Notes to Condensed Consolidated Financial Statements

Three and Six Months Ended August 1, 2015 and August 2, 2014
(Unaudited)

Note A: Summary of Significant Accounting Policies

Basis of presentation. The accompanying unaudited interim condensed consolidated financial statements have been prepared from the records of Ross Stores, Inc. and subsidiaries (the “Company”) without audit and, in the opinion of management, include all adjustments (consisting of only normal, recurring adjustments) necessary to present fairly the Company’s financial position as of August 1, 2015 and August 2, 2014, the results of operations and comprehensive income for the three and six month periods ended August 1, 2015 and August 2, 2014, and cash flows for the six month periods ended August 1, 2015 and August 2, 2014. The Condensed Consolidated Balance Sheet as of January 31, 2015, presented herein, has been derived from the Company’s audited consolidated financial statements for the fiscal year then ended.

Accounting policies followed by the Company are described in Note A to the audited consolidated financial statements for the fiscal year ended January 31, 2015. Certain information and disclosures normally included in the notes to annual consolidated financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted for purposes of these interim condensed consolidated financial statements. The interim condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements, including notes thereto, contained in the Company’s Annual Report on Form 10-K for the year ended January 31, 2015.

The results of operations and comprehensive income for the three and six month periods ended August 1, 2015 and August 2, 2014 presented herein are not necessarily indicative of the results to be expected for the full fiscal year.

Stock dividend. On March 24, 2015, the Company's Board of Directors declared a two-for-one split of the Company's common stock issued in the form of a stock dividend. Stockholders of record as of April 22, 2015 were issued one additional share of common stock on June 11, 2015 for each share held. All share and per share amounts have been adjusted to reflect the stock split.

Restricted cash, cash equivalents, and investments. The Company has restricted cash, cash equivalents, and investments that serve as collateral for certain insurance obligations of the Company. These restricted funds are invested in bank deposits, money market mutual funds, U.S. Government and agency securities, and corporate securities and cannot be withdrawn from the Company’s account without the prior written consent of the secured parties. The following table summarizes total restricted cash, cash equivalents, and investments which were included in Prepaid expenses and other and Other long-term assets in the Condensed Consolidated Balance Sheets as of August 1, 2015, January 31, 2015, and August 2, 2014:

Restricted Assets (\$000)	August 1, 2015	January 31, 2015	August 2, 2014
Prepaid expenses and other	\$ 19,719	\$ 19,713	\$ 22,766
Other long-term assets	56,125	56,107	55,737
Total	\$ 75,844	\$ 75,820	\$ 78,503

The classification between current and long-term is based on the timing of expected payments of the insurance obligations.

Property and equipment. As of August 1, 2015 and August 2, 2014, the Company had \$10.0 million and \$22.6 million, respectively, of property and equipment purchased but not yet paid. These purchases are included in Property and Equipment, Accounts payable, and Accrued expenses and other in the accompanying Condensed Consolidated Balance Sheets.

Sales mix. The Company's sales mix is shown below for the three and six month periods ended August 1, 2015 and August 2, 2014:

	Three Months Ended		Six Months Ended		
	August 1, 2015	August 2, 2014	August 1, 2015	August 2, 2014	
Ladies	30	% 31	% 30	% 31	%
Home Accents and Bed and Bath	23	% 22	% 23	% 22	%
Men's	14	% 14	% 13	% 13	%
Shoes	13	% 13	% 13	% 13	%
Accessories, Lingerie, Fine Jewelry, and Fragrances	13	% 12	% 13	% 13	%
Children's	7	% 8	% 8	% 8	%
Total	100	% 100	% 100	% 100	%

Cash Dividends. Dividends included in the Condensed Consolidated Statements of Cash Flows reflect cash dividends paid during the periods shown. Dividends per share reported on the Condensed Consolidated Statements of Earnings reflect cash dividends declared during the periods shown.

The Company's Board of Directors declared cash dividends of \$0.1175 per common share in February and May 2015, respectively, and \$0.1000 per common share in February, May, August, and November 2014, respectively.

In August 2015, the Company's Board of Directors declared a cash dividend of \$0.1175 per common share, payable on September 30, 2015.

Litigation, claims, and assessments. Like many retailers, the Company has been named in class action lawsuits, primarily in California, alleging violation of wage and hour laws and consumer protection laws. Class action litigation remains pending as of August 1, 2015.

The Company is also party to various other legal and regulatory proceedings arising in the normal course of business. Actions filed against the Company may include commercial, product and product safety, customer, intellectual property, and labor and employment-related claims, including lawsuits in which private plaintiffs or governmental agencies allege that the Company violated federal, state, and/or local laws. Actions against the Company are in various procedural stages. Many of these proceedings raise factual and legal issues and are subject to uncertainties.

In the opinion of management, the resolution of pending class action litigation and other currently pending legal and regulatory proceedings will not have a material adverse effect on the Company's financial condition, results of operations, or cash flows.

Recently issued and adopted accounting standards. In April 2015, the FASB issued Accounting Standards Update 2015-03, Simplifying the Presentation of Debt Issuance Costs (ASU 2015-03). The standard amends existing guidance to require the presentation of debt issuance costs in the balance sheet as a deduction from the carrying amount of the related debt liability instead of as an asset. ASU 2015-03 is effective for annual and interim reporting periods after December 15, 2015, with early adoption permitted. The Company early adopted ASU 2015-03 retrospectively in its first fiscal quarter ended May 2, 2015. As a result of the retrospective adoption, the Company reclassified unamortized debt issuance costs of \$2.8 million and \$0.3 million as of January 31, 2015 and August 2, 2014, respectively, from Other long-term assets to a reduction in Long-term debt on the condensed consolidated balance sheets. Adoption of this standard did not impact results of operations, retained earnings, or cash flows in the current or previous interim

and annual reporting periods.

