Executive Compensation Overview

Our Business Model

As a diversified holding company, we believe that we have a business model that is unique for a public company. Our strategic mission has been to maximize long-term shareholder value by selecting and developing undervalued assets to achieve a superior return on net assets. To do this we have:

- (i) sought to evaluate, acquire and develop undervalued assets in strategic asset classes at valuations that we believed provided significant downside risk protection;
- (ii) sought to enhance the value of those assets through our operational expertise, development activities, transaction structure and efficient use of capital; and
- (iii) attempted to achieve gains in book value per share through both operating returns and disposition of assets at appropriate times.

2016 Changes to Our Business Model

In November 2015, we announced a revision to our business plan. With our share price trading at a discount to its book value, we believe the highest potential return to shareholders at this time is a return of capital. Therefore, as assets are monetized, rather than reinvest, we intend to return capital back to shareholders through a stock repurchase program or by other means such as special dividends.

Our Business Model Drives our Compensation Philosophy and Programs

Our business strategy requires a management team that functions within an entrepreneurial culture with demonstrated expertise in asset and business disposals and financial management and business operations of a variety of different entities. Our management team must review, operate and manage (prior to asset monetization) a broad and diversified range of businesses, investments, assets, and operations that currently include water resources and storage, real estate, and oil and gas ventures.

Asset dispositions frequently occur several years following our acquisition of such assets. Although we may pay out on our incentive compensation awards in a particular year, this compensation is often a result of years of cumulative efforts that are recognized when there is a monetization event. For example, none of our NEOs have received cash incentive award payouts since 2009 (however, our Chief Accounting Officer received a discretionary cash bonus due to his contributions to the successful initial public offering of our subsidiary UCP, Inc. in 2013). This practice seeks to

closely align the compensation of our executive officers with our long-term corporate objectives and risk tolerance and the long-term interests of our shareholders.

Because our business model has always focused on long-term objectives rather than short-term earnings, our compensation arrangements have principally been driven by increases in shareholder equity over the long-term. For example, our cash incentive awards have historically been based on our relative increase in book value per share over a multi-year performance period - in order to receive a payment, annual growth in book value per share had to exceed a threshold level of 80% of the Standard & Poor's annualized total return for the previous five years.

When we revised our business model, we also modified our executive compensation program to seek to align our executive compensation with the objective of returning capital to shareholders as assets are monetized. Starting in 2016, our cash incentive awards are based on the value created from assets that are monetized in excess of their respective book values as of December 31, 2015 and are tied to the return of capital to shareholders. At the same time, we made certain other changes to our executive compensation program in response to feedback we received from our shareholders in connection with our 2015 say-on-pay vote, such as reducing the base salary of our CEO by 54%.

2015 Say-on-Pay Vote and Shareholder Engagement

At our 2015 Annual Shareholder Meeting, 44.4% of the shares voted regarding say-on-pay voted in favor of our non-binding, advisory vote on our executive compensation program. During 2015 our Board Chair or our Compensation Committee Chair spoke with key shareholders, who collectively owned approximately 36.4% of our shares at the time of the conversations, to understand the reasons for their vote on our 2015 say-on-pay proposal as well as any comments they had on our executive compensation program. Our Compensation Committee considered the results of the vote and reviewed feedback we have received on our executive compensation program from this shareholder outreach along with the reports of Institutional Shareholder Services (“ISS”) and Glass Lewis. Our Compensation Committee took this feedback into account when we modified our executive compensation program to seek to align our executive compensation with our revised business model and specifically the objective of returning capital to shareholders as assets are monetized. Starting in 2016, our cash incentive awards are based on the value created from assets that are monetized in excess of their respective book values as of December 31, 2015 and are tied to the return of capital to shareholders. In response to feedback we received from our shareholders in connection with our 2015 say-on-pay vote, we also made certain other changes to our executive compensation program, such as reducing the base salary of our CEO by 54%.

Executive Compensation Program

Our Compensation Philosophy

We have a simple compensation philosophy, which is to hire good people, pay them for performance that is measured by increases in shareholder value and retain the team that is instrumental to our success. We define “good people” as individuals who are smart, resourceful, experienced, hardworking, and ethical. A relatively small number of people have been part of the core team of executives responsible for driving our performance over the long-term. Our CEO and CFO have been employed with us for over 19 years and our CAO for nearly 18 years.

We consider retention of our key executives important because it could be very disruptive and costly for our business if we needed to replace any of our key executives. Our CEO was instrumental in restructuring the Company and developing and implementing our prior and revised business models. Our other NEOs (as well as the senior executives

of our businesses) are his handpicked team that has assisted our CEO in successfully executing our business strategy, in many cases for over a decade. They have acquired a valuable and specific skill set over the years with us that we would have a difficult time replacing. Our small management team provides for more efficient decision making and greater accountability.

In line with our philosophy to reward our executive officers for successful performance, historically, we have structured our cash incentive programs to reward them for achieving superior growth in book value per share with moderate risk. We used the growth in our book value per share because that metric focused our management team on overall business growth and long-term profitability, which directly influences shareholder value. Starting in 2016, our cash incentive awards will be tied to the return of capital to shareholders.

We have also used changes in our stock price as a metric for measuring our long-term performance. Our CEO and other NEOs have been awarded stock-based compensation in the form of service vesting restricted stock units (“RSU”), performance-based price-contingent stock options (“PBO”), and prior to 2007 in the form of stock-settled appreciation rights (“SAR”). Their compensation is, therefore, closely aligned to the long-term growth in our stock price. However, in conjunction with our revised business model, we do not anticipate granting any additional stock-based compensation to our NEO's in the foreseeable future.

The Role of the Compensation Committee in Determining Executive Compensation

Our executive compensation program is subject to a thorough process that includes Compensation Committee review and approval of program design and practices; the advice of an independent third-party compensation consultant engaged by the Compensation Committee; and a consistently applied philosophy with respect to incentive compensation. Our compensation program is intended to be equitable, accountable, transparent and shareholder-centric.

