  There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.

Subsequent to January 31, 2009, and during the period this Portfolio of Investments was prepared there may have been reductions to the ratings of certain bonds resulting from changes to the ratings of the underlying insurers both during the period and after period end. Such reductions would likely reduce the effective rating of many of the bonds insured by that insurer or insurers presented at period end.

#### **Fair Value Measurements**

During the current fiscal period, the Fund adopted the provisions of Statement of Financial Accounting Standards No. 157 (SFAS No. 157) [Fair Value Measurements.] SFAS No. 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosure about fair value measurements. In determining the value of the Fund[s investments various inputs are used. These inputs are summarized in the three broad levels listed below:

- Level 1 ☐ Quoted prices in active markets for identical securities.
- Level 2  $\square$  Other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).
- Level 3 ☐ Significant unobservable inputs (including management☐s assumptions in determining the fair value of investments).

The inputs or methodology used for valuing securities are not an indication of the risk associated with investing in those securities.

The following is a summary of the Fund\(\sigma\) s fair value measurements as of January 31, 2009:

	Level 1	Level 2	Level 3	Total
Investments	\$ []	\$124,791,246	\$ []	\$124,791,246

# **Income Tax Information**

The following information is presented on an income tax basis. Differences between amounts for financial statement and federal income tax purposes are primarily due to timing differences in recognizing taxable market discount, timing differences in recognizing certain gains and losses on investment transactions and the treatment of investments in inverse floating rate transactions subject to SFAS No. 140. To the extent that differences arise that are permanent in nature, such amounts are reclassified within the capital accounts on the Statement of Assets and Liabilities presented in the annual report, based on their federal tax basis treatment; temporary differences do not require reclassification. Temporary and permanent differences do not impact the net asset value of the Fund.

At January 31, 2009, the cost of investments was \$136,395,561.

Gross unrealized appreciation and gross unrealized depreciation of investments at January 31, 2009, were as follows:

Gross unrealized:	
Appreciation	\$ 3,045,787
Depreciation	(14,650,102)
Not consolired against interest (decreasing) of incontrasts	+/11 CO4 215
Net unrealized appreciation (depreciation) of investments	\$(11,604,315)
