November 07, 2013

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF
THE SECURITIES EXCHANGE ACT OF 1934

For Quarter Ended: September 30, 2013

Commission File Number: 001-16609

ALLIANCE HEALTHCARE SERVICES, INC.
(Exact name of registrant as specified in its charter)

DELAWARE
(State or other jurisdiction of
incorporation or organization)
100 Bayview Circle
Suite 400
Newport Beach, California 92660
(Address of principal executive office)
(949) 242-5300
(Registrant's telephone number, including area code)

33-0239910
(IRS Employer
Identification Number)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of November 4, 2013:
Common Stock, \$.01 par value, 10,638,644 shares

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

September 30, 2013

(Unaudited)

(Dollars in thousands, except per share amounts)

1. Basis of Presentation, Principles of Consolidation, and Use of Estimates

Basis of Presentation The accompanying unaudited condensed consolidated financial statements have been prepared by Alliance HealthCare Services, Inc. (the “Company”) in accordance with accounting principles generally accepted in the United States of America and with the instructions to Form 10-Q and Article 10 of Regulation S-X of the Securities and Exchange Commission. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles (“GAAP”) for complete financial statements. In the opinion of management, all adjustments (including normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the quarter and nine months ended September 30, 2013 are not necessarily indicative of the results that may be expected for the year ending December 31, 2013. The accompanying unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes to the consolidated financial statements for the year ended December 31, 2012.

Principles of Consolidation The accompanying unaudited condensed consolidated financial statements of the Company include the assets, liabilities, revenues and expenses of all majority-owned subsidiaries over which the Company exercises control. Intercompany transactions have been eliminated. The Company records noncontrolling interest related to its consolidated subsidiaries which are not wholly owned. Investments in non-consolidated investees are accounted for under the equity method.

Use of Estimates The preparation of condensed consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the condensed consolidated financial statements and accompanying notes. Actual results could differ from those estimates.

Reverse Stock Split On December 26, 2012, the company executed a 1-for-5 reverse stock split. All share and purchase information for all periods presented herein gives effect to the reverse stock split.

2. Transactions

Restructuring Plan

On August 4, 2011, the Company’s board of directors approved a restructuring plan that included a significant organizational restructure and a cost savings and efficiency initiative. The Company initiated this restructuring plan in the third quarter of 2011. During the nine months ended September 30, 2013, the Company recorded \$5,172 related to restructuring charges, of which the Company recorded \$3,549 in Selling, general and administrative expenses; \$1,306 in Severance and related costs; and \$317 in Cost of revenues, excluding depreciation and amortization.

Amendment No. 2 to Prior Credit Facility

In October 2012, the Company and its lenders entered into Amendment No. 2 to its existing credit facility that further modified the existing financial covenants. In connection with the execution of Amendment No. 2, the Company raised \$30,000 from the sale of certain imaging assets, which the Company then leased from purchasers under competitive terms. The \$30,000 in proceeds from the sale and lease transactions, was combined with \$44,500 of cash on hand to make a total payment of \$74,500 to permanently reduce borrowings outstanding under the term loan facility. The Company estimates it will incur \$8,000 of annual rent payments in connection with the sale and lease transactions, which will reduce future Consolidated Adjusted EBITDA.

Senior Secured Term Loan Refinancing

On June 3, 2013, the Company replaced its existing credit facility with a new senior secured credit agreement with Credit Suisse AG, Cayman Islands Branch, as administrative agent, and the other lenders party thereto (the “Credit Agreement”). The Credit Agreement consists of (i) a \$340,000, six-year term loan facility, (ii) a \$50,000, five-year

revolving loan facility, including a \$20,000 sublimit for letters of credit, (iii) uncommitted incremental loan facilities of \$100,000 of revolving or term loans, plus an additional amount if our pro forma leverage ratio is less than or equal to 3.25, subject to receipt of lender commitments and satisfaction of specified conditions, and (iv) an \$80,000 delayed draw term loan facility, which was required

7

(Unaudited)

(Dollars in thousands, except per share amounts)

to be drawn within thirty days of June 3, 2013 and used for the redemption of the Company's \$190,000 of 8% Senior Notes due 2016 (the "Notes").

On July 3, 2013 the delayed draw term loan facility was utilized, of which the proceeds were used to redeem \$80,000 of the Company's outstanding Notes. The delayed draw term loan facility converted into, and matched the terms of, the new \$340,000 term loan facility. If any of the Notes remain outstanding on September 1, 2016, then the maturity date of all loans under the Credit Agreement will be September 1, 2016.

Borrowings under the Credit Agreement bear interest through maturity at a variable rate based upon, at the Company's option, either the London interbank offered rate ("LIBOR") or the base rate (which is the highest of the administrative agent's prime rate, one-half of 1.00% in excess of the overnight federal funds rate, and 1.00% in excess of the one-month LIBOR rate), plus, in each case, an applicable margin. With respect to the term loan facilities, the applicable margin for LIBOR loans is 3.25% per annum, and with respect to the revolving loan facilities, the applicable margin for LIBOR loans ranges, based on the applicable leverage ratio, from 3.00% to 3.25% per annum, in each case, with a LIBOR floor of 1.00%. The applicable margin for base rate loans under the term loan facilities is 2.25% per annum and under the revolving loan facility ranges, based on the applicable leverage ratio, from 2.00% to 2.25% per annum. Prior to the refinancing of the term loan facilities, the applicable margin for base rate loans was 4.25% per annum and the applicable margin for revolving loans was 5.25% per annum, with a LIBOR floor of 2.00%. The Company is required to pay a commitment fee which ranges, based on the applicable leverage ratio, from 0.375% to 0.50% per annum on the undrawn portion available under the revolving loan facility and variable per annum fees with respect to outstanding letters of credit.

During the first five and three-quarter years after the closing date, and including the full amount of the delayed draw term loan facility, the Company will be required to make quarterly amortization payments of the term loans in the amount of \$1,050. The Company is also required to make mandatory prepayments of term loans under the Credit Agreement, subject to specified exceptions, from excess cash flow (as defined in the Credit Agreement), and with the proceeds of asset sales, debt issuances and specified other events.

Obligations under the Credit Agreement are guaranteed by substantially all the Company's direct and indirect domestic subsidiaries. The obligations under the Credit Agreement and the guarantees are secured by a lien on substantially all tangible and intangible property, and by a pledge of all of the shares of stock and limited liability company interests of the Company's direct and indirect domestic subsidiaries, of which the Company now owns or later acquires more than a 50% interest, subject to limited exceptions.

In addition to other covenants, the Credit Agreement places limits on the ability of the Company and its subsidiaries to declare dividends or redeem or repurchase capital stock, prepay, redeem or purchase debt, incur liens and engage in sale-leaseback transactions, make loans and investments, incur additional indebtedness, amend or otherwise alter debt and other material agreements, engage in mergers, acquisitions and asset sales, transact with affiliates and alter the business conducted by the Company and its subsidiaries.

The Credit Agreement also contains a leverage ratio covenant requiring the Company to maintain a maximum ratio of consolidated total debt to consolidated adjusted EBITDA expense that ranges from 4.95 to 1.00 to 4.30 to 1.00. For the quarter ended September 30, 2013, the Credit Agreement requires a maximum leverage ratio of not more than 4.95 to 1.00. The Credit Agreement eliminated the interest coverage ratio covenant which the Company was subject to maintain prior to the refinancing. Failure to comply with the covenants in the Credit Agreement could permit the lenders under the Credit Agreement to declare all amounts borrowed under the Credit Agreement, together with accrued interest and fees, to be immediately due and payable, and to terminate all commitments under the Credit Agreement.

As a result of the transaction, the Company recognized a loss on extinguishment totaling \$17,069 resulting from the write-off of unamortized deferred financing costs and the discount related to the former credit facility. As of September 30, 2013, there was \$416,957 outstanding under the new term loan facility and no borrowings under the new revolving credit facility. As of September 30, 2013, the Company's ratio of consolidated total debt to Consolidated Adjusted EBITDA calculated pursuant to the Credit Agreement was 3.70 to 1.00.

8% Senior Notes Repurchase

On July 3, 2013, as a result of the Company's \$80,000 redemption in principal amount of its Notes and pursuant to the terms of the indenture governing the Notes, the Company immediately incurred \$1,522 of expense related to unamortized deferred costs and associated discount, as well as \$3,200 for the related call premium.

Table of Contents

ALLIANCE HEALTHCARE SERVICES, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

September 30, 2013

(Unaudited)

(Dollars in thousands, except per share amounts)

In September 2013, the Company repurchased \$8,772 in principal amount of its Notes in privately negotiated transactions. The Company immediately incurred \$160 of expense related to unamortized deferred costs and associated discount, as well as \$251 for the related call premium.

Incremental Term Loan

Subsequent to September 30, 2013, the Company obtained commitments from lenders with respect to a \$70,000 incremental term loan under its Credit Agreement. The Company intends to use the net proceeds from the borrowings under the incremental term loan facility, together with proceeds from borrowings under its revolving credit facility and cash on hand, to redeem all of its outstanding Notes on December 4, 2013.

The \$70,000 incremental term loan will be funded at 99.0% of principal amount and will mature on the same date as the existing term loan in June 2019. The incremental term loan will be converted to match all the terms of existing term loans upon funding in December. Interest on the incremental term loan will be calculated, at the Company's option, at a base rate plus a 2.25% margin or LIBOR plus a 3.25% margin, subject to a 1.00% LIBOR floor. After completing the transaction including redemption of the Notes, the Company expects to save approximately \$5,000 in cash interest on an annualized basis. Closing of the incremental term loan under the Credit Agreement is subject to completion of satisfactory documentation and satisfaction of other closing conditions.

The Company expects to use revolver proceeds plus cash on hand to pay fees and expenses related to the incremental term loan and to pay the call premium related to the redemption of the Notes. The redemption will be effected on December 4, 2013 pursuant to the terms of the indenture governing the Notes.

The obligations under the incremental term loans will be guaranteed by substantially all of the Company's direct and indirect domestic subsidiaries. The obligations under the incremental term loan and the guarantees are secured by a lien on substantially all of the Company's tangible and intangible property, and by a pledge of all of the shares of stock and limited liability company interests of the Company's direct and indirect domestic subsidiaries, of which the Company now owns or later acquires more than a 50% interest, subject to limited exceptions.

Under the terms of the Credit Agreement, the incurrence by the Company of incremental term loans to redeem the Notes is subject to the requirement that the ratio of total debt to last twelve months Adjusted EBITDA (as defined in the Credit Agreement) be not more than 3.25 to 1.00. The Company amended the Credit Agreement in connection with this transaction to waive compliance with this requirement.

3. Share-Based Payment

The Company adopted Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 718, "Compensation—Stock Compensation," in the fiscal year beginning January 1, 2006, using the modified prospective application transition method. Under ASC 718, the Company records in its consolidated statements of operations (i) compensation cost for options granted, modified, repurchased or cancelled on or after January 1, 2006 under the provisions of ASC 718 and (ii) compensation cost for the unvested portion of options granted prior to January 1, 2006 over their remaining vesting periods using the amounts previously measured under ASC 718 for pro forma disclosure purposes.

The Company has elected to follow the alternative transition method as described in ASC 718 for computing its beginning additional paid-in capital pool. In addition, the Company treats the tax deductions from stock options as being realized when they reduce taxes payable in accordance with the principles and timing under the relevant tax law.

Stock Option Plans and Awards

In November 1999, the Company adopted an employee stock option plan (as amended and restated, the "1999 Equity Plan") pursuant to which options and awards with respect to a total of 2,205,000 shares have become available for grant. As of September 30, 2013, a total of 556,124 shares remained available for grant under the 1999 Equity Plan.

Options are granted with exercise prices equal to the fair value of the Company's common stock at the date of grant, except as noted below. All options have 10-year terms. Options granted after January 1, 2008 are time options, typically vesting 25% each year, over four years. For options granted prior to January 1, 2008, initial stock option grants were comprised 50% of "time options" and 50% of "performance options." The time options have a five-year vesting schedule, vesting 20% per year. The performance options cliff vest after eight years; however, in the event certain operating performance targets are met, up to 20% of the performance options may vest each year, accelerating the vesting period up to five years. During the year ended December 31, 2012, there were no options in which vesting was accelerated. During the quarter and nine months ended September 30, 2013, there were

Table of Contents

ALLIANCE HEALTHCARE SERVICES, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

September 30, 2013

(Unaudited)

(Dollars in thousands, except per share amounts)

no options in which vesting was accelerated. Prior to January 1, 2008, subsequent stock options granted under the 1999 Equity Plan to employees were always time options which vest 5% in the first year, 20% in the second year and 25% in years three through five.

The Company uses the Black-Scholes option pricing model to value the compensation expense associated with share-based payment awards. The fair value of each option award is estimated on the date of grant using the Black-Scholes option pricing model using the assumptions noted in the table below. In addition, forfeitures are estimated when recognizing compensation expense and the estimate of forfeitures will be adjusted over the requisite service period to the extent that actual forfeitures differ, or are expected to differ, from such estimates. Changes in estimated forfeitures will be recognized through a cumulative catch-up adjustment in the period of change and will also impact the amount of compensation expense to be recognized in future periods.

The following weighted average assumptions were used in the estimated grant date fair value calculations for stock option awards:

	Quarter Ended			
	September 30, 2012	2013		
Risk free interest rate	0.97	% 1.06		%
Expected dividend yield	—	% —		%
Expected stock price volatility	62.3	% 65.7		%
Average expected life (in years)	6.02	5.99		

Through March 31, 2012, the expected stock price volatility rates are based on the historical volatility of the Company's common stock and peer implied volatility. The average expected life, representing the weighted-average period of time that options or awards granted are expected to be outstanding, is calculated using the simplified method described in ASC 718, as the Company did not have sufficient historical exercise data to provide a reasonable basis upon which to estimate the expected terms and experienced a change in the types of employees that receive share grants. Beginning with the second quarter of 2012, the Company changed its calculation methodology for its stock price volatility and average expected life, which are now based on its own historical data. The risk free interest rates have been, and continue to be, based on the United States Treasury yield curve in effect at the time of grant for periods corresponding with the expected life of the option or award.