Our Compensation Committee is composed of “outside directors” within the meaning of Section 162(m) of the Internal Revenue Code and “non-employee directors” within the meaning of Exchange Act Rule 16b-3, who also meet the independence requirements of the NASDAQ Global Market. The Compensation Committee is responsible for assuring that all of our executive compensation decisions are developed, implemented and administered in a way that supports our fundamental philosophy that a significant portion of executive compensation is linked to our performance. To this end, the Compensation Committee oversees and administers all of our executive compensation plans and policies, administers our 2014 Equity Incentive Plan (including reviewing and approving grants of awards under the 2014 Equity Incentive Plan), and annually reviews and approves the individual elements of the NEOs’ total compensation packages.

Management Interaction with Committee

In carrying out its responsibilities, our Compensation Committee works with members of our management team, including our CEO. The management team assists our Compensation Committee by providing information on Company and individual performance, market data, and management’s perspective and recommendations on compensation matters. Our Compensation Committee solicits and reviews the CEO’s recommendations and proposals with respect to annual cash compensation adjustments, equity incentive awards, program structures, and other compensation-related matters (other than for the CEO). Our Compensation Committee uses the CEO’s recommendations and proposals as one of many factors in reviewing and approving the compensation for our other NEOs and direct reports to the CEO. Our Compensation Committee meets in executive session to set the compensation of our CEO.

Use of Independent Compensation Consultant

Our Compensation Committee engages an independent compensation consultant to provide the Committee with information, recommendations, and other advice relating to executive compensation. For fiscal 2015, the Committee engaged Compensia to serve as the independent compensation advisor. Compensia serves at the discretion of the Committee and regularly meets with the Committee, both with and without management present.

In fiscal 2015, Compensia regularly participated in Committee meetings and provided assistance to the Committee, including:

- ü Refresh peer groups for the executive compensation analysis;

- ü

- Review and analysis related to our executive officers' base salaries, annual cash incentive compensation, and equity incentive compensation levels and plan structures;
- ü Assessment of industry trends, corporate governance and legislative environment;
 - Develop "tally sheets" to provide a comprehensive view of our executive officers' total compensation arrangements, including cash compensation (fixed and variable), equity incentive compensation (past awards and the current and projected values of these awards), and post-employment obligations (severance and change-of control-benefits);
- ü Review of equity compensation design and strategy; and
- ü Review of our compensation discussion and analysis disclosure.

In fiscal 2015, Compensia did not provide any services to management. The Committee reviewed Compensia's independence in fiscal 2015 and found that there were no conflicts of interest.

Use of Market Data

For purposes of comparing our executive compensation against the competitive market, our Compensation Committee utilizes two sets of peer groups. Our primary peer group consists of 12 companies that we believe most closely match us in terms of business structure and were within our desired range for gross assets and market capitalization. Our secondary peer group consists of 20 companies from the broader financial industry that were within our desired range for gross assets and market capitalization. We use the primary peer group to provide us compensation information for companies which we believe are most like us. However, because of the limited number of companies we could identify, we use the broader group to provide a more general understanding of compensation levels and design for financial companies. We limit peer companies to a range of between 50% and 200% of our gross assets and market capitalization at the time we review the peers. The Committee reviews our peer groups annually and makes adjustments to its composition as it deems necessary, taking into account changes in our business and the businesses of the companies in the peer group. Based on Compensia's market analysis in late 2014, the Committee decided no changes were required to our primary peer group or our secondary peer group.

Our primary peer group consisted of the following 12 companies:

Biglari Holdings	Hercules Technology Growth Cap	MCG Capital
Blackstone Mortgage Trust	ICG Group	Otter Tail
Capital Southwest	KCAP Capital	Safeguard Scientifics
Harris & Harris Group	Main Street Capital	Triangle Capital

Our secondary peer group consisted of the following 20 companies:

Biglari Holdings	GFI Group	MCG Capital
Calamos Asset Management	Green Dot	Otter Tail
Capital Southwest	Greenhill & Co	Piper Jaffray
Cowen Group	Hercules Technology Growth Cap	Safeguard Scientifics
Encore Capital Group	HFF	Triangle Capital
Evercore Partners	Ladenburg Thalmann Financial	World Acceptance
FBR & Co	Main Street Capital	

To analyze the compensation practices of the peer group companies, Compensia gathered data from public filings. This market data, consisting of the peer proxy data was then used as a reference point for the Committee to assess our current compensation levels in the course of its deliberations on compensation forms and amounts. Our Compensation Committee also considered how much hedge funds or private equity groups would receive as fees if it had the same amount of assets under management as our gross assets, because our key executives may have opportunities in the hedge fund and private equity industry. Understanding the fee structure of hedge funds and private equity provides the Committee an additional data point on the competitiveness of our executive compensation program.

Determining the Amount of Compensation for Our NEOs

The amount of compensation we provide our NEOs is intended to be:

Reasonable and appropriate for our business needs and circumstances. Our Compensation Committee considers as reference points for comparative purposes compensation practices of other public companies as well as hedge funds and private equity funds where our executives may be able to find employment. While we develop peer groups for reviewing market practices, because of our unique business model, we use the peer groups for informational purposes and do not target specific benchmark percentiles.

Internally fair and equitable relative to roles, responsibilities and work relationships. Management and the Compensation Committee may consider certain business and individual factors to evaluate internal fairness and equity. We do not attempt to establish specific internal relationships among the NEOs.

Variable from year-to-year based on our performance (“pay-for-performance”). Our historic annual cash incentive program and equity incentive awards deliver compensation to our NEOs when we achieve our financial objective of growing book value per share and the price of our stock appreciates above the value of the equity based award. Starting in 2016, our cash incentive awards are based on the value created from asset monetizations in excess of their book value and will be tied to the return of capital to shareholders.

Reflective of the lean management structure we employ. We have a limited set of executives and staff running our operations. This keeps our overall corporate overhead at reasonable levels, but also demands more from our team. The Compensation Committee takes into account the overall cost savings of our model when considering compensation.

Focused on retaining the core team of executives. Retention of our core team of executives is critical to our business strategy, because the loss of any executive could require significant resources to replace. The Compensation Committee considers the retention of the executives when designing the executive compensation program.

