## NEWS RELEASE

November 18, 2005

TELUS members ratify new five-year agreement with TELUS  
64.1 per cent accept agreement

Vancouver, B.C. - TELUS today announced that it has been advised by the Telecommunications Workers Union ( TWU ) that the majority of its members have voted to accept the second memorandum of agreement reached on November 6

## Edgar Filing: TELUS CORP - Form 6-K

between the Company and the TWU executive council and bargaining committee. The terms and conditions of the new collective agreement now become effective as of November 20, 2005. 64.1 per cent of the 10,566 employees who voted during the ratification process accepted the agreement.

The positive ratification vote concludes the labour disruption at TELUS that began on July 21. Within 72 hours, TELUS will begin the complex process of bringing approximately 8,200 striking employees back to work over the next two weeks.

I am thankful our unionized employees have accepted a negotiated agreement that recognizes their role in our continued success and provides TELUS with the capability we need to compete effectively. The end of the labour disruption marks the beginning of a new and exciting chapter for TELUS and all our team members, said Darren Entwistle, President and CEO of TELUS Corporation. By bringing this matter to a positive conclusion, we are now able to focus our collective talent and energy on serving our customers, launching new services and advancing our leadership position in a highly competitive and changing telecommunications industry. On behalf of the entire TELUS team, I would like to express sincere appreciation to our customers for their patience and loyalty during a challenging time.

Highlights of the collective agreement which applies to approximately 14,000 unionized employees, predominantly located in British Columbia and Alberta, include:

- \* Five-year agreement effective November 20, 2005 to November 19, 2010.
- \* Compensation consistent with agreement implemented by TELUS on July 22, 2005 with base pay increases of 2.0 or 2.5 per cent in each of 2005 and 2006 and 2.0 per cent in 2007 and beyond, plus cost of living adjustments in 2009 and 2010. In addition to base pay, variable pay based on achieving corporate and business unit targets. At target, variable pay would be 3 per cent of base earnings in 2005, 4 per cent in 2006 and 5 per cent in 2007 and beyond.
- \* Alberta employees' wages will be harmonized with similar positions in B.C. over the duration of this agreement.
- \* Consistent with TELUS' previously disclosed estimates, the payments for retroactive service since the expiry of previous collective agreements and other lump sums payable on ratification total approximately \$200 million. A portion of this amount has already been paid out to working bargaining unit members in the third quarter and the balance is expected to be paid out by the end of 2005.
- \* Contracting out provisions that provide TELUS with improved flexibility in a competitive telecoms market while addressing the employment security concerns of employees.
- \* Specific provisions have been provided for employees impacted by the outsourcing of non-core functions or the consolidation of some customer service and administrative functions. These provisions include high quality voluntary severance packages consistent with past TELUS practice, or the opportunity to be redeployed within TELUS' core operations.
- \* Foundation for a renewed and constructive union management relationship, including establishment of a Common Interest Forum and an agreement between the parties to work together to withdraw all outstanding Canada Industrial Relations Board cases and other legal proceedings.

The ratified agreement concludes the complex five-year process of merging six separate collective agreements, formerly represented by five different unions,
