If and to the extent required by applicable rule or regulation, the information contained under Item 8.01 below is hereby incorporated by reference into this Item 2.04.

Item 8.01 Other Events.

The last reported sale price of SunPower Corporation's class A common stock on at least 20 of the last 30 trading days during the company's third fiscal quarter ending September 28, 2008 equaled or exceeded \$70.94, which represents 125% of the conversion price for one of the company's two outstanding series of senior convertible debentures. Accordingly, pursuant to the terms of the indenture governing the company's \$200 million aggregate principal amount of 1.25% senior convertible debentures due 2027, the market price conversion trigger has been satisfied and the debentures may be converted at the holders' option during the company's fourth fiscal quarter ending December 28, 2008.

The disclosure above is qualified in its entirety by the text of the applicable indenture and first supplemental indenture, which describe in further detail all of the conversion features of the debentures and which were filed on February 8, 2007 with Securities and Exchange Commission as exhibits to the company's Current Report on Form 8-K.

A copy of the press release, dated September 25, 2008, announcing the satisfaction of the market price conversion trigger is filed herewith as Exhibit 99.1 and incorporated by reference herein.