Note B: Fair Value Measurements

The carrying value of cash and cash equivalents, short- and long-term investments, restricted cash and cash equivalents, restricted investments, accounts receivable, other long-term assets, accounts payable, and other long-term liabilities approximates their estimated fair value.

Accounting standards pertaining to fair value measurements establish a three-tier fair value hierarchy which prioritizes the inputs used in measuring fair value. The inputs used to measure fair value include: Level 1, observable inputs such as quoted prices in active markets; Level 2, inputs other than quoted prices in active markets that are either directly or indirectly observable; and Level 3, unobservable inputs in which little or no market data exists. This fair value hierarchy requires the Company to develop its own assumptions and maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.

There were no transfers between Level 1 and Level 2 categories during the three and six month periods ended August 1, 2015. The fair value of the Company's financial instruments are as follows:

(\$000)	August 1, 2015	January 31, 2015	August 2, 2014
Cash and cash equivalents			
Level 1	\$ 630,288	\$ 696,608	\$ 549,784
Investments			
Level 2	3,612	3,610	3,660
Restricted cash and cash equivalents			
Level 1	\$ 72,076	\$ 71,992	\$ 74,586
Restricted investments			
Level 1	\$ 3,768	\$ 3,828	\$ 3,805
Level 2	—	—	112

The underlying assets in the Company's non-qualified deferred compensation program as of August 1, 2015, January 31, 2015, and August 2, 2014 (included in Other long-term assets and in Other long-term liabilities) primarily consist of participant-directed money market, stable value, stock, and bond funds. The fair value measurement for funds with quoted market prices in active markets (Level 1) and for funds without quoted market prices in active markets (Level 2) are as follows:

(\$000)	August 1, 2015	January 31, 2015	August 2, 2014
Level 1	\$ 82,953	\$ 81,926	\$ 79,753
Level 2	12,842	12,128	13,638
Total	\$ 95,795	\$ 94,054	\$ 93,391

Note C: Stock-Based Compensation

Stock-based compensation. For the three and six month periods ended August 1, 2015 and August 2, 2014, the Company recognized stock-based compensation expense as follows:

(\$000)	Three Months Ended		Six Months Ended	
	August 1, 2015	August 2, 2014	August 1, 2015	August 2, 2014
Restricted stock	\$9,395	\$8,550	\$17,969	\$16,502
Performance awards	5,537	3,960	10,642	7,485
Employee stock purchase plan	662	550	1,270	1,108
Total	\$15,594	\$13,060	\$29,881	\$25,095

Total stock-based compensation recognized in the Company's Condensed Consolidated Statements of Earnings for the three and six month periods ended August 1, 2015 and August 2, 2014 is as follows:

Statements of Earnings Classification (\$000)	Three Months Ended		Six Months Ended	
	August 1, 2015	August 2, 2014	August 1, 2015	August 2, 2014
Cost of goods sold	\$7,420	\$7,085	\$14,483	\$13,263
Selling, general and administrative	8,174	5,975	15,398	11,832
Total	\$15,594	\$13,060	\$29,881	\$25,095

Restricted stock. The Company grants shares of restricted stock or restricted stock units to directors, officers, and key employees. The market value of shares of restricted stock and of the stock underlying restricted stock units at the date of grant is amortized to expense over the vesting period of generally three to five years.

During the three and six month periods ended August 1, 2015 and August 2, 2014, shares purchased by the Company for tax withholding totaled 33,705 and 1,206,903 and 62,544 and 1,031,252, respectively, and are considered treasury shares which are available for reissuance.

Performance shares. The Company has a performance share award program for senior executives. A performance share award represents a right to receive shares of restricted stock or restricted stock units on a specified settlement date based on the Company's attainment of a profitability-based performance goal during the performance period, which is the Company's fiscal year. If attained, the restricted stock or units then vest over a service period, generally two to three years from the date the performance award was granted. The release of shares related to restricted stock units earned are deferred generally for one year from the date earned.

As of August 1, 2015, shares related to unvested restricted stock and performance share awards totaled 6.0 million shares. A summary of restricted stock and performance share award activity for the six month period ended August 1, 2015 is presented below:

(000, except per share data)	Number of shares	Weighted average grant date fair value
Unvested at January 31, 2015	6,982	\$24.01
Awarded	1,830	51.95
Released	(2,480) 16.71

Edgar Filing: ROSS STORES INC - Form 10-Q

Forfeited	(354) 29.43
Unvested at August 1, 2015	5,978	\$33.61

9

The unamortized compensation expense at August 1, 2015 was \$110.7 million which is expected to be recognized over a weighted-average remaining period of 2.1 years. The unamortized compensation expense at August 2, 2014 was \$106.6 million, which was expected to be recognized over a weighted-average remaining period of 2.2 years.

Employee stock purchase plan. Under the Employee Stock Purchase Plan ("ESPP"), eligible employees participating in the quarterly offering period can choose to spend up to the lesser of 10% of their annual base earnings or the IRS annual share purchase limit of \$25,000 in aggregate market value to purchase the Company's common stock each year. The purchase price of the stock is 85% of the closing market price on the date of purchase. Purchases occur on the last trading day of each calendar quarter. The Company recognizes expense for ESPP purchase rights equal to the value of the 15% discount given on the purchase date.

Stock option activity. A summary of the stock option activity for the six month period ended August 1, 2015 is presented below:

(000, except per share data)	Number of shares	Weighted average exercise price	Weighted average remaining contractual term	Aggregate intrinsic value
Outstanding at January 31, 2015	1,038	\$7.05		
Granted	—	—		
Exercised	(594)	6.95		
Forfeited	—	—		
Outstanding at August 1, 2015, all vested	444	\$7.19	0.89	\$20,402

No stock options were granted during the six month periods ended August 1, 2015 and August 2, 2014.

