – gross ending balance	\$ 2,335	\$ 2,171	\$ 1,974

Edgar Filing: READING INTERNATIONAL INC - Form 10-Q

For the three months ended June 30, 2013, we recorded a change of approximately \$0.1 million to our gross unrecognized tax benefits. The net tax balance is approximately \$2.3 million, of which \$1.2 million would impact the effective rate if recognized.

It is difficult to predict the timing and resolution of uncertain tax positions. Based upon the Company's assessment of many factors, including past experience and judgments about future events, we estimate that within the next 12 months the reserve for uncertain tax positions will increase within a range of \$0.9 million to \$1.8 million. The reasons for such changes include but are not limited to tax positions expected to be taken during the next twelve months, reevaluation of current uncertain tax positions, expiring statutes of limitations, and interest related to the "Tax Audit/Litigation" settlement which occurred January 6, 2011.

Our company and subsidiaries are subject to U.S. federal income tax, income tax in various U.S. states, and income tax in Australia, New Zealand, and Puerto Rico. Generally, changes to our federal and most state income tax returns for the calendar year 2008 and earlier are barred by statutes of limitations. Our income tax returns of Australia filed since inception in 1995 are generally open for examination because of operating losses. The income tax returns filed in New Zealand and Puerto Rico for calendar year 2009 and afterward generally remain open for examination as of June 30, 2013.

Derivative Instruments

As indicated in Note 17 – Derivative Instruments, for both our Australian NAB Corporate Credit Facility (“NAB Loan”) and our U.S. Bank of America Revolver (“BofA Revolver”), we have entered into interest rate swap agreements for all or part of these facilities. The loan agreement together with the swap results in us paying a total fixed interest rate of 7.90% (5.50% swap contract rate plus a 2.40% margin under the loan) for our NAB Loan and a total fixed interest rate of 4.44% (1.44% swap contract rate plus a 3.00% margin under the loan) for our BofA Revolver instead of the above indicated 5.70% and 3.28%, respectively, which are the obligatorily disclosed loan rates. Additionally, on June 3, 2013, we entered into a new swap agreement for our BofA Revolver which will take effect on December 31, 2014 (see Note 17 – Derivative Instruments).

Notes Payable Refinancing and Payoff

US Bank of America Line of Credit

On June 28, 2013, we repaid the entire \$2.0 million outstanding balance on our \$5.0 million Bank of America line of credit.

US Sutton Hill Capital Note – Related Party

On June 18, 2013, we repaid our 8.25% note to Sutton Hill Capital (“SHC”) for \$9.0 million. As the debtor on this note was Sutton Hill Properties, LLC, in which we have a 75% interest, the note was, in effect, paid \$6.75 million by us and \$2.25 million by our co-investor.

US Minetta and Orpheum Theatres Loan

On May 29, 2013, we refinanced our Liberty Theaters loan with a \$7.5 million loan securitized by our Minetta and Orpheum theatres, having a maturity date of June 1, 2018, and bearing an interest rate of LIBOR plus a 2.75% margin with a LIBOR rate cap of 4.00% plus the 2.75% margin. US Bank of America Revolver

On March 25, 2013, Bank of America extended the borrowing limit on our BofA Revolver from \$30.0 million to \$35.0 million and we borrowed \$5.0 million on this revolver. On April 1, 2013, we used \$2.3 million of the revolver proceeds to partially repay our US Liberty Theaters Term Loan.

US Cinema 1, 2, 3 Term Loan

On March 20, 2013, pursuant to the loan agreement, we extended the term of our US Cinema 1, 2, 3 Term Loan by one year to June 28, 2014 for a renewal fee of \$150,000.

Note 12 – Other Liabilities

Other liabilities are summarized as follows (dollars in thousands):

	June 30, 2013	December 31, 2012

Other	575	630
Other liabilities	\$ 31,835	\$ 33,759

Included in our other liabilities are accrued pension costs of \$7.1 million at June 30, 2013. The benefits of our pension plans are fully vested, and, as such, no service costs were recognized for the three or six months ended June 30, 2013 and 2012. Our pension plans are unfunded; therefore, the actuarial assumptions do not include an estimate for any expected return on the plan assets. For the three and six months ended June 30, 2013, we recognized \$74,000 and \$165,000, respectively, of interest cost and \$165,000 and \$330,000, respectively, of amortized prior service cost. For the three and six months ended June 30, 2012, we recognized \$87,000 and \$177,000, respectively, of interest cost and \$76,000 and \$152,000, respectively, of amortized prior service cost.

