CHEMUNG FINANCIAL CORPORATION

PROXY STATEMENT

ANNUAL MEETING OF SHAREHOLDERS

MAY 9, 2007

INFORMATION REGARDING THE ANNUAL MEETING

Time and Place of the Meeting

This proxy statement is being provided in connection with the solicitation of proxies by the Board of Directors for use at the Annual Meeting of Shareholders (the "Annual Meeting") of Chemung Financial Corporation ("Chemung Financial" or "the Corporation") to be held on Wednesday, May 9, 2007 at 2:00 P.M., at the Holiday Inn Elmira - Riverview, 760 East Water Street, Elmira, New York.

This Proxy Statement and the accompanying Proxy and Notice of Annual Meeting of Shareholders are being mailed to shareholders on or about April 2, 2007. In the proxy statement, the "Bank" refers to Chemung Canal Trust Company, Chemung Financial's subsidiary bank.

Shareholders Entitled to Vote

The record date for the meeting is March 16, 2007. Only shareholders of record at the close of business on that date are entitled to notice of and to vote at the meeting.

On the record date there were 3,533,965 shares of common stock of the Corporation outstanding. Each share of common stock is entitled to one vote on each matter that properly comes before the meeting.

#### Proxies and Voting Procedures

Shares represented by properly executed proxies will be voted as directed. If a proxy does not specify how it is to be voted, it will be voted as the Board recommends - that is, FOR the election of the five nominees for director named in the proxy statement. Abstentions are voted neither "for" nor "against," but are counted in the determination of a quorum. The Board of Directors knows of no other business to be brought before the Annual Meeting but if any other matters are properly presented at the meeting for consideration, the persons named as proxies will have discretion to vote on those matters according to their best judgment.

1

---

We are offering three alternative ways to vote your shares:

The deadline for telephone and Internet voting is 11:59 p.m. Eastern Daylight Time on May 8, 2007.

A shareholder may revoke a proxy vote at any time before it is voted by delivering written notice of revocation to the Secretary of the Corporation or by delivering a later dated proxy or by voting in person at the annual meeting.

#### Required Vote

There are no cumulative voting rights. Nominees for director will be elected by a plurality of votes cast at the annual meeting by holders of common stock present in person or represented by proxy and entitled to vote on such election. Any other matter requires the affirmative vote of a majority of the votes cast at the meeting, except as otherwise provided in the Corporation's bylaws or Certificate of Incorporation. Only shares affirmatively voted in favor of a nominee will be counted toward the achievement of a plurality. Votes withheld (including broker non-votes) and abstentions are counted as present for the purpose of determining a quorum but are not counted as votes cast.

ELECTION OF DIRECTORS

The Board is divided into three classes of directors as equal in number as possible, with one class to be elected each year for a term of three years. All the nominees currently serve as directors of the Corporation. The Board is not aware that any nominee named in this proxy statement will be unable or unwilling to accept nomination or election.

Shareholders will be entitled to elect five directors for a three-year term expiring at the 2010 Annual Meeting of Shareholders, or until their respective successors have been duly elected and qualified. Unless authority to vote for the nominees is withheld, the shares represented by the enclosed proxy card, if properly executed and returned, will be voted FOR the election of the nominees. Should any nominee become unable to serve as a director, the persons named in the proxy to represent shareholders will vote for any nominee, if any, who may be nominated by the Board of Directors.

Shares held in a co-fiduciary capacity by the Bank are voted by the co-fiduciary in the same manner as if the co-fiduciary were the sole fiduciary. Shares held by the Bank as sole trustee will be voted by the Bank only if the trust instrument provides for voting of the shares at the direction of the grantor or a beneficiary and the Bank actually receives voting instructions.

## INFORMATION REGARDING THE BOARD OF DIRECTORS

### Board Organization and Operation

Chemung Financial Corporation is managed under the direction of its Board of Directors (the "Board"). All members of the Board also serve on the Board of Directors of Chemung Canal Trust Company. The Board establishes policies and strategies and regularly monitors the effectiveness of management in carrying out these policies and strategies. Members of the Board are kept informed of the Corporation's business activities through discussions with key members of the management team, by reviewing materials provided to the Board and by participating in meetings of the Board and its committees. Currently, the Board of Directors is composed of thirteen members.

The Board has determined that Messrs. Agan, Eggers, Lounsberry, Meier, Meyer, Potter, Streeter, Swan and Ms. Drinkwater are "independent" for purposes of Section 10A(3) of the Securities Exchange Act of 1934 and Nasdaq listing standards and that none of said persons have any relationship with the Corporation that would impair their independence as so defined.