Components of Our NEO Compensation Program

The following table includes the various components that have been part of our executive compensation program:

Component	Purpose	Form	Pay-for-Performance	Comment
Base salary	Provide sufficient competitive pay to attract and retain experienced and successful executives.	Cash	Adjustments to base salary generally consider individual performance, contributions to the business, competitive practices and internal comparisons.	Annual fixed cash compensation. Base salary reflects the employee's level of responsibility, expertise, skills, knowledge and experience. For our CEO, base salary is fixed for the term of his employment agreement, subject to annual cost of living adjustments. For our other NEOs, base salary is reviewed on an annual basis.
Cash incentive	Encourage and reward contributions to our financial results. Engage executives in execution of our business strategy. Emphasize accountability for results.	Cash	The potential award amount varies with the degree to which we increase our book value per share in comparison to the performance of the S&P 500 over a five-year period. Starting in 2016, our cash incentive awards are based on the value created from asset monetizations in excess of their book value and will be tied to the return of capital to shareholders.	Annual variable cash compensation. The Compensation Committee determines and approves the actual amount earned after the close of the fiscal year.
Equity incentive	Encourage and reward building long-term shareholder value, employment retention and company stock ownership. Align executives with shareholder interests and retain executive officers through	RSU and PBO	RSU retain executives and align them with shareholders’ interests by awarding a fixed number of shares upon vesting. PBO reward building long-term shareholder value (see equity compensation section for a more detailed description of PBO).	The Compensation Committee, at its sole discretion, determines whether to grant stock-based awards in any year. We require stock ownership through stock ownership guidelines applicable to our CEO, CFO and other designated executive officers. The Compensation Committee did not grant any equity incentives to our

long-term vesting.

NEO's in 2015 or 2016 and we do not anticipate granting any further equity incentives to our NEOs for the foreseeable future.

We also provide the following compensation and benefit programs to our executives, many of which are broadly available to all of our employees:

Component	Objectives and Basis	Form
Retirement benefits	Retain and recruit our executive officers.	401(k) plan. Provides a tax-deferred means to save for retirement. The NEOs have the opportunity to participate in this Section 401(k) plan on the same basis as all of our other employees.
Deferred compensation opportunity	Retain and recruit our executive officers by offering them an opportunity to defer income tax on amounts deferred.	Non-qualified deferred compensation plan. We do not make any matching or other contributions to the nonqualified deferred compensation plan. The amounts deferred under the plan are credited with interest, earnings, appreciation, losses and depreciation based on the performance of equities, bonds or cash selected by the participants, and are held in a grantor trust, the assets of which are subject to the claims of our creditors.
Insurance and other benefits	Provide for the safety and wellness of all of our employees, including our executive officers.	These benefits include health insurance, life insurance, dental insurance, vision insurance, and disability insurance, which are available to all employees, including our NEOs, on a nondiscriminatory basis.
Termination and severance benefits	Retain and recruit our executive officers.	Various, including cash and accelerated vesting of equity incentives in certain circumstances.

2015 and 2016 Executive Compensation Decisions

Assessment of 2015 Executive Officer Compensation

During 2015, the Compensation Committee performed a formal assessment of our executive compensation program with assistance from its independent executive compensation consulting firm, Compensia. As explained in greater detail in the following section, we took the following actions regarding executive compensation in 2015:

- Our CEO received a base salary increase of 3% to reflect cost of living adjustments effective as of January 1, 2015;
- Our CFO and Chief Accounting Officer (“CAO”) each received a 10% increase in base salary effective January 1, 2015. Our CFO's increase in salary was due to his increased responsibilities by assuming the position of Corporate Secretary when our previous Corporate Secretary retired and our CAO's increase in salary was a merit based increase;
- None of our executive officers earned a cash incentive award in 2015 under our incentive plan; and
- None of our executive officers were granted any stock-based compensation in 2015 in contemplation of the modified executive compensation plan that was adopted in March 2016 to align with the revision to our business model.

2015 Cash Compensation

Base Salary: At the beginning of 2015, we increased the base salaries of our CEO, CFO, and CAO by the following amounts as shown below. As noted above, the Compensation Committee and Board of Directors approved modifications to our executive compensation plan in February 2016. These modifications included reducing the base salaries of our CEO and CFO as shown in the following table.

Officer	2014	2015	2015	2016	2016
	Salary	Change	Salary	Change	Salary
John R. Hart	\$2,113,000	3 %	\$2,176,390	(54)%	\$1,000,000
Maxim C.W. Webb	\$530,500	10 %	\$583,550	(15)%	\$496,000
John T. Perri	\$400,000	10 %	\$440,000	— %	\$440,000

Cash Incentive Awards: Historically and in 2015, we provided cash incentive award opportunities based on our increase in book value in comparison to a five-year annualized total return of the Standard & Poor's 500. While we would evaluate performance annually, the metrics related to our long-term performance, rather than a short-term focus on annual earnings. This is because changes in our book value may only be realized when we sell an investment after many years of work in developing it. Accordingly, these awards were designed to motivate our executive officers and align their interests with our business strategy and thus, the interests of our shareholders.

In order to receive a payment, annual growth in our book value per share had to exceed a threshold level of 80% of the Standard & Poor's 500's annualized total return for the previous five calendar years. We tied our cash incentive awards to the five-year average of the Standard & Poor's 500 index in order to emphasize long-term performance and to pay for relative performance that is better than the general market. We believe that this approach closely aligned our executive officers' pay with our corporate objectives and risk tolerance.

Our CEO's employment agreement in effect in 2015 provided that if our growth in book value per share in a fiscal year exceeded 80% of the Standard & Poor's 500's annualized total return for the previous five calendar years he would receive 7.5% of the increase in book value per share multiplied by the number of shares of our common stock outstanding at the beginning of the fiscal year.

Messrs. Webb and Perri had an annual incentive award equal to each of their base salaries multiplied by the ratio of the annual incentive compensation payments paid to our CEO to our CEO's base salary. For example, if our CEO's total incentive compensation payments equal 50% of his base salary, each of these NEOs is eligible to receive an incentive compensation award equal to 50% of his base salary. As a result, the incentive compensation opportunity for each of these two NEOs is based on the same growth in book value per share metric that is applicable to our CEO.

In 2015, our book value per share declined and as a result, none of our NEOs received an annual incentive compensation award for 2015.

