Weak investor sentiment and volatility in the debt and equity markets throughout the first quarter of 2016 severely affected operating results for the period. While the S&P 500 increased a modest 0.8% during the period, this did not reflect the extremely challenging first half of the quarter (down more than 10%) followed by a significant recovery in the second half of the period. Concerns around global growth, uncertainty over China's economy, the potential withdrawal of the United Kingdom from the European Union (also known as "Brexit") as well as continued weakness in commodity prices resulted in significantly lower transaction activity across both the retail and equity underwriting businesses. Sentiment, at the end of the quarter, appeared to improve as commodity prices stabilized and central banks affirmed their commitment to stimulating growth and inflation. In addition, while U.S. economic data began to show improvement, volumes remained muted across markets. Markets interpreted the foregoing signs to mean little Federal Reserve action to increase rates in 2016, resulting in the 10-year U.S. Treasury which began the year yielding 2.27% ending the quarter at 1.78% amid rallying equity prices.

Albert G. Lowenthal, Chairman and CEO, commented, "Operating results for the period were quite disappointing amid an extremely challenging environment of low investor participation, muted equity capital markets activity, and market

volatility. Our ongoing migration to fee-based programs in our Private Client and Asset Management business segments continues to provide increased stability to our revenues despite the fact that these revenues are impacted by the overall

1

level of equity valuations. The Company has made progress on a number of key initiatives including new technology to streamline our operations as well as to provide the requisite information to better monitor and oversee our business. Renewed efforts around the addition of professional staff are being aided by the exit of competitors from certain markets and services that include key elements of the capabilities that we offer to retail and institutional clients.”

Financial Highlights

Commission revenue was \$103.8 million for the first quarter of 2016, a decrease of 5.3% compared with \$109.7 million for the first quarter of 2015, due to reduced transaction volumes from retail investors during the first quarter of 2016.

Advisory fees were \$66.0 million for the first quarter of 2016, a decrease of 7.0% compared with \$71.0 million for the first quarter of 2015, due to lower advisory fees on traditional managed products.

Investment banking revenue decreased 54.6% to \$12.4 million for the first quarter of 2016 compared with \$27.3 million for the first quarter of 2015 due to extremely low activity from equity underwriting during the first quarter of 2016.

Principal transactions revenue decreased 91.7% to \$1.5 million during the first quarter of 2016 compared with \$18.6 million for the first quarter of 2015 due primarily to lower number of new interest rate lock commitments in the commercial mortgage banking business during the first quarter of 2016.

Income before income tax provision was \$16.3 million for the first quarter of 2016, a decrease of 2.6% compared with the first quarter of 2015, due to lower levels of activity, as noted above, partially offset by decreases in production and deferred compensation costs as well as legal and regulatory costs allocated to Private Client during the first quarter of 2016.

Client assets under administration were \$78.7 billion at both March 31, 2016 and December 31, 2015.

Financial adviser headcount was 1,223 at the end of the first quarter of 2016 (1,233 at the end of the fourth quarter of 2015), down from 1,301 at the end of the first quarter of 2015.

Fees earned on client cash deposits in the FDIC-insured bank program was \$7.5 million during the first quarter of 2016 versus \$2.1 million for the first quarter of 2015. Much of the increase was due to the discontinued offering of retail money market funds to clients and the transfer of these balances into the FDIC-insured bank deposit program during the first quarter of 2015. Money market fee waivers totaled \$5.5 million during the first quarter of 2015.

Asset Management

Asset Management reported revenue of \$23.0 million for the first quarter of 2016, 6.1% lower than the first quarter of 2015. Income before income tax provision was \$6.8 million for the first quarter of 2016, a decrease of 14.2% compared with the first quarter of 2015.

Advisory fee revenue on traditional and alternative managed products was \$21.3 million for the first quarter of 2016, a decrease of 7.5% over the first quarter of 2015. Advisory fees are calculated based on the value of client assets under management ("AUM") at the end of the prior quarter which totaled \$24.1 billion at December 31, 2015 (\$25.9 billion at December 31, 2014) and are allocated to the Private Client and Asset Management business segments.