During 2006 the Board of Directors of the Corporation held twelve scheduled meetings. The Board of Directors of the Bank also held twelve meetings in 2006. The Board also regularly holds executive sessions of only those members of the Board who meet current independence standards. With the exception of Dr. Meier, each director attended at least 75% of the total board meetings and meetings of the board committees on which he or she served.

### Board Committees

The committees of the Corporation's Board of Directors are the Executive, Audit, Compensation, and Nominating and Governance. In addition, the Bank has the following committees: Asset/Liability, Loan, Personnel, and Trust and Employee Benefits.

#### Executive Committee:

The Committee serves in a dual capacity as the Executive Committee for the Corporation and the Bank. The Executive Committee may, during the interval between Board meetings, exercise all of the authority of the Board, except those powers that are expressly reserved to the Board under law or the Corporation's bylaws. Current members of the Committee include Messrs. D. Dalrymple (Chair), Agan, R. Dalrymple, Meier, Swan, Updegraff and Ms. Drinkwater. There were three meetings of the Committee in 2006.

Audit Committee:

The responsibilities of the Audit Committee include the appointment of independent auditors, the pre-approval of all audit services and permitted non-audit services provided to the Corporation by the Corporation's independent auditors, reviews of the independence of the Corporation's independent auditors and reviews of the adequacy of internal accounting and disclosure controls of the Corporation. Current members of the Committee include Messrs. Streeter (Chair), R. Dalrymple, Lounsberry, Meyer, Potter and Swan. Mr. Meyer has been designated by the Board as the Audit Committee's "financial expert" in accordance with applicable law, the Committee having determined that Mr. Meyer meets all required qualifications within the meaning

8

---

of pertinent regulations. See the report of the Audit Committee on [page 19](#).

Compensation Committee:

The Compensation Committee is responsible for discharging the Board's duties relating to the compensation of the chief executive officer, executive vice presidents and chief auditor. The Committee met three times in 2006. The members of the Compensation Committee are all independent as defined by Rule 4200(a)(15) of the NASD listing standards. Current members of the Compensation Committee include Messrs. Meyer (Chair), Agan, Eggers, Lounsberry and Meier.

Nominating and Governance Committee:

The Nominating and Governance Committee met four times in 2006. Current members are Messrs. Eggers (Chair), Lounsberry, Meyer, Potter, Streeter and Ms. Drinkwater. The members of the Nominating and Governance Committee are all independent as defined by Rule 4200(a) (15) of the NASD listing standards. In general, the Committee oversees the Corporation's corporate governance matters on behalf of the Board and is responsible for the identification and recommendation of individuals qualified to become members of the Board. The Committee's functions include:

identifying, evaluating and recommending qualified Director nominees to the Board for shareholder approval;

the consideration of shareholder nominees for election to the Board;

reviewing the committee structure and making recommendations to the Board for committee membership;

recommending corporate governance guidelines to the Board; and

recommending to the Board a self-evaluation process.

The Committee utilizes the following process when identifying and evaluating the individuals that it recommends that the Board of Directors select as director nominees.

The Committee reviews the qualifications of any candidates who have been properly recommended or nominated by the shareholders, as well as those candidates who have been identified by management, individual members of the Board of Directors or, if the Committee determines, a search firm.

The Committee evaluates the performance and qualifications of individual members of the Board of Directors eligible for re-election at the annual meeting of shareholders.

The Committee considers the suitability of each candidate, including the current members of the Board of Directors, in light of the current size and composition of the Board of Directors. In evaluating the suitability of the candidates, the Committee considers many factors including issues of character, judgment, independence, age, expertise, diversity of experience, length of service, other

commitments and the like. The Committee evaluates such factors, among others, and considers each individual candidate in the context of the current perceived needs of the Board of Directors as a whole.

After such review and consideration, the Committee recommends that the Board of Directors select the slate of director nominees.

---

It is the policy of the Nominating and Governance Committee to consider both recommendations and nominations for candidates to the Board of Directors from shareholders. Shareholder recommendations for candidates to the Board of Directors must be directed in writing to the Corporate Secretary, One Chemung Canal Plaza, Elmira, New York 14901, and must include:

a statement that the writer is a shareholder and is proposing a candidate for consideration by the Nominating and Governance Committee;

the qualifications of the candidate and why the candidate is being proposed;

the name and address of the shareholder as they appear on the Corporation's books and number of shares of the Corporation's common stock that are beneficially owned by such shareholder (evidence of the shareholder's ownership will be required if the shareholder is

not a holder of record);

the name, address and contact information for the candidate, and the number of shares of common stock of the Corporation that are owned by the candidate (evidence of the candidate's ownership will be required if the shareholder is not a holder of record);

a statement of the candidate's principal occupation or employment;

such other information regarding the candidate as would be required to be included in the proxy statement pursuant to Regulation 14A under the Securities Exchange Act of 1934, as amended;

a statement detailing any relationship between the candidate and the Corporation and between the candidate and any customer, supplier or competitor;

detailed information about any relationship or understanding between the proposing shareholder and the candidate; and

a statement that the candidate is willing to be nominated and is willing to serve as a director if elected.

