Independent Auditors' Report

To the Pension and Profit Sharing Committee
Chemung Canal Trust Company:

We have audited the accompanying statements of net assets available for plan benefits of the Chemung Canal Trust Company Profit Sharing, Savings, and Investment Plan (the Plan) as of December 31, 2002 and 2001, and the related statements of changes in net assets available for plan benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

Except as explained in the following paragraph, we conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), investment assets held by Chemung Canal Trust Company, the Trustee of the Plan, and transactions in those assets were excluded from the scope of our audit of the Plan's 2001 financial statements, except for comparing the information provided by the Trustee, which is described in note 7, with the related information included in the financial statements.

1

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the Plan's financial statements as of December 31, 2001, and for the year then ended. The form and content of the information included in the 2001 financial statements, other than that derived from the information certified by the Trustee, have been audited by us and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the financial statements referred to above as of December 31, 2002, and for the year then ended, present fairly, in all material respects, the net assets available for plan benefits of the Plan as of December 31, 2002, and the changes in net assets available for plan benefits for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit of the Plan's financial statements as of and for the year ended December 31, 2002, was made for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedules of nonexempt transactions, assets held at end of year and reportable transactions are presented for the purpose of additional analysis and are not a required part of the basic financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements for the year ended December 31, 2002, and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Accounting principles generally accepted in the United States of America require disclosure about the net assets and significant components of the changes in net assets relating to nonparticipant-directed investment programs. Effective July 1, 2002, all amounts in the Plan are participant-directed. The participant-directed and nonparticipant-directed amounts and changes therein prior to July 1, 2002 could not be separately determined by the Plan's management and have been reported and disclosed in the aggregate.

December 31, 2002 and 2001

(1) Description of the Plan

The following description of the Chemung Canal Trust Company Profit Sharing, Savings, and Investment Plan (the Plan) provides only general information. Participants should refer to the Plan document or summary plan description for a more complete description of the Plan's provisions.

General

Effective January 1, 1985, the Chemung Canal Trust Company Profit Sharing Plan was restated to incorporate 401(k) savings and investment provisions, and continued as the Plan. Under the restated Plan, investment accounts attributable to employer contributions made for plan years ended before January 1, 1985 were maintained. Participant account balances in these funds at December 31, 1984 became fully vested. Withdrawal privileges continue on these assets with certain limitations on frequency and amount.

Related Party Transactions

Chemung Canal Trust Company (the Company), a wholly owned subsidiary of Chemung Financial Corporation, is the Plan sponsor and acts as Trustee for the Plan's assets. In addition, the Plan invests in common trust funds managed by the Company (representing 33% and 25% of net assets at December 31, 2002 and 2001, respectively) and Chemung Financial Corporation common stock (representing 44% and 64% of net assets at December 31, 2002 and 2001, respectively).

Eligibility

A participant is eligible to make voluntary contributions after three months of employment and attainment of age 21. A participant is eligible for employer matching and discretionary contributions after attainment of age 21 and completion of one year of credited service.

Vesting

Participants are immediately vested in all contributions and earnings thereon.

5

Notes to Financial Statement

s

December 31, 2002 and 2001

Contributions

Under the Plan, eligible participants can make voluntary contributions of up to 70% of their current compensation, as defined, for investment in one or all of the available investment alternatives. Contributions are subject to certain Internal Revenue Service limitations in each year (\$11,000 for 2002).

The Plan sponsor matches 50% of the voluntary contributions made by an eligible participant up to 6% of the participant's current compensation, as defined. Prior to January 1, 2001, these matching contributions were invested in Chemung Financial Corporation common stock, except for participants age 50 or greater, for which these matching contributions were participant-directed. Subsequent to January 1, 2001, these matching contributions are completely participant-directed.

The Plan sponsor may contribute amounts annually at the discretion of the Board of Directors (discretionary contributions). Prior to July 1, 2002, these discretionary contributions were invested in Chemung Financial Corporation common stock, except for participants age 50 or greater, for which these discretionary contributions were participant-directed. Subsequent to July 1, 2002, these discretionary contributions are completely participant-directed. The Plan sponsor has the right to discontinue such discretionary contributions at any time.