The following table summarizes the Company's stock option activity:

	Number of Shares	Weighted- Average Exercise Price	Weighted- Average Remaining Contractual Term	Aggregate Intrinsic Value
Outstanding at December 31, 2012	772,496	\$ 18.57		
Granted	48,350	12.53		
Exercised	(24,500)	16.38		
Canceled	(53,330)	33.37		
Outstanding at September 30, 2013	743,016	\$ 17.19	6.98	\$10,355
Vested and expected to vest in the future at September 30, 2013	716,586	\$ 17.28	6.97	\$9,967

Edgar Filing: Alliance HealthCare Services, Inc - Form 10-Q

Exercisable at September 30, 2013	447,405	\$ 22.98	5.97	\$4,605
-----------------------------------	---------	----------	------	---------

The weighted average grant date fair value of options granted during the nine months ended September 30, 2012 and 2013 was \$3.15 per share and \$7.42 per share, respectively. Total stock options exercised was 24,500 during the nine months ended September 30, 2013. There were no options exercised during the nine months ended September 30, 2012.

The following table summarizes the Company's unvested stock option activity:

Table of Contents

ALLIANCE HEALTHCARE SERVICES, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

September 30, 2013

(Unaudited)

(Dollars in thousands, except per share amounts)

	Shares	Weighted-Average Grant-Date Fair Value
Unvested at December 31, 2012	430,915	\$ 4.90
Granted	48,350	7.42
Vested	(182,653)	5.70
Canceled	(1,001)	3.53
Unvested at September 30, 2013	295,611	\$ 4.80

At September 30, 2013, the total unrecognized fair value share-based payment related to unvested stock options granted to both employees and non-employees was \$865, which is expected to be recognized over a remaining weighted-average period of 1.65 years. The valuation model applied in this calculation utilizes highly subjective assumptions that could potentially change over time, including the expected forfeiture rate and performance targets. Therefore, the amount of unrecognized share-based payment noted above does not necessarily represent the value that will ultimately be realized by the Company in the consolidated statements of operations and comprehensive income (loss). The total fair value of shares vested during the nine months ended September 30, 2012 and 2013 was \$1,393 and \$1,040, respectively.

Restricted Stock Awards

The 1999 Equity Plan, as amended and restated, permits the award of restricted stock, restricted stock units, stock bonus awards and performance-based awards. During 2011, the Company granted 57,887 awards to certain employees of the Company. Of the awards granted in 2011, 4,887 cliff vest after one year provided that the employee remains continuously employed through the issuance date, 52,000 cliff vest after three years provided that the employee remains continuously employed through the issuance date and 1,000 cliff vest after one year provided that the employee meets certain performance criteria and remains continuously employed through the issuance date. During 2012, 57,544 shares of restricted stock were granted to employees and non-employee directors. Of the 57,544 shares granted in 2012, 38,075 were granted to employees, which either cliff vest after one year, or vest annually in 33.3% increments over three years. Non-employee directors were granted 19,469 shares of restricted stock for their services in 2012. The Company grants restricted stock awards to non-employee directors of the Company who are unaffiliated with Oaktree Capital Management, LLC (“Oaktree”) and MTS Health Investors, LLC (“MTS”) (“unaffiliated directors”). These awards to unaffiliated directors cliff vest after one year based on the unaffiliated directors’ continued service with the Company through that date. During 2011, the Company granted 44,310 restricted stock awards to unaffiliated directors. There have been no grants of restricted stock awards made to independent directors in 2013. For the nine months ended September 30, 2012 and 2013, the Company recorded share-based payment related to restricted stock awards of \$(707) and \$390, respectively. The expense reversal in 2012 was due to the forfeiture of 65,000 unvested shares granted in 2010 to the Company's now-former Chief Executive Officer. Total historical expense recorded through March 31, 2012 in connection with this grant was \$1,376, which all reversed during the quarter ended June 30, 2012. The weighted-average grant-date fair value of restricted stock awards granted during the nine months ended September 30, 2012 was \$5.00 per share. The weighted-average grant-date fair value of restricted stock awards granted during the nine months ended September 30, 2013 was \$3.67 per share.

The following table summarizes the Company’s unvested restricted stock activity:

	Shares	Weighted-Average Grant-Date Fair Value

Table of Contents

ALLIANCE HEALTHCARE SERVICES, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

September 30, 2013

(Unaudited)

(Dollars in thousands, except per share amounts)

At September 30, 2013, the total unrecognized fair value share-based payment related to restricted stock awards granted to employees was \$229, which is expected to be recognized over a remaining weighted-average period of 0.91 years. At September 30, 2013, the total unrecognized fair value share-based payment related to the restricted stock awards granted to unaffiliated directors was \$40, which is expected to be recognized over a remaining weighted-average period of 0.25 years. The unaffiliated directors will each receive a restricted stock award on December 31, 2013 and each December 31 thereafter (the "Grant Date") of the number of shares of common stock having a value equal to \$40, rounded down to the nearest whole share, and calculated using the average share price of the Company's stock over the 15-day period preceding the Grant Date. Such restricted stock awards will fully vest one year after the Grant Date based on the continued service of the non-employee director through the vesting date. The valuation model applied in this calculation utilizes highly subjective assumptions that could potentially change over time, including the expected forfeiture rate. Therefore, the amount of unrecognized share-based payment noted above does not necessarily represent the amount that will ultimately be realized by the Company in the statements of operations and comprehensive income (loss).

4. Recent Accounting Pronouncements

Offsetting Assets and Liabilities In January 2013, the FASB issued Accounting Standards Update ("ASU") number 2013-01, "Balance Sheet (Topic 210): Clarifying the Scope of Disclosures about Offsetting Assets and Liabilities," amending ASU number 2011-11, "Balance Sheet (Topic 210) — Disclosures about Offsetting Assets and Liabilities." ASU 2013-01 affects entities that have derivatives accounted for in accordance with Topic 815, including bifurcated embedded derivatives, repurchase agreements and reverse repurchase agreements, and securities borrowing and securities lending transactions that are either offset, or subject to an enforceable master netting arrangement or similar agreement. Entities with other types of financial assets and financial liabilities subject to a master netting arrangement or similar agreement also are affected because these amendments make them no longer subject to the disclosure requirements in ASU 2011-11. The adoption of ASU 2013-01 did not affect the Company's results of operations, cash flows, or financial position.

Derivatives and Hedging In July 2013, the FASB issued ASU number 2013-10, "Derivatives and Hedging (Topic 815) — Inclusion of the Fed Funds Effective Swap Rate (or Overnight Index Swap Rate) as a Benchmark Interest Rate for Hedge Accounting Purposes." ASU 2013-10 permits the use of the Fed Funds Effective Swap Rate as a U.S. benchmark interest rate for hedge accounting purposes. The ASU also removes the restriction on using different benchmark rates for similar hedges. ASU No. 2013-10 is effective for qualifying new or redesignated hedging relationships entered into on or after July 17, 2013. The Company is assessing the impact that the adoption of ASU 2013-10 may have on its financial reporting for future periods.

Income Taxes In July 2013, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") number 2013-11, Income Taxes (Topic 740): Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists - a consensus of the FASB Emerging Issues Task Force. ASU 2013-11 generally requires, with some exceptions, an entity to present its unrecognized tax benefits as it relates to its net operating loss carryforwards, similar tax losses, or tax credit carryforwards, as a reduction of deferred tax assets when settlement in this regard is available under the tax law of the applicable taxing jurisdiction as of the balance sheet reporting date. It is effective prospectively for fiscal years, and interim periods within those years, beginning after December 15, 2013. Retrospective application is permitted. The Company is assessing the impact that the adoption of ASU 2013-11 may have on its financial reporting for future periods.

5. Fair Value of Financial Instruments

The Company used the following methods and assumptions in estimating fair value disclosure for financial instruments:

Cash and cash equivalents The carrying amounts reported in the balance sheets approximate fair value due to the short-term maturity or variable rates of these instruments.

Debt The fair value of the Company's fixed-rate debt was based on open bid/ask quotations of those notes at December 31, 2012 and September 30, 2013. The carrying amount of variable-rate borrowings at September 30, 2013 approximates fair value estimated based on current market rates and credit spreads for similar debt instruments.

Derivative instruments Fair value was determined based on the income approach and standard valuation techniques to convert future amounts to a single present amount and approximates the net gains and losses that would have been realized if the contracts had been settled at each period-end.

Table of Contents

ALLIANCE HEALTHCARE SERVICES, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

September 30, 2013

(Unaudited)

(Dollars in thousands, except per share amounts)

The estimated fair values of the Company's financial instruments are as follows:

	December 31, 2012		September 30, 2013	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Cash and cash equivalents	\$39,977	\$39,977	\$49,069	\$49,069
Fixed-rate debt	188,434	174,800	100,533	103,506
Variable-rate debt	335,261	335,261	416,957	416,957
Derivative instruments - asset position	—	—	—	—
Derivative instruments - liability position	219	219	135	135

ASC 820, "Fair Value Measurement," applies to all assets and liabilities that are being measured and reported at fair value on a recurring basis. ASC 820 requires disclosure that establishes a framework for measuring fair value in generally accepted accounting principles by establishing a hierarchy for ranking the quality and reliability of the information used to determine fair values. The statement requires that assets and liabilities carried at fair value will be classified and disclosed in one of the following three categories:

Level 1 Quoted market prices in active markets for identical assets or liabilities.

Level 2 Observable market based inputs or unobservable inputs, including identical securities in inactive markets or similar securities in active markets, that are corroborated by market data.

Level 3 Unobservable inputs that are not corroborated by market data.

None of the Company's instruments has transferred from one level to another.

The following table summarizes the valuation of the Company's financial instruments that are reported at fair value on a recurring basis by the above ASC 820 pricing levels as of December 31, 2012:

	Total	Quoted market prices in active markets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Cash and cash equivalents	\$39,977	\$ 39,977	\$ —	\$ —
Interest rate contracts - liability position	219	—	219	—

The following table summarizes the valuation of the Company's financial instruments that are reported at fair value on a recurring basis by the above ASC 820 pricing levels as of September 30, 2013:

	Total	Quoted market prices in active markets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Cash and cash equivalents	\$49,069	\$ 49,069	\$ —	\$ —
Interest rate contracts - liability position	135	—	135	—

The Company's derivative instruments are primarily pay-fixed, receive-variable interest rate swaps and caps based on the LIBOR swap rate. The Company has elected to use the income approach to value these derivatives, using observable Level 2 market expectations at measurement date and standard valuation techniques to convert future amounts to a single present amount assuming that participants are motivated, but not compelled to transact. Level 2 inputs for interest rate swap and cap valuations are limited to quoted prices for similar assets or liabilities in active markets (specifically futures contracts on LIBOR for the first two years) and inputs other than quoted prices that are observable for the asset or liability (specifically LIBOR cash and swap rates at commonly quoted intervals and implied volatilities for options). ASC 820 states that the fair value

Table of Contents

ALLIANCE HEALTHCARE SERVICES, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

September 30, 2013

(Unaudited)

(Dollars in thousands, except per share amounts)

measurement of an asset or liability must reflect the nonperformance risk of the entity and the counterparty. Therefore, the impact of the counterparty's creditworthiness and the Company's creditworthiness has also been factored into the fair value measurement of the derivative instruments. For additional information please see Note 9 of the Notes to the Condensed Consolidated Financial Statements.

6. Goodwill and Intangible Assets

Changes in the carrying amount of goodwill are as follows:

Balance at January 1, 2012	\$56,493
Goodwill acquired during the period	—
Impairment charges	—
Adjustments to goodwill during the period	—
Balance at December 31, 2012	56,493
Goodwill acquired during the period	—
Impairment charges	—
Adjustments to goodwill during the period	482
Balance at September 30, 2013	\$56,975
Gross goodwill	\$231,219
Accumulated impairment charges	(174,244)
Balance at September 30, 2013	\$56,975

Intangible assets consisted of the following:

	December 31, 2012			September 30, 2013		
	Gross Carrying Amount	Accumulated Amortization	Intangible Assets, net	Gross Carrying Amount	Accumulated Amortization	Intangible Assets, net
Amortizing intangible assets:						
Customer contracts	\$152,629	\$(68,380)	\$84,249	\$148,992	\$(75,731)	\$73,261
Other	25,743	(16,488)	9,255	20,415	(17,994)	2,421
Total amortizing intangible assets	\$178,372	\$(84,868)	\$93,504	\$169,407	\$(93,725)	\$75,682
Intangible assets not subject to amortization			33,427			33,427
Total other intangible assets			\$126,931			\$109,109

In accordance with ASC 350, "Intangibles—Goodwill and Other," the Company impaired its intangible assets related to its professional services business as a result of its decision that its professional radiology services business does not align with the long-term strategic direction of the Imaging Division, and it intends to divest its professional radiology services business during 2013. This triggering event resulted in revaluing intangible assets related to the professional services business at \$1,821 after recognizing an impairment charge of approximately \$4,867 related to the intangible assets in the second quarter of 2013. The Company based the carrying value of these intangible assets on the estimated fair value (categorized as Level 3 in the fair value hierarchy, as described in Note 5) of what the Company believes it would receive in a sale transaction for the assets related to its professional services business that it intends to divest. All other assets related to the divestiture of the professional services business are immaterial.

In the third quarter of 2013, the Company recorded an impairment charge of \$4,529 related to the closure of an imaging site location in August 2013, which was originally purchased in a group of assets acquired in 2007. Upon acquisition, the Company recorded both tangible and intangible assets including physician referral networks,

non-compete agreements, certificates of need and goodwill. In late 2012, the term of a non-compete agreement ended causing a decline in revenue, ultimately resulting in the imaging site closure. Based on this triggering event, the Company deemed it appropriate to perform a

Table of Contents

ALLIANCE HEALTHCARE SERVICES, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

September 30, 2013

(Unaudited)

(Dollars in thousands, except per share amounts)

valuation analysis of the remaining intangible assets related to the original acquisition. The Company applied the excess earnings method under the income approach to value the physician referral networks, and applied the beneficial earnings method under the income approach, and the guideline transaction method under the market approach to value the certificates of need. The Company categorized this fair value determination as Level 3 (unobservable) in the fair value hierarchy, as described in Note 5.