The following table summarizes information about the weighted average remaining contractual life (in years) and the weighted average exercise prices for stock options both outstanding and exercisable as of August 1, 2015 (number of shares in thousands):

Exercise price range	Options outstanding and exercisable		
	Number of shares	Remaining life	Exercise price
\$5.90 to \$6.89	118	0.65	\$6.68
6.95 to 6.95	161	0.62	6.95
7.04 to 7.63	61	0.55	7.19
7.66 to 7.66	7	1.21	7.66
8.19 to 8.19	97	1.81	8.19
\$5.90 to \$8.19	444	0.89	\$7.19

Note D: Earnings Per Share

The Company computes and reports both basic earnings per share ("EPS") and diluted EPS. Basic EPS is computed by dividing net earnings by the weighted average number of common shares outstanding for the period. Diluted EPS is computed by dividing net earnings by the sum of the weighted average number of common shares and dilutive common stock equivalents outstanding during the period. Diluted EPS reflects the total potential dilution that could occur from outstanding equity plan awards, including unexercised stock options, and unvested shares of both performance and non-performance based awards of restricted stock and restricted stock units.

Edgar Filing: ROSS STORES INC - Form 10-Q

For the three and six month periods ended August 1, 2015, approximately 2,100 and 2,900 weighted average shares, respectively, were excluded from the calculation of diluted EPS because their effect would have been anti-dilutive for those periods presented. For the three and six month periods ended August 2, 2014, approximately 22,400 and 12,300 weighted average shares, respectively, were excluded from the calculation of diluted EPS because their effect would have been anti-dilutive for those periods presented.

Edgar Filing: ROSS STORES INC - Form 10-Q

The following is a reconciliation of the number of shares (denominator) used in the basic and diluted EPS computations:

Shares in (000s)	Three Months Ended			Six Months Ended		
	Basic EPS	Effect of dilutive common stock equivalents	Diluted EPS	Basic EPS	Effect of dilutive common stock equivalents	Diluted EPS

Note E: Debt

Senior notes. Unsecured senior debt, net of unamortized discounts and debt issuance costs, consists of the following:

(\$000)	August 1, 2015	January 31, 2015	August 2, 2014
6.38% Series A Senior Notes due 2018	\$84,889	\$84,873	\$84,857
6.53% Series B Senior Notes due 2021	64,872	64,861	64,851
3.375% Senior Notes due 2024	246,032	245,828	—
Total	\$395,793	\$395,562	\$149,708

In September 2014, the Company issued unsecured 3.375% Senior Notes due September 2024 (the “2024 Notes”) with an aggregate principal amount of \$250 million. Interest on the 2024 Notes is payable semi-annually.

As of August 1, 2015, the Company also had outstanding two other series of unsecured senior notes in the aggregate principal amount of \$150 million, held by various institutional investors. The Series A notes totaling \$85 million are due in December 2018 and bear interest at a rate of 6.38%. The Series B notes totaling \$65 million are due in December 2021 and bear interest at a rate of 6.53%. Borrowings under these senior notes are subject to certain financial covenants, including interest coverage and other financial ratios. As of August 1, 2015, the Company was in compliance with these covenants.

As of August 1, 2015, January 31, 2015, and August 2, 2014, total unamortized discount and debt issuance costs were \$4.2 million, \$4.4 million, and \$0.3 million, respectively, and were classified as a reduction of Long-term debt.

The 2024 Notes, Series A, and Series B senior notes are all subject to prepayment penalties for early payment of principal.

The aggregate fair value of the long-term debt was approximately \$425 million, \$442 million, and \$181 million as of August 1, 2015, January 31, 2015, and August 2, 2014, respectively. The fair values are estimated by obtaining comparable market quotes which are considered to be Level 1 inputs under the fair value measurements and

disclosures guidance.

Interest expense and income for the three and six month periods ended August 1, 2015 and August 2, 2014 consists of the following:

(\$000)	Three Months Ended		Six Months Ended	
	August 1, 2015	August 2, 2014	August 1, 2015	August 2, 2014
Interest expense on long-term debt	\$4,642	\$2,430	\$9,284	\$4,860
Other interest expense	303	303	644	644
Capitalized interest	(3,193) (2,731) (6,002) (5,502
Interest income	(100) (97) (271) (202
Interest expense (income), net	\$1,652	\$ (95) \$3,655	\$ (200

Revolving credit facility. The Company's \$600 million unsecured revolving credit facility expires in June 2017 and contains a \$300 million sublimit for issuance of standby letters of credit. Interest on this facility is based on LIBOR plus an applicable margin (currently 100 basis points) and is payable quarterly and upon maturity. As of August 1, 2015 the Company had no borrowings or standby letters of credit outstanding under this facility and the \$600 million credit facility remains in place and available.

The revolving credit facility is subject to certain financial covenants, including interest coverage and other financial ratios. In addition, the interest rates under the revolving credit facility may vary depending on actual interest coverage ratios achieved. As of August 1, 2015, the Company was in compliance with these covenants.

Note F: Taxes on Earnings

As of August 1, 2015, January 31, 2015, and August 2, 2014, the reserves for unrecognized tax benefits were \$105.2 million, \$101.7 million, and \$101.9 million inclusive of \$20.8 million, \$23.6 million, and \$23.7 million of related interest and penalties, respectively. The Company accounts for interest and penalties related to unrecognized tax benefits as a part of its provision for taxes on earnings. If recognized, \$51.8 million would impact the Company's effective tax rate. The difference between the total amount of unrecognized tax benefits and the amounts that would impact the effective tax rate relates to amounts attributable to deferred income tax assets and liabilities. These amounts are net of federal and state income taxes.