Note 13 – Commitments and Contingencies

Unconsolidated Debt

Total debt of unconsolidated joint ventures and entities was \$644,000 and \$703,000 as of June 30, 2013 and December 31, 2012. Our share of unconsolidated debt, based on our ownership percentage, was \$215,000 and \$234,000 as of June 30, 2013 and December 31, 2012. This debt is guaranteed by one of our subsidiaries to the extent of our ownership percentage.

Digital Projection

We financed a \$15.5 million purchase of digital projection equipment with an operating lease for our U.S. cinema circuit during 2012. For our Australia and New Zealand circuits, we are under contract to purchase similar digital projection equipment for approximately \$8.6 million and \$2.5 million, respectively, with our cash on hand during the third quarter of 2013.

AFC LLC Acquisition of Noncontrolling Interest

On June 28, 2013, we acquired the interest in AFC LLC that we did not already own in consideration of the release of certain claims we held against the owner of that interest under a guaranty agreement. The removal of the AFC LLC noncontrolling interest balance of \$76,000 was reflected as a change in our additional paid in capital pursuant to FASB ASC 810-10-45.

Note 15 – Common Stock

Common Stock Issuance

During the six months ended June 30, 2013 and 2012, we issued 217,890 and 155,925, respectively, of Class A Nonvoting shares to an executive employee associated with his prior years' stock grants.

50,000 options were exercised during the six months ended June 30, 2013 having an intrinsic value of \$99,500 for which we received \$200,500 of cash and 95,000 options were exercised during the six months ended June 30, 2012 having an intrinsic value of \$136,000 for which we received \$308,000 of cash. Additionally, 75,000 options were exercised during the six months ended June 30, 2013 having an intrinsic value of \$124,000 for which we did not receive any cash but the employee elected to exchange 53,136 personally owned shares of the company at a market price of \$5.66 per share for the 75,000 shares based on an exercise price of \$4.01 for the related options.

Note 16 – Derivative Instruments

As more fully described in our 2012 Annual Report, we are exposed to interest rate changes from our outstanding floating rate borrowings. We manage our fixed to floating rate debt mix to mitigate the impact of adverse changes in interest rates on earnings and cash flows and on the market value of our borrowings. From time to time, we may enter into interest rate hedging contracts, which effectively convert a portion of our variable rate debt to a fixed rate over the term of interest rate swaps or fix the maximum variable rate with an interest rate cap. For an explanation of the impact of swaps on our interest paid for the periods presented, see Note 11 – Notes Payable.

As part of our new US Minetta and Orpheum Theatres Loan, we entered into a five year LIBOR rate cap of 4.00% with a loan margin of 2.75%. See Note 11 – Notes Payable. Additionally, on June 3, 2013, we entered into a new swap agreement for our BofA Revolver which will take effect on December 31, 2014 with a pay fixed rate of 1.15% and an expiration date of October 31, 2017.

The following table sets forth the terms of our interest rate swap and cap derivative instruments at June 30, 2013:

Type of Instrument	Notional Amount	Pay Fixed Rate	Receive Variable Rate	Maturity Date
Interest rate swap	\$ 26,250,000	1.440%	0.276%	December 31, 2013

Edgar Filing: READING INTERNATIONAL INC - Form 10-Q

Interest rate swap	\$ 67,821,000	5.500%	3.080%	June 30, 2016
Interest rate cap	\$ 7,500,000	4.000%	n/a	June 1, 2018

In accordance with FASB ASC 815-10-35, Subsequent Valuation of Derivative Instruments and Hedging Instruments (“FASB ASC 815-10-35”), we marked our interest rate swap and cap instruments to

23

market on the consolidated balance sheet resulting in an decrease in interest expense of \$944,000 and \$1.7 million during the three and six months ended June 30, 2013, respectively, and an increase of \$1.8 million and \$1.5 million in interest expense during the three and six months ended June 30, 2012, respectively. At June 30, 2013 and December 31, 2012, we recorded as other long-term liabilities the fair market value of our interest rate swaps of \$4.2 million and \$5.9 million, respectively. Additionally, at June 30, 2013, we recorded as an other long-term asset our interest rate cap of \$136,000. In accordance with FASB ASC 815-10-35, we have not designated any of our current interest rate swap or cap positions as financial reporting hedges.