---

Chemung Financial Corporation's bylaws establish an advance notice procedure with regard to certain matters, including shareholder proposals and director nominations, which are properly brought before an annual meeting of shareholders. To be timely, a shareholder's notice must be delivered to or mailed and received at the Corporation's principal executive offices not less than 120 calendar days prior to the date proxy statements were mailed to shareholders in connection with the previous year's annual meeting of shareholders. In the event that no annual meeting was held in the previous year or the date of the annual meeting has been changed by more than thirty (30) days from the date contemplated at the time of the previous year's proxy statement, notice by the shareholder to be timely must be so received a reasonable time before the solicitation is made.

A copy of the Nominating and Governance Committee charter can be viewed at the Corporate Governance link on the Bank's website at [www.chemungcanal.com](http://www.chemungcanal.com).

Compensation of Non-Employee Directors

Each non-employee director of the Bank receives an annual retainer of \$5,500 and a fee of \$300 for each meeting of the Board of Directors and its committees attended. The chair of each committee receives \$350 for each committee meeting attended. One fee is paid for attendance at meetings that serve both the Corporation and the Bank. Employee directors receive no cash compensation for services as directors.

In December 2005, the Compensation Committee recommended and the Board of Directors approved additional compensation to each director payable in shares of the Corporation's common stock in an amount equal to the total amount of cash fees earned by each director during the year, valued as of December 31, and paid in January.

A Deferred Directors Fee Plan for non-employee directors provides that directors may elect to defer receipt of all or any part of their fees. Deferrals are either credited with interest compound-ed quarterly at the Applicable Federal Rate for short-term debt instruments or converted to units, which appreciate or depreciate, as would an actual share of the Corporation's common stock purchased on the deferral date. Cash deferrals will be paid into an interest bearing account and paid in cash. Units will be paid in shares of common stock.

The following table sets forth the total compensation paid to each non-employee director for services rendered in 2006.

Director	Fees Earned or Paid in Cash (\$)	Stock Awards Earned (\$)	Total
Robert E. Agan	\$22,400	\$22,400	\$44,800

David J. Dalrymple	\$22,300	\$22,300	\$44,600

### Communicating with the Board

Shareholders may communicate in writing with the Board of Directors or with individual directors by contacting the Corporation's Corporate Secretary, Jane H. Adamy, One Chemung

12

Canal Plaza, Elmira, New York 14901. The corporate secretary will relay the question or message to the specific director identified by the shareholder or, if no specific director is requested, to a director selected by the chief executive officer.

### Directors Attendance at Annual Meetings

The Corporation does not have a formal policy regarding attendance by a member of the Board of Directors at the Corporation's annual meeting of shareholders. The Corporation will continue to encourage such attendance. In 2006, twelve directors attended the annual meeting.

### Code of Ethics

The Board of Directors has adopted a Code of Ethics for Senior Financial Officers which applies to Chemung Financial's chief executive officer, the chief auditor and other senior officers performing accounting, auditing, financial management or similar functions. This Code of Ethics supplements a Code of Business Conduct and Ethics, which governs all employees, officers and directors. Both Codes can be viewed at the Corporate Governance link on the home page of the Bank's website at [www.chemungcanal.com](http://www.chemungcanal.com).

COMPENSATION DISCUSSION AND ANALYSIS

Compensation Philosophy

Chemung Financial Corporation's compensation philosophy is designed to attract, motivate and retain highly qualified financial services professionals capable of maximizing business performance for the benefit of shareholders. The Board Compensation Committee (the "Committee") believes in a simple, straightforward approach to executive compensation and therefore has limited the number and types of programs used, as discussed below in the Elements of Compensation subsection.

The Committee's goal is to provide a competitive level of total compensation targeted at the median level, compared to similar financial services companies, that is based upon size and the geographic areas where the Corporation does business. The Committee seeks to meet this goal through a combination of (1) base salary, (2) modest annual incentives, (3) limited long-term incentives, and (4) competitive benefits that reflect actual performance.

In fulfilling its responsibilities, the Committee reviews recommendations made by the Chief Executive Officer for base salary increases for executive vice presidents, for the metrics, goals and targets to be used in the annual incentive plan for a fiscal year, and for any proposed changes to the peer group against which performance will be measured. The Committee makes determinations on issues within the scope of its authority, and then submits recommendations to the full Board for approval. To assist in its efforts, the Committee engaged the services of Clark Consulting to provide market data on executive compensation from peer company proxies and relevant banking industry surveys.