During the next twelve months, it is reasonably possible that the statute of limitations may lapse pertaining to positions taken by the Company in prior year tax returns. If this occurs, the total amount of unrecognized tax benefits may decrease, reducing the provision for taxes on earnings by up to \$3.6 million.

The Company is open to audit by the Internal Revenue Service under the statute of limitations for fiscal years 2011 through 2014. The Company's state income tax returns are generally open to audit under the various statutes of limitations for fiscal years 2010 through 2014. Certain state tax returns are currently under audit by state tax authorities. The Company does not expect the results of these audits to have a material impact on the consolidated financial statements.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Stockholders of
Ross Stores, Inc.
Dublin, California

We have reviewed the accompanying condensed consolidated balance sheets of Ross Stores, Inc. and subsidiaries (the "Company") as of August 1, 2015 and August 2, 2014, and the related condensed consolidated statements of earnings and comprehensive income for the three-month and six-month periods ended August 1, 2015 and August 2, 2014, and of cash flows for the six-month periods ended August 1, 2015 and August 2, 2014. These interim financial statements are the responsibility of the Company's management.

We conducted our reviews in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to such condensed consolidated interim financial statements for them to be in conformity with accounting principles generally accepted in the United States of America.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Ross Stores, Inc. and subsidiaries as of January 31, 2015, and the related consolidated statements of earnings, comprehensive income, stockholders' equity, and cash flows for the year then ended (not presented herein); and in our report dated March 31, 2015, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of January 31, 2015, is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This section and other parts of this Form 10-Q contain forward-looking statements that involve risks and uncertainties. Our actual results may differ materially from the results discussed in the forward-looking statements. Factors that might cause such differences include, but are not limited to, those discussed in Part II, Item 1A (Risk Factors) below. The following discussion should be read in conjunction with the condensed consolidated financial statements and notes thereto included elsewhere in this Quarterly Report on Form 10-Q and the consolidated financial statements and notes thereto in our Annual Report on Form 10-K for 2014. All information is based on our fiscal calendar.

Stores. Our expansion strategy is to open additional stores based on market penetration, local demographic characteristics, competition, expected store profitability, and the ability to leverage overhead expenses. We continually evaluate opportunistic real estate acquisitions and opportunities for potential new store locations. We also evaluate our current store locations and determine store closures based on similar criteria.

Sales. Sales for the three month period ended August 1, 2015 increased \$239 million, or 8.7%, compared to the three month period ended August 2, 2014, due to the opening of 86 net new stores between August 2, 2014 and August 1, 2015 and a 4% increase in “comparable” store sales (defined as stores that have been open for more than 14 complete months).

Sales for the six month period ended August 1, 2015 increased \$496 million, or 9.2%, compared to the six month period ended August 2, 2014, due to the opening of 86 net new stores between August 2, 2014 and August 1, 2015 and a 5% increase in comparable store sales.

Our sales mix for the three and six month periods ended August 1, 2015 and August 2, 2014 is shown below:

	Three Months Ended		Six Months Ended		
	August 1, 2015	August 2, 2014	August 1, 2015	August 2, 2014

Total	100	% 100	% 100	% 100	%

We intend to address the competitive climate for off-price apparel and home goods by pursuing and refining our existing strategies and by continuing to strengthen our organization, diversify our merchandise mix, and improve regional and local merchandise offerings. Although our strategies and store expansion program contributed to sales gains for the three and six month periods ended August 1, 2015, we cannot be sure that they will result in a continuation of sales growth or in an increase in net earnings.

Cost of goods sold. Cost of goods sold for the three and six month periods ended August 1, 2015 increased \$175 million and \$335 million compared to the same periods in the prior year, mainly due to increased sales from the opening of 86 net new stores and a 4% and 5% increase in comparable store sales, respectively.

Cost of goods sold as a percentage of sales for the three month period ended August 1, 2015 increased approximately 20 basis points from the same period in the prior year. These higher expenses were primarily due to a 40 basis point

increase in distribution expenses mainly from the opening of a new distribution center and higher freight and buying costs of 10 and five basis points, respectively. These unfavorable items were partially offset by a 25 basis point improvement in merchandise margin and occupancy leverage of 10 basis points.

Cost of goods sold as a percentage of sales for the six month period ended August 1, 2015 decreased approximately 30 basis points from the same period in the prior year primarily due to a 45 basis point increase in merchandise margin and five basis points of leverage on occupancy costs. These improvements were partially offset by 10 basis point increases in both freight and distribution costs.

We cannot be sure that the gross profit margins realized for the three and six month periods ended August 1, 2015 will continue in the future.

Selling, general and administrative expenses. For the three and six month periods ended August 1, 2015, selling, general and administrative expenses ("SG&A") increased \$40 million and \$69 million compared to the same periods in the prior year, mainly due to increased store operating costs reflecting the opening of 86 net new stores between August 2, 2014 and August 1, 2015.

Selling, general and administrative expenses as a percentage of sales for the three month period ended August 1, 2015 increased 15 basis points compared to the same period in the prior year. These higher costs resulted from an unfavorable comparison to last year's second quarter which included a one-time benefit of 20 basis points related to the resolution of a legal matter. This was partially offset by 5 basis points of leverage resulting from the 4% increase in comparable store sales.

Selling, general and administrative expenses as a percentage of sales for the six month period ended August 1, 2015 declined 5 basis points primarily due to leverage resulting from the 5% comparable store sales increase. This was partially offset by the unfavorable comparison to last year when we recognized a one-time benefit of 10 basis points related to the aforementioned legal matter.