Payment of Benefits

Upon termination of service, the participant's account is either maintained in the Plan until age 65, transferred to a physically segregated retirement account in the participant's name, directly rolled over into a qualified retirement plan or paid to the participant in a lump sum.

Administrative Expenses

Administrative costs of the Plan are paid by the Company.

(2) Significant Accounting Policies

Basis of Presentation

The Plan prepares its financial statements on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of net assets at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates and assumptions.

The Plan invests in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

(3) Cash and Cash Equivalents

Cash equivalents include highly liquid deposits in money market accounts.

(4) Investments

Edgar Filing: CHEMUNG FINANCIAL CORP - Form 11-K

The Trustee holds the Plan's investment assets and executes transactions therein. Investments in equity or debt securities, or mutual funds that are traded on national securities exchanges, are valued at quoted market prices. Chemung Financial Corporation's common stock is inactively traded in the over-the-counter market. Its market price is determined by the Trustee based upon actual transactions as reported by a brokerage firm that maintains a market in the stock. Units of participation

in the Chemung Canal Trust Company Short-Term Bond, Core Bond, Core Growth, and Growth and Income common trust funds are valued based on the underlying quoted market value of the securities held by each fund. Purchases and sales of securities are recorded on a trade date basis.

7

Investments that represent 5% or more of the net assets available for plan benefits at December 31, 2002 and 2001 are as follows:

	<u>2002</u>	<u>2001</u>
Chemung Financial Corporation common stock	\$7,026,523	11,135,826
Chemung Canal Trust Company common trust funds:

* Less than 5% of the net assets available for plan benefits at December 31, 2001.

** New investment option in 2002.

Edgar Filing: CHEMUNG FINANCIAL CORP - Form 11-K

December 31, 2002 and 2001

During 2002 and 2001, the Plan's investments (including investments bought, sold and held during the year) (depreciated) appreciated in value as follows:

	<u>2002</u>	<u>2001</u>
Chemung Financial Corporation common stock	<u>\$(714,983)</u>	<u>3,774,812</u>
Chemung Canal Trust Company common trust funds:

Mutual funds	<u>\$(127,156)</u>	<u>(195,045)</u>

s

December 31, 2002 and 2001

(5) Plan Termination

Although the Plan sponsor has not expressed any intent to terminate the Plan, it may do so at any time, subject to the provisions of the Employee Retirement Income Security Act of 1974. In the event of Plan termination, participants have a fully vested interest in their accounts and their accounts will be paid to them as provided by the Plan document.

(6) Tax Status

The Internal Revenue Service informed the Plan by a letter dated March 4, 2002, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC) and thus are exempt from Federal income taxes. The Plan has been amended since receiving the determination letter. The plan administrator believes the amendments do not significantly alter the design and operation of the Plan, and thus the Plan is still in compliance with the applicable sections of the IRC. In the opinion of the plan administrator, the Plan and its underlying trust have operated within the terms of the Plan document and remain qualified under the applicable provisions of the IRC.

(7) Information Certified by Plan Trustee

The Plan Trustee, Chemung Canal Trust Company, furnished certain information as of December 31, 2001, and for the year then ended, to the plan administrator and certified to its completeness and accuracy. This information included summaries of investments and investment transactions, net appreciation (depreciation) of investments, and interest and dividend income earned.

(8) Nonexempt Transactions

2002

There were unintentional delays by the Plan sponsor in submitting certain employee voluntary contributions totaling \$7,000 to the Plan for the period from July 3, 2002 to December 31, 2002. On January 29, 2003, these amounts were remitted to the Plan and invested in the respective investment options selected by the employees. There was also

s

December 31, 2002 and 2001

an unintentional delay by the Plan sponsor in submitting \$591 of the February 13, 2002 employee voluntary contributions totaling \$21,054 to the Plan. On April 26, 2002, this amount was remitted to the Plan and invested in the respective investment options selected by the employees. penalties related to these unintentional delays were paid by the Plan sponsor.

2001

There were unintentional delays by the Plan sponsor in submitting the May 23, 2001, June 6, 2001, and June 20, 2001, employee voluntary contributions of \$20,319, \$20,478, and \$20,352, respectively, to the Plan. On August 17, 2001, these amounts were remitted to the Plan and invested in the respective investment options selected by the employees. penalties related to these unintentional delays were paid by the Plan sponsor.