Note 17 – Fair Value of Financial Instruments

FASB ASC 820-10 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The statement requires that assets and liabilities carried at fair value be classified and disclosed in one of the following three categories:

- Level 1: Quoted market prices in active markets for identical assets or liabilities.
- Level 2: Observable market based inputs or unobservable inputs that are corroborated by market data.
- Level 3: Unobservable inputs that are not corroborated by market data.

We used the following methods and assumptions to estimate the fair values of the assets and liabilities:

Level 1 Fair Value Measurements – are based on market quotes of our marketable securities.

Level 2 Fair Value Measurements – Interest Rate Swaps and Caps – The fair value of interest rate swap and cap instruments are estimated based on market data and quotes from counter parties to the agreements which are corroborated by market data.

Level 3 Fair Value Measurements – Impaired Property – For assets measured on a non-recurring basis, such as real estate assets that are required to be recorded at fair value as a result of an impairment, our estimates of fair value are based on management's best estimate derived from evaluating market sales data for comparable properties developed by a third party appraiser and arriving at management's estimate of fair value based on such comparable data primarily based on properties with similar characteristics.

As of June 30, 2013 and December 31, 2012, we held certain items that are required to be measured at fair value on a recurring basis. These included available for sale securities and interest rate derivative contracts. Our available-for-sale securities primarily consist of investments associated with the ownership of marketable securities in New Zealand and the U.S. Derivative instruments are related to our economic hedge of interest rates.

The fair values of the interest rate swap and cap agreements are determined using the market standard methodology of discounting the future cash payments and cash receipts on the pay and receive legs of the interest swap agreements that have the net effect of swapping the estimated variable rate note payment stream for a fixed rate payment stream over the period of the swap. The variable interest rates used in the calculation of projected receipts on the interest rate swap agreements are based on an expectation of future interest rates derived from observable market interest rate curves and volatilities. To comply with the provisions of FASB ASC 820-10, we incorporate credit valuation adjustments to reflect both our own nonperformance risk and the respective counterparty's nonperformance risk in the fair value measurements. Although we have determined that the majority of the inputs used to value our derivatives fall within Level 2 of the fair value hierarchy, the credit valuation adjustments associated with our

derivatives utilize Level 3 inputs, such as estimates of current credit spreads to evaluate the likelihood of default by our counterparties and us. However, as of June 30, 2013 and December 31, 2012, we have assessed the significance of the impact of the credit valuation adjustments on the overall valuation and determined that the credit valuation adjustments are not significant to the overall valuation of our derivatives. As a result, we have determined that our derivative valuations in their entirety are classified in Level 2 of the fair value hierarchy. The nature of our interest rate swap and cap derivative instruments is described in Note 16 – Derivative Instruments.

We have consistently applied these valuation techniques in all periods presented and believe we have obtained the most accurate information available for the types of derivative contracts we hold. Additionally, there were no transfers of assets and liabilities between levels 1, 2, or 3 during the six months ended June 30, 2013.

We measure and record the following assets and liabilities at fair value on a recurring basis subject to the disclosure requirements of FASB ASC 820-20, Fair Value of Financial Instruments (dollars in thousands):

Financial Instrument	Level	Book Value		Fair Value	
		June 30, 2013	December 31, 2012	June 30, 2013	December 31, 2012
Investment in marketable securities	1	\$ 58	\$ 55	\$ 58	\$ 55
Interest rate cap asset	2	\$ 136	\$ --	\$ 136	\$ --
Interest rate swaps liability	2	\$ 4,150	\$ 5,855	\$ 4,150	\$ 5,855

We measure the following liabilities at fair value on a recurring basis subject to the disclosure requirements of FASB ASC 820-20, Fair Value of Financial Instruments (dollars in thousands):

Financial Instrument	Level	Book Value		Fair Value	
		June 30, 2013	December 31, 2012	June 30, 2013	December 31, 2012
Notes payable	3	\$ 146,758	\$ 159,684	\$ 132,115	\$ 154,795
Notes payable to related party	N/A	\$ --	\$ 9,000	\$ --	\$ N/A
Subordinated debt	3	\$ 27,913	\$ 27,913	\$ 11,690	\$ 12,268

The fair value of notes payable to related party cannot be determined due to the related party nature of the terms of the notes payable.