Additionally, the Company intends to perform an annual impairment test in the fourth quarter for goodwill and indefinite life intangible assets based on financial information as of September 30. The fair value of the reporting unit is determined by an income approach and a market capitalization approach. Significant management judgment is required in the forecasts of future operating results that are used in the income approach. The estimates that the Company has used are consistent with the plans and estimates that it uses to manage its business. The Company bases its fair value estimates on forecasted revenue and operating costs which include a number of factors including, but not limited to, securing new customers, retention of existing customers, growth in imaging and radiation oncology revenues and the impact of continued cost savings initiatives. However, it is possible that plans and estimates may change. No additional triggering events occurred during the first nine months of 2013 which required impairment testing based on financial information as of September 30, 2013. The Company intends to perform its annual testing for impairment of Goodwill and other intangibles assets during the fourth quarter of 2013, as described above. The Company uses the estimated useful life to amortize customer contracts, which is a weighted-average of 15 years. Other intangible assets subject to amortization are estimated to have a weighted-average useful life of six years. Amortization expense for intangible assets subject to amortization was \$3,989 and \$2,151 for the quarters ended September 30, 2012 and 2013, respectively, and a \$11,995 and \$8,856 for the nine months ended September 30, 2012 and 2013, respectively. The intangible assets not subject to amortization represent certificates of need and regulatory authority rights which have indefinite useful lives.

Estimated annual amortization expense for each of the fiscal years ending December 31, is presented below:

2013	\$10,768
2014	8,628
2015	7,888
2016	6,886
2017	6,354
2018	5,928

7. Other Accrued Liabilities

Other accrued liabilities consisted of the following:

	December 31, 2012	September 30, 2013
Accrued systems rental and maintenance costs	\$2,768	\$2,257
Accrued site rental fees	1,202	1,328
Accrued property and sales taxes payable	11,561	10,856
Accrued self-insurance expense	1,299	1,311
Deferred gain on sale of equipment	1,293	321
Accrued payments for equipment	—	1,192
Other accrued expenses	8,712	6,461
Total	\$26,835	\$23,726

8. Long-Term Debt and Senior Subordinated Credit Facility

Long-term debt consisted of the following:

Long-term debt, including current portion	558,635	546,455
Less current portion	13,145	15,552
Long-term debt	\$545,490	\$530,903

9. Derivatives

The Company accounts for derivative instruments and hedging activities in accordance with the provisions of ASC 815, "Derivatives and Hedging." Management generally designates derivatives in a hedge relationship with the identified exposure on the date the Company enters into a derivative contract, as disclosed below. The Company has only executed derivative instruments that are economic hedges of exposures that can qualify in hedge relationships under ASC 815. The Company formally documents all relationships between hedging instruments and hedged items, as well as the risk-management objective and strategy for undertaking various hedge transactions. In this documentation, the Company specifically identifies the firm commitment or forecasted transaction that has been designated as a hedged item and states how the hedging instrument is expected to hedge the risks related to the hedged item. The Company formally assesses effectiveness of its hedging relationships, both at the hedge inception and on an ongoing basis, then measures and records ineffectiveness. The Company would discontinue hedge accounting prospectively (i) if it is determined that the derivative is no longer effective in offsetting change in the cash flows of a hedged item, (ii) when the derivative expires or is sold, terminated or exercised, (iii) because it is probable that the forecasted transaction will not occur, or (iv) if management determines that designation of the derivative as a hedge instrument is no longer appropriate. The Company's derivatives are recorded on the balance sheet at their fair value. For additional information please see Note 5 of the Notes to the Condensed Consolidated Financial Statements. For derivatives accounted for as cash flow hedges, any effective unrealized gains or losses on fair value are included in comprehensive income (loss), net of tax, and any ineffective gains or losses are recognized in income immediately. Amounts recorded in comprehensive income (loss) are reclassified to earnings when the hedged item impacts earnings.

Cash Flow Hedges

Interest Rate Cash Flow Hedges

The Company has entered into multiple interest rate swap and cap agreements to hedge the future cash interest payments on portions of its variable rate bank debt. For the nine months ended September 30, 2012 and 2013, the Company had interest rate swap and cap agreements to hedge approximately \$154,896 and \$163,346 of its variable rate bank debt, respectively, or 24.4% and 29.9% of total debt, respectively. Over the next twelve months, the Company expects to reclassify \$0.5 million from accumulated comprehensive loss to interest expense and other, net. In the first quarter of 2010, the Company entered into three interest rate cap agreements, in accordance with Company policy, to avoid unplanned volatility in the income statement due to changes in the LIBOR interest rate environment. The interest rate cap agreements, which mature in February 2014, have a total notional amount of \$150,000 and were designated as cash flow hedges of future cash interest payments associated with a portion of the Company's variable rate bank debt. Under these arrangements, the Company has purchased a cap on LIBOR at 4.50%. The Company paid \$1,537 to enter into the caps, which is being amortized through interest expense and other, net over the life of the

agreements.

In the second quarter of 2011, the Company acquired two interest rate swap agreements (the "USR Swaps") as part of the acquisition of US Radiosurgery, LLC ("USR"). One of the USR Swaps, which matures in October 2015, had a notional amount of \$2,179 as of September 30, 2013. Under the terms of this agreement, the Company receives one-month LIBOR and pays a fixed rate of 5.71%. The net effect of the hedge is to record interest expense at a fixed rate of 8.71%, as the underlying debt incurred interest based on one-month LIBOR plus 3.00%. The other USR Swap, which matures in April 2014, had a notional amount of \$616 as of September 30, 2013. Under the terms of this agreement, the Company receives one-month LIBOR and

16

(Unaudited)

(Dollars in thousands, except per share amounts)

pays a fixed rate of 4.15%. The net effect of the hedge is to record interest expense at a fixed rate of 6.15%, as the underlying debt incurred interest based on one-month LIBOR plus 2.00%. As a result of the acquisition of USR, the USR Swaps were de-designated, hedge accounting was terminated and all further changes in the fair market value of these swaps are being recorded in interest expense and other, net.

In the fourth quarter of 2012, the Company entered into an interest rate swap agreement in connection with equipment financing. The swap, which matures in December 2017, had a notional amount of \$4,477 as of September 30, 2013. Under the terms of this agreement, the Company receives one-month LIBOR plus 2.50% and pays a fixed rate of 3.75%. The net effect of the hedge is to convert interest expense to a fixed rate of 3.75%, as the underlying debt incurred interest based on one-month LIBOR plus 2.50%.

In the first quarter of 2013, the Company entered into an interest rate swap agreement in connection with equipment financing. The swap, which matures in April 2018, had a notional amount of \$4,029 as of September 30, 2013. Under the terms of this agreement, the Company receives one-month LIBOR plus 2.00% and pays a fixed rate of 2.873%. The net effect of the hedge is to convert interest expense to a fixed rate of 2.873%, as the underlying debt incurred interest based on one-month LIBOR plus 2.00%.

10. Income Taxes

For the quarter and nine months ended September 30, 2012, the Company recorded an income tax (expense) benefit of \$(409) and \$4,660, or (49.0)% and 40.4%, respectively, as a result of the Company's effective tax rate applied to pretax loss. For the quarter and nine months ended September 30, 2013, the Company recorded an income tax benefit of \$2,392 and \$9,725, or 53.6% and 35.8%, respectively, as a result of the Company's effective tax rate applied to pretax loss. The Company's effective tax rates for the quarter and nine months ended September 30, 2013 differed from the federal statutory rate principally as a result of state income taxes and permanent non-deductible tax items, including share-based payments, unrecognized tax benefits and other permanent differences.

As of September 30, 2013, the Company has provided a liability for \$406 of unrecognized tax benefits related to various federal and state income tax matters. The tax-effected amount that would reduce the Company's effective income tax rate if recognized is \$320.

The Company recognizes accrued interest and penalties related to unrecognized tax benefits in income tax expense. As of September 30, 2013, the Company had approximately \$31 in accrued interest and penalties related to unrecognized tax benefits.

The Company is subject to United States federal income tax as well as income tax of multiple state tax jurisdictions. The Company is currently open to audit under the statute of limitations by the Internal Revenue Service for the years ended December 31, 2010 through 2012. The Company's and its subsidiaries' state income tax returns are open to audit under the applicable statutes of limitations for the years ended December 31, 2008 through 2012. The Company does not anticipate a significant change to the total amount of unrecognized tax benefits within the next 12 months.

11. Loss Per Common Share

Basic net loss per share is computed utilizing the two-class method and is calculated based on the weighted-average number of common shares outstanding during the periods presented, excluding nonvested restricted stock units which do not contain nonforfeitable rights to dividend and dividend equivalents.

Diluted net loss per share is computed using the weighted-average number of common and common equivalent shares outstanding during the periods utilizing the two-class method for stock options, nonvested restricted stock and nonvested restricted stock units. Potentially dilutive securities are not considered in the calculation of net loss per share as their impact would be anti-dilutive.

	Quarter Ended September 30,		Nine Months Ended September 30,	
	2012	2013	2012	2013
Numerator:				
Net loss attributable to Alliance HealthCare Services, Inc.	\$(1,243)	\$(2,070)	\$(6,866)	\$(17,452)
Denominator:				
Weighted-average shares-basic	10,609	10,639	10,635	10,632
Effect of dilutive securities:				
Employee stock options	—	—	—	—
Weighted-average shares-diluted	10,609	10,639	10,635	10,632
Loss per common share attributable to Alliance HealthCare Services, Inc.:				
Basic	\$(0.12)	\$(0.19)	\$(0.65)	\$(1.64)
Diluted	\$(0.12)	\$(0.19)	\$(0.65)	\$(1.64)
Stock options excluded from the computation of diluted per share amounts:				
Weighted-average shares for which the exercise price exceeds average market price of common stock	670	201,405	810	155,398
Average exercise price per share that exceeds average market price of common stock	\$28.25	\$38.34	\$27.60	\$35.32

12. Commitments and Contingencies

In the normal course of business, the Company has made certain guarantees and indemnities, under which it may be required to make payments to a guaranteed or indemnified party, in relation to certain transactions. The Company indemnifies other parties, including customers, lessors, and parties to other transactions with the Company, with respect to certain matters. The Company has agreed to hold the other party harmless against losses arising from certain events as defined within the particular contract, which may include, for example, litigation or claims arising from a breach of representations or covenants. In addition, the Company has entered into indemnification agreements with its executive officers and directors and the Company's bylaws contain similar indemnification obligations. Under these arrangements, the Company is obligated to indemnify, to the fullest extent permitted under applicable law, its current or former officers and directors for various amounts incurred with respect to actions, suits or proceedings in which they were made, or threatened to be made, a party as a result of acting as an officer or director.

It is not possible to determine the maximum potential amount under these indemnification agreements due to the limited history of prior indemnification claims and the unique facts and circumstances involved in each particular agreement.

Historically, payments made related to these indemnifications have been immaterial. At September 30, 2013, the Company has determined that no liability is necessary related to these guarantees and indemnities.

In connection with our acquisition of Medical Outsourcing Services, LLC ("MOS") in the third quarter of 2008, we subsequently identified a Medicare billing practice related to a portion of MOS's retail billing operations that raised compliance issues under Medicare reimbursement guidelines. The practice was in place before the acquisition and was discontinued when we became aware of it. In accordance with our corporate compliance program, we entered into

discussions with representatives of the federal government to advise them of the issue and seek guidance on appropriate next steps.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

September 30, 2013

(Unaudited)

(Dollars in thousands, except per share amounts)

In June 2010, the Company commenced arbitration proceedings against the former owners of MOS related to the Medicare billing matter, in addition to certain other indemnification issues. In the arbitration, the Company asserted claims of fraud and breach of representations and warranties.

On December 29, 2011, the Company received notice of an award by the arbitration panel, which awarded the Company \$2,527 in damages for breach of contract claims, plus prejudgment interest at 9% under New York law from July 29, 2008 (which interest continues to accrue until the award is paid in full); \$255 for two other indemnification claims; \$1,453 for attorneys' fees and expenses; and \$110 for arbitration expenses. The award also provides that approximately \$1,300 of a remaining indemnification cap created in connection with the acquisition is available for future indemnification claims, including with respect to the potential government claim discussed above, and must be satisfied by the former owners of MOS. On January 25, 2012, one of the former owners of MOS paid \$665 to the Company, and on February 17, 2012, the same owner released \$592 to the Company from amounts held in an indemnification escrow related to the acquisition. On January 25, 2012, the Company filed an action in the United States District Court for the Northern District of Illinois to confirm the award as a judgment against the other former owner of MOS that has refused to satisfy its obligations under the award.

In the first quarter of 2013, the former owners of MOS paid \$1,198 which amount represented the remaining amount of the indemnification cap created in connection with the acquisition. This amount was in addition to \$5,300 we already recovered from the former owners of MOS in connection with the arbitration award against them. With these final payments totaling \$1,198, the former owners of MOS have now fully satisfied their obligations to us under the arbitration award. Following receipt of the final payments from the former owners of MOS, we then entered into a settlement agreement to resolve the government's investigation of the Medicare billing practices engaged in by MOS prior to our acquisition. Under the terms of the settlement agreement, we paid \$2,400 to the government, which amount was paid primarily from the funds recovered in the arbitration from the former owners of MOS.

In June 2012, Pacific Coast Cardiology ("PCC") d/b/a Pacific Coast Imaging, Emanuel Shaoulian, MD, Inc., and Michael M. Radin, MD, Inc. filed a lawsuit in California state court against the Company and other defendants. The complaint asserts a number of claims related to the Company's decision not to purchase PCC in 2010, and also separately seeks a determination regarding an amount the Company contends is owed to it by PCC pursuant to a previous contractual arrangement. Plaintiffs are seeking monetary and punitive damages. The Company intends to vigorously defend against the claims asserted in this lawsuit. The Company has not recorded an expense related to any potential damages in connection with this matter because any potential loss is not probable or reasonably estimable at this time.

On November 9, 2012, USR, a subsidiary of the Company, received a grand jury subpoena issued by the United States Attorney's Office for the Middle District of Tennessee seeking documents related to USR and its financial relationships with physicians and other healthcare providers. The Company and USR are cooperating fully with the inquiry. The Company is currently unable to predict the timing or outcome of this matter, however, it is not unusual for such matters to continue for a considerable period of time. Responding to this matter will require management's attention and likely result in significant legal expense. To our knowledge, the federal government has not initiated any proceedings against us at this time.