As noted above, the Compensation Committee and Board of Directors approved modifications to our executive compensation program in February 2016 to align with our revised business plan. These modifications included revising the cash incentive plan to be based on the value created from assets monetized in excess of their respective book value as of December 31, 2015 and after deducting annual costs and taxes. In addition, such cash incentive-based compensation is tied to the return of capital to shareholders through a stock repurchase program or by other means such as special dividends.

2015 Equity Incentives

Due to the revised business plan that we announced in November 2015 and the related modifications to our executive compensation program, we did not grant any stock-based compensation to our NEOs in 2015 and we do not anticipate granting any further stock-based compensation to our NEOs for the foreseeable future.

Other Executive Compensation Matters

Claw Back Policy

In 2012 we adopted a policy that would require our CEO, CFO and other designated executive officers, to repay to us the amount of any annual cash incentive received to the extent that:

- The amount of such payment was based on the achievement of certain financial results that were subsequently the subject of a restatement that occurs within 12 months of such payment;
- The executive officer had engaged in theft, dishonesty or intentional falsification of our documents or records that resulted in the obligation to restate our financial results; and
- A lower annual cash incentive would have been paid to the executive officer based upon the restated financial results.

The Compensation Committee is responsible for the interpretation and enforcement of this repayment policy. We intend to amend our repayment policy to comply with any additional requirements of the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 after the SEC adopts regulations implementing those requirements.

Stock Ownership Guidelines

Our stock ownership guidelines for our CEO, CFO and other executive officers designated by the Compensation Committee help ensure that those officers maintain an equity stake in our Company, and by doing so, appropriately link their interests with those of other shareholders. We also have stock ownership guidelines for our non-employee directors, which are addressed below with the discussion of director compensation. These ownership guidelines count shares actually owned, vested deferred stock units, and 50% of the vested stock options and SAR towards the equity ownership requirement. Until the applicable stock ownership guideline is met, the officer is required to retain 25% of the net shares received as a result of the exercise of stock options or SAR and receipt of RSU. Each of our executive officers are in compliance with the guidelines.

The guidelines are as follows:

Role	Ownership Guideline
CEO	lesser of 275,000 shares or 3x base salary
CFO	lesser of 18,000 shares or 1x base salary
Other designated executive officers	lesser of 10,000 shares or 1x base salary

Termination and Change in Control

We provide certain termination of employment payments and benefits to our NEOs. We provide these payments and benefits to help retain and recruit our NEOs, which is one of the primary objectives of our executive compensation program. We believe that providing these benefits allows our NEOs to focus on our business and what is in the best interests of our shareholders regardless of the potential impact on them personally. Our Compensation Committee determined the level of benefits based on a review of the market by our independent compensation consultant, the recommendations of management and considering the nature of our business and executive compensation program.

All stock-based awards for our executives provide that the unvested equity awards assumed by a buyer in the event of a change of control would not automatically accelerate at the close of the transaction (that is, we have no “single trigger” benefits) and instead the vesting would only accelerate if there was a qualifying termination following the change in control (i.e., “double trigger” treatment of unvested awards).

See “Potential Payments upon Termination or Change in Control” for a more detailed description of our termination and change in control benefits for the NEOs.

Tax and Accounting Treatment of Compensation

Under Section 162(m) of the Internal Revenue Code, annual compensation in excess of \$1 million to each of a company’s CEO and three other most highly compensated executive officers, not including the CFO, (the “covered employees”) is not deductible as compensation expense for United States federal income tax purposes. However, certain types of compensation, including performance-based compensation, may be exempt from this limit if the material terms of the performance goals under which the compensation is to be paid have been disclosed to, and subsequently approved by the shareholders, and the additional requirements for exemption have been satisfied. In structuring the annual and equity incentive awards for our NEOs, we consider Section 162(m) and how compensation must be structured in order to qualify as “performance-based compensation.” In our discretion, we may try to qualify compensation as “performance-based,” but may also pay compensation that does not qualify as “performance-based” if the Compensation Committee determines that form of compensation is in the best interest of the Company and its shareholders.

To enable us to provide incentive compensation to our covered employees that may qualify for full federal income tax deductibility, we submitted a Performance Incentive Plan (“Plan”) to our shareholders in 2013, which shareholders approved. By approving the Plan, shareholders approved, among other things, the participant eligibility requirements, the performance criteria upon which incentive awards may be based, and the maximum dollar amount of compensation that may be paid to any participant for each fiscal year contained in the performance period applicable to an incentive award.

Under Internal Revenue Code Section 409A, a nonqualified deferred compensation plan, must comply with certain requirements related to the timing of deferral and distribution decisions, otherwise amounts deferred under the plan could be included in gross income when earned and be subject to additional penalty taxes. We administer our equity plans and equity awards in accordance with Section 409A requirements.

Compensation Risk Management

The Compensation Committee considered the risk in our compensation programs and practices and determined:

Our focus is on long-term growth with reasonable leverage, and this philosophy is conducive to minimizing compensation related risks;

Our incentive plans are well designed, effectively administered, focused on relevant performance measures;

Our plans are reasonable with respect to potential compensation levels;

The elements of our compensation plan are appropriately weighted in our overall mix that achieves a balance of focus between operating results and strategic results;

Base salaries for executive officers are sufficiently competitive to eliminate the need for them to take unnecessary risk in order to earn large incentives necessary to provide adequate cash compensation;

Equity-based compensation levels are competitive and sufficient to provide a balanced focus between short- and long-term priorities and results and does not encourage the taking of short-term risks at the expense of long-term results; and

Our insider trading policies, independent oversight by the Compensation Committee, and our stock ownership guidelines and “claw back policy” mitigate any potential risks in our compensation programs.

Based on this review, the Compensation Committee concluded that our compensation policies, plans, and practices do not encourage unnecessary or unreasonable risk-taking and do not encourage executives or employees to take risks that are reasonably likely to have a material adverse effect on us.

Compensation Committee Report

The following report of the Compensation Committee shall not be deemed to be “soliciting material” or to otherwise be considered “filed” with the SEC, nor shall such information be incorporated by reference into any future filing under the Securities Act of 1933, as amended, or the Exchange Act except to the extent that we specifically incorporate it by reference into such filing.

The Compensation Committee has reviewed and discussed the foregoing CD&A with management. Based on that review and discussion, the Compensation Committee has recommended to the Board of Directors, and the Board of Directors has approved, that the CD&A be included in this Amendment No. 1 on Form 10-K/A for the fiscal year ended December 31, 2015 and incorporated by reference into our proxy statement for our 2016 Annual Meeting of Stockholders.