We estimated the fair value of our secured mortgage notes payable, our unsecured notes payable, trust preferred securities, and other debt instruments by performing discounted cash flow analyses using an appropriate market discount rate. We calculated the market discount rate by obtaining period-end treasury rates for fixed-rate debt, or LIBOR rates for variable-rate debt, for maturities that correspond to the maturities of our debt, adding appropriate credit spreads derived from information obtained from third-party financial institutions. These credit spreads take into account factors such as our credit standing, the maturity of the debt, whether the debt is secured or unsecured, and the loan-to-value ratios of the debt.

Note 18 - Subsequent Events

Wellington, New Zealand Parking Structure

25

On July 21, 2013, Wellington, New Zealand experienced a strong earthquake that damaged our parking structure adjacent to our Courtenay Central shopping center. The parking structure has been closed pending certain repairs to the structure for which the cost to repair has not yet to be quantified. We believe our global earthquake and business interruption insurance does cover this damage subject to the relevant deductibles.

Item 2 – Management’s Discussion and Analysis of Financial Condition and Results of Operations

We are an internationally diversified company principally focused on the development, ownership, and operation of entertainment and real property assets in the United States, Australia, and New Zealand. Currently, we operate in two business segments:

- cinema exhibition, through our 56 multiplex cinemas; and
- real estate, including real estate development and the rental of retail, commercial and live theater assets.

We believe that these two business segments can complement one another, as we can use the comparatively consistent cash flows generated by our cinema operations to fund the front-end cash demands of our real estate development business.

We manage our worldwide cinema exhibition businesses under various different brands:

- in the US, under the Reading, Angelika Film Center, Consolidated Amusements, and City Cinemas brands;
- in Australia, under the Reading brand; and
- in New Zealand, under the Reading and Rialto brands.

Cinema Activities

We continue to consider opportunities to expand our cinema operations, while at the same time continuing to cull those cinema assets which are underperforming or have unacceptable risk profiles on a go forward basis.

Real Estate Activities

Although to date we have curtailed our real estate development activities, we are in the predevelopment stage on certain of our Manhattan U.S. properties and we remain opportunistic in our acquisitions of both cinema and real estate assets. Our business plan is to begin the build-out of our existing undeveloped properties, such as our Wellington, New Zealand site, and to seek out additional, profitable real estate development opportunities while continuing to use and judiciously expand our presence in the cinema exhibition business by identifying, developing, and acquiring cinema properties when and where we believe to be appropriate. In addition, we may sell all or portions of our properties in order to provide liquidity for other projects. Finally, we will continue to investigate potential synergistic acquisitions that may not readily fall into either of our two currently identified segments.

Results of Operations

At June 30, 2013, we owned and operated 51 cinemas with 433 screens, had interests in certain unconsolidated joint ventures and entities that own an additional 3 cinemas with 29 screens and managed 2 cinemas with 9 screens. In real estate during the period, we (i) owned and operated four Entertainment Themed Retail Centers (“ETRCs”) that we developed in Australia and New Zealand, (ii) owned the fee interests in four developed commercial properties in Manhattan and Chicago improved with live theaters comprising seven stages and ancillary retail and commercial space, (iii) owned the fee interests underlying one of our Manhattan cinemas, (iv) held for development an additional seven parcels aggregating approximately 129 acres located principally in urbanized areas of Australia and New Zealand, and (v) owned 50% of a 202-acre property, zoned for the development of up to 843 single-

family residential units in the U.S. In addition, we continue to hold various properties used in our historic railroad operations.

The tables below summarize the results of operations for each of our principal business segments for the three (“2013 Quarter”) and six (“2013 Six Months”) months ended June 30, 2013 and the three (“2012 Quarter”) and six (“2012 Six Months”) months ended June 30, 2012, respectively (dollars in thousands):