Benchmarking

The Committee reviewed market data prepared by the compensation consultant on elements of total compensation developed from published banking industry compensation surveys and proxy statements for industry peer companies.

The peer group used for comparison purposes in 2006 generally included financial institutions with total assets from \$500 million to \$1.5 billion, with a focus on banks located in upstate New York and Pennsylvania. Chemung Financial, with over \$700 million in assets, is at approximately the 50<sup>th</sup> percentile of the group in asset size.

This data provides the Committee with a context within which to determine whether any base salary adjustments should be recommended, whether any revisions to the annual incentive plan's potential payout levels should be considered and whether its approach to long-term incentives remains appropriate.

Elements of Compensation

**Base Salary:** Base salary paid to executives is reviewed against market on an annual basis. Base salary levels reflect the Committee's perceived value of the position, both in the context of the market data for similar positions, as well as the individual fulfilling the duties of the position. The Committee also looks at base salary levels in comparison to total compensation.

For 2006, the Committee reviewed the relevant market data and considered individual performance of the named executive officers of the Corporation and the Bank, and determined that the base salaries should be adjusted as follows:

--	--	--	--	--

Name	Title	2005 Base Salary	2006 Base Salary	% of Change
Jan P. Updegraff	Chief Executive Officer	\$315,000	\$330,000	4.7%
Ronald M. Bentley	President & Chief Operating Officer	N/A	\$250,000	N/A
John R. Battersby, Jr.	Executive Vice President, Chief Financial Officer & Treasurer	\$114,500	\$121,500	6.1%
James E. Corey III	Executive Vice President	\$145,661	\$152,161	4.5%
Thomas C. Karski	Executive Vice President	\$106,500	\$111,500	4.7%
Melinda A. Sartori	Executive Vice President	\$114,500	\$121,500	6.1%

*Annual Compensation:*

The Board determined in recent years to establish an annual incentive plan in which all employees (with the exception of employees who have sales-based incentives), including the named executive officers, would participate at the same targeted percentage of base salary. For 2006 this target percentage was 2.5% of base salary. This was consistent with the compensation philosophy of simple and straightforward compensation programs. Also, the Board and the Committee determined that larger incentive payouts for executives were not appropriate until the Corporation's performance reached its stated goals.

For 2006 the incentive plan was designed to pay out the targeted amounts based on attaining a \$6,525,000 level of after-tax earnings, before the incentive payout, excluding one-time charges. Performance below the targeted level would result in no payouts. The target was reached in 2006

14

and the payments made in early 2007.

The Committee also reviewed other annual metrics recommended by senior management and approved by the Board early in the fiscal year as part of the Corporation's annual business plan and budget. These included both financial and non-financial goals. There was no other incentive compensation granted to named executive officers in 2006.

***Long-Term Stock Based Incentive Compensation:*** In accordance with its philosophy of keeping the executive compensation program simple and straightforward, there has not been a practice of providing stock-based compensation to executives. The Committee and the Board have also been concerned about significant compensation potentially derived from stock-based compensation that is inconsistent with company performance.

As part of Mr. Bentley's joining the Corporation in August, 2006 as President and Chief Operating Officer, he was granted 1,000 shares of stock in November 2006, valued at \$33,000, and will receive an additional 1,000 shares if employed on August 1, 2007. These shares are fully vested upon receipt. These grants were made principally to replace equity compensation forfeited at his prior employer.

Mr. Updegraff receives shares for his service as a board director. He does not receive cash compensation for serving on the board. For his 2006 board services he received 569 shares in January, 2007 with a value of \$18,732.

**Benefits:** The compensation philosophy includes providing an overall level of competitive benefits to the executive officers consistent with its primary target of median total compensation when compared to the peer group. One of the Corporation's principal employee benefit programs is a defined benefit pension plan, with benefits payable based on years of service and final average compensation. The Committee believes this program is appropriate (1) to encourage all employees to stay with the Corporation for many years, and (2) as a part of competitive, total executive compensation.

The Committee also regularly reviews other benefits and perquisites provided to named executive officers, and believes they are modest. Perquisites for the CEO and the President are disclosed as required in the Summary Compensation Table.

**Post-Termination Compensation:** The employment agreement with Mr. Updegraff has a term through March 31, 2008 and includes severance benefits payable through the term of the agreement upon involuntary termination. Employment agreements with similar provisions for other executive vice presidents expired December 31, 2006. These arrangements also had modest levels of salary continuation payouts upon death or disability.