Interest expense (income), net. Net interest expense as a percentage of sales for the three and six month periods ended August 1, 2015 increased compared to the same periods in the prior year primarily due to the issuance of our 2024 Notes in the third quarter of fiscal 2014.

Interest expense and income for the three and six month periods ended August 1, 2015 and August 2, 2014 consists of the following:

(\$000)	Three Months Ended		Six Months Ended	
	August 1, 2015	August 2, 2014	August 1, 2015	August 2, 2014
Interest expense on long-term debt	\$4,642	\$2,430	\$9,284	\$4,860
Other interest expense	303	303	644	644
Capitalized interest	(3,193)	(2,731)	(6,002)	(5,502)
Interest income	(100)	(97)	(271)	(202)
Interest expense (income), net	\$1,652	\$(95)	\$3,655	\$(200)

Taxes on earnings. Our effective tax rate for the three month periods ended August 1, 2015 and August 2, 2014 was approximately 37% and 39%, respectively, and our effective tax rate for both of the six month periods ended August 1, 2015 and August 2, 2014, was approximately 38%. Our effective tax rate represents the applicable combined federal and state statutory rates reduced by the federal benefit of state taxes deductible on federal returns. The effective rate is impacted by changes in law, location of new stores, level of earnings, and the resolution of tax positions with various taxing authorities. We anticipate that our effective tax rate for fiscal 2015 will be between 37% and 38%.

Net earnings. Net earnings as a percentage of sales for the three month period ended August 1, 2015 was lower compared to the same period in the prior year primarily due to both higher cost of goods sold and higher SG&A expenses as a percentage of sales.

Net earnings as a percentage of sales for the six month period ended August 1, 2015 was higher compared to the same period in the prior year primarily due to both lower cost of goods sold and lower SG&A expenses as a percentage of sales.

Earnings per share. Diluted earnings per share for the three and six month periods ended August 1, 2015 was \$0.63 and \$1.32, respectively, compared to \$0.57 and \$1.15, respectively, for the three and six month periods ended August 2, 2014. The increases in diluted earnings per share for both the three and six month periods ended August 1, 2015 is attributable to an increase in net earnings and a 3% reduction in weighted average diluted shares outstanding due to the stock repurchase program.

Financial Condition

Liquidity and Capital Resources

Our primary sources of funds for our business activities are cash flows from operations and short-term trade credit. Our primary ongoing cash requirements are for merchandise inventory purchases, payroll, rent, taxes, and capital expenditures in connection with new and existing stores, and investments in distribution centers, information systems, and buying and corporate offices. We also use cash to repurchase stock under our stock repurchase program and to pay dividends.

(\$000)	Six Months Ended	
	August 1, 2015	August 2, 2014
Cash provided by operating activities	\$590,371	\$741,791
Cash used in investing activities	(193,297) (248,371
Cash used in financing activities	(463,394) (366,804
Net (decrease) increase in cash and cash equivalents	\$(66,320) \$126,616

Operating Activities

Net cash provided by operating activities was \$590.4 million and \$741.8 million for the six month periods ended August 1, 2015 and August 2, 2014, respectively, and was primarily driven by net earnings excluding non-cash expenses for depreciation and amortization. Our primary source of operating cash flow is the sale of our merchandise inventory. We regularly review the age and condition of our merchandise and are able to maintain current merchandise inventory in our stores through replenishment processes and liquidation of slower-moving merchandise through clearance markdowns.

The decrease in cash flow from operating activities for the six month period ended August 1, 2015, compared to the same period in the prior year was primarily driven by an increase in and the timing of packaway receipts versus last year, partially offset by higher earnings. The increase in packaway inventory was driven by opportunistic buys available in the marketplace. The earlier timing of these packaway receipts versus last year resulted in lower accounts payable leverage (defined as accounts payable divided by merchandise inventory) which was 69%, 73%, and 77% as of August 1, 2015, January 31, 2015, and August 2, 2014, respectively.

As a regular part of our business, packaway inventory levels will vary over time based on availability of compelling opportunities in the marketplace. Packaway merchandise is purchased with the intent that it will be stored in our warehouses until a later date. The timing of the release of packaway inventory to our stores is principally driven by the product mix and seasonality of the merchandise, and its relation to our store merchandise assortment plans. As such, the aging of packaway varies by merchandise category and seasonality of purchase, but typically packaway remains in storage less than six months. We expect to continue to take advantage of packaway inventory opportunities to deliver bargains to our customers.

Changes in packaway inventory levels impact our operating cash flow. As of August 1, 2015, packaway inventory was 46% of total inventory compared to 45% at the end of fiscal 2014. As of August 2, 2014, packaway inventory was

43% of total inventory compared to 49% at the end of fiscal 2013.

Investing Activities

Net cash used in investing activities was \$193.3 million and \$248.4 million for the six month periods ended August 1, 2015 and August 2, 2014, respectively. The decrease in cash used for investing activities for the six month period ended

17

August 1, 2015, compared to the six month period ended August 2, 2014 was primarily due to a reduction in our capital expenditures.

Our capital expenditures were \$193.1 million and \$253.4 million for the six month periods ended August 1, 2015 and August 2, 2014, respectively. Our capital expenditures include costs to build or expand distribution centers, open new stores and improve existing stores, and for various other expenditures related to our information technology systems, buying, and corporate offices. The decrease in capital expenditures for the six month period ended August 1, 2015 compared to the six month period ended August 2, 2014 is primarily due to lower distribution center related spending.