On March 27, 2013, the Company was served with a lawsuit filed in U.S. District Court for the Northern District of Mississippi by Superior MRI Services, Inc. The plaintiff is an alleged successor in interest to a former local competitor, P&L Contracting, Inc. Plaintiff alleges the Company disregarded Mississippi Certificate of Need ("CON") rules and regulations by operating without obtaining the appropriate authority, and is seeking in excess of \$1,000 in damages as well as requesting injunctive relief. The Company intends to vigorously defend against the claims asserted in this lawsuit. The Company has not recorded an expense related to any potential damages in

connection with this matter because any potential loss is not probable or reasonably estimable at this time.

On June 14, 2013, Alliance Oncology, LLC, a subsidiary of the Company, filed a complaint against Harvard Vanguard Medical Associates, Inc. (“HVMA”) in the United States District Court for the District of Massachusetts, including several claims seeking damages resulting from HVMA’s early termination of a long-term services agreement between the two companies. HVMA filed an answer to Alliance Oncology’s complaint on August 27, 2013. Without specifying its alleged damages, HVMA also asserted several counterclaims in its answer. The Company filed its answer to HVMA’s counterclaims on October 4, 2013, and intends to vigorously defend against the claims asserted. The Company has not recorded an expense related to any potential damages in connection with this matter because any potential loss is not probable or reasonably estimable at this time.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

September 30, 2013

(Unaudited)

(Dollars in thousands, except per share amounts)

The Company from time to time is involved in routine litigation and regulatory matters incidental to the conduct of its business. The Company believes that resolution of such matters will not have a material adverse effect on its consolidated results of operations or financial position.

13. Related-Party Transactions

On April 16, 2007, Oaktree and MTS purchased 4,900,301 shares of the Company's common stock. Upon completion of the transaction, Oaktree and MTS owned in the aggregate approximately 49.7% of the outstanding shares of common stock of the Company. At September 30, 2013, Oaktree and MTS owned in the aggregate approximately 51.2% of the outstanding shares of common stock of the Company. The Company does not pay management fees to Oaktree and MTS for their financial advisory services to the Company.

Revenues from management agreements with unconsolidated equity investees were \$2,304 and \$2,756 during the quarters ended September 30, 2012 and 2013, respectively. Revenues from management agreements with unconsolidated equity investees were \$6,753 and \$7,276 during the nine months ended September 30, 2012 and 2013, respectively. The Company provides services as part of its ongoing operations for and on behalf of the unconsolidated equity investees, which are included in the management agreement revenue, who reimburse the Company for the actual amount of the expenses incurred. The Company records the expenses as cost of revenues and the reimbursement as revenues in its condensed consolidated statements of operations and comprehensive income (loss). For the quarters ended September 30, 2012 and 2013, the amounts of the revenues and expenses were \$1,875 and \$2,291, respectively. For the nine months ended September 30, 2012 and 2013, the amounts of the revenues and expenses were \$5,512 and \$5,914, respectively.

On June 3, 2013, the Company replaced its existing credit facility with a new senior secured credit agreement with Credit Suisse AG, Cayman Islands Branch, as administrative agent, and the other lenders party thereto (the "redit Agreement"). Of the other lenders, Oaktree funded approximately \$40,476 of the \$340,000 six-year term loan facility. In addition, as of July 3, 2013, Oaktree funded approximately \$9,524 of the \$80,000 delayed draw.

Subsequent to September 30, 2013, the Company obtained commitments from its current lenders with respect to a \$70,000 incremental term loan under its Credit Agreement. The Company intends to use the full amount to redeem [a portion of] its outstanding Notes in December 2013. Oaktree has committed to fund \$10,000 of the \$70,000 incremental term loan.

14. Investments in Unconsolidated Investees

The Company has direct ownership in four unconsolidated investees at September 30, 2013. The Company owns between 15% and 50% of these investees, and provides management services under agreements with three of these investees, expiring at various dates through 2025. All of these investees are accounted for under the equity method since the Company does not exercise control over the operations of these investees.

Set forth below are certain financial data for Alliance-HNI, LLC and Subsidiaries, one of the Company's unconsolidated investees:

	December 31, 2012	September 30, 2013
Balance Sheet Data:		
Current assets	\$5,246	\$4,805
Noncurrent assets	10,142	10,554
Current liabilities	3,026	3,985
Noncurrent liabilities	2,669	1,737

16. Segment Information

Operating segments are defined as components of an enterprise about which separate financial information is available that is evaluated regularly by the chief operating decision maker (“CODM”) in deciding how to allocate resources and in assessing performance. In accordance with ASC 280, “Segment Reporting,” and based on the nature of the financial information that is received by the CODM, the Company operates in two operating segments, which are also its two reportable segments, Imaging and Radiation Oncology, based on similar economic and other characteristics.

The Imaging segment is comprised of diagnostic imaging services including MRI, PET/CT and other imaging services. The Radiation Oncology segment is comprised of radiation oncology services. All intercompany revenues, expenses, payables and receivables are eliminated in consolidation and are not reviewed when evaluating segment performance. Each segment’s performance is evaluated based on Revenue, Segment Income and Net Income. The accounting policies of the segments are the same as those described in the summary of significant accounting policies in Note 1 of the Notes to the Consolidated Financial Statements on Form 10-K for the year ended December 31, 2012. Additionally, the Company does not consider its wholesale revenue and retail revenue sources to constitute separate operating segments as discrete financial information does not exist and is not provided to the CODM.

The following table summarizes the Company’s revenue by segment:

	Quarter Ended September 30,		Nine Months Ended September 30,	
	2012	2013	2012	2013
Revenue				
Imaging	\$96,019	\$93,658	\$295,017	\$280,244
Radiation Oncology	19,994	19,717	62,413	57,931
Total	\$116,013	\$113,375	\$357,430	\$338,175

The following are components of revenue:

	Quarter Ended September 30,		Nine Months Ended September 30,	
	2012	2013	2012	2013
Revenue				
MRI revenue	\$49,113	\$46,938	\$148,347	\$140,378
PET/CT revenue	37,668	36,089	118,254	110,495
Radiation Oncology revenue	19,994	19,717	62,413	57,931
Other modalities and other revenue	9,238	10,631	28,416	29,371
Total	\$116,013	\$113,375	\$357,430	\$338,175

Segment income represents net income (loss) before income taxes; interest expense and other, net; amortization expense; depreciation expense; share-based payment; severance and related costs; noncontrolling interest in subsidiaries; restructuring charges; transaction costs; impairment charges, loss on extinguishment of debt, other non-recurring charges, and non-cash charges. Segment income is the most frequently used measure of each segment’s performance by the CODM and is commonly used in setting performance goals. The following table summarizes the Company’s segment income:

Gross goodwill	\$196,508	\$34,711	\$—	\$231,219
Accumulated impairment charges	(154,342)	(19,902)	—	(174,244)
Balance at September 30, 2013	\$42,166	\$ 14,809	\$—	\$56,975

Capital expenditures for the Imaging, Radiation Oncology and Corporate segments were \$8,032, \$91, and \$616, respectively, for the quarter ended September 30, 2013. Capital expenditures in the Imaging, Radiation Oncology and Corporate segments were \$6,613, \$0 and \$0, respectively, for the quarter ended September 30, 2012. Capital expenditures for the Imaging, Radiation Oncology and Corporate segments were \$13,513, \$762, and \$4,821, respectively, for the nine months ended September 30, 2013. Capital expenditures in the Imaging, Radiation Oncology and Corporate segments were \$13,917, \$2,623 and \$0, respectively, for the nine months ended September 30, 2012.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**Overview**

We are a leading national provider of advanced outpatient diagnostic imaging and radiation therapy services, based upon annual revenue and number of imaging systems deployed and radiation oncology centers operated. Our principal sources of revenue are derived from providing magnetic resonance imaging ("MRI"), positron emission tomography/computed tomography ("PET/CT") through our Imaging Division and radiation oncology services through our Radiation Oncology Division. Unless the context otherwise requires, the words "we," "us," "our," "Company" or "Alliance" as used in this Quarterly Report on Form 10-Q refer to Alliance HealthCare Services, Inc. and our direct and indirect subsidiaries. We provide imaging and therapeutic services primarily to hospitals and other healthcare providers on a shared-service and full-time service basis. We also provide services through fixed-site imaging centers, primarily to hospitals or health systems. Our services normally include the use of our imaging systems, technologists to operate the systems, equipment maintenance and upgrades and management of day-to-day shared-service and fixed-site diagnostic imaging operations. We also provide non scan-based services, which include only the use of our imaging systems under a short-term contract. We have leveraged our leadership in MRI and PET/CT to expand into radiation oncology, including stereotactic radiosurgery. We operate our radiation oncology business through our wholly owned subsidiary, Alliance Oncology, LLC, which we sometimes refer to as our Radiation Oncology Division. This division includes a wide range of services for cancer patients covering initial consultation, preparation for treatment, simulation of treatment, actual radiation oncology delivery, therapy management and follow-up care. Our services include the use of our linear accelerators or stereotactic radiosurgery systems, therapists to operate those systems, administrative staff, equipment maintenance and upgrades, and management of day-to-day operations.

MRI, PET/CT and radiation oncology services generated 42%, 33% and 17% of our revenue, respectively, for the nine months ended September 30, 2013 and 42%, 33% and 17% of our revenue, respectively, for the nine months ended September 30, 2012. Our remaining revenue was comprised of other modality diagnostic imaging services revenue, primarily computed tomography ("CT"), professional radiology services, and management contract revenue. We operated 485 diagnostic imaging and radiation oncology systems, including 259 MRI systems (of which 19 are operating leases) and 115 positron emission tomography ("PET") or PET/CT systems (of which 9 are operating leases) and served over 1,000 clients in 44 states at September 30, 2013. We operated 127 fixed-site imaging centers (one in an unconsolidated joint venture), which constitute systems installed in hospitals or other medical buildings on or near hospital campuses, including modular buildings, systems installed inside medical groups' offices, parked mobile systems, and free-standing fixed-site imaging centers, which include systems installed in medical office buildings, ambulatory surgical centers, or other retail space at September 30, 2013. Of the 127 fixed-site imaging centers (including one unconsolidated joint venture), 95 were MRI fixed-site imaging centers, 21 were PET or PET/CT fixed-site imaging centers, eleven were other modality fixed-site imaging centers. We also operated 28 radiation oncology centers and stereotactic radiosurgery facilities (including one radiation oncology center as an unconsolidated joint venture) at September 30, 2013.

We generated approximately 82% and 80% of our revenues for the nine months ended September 30, 2013 and 2012, respectively, by providing services to hospitals and other healthcare providers; we refer to those revenues as wholesale revenues. We typically generate our wholesale revenues from contracts that require our clients to pay us based on the number of scans we perform on patients on our clients' behalf, although some pay us a flat fee for a period of time regardless of the number of scans we perform. Wholesale payments are due to us independent of our clients' receipt of retail reimbursement from third-party payors, although receipt of reimbursement from third-party payors may affect demand for our services. We typically deliver our services for a set number of days per week through exclusive, long-term contracts with hospitals and other healthcare providers. The initial terms of these contracts average approximately three years in length for mobile services and approximately five to 10 years in length for fixed-site arrangements. These contracts often contain automatic renewal provisions and certain contracts have cancellation clauses if the hospital or other healthcare provider purchases its own system. We price our contracts based on the type of system used, the scan volume, and the number of ancillary services provided. Competitive pressures also affect our pricing.

We generated approximately 18% and 20% of our revenues for the nine months ended September 30, 2013 and 2012, respectively, by providing services directly to patients from our sites located at or near hospitals or other healthcare provider facilities; we refer to these revenues as retail revenues. We generate our revenue from these sites from direct billings to patients or their third-party payors, including Medicare, and we record this revenue net of contractual discounts and other arrangements for providing services at discounted prices. We typically receive a higher price per scan under retail billing than we do under wholesale billing.

Fixed-site imaging centers and radiation oncology centers can be structured as either wholesale or retail arrangements. Our contracts for radiation oncology services are approximately 10 to 20 years in length. We include revenues from these centers in either our wholesale or retail revenues.

With respect to our retail business, for services for which we bill Medicare directly, we are paid under the Medicare Physician Fee Schedule, which is updated on an annual basis. Under the Medicare statutory formula, payments under the Physician Fee Schedule would have decreased for the past several years if Congress had failed to intervene. In the past, when the application of the statutory formula resulted in lower payment, Congress has passed interim legislation to prevent the reductions. For 2012, the Centers for Medicare & Medicaid Services ("CMS") projected a rate reduction of 27.4% from 2011 rates if Congress failed to intervene. On December 23, 2011, President Obama signed into law the Temporary Payroll Tax Cut Continuation Act of 2011, which replaced the Medicare physician payment cut that was scheduled to take place on January 1, 2012, with a 0% update for two months, thereby allowing for continuation of 2011 physician payment rates until February 29, 2012. The 0% update for physician payment rates was extended through December 31, 2012, by the Middle Class Tax Relief and Job Creation Act of 2012, which was signed into law on February 22, 2012. For 2013, CMS projected the formula would result in an aggregate reduction of 26.5% from 2012 payment rates. This reduction was delayed by the enactment of the American Taxpayer Relief Act of 2012 ("ATRA") on January 2, 2013, which adopted another 0% update to extend 2012 physician payment rates through December 31, 2013. CMS estimates that the statutory formula will result in a 24.4% reduction in physician payment rates for 2014 if Congress fails to intervene.

In its March 2013 Report to Congress, the Medicare Payment Advisory Commission ("MedPAC"), which makes recommendations to Congress on Medicare payment issues, again recommended that Congress repeal the current statutory formula to prevent significant future reductions to the Physician Fee Schedule. MedPAC recommended that Congress freeze current payment levels for primary care physicians and reduce annual payments by 5.9% for each of the next three years for all other physicians, followed by a freeze in those payment levels. There also have been a number of legislative initiatives to develop a permanent revision to the statutory formula. If Congress fails to continue the existing freeze or otherwise fails to revise the statutory formula for future years to prevent substantial reductions to physician payment levels, the resulting decrease in payment will adversely affect our revenues and results of operations.