Compensation Committee Interlocks and Insider Participation in Compensation Decisions

No current member of our Compensation Committee was at any time during the year ended December 31, 2015 or any other time, an officer or employee of our Company, and no current member had any relationship with us requiring disclosure of certain relationships and related person transaction. None of our executive officers has served on the board of directors or compensation committee (or other committee serving an equivalent function) of any other entity that has or has had one or more executive officers who served as a member of our Board of Directors or Compensation Committee during the year ended December 31, 2015.

Compensation Tables and Narrative Disclosures

The following tables, narrative disclosures and footnotes describe the total compensation and benefits for our NEOs for fiscal 2015. The values presented in the tables do not always reflect the actual compensation received by our NEOs during the fiscal year because some portion of an NEO's compensation may have been deferred pursuant to our nonqualified deferred compensation plan.

Summary Compensation Table

The following table presents information concerning the compensation of the NEOs for services during 2015, 2014, and 2013. The SEC's current executive compensation disclosure rules require us to value stock awards and option awards reported in the following table using the grant date fair value of the awards, rather than using the amount recognized for financial statement reporting purposes to value these awards.

The reported values reflect the aggregate grant date fair value computed in accordance with Financial Accounting Standards Board, Accounting Standards Codification Topic 718. As these values reflect the aggregate grant date fair value, they do not necessarily correspond to the actual value that may be recognized. The assumptions that we made to determine the value of our awards for accounting purposes are described in detail in Note 8 titled Stock-Based Compensation in the notes to consolidated financial statements included in our Annual Report on Form 10-K filed with the SEC on March 14, 2016.

(1) Amounts in this column include contributions made by us on behalf of the NEOs to the 401(k) plan, health savings account, and any expense reimbursements.

Grants of Plan-Based Awards

There were no equity or non equity-based awards granted to the NEOs during 2015.

Pension Benefits and Non-qualified Deferred Compensation Plans

We do not maintain any qualified or non-qualified defined benefit pension plans. Our executive officers, however, may make voluntary deferrals of salary, bonus and other cash compensation through our non-qualified deferred

compensation plan. We do not make any matching or other contributions to the non-qualified deferred compensation plan. Amounts deferred under the plan therefore have already been earned, but participating executive officers have chosen to defer receipt of the cash payment under the terms of the plan.

Each NEO who chooses to defer compensation under our non-qualified deferred compensation plan may elect, in accordance with Section 409A of the Internal Revenue Code, to receive payment in the form of a lump sum on a date certain or on separation from service, or in the form of up to 10 substantially equal annual installments beginning on a certain date or separation from service. Payment will automatically be made in a lump sum upon an executive officer's death. Payment under the plan may also be made in connection with an unforeseeable emergency or certain terminations of the plan.

Amounts deferred under the non-qualified deferred compensation plan are credited with interest, earnings, appreciation, losses and depreciation based on the performance of the investments held in the plan. Each individual participant bears their own market risk and reward for their own deferrals under the plan.

Non-qualified Deferred Compensation

The following table presents contributions to, earnings or losses from, and the aggregate deferred compensation balance for each NEO at and for the year ended December 31, 2015:

Name	Executive Contributions In 2015	Registrant Contributions In 2015	Aggregate Earnings (Losses) In 2015 ⁽¹⁾	Aggregate Withdrawals/ Distributions	Aggregate Balance at December 31, 2015 ⁽¹⁾

The balances shown in this table represent compensation previously reported in the Summary Compensation Table, (1) except for amounts attributable to aggregate earnings, which are not reportable in the Summary Compensation Table because we do not provide above market or preferential earnings on non-qualified deferred compensation.

Represents SAR held by each NEO as of December 31, 2015. The actual number of shares to be issued to an NEO (1) who exercises a SAR will be based on the net exercise value (that is, the market price per share of our stock on the date of exercise, minus the exercise price) times the number of SAR exercised, minus applicable taxes withheld in the form of shares. At December 31, 2015, none of the outstanding SAR held by our NEOs were in-the-money.

Represents PBO granted on November 14, 2014, pursuant to our 2014 Equity Incentive Plan. The PBO include a market condition based on the achievement of a stock price target during the contractual term and vest monthly over a three year period. Any vested portion of the options may be exercised only if the 30-trading-day average closing sales price of our common stock equals or exceeds 125% of the grant date stock price. The stock price contingency may be met any time before the options expire and it only needs to be met once for the PBO to remain exercisable for the remainder of the term. Of the total unexercisable PBO, 103,175 for Mr. Hart, 34,391 for Mr. Webb, and 26,138 for Mr. Perri were vested but unexercisable as the stock price contingency had not been met as of December 31, 2015.

Represents RSU granted on November 14, 2014, pursuant to our 2014 Equity Incentive Plan. These RSU are subject to the NEOs continued employment or service with us. The RSU will vest annually in four equal installments beginning on November 14, 2015, and may also vest earlier in connection with certain terminations of employment. The market value of the RSU reported above is based on \$10.32 per share, which was the closing market price of our common stock on December 31, 2015.

Potential Payments upon Termination or Change in Control

The following section describes the payments and benefits that our NEOs may receive in connection with their termination of employment with us, or in connection with a change in control of our Company. In addition to the amounts presented below, our NEOs may be entitled to the benefits quantified and described above under “Nonqualified Deferred Compensation.” The NEOs may also be entitled to additional severance payments and benefits under our severance benefit plan, which is generally available to all salaried employees and provides for two weeks of base salary for each full year of employment with us upon a termination of employment by us for any reason other than cause.

Please see our “Compensation Discussion and Analysis” for a discussion of how the payments and benefits presented below were determined.