We are currently forecasting approximately \$400 million in capital expenditures for fiscal year 2015 to fund costs for fixtures and leasehold improvements to open new Ross and dd's DISCOUNTS stores, the upgrade or relocation of existing stores, investments in information technology systems, and for various other expenditures related to our stores, distribution centers, buying and corporate offices. Our planned capital expenditures of \$400 million for fiscal year 2015 decreased from the amount we previously forecasted of \$450 million primarily due to lower distribution center construction costs and the deferral of certain other projects. We expect to primarily fund capital expenditures with available cash and cash flows from operations.

We had purchases of investments of \$0.7 million for the six month period ended August 1, 2015 and no purchases of investments for the six month period ended August 2, 2014. We had proceeds from investments of \$0.6 million and \$12.0 million for the six month periods ended August 1, 2015 and August 2, 2014, respectively.

Financing Activities

Net cash used in financing activities was \$463.4 million and \$366.8 million for the six month periods ended August 1, 2015 and August 2, 2014, respectively. For the six month periods ended August 1, 2015 and August 2, 2014, our liquidity and capital requirements were provided by available cash and cash flows from operations.

We repurchased 6.9 million and 8.1 million shares of common stock for aggregate purchase prices of approximately \$351.5 million and \$277.4 million during the six month periods ended August 1, 2015, and August 2, 2014, respectively. We also acquired 1.2 million and 1.0 million shares of treasury stock through our employee equity compensation programs, for aggregate purchase prices of approximately \$63.6 million and \$37.6 million during the six month periods ended August 1, 2015 and August 2, 2014, respectively. In February 2015, our Board of Directors approved a new two-year \$1.4 billion stock repurchase program for fiscal 2015 and 2016.

For the six month periods ended August 1, 2015 and August 2, 2014, we paid cash dividends of \$96.9 million and \$84.9 million, respectively.

Short-term trade credit represents a significant source of financing for merchandise inventory. Trade credit arises from customary payment terms and trade practices with our vendors. We regularly review the adequacy of credit available to us from all sources and expect to be able to maintain adequate trade credit, bank lines, and other credit sources to meet our capital and liquidity requirements, including lease payment obligations in 2015.

Our existing \$600 million unsecured revolving credit facility expires in June 2017 and contains a \$300 million sublimit for issuance of standby letters of credit. Interest on this facility is based on LIBOR plus an applicable margin (currently 100 basis points) and is payable quarterly and upon maturity. As of August 1, 2015 we had no borrowings or standby letters of credit outstanding on this facility and our \$600 million credit facility remains in place and available.

We estimate that existing cash balances, cash flows from operations, bank credit lines, and trade credit are adequate to meet our operating cash needs and to fund our planned capital investments, common stock repurchases, and quarterly dividend payments for at least the next twelve months.

Contractual Obligations

The table below presents our significant contractual obligations as of August 1, 2015:

(\$000)	Less than one year	1 - 3 years	3 - 5 years	After 5 years	Total ¹
Senior notes	\$—	\$—	\$85,000	\$315,000	\$400,000
Interest payment obligations	18,105	36,210	27,398	43,805	125,518
Operating leases (rent obligations)	446,099	860,058	579,727	491,984	2,377,868

Total contractual obligations	\$2,517,022	\$922,454	\$704,960	\$1,806,566	\$5,951,002

¹We have a \$105.2 million liability for unrecognized tax benefits that is included in Other long-term liabilities on our interim Condensed Consolidated Balance Sheet. This liability is excluded from the schedule above as the timing of payments cannot be reasonably estimated.

²Our New York buying office building is subject to a 99-year ground lease.

Senior notes. In September 2014, we issued unsecured 3.375% Senior Notes due September 2024 with an aggregate principal amount of \$250 million. Interest on the 2024 Notes is payable semi-annually.

At August 1, 2015 we also had outstanding two other series of unsecured senior notes in the aggregate principal amount of \$150 million, held by various institutional investors. The Series A notes totaling \$85 million are due in December 2018 and bear interest at a rate of 6.38%. The Series B notes totaling \$65 million are due in December 2021 and bear interest at a rate of 6.53%. Borrowings under these senior notes are subject to certain financial covenants, including interest coverage and other financial ratios. As of August 1, 2015, we were in compliance with these covenants.

The 2024 Notes, Series A, and Series B senior notes are all subject to prepayment penalties for early payment of principal.

Off-Balance Sheet Arrangements

Operating leases. We currently lease all but three of our store locations, three warehouse facilities, and a buying office. In addition, we have a ground lease related to our New York buying office. Except for certain leasehold improvements and equipment, these leased locations do not represent long-term capital investments.

Two of our leased warehouses are in Carlisle, Pennsylvania with leases expiring in 2016 and 2017. The third warehouse lease is in Fort Mill, South Carolina, with a lease expiring in 2019. The leases for the two Carlisle, Pennsylvania warehouses contain renewal provisions.

We currently lease approximately 68,000 square feet of office space for our Los Angeles buying office. The lease term for this facility expires in 2017 and contains renewal provisions.

Purchase obligations. As of August 1, 2015 we had purchase obligations of approximately \$2,060 million. These purchase obligations primarily consist of merchandise inventory purchase orders, commitments related to construction projects, store fixtures and supplies, and information technology services, transportation, and maintenance contracts.

Commercial Credit Facilities

The table below presents our significant available commercial credit facilities at August 1, 2015:

(\$000)	Amount of Commitment Expiration Per Period				Total amount committed
	Less than 1 year	1 - 3 years	3 - 5 years	After 5 years	
Revolving credit facility	\$—	\$600,000	\$—	\$—	\$600,000
Total commercial commitments	\$—	\$600,000	\$—	\$—	\$600,000

For additional information relating to this credit facility, refer to Note E of Notes to Condensed Consolidated Financial Statements.