Also with respect to our retail business, for services furnished on or after July 1, 2010, CMS began implementing a 50% reduction in reimbursement for multiple images on contiguous body parts, as mandated by the Patient Protection and Affordable Care Act ("PPACA"). Beginning January 1, 2011, CMS applied the same reduction to certain CT and CT angiography, MRI and MR angiography, and ultrasound services furnished to the same patient in the same session, regardless of the imaging modality, and not limited to contiguous body areas. CMS projected that this expanded policy would reduce payment for 20% more services than the prior multiple procedure payment reduction policy, and would primarily reduce payments for radiology services and to freestanding diagnostic imaging centers, such as our retail business. For 2012, CMS extended this policy to the physician reviews of these imaging services by implementing a 25% multiple procedure reduction to the professional payments to the specialties of radiology and interventional radiology. In addition, beginning in 2013, CMS expanded the 25% multiple-procedure reduction policy to certain other nuclear medicine and cardiovascular diagnostic procedures. At this time, we do not believe that these multiple procedure payment reductions will have a material effect on our future retail revenues.

Other recent legislative and regulatory updates to the Physician Fee Schedule included reduced payment rates for certain diagnostic services using equipment costing more than \$1 million through revisions to usage assumptions from the previous 50% usage rate to a 90% usage rate. This change began in 2010 with a planned four-year phase-in period for MRI and CT scans, but not for radiation therapy and other therapeutic equipment. The PPACA superseded CMS's assumed usage rate for such equipment and, beginning on January 1, 2011, CMS instituted a 75% usage rate. Also in 2011, CMS expanded the list of services to which the higher equipment usage rate assumption applies to include certain diagnostic CTA and MRA procedures using similar CT and MRI scanners that cost more than \$1 million. Through enactment of the ATRA, Congress increased the usage rate assumption from 75% to 90% for fee schedules to be developed for 2014 and subsequent years. We currently estimate that the new usage assumptions for MRI and CT scans under the ATRA will not have a material adverse effect on our future retail revenues.

Also effective January 1, 2011, CMS made further adjustments to the Physician Fee Schedule so that specialties that have a higher proportion of the payment rate attributable to operating expenses such as equipment and supplies, which include radiation oncology, will experience an increase in aggregate payments. In addition, as a result of adjustments to codes identified to be misvalued, radiation oncology specialties and suppliers providing the technical component of diagnostic tests are among the entities that will experience decreases in aggregate payment. Some of these changes are being transitioned over time; for 2013, CMS estimated aggregate payment reductions of 7% in radiation oncology, 3% in radiology, 3% in nuclear medicine, 7% for suppliers providing the technical component of diagnostic tests and 9% for radiation therapy centers. A portion of the payment reduction to radiation oncology and radiation therapy centers stems from revisions to the operating expenses and

procedure time allotted to perform Intensity Modulated Radiation Therapy ("IMRT") and Stereotactic Body Radiotherapy ("SBRT"). CMS is also undertaking a review of procedure times allotted to other radiation oncology treatments. At this time, we do not believe that these regulatory changes will have a material effect on our future retail revenues.

In the proposed Physician Fee Schedule for 2014, CMS proposed to make additional revisions to the formula it uses to account for physician time and practice expenses when calculating updates to the Physician Fee Schedule. CMS's proposed revisions include changes to the Medicare Economic Index formula, which would have the effect of redistributing some practice expense payment to the physician time component. CMS also proposed a new policy that would limit the value of certain practice expenses associated with services provided in a nonfacility setting so that the total nonfacility Physician Fee Schedule payment amount will not exceed the amount Medicare would pay for the same service provided in a facility setting. If finalized, these proposed policy changes, combined with the 90% usage rate assumption described above and various other adjustments for the 2014 Physician Fee Schedule, would result in aggregate payment reductions of 5% in radiation oncology, 1% in radiology, 7% for suppliers providing the technical component of diagnostic tests, and 13% for radiation therapy centers, with a 1% increase in aggregate payments for nuclear medicine. At this time, we believe these proposed regulatory changes, if enacted, would not have a material effect on our future retail revenues.

In addition to annual updates to the Medicare Physician Fee Schedule, as indicated above, CMS also publishes regulatory changes to the hospital outpatient prospective payment system ("HOPPS") on an annual basis. These payments are bundled amounts received by our hospital clients for hospital outpatient services related to PET scans, PET/CT scans and SRS treatments. Recent adjustments to the HOPPS payments for these procedures have not had a material adverse effect on our revenue and earnings in 2011, 2012 or the first nine months of 2013.

Beginning on April 1, 2013, the ATRA required CMS to equalize the HOPPS payment associated with Cobalt 60-based SRS treatments to the payment amount for the less-expensive, linac-based SRS treatment. In the technical corrections to the proposed HOPPS rule for 2014, CMS proposed to equalize payments for the treatments by establishing a single new payment level derived from CMS claims data for both treatments, which, if finalized, would result in a payment increase for linac-based treatments and a payment decrease for Cobalt 60-based treatments beginning January 1, 2014. In addition, CMS proposed to utilize newly-available data to revise its estimate of hospitals' costs of providing CT and MRI services, which are used to calculate Medicare payments to hospitals for these services. The use of such data, if finalized, will result in payment reductions for CT and MRI procedures performed in the outpatient departments of our hospital clients. At this time, we do not believe that these changes will have a material adverse effect on our future revenues; however, we cannot predict the effect of future rate reductions on our future revenues or business.

Over the past few years, the growth rate of MRI industry wide scan volumes has slowed in part due to weak hospital volumes as reported by several investor-owned hospital companies, additional patient-related cost-sharing programs and an increasing trend of third-party payors intensifying their utilization management efforts, for example, through benefit managers who require prior authorizations to control the growth rate of imaging services generally. We expect that these trends will continue. Another recent initiative to potentially reduce utilization of certain imaging services is the Medicare Imaging Demonstration, which is a two-year demonstration project designed to collect data regarding physician use of advanced diagnostic imaging services. This information would be used to determine the appropriateness of services by developing medical specialty guidelines for advanced imaging procedures within three designated modalities (MRI, CT and nuclear medicine). On February 2, 2011, CMS announced that it selected five participants for the demonstration project. The data collection portion of the demonstration concluded on April 1, 2012, and the 18-month intervention portion of the demonstration then went into effect, during which time the appropriateness of a physician's order for diagnostic imaging services is considered at the time the order is entered into the decision support systems being tested.

We cannot predict the full impact of the PPACA on our business. The reform law substantially changed the way health care is financed by both governmental and private insurers. Although certain provisions may negatively affect payment rates for certain imaging services, the PPACA also extended coverage to approximately 27 million previously uninsured people, which may result in an increase in the demand for our services. Other legislative changes have been proposed and adopted since the PPACA was enacted, which also may impact our business. On August 2,

2011, the President signed into law the Budget Control Act of 2011 (“BCA”), which, among other things, created the Joint Select Committee on Deficit Reduction to recommend proposals in spending reductions to Congress. The Joint Select Committee did not achieve its targeted deficit reduction of at least \$1.2 trillion for the years 2013 through 2021, triggering the legislation's automatic reduction to several government programs. These reductions include aggregate reductions to Medicare payments to providers of up to 2% per fiscal year, which were scheduled to go into effect on January 2, 2013. The enactment of the ATRA delayed the imposition of the automatic cuts until March 1, 2013. On March 1, 2013, the President signed an executive order implementing the automatic budget reductions. Pursuant to that order, payments to Medicare providers for services furnished on or after April 1, 2013 were reduced by 2%. The impact to our revenue related to this 2% reduction is estimated to be \$0.6 million in 2013. The full effect of the PPACA,

BCA and ATRA on our business is uncertain, and it is not clear whether other legislative changes will be adopted or how those changes would affect the demand for our services.

Payments to us by third-party payors depend substantially upon each payor's coverage and reimbursement policies. Third-party payors may impose limits on coverage or reimbursement for diagnostic imaging services, including denying reimbursement for tests that do not follow recommended diagnostic procedures. Coverage policies also may be expanded to reflect emerging technologies. Because unfavorable coverage and reimbursement policies have and may continue to constrict the profit margins of the hospitals and clinics we bill directly, we have and may continue to need to lower our fees to retain existing clients and attract new ones. If coverage is limited or reimbursement rates are inadequate, a healthcare provider might find it financially unattractive to own diagnostic imaging or radiation oncology systems, yet beneficial to purchase our services. It is possible that third-party coverage and reimbursement policies will affect the need or prices for our services in the future, which could significantly affect our financial performance and our ability to conduct our business.

The principal components of our cost of revenues include compensation paid to technologists, therapists, drivers and other clinical staff; system maintenance costs; insurance; medical supplies; system transportation; technologists' travel costs; and professional costs related to the delivery of radiation therapy and professional radiology interpretation services. Because a majority of these expenses are fixed, increased revenues as a result of higher scan and treatment volumes per system significantly improves our margins while lower scan and treatment volumes result in lower margins.

The principal components of selling, general and administrative expenses are sales and marketing costs, corporate overhead costs, provision for doubtful accounts, and share-based payment.

We record noncontrolling interest and earnings from unconsolidated investees related to our consolidated and unconsolidated subsidiaries, respectively. These subsidiaries primarily provide shared-service and fixed-site diagnostic imaging and radiation therapy services.

We experience seasonality in the revenues and margins generated for our services. First and fourth quarter revenues are typically lower than those from the second and third quarters. First quarter revenue is affected primarily by fewer calendar days and inclement weather, typically resulting in fewer patients being scanned or treated during the period. Fourth quarter revenues are affected by holiday and client and patient vacation schedules, resulting in fewer scans or treatments during the period. The variability in margins is higher than the variability in revenues due to the fixed nature of our costs. We also experience fluctuations in our revenues and margins due to acquisition activity and general economic conditions, including recession or economic slowdown.

Results of Operations

The following table shows our consolidated statements of operations as a percentage of revenues for each of the quarters and nine months ended September 30:

	Quarter Ended September 30,		Nine Months Ended September 30,		
	2012	2013	2012	2013	
Revenues	100.0	% 100.0	% 100.0	% 100.0	%

The table below provides MRI statistical information for the quarters and nine months ended September 30:

	Quarter Ended September 30,		Nine Months Ended September 30,	
	2012	2013	2012	2013
MRI statistics				
Average number of total systems	263.2	255.0	267.1	256.0
Average number of scan-based systems	219.2	213.4	223.6	214.1
Scans per system per day (scan-based systems)	8.61	8.49	8.51	8.38
Total number of scan-based MRI scans	123,808	120,185	374,805	355,856
Price per scan	\$360.06	\$349.29	\$359.49	\$354.08

The table below provides PET and PET/CT statistical information for each of the quarters and nine months ended September 30:

	Quarter Ended		Nine Months Ended	
	September 30,		September 30,	
	2012	2013	2012	2013
PET and PET/CT statistics				
Average number of systems	114.2	112.8	117.9	111.9
Scans per system per day	5.64	5.58	5.63	5.61
Total number of PET and PET/CT scans	38,611	37,244	120,694	112,696
Price per scan	\$954.29	\$943.88	\$962.65	\$956.69

The table below provides Radiation oncology statistical information for each of the quarters and nine months ended September 30:

	Quarter Ended		Nine Months Ended	
	September 30,		September 30,	
	2012	2013	2012	2013
Radiation oncology statistics				
Number of radiation oncology centers*	30	28	30	28
Linac treatments	20,349	17,194	65,695	47,329
Cyberknife patients	572	662	1,783	2,018

*Number of radiation oncology centers operated as of September 30, 2012 and 2013 included one unconsolidated joint venture.

Following are the components of revenue (in millions) for each of the quarters and nine months ended September 30:

	Quarter Ended		Nine Months Ended	
	September 30,		September 30,	
	2012	2013	2012	2013
Total MRI revenue	\$49.1	\$47.0	\$148.3	\$140.4
PET/CT revenue	37.7	36.1	118.3	110.5
Radiation oncology revenue	20.0	19.7	62.4	57.9
Other modalities and other revenue	9.2	10.6	28.4	29.4
Total	\$116.0	\$113.4	\$357.4	\$338.2

	Quarter Ended		Nine Months Ended	
	September 30,		September 30,	
	2012	2013	2012	2013
Total fixed-site imaging center revenue (in millions)	\$30.3	\$28.6	\$90.4	\$88.4

Quarter Ended September 30, 2013 Compared to Quarter Ended September 30, 2012

Revenue decreased \$2.6 million, or 2.3%, to \$113.4 million in the third quarter of 2013 compared to \$116.0 million in the third quarter of 2012 mostly due to decreases in MRI and PET/CT of \$3.8 million, and also due to a decrease in radiation oncology revenue of \$0.3 million, partially offset by an increase of \$1.4 million in other revenue. Of the \$2.6 million decrease in revenue, \$2.2 million is related to the strategic reduction of our customer base in 2012 and \$0.4 million primarily relates to industry-wide weakness in outpatient healthcare volumes.

MRI revenue decreased \$2.2 million in the third quarter of 2013, or 4.4%, compared to the third quarter of 2012. Scan-based MRI revenue decreased \$2.6 million in the third quarter of 2013, or 5.8%, compared to the third quarter of 2012, to \$42.0 million in the third quarter of 2013 from \$44.6 million in the third quarter of 2012. The decrease in scan-based MRI revenue was primarily due to our increased efforts in identifying and eliminating unprofitable customers throughout 2012 and a decrease in the average price per MRI scan, which decreased to \$349.29 per scan in

the third quarter of 2013 from \$360.06 per

33

scan in the third quarter of 2012. The average number of scan-based systems in service decreased to 213.4 systems in the third quarter of 2013 from 219.2 systems in the third quarter of 2012. Average scans per system per day decreased by 1.4% to 8.49 in the third quarter of 2013 from 8.61 in the third quarter of 2012. Scan-based MRI scan volume decreased 2.9% to 120,185 scans in the third quarter of 2013 from 123,808 scans in the third quarter of 2012. Non scan-based MRI revenue increased \$0.4 million in the third quarter of 2013 over the same period in 2012. Included in the revenue totals above are fixed-site imaging center revenues, which decreased \$1.7 million to \$28.6 million in the third quarter of 2013 from \$30.3 million in the third quarter of 2012.

PET/CT revenue in the third quarter of 2013 decreased \$1.6 million, or 4.2%, compared to the third quarter of 2012 due to our efforts in identifying and eliminating unprofitable customers and a decrease in the average price per PET/CT scan, which averaged \$943.88 per scan in the third quarter of 2013 compared to \$954.29 per scan in the third quarter of 2012. The average number of PET/CT systems in service decreased to 112.8 systems in the third quarter of 2013 from 114.2 systems in the third quarter of 2012. Total PET/CT scan volumes decreased from 38,611 scans in the third quarter of 2012 to 37,244 scans in the third quarter of 2013. Scans per system per day remained stable at 5.6 per system per day in the third quarters of 2013 and 2012.

