REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Pension and Profit Sharing Committee
Chemung Canal Trust Company
Profit Sharing, Savings and Investment Plan

We have audited the accompanying statements of net assets available for benefits of the Chemung Canal Trust Company Profit Sharing, Savings and Investment Plan (“the Plan”) as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal controls over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan’s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2013 and 2012, and the changes in net assets available for benefits for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental Schedule of Assets Held for Investment Purposes At End of Year – December 31, 2013 is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor’s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan’s management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic 2013 financial statements, and in our opinion, is fairly stated in all material respects in relation to the basic 2013 financial statements taken as a whole.

CHEMUNG CANAL TRUST COMPANY
PROFIT SHARING, SAVINGS AND INVESTMENT PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2013 AND 2012

NOTE A: DESCRIPTION OF PLAN

The following description of the Chemung Canal Trust Company Profit Sharing, Savings and Investment Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan which was restated in 1985 to incorporate 401(k) savings and investment provisions. Under the restated plan, investment accounts attributable to employer contributions made for plan years ended before January 1, 1985 were maintained. Withdrawal privileges continue on these assets with certain limitations on frequency and amount. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

Participants are immediately eligible to make voluntary contributions. Participants hired before July 1, 2010 are eligible for the employer discretionary matching contribution after attainment of age 21 and completion of one year of service. Participants hired before July 1, 2010 are eligible for the employer discretionary contribution after attainment of age 21. Employees hired on or after July 1, 2010 are eligible for the employer non-discretionary contribution after attainment of age 21.

Vesting

Participants are immediately vested in their voluntary contributions, employer matching contributions and employer discretionary contributions. A five-year graded vesting schedule (20% per year of service) is applied to the employer non-discretionary contribution.

Contributions

Participants may contribute up to 70% of their current compensation, as defined, for investment in one or all of the available investment alternatives. Contributions are subject to certain Internal Revenue Service limitations in each year.

The Plan sponsor may match a percentage of the voluntary contributions made by an eligible participant. Traditionally, this discretionary match has been 50% up to the eligible participant's first 6% of the participant's compensation, as defined. Prior to January 1, 2001, these matching contributions were invested in Chemung Financial Corporation common stock, except for participants age 50 or greater, for which these matching contributions were participant-directed. Subsequent to January 1, 2001, these matching contributions are completely participant-directed. Subsequent to January 1, 2004, employer matching contributions are discretionary and contributed annually as directed by the Board of Directors. A participant must complete a year of service and be employed on December 31 to receive the matching contribution.

Additionally, the Plan sponsor may contribute amounts annually at the discretion of the Board of Directors. Prior to July 1, 2002, these discretionary contributions were invested in Chemung Financial Corporation common stock,

except for participants age 50 or greater, for which these contributions were participant-directed. Subsequent to July 1, 2002, these contributions are completely participant-directed. The Plan sponsor has the right to discontinue such discretionary contributions at any time.

- 7 -

CHEMUNG CANAL TRUST COMPANY
PROFIT SHARING, SAVINGS AND INVESTMENT PLAN

NOTES TO FINANCIAL STATEMENTS, Cont'd

DECEMBER 31, 2013 AND 2012

NOTE A: DESCRIPTION OF PLAN, Cont'd

Participants hired after July 1, 2010, will receive a 4% non-discretionary contribution of eligible compensation if they are employed on December 31 and have completed a year of service.

Payment of benefits

Upon termination of service, the participant's account is either maintained in the Plan, transferred to an individual retirement account in the participant's name, directly rolled over into a qualified retirement plan or paid to the participant in a lump sum.

NOTE B: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment valuation and income recognition

The Trustee holds the Plan's investments and executes transactions therein. The investments of the Plan are reported at fair value. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price).

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Chemung Financial Corporation common stock

Chemung Financial Corporation's common stock is inactively traded on the Over-The-Counter market. A trust investment committee values the common stock based on a review of trading activity for the most recent month.

Common trust funds

Common trust funds represent investments with designated investment managers within the trust division. Units held in common trusts are valued at the unit value as reported by the investment managers. While the underlying assets are actively traded, the funds are not.

Mutual funds

Mutual funds represent investments with various investment managers. The fair value of these investments are determined by reference to the fund's underlying assets, which are principally marketable equity and fixed income securities. Shares held in mutual funds traded on national securities exchanges are valued at the net asset value.

Cash and short-term investments

Cash and short-term investments include cash and short-term interest-bearing investments with initial maturities of three months or less. Such amounts are recorded at cost, plus accrued interest, which approximates their fair value.