AUM decreased 10.9% to \$23.7 billion at March 31, 2016 compared to \$26.6 billion at March 31, 2015, which is the basis for advisory fee billings for the second quarter of 2016. The decrease in AUM was comprised of asset depreciation of \$1.3 billion and net redemption of assets of \$1.6 billion.

Capital Markets

Capital Markets reported revenue of \$61.1 million for the first quarter of 2016, 15.4% lower than the first quarter of 2015, primarily due to lower trading income and equities underwriting fees. Institutional equities commissions increased 2.9% to \$29.5 million for the first quarter of 2016 compared with the first quarter of 2015.

Advisory fees from investment banking activities decreased 14.7% to \$5.0 million in the first quarter of 2016 compared with the prior year quarter due to a decrease in completed mergers and acquisitions activity during the first quarter of 2016.

Equity underwriting fees decreased 79.1% to \$2.8 million for the first quarter of 2016 compared with the prior year quarter due to a significant decrease in equity underwriting activity during the first quarter of 2016.

Revenue from Taxable Fixed Income decreased 4.4% to \$18.1 million for the first quarter of 2016 compared with the first quarter of 2015.

Public Finance and Municipal Trading revenue increased 6.3% to \$5.1 million for the first quarter of 2016 compared with the first quarter of 2015.

Commercial Mortgage Banking

Commercial Mortgage Banking reported revenue of \$3.7 million for the first quarter of 2016, 55.4% lower than the first quarter of 2015, primarily due to decreases in loan modifications of commercial mortgages during the first quarter of 2016. Loss before income tax benefit was \$657,000 for the first quarter of 2016, compared with income before income tax provision of \$4.0 million for the first quarter of 2015.

Premium income earned from loan modifications was \$1.5 million in the first quarter of 2016 compared with \$3.5 million in the first quarter of 2015 as the Company modified 3 commercial loans (8 in the first quarter of 2015) with an aggregate principal loan balance of \$18.3 million (\$92.1 million in the first quarter of 2015).

Loan origination fees for the first quarter of 2016 were \$1.2 million, an increase of 199.3% compared with the first quarter of 2015, as the Company originated 10 commercial loans (2 in the first quarter of 2015) with an aggregate principal loan balance of \$110.9 million (\$8.7 million in the first quarter of 2015).

On March 22, 2016, the Company issued a Current Report on Form 8-K reporting that its Board of Directors has authorized management to evaluate the potential disposition of one or more of the corporate assets of its commercial mortgage banking business segment.

Compensation and Related Expenses

Compensation and related expenses (including salaries, production and incentive compensation, share-based compensation, deferred compensation, and other benefit-related items) totaled \$151.4 million during the first quarter of 2016, a decrease of 7.2% compared to the first quarter of 2015. The decrease was due to lower production, incentive and deferred compensation expenses during the first quarter of 2016. Compensation and related expenses as a percentage of revenue was 69.2% during the first quarter of 2016 compared to 66.4% during the first quarter of 2015.

Non-Compensation Expenses

Non-compensation expenses were \$75.3 million during the first quarter of 2016, an increase of 3.7% compared to \$72.6 million during the same period in 2015, due to higher legal, regulatory and consulting costs during the first quarter of 2016.

Provision for Income Taxes

The effective income tax rate for the first quarter of 2016 was 51.1% (benefit) compared with 37.9% (expense) for the first quarter of 2015. The elevated income tax benefit during the first quarter of 2016 was primarily due to higher nontaxable benefits received during the first quarter of 2016 with respect to life insurance on certain employees of which the Company is the beneficiary.

Balance Sheet and Liquidity

At March 31, 2016, total equity was \$516.3 million compared with \$525.1 million at December 31, 2015.

The Company's level 3 assets, primarily auction rate securities, were \$100.0 million at March 31, 2016 (compared with \$96.2 million at December 31, 2015). The increase in level 3 assets was primarily due to increases in interest rate lock commitments.

During the first quarter of 2016, the Company purchased and canceled 240,274 shares of Class A Stock for a total consideration of \$3.6 million.

Dividend Announcement

The Company today announced a quarterly dividend in the amount of \$0.11 per share payable on May 27, 2016 to holders of Class A non-voting and Class B voting common stock of record on May 13, 2016.