The Corporation negotiated an arrangement providing severance (benefits of one year's salary upon severance as defined) and change in control payments for Mr. Bentley upon his joining the Corporation in 2006. If Mr. Bentley is terminated following a change in control, a range of different payments would be made, depending on the circumstances, which are more fully described

15

in the Narrative Disclosure section.

#### \$1 Million Pay Deductibility Limit

Section 162(m) of the Internal Revenue Code of 1986, as amended, prohibits publicly traded companies from taking a tax deduction for compensation in excess of \$1 million paid to the chief executive officer or any of its four other most highly compensated executive officers for any fiscal year. Certain "performance-based compensation" is excluded from this \$1 million cap. At this time, none of the executive officers' compensation is subject to the deductibility limits.

#### Conclusion

The Committee considers the decisions made during 2006 to be consistent with the compensation philosophy as it applies to the named executive officers whose compensation elements are the responsibilities of the Committee.

### COMPENSATION COMMITTEE REPORT

## Narrative Disclosure to Summary Compensation Table and Grants of Plan-Based Awards Table

Chemung Canal Trust Company, a subsidiary of the Corporation, entered into an employment agreement with Mr. Updegraff in November, 2000 that provided for an initial term that ended December 31, 2004. The term has been extended, most recently in November, 2006 until March 31, 2008. Under the extension, Mr. Updegraff's title until April 18, 2007 will be Vice Chairman and Chief Executive Officer and thereafter, until March 31, 2008, his title will be Vice Chairman.

Chemung Canal Trust Company entered into similar employment contracts with Mr. Battersby, Mr. Corey, Mr. Karski and Mrs. Sartori in November 2000. These were last extended in 2003 and expired, under the provisions of the contracts, December 31, 2006.

The Corporation employed Mr. Bentley effective August 1, 2006 as its President and Chief Operating Officer. The terms of Mr. Bentley's employment include the position of President & Chief Executive Officer pending Board approval on April 18, 2007 with an increase in base salary to \$310,000. Also included is the stock grant described in the Summary Compensation Table, a signing bonus of \$40,000 paid in February 2007 and an additional grant of 1000 shares of stock to be awarded in August 2007.

19

Chemung Canal Trust Company entered into a Severance Agreement and a Change of Control Agreement with Mr. Bentley upon the commencement of his employment. Under the Severance Agreement, if Mr. Bentley is terminated without cause or resigns for good reason as defined, the Bank shall pay to him his salary for one year and he will remain covered under the employee benefit programs generally provided to employees.

Under the Change of Control Agreement, if Mr. Bentley's employment is terminated (a) within twenty-four months following a change of control without cause or by him for good reason, or (b) by him for any reason within twelve months of the change of control, then the Bank shall provide payments and benefits as follows: (a) 2.99 times highest annual base salary and bonus paid for any of the two calendar years ending with the year of termination, (b) continuation of employee benefit plans for three years, and (c) cash payments equal to the value of the current year, plus two additional years of contributions to the Bank's retirement plans, (d) the value of full vesting in the retirement plans if he is not yet vested at termination, and (e) a tax gross-up payment if necessary.

Under the Change of Control Agreement, if Mr. Bentley terminates his employment after twelve months following a change of control, then the Bank shall provide payments and benefits as follows: (a) one times highest annual base salary and bonus paid for any of the two calendar years ending with the year of termination, (b) continuation of employee benefits programs for a one year period after date of termination, (c) cash payments equal to the value of the current year plus one additional year of contributions to the Bank's retirement plans.

Notwithstanding the payments and benefits described in the two paragraphs directly above, the total present value of payments and benefits paid to Mr. Bentley under the Change of Control Agreement will not exceed 2.99 times the Base Amount, defined under the Internal Revenue Code section that governs severance payments to executives following a change of control (generally, the Base Amount is the average of taxable compensation to an individual over a five year period), thereby eliminating any potential excise taxes for excess parachute payments under the Code.

## Pension Benefits

### Chemung Canal Trust Company Pension Plan:

Messrs. Updegraff, Bentley, Corey, Karski, Battersby and Mrs. Sartori are participants in the Chemung Canal Trust Company Pension Plan, a non-contributory defined benefit pension plan. This plan covers all employees who have reached their 21<sup>st</sup> birthday.

Under the plan, pension benefits are based upon final average annual compensation where annual compensation is total base earnings paid plus 401(k) salary deferrals. Bonuses, overtime, commissions and dividends are excluded. The normal retirement benefit equals 1.2% of final average compensation (highest consecutive five years of annual compensation in the prior 10 years) times years of service (up to a maximum of 25 years) plus 1% of average monthly compensation for each additional year of service (up to a maximum of 35 years). Compensation for purposes of determining benefits under the pension plan was limited to \$220,000 for 2006. Lower limits applied in earlier years. The compensation limit is increased annually by inflation. The 2007 compensation limit is \$225,000.