2014 Equity Incentive Plan:

Upon a change in control of our Company, the plan administrator has the discretion to take any of the following actions with respect to stock awards:

provide for acceleration of the exercisability, vesting and/or settlement of any outstanding stock award or portion thereof;

- provide for the assumption, continuation or substitution of an outstanding stock award or portion thereof by a surviving, continuing, successor, or purchasing corporation or other business entity or parent thereof; or provide for any outstanding stock award or portion thereof denominated in shares of common stock to be canceled in exchange for a payment with respect to each vested share (and each unvested share, if so determined) of common stock subject to such canceled stock award in (i) cash, (ii) stock of our Company or of a corporation or other business entity a party to the change in control, or (iii) other property which, in any such case, shall be in an amount having a fair market value equal to the fair market value of the consideration to be paid per share of common stock in the change in control, reduced (but not below zero) by the exercise or purchase price per share, if any, under such stock award.

Under the 2014 Equity Incentive Plan, a “change in control” is generally the consummation of (i) the acquisition by a person or entity, directly or indirectly, of securities of our Company representing more than 50% of the total fair market value or total combined voting power of our Company’s then outstanding securities entitled to vote generally in the election of directors, (ii) a transaction or series of related transactions in which the shareholders of our Company immediately before the transaction do not retain immediately after the transaction direct or indirect beneficial ownership of more than 50% of the total combined voting power of the outstanding securities entitled to vote generally in the election of directors, or (iii) a date specified by the plan administrator following approval by the shareholders of a plan of complete liquidation or dissolution of our Company.

As indicated in the Outstanding Equity Awards at Fiscal Year-End table above, the only awards held by our NEOs at the end of 2015 were RSU, PBO, and SAR. Using the “in-the-money” value model, the value of the SAR and PBO awarded to our NEOs (assuming a change in control of our Company had occurred as of December 31, 2015) would be zero because the exercise price of all SAR and PBO granted before December 31, 2015 was greater than \$10.32, the closing market price of our common stock on the NASDAQ Global Market on December 31, 2015.

Mr. Hart. Pursuant to the operation of the terms of his employment agreement, in effect on December 31, 2015, if our CEO was terminated other than “for cause” or if he resigned for “good reason” or his employment ended due to death or disability, he was entitled to receive a separation package consisting of (i) the greater of (a) his base salary for the remaining term of this employment agreement or (b) two times his base salary at the date of termination; (ii)

immediate vesting of all unvested equity interests; (iii) continuation of health care benefits until his death or he accepts health coverage from another employer; and (iv) payment of the pro rata portion of any earned annual incentive award with respect to the year in which his employment is terminated. The amended employment agreement also permits us to pay a single lump sum amount of \$540,000 in lieu of continued health benefits if we determine that the benefits cannot be provided without incurring financial costs or penalties. Additionally, the RSU, PBO, and SAR awards held by Mr. Hart will fully vest upon his termination of employment without cause, excluding death or disability, and on a change in control transaction if the buyer does not assume or substitute for all equity awards.

Messrs. Webb and Perri. We have severance agreements with both Messrs. Webb and Perri. As in effect on December 31, 2015, these agreements provided that, in the event of involuntary termination of the executive without cause, the executive would receive a lump sum cash payment equal to the sum of (1) twenty-four months of the executive's base salary then in effect and (2) an amount equal to the executive's pro-rata share of any annual cash incentive award earned for the year in which involuntary termination occurred.

Estimated Potential Payments for our NEOs. The following table lists the estimated value of the RSU awarded to Messrs. Hart, Webb, and Perri assuming a change in control of our Company occurred on December 31, 2015. The amount of severance listed below for Mr. Hart is pursuant to his employment agreement and the amount of severance listed below for Messrs. Webb and Perri is pursuant to their severance agreements, in each case as in effect on December 31, 2015. PBO and SAR have been excluded as they were out-of-the-money at December 31, 2015.

Revised Employment and Severance Agreements Effective in 2016

In connection with the changes we made to our executive compensation program to align with the revision to our business plan that we announced in November 2015, on March 11, 2016, we entered into 1) an amended employment agreement with Mr. Hart, 2) amended severance agreements with Messrs. Webb and Perri and 3) an executive bonus plan covering Messrs. Hart, Webb and Perri.

Mr. Hart's Amended Employment Agreement

The amended employment agreement with Mr. Hart superseded and replaced his previous employment agreement and provides the following:

- a five year term ending on March 11, 2021;
- an annual base salary of \$1 million including the standard benefits package made available to other full time employees of our Company;
-

certain termination benefits, as described
below; and
participation in the revised executive bonus plan (described below).

If terminated without cause, Mr. Hart is entitled to 1) a lump-sum payment of \$10 million, 2) payment of family health benefits through the earlier of Mr. Hart's death or his acceptance of health coverage from another employer, although we could pay Mr. Hart a one-time payment of \$540,000 as satisfaction of this obligation under certain circumstances, 3) payment of all accrued vacation and other time off, including an additional \$389,000 which is the amount of the difference between (a) the value of such accrued vacation and time off at December 31, 2015 calculated using his annual base salary on such date and (b) the value of that benefit using his revised base salary under the new agreement, 4) immediate vesting of any outstanding unvested stock-based awards, and 5) any bonus earned as described below.

If Mr. Hart terminates his employment with us for good reason as defined in the agreement, the lump-sum payment noted above is reduced to \$5 million unless such termination is in connection with an approval by our Board of Directors to materially change our current business plan.

If Mr. Hart's employment with us is terminated due to the expiration of the term of the amended employment agreement, Mr. Hart will be entitled to all benefits payable under a termination without cause, except for the bonus; provided, however, that the lump-sum payment will be reduced to \$5 million.

In the event that Mr. Hart's employment with us is terminated due to death or disability, Mr. Hart's beneficiary will be entitled to the benefits payable under a termination without cause; provided, however, that the lump-sum payment will also be reduced to \$5 million.

The Amended Severance Agreements

The amended and restated five year severance agreements with Messrs. Webb and Perri superseded similar agreements entered into during 2012. Each agreement provides for the payment of the lower of two years base salary or the base salary of the then-remaining portion of the term, participation in our revised executive bonus plan as described below, and payment of up to one year of COBRA expenses, in the event of an involuntary termination of employment (other than for "cause") or a resignation for "good reason."

Concurrently with the execution of his amended severance agreement, Mr. Webb voluntarily reduced his annual base salary to \$496,000, which reflects an approximately 15% reduction from his previous base salary of \$583,550.