Radiation oncology revenue decreased \$0.3 million, or 1.4%, to \$19.7 million in the third quarter of 2013 compared to \$20.0 million in the third quarter of 2012, primarily due to the decision to terminate or sell 8 unprofitable centers throughout 2012 and one in the first quarter of 2013. This decrease was partially offset by increased revenue related to an increase in the number of Cyberknife patients we treated.

Other modalities and other revenue increased \$1.4 million, or 15.1%, to \$10.6 million in the third quarter of 2013 compared to \$9.2 million in the third quarter of 2012.

We operated 259 MRI systems at September 30, 2013 (including 19 through operating leases), compared to 271 MRI systems at September 30, 2012. We had 115 PET/CT systems at September 30, 2013 (including 9 through operating leases), compared to 120 PET/CT systems at September 30, 2012. We operated 127 fixed-site imaging centers (including one in an unconsolidated investee) at September 30, 2013, compared to 130 fixed-site imaging centers (including one in an unconsolidated joint venture) at September 30, 2012. We operated 28 radiation oncology centers (including one in an unconsolidated joint venture) at September 30, 2013, compared to 30 radiation oncology centers (including one unconsolidated investees) at September 30, 2012.

Cost of revenues, excluding depreciation and amortization, decreased \$0.8 million, or 1.4%, to \$59.7 million in the third quarter of 2013 compared to \$60.5 million in the third quarter of 2012. Outside medical services decreased \$1.5 million, or 27.0%, primarily due to lower radiology and radiation oncologist payments, and lower consultant fees. Maintenance and related costs decreased \$0.9 million, or 6.3%, due to a decrease in service costs related to a decrease in the number of MRI and PET/CT systems in operation and a reduction in service contract costs incurred on each asset. Renegotiating with service contract providers and medical supply vendors is one of our cost reduction initiatives. Site fees decreased \$0.3 million, or 17.7%, primarily due to our decrease in the number of our oncology center sites. These decreases were partially offset by a \$2.0 million increase in expense for equipment leases in connection with the sale and lease transaction that occurred during the fourth quarter of 2012. Compensation and related employee expenses also increased \$0.3 million, or 1.2%. All other cost of revenues, excluding depreciation and amortization, decreased \$0.6 million, or 6.7%. Cost of revenues, as a percentage of revenue, increased to 52.7% in the third quarter of 2013, compared to 52.2% in the third quarter of 2012.

Selling, general and administrative expenses increased \$2.9 million, or 17.8%, to \$19.2 million in the third quarter of 2013 compared to \$16.3 million in the third quarter of 2012. The majority of the increase in selling, general and administrative expenses is due to a \$1.8 million decrease to professional service expense in 2012 related to the Medical Outsourcing Services, LLC arbitration award that provided for reimbursement of legal expenses.

Compensation and related employee expenses increased \$0.8 million as a result of an increase in headcount related to hiring efforts that had been delayed until the current quarter. The provision for doubtful accounts increased \$0.3 million, or 61.9%. The provision for doubtful accounts as a percentage of revenue was 0.6% in the third quarter of 2013 compared to 0.3% in the third quarter of 2012 primarily due to delinquent customers we discontinued servicing in 2012, for which receivables have been fully reserved. Stock-based compensation expense increased \$0.1 million in the third quarter of 2013 compared to the third quarter of 2012. All other selling, general and administrative expenses decreased \$0.1 million, or 3.0%. Selling, general and administrative expenses as a percentage of revenue was 17.0%

in the third quarter of 2013 compared to 14.1% in the third quarter of 2012.

Severance and related costs increased \$0.5 million, or 215.8%, to \$0.7 million in the third quarter of 2013 compared to \$0.2 million in the third quarter of 2012, due to strategic restructuring activities related to our ongoing cost savings and efficiency initiatives.

In the third quarter of 2013, we recorded an impairment charge of \$4,529 related to the closure of an imaging site location in August 2013, which was originally purchased in a group of assets acquired in 2007. Upon acquisition, we recorded both tangible and intangible assets including physician referral networks, non-compete agreements, certificates of need and goodwill. In late 2012, the term of a non-compete agreement ended causing a decline in revenue, ultimately resulting in the imaging site closure. Based on the sustained revenue decline throughout 2013, we deemed it appropriate to perform a valuation analysis of the remaining intangible assets related to the original acquisition. We applied the excess earnings method under the income approach to value the physician referral networks, and applied the beneficial earnings method under the income approach, and the guideline transaction method under the market approach to value the certificates of need.

Depreciation expense decreased \$3.6 million, or 17.5%, to \$17.0 million in the third quarter of 2013 compared to \$20.6 million in the third quarter of 2012 due to a decrease in our capital expenditures in part due to the decision to upgrade units we currently own as an alternative to purchasing new equipment, and a decrease in the total number of units we own and centers we operate. Depreciation expense was also decreased as a result of our sale and lease transaction that occurred in the fourth quarter of 2012.

Amortization expense decreased \$1.8 million, or 46.1%, to \$2.2 million in the third quarter of 2013 compared to \$4.0 million in the third quarter of 2012.

Interest expense and other, net decreased \$5.5 million, or 40.5%, to \$8.2 million in the third quarter of 2013 compared to \$13.7 million in the third quarter of 2012, primarily due to our lower average debt balances resulting from the \$74.5 million in debt repayments made during the fourth quarter of 2012, and an additional \$15.0 million repayment made in the first quarter of 2013. Interest expense was also positively impacted by the refinancing of our term loan in June 2013, whereby our interest rate decreased to LIBOR plus 3.25%, compared to LIBOR plus 5.25%, and lowered our LIBOR floor from 2% to 1%.

Income tax benefit was \$2.4 million in the third quarter of 2013 compared to a \$0.4 million expense in the third quarter of 2012. Our effective tax rates differed from the federal statutory rate principally as a result of state income taxes and permanent non-deductible tax items, including share-based compensation, unrecognized tax benefits and other permanent differences.

Earnings from unconsolidated investees increased \$0.2 million, or 14.9%, to \$1.3 million in the third quarter of 2013 compared to \$1.2 million in the third quarter of 2012.

Net income attributable to noncontrolling interest increased \$0.9 million, or 37.0%, to \$3.4 million in the third quarter of 2013 compared to \$2.5 million in the third quarter of 2012.

Net loss attributable to Alliance HealthCare Services, Inc. was \$(2.1) million, or \$(0.19) per share on a diluted basis, in the third quarter of 2013 compared to a net loss of \$(1.2) million, or \$(0.12) per share on a diluted basis, in the third quarter of 2012.

Nine Months Ended September 30, 2013 Compared to the Nine Months Ended September 30, 2012

Revenue decreased \$19.3 million, or 5.4%, to \$338.2 million in the first nine months of 2013 compared to \$357.4 million in the first nine months of 2012 mostly due to decreases in MRI and PET/CT of \$15.7 million, and also due to a decrease in radiation oncology revenue of \$4.5 million, partially offset by an increase of \$1.0 million in other revenue. Of the \$19.3 million decrease in revenue, \$10.4 million is related to the strategic reduction of our customer base in 2012 and \$8.9 million primarily relates to industry-wide weakness in outpatient healthcare volumes.

MRI revenue decreased \$8.0 million in the first nine months of 2013, or 5.4%, compared to the first nine months of 2012. Scan-based MRI revenue decreased \$8.7 million, or 6.5%, in the first nine months of 2013 compared to the first nine months of 2012, to \$126.0 million. The decrease in scan-based MRI revenue was primarily due to our increased efforts in identifying and eliminating unprofitable customers throughout 2012, and a decrease in the average price per MRI scan, which decreased to \$354.08 per scan in the first nine months of 2013 from \$359.49 per scan in the first nine months of 2012. The average number of scan-based systems in service decreased to 214.1 systems in the first nine months of 2013 from 223.6 systems in the first nine months of 2012. Average scans per system per day decreased by 1.5% to 8.4 in the first nine months of 2013 from 8.5 in the first nine months of 2012. Scan-based MRI scan volume decreased 5.1% to 355,856 scans in the first nine months of 2013 from 374,805 scans in the first nine months of 2012. Non scan-based MRI revenue increased \$0.8 million in the first nine months of 2013 over the same period in

2012. Included in the revenue totals above are fixed-site imaging center revenues, which decreased \$2.0 million to \$88.4 million in the first nine months of 2013 from \$90.4 million in the first nine months of 2012.

PET/CT revenue in the first nine months of 2013 decreased \$7.8 million, or 6.6%, compared to the first nine months of 2012 due to our increased efforts in identifying and eliminating unprofitable customers, and a slight decrease in the average price per PET/CT scan to \$956.69 per scan in the first nine months of 2013 compared to \$962.65 in the first nine months of 2012. The average number of PET/CT systems in service decreased to 111.9 systems in the first nine months of 2013 compared to 117.9 systems in the first nine months of 2012. Total PET/CT scan volumes decreased in the first nine months of 2013 to 112,696 scans from 120,694 scans in the first nine months of 2012. Scans per system per day remained stable at 5.6 per system per day in the first nine months of 2013 and 2012.

Radiation oncology revenue decreased \$4.5 million, or 7.2%, to \$57.9 million in the first nine months of 2013 compared to \$62.4 million in the first nine months of 2012, primarily due to the decision to terminate or sell 8 unprofitable centers throughout 2012 and one in the first quarter of 2013. This decrease was partially offset by increased revenue related to an increase in the number of Cyberknife patients we treated.

Other modalities and other revenue increased \$1.0 million, or 3.4%, to \$29.4 million in the first nine months of 2013 compared to \$28.4 million in the first nine months of 2012.

We operated 259 MRI systems at September 30, 2013 (including 19 through operating leases), compared to 271 MRI systems at September 30, 2012. We had 115 PET/CT systems at September 30, 2013 (including 9 through operating leases), compared to 120 PET/CT systems at September 30, 2012. We operated 127 fixed-site imaging centers (including one in an unconsolidated investee) at September 30, 2013, compared to 130 fixed-site imaging centers (including one in an unconsolidated joint venture) at September 30, 2012. We operated 28 radiation oncology centers (including one in an unconsolidated joint venture) at September 30, 2013, compared to 30 radiation oncology centers (including one unconsolidated investee) at September 30, 2012.

Cost of revenues, excluding depreciation and amortization, decreased \$10.1 million, or 5.3%, to \$180.4 million in the first nine months of 2013 compared to \$190.6 million in the first nine months of 2012. Compensation and related employee expenses decreased \$6.5 million, or 7.7%, primarily as a result of a decrease in average employee headcount. Outside medical services decreased \$3.2 million, or 19.2%, primarily due to lower radiology and radiation oncologist payments, and lower consultant fees. Maintenance and related costs decreased \$3.1 million, or 7.3%, due to a decrease in service costs related to a decrease in the number of MRI and PET/CT systems in operation and a reduction in service contract costs incurred on each asset. Renegotiating with service contract providers and medical supply vendors is one of our cost reduction initiatives. Site fees decreased \$0.8 million, or 16.8%, primarily due to our decrease in the number of our oncology center sites. Medical supplies decreased \$0.7 million, or 4.4%, primarily as a result of sourcing contract savings on the radiopharmaceutical that is used as a component of PET/CT scans, and less scans year over year. These decreases were partially offset by a \$6.1 million increase in expense for equipment leases in connection with the sale and lease transaction that occurred during the fourth quarter of 2012. All other cost of revenues, excluding depreciation and amortization, decreased \$2.0 million, or 7.5%. Cost of revenues, as a percentage of revenue, increased to 53.4% in the first nine months of 2013, compared to 53.3% in the first nine months of 2012. Selling, general and administrative expenses increased \$3.3 million, or 6.0%, to \$58.6 million in the first nine months of 2013 compared to \$55.2 million in the first nine months of 2012. The majority of the increase in selling, general and administrative expenses was due to compensation and related employee expenses increasing \$1.4 million, or 4.8%, as a result of an increase in headcount related to hiring efforts that had been delayed until the current quarter. Non-cash stock-based compensation expense increased \$0.8 million, mostly due to the forfeiture of stock options and restricted stock in 2012 granted to two of our former executive officers which resulted in a reduction in stock-based compensation expense in 2012 that did not recur in 2013. Professional services increased \$1.3 million, or 15.6%, due to a \$1.8 million decrease to professional service expense in 2012 related to the Medical Outsourcing Services, LLC arbitration award that provided for reimbursement of legal expenses. The provision for doubtful accounts increased \$0.3 million, or 14.7%, primarily due to delinquent customers we discontinued servicing in 2012, for which receivables have been fully reserved. The provision for doubtful accounts as a percentage of revenue was 0.7% in the first nine months of 2013 and 0.5% in the first nine months of 2012. All other selling, general and administrative expenses decreased \$0.5 million, or 3.5%. Selling, general and administrative expenses as a percentage of revenue was 17.3% in the first nine months of 2013 compared to 15.5% in the first nine months of 2012.

Severance and related costs decreased \$0.2 million, or 13.4%, to \$1.3 million in the first nine months of 2013 compared to \$1.5 million in the first nine months of 2012, due to ongoing cost savings and efficiency initiatives.

In the second quarter of 2013, we recorded an impairment to intangible assets related to our professional radiology services business as a result of our decision that the professional radiology services business does not align with the long-term strategic direction of the Imaging Division, and our intent to divest our professional radiology services business during 2013. This triggering event resulted in an impairment charge of approximately \$4.9 million in the second quarter of 2013, based on

36

the fair value of what we believe we would receive in a sale transaction for the assets related to our professional services business we intend to divest.

In the third quarter of 2013, we recorded an impairment charge of \$4.5 million related to the closure of an imaging site location in August 2013, which was originally purchased in a group of assets acquired in 2007. Upon acquisition, we recorded both tangible and intangible assets including physician referral networks, non-compete agreements, certificates of need and goodwill. In late 2012, the term of a non-compete agreement ended causing a decline in revenue, ultimately resulting in the imaging site closure. Based on the sustained revenue decline throughout 2013, we deemed it appropriate to perform a valuation analysis of the remaining intangible assets related to the original acquisition. We applied the excess earnings method under the income approach to value the physician referral networks, and applied the beneficial earnings method under the income approach, and the guideline transaction method under the market approach to value the certificates of need.