Normal retirement age under the plan is 65. Participants may commence their retirement benefit prior to age 65 if they have at least five years of service and have attained age 55. The retirement benefit payable before age 65 is reduced to recognize the greater number of years during which the participant will receive the retirement benefit. The reduction is 6 2/3% for each year between age 60 and 65 that the benefit commences prior to the age of 65. The reduction prior to age 60, if the benefit commences between age 55 and 60, is 5.33% per year.

A participant may elect a form of annuity payment other than a monthly benefit payable during the participant's lifetime. These optional forms of payment are equal in value.

The retirement income plan is a "qualified plan" under the code and therefore must be funded. Contributions are deposited to the plan and held in trust. The plan assets may only be used to pay retirement benefits and eligible plan expenses.

***Chemung Canal Trust Company Executive Supplemental Pension Plan:*** As described above, U.S. laws place limitations on compensation amounts that may be included under the pension plan. The executive supplemental pension plan is provided to executives in order to produce total retirement benefits, as a percentage of compensation, that is comparable to employees whose compensation is not restricted by the annual compensation limit. Pension amounts based upon the pension plan formula, which exceed the applicable limitations, will be paid under the executive supplemental pension plan.

The executive supplemental pension plan is a "non-qualified plan" under the code. Contributions to the plan are not held in trust; therefore, they may be subject to the claims of creditors in the event of bankruptcy or insolvency. When payments come due under the plan, cash is distributed from general assets.

---

***Executives Eligible for Early Retirement:*** As of December 31, 2006, all of the named executive officers, except for Mr. Bentley and Mrs. Sartori, have reached age 55 and have completed 5 years of service to be eligible for early

retirement.

The accumulated benefit is the benefit to which the executive would be entitled had they terminated employment on December 31, 2006 and elected to commence their benefit at the earliest age at which they would receive an unreduced benefit, payable as a monthly benefit for as long as the executive lived. The expected benefit payments are discounted using interest and mortality assumptions to produce the present value of the accumulated benefit as of December 31, 2006. The assumed interest rate is 6.00% and the mortality assumption is based upon the 1994 Group Annuity Mortality Table for men and women.

(2)

Mr. Karski retired December 31, 2006.

The following paragraphs summarize the estimated amounts to be paid or provided to each of the named executive officers under each contract, plan, agreement or arrangement in connection with termination of employment including resignation, retirement, disability, death, involuntary termination, or change in control.

As described in the Narrative Disclosure to the Summary Compensation Table, Mr. Updegraff is covered under an employment contract with a term that expires March 31, 2008. Upon involuntary termination without cause, Mr. Updegraff would receive his salary through the term, a total amount equal to \$412,500, and medical benefits with a value of \$17,269. Termination as a result of disability results in salary continuation (net of disability benefits under employee disability programs) for twelve months and executive supplemental disability benefits that continue until the earlier of recovery, death or June 30, 2011, with a present value equal to \$157,354 (based on a 6% interest rate). Termination as a result of death results in salary continuation for six months equal to \$165,000. In addition, upon termination, he would receive (a) his pension plan benefits accumulated through December 31, 2006 as presented in the Pension Benefits Table, and (b) retiree medical benefits until age 65 with a value of \$17,269.

As described in the Narrative Disclosure to the Summary Compensation Table, Mr. Bentley is covered under a Severance Agreement and a Change of Control Agreement. Under the Severance Agreement, if terminated involuntarily without cause, he would receive one year's salary equal to \$250,000 and employee benefits for one year with a value of \$8,463. Under the Change of Control Agreement, Mr. Bentley would receive a number of payments and benefits under different circumstances, as described in the Narrative. Under the scenarios where (a) within twenty-four months following a change of control there is a termination involuntarily without cause or by him for good reason, or (b) there is a termination by him for any reason within twelve months of the change of control, Mr. Bentley will receive a total of \$1,166,275 comprised of cash severance of \$747,500, a present value of employee and retirement plan benefits of \$103,076, and a tax gross-up payment of \$315,699. Under the scenario where he terminates voluntarily more than twelve months after a change of control, his payments would total \$290,553 comprised of cash severance of \$250,000 and a present value of employee and retirement plan benefits of \$40,553.

Under the Corporation's executive supplemental disability benefit program Mr. Bentley, if terminated due to disability, would receive benefits that would continue until the earlier of recovery, death or age 67 with a present value of \$257,635.

As described in the Narrative Disclosure to the Summary Compensation Table, Mr. Battersby, Mr. Corey, Mr. Karski and Mrs. Sartori were covered under employment contracts that expired December 31, 2006.