Revolving credit facility. Our existing \$600 million unsecured revolving credit facility expires in June 2017 and contains a \$300 million sublimit for issuance of standby letters of credit. Interest on this facility is based on LIBOR plus an applicable margin (currently 100 basis points) and is payable quarterly and upon maturity. As of August 1, 2015 we had no borrowings outstanding or standby letters of credit issued under this facility.

Our revolving credit facility has covenant restrictions requiring us to maintain certain interest coverage and other financial ratios. In addition, the interest rates under the revolving credit facility may vary depending on actual interest coverage ratios achieved. As of August 1, 2015 we were in compliance with these covenants.

Standby letters of credit and collateral trust. We use standby letters of credit outside of our revolving credit facility in addition to a funded trust to collateralize our insurance obligations. As of August 1, 2015 and August 2, 2014, we had \$19.5 million and \$24.3 million, respectively, in standby letters of credit outstanding and \$56.3 million and \$54.2 million, respectively, in a collateral trust. The standby letters of credit are collateralized by restricted cash and the collateral trust consists of restricted cash, cash equivalents, and investments.

Trade letters of credit. We had \$51.4 million and \$46.2 million in trade letters of credit outstanding at August 1, 2015 and August 2, 2014, respectively.

Dividends. In August 2015, our Board of Directors declared a cash dividend of \$0.1175 per common share, payable on September 30, 2015.

Effects of inflation or deflation. We do not consider the effects of inflation or deflation to be material to our financial position and results of operations.

Critical Accounting Policies

Management's Discussion and Analysis of Financial Condition and Results of Operations is based on our condensed consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of our condensed consolidated financial statements requires our management to make estimates and assumptions that affect the reported amounts. These estimates and assumptions are evaluated on an ongoing basis and are based on historical experience and on various other factors that management believes to be reasonable. Actual results may differ significantly from these estimates. During the second quarter of fiscal 2015, there have been no significant changes to the policies discussed in our Annual Report on Form 10-K for the year ended January 31, 2015.

Recently issued and adopted accounting standards. In April 2015, the FASB issued Accounting Standards Update 2015-03, Simplifying the Presentation of Debt Issuance Costs (ASU 2015-03). The standard amends existing guidance

to require the presentation of debt issuance costs in the balance sheet as a deduction from the carrying amount of the related debt liability instead of as an asset. ASU 2015-03 is effective for annual and interim reporting periods after December 15, 2015, with early adoption permitted. We early adopted ASU 2015-03 retrospectively in our first fiscal quarter ended May 2, 2015. As a result of the retrospective adoption, we reclassified unamortized debt issuance costs of \$2.8 million and \$0.3 million as of January 31, 2015 and August 2, 2014, respectively, from Other long-term assets to a reduction in Long-term debt on the condensed consolidated balance sheets. Adoption of this standard did not impact results of operations, retained earnings, or cash flows in the current or previous interim and annual reporting periods.

Forward-Looking Statements

This report may contain a number of forward-looking statements regarding, without limitation, planned store growth, new markets, expected sales, projected earnings levels, capital expenditures, and other matters. These forward-looking statements reflect our then current beliefs, projections, and estimates with respect to future events and our projected financial performance, operations, and competitive position. The words “plan,” “expect,” “target,” “anticipate,” “estimate,” “believe,” “forecast,” “projected,” “guidance,” “looking ahead” and similar expressions identify forward-looking statements.

Future economic and industry trends that could potentially impact revenue, profitability, and growth remain difficult to predict. As a result, our forward-looking statements are subject to risks and uncertainties which could cause our actual results to differ materially from those forward-looking statements and our previous expectations and projections. Refer to Part II, Item 1A in this Quarterly Report on Form 10-Q for a more complete discussion of risk factors for Ross and dd’s DISCOUNTS. The factors underlying our forecasts are dynamic and subject to change. As a result, any forecasts or forward-looking statements speak only as of the date they are given and do not necessarily reflect our outlook at any other point in time. We disclaim any obligation to update or revise these forward-looking statements.

Other risk factors are detailed in our filings with the Securities and Exchange Commission including, without limitation, our Annual Report on Form 10-K for 2014.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to market risks, which primarily include changes in interest rates. We do not engage in financial transactions for trading or speculative purposes.

We occasionally use forward contracts to hedge against fluctuations in foreign currency prices. We had no outstanding forward contracts as of August 1, 2015.

Interest that is payable on our revolving credit facility is based on variable interest rates and is, therefore, affected by changes in market interest rates. As of August 1, 2015, we had no borrowings outstanding under our revolving credit facility.

We have two outstanding series of unsecured notes held by institutional investors: Series A Senior Notes due December 2018 for \$85 million accrues interest at 6.38% and Series B Senior Notes due December 2021 for \$65 million accrues interest at 6.53%. The amount outstanding under these notes as of August 1, 2015 was \$150 million. We also have unsecured 3.375% Senior Notes due September 2024 with an aggregate principal amount of \$250 million. Interest that is payable on our senior notes is based on fixed interest rates, and is therefore unaffected by changes in market interest rates.

Interest is receivable on our short- and long-term investments. Changes in interest rates may impact interest income recognized in the future, or the fair value of our investment portfolio.

A hypothetical 100 basis point increase or decrease in prevailing market interest rates would not have a material impact on our consolidated financial position, results of operations, cash flows, or the fair values of our short- and long-term investments as of and for the three month period ended August 1, 2015. We do not consider the potential losses in future earnings and cash flows from reasonably possible, near-term changes in interest rates to be material.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, conducted an evaluation of the effectiveness of our “disclosure controls and procedures” (as defined in Exchange Act Rule 13a-15(e)) as of the end of the period covered by this report. Our disclosure controls and procedures are designed to provide reasonable assurance of achieving their objectives. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective at that reasonable assurance level as of the end of the period covered by this report.