Depreciation expense decreased \$12.9 million, or 20.6%, to \$49.8 million in the first nine months of 2013 compared to \$62.7 million in the first nine months of 2012 due to a decrease in our capital expenditures in part due to the decision to upgrade units we currently own as an alternative to purchasing new equipment, and a decrease in the total number of units we own and centers we operate. Depreciation expense also decreased as a result of our sale and lease transaction that occurred in the fourth quarter of 2012.

Amortization expense decreased \$3.1 million, or 26.2%, to \$8.9 million in the first nine months of 2013 compared to \$12.0 million in the first nine months of 2012.

Interest expense and other, net decreased \$9.6 million, or 23.3%, to \$31.5 million in the first nine months of 2013 compared to \$41.1 million in the first nine months of 2012, primarily due to our lower average debt balances resulting from the \$74.5 million in debt repayments made during the fourth quarter of 2012, and the \$15.0 million repayment made in the first quarter of 2013. Interest expense was also positively impacted by the refinancing of our term loan in June 2013, whereby our interest rate decreased to LIBOR plus 3.25%, compared to LIBOR plus 5.25%, and lowered our LIBOR floor from 2% to 1%.

Income tax benefit was \$9.7 million in the first nine months of 2013 compared to a \$4.7 million benefit in the first nine months of 2012. Our effective tax rates differed from the federal statutory rate principally as a result of state income taxes and permanent non-deductible tax items, including share-based payments, unrecognized tax benefits and other permanent differences.

Earnings from unconsolidated investees increased \$1.1 million, or 31.6%, to \$4.5 million in the first nine months of 2013 compared to \$3.4 million in the first nine months of 2012.

Net income attributable to noncontrolling interest increased \$2.3 million, or 30.5%, to \$9.7 million in the first nine months of 2013 compared to \$7.5 million in the first nine months of 2012.

Net loss attributable to Alliance HealthCare Services, Inc. was \$17.5 million, or \$(1.64) per share on a diluted basis, during the nine months ended September 30, 2013 compared to a net loss of \$(6.9) million, or \$(0.65) per share on a diluted basis, during the nine months ended September 30, 2012.

Liquidity and Capital Resources

Our primary source of liquidity is cash provided by operating activities. We generated \$65.1 million and \$80.1 million of cash flow from operating activities in the first nine months of 2013 and 2012, respectively. Our ability to generate cash flow is affected by numerous factors, including demand for MRI, PET/CT, other diagnostic imaging and radiation oncology services. Our ability to generate cash flow from operating activities is also dependent upon the collections of our accounts receivable. The provision for doubtful accounts increased by \$0.3 million in the first nine months of 2013 compared to the first nine months of 2012. Our number of days of revenue outstanding for our accounts receivable decreased to 49 days as of September 30, 2013, compared to 53 days as of September 30, 2012. We believe this number is comparable, or better than, other diagnostic imaging and radiation oncology providers. As of September 30, 2013, we had \$45.1 million of available borrowings under our revolving line of credit, net of outstanding letters of credit.

We used cash of \$15.8 million and \$18.0 million for investing activities in the nine months ended September 30, 2013 and 2012, respectively. Investing activities during the first nine months of 2013 included \$3.1 million from proceeds from sales of assets, and \$0.7 million in cash provided by deposits for equipment. While we had no acquisition

activity in 2013, we may use cash for acquisitions in the future. Other than acquisitions, our primary use of capital resources is to fund capital expenditures. We spend capital:

37

- to purchase new systems;
- to replace less advanced systems with new systems;
- to upgrade MRI and PET/CT and radiation oncology systems; and
- to upgrade our corporate infrastructure, primarily in information technology.

Capital expenditures totaled \$19.1 million and \$16.5 million during the nine months ended September 30, 2013 and 2012, respectively. We purchased one PET/CT system, upgraded various MRI PET/CT and radiation oncology equipment, and traded-in or sold a total of eight systems during the nine months ended September 30, 2013. We expect to purchase additional systems in 2013 and finance substantially all of these purchases with our available cash, cash from operating activities and equipment leases. Based upon the client demand described above, which dictates the amount and type of equipment we purchase and upgrade, we expect capital expenditures to total approximately \$30 million to \$40 million in 2013.

At September 30, 2013, we had cash and cash equivalents of \$49.1 million. This available cash and cash equivalents are held in accounts managed by third-party financial institutions and consist of invested cash and cash in our operating accounts. The invested cash is invested in interest-bearing funds managed by third-party financial institutions. These funds invest in high-quality money market instruments, primarily direct obligations of the government of the United States. To date, we have experienced no loss or lack of access to our invested cash or cash equivalents; however, we cannot assure you that access to our invested cash and cash equivalents will not be affected by adverse conditions in the financial markets.

At September 30, 2013, we had \$41.4 million in our accounts with third-party financial institutions that exceed the Federal Deposit Insurance Corporation ("FDIC") insurance limits. While we monitor daily the cash balances in our operating accounts and adjust the cash balances as appropriate, these cash balances could be adversely affected if the underlying financial institutions fail or could be subject to other adverse conditions in the financial markets. To date, we have experienced no loss or lack of access to cash in our operating accounts.

We believe that, based on current levels of operations, our cash flow from operating activities, together with other available sources of liquidity, including borrowings available under our revolving line of credit, will be sufficient over the next one to two years to fund anticipated capital expenditures and potential acquisitions and make required payments of principal and interest on our debt and other contracts. As of September 30, 2013, we are in compliance with all covenants contained in our long-term debt agreements and expect that we will be in compliance with these covenants for the remainder of 2013.

If our remaining ability to borrow under our revolving and term loan credit facility is insufficient for our capital requirements, we will be required to seek additional sources of financing, including issuing equity, which may be dilutive to our current stockholders, or incurring additional debt. Our ability to incur additional debt is subject to the restrictions in our existing credit facility. We cannot assure you that the restrictions contained in the existing credit facility will permit us to borrow the funds that we need to finance our operations, or that additional debt will be available to us on commercially reasonable terms or at all. If we are unable to obtain funds sufficient to finance our capital requirements, we may have to forego opportunities to expand our business.

In October 2012, we reached an agreement with our lenders for a second amendment to our credit agreement dated December 1, 2009, that further modified our existing financial covenants. In connection with the execution of the amendment, we raised \$30.0 million from the sale of certain imaging assets, which we then leased from the purchasers under competitive terms. The \$30.0 million in proceeds from the sale and lease transactions was used in its entirety to permanently reduce borrowings outstanding under the term loan facility. As a result, we incur \$8.0 million of annual rent expense in connection with the sale and lease transaction, which will reduce future Consolidated Adjusted EBITDA.

On June 3, 2013, we refinanced our existing credit facility with a new senior secured credit agreement with Credit Suisse AG, Cayman Islands Branch, as administrative agent, and the other lenders party thereto (the "Credit Agreement"). The Credit Agreement consists of (i) a \$340.0 million, six-year term loan facility, (ii) a \$50.0 million, five-year revolving loan facility, including a \$20.0 million sublimit for letters of credit, (iii) uncommitted incremental loan facilities of \$100.0 million of revolving or term loans, plus an additional amount if our pro forma leverage ratio is less than or equal to 3.25, subject to receipt of lender commitments and satisfaction of specified conditions, and (iv)

an \$80.0 million delayed draw term loan facility, which was required to be drawn within thirty days of June 3, 2013 and was drawn on July 3, 2013.

On July 3, 2013, the delayed draw term loan facility was utilized, of which the proceeds were used to redeem \$80.0 million of our outstanding 8% Senior Notes due 2016 (the "Notes"). The delayed draw term loan facility converted into, and matched the terms of, the new \$340.0 million term loan facility. If any of the Notes remain outstanding on September 1, 2016, then the maturity date of all loans under the Credit Agreement will be September 1, 2016.

Borrowings under the Credit Agreement bear interest through maturity at a variable rate based upon, at our option, either the London interbank offer rate ("LIBOR") or the base rate (which is the highest of the administrative agent's prime rate, one-half of 1.00% in excess of the overnight federal funds rate, and 1.00% in excess of the one-month LIBOR rate), plus, in each case, an applicable margin. With respect to the term loan facilities, the applicable margin for LIBOR loans is 3.25% per annum, and with respect to the revolving loan facilities, the applicable margin for LIBOR loans ranges, based on the applicable leverage ratio, from 3.00% to 3.25% per annum, in each case, with a LIBOR floor of 1.00%. The applicable margin for base rate loans under the term loan facilities is 2.25% per annum and under the revolving loan facility ranges, based on the applicable leverage ratio, from 2.00% to 2.25% per annum. Prior to the refinancing of the term loan facilities, the applicable margin for base rate loans was 4.25% per annum and the applicable margin for revolving loans was 5.25% per annum, with a LIBOR floor of 2.00%. We are required to pay a commitment fee which ranges, based on the applicable leverage ratio, from 0.375% to 0.50% per annum on the undrawn portion available under the revolving loan facility and variable per annum fees in respect of outstanding letters of credit.

During the first five and three-quarter years after the closing date, including the draw of the full amount of the delayed draw term loan facility, we will be required to make quarterly amortization payments of the term loans in the amount of \$1.0 million. We are also required to make mandatory prepayments of term loans under the Credit Agreement, subject to specified exceptions, from excess cash flow (as defined in the Credit Agreement), and with the proceeds of asset sales, debt issuances and specified other events.

Obligations under the Credit Agreement are guaranteed by substantially all our direct and indirect domestic subsidiaries. The obligations under the Credit Agreement and the guarantees are secured by a lien on substantially all tangible and intangible property, and by a pledge of all of the shares of stock and limited liability company interests of our direct and indirect domestic subsidiaries, of which we now own or later acquire more than a 50% interest, subject to limited exceptions.

In addition to other covenants, the Credit Agreement places limits on our ability to declare dividends or redeem or repurchase capital stock, prepay, redeem or purchase debt, incur liens and engage in sale-leaseback transactions, make loans and investments, incur additional indebtedness, amend or otherwise alter debt and other material agreements, engage in mergers, acquisitions and asset sales, transact with affiliates and alter the business conducted by us and our subsidiaries.

The Credit Agreement also contains a leverage ratio covenant requiring us to maintain a maximum ratio of consolidated total debt to consolidated adjusted EBITDA that ranges from 4.95 to 1.00 to 4.30 to 1.00. For the quarter ending September 30, 2013, the Credit Agreement requires a maximum leverage ratio of not more than 4.95 to 1.00. The Credit Agreement eliminated the interest coverage ratio covenant which we were subject to maintain prior to the refinancing. Failure to comply with the covenants in the Credit Agreement could permit the lenders under the Credit Agreement to declare all amounts borrowed under the Credit Agreement, together with accrued interest and fees, to be immediately due and payable, and to terminate all commitments under the Credit Agreement.

As a result of the transaction, we immediately recognized a loss on extinguishment totaling \$17.1 million resulting from the write-off of unamortized deferred financing costs and the discount related to the former term credit facility. As of September 30, 2013, there was approximately \$417.0 million outstanding under the new term loan facility and no borrowings under the new revolving credit facility. As of September 30, 2013, our ratio of Consolidated Total Debt to Consolidated Adjusted EBITDA calculated pursuant to the Credit Agreement was 3.70 to 1.00.

On July 3, 2013, we redeemed \$80.0 million in principal amount of our Notes pursuant to the terms of the indenture governing the Notes, drawing the full amount of the delayed draw term loan facility. As a result of the redemption, \$1.5 million of unamortized deferred costs and associated discount were immediately expensed, as well as \$3.2 million for the related call premium.

In September 2013, we repurchased \$8.8 million in principal amount of our Notes in privately negotiated transactions. We immediately incurred \$0.2 million of expense related to unamortized deferred costs and associated discount in connection with these repurchases, as well as \$0.3 million for the related call premium.

Subsequent to September 30, 2013, we obtained commitments from lenders with respect to a \$70.0 million incremental term loan under our Credit Agreement. We intend to use the net proceeds from the borrowings under the incremental term loan facility, together with proceeds from borrowings under our revolving credit facility and cash on

hand, to redeem all of our outstanding Notes on December 4, 2013, pursuant to a notice of redemption dated October 18, 2013. The redemption will be effected pursuant to the terms of the indenture governing the Notes. The \$70.0 million incremental term loan will be funded at 99.0% of principal amount and will mature on the same date as the existing term loan in June 2019. The incremental term loan will be converted to match all the terms of existing term loans upon funding in December. Interest on the incremental term loan will be calculated, at our option, at a base rate plus a 2.25% margin or LIBOR plus a 3.25% margin, subject to a 1.00% LIBOR floor. After completing the transaction including redemption of the Notes, we expect to save approximately \$5.0 million in cash interest on an annualized basis. Closing of the incremental

term loan under the Credit Agreement is subject to completion of satisfactory documentation and satisfaction of other closing conditions.

We expect to use additional revolver proceeds plus cash on hand to pay fees and expenses related to the incremental term loan.

During the first five and one half years after the closing date, assuming that we draw the full amount of the incremental term loan facility, the quarterly amortization payments of the term loans will increase to \$1.225 million from the current amount of \$1.05 million.

Our obligations under the incremental term loans will be guaranteed by substantially all of our direct and indirect domestic subsidiaries. The obligations under the incremental term loan and the guarantees are secured by a lien on substantially all of our tangible and intangible property, and by a pledge of all of the shares of stock and limited liability company interests of our direct and indirect domestic subsidiaries, of which we now own or later acquire more than a 50% interest, subject to limited exceptions.

Under the terms of the Credit Agreement, our incurrence of incremental term loans to redeem the Notes is subject to the requirement that the ratio of total debt to last twelve months Adjusted EBITDA (as defined in the Credit Agreement) be not more than 3.25 to 1.00. We amended the Credit Agreement in connection with this transaction to waive compliance with this requirement.

The indenture governing our outstanding Notes contains covenants limiting our and most of our subsidiaries' ability to pay dividends and make other restricted payments, incur additional indebtedness or issue disqualified stock, create liens on our assets, merge, consolidate, or sell all or substantially all of our assets, and enter into transactions with affiliates, among others. As of September 30, 2013, we were in compliance with all covenants contained in the Notes and expect to comply with these covenants during the remainder of 2013. Our failure to comply with these covenants could permit the trustee under the indenture relating to the Notes and the note holders to declare the principal amounts under the Notes, together with accrued and unpaid interest, to be immediately due and payable. If the indebtedness under the Notes, or any of our other indebtedness, is accelerated, and we are not able to refinance our debt, we could become subject to bankruptcy proceedings.