APPENDIX A

CHEMUNG FINANCIAL CORPORATION

AUDIT COMMITTEE CHARTER

(Approved by Audit Committee - May 3, 2006)

I. Purpose

The Audit Committee (the "Committee") is established by the Board of Directors to assist the Board in fulfilling its oversight responsibilities over Chemung Financial Corporation and its wholly owned subsidiaries (hereinafter collectively referred to as the "Corporation") in their accounting and financial reporting processes and the audits of the financial statements of the Corporation. The Committee's primary functions are to:

Monitor the integrity of the Corporation's financial statements, financial reporting process and systems of internal controls regarding financial reporting.

Monitor performance of the Corporation's Internal Audit Department and independent auditors, and oversee the Corporation's system of disclosure controls and internal controls.

Be directly responsible for the appointment, compensation, retention and oversight of the work of any registered public accounting firm engaged by the Corporation (including resolution of disagreements between management and the auditor regarding financial reporting) for the purposes of preparing or issuing an audit report or related work or performing other audit, review or attest services for the Corporation.

Review such other policies, procedures and activities of the Corporation as may be directed by the Board of Directors.

The independent auditors and persons performing the internal audit function are ultimately accountable to the Committee, in its capacity as a committee of the

Board of Directors, and to the full Board of Directors. While the Committee has the oversight responsibilities set forth in this Charter and the Corporation's Certificate of Incorporation, as amended (the "Certificate of Incorporation") and Bylaws (the "Bylaws"), it is not the responsibility of the Committee to plan or conduct audits, to implement internal controls, or to determine or certify that the Corporation's financial statements are complete and accurate or are in compliance with generally accepted accounting principles. These matters and tasks are the responsibility of the Corporation's management or the independent auditors. Likewise, it is the responsibility of the Corporation's management or the independent auditors to bring appropriate matters to the attention of the Committee, and to keep the Committee informed of matters which the Corporation's management or the independent auditors believe require attention, guidance, resolution or other actions. While it is not the duty of the Committee to conduct investigations or to assure compliance with applicable laws, rules and regulations, the Committee may take such actions with respect to such matters as it deems necessary or advisable in fulfilling its duties identified in this Charter.

28

---

To the fullest extent permissible under applicable law, each member of the Committee is entitled to rely in good faith upon the records of the Corporation and upon such information, opinions, reports or statements presented to the Committee by any of the Corporation's officers, employees, committees, the independent auditors, persons performing the internal audit function or any other person as to matters the member reasonably believes are within such other person's professional or expert competence.

II.

Committee Membership

The Board Nominating and Governance Committee will recommend Committee members and the Committee Chairperson for appointment by the Board of Directors. The Committee shall consist of at least three directors, each of whom shall be independent of management and the Corporation, and shall meet the independence requirements under applicable rules of the Securities and Exchange Commission ("SEC"), the Federal Deposit Insurance Corporation ("FDIC") and the Nasdaq Stock Market or any other national securities exchange on which the securities of the Corporation are then listed (the "Relevant Stock Market"). All Committee members shall meet the financial literacy requirements of the rules and regulations of the FDIC, the Relevant Stock Market and any other applicable rules and regulations within a reasonable period of time after such member's appointment. At least one member shall be qualified and designated as the "Audit Committee financial expert," within the meaning of Section 407 of the Sarbanes-Oxley Act of 2002 and the rules of the SEC there under.

### III. Meetings

The Committee shall meet at least four times annually, or more frequently as circumstances dictate. As part of each meeting, the Committee shall meet privately (without management present) with the independent auditors and the Chief Auditor of the Internal Audit Department, and shall also meet periodically in executive session. The Committee may ask members of management or others to attend meetings and provide pertinent information, as necessary. Meeting agendas will be prepared and provided in advance to members, along with appropriate briefing materials. The Committee may delegate authority to the Committee Chairperson or subcommittees, including the authority to pre-approve all auditing and permitted non-audit services, provided that such decisions are presented for approval to the full Committee at its next scheduled meeting.

### IV. Responsibilities and Duties

In carrying out its oversight purposes, the Committee shall have the following duties, responsibilities and authority

#### Financial Statements

The Committee shall:

Review significant accounting and reporting issues and their impact on the financial statements.  
These issues include:

- Complex or unusual transactions and highly judgmental areas

- 
- Major issues regarding accounting principles and financial statement presentations, including any significant changes in the Corporation's selection or application of accounting principles
  - The effect of regulatory and accounting initiatives, as well as off-balance sheet structures, on the financial statements of the Corporation

Review analyses prepared by management and/or the independent auditors setting forth significant financial reporting issues and judgments made in connection with the preparation of the financial statements, as well as reports from the independent auditors regarding critical accounting policies and practices used by the Corporation, any significant alternative treatments of financial information within generally accepted accounting principles (GAAP) that have been discussed with management of the Corporation, and the treatment preferred by the independent auditors, and other material written communications between the independent auditors and management, including the attestation on management's internal control report, any management letter and schedule of unadjusted audit differences.