It should be noted that any system of controls, however well designed and operated, can provide only reasonable, and not absolute, assurance that the objectives of the system will be met. In addition, the design of any control system is based in part upon certain assumptions about the likelihood of future events.

Quarterly Evaluation of Changes in Internal Control Over Financial Reporting

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, also conducted an evaluation of our internal control over financial reporting to determine whether any change occurred during the second fiscal quarter of 2015 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting. Based on that evaluation, our management concluded that there was no such change during the 2015 second fiscal quarter.

PART II – OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The matters under the caption “Litigation, claims, and assessments” in Note A of Notes to Condensed Consolidated Financial Statements are incorporated herein by reference.

ITEM 1A. RISK FACTORS

Our Quarterly Report on Form 10-Q for our second fiscal quarter of 2015, and information we provide in our press releases, and other investor communications, including those on our corporate website, may contain forward-looking statements with respect to anticipated future events and our projected growth, financial performance, operations, and competitive position that are subject to risks and uncertainties that could cause our actual results to differ materially from those forward-looking statements and our prior expectations and projections. Refer to Management’s Discussion and Analysis for a more complete identification and discussion of “Forward-Looking Statements.”

We are subject to the economic and industry risks that affect large, multi-store retailers operating in the United States. We must continually and efficiently obtain and distribute a supply of merchandise our customers value throughout a large and growing network of stores and distribution centers around the country. The continued success and growth of our business depends in part upon our ability to increase sales and improve efficiencies at our existing store locations, open new stores, operate existing and new stores on a profitable basis, and maintain or reduce our costs. We are also subject to various operational risks as we attempt to execute on our off-price retail merchandising and growth strategies. We must effectively manage all operating costs of the business, the largest of which are payroll and benefit costs for store and distribution center employees. Further, in order to support planned store growth, we must also add capacity to our existing distribution centers, find new distribution center sites, and build out planned

additional distribution centers timely and cost effectively. Our existing strategies and store, buying organization, and distribution center expansion programs may not result in a continuation of our anticipated revenue or profit growth.

Our financial condition, results of operations, cash flows, and the performance of our common stock may be adversely affected by a number of risk factors. Risks and uncertainties that apply to both Ross and dd's DISCOUNTS include, without limitation, the following:

• Competitive pressures in the apparel and home-related merchandise retailing industry are high.

• Unexpected changes may occur in the level of consumer spending on or preferences for apparel or home-related merchandise.

• We depend on the market availability, quantity, and quality of attractive brand name merchandise at desirable discounts, and on the ability of our buyers to purchase merchandise to enable us to offer customers a wide assortment of merchandise at competitive prices.

• We are subject to impacts from the macro-economic environment, financial and credit markets, and geopolitical conditions that affect consumer confidence and consumer disposable income.

• We must continually attract, train, and retain associates with the retail talent necessary to execute our off-price retail strategies.

• Unseasonable weather may affect shopping patterns and consumer demand for seasonal apparel and other merchandise.

• Data security breaches, including cyber-attacks on our transaction processing and computer information systems, could result in theft or unauthorized disclosure of customer, credit card, employee, or other private and valuable information that we handle in the ordinary course of our business. A breach of our data security, or our failure or delay in detecting and mitigating a loss of personal or business information, could result in damage to our reputation, loss of customer confidence, violation (or alleged violation) of applicable laws, and expose us to civil claims, litigation and regulatory action, and to unanticipated costs and disruption of our operations.

• Disruptions in our supply chain or in our information systems could impact our ability to process sales and to distribute merchandise to our stores in a timely and cost-effective manner.

• Issues involving the quality, safety, or authenticity of products we sell could increase our costs and/or adversely impact our sales.

• In order to achieve our planned gross margins, we must effectively manage our inventories, markdowns, and inventory shortage.

• We may experience volatility in revenues and earnings.

• An adverse outcome in various legal, regulatory, or tax matters could negatively impact our business.

• A natural or man-made disaster in California or in another region where we have a concentration of stores or a distribution center could harm our business.

• Our labor costs may increase as a result of industry trends and minimum wage requirements.

• To achieve growth, we need to expand in existing markets and enter new geographic markets where we are less well known.

• We need to obtain acceptable new store sites with favorable demographics to achieve our planned growth.

• Damage to our corporate reputation or brands could adversely affect our sales and operating results.

• We are subject to risks associated with importing merchandise from other countries.

• To support our continuing operations, our new store and distribution center growth plans, and our stock repurchase program and dividend programs, we must maintain sufficient liquidity.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Information regarding shares of common stock we repurchased during the second quarter of fiscal 2015 is as follows:

Period	Total number of shares (or units) purchased ^{1,2}	Average price paid per share (or unit) ¹	Total number of shares (or units) purchased as part of publicly announced plans or programs	Maximum number (or approximate dollar value) of shares (or units) that may yet be purchased under the plans or programs (\$000) ³

June (5/31/2015 - 7/04/2015)	1,484,585	\$49.28	1,475,558	\$1,109,100
July (7/05/2015 - 8/01/2015)	1,165,646	\$51.99	1,165,646	\$1,048,500
Total	3,524,503	\$50.33	3,490,798	

¹All share and per share amounts have been adjusted for the two-for-one stock split effective June 11, 2015.

²We acquired 33,705 shares of treasury stock during the quarter ended August 1, 2015. Treasury stock includes shares acquired from employees for tax withholding purposes related to vesting of restricted stock grants. All remaining shares were repurchased under our publicly announced stock repurchase program.

³In February 2015 our Board of Directors approved a new two-year \$1.4 billion stock repurchase program for fiscal 2015 and 2016.