We may from time to time seek to retire, redeem or repurchase our debt securities through cash purchases and/or exchanges for equity securities in open market purchases, privately negotiated transactions or otherwise. Such repurchases, redemptions or exchanges, if any, will depend on prevailing market conditions, our liquidity requirements, contractual restrictions or other factors. The amounts involved may be material.

Recent Accounting Pronouncements

For a discussion of recent accounting pronouncements, please refer to Note 4 of the Notes to Condensed Consolidated Financial Statements.

Cautionary Statement Pursuant to the Private Securities Litigation Reform Act of 1995

Certain statements contained in Management's Discussion and Analysis of Financial Condition and Results of Operations, particularly in the sections entitled "Overview," "Results of Operations" and "Liquidity and Capital Resources," and elsewhere in this Quarterly Report on Form 10-Q, are "forward-looking statements," within the meaning of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995.

In some cases you can identify these statements by forward-looking words, such as "may," "will," "should," "expect," "plan," "anticipate," "believe," "estimate," "predict," "seek," "intend" and "continue" or similar words. Forward-looking statements may use different phrases. Forward-looking statements address, among other things, our future expectations, projections of our future results of operations or of our financial condition and other forward-looking information and include statements related to the Company's cost-savings and long-term growth, including its efforts to stabilize and grow the Imaging Division, grow the Radiation Oncology Division, divest our professional radiology services business, and increase organizational efficiency.

Statements regarding the following subjects, among others, are forward-looking by their nature:

- (a) future legislation and other healthcare regulatory reform actions, and the effect of that legislation and other regulatory actions on our business,
- (b) our expectations with respect to future MRI, PET/CT and radiation oncology volumes and revenues,
- (c) the effect of seasonality on our business,

- (d) our expectations with respect to the sufficiency of our liquidity over the next one to two years,
- (e) our estimates of the annual rent expense under the sale and lease transactions entered into in October 2012,
- (f) our expectations with respect to capital expenditures in 2013, and
- (g) the effect of recent accounting pronouncements on our results of operations and cash flows or financial position.

We believe it is important to communicate our expectations to our investors. There may be events in the future, however, that we are unable to predict accurately or that we do not fully control that cause actual results to differ materially from those expressed or implied by our forward-looking statements, including:

- our high degree of leverage and our ability to service our debt;
 - factors affecting our leverage, including interest rates;
 - the risk that the counterparties to our interest rate swap agreements fail to satisfy their obligations under those agreements;
 - our ability to obtain financing;
 - the effect of operating and financial restrictions in our debt instruments;
 - the accuracy of our estimates regarding our capital requirements;
 - intense levels of competition in our industry;
 - changes in the rates or methods of third-party reimbursements for diagnostic imaging and radiation oncology services;
 - fluctuations or unpredictability of our revenues, including as a result of seasonality;
 - changes in the healthcare regulatory environment;
 - our ability to keep pace with technological developments within our industry;
 - the growth or decline in the market for MRI and other services;
 - the disruptive effect of hurricanes and other natural disasters;
 - adverse changes in general domestic and worldwide economic conditions and instability and disruption of credit and equity markets;
 - our ability to successfully integrate acquisitions; and
- other factors discussed under Risk Factors in our Annual Report on Form 10-K, as filed with the Securities and Exchange Commission, for the fiscal year ended December 31, 2012 and that are otherwise described or updated from time to time in our SEC reports by us.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We provide our services exclusively in the United States and receive payment for our services exclusively in United States dollars. As a result, our financial results are unlikely to be affected by factors such as changes in foreign currency exchange rates or weak economic conditions in foreign markets.

Our interest expense is sensitive to changes in the general level of interest rates in the United States, particularly because the majority of our indebtedness has interest rates which are variable. The recorded carrying amount of our long-term debt under our Credit Agreement approximates fair value as these borrowings have variable rates that reflect currently available terms and conditions for similar debt. To decrease the risk associated with interest rate increases, we have entered into multiple interest rate swap and cap agreements for a portion of our variable rate debt. These swaps and cap are designated as cash flow hedges of variable future cash flows associated with our long-term debt.

In the first quarter of 2010, we entered into three interest rate cap agreements (the "2010 Caps") to avoid unplanned volatility in the income statement due to changes in the London Interbank Offering Rate ("LIBOR") interest rate environment. The interest rate cap agreements, which mature in February 2014, have a total notional amount of \$150.0 million and were designated as cash flow hedges of future cash interest payments associated with a portion of our variable rate bank debt. Under these arrangements, we have purchased a cap on LIBOR at 4.50%. We paid \$1.5 million to enter into the caps, which is being amortized through interest expense over the life of the agreements. For the quarters ended September 30, 2013 and 2012, we paid no net settlement amounts on the 2010 Caps.

In the second quarter of 2011, we acquired two interest rate swap agreements (the "USR Swaps") as part of the acquisition of USR. One of the USR Swaps, which matures in October 2015, had a notional amount of \$2.2 million as of September 30, 2013. Under the terms of this agreement, we receive one-month LIBOR and pay a fixed rate of 5.71%. The net effect of the hedge is to record interest expense at a fixed rate of 8.71%, as the underlying debt incurred interest based on one-month LIBOR plus 3.00%. The other USR Swap, which matures in April 2014, had a notional amount of \$0.6 million as of September 30, 2013. Under the terms of this agreement, we receive one-month LIBOR and pay a fixed rate of 4.15%. The net effect of the hedge is to record interest expense at a fixed rate of 6.15%, as the underlying debt incurred interest based on one-month LIBOR plus 2.00%. As a result of the acquisition of USR, the USR Swaps were de-designated, hedge accounting was terminated and all further changes in the fair market value of these swaps are being recorded in interest expense and other, net. Settlement amounts under these swap agreements were not material for the nine months ended September 30, 2013.

During the second quarter of 2011, we entered into a diesel fuel swap agreement that has a notional quantity of 450,000 gallons, or 37,500 gallons per month, to hedge future cash payments associated with purchasing diesel fuel for our mobile fleet. Under the terms of this agreement, which matured in April 2012, we received the DOE published monthly average price per gallon and paid a fixed rate of \$4.31 per gallon. We designated this swap as a cash flow hedge of future cash flows associated with our diesel fuel payments. We recorded the effective changes in the fair value of the swap through comprehensive income (loss), reclassifying gains or losses to fuel expense (included in cost of revenues, excluding depreciation and amortization) when the underlying fuel was purchased. Settlement amounts under this swap were not material for the nine months ended September 30, 2012. For the nine months ended September 30, 2012, amounts recognized in other (income) and expense, net were not material.

In the fourth quarter of 2012, we entered into an interest rate swap agreement in connection with equipment financing. The swap, which matures in December 2017, had a notional amount of \$4.5 million as of September 30, 2013. Under the terms of this agreement, we receive one-month LIBOR plus 2.50% and pay a fixed rate of 3.75%. The net effect of the hedge is to convert interest expense to a fixed rate of 3.75%, as the underlying debt incurred interest based on one-month LIBOR plus 2.50%.

In the first quarter of 2013, we entered into an interest rate swap agreement in connection with equipment financing. The swap, which matures in April 2018, had a notional amount of \$4.0 million as of September 30, 2013. Under the terms of this agreement, we receive one-month LIBOR plus 2.00% and pay a fixed rate of 2.87%. The net effect of the hedge is to convert interest expense to a fixed rate of 2.87%, as the underlying debt incurred interest based on one-month LIBOR plus 2.00%.

Our interest income is sensitive to changes in the general level of interest rates in the United States, particularly because the majority of our investments are in cash equivalents. We maintain our cash equivalents in financial

instruments with original maturities of 90 days or less. Cash and cash equivalents are invested in interest bearing funds managed by third-party financial institutions. These funds invest in high-quality money market instruments, primarily direct obligations of the government of the United States. At September 30, 2013, we had cash and cash equivalents of \$49.1 million, of which \$41.4 million was held in accounts that are with third-party financial institutions which exceed the FDIC insurance limits. At September 30, 2012, we had

cash and cash equivalents of \$79.2 million, of which \$0.6 million was held in accounts that are with third-party financial institutions which exceed the FDIC insurance limits.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Also, we have investments in certain unconsolidated entities. As we do not control or manage these entities, our disclosure controls and procedures with respect to such entities are more limited than those we maintain with respect to our consolidated subsidiaries. These unconsolidated entities are not considered material to our consolidated financial position or results of operations.

As required by SEC Rule 13a-15(b), we carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this report. Based on the foregoing, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective at the reasonable assurance level.

Changes in Internal Control over Financial Reporting

There has been no change in our internal control over financial reporting during our most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II—OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

From time to time, we are involved in routine litigation incidental to the conduct of our business. We believe that none of this litigation pending against us will have a material adverse effect on our business.

In connection with our acquisition of Medical Outsourcing Services, LLC (“MOS”) in the third quarter of 2008, we subsequently identified a Medicare billing practice related to a portion of MOS’s retail billing operations that raised compliance issues under Medicare reimbursement guidelines. The practice was in place before the acquisition and was discontinued when we became aware of it. In accordance with our corporate compliance program, we have entered into discussions with representatives of the federal government to advise them of the issue and seek guidance on appropriate next steps. The discussions are ongoing and no resolution has yet been reached.

In June 2010, we commenced arbitration proceedings against the former owners of MOS related to the Medicare billing matter, in addition to certain other indemnification issues. In the arbitration, we asserted claims of fraud and breach of representations and warranties.

On December 29, 2011, we received notice of an award by the arbitration panel, which awarded us \$2.5 million in damages for breach of contract claims, plus prejudgment interest at 9% under New York law from July 29, 2008 (which interest continues to accrue until the award is paid in full); \$0.3 million for two other indemnification claims; \$1.5 million for attorneys’ fees and expenses; and \$0.1 million for arbitration expenses. The award also provides that approximately \$1.3 million of a remaining indemnification cap created in connection with the acquisition is available for future indemnification claims, including with respect to the potential government claim discussed above, and must be satisfied by the former owners of MOS. On January 25, 2012, one of the former owners of MOS paid \$0.7 million to us, and on February 17, 2012, the same owner released \$0.6 million to us from amounts held in an indemnification escrow related to the acquisition. On January 25, 2012, we filed an action in the United States District Court for the Northern District of Illinois to confirm the award as a judgment against the other former owner of MOS that has refused to satisfy its obligations under the award.

In the first quarter of 2013, the former owners of MOS paid \$1.2 million which amount represented the remaining amount of the indemnification cap created in connection with the acquisition. This amount was in addition to \$5.3 million we already recovered from the former owners of MOS in connection with the arbitration award against them. With this final payment, the former owners of MOS have now fully satisfied their obligations to us under the arbitration award. Following receipt of the final payments from the former owners of MOS, we then entered into a settlement agreement to resolve the government’s investigation of the Medicare billing practices engaged in by MOS prior to our acquisition. Under the terms of the settlement agreement, we paid \$2.4 million to the government, which amount was paid primarily from the funds recovered in the arbitration from the former owners of MOS.

In June 2012, Pacific Coast Cardiology (“PCC”) d/b/a Pacific Coast Imaging, Emanuel Shaoulian, MD, Inc., and Michael M. Radin, MD, Inc. filed a lawsuit in California state court against us and other defendants. The complaint asserts a number of claims related to our decision not to purchase PCC in 2010, and also separately seeks a determination regarding an amount we contend is owed to us by PCC pursuant to a previous contractual arrangement. Plaintiffs are seeking monetary and punitive damages. We intend to vigorously defend against the claims asserted in this lawsuit. We have not recorded an expense related to any potential damages in connection with this matter because any potential loss is not probable or reasonably estimable at this time.

On November 9, 2012, U.S. Radiosurgery, LLC (“USR”) our subsidiary, received a grand jury subpoena issued by the United States Attorney’s Office for the Middle District of Tennessee seeking documents related to USR and its financial relationships with physicians and other healthcare providers. We are cooperating fully with the inquiry. We are currently unable to predict the timing or outcome of this matter, however, it is not unusual for such matters to continue for a considerable period of time. Responding to this matter will require management’s attention and likely result in significant legal expense. To our knowledge, the federal government has not initiated any proceedings against us at this time.

On March 27, 2013, we were served with a lawsuit filed in U.S. District Court for the Northern District of Mississippi by Superior MRI Services, Inc. The plaintiff is an alleged successor in interest to a former local competitor, P&L Contracting, Inc. Plaintiff alleges we disregarded Mississippi Certificate of Need (“CON”) rules and regulations by

operating without obtaining the appropriate CON authority, and is seeking in excess of \$1.0 million in damages as well as requesting injunctive relief. We intend to vigorously defend against the claims asserted in this lawsuit. We have not recorded an expense related to any potential damages in connection with this matter because any potential loss is not probable or reasonably estimable at this time.

ALLIANCE HEALTHCARE SERVICES, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

September 30, 2013

(Unaudited)

(Dollars in thousands, except per share amounts)

On June 14, 2013, Alliance Oncology, LLC, our subsidiary, filed a complaint against Harvard Vanguard Medical Associates, Inc. (“HVMA”) in the United States District Court for the District of Massachusetts, including several claims seeking damages resulting from HVMA’s early termination of a long-term services agreement between the two companies. HVMA filed an answer to Alliance Oncology’s complaint on August 27, 2013. Without specifying its alleged damages, HVMA also asserted several counterclaims in its answer. We filed our answer to HVMA’s counterclaims on October 4, 2013, and we intend to vigorously defend against the claims asserted. We have not recorded an expense related to any potential damages in connection with this matter because any potential loss is not probable or reasonably estimable at this time.

ITEM 1A. RISK FACTORS

The Company has included in Part I, Item 1A of its Annual Report on Form 10-K for the year ended December 31, 2012, a description of risks and uncertainties that could affect the Company’s business, future performance or financial condition (the “Risk Factors”). The Risk Factors are hereby incorporated in Part II, Item 1A of this quarterly report on Form 10-Q. There have been no material changes in the Company's risk factors from those disclosed in Risk Factors. Investors should consider the Risk Factors prior to making an investment decision with respect to the Company’s stock.