Revised Executive Bonus Plan

Our revised executive bonus plan is effective from January 1, 2016 through December 31, 2020 and replaced and superseded the previous bonus plan maintained by us for Mr. Hart, Mr. Webb and Mr. Perri. Such arrangement awards an annual bonus only if 1) there is a net gain derived from a sale or other disposal of assets, as defined, and 2) cash proceeds from such transactions are distributed directly to our shareholders during the same year.

The agreement establishes a bonus pool that is calculated as 20% of the adjusted total net gain from assets sold or otherwise disposed. The plan defines the total net gain as the difference between the cash received in sale or other disposal transactions less (a) the book value of each such asset as of December 31, 2015, as determined in accordance with U.S. GAAP, subject to adjustment by the Compensation Committee to the extent necessary to reflect the capitalization of costs with respect to such assets as required by GAAP after December 31, 2015; (b) any bonus paid or payable to management for the sale or other disposition of each such asset, other than any bonus under the bonus plan; and (c) administrative expenses specified in the bonus plan. Such total net gain is then also multiplied by an adjustment factor resulting in an adjusted total net gain. The adjustment factor is a fraction, the numerator of which is the total amount of cash distributed or committed to be distributed to our shareholders with respect to all such assets sold or otherwise disposed of during the year, and the denominator, which is the total amount of cash received after

payment of all selling costs, including any fees and commissions for which all such assets were sold or otherwise disposed of during the year. For assets distributed directly to our shareholders, the adjustment factor is 100%. The resulting bonus pool is allocated 75% to Mr. Hart, 15% to Mr. Webb and 10% to Mr. Perri. Each individual will be entitled to his allocated portion of the bonus pool for the year if employed by us on the last day of the year. However, in the event that Mr. Hart's, Mr. Webb's or Mr. Perri's employment with us is terminated in certain circumstances as provided in their amended agreements such terminated individual will be entitled to payment of an amount under the bonus plan for a portion of the year in which such termination occurs.

For assets sold or otherwise disposed of entirely or partially for non-cash consideration, the calculation of total net gain with respect to the non-cash consideration will instead be made in the year in which the non-cash consideration is ultimately sold or otherwise disposed of for cash. For assets distributed directly to our shareholders, other than an asset resulting from a previous sale or other disposal of an asset for non-cash consideration as described in the preceding sentence, the total net gain will be determined by deducting items (a) through (c) above from the value of such assets upon such distribution, as determined in accordance with GAAP.

Director Compensation

Our non-employee director compensation program provided for the following during 2015: (1) all of our non-employee directors received annual cash compensation of \$80,000 and \$50,000 of RSU, which vest annually from the date of grant (2) our Chair of the Board of Directors received additional annual cash compensation of \$45,000; (3) the Chairs of our Audit, Compensation, and Corporate Governance and Nominating Committees each received additional annual cash compensation of \$20,000, \$15,000, and \$10,000, respectively; (4) a daily fee paid in cash for attendance at educational activities or seminars, which has an annual maximum of \$5,000; and (5) no annual cost of living increase in board and committee fees.

Pursuant to the Compensation Committee's recommendation each non-employee director received 3,050 RSU on June 3, 2015. These awards will vest in their entirety on June 3, 2016 for those directors who are serving on our Board of Directors at that time. The following table sets forth compensation earned during 2015 for each non-employee director who served during 2015.

Each director was granted 3,050 RSU in June 2015. The total value of the stock awards is based on the closing (1) market price of our common stock on the date of grant. The directors held no other stock-based awards as of December 31, 2015.

Ms. Leslie and Mr. Deuster resigned as members of our Board of Directors and as members of all committees effective February 3, 2016. Dr. Sullivan resigned as a member of our Board of Directors and as a member of all (2) committees effective December 31, 2015. The stock awards granted in June 2015 to each of these members of our Board of Directors were terminated upon each of their resignations and therefore such awards will not vest in June 2016.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

The following table sets forth information, as of April 1, 2016, with respect to the beneficial ownership of our common stock by (i) each person whom we know to be the beneficial owner of more than 5% of our common stock based upon Schedule 13G and Schedule 13D reports filed with the SEC, (ii) each of our directors, (iii) each NEO listed in our Summary Compensation Table, and (iv) all of our current executive officers and directors as a group.

Unless otherwise indicated, the business address for each person is 7979 Ivanhoe Avenue, Suite 300, La Jolla, CA 92037. The amounts and percentages of common stock beneficially owned are reported on the basis of regulations of the SEC governing the determination of beneficial ownership of securities. Under the rules of the SEC, a person is deemed to be a “beneficial owner” of a security if that person has or shares “voting power,” which includes the power to vote or to direct the voting of such security, or “investment power,” which includes the power to dispose of or to direct the disposition of such security. A person is also deemed to be a beneficial owner of any securities of which that person has a right to acquire beneficial ownership within 60 days. Under these rules, more than one person may be deemed a beneficial owner of the same securities and a person may be deemed a beneficial owner of securities as to which he has no economic interest.

Except as otherwise noted, we believe, based on the information furnished to us, that the persons named in the table below have sole voting and investment power with respect to all shares of common stock reflected as beneficially owned, subject to applicable community property laws. As of April 1, 2016, 23,037,587 shares of our common stock were outstanding.

EQUITY COMPENSATION PLAN INFORMATION

We currently maintain one equity compensation plan, the 2014 Equity Incentive Plan, which was approved by our shareholders in 2014. The following table sets forth information with respect to the number of shares of common stock subject to outstanding awards and remaining available for issuance under the 2014 Equity Incentive Plan as of December 31, 2015.