CHEMUNG CANAL TRUST COMPANY
PROFIT SHARING, SAVINGS AND INVESTMENT PLAN

NOTES TO FINANCIAL STATEMENTS, Cont'd

DECEMBER 31, 2013 AND 2012

NOTE B: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Cont'd

Money market funds

Money market mutual funds are valued using the amortized cost or penny rounding method as permitted by Rule 2a-7 under the Investment Company Act of 1940, which approximates their fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Purchases and sales of securities are recorded on a trade date basis. The net appreciation (depreciation) in fair value of investments consists of realized gains or losses and the unrealized appreciation or depreciation on those investments. Dividend income is recorded on the ex-dividend date and interest income is recorded as earned on the accrual basis.

Administrative expenses

The Plan sponsor has elected to pay all administrative expenses of the Plan.

Use of estimates in the preparation of financial statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates and assumptions.

Payment of benefits

Benefits are recorded when paid.

Subsequent events

The Plan has evaluated subsequent events and determined that no significant subsequent events have occurred requiring adjustments to the financial statements or disclosures.

CHEMUNG CANAL TRUST COMPANY
PROFIT SHARING, SAVINGS AND INVESTMENT PLAN

NOTES TO FINANCIAL STATEMENTS, Cont'd

DECEMBER 31, 2013 AND 2012

NOTE C: FAIR VALUE MEASUREMENTS

Accounting principles generally accepted in the United States of America establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 Measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used, as outlined in Note B, need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following disclosures are required by FASB ASC 820-10-55 and FASB ASU 2009-12, "Investment in Certain Entities That Calculate Net Asset Value Per Share":

The fair values of these funds have been estimated using the net asset value per share of the underlying investments. There are no unfunded commitments for the common trust funds as of December 31, 2013 and 2012. There is no waiting period or other restrictions on redemptions from the common trust funds. The following are descriptions of the common trust funds:

Short-Term Bond Fund

This fund invests primarily in fixed income securities of the U.S. Government, U.S. Government Agencies, and high quality corporate debt obligations. The fund's target duration is two years with bond maturity ranges between one and five years.

CHEMUNG CANAL TRUST COMPANY
PROFIT SHARING, SAVINGS AND INVESTMENT PLAN

NOTES TO FINANCIAL STATEMENTS, Cont'd

DECEMBER 31, 2013 AND 2012

NOTE C: FAIR VALUE MEASUREMENTS, Cont'd

Core Bond Fund

This fund invests primarily in fixed income securities of the U.S. Government, U.S. Government Agencies, and high quality corporate debt obligations. The fund's target duration is five years with bond maturity ranges between two and fifteen years. Management of the fund seeks income and preservation of principal.

Core Growth Fund

This fund invests primarily in large-cap domestic companies. These companies are selected based on leadership positions in their respective industries and because they have shown the ability to grow both revenue and earnings over an extended period. The fund will be fully invested in equities in most market conditions. Management of the fund seeks primarily growth of principal. Income is not a consideration in selecting investments for this fund.

Growth and Income Fund

This fund invests in stocks and bonds. All stocks pay a dividend. The fund is intended to do well in bear markets and to grow principal modestly in bull markets. The stock and bond mix will change on the macro-economic conditions. Management of the fund seeks a dual objective of growth of principal and income.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value, as of December 31, 2013 and 2012:

	Level 1	Level 2	Level 3	Total

	\$ 5,337,302	\$ 29,146,675	\$ 3,325,315	\$ 24,656,724

NOTE E: TAX STATUS

The Internal Revenue Service has determined and informed the Bank by a letter dated March 4, 2002, that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's legal counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by tax jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to December 31, 2010.

- 13 -

CHEMUNG CANAL TRUST COMPANY
PROFIT SHARING, SAVINGS AND INVESTMENT PLAN

NOTES TO FINANCIAL STATEMENTS, Cont'd

DECEMBER 31, 2013 AND 2012

NOTE F: PLAN TERMINATION

Although it has not expressed any intent to do so, the Plan sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants have a fully vested interest in their accounts and their accounts will be paid to them as provided by the plan document.

NOTE G: TRANSACTIONS WITH PARTIES-IN-INTEREST

Chemung Canal Trust Company (the Bank), a wholly owned subsidiary of Chemung Financial Corporation, is the Plan sponsor and acts as trustee for the Plan's assets. In addition, the Plan invests in common trust funds managed by the Bank (representing approximately 16% and 19% of net assets at December 31, 2013 and 2012, respectively), and Chemung Financial Corporation common stock (representing approximately 20% and 22% of net assets at December 31, 2013 and 2012, respectively).

NOTE H: RISKS AND UNCERTAINTIES

The Plan invests in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying statements of net assets available for benefits.