Review with management and the independent auditors the results of the annual audit and any other required communications from the independent auditors, including any difficulties encountered. This review will include any restrictions on the scope of the independent auditors' activities or on access to requested information, and any significant disagreements with management.

Review the Corporation's annual audited financial statements and quarterly financial statements with management and the independent auditors, including the Corporation's disclosures under "Management's Discussion and Analysis of Financial Condition and Results of Operations," prior to filing or distribution. Based on such reviews and discussions, the Committee shall advise the Board whether it recommends that the audited financial statements be included in the Corporation's SEC Form 10-K to be filed with the SEC.

Review required written certifications made by the CEO and CFO during the Forms 10-K and 10-Q certification process that they have disclosed to the Committee all significant deficiencies in the design or operation of internal controls or any fraud, whether or not material, that involves management or other employees who have a significant role in the Corporation's internal controls and assure that the Corporation maintains a system of disclosure controls and procedures that is capable of producing timely, accurate and reliable disclosure, which the CEO and CFO must evaluate and certify.

At least quarterly, discuss with management and the independent auditors earnings press releases, as well as the nature of financial information and earnings guidance provided to analysts and rating

agencies. The Committee may delegate this responsibility to one or more members of the Committee.

#### Internal Control

The Committee shall:

In consultation with management, the independent auditors and the Chief Auditor, consider the adequacy and effectiveness of the Corporation's financial reporting process and controls, including information technology security and control, and if applicable, compliance with legal requirements.

30

---

Understand the scope of Internal Audit and independent auditors' review of internal control over financial reporting. Review significant findings, conclusions and recommendations prepared by the independent auditors and the internal auditing department together with management's responses.

#### Independent Auditors

The Committee shall:

Be directly responsible, and have the sole authority, for the appointment of the independent auditors to be retained by the Corporation, approve the compensation of the independent auditors, be directly responsible for oversight of the work of the independent auditors for the purpose of preparing or issuing an audit report, or related work, and have the sole authority for the discharge or replacement of the independent auditors. The Committee will approve, in advance, the provision by the independent auditors of all services whether or not related to the audit. The Committee may also establish pre-approval policies and procedures with respect to the approval of audit or non-audit services consistent with applicable laws, rules and regulations and the requirements of the Relevant Stock Market. In that connection, the Committee may delegate to a Committee member the authority to pre-approve certain auditing services and non-audit services, subject to ratification at the next regularly scheduled meeting of the Committee. The pre-approval policy and procedures shall be described in the Corporation's annual meeting proxy statement. The Corporation shall provide for appropriate funding, as determined by the Committee, for payment of (a) compensation to the independent auditor engaged for the purpose of preparing or issuing an audit report or performing

other audit, review or attest services for the Corporation, (b) compensation to any advisers employed by the Committee, and (c) ordinary administrative expenses of the Committee that are necessary or appropriate in carrying out the Committee's duties.

The independent auditors are ultimately accountable to the Audit Committee and the Board of Directors, and shall report directly to the Committee. On an annual basis, the Committee shall review and discuss with the independent auditors their formal written statement describing all relationships between the Corporation and auditors, and attesting to the auditor's independence and other matters as required by applicable law.

Review the information required by Statement on Auditing Standards (SAS) 61 on an annual basis with the independent auditors. Request that the independent auditors review, in accordance with SAS 100, the SEC Form 10-Q, prior to its filing, update any material changes in SAS 61 information, and communicate such updates to SAS 61 to the Committee, on a quarterly basis.

At least annually, obtain and review reports from the independent auditors describing: (i) the independent auditors' internal control procedures; (ii) any material issues concerning the independent auditors' internal control matters raised in the most recent independent internal quality-control review, or peer review report; and (iii) material issues concerning audits conducted by the independent auditors within the past five (5) years raised by a governmental or professional authority, and the firm's actions to address all of the foregoing matters.

Annually prepare a report to shareholders as required by the Securities and Exchange Commission. This report shall describe the Committee's composition, responsibilities and how they were discharged, and any other information required by rule, including approval of non-audit services. The report shall be included in the Corporation's annual proxy statement.

Other Audit Committee Responsibilities

The Committee shall:

Meet at least annually with the Loan Review Officer, in order to receive this department's report of loans reviewed, the evaluation of the adequacy of the Corporation's allowance for loan losses, its listing of classified loans, and the analysis of impaired loans and their reserve allocation.