Plan Category	(a) Number of Securities To Be Issued Upon Exercise of Outstanding Options, Warrants and Rights	(b) Weighted-Average Exercise Price of Outstanding Options, Warrants and Rights	(c) Number of Securities Remaining Available for Future Issuance Under Equity Compensation Plans (Excluding Securities Reflected in Column (a))
Equity compensation plans approved by security holders ⁽¹⁾	1,048,463	\$ 28.25	1,974,902
Equity compensation plans not approved by security holders ⁽²⁾			

Column (a) represents the total number of underlying shares that could be issued upon the exercise of SAR, the vesting of RSU granted, the exercise of vested PBO, the vesting of PBO granted, and column (c) represents awards available for future issuances under our 2014 Equity Incentive Plan. In accordance with SEC disclosure rules, the weighted-average exercise price reported in column (b) does not take into account RSU because they have no exercise price. The actual number of shares to be issued to a grantee who exercises each SAR will be based on the net exercise value (that is, the market value price per share of our stock on the date of exercise, minus the exercise price) times the number of SAR exercised, minus applicable taxes withheld in the form of shares. The actual number of shares to be issued to an employee upon vesting of an RSU will be based on the total number of shares (1) of stock issued at vesting, minus applicable taxes withheld in the form of shares. The actual number of shares to be issued to an employee who exercises vested PBO, after the price contingency has been met, will be based on the exercise value times the number of PBO exercised, minus applicable taxes withheld in the form of shares. At December 31, 2015, none of the outstanding SAR issued were in-the-money and therefore no additional shares would be issued upon assumed exercise of the SAR. As of December 31, 2015, there were no PBO exercisable as the market condition had not been met and therefore no additional shares would be issued upon assumed exercise of the PBO. Of the 1 million shares of stock to be issued upon exercise of outstanding awards in column (a), 486,470 shares are underlying outstanding SAR that are fully vested and 163,703 shares are underlying PBO that are fully vested.

(2) We have no equity compensation plans that have not been approved by our shareholders.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS AND DIRECTOR INDEPENDENCE

Related Persons Transactions

Kenneth J. Slepicka, a Director of our Company, is currently the chairman, chief executive officer and acting chief financial officer of Synthonics, Inc. (“Synthonics”). In 2010 and 2013, the Audit Committee approved investments by the Company of \$2.1 million and \$110,000, respectively, in shares of Series D Convertible Voting Preferred Stock of

Synthonics. In addition, the Audit Committee approved a \$450,000 line of credit to Synthonics during 2014, which bore interest at 15% per annum. The outstanding balance and accrued interest was repaid in April 2015.

On January 20, 2015, we sold two equity securities with a cost basis of \$2.3 million to certain deferred compensation Rabbi Trust accounts held by us, for the benefit of our CEO John R. Hart for total proceeds of \$5 million, which represented the market value of these securities on the date of sale. The equity securities sold were classified as Level 2 securities and possess limited liquidity. The sale of these securities to the deferred compensation Rabbi Trust accounts was to provide us with additional liquidity. The transaction was approved by our Audit Committee on January 19, 2015.

Procedures for Approval of Related Persons Transactions

To ensure the broadest possible compliance with the NASDAQ Stock Market listing standards and Regulation S-K, Item 404, our Audit Committee charter provides that the Audit Committee will review and approve, in accordance with written procedures adopted by the Board of Directors, all transactions between us and persons or entities affiliated with our officers, directors or principal common stockholders.

After reviewing a particular transaction or proposed transaction, management and the Audit Committee will determine if disclosure in our public filings is necessary and appropriate under Item 404.

Director Independence

Our Board of Directors has determined that Carlos C. Campbell, Michael J. Machado, Raymond V. Marino II, Daniel B. Silvers, Howard B. Brownstein, Andrew F. Cates, and Eric H. Speron were “independent directors” within the meaning set forth under applicable rules of the NASDAQ Stock Market. John R. Hart and Kenneth J. Slepicka were not “independent directors” under those standards. John R. Hart and Kenneth J. Slepicka were not independent Directors in 2015 as the term “independent” is defined by Nasdaq Listing Rule 5605 (a) (2). John R. Hart is an employee of our Company. Kenneth J. Slepicka has a relationship with us as described under “Related Persons Transactions” above. The independent directors have regularly scheduled executive session meetings at which only the independent directors are present. During 2015, executive sessions were led by Kristina M. Leslie, who was an independent director and served as Chair of the Board prior to her resignation from the Board of Directors in February 2016. In March 2016, Mr. Marino, an independent director, was appointed Chair of the Board and has led executive sessions following his appointment. An executive session is held in conjunction with each regularly scheduled quarterly meeting and other sessions may be called by the Chair of the Board in his own discretion or at the request of our Board of Directors.

The following table sets forth the aggregate fees billed by our independent registered public accounting firm, Deloitte & Touche LLP, the member firms of Deloitte Touche Tohmatsu, and their respective affiliates for the fiscal years ended December 31, 2015 and December 31, 2014:

Audit Fees consist of fees we paid for (i) the audit of our annual financial statements included in our Annual Reports on Forms 10-K and reviews of our quarterly financial statements included in our Quarterly Reports on Forms 10-Q; (ii) services that are normally provided by Deloitte & Touche LLP in connection with statutory and regulatory audits or consents; and (iii) the audit of our internal control over financial reporting with the objective of obtaining reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects.

Tax Fees consist of fees for professional services for tax compliance, which totaled \$352,164 in 2015 and \$276,766 in 2014 and tax planning and advice services, which totaled \$33,320 in 2015 and \$169,620 in 2014. These services included assistance regarding United States federal, state, and local tax return preparation, tax audits and appeals, advice on structuring potential transactions, and intra-group restructuring.

Audit-Related Fees consist of fees we paid for services related to proposed or consummated transactions and attestation services not required by statute or regulation and the related accounting or disclosure treatment for such transactions or events.

The Audit Committee has determined that the provision of non-audit services listed above is compatible with the independence of Deloitte & Touche LLP. All services above were pre-approved by the Audit Committee.

Audit Committee Pre-Approval Policy

Consistent with SEC policies regarding independence, the Audit Committee has responsibility for appointing, setting compensation and overseeing the work of the independent registered public accounting firm. In recognition of this responsibility, the Audit Committee has recommended, and the Board of Directors has approved, pre-approval guidelines for all audit and non-audit services to be provided by the independent registered public accounting firm.

These pre-approval guidelines are:

1. At the earliest possible date, management shall inform the Audit Committee of each audit or non-audit service which management desires our independent registered public accounting firm to perform;
2. Management shall promptly provide to the Audit Committee detailed information about the particular services to be provided by our independent registered public accounting firm;
3. The supporting documentation provided to the Audit Committee by management shall be sufficiently detailed so that the Audit Committee knows precisely what services it is being asked to pre-approve; and
4. The Audit Committee has delegated pre-approval authority to the Chair of the Audit Committee. All such pre-approvals shall be presented to the full Audit Committee at the Audit Committee's next scheduled meeting.
